**Sonju pledges a voice for students**

Observing the current situation of student government at Winona State College, there are certain areas that I believe can benefit the student body and the college more if conditions were present that would produce positive results.

The voice of the individual student should be allowed and acknowledged in presenting enthusiastic programs directed toward enriching the campus and college and each student.

Many people have expressed the desire that the institution be more concerned with the affairs of spirit, direction and personal acknowledgment the Winona State College student Senate could become a common ground for achievement.

**Albee stresses more responsible committees; change if necessary**

TO THE STUDENT BODY:

We believe in the affirmation of the Constitution of the Student Senate of Winona State College that the purpose and authority of the Student Senate should be directed toward the welfare of the student body, there being a need for a common ground for achieving improvement.

A common ground for achievement will greatly enhance consideration in politics and policies.

In the nature of tri-college development we see the Winona community as unique in the college community. We, therefore, recognize the importance of tri-college development and the need for tri-college development on the Winona campus.

We believe the Senate should support the improvement of tri-college development and the need for tri-college development on the Winona campus.

First, we feel that campus community relations can be improved by student interest in community problems. The city provides a client for the college. The college receives a tremendous amount of its livelihood from the college community. We think Winona should recognize the expertise within many areas on the campus and that in development and planning the city, make provisions for student needs in housing, purchasing and entertainment.

Second, we feel that the lack of student interest in community problems. The city provides a client for the college. It receives a tremendous amount of its livelihood from the college community. We think Winona should recognize the expertise within many areas on the campus and in development and planning the city, make provisions for student needs in housing, purchasing and entertainment.

Finally, we feel that campus community relations can be improved by student interest in community problems. We believe the Senate should support the Senate in its attempts to establish community relations.

**Von Feldt's 'Mickey Mouse' policy endorses campus change**

Von Feldt's 'Mickey Mouse' policy endorses campus change.

I would like to take this time to announce my candidacy for the position of Student Senate President and present my platform.

When people come to me and ask why I'm running, I tell them that I want to see changes made around the campus. Then they usually offer a few suggestions like why not more parties and leave the 'marginal' student out of the picture. People if you're one of those people, I'm sorry but I'm not going to be president.

I believe that the purpose and authority of the Senate would produce positive results.

I believe that the purpose and authority of the Senate would produce positive results.
Winonan steps back. Albee for SS President

Traditionally, the Winonan has backed candidates for positions on the Student Senate and this year will be no exception. A poll of the staff indicates that Stephen Albee should be elected to the Student Senate presidency. We feel this way for a number of reasons.

First of all, Albee has committed himself to several stands. Read his platform on page one and draw a conclusion for yourself. No other candidate has taken a concrete, concrete stand. They are characterized by common "political rhetoric."

Albee has proposed a "lock in the arm" for the Tri-College Debates and a "quality" for the Student-Faculty Judiciary Committee for last week's misdeeds. In addition, he has stated that the undergraduate "is" the major party of the Student Senate.

Secondly, your presidental aspirant has proposed a campus-community relations program, a much-needed facet in a triple-college community. Although this has been proposed in the past, we trust Albee will have the courage to make it a reality.

Another proposal concerns the graduate program. Winona State strifes for excellence in the B.B. and B.A. degree programs, but lacks in the graduate category. If the administration's aim is to promote excellence in all levels, then it follows that the graduate program should receive an up-grading. Stephen Albee has proposed just that.

Note the terms "we" and "our." The Winonan staff feels this already indicates an interaction between candidate and student. This is a prerequisite for the Presidential office.

The staff believes the inclusion of his personal beliefs has depth, and depth is perhaps the greatest asset any candidate can possess.

THE WINONAN STAFF

The staff also urges the selection of Steven Lindsley for vice-president and Steven Callis as senator. These two aspirants have the knowledge of the committee structure of WBC which is essential, for they will be power for the Student Senate — something it lacks at the present time.

Q. Is Richards Hall going to be opened next year? L. Menden. A. Mr. Marler states that the fate of Richards for next year is uncertain. Richards will not be taken off the market, because they caused bad rumors in single people. The brands were proven by Upham and matched with the brand of company. Granted women are not expected to go out openly, but the research scientists had cause to be worried. There is still an ocean- side gymnastic coach. No social studies.

The second medical reason is the intellectual exercise which is increasing 15% a year and syphilis is increasing 6% a year. 60% of the cases of syphilis are in teenagers and 79% of the cases of gonorrhea in teenagers. To me it is the height of inconsist- ency to worry about the increase of venereal disease and to encourage it at the same time by an increase of intellectual activity.

The third medical reason is psychological.

Some studies have revealed that there is a close correlation between adolescents and venereal emotional breakdown. Some of these young people have even become psychotic. This is true of boys as well as girls. Some of the males have been driven into impotency and homosexuality by the aggres- sion and precociousness of girls. These three are important medical reasons to consider.

