For further training Miss Norton became a pupil of Arthus Schnabel, Germany's foremost pianist.

She has appeared as a soloist with the orchestras of most of the world including the Russian orchestra in Berlin, the London Royal Philharmonic, and the New York Philharmonic orchestras. She bears the unique distinction of having played with the country's five prominent orchestras.

Kindergarten News

The "photograph album" of the kindergarten department has recently received additions in the form of pictures of children of former students. One of these is the baby girl of the famous poet, Marjorie H. Anderson, degree 27, who is now living in Shaker Heights, a suburb of Cleveland, Ohio. The baby, Katherine, apparently inherited her mother’s happy disposition.

Other photographs are those of the little daughter of Mrs. Lucille Low ‘29 is teaching kindergarten at Austin, Minn., and Hazel Schrader is teaching in Dodge Center.

The typographical error is a slippery thing and not the windows previously, and attention to the page. When, by hook or crook, you finally discover your brain-child, the outside edition. You are interested in the kind of car you might be sitting in or the type of city you might be living in, and the atmosphere.

The copy reader drops his head upon his hands and moans, and the indifferent of the issue may be clear as clean but that typographical error is the only thing you see.

One of the most wonderful experiences of my life was with the sheep when I was a shepherd," said Mr. George Elias in an address at the general assembly on Wednesday, January 10. Mr. Elias spoke on the subject, "A Shepherd of the East."

In his introduction Mr. Elias said that, although he had had many unusual experiences—travelling over most of the world learning the language and culture of the British, and finally entering Jerusalem in 1917, when it came into the hands of the British, he believed his experience with the sheep of the East most wonderful. "I learned," he said "more from the sheep than from any other singular experience."

Sheep are trained like people. The lambs are given names which they learn and come to know the voice of their shepherd. I had in my flock for four years about one hundred sheep and fifty goats and I still know their names.

Mr. Elias told about the lonely life of the shepherd. About once a month they held a shepherd keepers' convention, where several boys would take care of the sheep while the rest would enjoy themselves. The most exciting event was a dog fight. After this vacation, the sheep would be again separated, each sheep (showing the voice of his shepherd) and the herd was divided.

Mr. Elias concluded by showing how sad the shepherd is when one of his flock is lost. Loyalty is one of the best lessons learned from the sheep. Mr. Elias is being loyal to his mother, whom he thinks of as a great teacher. He has been separated from her for the last twelve years. It is his hope that he will be with her this summer.

Sylvia Lent, violinist, at the Leicht Press of Winona will take charge of the printing for the opening section have been selected. The Leicht Press of Winona will select the type for the printing of the annual and Rockeberg and Mears Company of St. Paul will handle the engraving.

The business managers report that the annual will be issued in time to be available. The theme, which began November 13, will close on February 21. An advertising campaign will be launched February 21.

Mr. Elias told her she told her that she not to tell her.

"Now, then, Ivan, will you recite the multiplication tables for teacher? Begin with the four-table."

"One times four is four. Capitalism is dead at the core. Two times three is six. Socialism will win some day."

"Now, then, Ivan, will you recite the multiplication tables for teacher?"

"Three times six is eighteen. Stalin's the fellow who gets things straight. Three times four is eight. Stalin's the fellow who gets things straight."

"Little fuses before he came last night, and he spent the whole evening trying them."

"Isabel — I have a suspicion that you're not playing square with me. He — Well, what am I doing? Isabel — I think you're playing 'round."

"What does the college man do with his week ends?" asked the mother.

"Well, madam," said the dean, "sometimes I think he merely hangs his hat on it."

She told him she told her that she told her not to tell her.
