Weigh pros, cons of UM branch

By Jerome Christensen

CDC receives two preliminary reports

Model A, the multiple senate model, is characterized by three component senates: faculty, student, and classified and unclassified professional support personnel. The all-college senate, consisting of representatives from these three components, would have limited decision-making power. Component senates, faculty, student, and classified and unclassified professional support personnel, would have more decision-making power and would be more clearly delineated from one another.

Under model B, the single senate model, problems would be dealt with by the all-college senate, which would contain representatives from all components of the college community. These advantages, though, must be weighed against the problems of an extreme workload on the all-college senate, a lack of identity among members of the component groups, and the need for the senate to deal with every problem, which arises regardless of which component has major responsibility.

The subcommittee recommends that any committee which falls into the defined area of responsibility of one of the component groups should be more clearly defined if this model were adopted.
Minnesota Metropolitan State College, a new kind of urban institution created mainly to reach adults beyond normal college age, recently received a grant of $213,500 from Carnegie Corporation of New York. The funds will support planning and development of the college over eighteen months.

The new college, which will focus on urban affairs, will offer the last two years of undergraduate work. A wide range of courses on the basis of demonstrated living expenses and personal need. The program is open to undergraduate, graduate students and professional school students. A student may apply by submitting a completed application form that is available at the above mentioned office. Parents' Confidential Statements should be submitted as soon as possible, and no later than February 15, 1972. Student applications should be submitted as soon as possible, and no later than April 1, 1972, for priority consideration. Additional information may be obtained by contacting: Student Financial Aid Office, Room 208.

THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION

Vacation Study Abroad offers a non-profit non-political organization dedicated to helping students to help themselves. Students interested in applying for financial aid during the 1973 academic year (September-June) should pick up application materials in the Aid Office, Room 208, starting December 43, 1972.

The new college will operate year-round, every day of the week, 12 months of the year. It will function as its "campus," utilizing such facilities as libraries, churches, studios, factories, banks, and government. According to David K. Sweet, president of Minnesota Metropolitan, "the campus will be wherever there are people and the possibility of an environment conducive to learning."

Upon enrolling at Minnesota Metropolitan, each student will work full-time with MPIRG's staff. The entire community of Minneapolis-St. Paul will function as its "campus," utilizing such facilities as libraries, churches, studios, factories, banks, and government. According to David K. Sweet, president of Minnesota Metropolitan, "the campus will be wherever there are people and the possibility of an environment conducive to learning."

The internship program will last between June 10 and September 1, and will include a stipend to cover living expenses and personal need. The program is open to undergraduate, graduate students and professional school students. A student may apply by submitting a completed application form that is available at the above mentioned office. Plans for implementation and guidelines for participation also will be available at local board offices at MPIRG participating campuses.

MPIRG announces summer program

Minnesota Public Interest Research Group (MPIRG), an organization supported by student fees on Minnesota college campuses, announces today a ten-week program for students that will include: (1) Student Internship Projects that will last with full-time with MPIRG's staff of scientists and attorneys on specific research projects; and (2) Student Research Projects: that are essentially initiated, developed and essentially initiated, developed and carried out by students with assistance by the MPIRG staff. The internship program will last between June 10 and September 1, and will include a stipend to cover living expenses and personal need. The program is open to undergraduate, graduate students and professional school students. A student may apply by submitting a completed application form that is available at the above mentioned office. Plans for implementation and guidelines for participation also will be available at local board offices at MPIRG participating campuses.
On UMR proposal

Mitau: ‘We will cooperate’

In an article published by the Minnesota State College student newspaper, Mitau expressed their willingness to cooperate with the legislature’s Committee on Higher Education. He noted that the HECC requested the establishment of a branch at Rochester, and while Mitau opposed it, he believed that “the proposal should be carefully analyzed to determine if it is in the best interest of the state.”

Mitau also stated that the HECC’s recommendation to establish a branch at Rochester was based on the assumption that Rochester had a clearly defined mission, which was not the case. He concluded that the HECC’s proposal was not in the best interest of the state and that the legislature should consider alternative solutions.

