A letter from the Minneapolis Star and Tribune sponsors the contest, Campus Cover Girl contest was read.

K. Allers announced that Student Senate elections will be held February 21. All students wishing to run for an office must file by February 7. Commission members will submit names as candidate next meeting.

The meeting was adjourned by the president.

To vote or not to vote

In the coming weeks, S.C. elections will be held. Those people who support our cause in this election will be devoting most of their time to campaigning.

While on this subject of campaigning, ask this question: as a result of the campaign, will people be more or less convinced to vote for the candidate of your choice, or will I just sit by and watch others vote?

I'll tell you by and by what others vote will rationalize and say that our vote doesn't count. Your vote does count! Your vote, along with others, might determine the outcome of the election. And if you don't vote, along with others, might mean the difference between a landslide and a close decision.

Our political system breeds competition. For competition is the soul of our good government. Without competition, there is no such thing as good government.

Finally, if at election time, you find that the person whom you feel is worth supporting is not elected, it is not the end. There is always another candidate, and another chance.

Free park - fee park? This has been reported. Most people in at least the second floor Richards and Student Union are the so-called "undesirable elements were. However, we don't feel we will be commended for doing something which was the big controversy on campus last week, you might call it..."

"Mine won't start" to "It's public property, isn't it?" Some say that if they don't want to wait on line for parking, they would have to leave the cars at home. With the parking problem solved, the question then becomes "Free or fee?"

"I would like to mention, before I get down to the point of this article, why I wrote to show it. I have been a student here at St. Paul's for a year and a half. I have become thoroughly disgusted with the actions of the Student Commission.

How about it, parkers? Do you think you can afford another fee?

Maybe the best solution would be to walk and leave the cars at home.

"I'm glad to see that our Vet's are getting their share of parking near the college residence halls. It seems to me that George Ferrata, who is Athletic Commissioner, should be receiving more help in getting the parking situation straightened out for openings on weekends. It appears to me that it would be a good idea for Mr. Ferrata but I think he is capable enough to handle the situation. I have heard of many openings in order to keep some of the students out of parking situations; I could also save money for those people who have to go to2nd floor Richards. (It is re- ported that Ferrata will report to the new Student Commission next week.) GOOD LUCK!

To the members of 2nd floor, Richards Hall:

In the last issue of the Winonan you criticized the student government, organization of which I am the President. Naturally my first re-action was to try to back up with a storming reply. Then I realized that I would be writing a letter that would never get to the facts and nobody. I have therefore decided to write this for those people who have not been accepted by these people; they will be able to see what is going on in the Student Commission.

Look for another club to find its conception in our campus. This club is the curlers. At the January 21 meeting of this group, the Student Commission accepted the Vet's Club Constitution since it complied with the Student Commission rules. I am glad to bring brought dimension between 2nd floor Richards and student commission.

Another question which you asked:

"Would they be the blame should be placed at the college union commissioner. As a beginning to my column, I have not written this letter to any one of the student body.

I hope I have sufficiently

"Food for thought—

To the editors:

Dear Students:

I would like to mention, before I get down to the point of this article, why I wrote to show it. I have been a student here at St. Paul's for a year and a half. I have become thoroughly disgusted with the actions of the Student Commission.

I fully realize that these atti-tudes might be justified by the lack of information, concerning the candidates running for the various offices of the commission. However, I feel almost communi-cally applied to the girls at this time. With this in mind, I have decided to write this letter to the girls. The truth is that the girls are not doing their part. The reality is that the girls are not doing their part.

The Student Commission knew the problems concerning insurance, entertainment, and even though the students want to know who was the big controversy on campus last week, you might call it..."

Kohler, Childers smash records as swimmers up slate to 5-1

Overwhelming
That is the word that can be best fitted for the Warrior swimmers' performance in the last three meets. The Warriors blanked Platteville 70-17, but Carleton 54-40. Carleton, like Kohler, is an incredible swimmer.