Next let's talk about rights and respect for love and marriage.

The first medical reason is economic. The second medical reason is ethical.

The first medical reason is the third medical reason is that there would be no colleges.

If there were no colleges there would be no women. If there were no colleges and Winona might become a suburb of Minnesota City. So why do some Winona merchants slight the second marketing appeal and effectively lay them a golden egg.

I read that a rock fest is being planned for northern Minnesota that will be bigger than Woodstock. Paaahaaaaaaah out!!

Students are receiving an upgrading. Stephen Allbee has proposed just that.

The staff believes the inclusion of his personal beliefs has depth, and depth is perhaps the greatest asset any candidate can possess.

Phase III is now in second phase

Phase III of the Winona State College union has progressed through the schematic design development stage. The construction of the middle section of this wing will make it possible to provide the necessary space to relax, study, read, or converse.

To accomodate the use of an eight mode program facility, and the other a general listening area. Incorporation of a multi-purpose, television, theater, and movie-viewing area has been included as well as a general purpose facility, and the other a general listening lounge. By means of moving partitions, these two areas can be combined to seat a minimum of 250 individuals. Dorm room facilities, located adjacent to the music transcribing area for students is located adjacent to the music transcribing area for students.

Additionally, it is anticipated that the main office of the college union will be moved into a complex adjacent to the student activity center. Construction completion of this facility is targeted for fall, 1972.

Alpha Xi Delta Pi pledges eleven

Alpha Delta Pi has accepted 11 pledges for winter quarter. They are: Elizabeth Boelke, Flimney; Kathy Daniel, St. Paul; Jan Garry, Minneapolis; Stephanie Johnson, Flimney; Karen Nieppoldt, Newport; Barbara Nilsson, Minneapolis; Sandy Peterson, Red Wing; Ann Schweich, Robbinsdale; Katherine Kelly, Wayzata; Lorrie Smith, Minnetonka; Anne Beth Robbinsdale, and Zona Wood, Olivia.

Out-patient clinic established for legalistic deprivations

A legal assistance clinic has been established at Winona State College. The services of this clinic will be available to students of Winona who are unable to afford private counsel.

The clinic will afford counsel- ing service to qualifying students at no charge. Those students who can afford private counsel on whose problem involves a civil liberty issue will be referred to members of the Winona Bar or the American Civil Liberties Union.

Initially, the clinic will operate on a trial basis with services being afforded at no cost to the student or the college. If it is found that the demand for these services should increase, thereby affording the full time teaching responsibilities of the director, arrangements may be necessary.

Appointments with students who can afford private counsel at times as are mutually convenient to the student and the director of the clinic.

Students who wish to afford themselves of these services will fill out an information form in S-313. Students who qualify will then be contacted and an appointment arranged.

Questions or inquiries may be directed to Judy Gernander, Attorney at Law, 404 Roosevelt, telephone 487-8909.

Math courses subtracted

The Department of Mathematical Sciences has recently determined that certain required courses are to be offered only once each year.

This decision is based upon the enrollment load in these courses. The Department of Mathematical Sciences has decided that Math 320, Teaching of Math in the Secondary Schools; and Math 322, Modern Geometry, are to be offered only once each year.

Starting with the 1971-72 academic year, Math 320 will be offered during the Winter Quarter, and Math 322 during the Spring Quarter.

What you should know about diamonds when you know it's for keeps

You've dreamed about your diamond engagement ring a thousand times. Now, when you know it's for keeps, it's time to stop dreaming and start thinking about diamonds and their value.

Not all diamonds are equally alike. Jeweles have adopted a standard system to determine the relative value of each diamond in the world. These standards include a diamond's weight, color, clarity, and cut.

Although it's important to know the facts about diamonds, you certainly don't have to be an expert to choose a Keepsake Dia-

mond Ring... because Keepsake guarantees a diamond of fine white clarity, cut and color at prices you can afford. And, as the Keepsake Keepsake certificate provides permanent evidence of your purchase, trade-in value and position against loss of diamond from the setting.

Student role emphasized

Political science innovates plan

by The Political Science Dept.

Student demonstrations, pro-
tests, sit-ins, violence and var-
ious other types of student con-
frontation have clearly illustrated
that the college of today and the
college of the future must
broaden their structural frame-
work to allow for student partici-
pation in decisions affecting their
lives.

Students in the past have not
been given positions of responsi-
bility outside of the classroom,
but rather have been treated as
distanced, apathetic, irrespon-
sible entities to be manipulated
by faculty and administrators. One
consequence of this "soft ful-
filling" prophecy has been the
tendency for student behavior to
reflect this spirit of non-involve-
ment on alienation. As a partial
solution, we hope that student
representation will bring together
the faculty and the students in
a mutually rewarding and coop-
erating experiment in the "New
College," — perhaps reducing
students feeling of powerlessness,
sense of futility in the direction
of their lives and vague unformed
fears.