Lt. Governor advises precipitance caution against voters

The Lt. Governor, Betty McCollum, recently issued a statement urging voters to be careful when voting. She reminded voters to check the qualifications of candidates and to be aware of the issues. The Lt. Governor advised voters to be cautious and to make informed decisions.

Senate rejects Players’ request

In a meeting characterized by a heated discussion, the Senate rejected the Players’ request for a salary increase. The Senate argued that the Players were well compensated and that the University had limited resources.

Debaters post 4-2 win at LaCrosse

In a debate tournament hosted by the University of Wisconsin-LaCrosse, the Minnesota State College debate team achieved a 4-2 win. The team’s success was attributed to their preparation and effective argumentation.

Opposition to UMN branch unheard

In a meeting held by the University of Minnesota’s Board of Regents, the opposition to the establishment of a branch at Rochester was not heard. The Board of Regents approved the establishment of a branch at Rochester, citing the need for additional educational facilities in the region.

In an earlier tournament at Madison, the Minnesota State College debate team posted a 5-1 win. The team’s success was attributed to their preparation and effective argumentation.

In another debate tournament, the Minnesota State College debate team posted a 4-1 win. The team’s success was attributed to their preparation and effective argumentation.

In a meeting characterized by a heated discussion, the Senate rejected the Players’ request for a salary increase. The Senate argued that the Players were well compensated and that the University had limited resources.
Misguided expansionism

If ever there was an example of misguided expansionism, thinking in terms of the United States of America one might place the University of Minnesota at the top. This is a school that has, year in, year out, been presupposing the need for a higher education program or institution in every corner of the state. This presupposition has been generally made with no regard for the economic realities of the state as a whole. This is not to say that the University of Minnesota is the only institution that has been guilty of this sort of thinking. Many other institutions have been, and continue to be, guilty of it. But the University of Minnesota is, perhaps, the most frequent example of this type of thinking.

The University of Minnesota, like many other institutions, has been guilty of the fallacy of assuming that because a people need something, they will also want it. This is a fallacy that is often made by people who are not familiar with the economic realities of a region. The University of Minnesota has been guilty of this fallacy for many years. The University of Minnesota has been guilty of this fallacy because it has been guilty of the fallacy of assuming that because a people need something, they will also want it. This is a fallacy that is often made by people who are not familiar with the economic realities of a region. The University of Minnesota has been guilty of this fallacy for many years. The University of Minnesota has been guilty of this fallacy because it has been guilty of the fallacy of assuming that because a people need something, they will also want it. This is a fallacy that is often made by people who are not familiar with the economic realities of a region. The University of Minnesota has been guilty of this fallacy for many years. The University of Minnesota has been guilty of this fallacy because it has been guilty of the fallacy of assuming that because a people need something, they will also want it. This is a fallacy that is often made by people who are not familiar with the economic realities of a region. The University of Minnesota has been guilty of this fallacy for many years. Individualized major awaits 'consumption'

By Roxy Hanson

For 220 students aware that the college offers a program which enables the student to design his own major, Dr. Hal Leonard, music, Winona, "...somebody asked me this fall whether we would ever be able to do a Winona State College I.D., registration clearance card and a header card, and we have several times told them yes. The registration clearance card and header card, along with the required transcripts, will be available in the Admissions and Records Office, 2228, during regular office hours between Feb. 17 and March 14. To obtain these materials you must present your WIC I.D. card. If you have not been at WIC since full quarter 1971, or if you have lost your perman- ent WIC card, go to the Audio-Visual Center, 3115, to obtain one before obtaining registration mat- erials.

Students who were not enrolled during spring quarter 1971- 72 must notify the Admissions and Records Office of their intent to register for spring quarter 1972 by March 6, 1972. Persons who have never attended WIC must make application by Feb. 14 and have all their records on file by the Admissions and Records Office, 2228, before obtaining registration clearance card. If your card indicates that you are listed under the wrong name, fill out a change of major form in the Admissions and Re- cords Office. You may then pick up from the Admissions and Records Office the corrected card which you will be allowed to pull your cards without a Winona State College I.D., registration clearance card, the student has who "holds" remaining on his card at the time of registration will not be allowed to register.

