ACADEMIC COSTUME

The ceremony and academic costume at commencement exercises symbolize the record of academic achievement of the various individuals taking part in the exercises. The following brief description is given that the audience might more readily interpret the academic costume.

The use of academic costume reaches back to medieval times and the beginnings of the famed old universities of Europe and England. Gowns (long, full robes) and cloaks with hoods were common garb. The unheated buildings frequented by medieval scholars certainly were an important factor in the choice of clothing.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves. Winona State University commencement gowns are black. In foreign countries, gowns are of various colors.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline.

An old poem first published in 1564, "The Ballad of the Cap," suggests that the square shape of the scholar's cap or mortarboard denoted the stability of scholars and their books.

The hood gives color to the academic costume while its length indicates the wearer's academic degree. Hoods are made in a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree. Winona State University's colors are purple and white.

The colors used in the edging of hoods, for tassels, and in some cases for the trim of doctor's gowns are associated with the discipline.

A partial list of degree colors is as follows:
