CATTLE FEEDERS’ DAY
April 22, 1921, is announced by the American Dairy Association as the National Cattle Feeder’s Day. This date is observed each year as a day to honor the cattle breeders and their efforts in producing quality meat and dairy products. Throughout the day, special events and activities are held to celebrate the hard work and dedication of cattle breeders and their families.

Cattlemen and cattlemen’s wives are encouraged to participate in the activities, which include a variety of educational sessions, workshops, and roundtable discussions. The day is also a time to recognize the contributions of cattle breeders to the economy and the environment.

For more information, visit the American Dairy Association’s website or contact your local dairy farm for details on how to celebrate Cattle Feeder’s Day in your area.