Program advising will be done Monday, Feb. 5, through Friday, Feb. 18. You will program in the department of your major as directed by the Admissions and Records Office. You then must pick up your corrected materials from the Admissions and Records Office and take them to the correct department to be programmed.

It is very important that you make an appointment with your advisor early so that you will be assured of getting in to see him. If you are undecided as to what your major is going to be, follow the schedule listed below:

- Allan-Kjer - Mr. Miller, W208B
- Jorgensen - Dr. Doper, F221B
- Casper - Dr. Foss, P312
- Fairbanks Mr. Tolles W208B
- Kiehl-Mark, G202, Kiehl-Mark.
- Mr. Wells, P112C
- Magee-Swann, Mr. Sten, S210
- Reymond-Mr. Manton, M234
- Head-Attachments, P221
- Spies-Taylor Dr. Turkill, S211
- Tenne-Young - Dr. Seamless, C237

Drop-Add Day for those who have paid fees will be Tuesday, March 21, in the Admissions and Records Office, from 8 a.m. to 2 p.m.

Drop-Add Day is intended for those students who wish to correct program and scheduling and errors made during registration.

Commencement is set (tentatively) for June 3

A tentative decision was made by the Commencement Committee re- cently to hold the June 3 com- mencement in the new gym. The decision was based on increased labor costs for setting up and a stage outdoors on Saturday and possibly weather problems. A tentative decision re- flects the student desire to return the ceremony to the campus.

The committee is looking for some musically inclined student to write a new tune for the words of the college "Alma Mater." The song is presently set to the tune of the Cornell College Alma Mater. The committee felt it would be more fitting if the tune as well as the words would be in the college "Composers" should submit their work to Dr. Hilse in the regis- try's office.

The decision to use the new gym will depend on whether or not the new type floor will be damaged by such use. Today's meeting with the man- agement of the gym will assist in clear this matter up.

The Commencement Committee requests that seniors who will be graduating at the June commenc- ment please sign the form below and indicate whether they would prefer to have their name read at commencement, or have a commen- cement speaker. Entertain- ing, time considerations will not allow both. Please return com- pleted forms to the Winonan office, 101 Phelps, as soon as possible.

Check either "A" or "B"
A. I would like to have my name read at commencement.
B. I would rather have a speaker at commencement.

Signed:

Clip and return to Winonan, 101 Phelps by Friday.

Winona State's grapplers handed Moorhead a humiliating 39-37 defeat Saturday night on their home court. Winona's John Johnson wrestling for Al HUDGENS at 150 pounds, suffered the only Warrior defeat as he was decisioned 4-3.

Scott Miller and Craig Bucyk, wrestling at 118 and 126 pounds respectively, both won their matches by forfeit, giving the Warriors an early 12-0 lead.

At the end of regulation play, the game was tied at 84-46. In the extra five minute period, Mike Urbach pushed the Warriors ahead with an opening layup. Herschel Lewis managed to add a pair of field goals and Roscoe Young contributed a free throw to give the Warriors their fourth conference win.

Warriors roll 101-83

Winona State's basketball Warriors defeated Southwest 101-83 Friday night and brought their overall record to 9-6, and their NIC record to 3-1.

The Warriors did not seem to be able to hit the boards in the first half, and as a result were down 39-37 after the initial period. After their halftime rest, the Warriors came out and took control of the ball game, and handed Southwest their thirteenth defeat.

Herschel Lewis, who collected 39 points during the game, pushed the Warriors over the century mark in the last minute of the game. "Ready!" Mel Halbert added a career high of 35 points for the Warrior's winning effort. Roscoe Young, who sat out most of the first half with a sprained ankle injury for nearly two weeks, added another three points to the board for the Warriors. All of Lewis points came of field goals.

Mike Urbach came up with 8 points, added another 17 points, fifteen of which came in the first half. The win brought the Warrior's overall record to 10-6 and their NIC record to 4-1.

