The Pow-Wow

Winona Normal School
NORMALITES LOSE TO HEAVY SWEDISH ELEVEN IN STIFF TILT 12-2

Both Teams at Disadvantage on Muddy Field—Barlow Downs Man Behind Goal Giving Normal Two Points, Snyder's Tackling a Future.

Because of a wet and slippery field, and a penalty on the one yard line, the team was defeated by the Gustavus Adolphus College by the score of 12-2 at St. Peter on Saturday. Our passes were too much for the swedes, Cassedy and Rogen being able to make long gains by them. In the second quarter, Gustavus pushed the ball down the field in short order, and succeeded in scoring two touchdowns. Our line drives netted us consistent gains. Snyder's tackling was one of the biggest features of the game.

Barlow received the kick off and returned the ball to Gustavus Adolphus' 30 yard line. By playing straight football, we succeeded in approaching dangerously near our opponent's goal, but the ball lost on downs. Winona again took the ball down the field with big strides, but again it was lost near the goal on downs. Gustavus fumbled behind its goal, and Barlow downed the man in his tracks, making a safety or two points for the Normal.

The swedes scored their only points in the second quarter after a series of line plunges and end runs. Both teams fought to the limit.

FOOT BALL DANCE PLANNED

As the football season draws to a close, attention has been given to the idea of a Foot Ball Dance. The members of the faculty have set the date of Sat., Nov. 22 for this event. This dance is to be a formal affair, to be held in the gymnasium of the Elementary School, which is to be decorated for the occasion. Music will be furnished by Herrick's five piece orchestra, and refreshments will be served.

Everyone keep this date in mind you can't afford to miss it.

PIANO DEMONSTRATIONS AT M. E. A. SUBJECT OF TALK TO MASON MUSIC CLUB

Mason Music Club held its third meeting on Monday, Nov. 11. Each member responded to the roll call by giving some current music event. Miss Smith talked on the discussions and demonstrations given at the musical sections of M. E. A. Special attention was given to the wonderful piano class demonstrations given by Mr. Gueldings of Minneapolis. By his method, classes that had taken five lessons were able to play songs in nine different keys, transpose songs into any key asked for, were able to fit a very simple bass to a given melody. After Thanksgiving, the Club will take up the study of some Children's Operettas and work them out with the club members.

BIBLE STUDY WORK EXPLAINED AT Y. MEETING

At the recent meeting of the Y. W. C. A. held in the High School room, Miss Katherine Strong, Chairman of the Bible Study Committee, explained the work of this branch, which supervises the study classes started last year. Each group has a leader, who holds the first meeting and the other girls in turn. The next appearance of their talent is to be at the Thanksgiving Commencement exercises. During the remainder of the year other plays will be given. As the year progresses, it will without doubt give Commencement exercises. During the commencement any the clubs in school. The officers are:

President
Vice-President
Treasurer
Secretary

George Ade says, "Indiana is a good place to come from." Mr. Stalcup thinks so too.
The Pow-Wow

CAMPAIGN OPENED FOR LARGER ENROLLMENT

Names of ten prospective students residing in Minneapolis, were turned in Friday morning to Mr. Reed after he had given a brief explanation of the present campaign for a larger enrollment. The school is already beginning this year’s drive by starting on the Minneapolis High School students who will be graduated this winter.

SHADES OF THE IMMORTAL

Scotland Shakespeare It’s Here At

At last the puzzle is no more. In the mail of Friday morning, we received the following letter from our old friend Miss Gertrude Gerrigan, recently employed as secretary to the third assistant of the vice council of the great Detective Agency, Boyle and Bubble of London. We are indeed thankful to Miss Gerrigan for unravelling the mystery of the hotel lights, known to all readers. Her letter in part follows:

Dear Editor of the Pow-Wow:

I have discovered the answer to the question which appeared in our recent editions, and gave much distress to faculty and students. (Staff included.)

Why are lights in hotel rooms, etc. Its perfectly simple, why the lights are so arranged as a means of reducing the H. C. L. How so?

By the aforesaid arrangement it enables one to have one’s rolls in bed, but coffee is still served in the breakfast room. Next?—Gert.

SCHOOL NOTES

Miss Emma Kent has been called to her home at Sleepy Eye, Minnesota.

Miss Julia Hubbard, acted as assistant at a recent institute conducted at Hutchinson, Minnesota. While there she was able to see several members of the Alumni.

