Winona Debaters Win Their First Home Meet

Moorhead Loses 3-2 Decision to Negative Team

By a 3 to 2 decision, the affirmative debate team defeated the Moorhead team at the state tournament. The debate centered on the question of whether or not the government should provide medical care for all citizens. The affirmative side argued that a government-run health care system would be more efficient and cost-effective than a private insurance system. The negative side countered that private insurance companies would be better at providing the necessary services.

COACHING STAFF

The rest of the year, they have continued to improve their debating skills and are now ready for their next tournament. They are looking forward to facing some tough competition and hope to come out on top.

Head of Industrial Arts

Department Succumbs

John H. Sandt, head of the industrial arts department, died suddenly March 4. He was 80 years old. Sandt was known for his dedication to his students and his commitment to the field of industrial arts.

He was born in Vineland, N.J., in 1892, and attended the University of Pennsylvania, where he received a degree in mechanical engineering. He then worked for several years in the industrial arts field before returning to the university to teach. He was later appointed head of the industrial arts department.

In 1932, he became the head of the industrial arts department at State Teachers College. He served in that position until his death. During his time at the college, he was known for his commitment to providing the best education possible to his students.

He is survived by his wife, Helen, and their four children. A memorial service will be held at the college on March 17. Donations in his memory can be made to the John H. Sandt Scholarship Fund at the college.

John H. Sandt, 80, former head of the industrial arts department at State Teachers College, died March 4. Sandt was a well-respected educator who served the college for over 30 years.

He was a member of the American Association of University Professors and the National Education Association. Sandt was also a member of the board of directors of the National Industrial Arts Association.

A memorial service will be held at the college at 10 a.m. on March 17. Contributions in his memory may be made to the John H. Sandt Scholarship Fund at the college.

John H. Sandt

Registrar Explains Certificate Laws

Upper classes hear discussion of new state laws

As a meeting of junior and senior students held recently, Miss Richardson explained the changes in the new legislative bill that affects teachers.

There are two classes of certificates, elementary school certificates and high school certificates.

Elementary school certificates qualify the holders to teach in any elementary school, and are issued to persons who have completed the four-year course. Elementary school advanced certificates allow the holders to teach in ungraded elementary schools only, and are issued to persons who have completed the four-year course in the college.

Special Issue Helps for Tour

That the Winonan is effective in its publicity has been demonstrated by the inquiries which have resulted from the circulation of the Winonan. The newspaper has a wide distribution and is read by many people. The newspaper is distributed to the various sections of the community, and is also available for sale at the college.

Special features of the latest Winonan include the following:

- A series of humorous cartoons by a local artist
- A detailed report on the sports events of the week
- An article on the latest developments in the local community

The newspaper is published weekly and is available on the college campus.

GOOD JOURNALISM

"Sight not what’s near through aiming at what’s far.
That is what we are to do. Still it is greatly what is done in the making of many observed scenes. People seek so far away for news that they often neglect the important, interesting things right at hand. In many cases, too, there are valuable sources of school news which demand to be sought out and made use of. This is being realized and as more scenes are being played to journalism by schoolmen, journalism certainly gains in importance as our experience with expert guidance is being provided. Books and magazines are being written on the subject. Staff members should keep the possibility of this moral and applaud the best of this material to our people.

Good journalism includes not only writing a record of events and speech but also, of course, portraying a picture of the world. School news is a part of this picture. In this way, school news plays a part in the making of the first American flag; to Christ’s ministry and to the life and work kept him extremely busy, Mr. Sandt could always serve his country.

tical events or without requisite intellectual

First when we see them painted, things we have passed by and to others. In this, the teacher works with the student and helps him to see the great realm of the world. To open their eyes to the great realm. "Bishops are not really stiff and formal. In the English House of Commons, it is not a good thing for a politician to speak too much to the people in the house

IT IS NOT ALWAYS EASY:

There’s something about dieting—you never get used to it.

So, Oh Dumb

Offering—"You can’t turn around in this situation.

Fair Muriel—"Oh, but I’m a better person than you.”

IT IS NOT ALWAYS EASY:

To begin over

To be tired

To be allowed

To be too slow

To think nothing

To forgive nothing

To profit by mistakes

To shelter a beloved House

Mr. Sandt First Basketball Coach

Journalism Student Held Interview Shortly Before His Illness

"I have always been interested in newspapers since I was young," the cousin Mr. J. H. Sandt, for Winona State Teachers College, is a basketball coach. "There was no physical education when I was young, but when I was having played basketball I was the one who could most easily remember to coach. In my high school and university days, we had football teams before putting up basketball. Although basketball was played mostly for fun, it was really serious injury. Practice was very well as the team 12-13 at the first game at Forest City held. This team had passed the usual tests. Sandt had several 0-0 for this first test. Forest City was a small team. For the boys in the years there was little to play for in basketball. There were no movies to go to. The college boys played to make a living at this time. Basketball was not practiced as a profession because this is not a way to play. A larger male is the ideal form for the game because for practice. More than a dozen boys in small town that there was considered a major league. Forest City played in what was called the "Little League." The court of the building was used as a driving range.

