FRESHMAN CLASS LARGER THIS YEAR THAN LAST

CORRESPONDING INCREASE IN UPPER CLASSES

Freshman class has usually been the largest group of people anxiously expecting the day of their arrival, asking innumerable and unanswerable questions about everything from the changing of the guard to the properism for getting an education, and this year, it seems, the question has been augmented by several students looking forward to the last ten days of September as a time of amusement and activities. THE WINONAN

WELCOME FRESHMEN!

In almost every case the Freshman feels that he is looked upon as inferior and not in the elite class as are his upperclassmen. From the latter's point of view this of course is not true. The upperclassmen rather than lowering beneath a hood of concrete, are really trying to reconcile the Freshman and the upperclassmen, every truth to reconcile them to their new surroundings. The upperclassmen are ready to answer questions and to give advice at any time if the freshmen will only ask them. They are the Older classmen, so far as our large family of upperclassmen is concerned.

In welcoming the freshmen, I would like to have them know that the spirit that reconciles the Freshmen to the upperclassmen is the same spirit that reconciles every Freshman to the College. This is the spirit that reconciles every Freshman to our own—first as guests, then as guides, then as friends. For example, if a Freshman is ever in trouble in his life, he will turn to his older classmate who is going through the same troubles. If they feel that the Upperclassmen are ready to answer questions and to give advice at any time if the freshmen will only ask them.

Years ago Dr. David Starr Jordan said, "The boy who cannot be taught is not worth teaching." Dr. Arthur T. Hadley, former president of Yale, went a step further: "I believe in the kind of education that teaches a man to think differently."

Learning to think is the most valuable advice to be given to college students. Too many people do not think or their thinking resembles the thinking of automatons. Clear and consecutive thinking is a mind that can begin to see what St. Paul meant when he said 'spiritual things must be spiritually discerned'. I am sure that all serious people are agreed that we never can know reality by simply thinking about it. We must spiritually discern it.

Stout made eight first downs, but went back to the Manhattan State Teachers College. Last summer she was a member of the University of Michigan faculty.

Miss Pendergast remarked about the fine football spirit in evidence here which, she says, isn't found so much in a two year school.

COACH MULLEN

Introduction Tom Mullen of Sellers-Woody, Wash., continued to coach the 1931 football season. This was the "jumping" year that this college had been in the University of New York.疣

This year's sports program will be similar to that of last year (including field-hockey, soccer, basketball, etc.).

Regular amateur matches will begin Monday, the final examination having been completed.

The Majors have begun their formal party on get-acquainted picnics at Blashe

Nothing pleases the coaches more than lots of support from the student body at critical moments. Let's see that he gets plenty of it.

When some rousing yells were given for the team.

A clever left end and dummy was worked out, much to the amusement of the student body.

At the close of the program the liminaries of the football squad were introduced and their positions and introduction explained by Arthur Taft, manager.

FEMALE ALUMNI TELL OF PROMINENT XHIBITION MATERIAL

Although overweighted in the line, the Winona Teachers College took advantage of the fact that their team was of large stature and kicked a goal, choosing the right end of the T. C. field, both from a financial standpoint and student support.

This game was by far the most exciting of the season. Roy Stuhr was the most successful member of the defensive line and made two pretty catches on passes thrown to him all season.

As for Stout, Brunis was the outstanding player making 10 to 20 yard runs, and Stuhr the all-conference end did some nice pass receiving and blocking.

The depression has even hit the Teachers College males. This year there are only three girls to each one of the eleven boys.

"Cooky" Vukolich wonders why the results of the games aren't included, too, in the information shown on the right arm of the Winona High sweaters.

For varied and complete education where one can find a more interesting place and time than at the dinner table of a group of college men and women.

Ray Happe has appeared before the campus activities. His best venture is the piano. Maybe he'll be another Beethoven, or a Chopin, or a Whistler.

Bob Griffith, too, has been in the "public eye" very often. His latest expediency was that of a man at a wedding. Perhaps some venture is the piano. Maybe he'll forget that I owe you five dollars.

What is Bob Griffith the only individual who is "cooking" on the most light saving time? At least he's the only one who has set his undergarden according to line.

Mr. Grinn and Mr. Torgerson of the W. S. T. C. Faculty hereby announce that they are willing to take on anyone in a "Post Story Swapping Contest".

Miss Roebide (to Paul Nissen trying out for Apollo Club)— What do you sing? Nissen—First Soprano. Miss Roebide—But can't you sing tenor? Nissen—Oh yes, ten or twelve.

The first thing all Freshmen boys learn is the telephone number for Moory Hall.

The most impossible thing in the world.—A few dropping a ten dollar bill on the sidewalk, and a Scot picking it up and giving it back to him.
