WSC Faculty Group Hears Prof. Bohr

Eight members of the Winona State College faculty journeyed to Macalester College on December 11 to hear an address given by Professor Niels Bohr, an atomic physicist from Copenhagen.

There has been a great deal of interest regarding Professor Bohr's address, particularly in the light of recent scientific developments throughout the world and because Professor Bohr was the recipient of the first Atoms-for-Peace Award at the National Academy of Science in Washington October 24.

Attending the address from WSC were Prof. Nels Minne, Dr. Daniel Bowman, Howard Munson, Dr. M. R. Raymond, Luther Gulick, James Ophoff, Milton Underkoffer, and Dr. Luther Arnold.

Brother Charles of the faculty of St. Mary's College, addressed the regular dinner meeting of the Gamma Tau Chapter of Kappa Delta Pi, the honor society in education, Tuesday night. His subject was "Life in the Philippines."

The other officers of the organization are Ernest Bohler, president; Roman Claussen, vice-president; Barbara Peterson, treasurer; and Ted Hofbauer, historian-recorder. Miss Elizabeth Donah is acting counselor in the absence of Miss Floretta Murray.

Kappa Delta Pi's winter initiation will be held January 7. Membership is contingent upon the acceptance by the National Chapter.

Winter quarter enrollment data released this week indicates the normal seasonal decline in total enrollment. Latest figures are 792 full time and 97 part time students, with a total of 909 students.

Enrollment during the fall quarter was 917.

200 Hear Sen. Humphrey

Speaking at a special assembly in Somsen Hall Wednesday afternoon, Senator Hubert H. Humphrey made a brief visit to Winona State College for a meeting of the administration and a few governmental leaders.

"One of our great problems is that we regard our allies as foreigners. Though we freely give financial aid, we are not willing to share the cost of educating them because they derive the greatest benefits and snap-up the best brains."

Senator Humphrey spoke to an audience of approximately 200 students at the request of Dr. Nels Minne. He was introduced by Benjamin Pellowski, chairman of the WSC Young FDLF Club.

During the day he also spoke to groups at the College of St. Teresa, St. Mary's College, and the Winona County YDFL Bean Feed.

Kryzkso Reports on Tour

Mr. S. J. Kryszko, Resident Director of WSC and Chairman of the State College Board, recently returned from a tour of the Orient with Governor Freeman and a group of representative Minnesota business leaders. The group traveled by air and visited Tokyo, Taipei, Hanoi, Hong Kong, Manila, and Honolulu.

Mr. Kryszko returned with some interesting observations concerning education in the places he visited. In Tokyo he was impressed with the neatness and cleanliness of the students. He also reported that most Japanese schools require students to wear uniforms. The democracy of the school systems impressed Mr. Kryzkso, as well as the high percentage of literacy in Japan as a whole.

Hong Kong provided a great contrast because education is not compulsory, and there is no public school system. The refugee problem has added further complications to an already bad private educational program.

In Manila, Mr. Kryszko visited the Immaculate Heart of Mary School and De La Salle College for men. An interesting feature of both is that they provide training for students from the elementary grades through the graduate college. The greater influx of students has caused many Philippine schools to revert to instructing in shifts pending completion of school expansion programs.

While in Manila Mr. Kryszko's stay was highlighted by an invitation to address the Philippine Banker's Association.

Mr. Kryszko believes that his trip was beneficial because of the opportunity it provided to view the problems and accomplishments of some of our allies.
Dear Santa,

When you come down the chimney this year there are a few little items I would like you to leave in my stocking. (This is just a figurative expression because there's nothing I want which would really fit in a stocking — except money, of course.)

I want a sports car, preferably an American model. Either a Thunderbird or a Corvette would do nicely. I would prefer yellow, but any color will do for the Hot Fish Shop and the Oaks so I will be able to park the car out in front, but please leave the other articles in my Christmas stocking.

Anticipatingly yours,

P.S. You can park the car out in front, but please leave the other articles in my Christmas stocking.

THE WINONAN

Dear Donor:

Each year the Student Commission conducts its annual Christmas Seal drive. The purpose is to raise funds to purchase gifts for the wards of the Winona State Institutional Hospital.

The gifts are given to the children in the hospital, not only in the name of the donor but in the name of the entire student body. It is a very rewarding experience to see the children's happy faces when they receive these gifts.

Your donation will be used to purchase these gifts, and you will be able to add a message expressing your wish for the health and happiness of the children. Your name will be listed in the hospital's gift list, which is presented to the children each year.

Best Wishes for Christmas and the New Year from the Student Commission and the staff of the Winonan

Best Wishes for Christmas and the New Year from the Student Commission and the staff of the Winonan

By Dr. Augusta Nelson

This is the time when the days are numbered and we are exhorted to do our Christmas shopping early; this is also a time when issues are taken with sober, reflective action in the military realm and the backward and culturally decadent Europeans have not yet adjusted our Great American Institution, the Tap Forty. Taking this into consideration, Christian music is pleasant enough even if it won't sell.

The appearance of earth satellites is of no surprise to anyone. The fact that a great number of people are willing to accept the satellite as a gift is natural, especially because we have advocated and relied upon a policy of "peace through power."

It is perhaps unfortunate that in the panic created by the sudden realization that others, too, are adept at scientific research, the voices of the moderates will be drowned out by the "crash program" demands of the public. Such a program can guarantee us only extreme capital waste and confusion in accomplishing what we have already set out to do.

Nonetheless there are still those few who dare to suggest that the United States should abandon the "crash program" and return to the more measured approach of the early days of the drive. It seems rather weak for us to sit back and have them refuse to accept the money because they may not be able to get more by direct Christmas Seal sales.

The Student Commission has backed down and will now allow the sale of Christmas Seals in this school points out two important facts:

(1) The inherent weakness of the Student Commission in reaching decisions and backing such actions after they are made, and

(2) The independence of "charitable" organizations which once were thankful for any donation, however small, but are now in a position to force their own terms.

A successful Campus Chest and firm commission would probably ignore such ultimatums and look around for a more suitable charity which would appreciate a small, well-meant donation.

Dear Donor:

You hit the nail on the head.