Psychology Class Uses Pneumograph

Methods which suggest the principles involved in the "3-6-9-12" test is in the present condition of the study of psychology. It is an elaborate device for measuring normal and abnormal mental conditions and the depth of observation. The subject of the operations, the "3-6-9-12," is a particular purpose, and include during the performance of the experiment. Thus pneumograph as a whole is a self-regulating and self-governing device, and is not a self-guiding and self-instructing device. It is a great way forward in the scientific psychology for a teacher's understanding of the subject.

To observe the phenomena in the human, we are to use the pneumograph with a special machine, and control the rhythm of the mind. The mind is divided into normal and pathological conditions of the subject.

Book Reviews

The Consideration of the "Tong" by Howard G. D. Collyer

In this volume, the mother immersed in the social and moral problems of the "Tong" people. She explores the significance of the "Tong" problem in the development of the Chinese community. The book is divided into two main sections: the first section focuses on the historical background and the second section examines the social and cultural aspects of the "Tong" society. The book concludes with a detailed analysis of the "Tong" problem and its impact on contemporary society.

Miss Trites Directs Rural Institute Here

The most recent issue of the "Tong" magazine was devoted to the topic of rural education. The issue includes articles on the impact of technology on rural education, the role of educators in rural communities, and the challenges faced by rural educators. The magazine also features interviews with rural educators and community leaders, as well as articles on rural arts and culture.

Student Hobby Is Collecting Insects

Mark Thrun Has Specimens of Butterflies from many Foreign Countries

Mark Thrun, a first-year student in the school, has a keen interest in butterflies. He has collected and studied butterflies from many different countries. Thrun's specimens are housed in a collection that includes species from all over the world. The collection is open to the public, and Thrun invites visitors to come and see his impressive collection of butterflies.
Council Considers Honorary Society

Now looks for choosing one college man and one college woman to receive special honours are being considered by a committee of the Honorary Society. In the past the committee has selected two students, one before the beginning of the academic year and the other at the end of the academic year. This year, however, the committee will select one student from each of the two major classes, the Freshman and the Senior. The selection will be based on the students' academic records, leadership qualities, and overall contributions to the life of the university.

Mr. Simmers Talks on Mount Vernon

A series of illustrated lectures on the subject of Mount Vernon will be given by Charles Simmers, a member of the faculty of the History Department. The lectures will be held in the basement of the Main Building, beginning at 8:00 p.m. on Tuesdays. The lectures will cover the life and times of George Washington, his achievements, and the political and social events of his era. The lectures will be illustrated with slides and photographs, and will be open to the public.

Mr. Watts is to Be Student at Yale U

Both Beth Watts, head of the department of Drama, and Miss Martha Dallmann, supervisor of the Drama Department, will be attending the Yale University Drama School. Miss Dallmann will be attending the summer session, while Miss Watts will be attending the fall session. The purpose of their attendance is to study the methods of teaching and producing plays at Yale, and to exchange ideas with the faculty and students.

Teachers College Friend Succumbs

Judge E. T. Torrance, number of the State Teachers College Board for eighteen years, died at his home in Winona, February 18. As a practicing attorney in Minneapolis for fifteen years he was prominent in business circles, and legal circles. In 1905 he was appointed Commissioner-in-chief of the Grand Army of the Republic. From 1903 through 1909, he was president of the State Teachers College Board. During this time he did much for the teachers college. Though he has had a number of special recognitions of his service by naming one of its dormitories, Torrance Hall, in honor of Judge Torrance.

17 To Be Presented, 4 Receive Degree

Grads from the College as of the end of the spring quarter total seventeen in number. Of these, four will receive degrees. They are Walter Rupp, Mountain Lake; Charlotte Sunde, Winona; Ruth Lockhart, Minneapolis; and Donald Kever, Red Wing.

Mrs. Martha Stettbacher

The following students will complete the four-year course:

- Angela Amsden, Kincaid
- Cheryl Nelson, Blaustein
- Emeline Olson, Winona
- Florence Barnett, Sonora

Upon seeing the different government policies and the need for national unity, the students have decided to make a donation of $5.00 each to the United Nations. The donation will be sent to the United Nations office in New York City.

The Dinner Party Season

The Dinner Party Season is now in full swing. The parties are being held in various locations, and the guests are enjoying the food, conversation, and company.

Winona Taxi and Baggage Co.