IT'S MINE!

The ball is mine, and I am not going to give it up, says big Gus Johnson as he controls the ball in the game against Southwest. (Photo by Jim Galewski of the Winona Sunday News)

Grapplers stun Moorhead 37-3

Winona State's grapplers handed Moorhead a humiliating 39-37 defeat Saturday night on their home court. Winona's John Johnson wrestling for Al HUDGENS at 150 pounds, suffered the only Warrior defeat as he was decisioned 4-3.

Scott Miller and Craig Bucyk, wrestling at 118 and 126 pounds respectively, both won their matches by forfeit, giving the Warriors an early 12-0 lead.

At the end of regulation play, the game was tied at 84-46. In the extra five minute period, Mike Urbach pushed the Warriors ahead with an opening layup. Herschel Lewis managed to add a pair of field goals and Roscoe Young contributed a free throw to give the Warriors their fourth conference win.

Tankmen sink St. Cloud

Winona State's tankmen captured their first victory of the season as they downed the St. Cloud team 64-44 in St. Cloud Saturday.

Winona started it all off with a first-place finish in the 400-yard medley relay with a time of 3:39.7. The relay team was composed of Roger Breiten, All Crawford, Bill Bailey and Stan Hammer.

In the next event, Brian Rudell captured the first of his two first-place finishes as he swam the 100-yard freestyle in 12:12.3. His other win came in the 200-yard butterfly which he won with a time of 2:11:3.

Roger Breiten also came up with two wins for the Warriors. He swam the 100-yard individual medley in 1:08.3 and captured the 200-yard backstroke in 2:13.3.

Winona's third double winner was diver Dan Picka. He captured the one-meter diving event with a score of 185.05 points. His score came to ten points below his season high of 35 points.

Despite the win, the Warriors were quite close for awhile, only 67-66, the Warriors just could not hang on and take advantage. Although they were pretty close for awhile, and at one point Winona was down only 67-66, the Warriors just could not pull out the lead.

Herchel Lewis led the Warriors with a seasonal high of 35 points. He was followed by Mike Urba who added 16 and Tad Bothwell with 12.

Other Warriors who managed to capture the scoring for the team were: Herschel Lewis did, however, make a good showing for the Warriors as he tallied 27 points in the game, Tad Bothwell and Roscoe Young also fared well. Bill Bailes led the team with 39 points, and Mike Urba with 35 points were the only other Warriors to score in double figures. Rounding out the scoring for the team were: Mike Urba with 39 points, Herb Holt with 30, Paul Jungblut with 35, and Ron Evjen with 32.

coupled with a narrow victory over St. Cloud, left on a most exciting Saturday, January 15, at Northfield. WSC defeated the Owls 32 1/2 to 27 1/2. Single points are awarded on an individual basis for each separate game. Four points are awarded to the team with the highest total points on each individual game and three points are awarded to the team with the many overall total points after each three-game set.

Winona State defeated the Owls in the first set 21-9 but bowed in the final set 18 1/2 to 11 1/2. Leading the way for the Warriors was Dan Jacks with a six game total of 119. Following close behind was Larry Leach with a 111 point total. Al Barenthin topped St. Cloud with a 104. Also competing for Winona State were: Darryl Smelser, John Poto, and Mark Paterson.

The fourteen member squad is coached by George Robins and Kevin Molady.

UPSTEP project operating

Winona's UPSTEP project (Undergraduate Pre-Service Teacher Education Program), operating under a National Science Foundation grant, is underway. Located in a suite of rooms in Phelps Hall, the project is present in developing a Science-Math Teaching Resource Center which will become an idea center, a teaching materials loan service, and a training center for students preparing to become elementary or secondary science and math teachers.

While the resource center is still in an embryonic stage ($30,000 will be spent for materials this year), it is already involved in loaning equipment. Students have borrowed numerous items for use in method classes and microteaching. Students from elementary education have also begun to use the center for the development or demonstration of laboratory skills required for the new competency based programs. Project personnel look forward to serving student teachers in similar ways.