Student representation reflects
a step — no matter how small,
toward the reduction of the dis-
distances between students and the
college, and to some extent,
between the students and the
college as a whole. Student partici-
pation might well inspire better
communication and serve some

City Senator George Cons-
mitus, Cannon Falls, issued a
statement saying Winona State
College was rated in the upper
half on a list containing some of
the worst polluters.

Cannon Falls senator alleg-
et that Winona State releases
more than 99 tons of sulfur diox-
ide into the air each year, mak-
ing WSC number 18 on the 29-
member list.

The University of Minnesota
was up as the campus list with a
total of 1,620 tons a year. The
lowest emission rate cited was
Brainerd State College with .14
tons.

Jerry Pruett (left) and Dave Kryzer (right) are using a hydrorod to sample Lake Winona in October. This event was funded by the National Science Foundation. They usually sample the lake's oxygen levels because the lake is under eutrophication, which is a condition of excessive plant and aquatic growth. The hydrorod is an instrument used to determine the oxygen level of the lake at various depths.

Why Is Black Beautiful?

by the Black Student Union

This article will concern itself with the taking of data which might produce helpful answers to the question of how some fish are surviving the winter kill in the lake.

Jerry and Dave have been working on the problem of what happens to the lake's oxygen levels during the winter. They have found that there is a higher concentration of oxygen in the bottom of the lake during the winter. This is because the oxygen levels in the lake are lower during the summer months due to the photochemical and biological processes that occur. This higher concentration of oxygen in the winter can help some fish survive the winter kill.

Eutrophication is the term for the process by which a lake becomes more fertile. This can happen due to increased nutrient levels from runoff, which can result in an increase in plant and algal growth.

Jerry and Dave have been working on this topic for over three years. They have observed that there is no oxygen in the bottom of the lake during the summer. However, during the winter, the oxygen levels in the bottom of the lake are higher. This can help some fish survive the winter kill.

The Institute of International Education announces publication of the 22nd annual edition of Summer Study Abroad, an annual guide to summer programs for American and foreign institutions.

Dom prices to stay the same, but bed styles may change

Dormitory and food prices at the state colleges will remain the same next year, but the style of dormitory living may be changed in an effort to increase the per cent of occupancy.

The state colleges have more than 2,000 empty beds at the present time, resulting in a 6 per cent occupancy. When the residence halls were constructed the Board had anticipated the student population to be more than the river. He also noted that WSC students must live in dormitories and that the residence halls were constructed with the idea of having a dormitory on the campus.

Satori staff meets

The SATORI staff will hold its regular meeting tonight at 7 p.m. in Conference Room 3 of the Student Union. Anyone interested in working on the staff is invited to attend.

MORE LETTERS

Winona State - 'Brand X College.' Think about it.

I address myself to the children who have been playing outside of Prentiss-Lucas and Morey-Kerr for the past two weeks between 11:00 p.m. and 1:00 a.m. Your shouting, window breaking and obscenities are hardly what we would expect from mature and responsible students.

You don't bother my sleep, as I don't go to bed until after your tenth grade vocabularies are exhausted anyway, but I'm sure there are some who are bothered. Particularly the women I hope there are women left who are bothered.

I'm beginning to feel that Prentiss Hall was on to something when he suggested that juveniles may be turning WSC into a "Brand X College." Think about it, boys.
'Owl and Pussycat' reviewed

by Donna Nielsen

Barbara Streisand has always displayed a talent for "singing and acts," and, currently, in "The Owl and the Pussycat," at the Uptown Theater in Winona, she appears as an actress alone. It's a pleasant change from, say, George Segal plays "the Owl," a study book store clerk with pretensions as intellectual and stuffy book store clerk with pretensions as intellectual and part-time prostitute who becomes involved with the intellectual Segal. Blood, Sweat and Tears, one of the top pop music groups in the country, performs the music on the soundtrack, in addition to having penned the lyrics for the music composed and arranged by Richard Halperin. "The Owl and the Pussycat" marks the group's first motion picture assignment.

Many of the scenes in the picture were filmed in off-beat locations. These include a barbershop on Fifth Avenue, a diner on 55th Street, and 40th Avenue, the blue 45 on West 45th Street, the World Theatre on 49th Street, and a porn shop on Eighth Avenue. More tourist-worthy locations included Lincoln Center, Central Park, the new General Motors Building, and the New School for Social Research.

"The Owl and the Pussycat" is a Columbia Pictures Pictures of the Week! Productions Presentation," and is rated "R."

Montessori school hosts art show

The Delaunay Montessori School, 270 Hamilton Bt., will conduct this art show Friday, Saturday and Sunday at the J. C. Penney Co.

