Degrees granted June 6; 184 spring grads

Board plans for Student Union, also ‘Smog control’

A Smog Board was recently set up by the Student Union Committee.

Tom Smith, head of the committee, announced that this board will give control to the Smog next year.

The board sees the need for some type of Smog control by the Student Union. At the present it is still just a hole in the floor.

Plans are being made to open the Student Union building next year. The Smog Board will suggest ways to go about taking turns opening the Smog.

Five WSC students were chosen last week for the trip to New York. They will be paid expenses by the college.

The Winonan

Vol. XVII

Winona State College, Winona, Minn., June 4, 1963

No. 15

A. L. Becker

The speaker for graduation on June 6, 1963, is Arthur L. Becker, general manager of IBM, Rochester.

A native of German, Pennsylvania, Becker earned his early education at Eckerd, New York. He joined IBM at Elmhurst in June, 1951.

BECKER was named Assistant General Manager of the Eckerd Plant in 1961 and a year later he was advanced to General Manager. In late 1965 he was appointed Manager of Manufacturing for IBM’s Data Processing Division at White Plains, New York.

With the expanded diversification of the company Becker became Assistant General Manager in charge of manufacturing of the General Products Division in May, 1969. He now resides in Rochester as General Manager in February, 1950.

In 1956 he participated in the Senior Executive Management Program at Massachusetts Institute of Technology.

Brother J. Raymond, S.F.X., spoke at Becker’s convocation on May 2. His topic was “Life in Dignity.”

WSC fares well with legislative appropriations

Winona State College fared exceedingly well in the appropriation bills passed by the 1963 State Legislature. Committee 1/2 faced the college building program. The May 14 passed Building Bill allocated $280,000 toward the construction and equipping of Max. The appropriation bills granted $40,000 to the college building fund. The $280,000 was passed by the Legislature to Advance State Appropriation to $280,000...
Last issue of year is finally here! Hooray!

This is the last issue of the Winonan for this year. In the past we have tried to keep you informed of happenings around Winona and stimulate the student body of Winona.

How successfully we could not be measured because the students themselves do not always agree very far as the Winonan is concerned.

At the start of the year the staff decided to see if it is possible to put up some reading in this campus to anything we can.

One short piece describing the imagination of the Winonan of the republication of the roof.

We were rewarded in this respect. For we were very grateful for this reaction.

Students normally have much to say in the smog about conditions here at school, but are reluctant to say anything in print.

We did succeed in getting a number of fine letters during the year. These letters were printed. We have received some good letters during the year. These were not printed because in most cases the students decided not to print the letter.

We did receive some excellent letters to the editor in the course of the year. These letters from students give us a better response of what is happening on campus.

This staff cannot be. By our opinion alone, we are not as representatives of the average student as we would like to be. In a crisis people tend to “clean up” when a crisis is over, the Winonan will conde in us and give us the chance to make things right. In the situation alters our view of it.

For this reason sometimes it seems that the student newspaper is biased toward the faculty or administration. Usually the case is that we had the opportunity to see for the student and that the average student hasn’t been heard.

We have tried to present the views of the Winonan as those on the staff see it. Not us anymore else. We merely express our opinion as that you may read our views and decide.

Whether our right or wrong makes no difference. What you think is all that matters to you. In what we say changes your opinion. Do. If not, we at least have a better chance.

We also respect your right to express your opinion. We do so by printing letters to the editor. If you disagree with us and think we are wrong and desire the authority to alter our views, write us a letter.

Although this is the last issue of the school year, the Winonan intends to keep a long standing WSC tradition and publish the next week.

The staff next year will be happy to hear from the readers.

Editorial

We were grateful for this reaction. We discovered that we can.

Facility to be out in full plumage for graduation

Chairperson, Forestry, and Agriculture, I would like to give them a thought what, what I have learned and expressed hope "that they learn from what I wanted to teach them." In Pakistan education is not available to all. Not only those who can afford to go to school, but also to those who want to go to Pakistan. He believes that those who attend school and expressed hope what they learn from what I wanted to teach them.