Miss Gildemeister will attend an institute at Brainerd, Minnesota this week. She is to be one of the speakers.

The regular visits by members of the faculty to former students, will begin soon. This is known as “follow up work.”

The Juniors held a class meeting Friday morning following the Chapel Exercises. The question of class dues and their payment was discussed.

All the men in school who had been in the service, were given information concerning their war-risk insurance by Mr. Dickerson.

A very delightful program was given by the students on Friendship Day. Songs by the Girls’ Quartette and Men’s Octette and a solo by Carlton Neville were the musical numbers. The principal speaker being Dr. Elliott of St. Paul, an ex-army Chaplin.

The pennants and pillow covers that have been on exhibition in the assembly room, have been placed on sale at the main office.

The Kindergarten Club held its regular monthly meeting on Tuesday, Nov. 11. Reports from various committees were given.

Asusual

Mr. French: (Giving values for unknowns.)

“Twenty for x; ten for y; one for z; and nothing for n.”

OUR DUTY

All of us must work! Work is a saving grace to each individual and to our country at this time. At present the country is in a state of upheaval, and it will remain in just such a state...

IF YOU WOULD BE A SUCCESSFUL SHOPPER

Why Does Your Taffeta Dress Split So?
—Men, Do Your Silk Shirts Wear Out Quickly?

Readers! Do you know that there is something doing in Miss Collins' second hour textile class? The girls are really learning how to buy their clothing with reference to appearance, wearing quality, and cost. Girls! Why does your taffeta dress split so? Have you ever wanted a stiff silk dress, but you did not get it because it would soon crack? Do you know that it is metallic weighting that makes this silk stiff?

Here is an interesting experiment for that new party gown of yours. Place a sample of your silk in a hat oven and let it stay for about two hours. At the end of that time, it will look like black silk. Take it out and see if you can burn it. Because it does not burn, the class said that some magic work could be done by showing your friends that black silk won't burn. Try it when you go home Thanksgiving. Show your friends that you've learned "something."

Boys! Have you ever had a silk shirt that went completely to pieces after a few weeks wear. Ask the textile students. They will be glad to explain it to you.

Why is it that the cloth used in the uniforms of government employees does not fade. Upon investigation, we find that our government has certain requirements which must be enforced when any material is bought by the United States. These tests must be used: namely, the washing test, the laundry test, the roof test, and the perspiration test. If the cloth does not pass these examinations, it is thrown aside.

In the same way, have not the girls of this country a right to know whether the cloth which they are buying, will stand wear and repeated washing? This is what the people of today who are interested in textiles are working for.

ST. MARY'S COLLEGE ELEVEN OF WINONA OUR NEXT OPPONENT

(Concluded from page 1)

the game, it is easily seen that St. Mary's has a very credible eleven.

However, be that as it may, our own team can easily take care of themselves in spite of such worthy opponents. The line is estimated to weigh 170 pounds. Their driving power has been greatly increased as a result of hitting such teams as Eau Claire and Shattuck. Likewise the backfield has finally secured the winged shoes to their feet, and will demonstrate their remarkable mercurial ability to what is hoped will be the largest crowd of the season, next to the one on Turkey Day. It is up to the 400 students to appear on the field and just "holler your head off."

3 Reasons Why You Should be Glad You Can Attend the Winona Normal School:
1st — It is a GOOD school, and while there MAY be other schools as good, you are not taking chances.
2nd — By attending this school you can be in Winona, a most desirable place to live.
3rd — The Winona Normal is located in the same city as the Williams’ Book Store.

MEN’S CLUB NOTES
The members of the Men’s Club are planning a drive. The purpose of this drive is to raise funds for a victrola or piano.
They are instituting this drive for the purpose of saving their “soles” from degredation which will surely result from nightly pilgrimages.
The men have a tendency to stray from the fold of late, because the piano and victrola which they had has been returned to school.
Music hath its charms, therefore their steps turn toward the Colonial.

The Senior Kindergartners entertained the Junior Kindergartners at a “Kid Party” Saturday evening, November 15. Everyone came dressed as “Kids” and the evening was delightfully spent in playing Kindergarten and competitive games. The Juniors learned much about their future in peanut shells. Refreshments consisting of ice cream, cookies and stick candy were served after which informal dancing was enjoyed.