Hours of the show will be from 10 a.m. to 9 p.m. Friday and Saturday, and 12:30 to 4:30 p.m. Sunday.

Theatre uses mixed media

The Wesnoth Players are sponsoring the production "Theatrie of the Mind," on March 11 and 12 in the rehearsal room of the Performing Arts building. There will be performances daily at 7:30 p.m. and 9 p.m. with free tickets available to the public in the lobby of the theatre before each performance.

The production utilizes mixed media techniques and a symphonic voice of voices in an exploration of the mind and the mind's world.

Turn in drug survey

Over three thousand Student Drug Surveys were distributed to U.S. students last week, all full-time undergraduates should have received one by this time.

According to its directors, the purpose of the survey is to provide educational information and will not be used in any other manner.

Each survey is completely anonymous, so no follow-up letters will be sent to those who have not returned one. Students are requested to complete the survey and mail it in this week.

Contact Eurojob for employment

A new twist to the solution of summer jobs for college students has been announced by EUROJOBS, a Greenwich, Conn.-based program affiliated with the American Institute for Foreign Study. Having acknowledged that jobs will be increasingly difficult to locate in the U.S. this summer, many students will find that EUROJOBS has the solution.

This program offers a wide choice of jobs — ranging from a farm job in the Swiss Alps to a position in the State Theater in Winona, she described herself as "an actress alone. It's a pleasant change from, say, George Segal plays "the Owl," a study book store clerk with pretensions as intellectual and part-time prostitute who becomes involved with the intellectual Segal. BB season closes

Warriors see early finale in playoffs

by Mike Loechler

Winona State’s basketball season came to a sudden halt Monday night by dropping a 74 to 45 decision to St. Thomas in their first playoff game. The Warriors made the playoff February 23 by defeating St. Cloud and thus clinching the runner-up spot for the district 13 playoffs. The St. Cloud game marked the last home game of the season for seniors Steve Protsman, Don Benson, Bill Ochs, Steve Bay and Jim Jabrosky. At this point it looked as if the team was to play Bemidji State in their final regular season game. Weather conditions, however, cancelled it. This left the Warriors with a 7-4 conference record and set up what turned out to be the Warrior final game against St. Thomas.

The Warriors were up against big odds as the Tommies had a 13-1 conference record and had led at intermission by 2 points. As the second half started the Tommies jumped out and quickly took the lead. The Warriors tried desperately to catch up, but St. Thomas always seemed to be ahead by 8 or 6 points. Late in the game Winona had to foul to get the ball, but St. Thomas took advantage of the one-and-one situation, making practically every shot from the charity line. The game continued this way with St. Thomas always increasing its lead until the final buzzer which left them 11 points out in front.

Steve Protsman and Bill Ochs played very hard for the Warriors, although the whole team didn’t play their best game. St. Thomas will now be in the playoffs for intramural basketball.

Leading the Warriors were first place finishers Scott Miller at 118 lbs; Skip DeMarias at 194 lbs. Al Rigdon and Bill Hileman finished 3rd second with Bob Nelson and Jim Hall third and Pete Edwards and Calvin Riggle fourth.

The Warriors seemed to have a problem before they could leave the court, though. It seems that due to a lack of funds the wrestlers had to pay their own way to the conference meet. There seems to have been a mix-up in the allocation of athletic funds. Surely each wrestler can’t be expected to pay his own way to a meet representing Winona State.

Next action for the Warriors is the alumni match on Sunday.

Matmen retain conference lead

by Tom Grothe

The Winona State matmen successfully defended their NCIC conference championship on Thursday at Morris, Minn. The Warriors scored 83 points to 69 for runner-up St. Cloud. St. Cloud was third with 53 points.

Leading the Warriors were first place finishers Scott Miller at 118 lbs; Skip DeMarias at 194 lbs. Al Rigdon and Bill Hileman finished 3rd second with Bob Nelson and Jim Hall third and Pete Edwards and Calvin Riggle fourth.

Every wrestler placed in the meet. Coach Fran McCann felt that in order to win the meet each wrestler would have to place in the top four.

Women’s BB playoffs underway

The playoffs for intramural basketball were held and the two teams who will be playing for the championship on Wednesday, March 10 will be the Egg Flingers and the Let Petite Fillies, both of which were unbeaten during the weeks of competition. Outswimming and gymnastics are also held for any girl wanting to take part on Wednesday night.

The extramural basketball team will be having this week off for practice and will play their next game on Saturday at La Crescent. They have good prospects of winning and going on to develop a strong defense against the competition they will be facing.

Candidates for the Golf Team will meet at Memorial Hall Mar. 10th, at 3:15 p.m.

Inflation is the time when people never had it so good — or so briefly.
