SSUMMER SCHOOLS
ATTRACT MAN
IN POST TART

Special Appropriations Are Needed

The renewal of the two
summer training schools
are expected to be
votes. These two schools
1876 to 1878 were in
in the history of
summer schools. The
summer schools, at the
American Teachers' Union,
were especially notable.
Winona College, too, was
in 1870 and the
were the best in the
history of
summer schools.

In the recent
summer schools, about
parents and teachers,

LIVESTOCK AND AGRICULTURE

The Dairy Department

The Dairy Department of the Minnesota Crop Improvement Association has recently purchased a herd of Holstein and Jersey dairy cows. These cows will be carefully followed to ensure that they are free from any diseases. If these conditions are met, the herd will be a valuable addition to the breeders of pure-bred live stock.

The State Horticultural Society, the Minnesota Crop Improvement Association, and the Minnesota Valley National Bank have combined to create a special breeding center in Minneapolis. The center will be used to develop new varieties of fruits and vegetables.

The Dairy Department is also responsible for the care of the dairy cows. The department will ensure that the cows are fed properly and that they are kept healthy.

GARDEN PRODUCTS EASILY STORED FOR WINTER USE

Onions, squash, and cabbage keep best when they are mature and free from disease. These vegetables should be stored in a cool, dry place to prevent spoilage.

Besides potatoes the list includes chicory, parsley, onions, dry beans, canned fruits, and canned vegetables. Proper storage prevents spoilage and allows these foods to be enjoyed throughout the winter.

The Dairy Department is also responsible for the care of the dairy cows. The department will ensure that the cows are fed properly and that they are kept healthy.

THE MARVEL Non-Electric Vacuum Cleaner

The Marvel Non-Electric Vacuum Cleaner is a new product that has been developed to meet the needs of farmers and others who use vacuum cleaners. The machine is lightweight and easy to use.

The Marlone is built with the farmer in mind, and it has been designed to be easy to use and to last for many years.

THE MARKET FOR SPRING PIGS

The market for spring pigs is expected to be strong, with prices ranging from 320 to 350 pounds. Farmers should be aware of the market conditions and plan accordingly.

For more information, please contact the Dairy Department or the Minnesota Crop Improvement Association.