In Pakistani education is not available to all. Not only those who can afford to go to school, but also to those who want to go to Pakistan. He believes that those who attend school and expressed hope what they learn from what I wanted to teach them.

We discovered that we can.

I would like to give them a thought what, what I have learned and expressed hope "that they learn from what I wanted to teach them." In Pakistan education is not available to all. Not only those who can afford to go to school, but also to those who want to go to Pakistan. I would like to give them a thought what, what I have learned and expressed hope "that they learn from what I wanted to teach them." In Pakistan education is not available to all. Not only those who can afford to go to school, but also to those who want to go to Pakistan. He believes that those who attend school and expressed hope what they learn from what I wanted to teach them.

The future teacher is intelligent, eager to improve, personally attractive, and prepared in the social chores...

YOUR teacher must be exacting perfection. For instance, the gown for the bachelor’s degree has pointed sleeves and is designed to be worn closed. The gown for the master’s degree has an opening sleeve, open at the wrist. The sleeves of the gown for the master’s degree is open. The gown for the bachelor’s and master’s degrees has no tassels. The gowns for both bachelor’s and master’s degrees have the planning of the head only. Three bars of black velvet are placed across the sleeve.

COLO is also singularly important. Here are a few examples: agriculture — maize; art, letters, design — green; biology — blue; chemistry — purple; education — light blue; engineering — orange; fine arts — brown; journalism — brown; political science — pink; physical education — pink; music — green; social work — citron.

Roods are always black and may be lined with the official color of the college or university. The use of black and white for the color of hoods and trimmings is exact.

I remember upper-classmen advising me to keep up with my studies and I remember channeling the night before finals. I remember looking into my key to my locker and found the following:

To the editor:

Physical Education shop scheduled; begins July 15

The Physical Education Department is offering a Workshop to review and re-evaluate current
Tuition increases effective July 1

President Nels Milne announced the following tuition to be effective July 1, 1963.

These are the minimums passed by the legislature:

New on campus tuition:
- Resident—Regular Year—$6.00/cr.
- Non-Resident—Regular Year—$6.50/cr.
- Summer Session—$5.50/cr.
- Graduate—Resident—$6.00/cr.
- Graduate—Non-Resident—$8.00/cr.

Non-Resident—Regular Year—$8.50/cr.
- Graduate—Non-Resident—$4.25/cr.
- Resident—Regular Year—$4.25/cr.

Graduate—Non-Resident—$8.50/cr.

These are the minimums passed by the legislature:

New on campus tuition:
- Resident—Regular Year—$6.00/cr.
- Non-Resident—Regular Year—$6.50/cr.
- Summer Session—$5.50/cr.
- Graduate—Resident—$6.00/cr.
- Graduate—Non-Resident—$8.00/cr.

Non-Resident—Regular Year—$8.50/cr.
- Graduate—Non-Resident—$4.25/cr.
- Resident—Regular Year—$4.25/cr.

Graduate—Non-Resident—$8.50/cr.

During the school year of 1963-64 four students from Otoe, Nebr. will be attending WSC. The two men and two women are looking forward to attaining WSC, and being part of this unique educational institution.

ROGER KABES, 20, is from Lillomost, Norway and graduated from his Norwegian building to be constructed west of High School in 1962.

After graduation he worked at the Royal Air Force supply plant as a civilian mechanic, and this summer he plans on continuing his course of study at the University of Oslo. He plans to take pre-engineering classes at the University of Minnesota. While at WSC, Robert will be living at the home of Dr. M. O. Weld, Professor of Chemistry at the University of Oslo.

OLAV HAJLE, 18, will graduate from high school this spring

Norway to send four students for '63-'64

Inger-Kristine Karlson, 19, is from Oslo, Norway. She attended Oslo teacher training school and plans on studying pre-engineering at WSC. Her other plans include attending the University of Minnesota, while at WSC. Inger-Kristine will be living at the home of Dr. J. Hugh Capron, who is in charge of this summer's seminar. Her hobbies are French and English.
