SHORT FACULTY BIO:

I am a straight, gender male (preferred gender pronouns he/his/him), GLBT ally and licensed alcohol and drug counselor in the state of Minnesota (MN license #300769), and I have worked in the chemical dependency field since 1988. I have a doctorate degree in Adult Education from the University of Minnesota, and a MS in Counselor Education (1991), and BS degrees in Psychology and Political Science (1987), from Winona State University. I retired in 2012 from the Federal Bureau of Prisons as a drug treatment specialist where I developed and facilitated drug abuse programs for adult female and male offenders.

COURSE DESCRIPTION

This course introduces students to the pharmacology of substance abuse disorders and the dynamics of addiction, including medication-assisted therapy. Students will learn about the effects of licit and illicit drugs on the brain and body, basic drug classifications, and indications and contraindications of drugs to make appropriate referrals for medical intervention and medication evaluations and to provide basic client education. Grade only.

COMMITMENT TO INCLUSIVE EXCELLENCE

WSU recognizes that our individual differences can deepen our understanding of one another and the world around us, rather than divide us. In this class, people of all ethnicities, genders, religions, ages, sexual orientations, disabilities, socioeconomic backgrounds, regions, and nationalities are strongly encouraged to share their rich array of perspectives and experiences. If you feel your differences may in some way isolate you from WSU's community or if you have a need of any specific accommodations, please speak with the instructor early in the semester about your concerns and what we can do together to help you become an active and engaged member of our class and community. A list of campus resources is available on page 5 of syllabus.