Next fall a group of selected students will enter a revised program of education in preparation for careers as elementary math-science specialists or as secondary science-math teachers. The distinguishing feature of UPSTEP's preparatory program is that students will spend some time each week in public school classrooms during their freshman and sophomore years. Brochures aimed at recruiting candidates are now going out to schools.

Another aspect of the program will be a series of seminars and lectures featuring noted science or mathematics educators. Future announcements will alert the academic community.

Director of UPSTEP is Howard Munson from the Education Department, Dr. Herb Johnson, Math Department, is as solicitor-director. The project secretary is Ms. Ann Moldahl. Additional members from Math, Physics, Chemistry and Education departments will participate in varying capacities as the project develops. This quarter Don Flick is assisting with the ordering of materials and equipment.

Campus Health Service committee hears needs

Campus Health Service problems were discussed during last Wednesday's meeting of the Health Service Committee. Dr. Haesly was present and spoke briefly to the committee about some of the needs of the WSC Health Service.

The basic need of the Health Service at this time is the selection of another M.D. either on a part-time or full-time basis. It was reported that the current post is ready to support the services of another doctor in a part-time schedule of perhaps several afternoons per week. At the current time no additional doctors are available locally that could aid the Health Service. Therefore, efforts to find someone will continue.

For the current Health Service has handled up to seventy students in a single day. In addition to this workload, Dr. Haesly needs to seek patients at the hospital several times a day and answer emergency calls. Due to Dr. Haesly's influence at the hospital, WSC students have access to the hospital's emergency room. This service might not exist for students were it not for Dr. Haesly's efforts.

Dr. Hasley also reported that there are some students who come to the Health Service when they really didn't need to do so. This can cause unnecessary burden and at the same time it makes it harder to provide services to students that really do have problems and needs.

The committee also discussed future plans about getting Health Service information to students. A specific method wasn't decided upon, but several suggestions were made. Those included a bulletin board put up by the Health Service, an outside bulletin board that would be kept up to date at all times, and/or including the information in the student directory. The student directory suggestion seemed to be the most popular one with the committee.

Based on the $15.00 yearly fee ($8.00 per quarter), here is a breakdown of where the fee goes:

Learning Center underway

The Learning Center has a new location in 201 Phelps and is now under the direction of James Motta, Director of the Counseling Committee. The Learning Center is open from 8 a.m. to 4 p.m. daily and is staffed by graduate students working in remedial reading and by work-study students. The Learning Center is designed to be a place where any student at WSC may come to receive assistance in reading efficiency and/or study skills.

The Learning Center is a course entitled "Improving Reading and Study Skills" taught by Dr. Kenneth McMillan, Associate Professor of English. The course, Fall 115, is offered for two credits on a pass/hi-credit basis and meets for four hours of lecture and two hours of lab work each week. The course focuses on topics such as time organization, effective study, note taking, reference

"Johnny Got His Gun" appears here

Based on his million seller novel of the same name, Dalton Trumbo's 'Johnny Got His Gun' opens in Winona on Wednesday. Timothy Bottoms, in his first screen role, plays the role of Joe Boham, a young soldier reduced to a faceless, limbless but conscious character as he traces his way home through the last days of the First World War. As he becomes aware of what has become of him, Joe rediscovers his love, his experiences. To keep his sanity, Joe devises a way to keep track of time, to distinguish between the people who care for him and ultimately, to communicate with them. 

President's Ball slated for Feb. 12

The fifth annual Winona State College President's Ball will be held Sunday, February 12 in the College Union from 9 p.m. to 1:30 a.m. Invitations have been sent but those not receiving one and wanting to attend should contact Mrs. Jack Miller or Mrs. Frank Allen. Deadline for the return of the admission fee of $25 per couple ($12.50 per person) to the College Union office is Friday, February 4. The evening will consist of a series of pre-ball cocktail parties in private homes scheduled from 7-9 p.m., with a dinner, dancing, and entertainment from 9 p.m. to 1:30 a.m. in the College Union.
