SCHEDULE OF HOMECOMING EVENTS

Friday, October 19, 1934

3:30 p.m. — Club rooms, College Hall. Illustrated lecture and art exhibit, followed by tea.
7:00 p.m. — Pep fest, snake dance, and bonfire.

Saturday, October 20, 1934

10:00 a.m. — College Auditorium. Special assembly stressing theme of the seventy-fifth anniversary of the college. Registration of alumni in college hall.
1:00 p.m. — Downtown parade of entire college.
1. The College Band.
2. The Alumni Group.
3. Senior Class.
4. Junior Class Feature, followed by Juniors.
5. Sophomore Class Feature, followed by Sophomores.
6. Freshman Class Feature, followed by Freshmen.
Groups will form in front of the Main Building and march on Johnson to Third Street, east on Third to Lafayette to Fourth, on Fourth to Main Street, south on Main to the Athletic Field.
2:30 p.m. — College field. Future games.
Open House at Meyers and Shepard Halls after game.
6:30 p.m. — Arrowhead Range Club dinner — Garden Gate.
8:00 to 11:00 p.m. — College gymnasium. Homecoming dance, music by Stan Chap's orchestra.

Russian Chorus Presents Delightful Variety

Miss Margarita Slaviansky's Russian Chorus appeared in concert in the college auditorium for the second time on Monday, October 16.

The program, which was characterized by sincerity and naturalness, included Russian and American folk songs and folk dances. The chorus, under the direction of Mme. Margarita Slaviansky, was sustained throughout, yet much was added to the enjoyment of the audience by the excellent choice of talent, by the creditable rendering of its members, and by the performance of the entire cast and its splendid direction. A goodly share of the cast consisted of persons from the college and those who are now or formerly connected with the college. A considerable portion of the audience was made up of elderly people to whom the program was of special significance. Much credit is due everyone taking part in the production.

Personality is Decided Asset To Teacher

"Personality is what we are on the inside, showing on the outside," stated Miss Jennie K. Kling, of Chicago, in a talk in the college auditorium, Friday, Sept. 28. Miss Kling who is nationally known as a lecturer and radio artist, declared that it is possible for all to acquire pleasing personalities. In her opinion, self-confidence, and self-control are the essential elements in developing personality.

In referring to Oscar Wilde's definition of a bore as being one who talks about himself when you want to talk about yourself, Miss Kling urged all who would be interesting to know something about everything and everything about something.

"A charming personality is of special value to the teacher," concluded Miss Kling. "It is an important as scholarship in determining her success or future."

New Members Chosen By Three College Clubs

Planning to sponsor more enter-prises than ever, the Dine-No-Me Club has begun another year of work. This club represents the "pep" and "push," elements which are so essential, undergirding every enterprise. Regrettably, no new members elected this quarter, are: Elsie Finkelnburg, Frederick Kissling, Luther McCown, Vincent Vien- slicki, Carl Kreuzer, Mona Subby, Gilbert Courtier, Wayne Dicker- son, and Mary van Campen. The last three are the school cheer-leaders.

With twelve new members and with much fresh zeal and interest, the Mendelsohn Club is beginning another year of glorious songs. The new members are: Sarah Wright, Otto Brown, Sylvie Wiegner, Suzette Suckow, Dr. Ella Murphy who gave a des-crition of the Chinese theatre. Her talk was followed by initiation stunts given by the new members. After the program the group spent the remainder of the evening in dancing.

Initiation Banquet Welcomes 14 New Plebes; Dr. Murphy Speaks

On Friday evening, Oct. 5, the Winonan Players held their initiation banquet in the social-room of Shepard Hall.

An interesting program was opened by remarks from Stanley Weinberger, Sylvia Davidson greeted the new members and Fred Kiesling responded. Miss Jennie Lorenz gave a talk on her favorite actress. Following this talk John Blatnick played two cornet solos.

The speaker of the evening was Dr. Ella Murphy who gave a des-crition of the Chinese theatre. Her talk was followed by initiation stunts given by the new members.

Plans for the special assembly program Saturday morning have not been completely revealed. Promised highlights include an organ medley, talks by alumni, a collection picture, "Faculty in Action." The climax will be choice numbers by the band. This as-ssembly is open to all alumni, students, faculty, members, and friends of the college.

Proceeding the game and starting immediately after lunch will be a coospective parade of the four classes. Each class will march as a distinct unit and present some of the parade's highlights. (Continued on page 6, column 3).

First Homecoming Foe Returns to Battle

Twelve years ago, on November 11, 1922, the infant "Homecom-ing" made its appearance on the doorstep of W.S.T.C., yelling "Alma Mater" right jubilantly. The college gladly welcomed the newcomers, and the little lady has enjoyed increasing popularity with each passing year.

That first homecoming links up immediately after lunch will be a coospective parade of the four classes. Each class will march as a distinct unit and present some of the parade's highlights. (Continued on page 6, column 3).

FRIDAY, OCTOBER 17, 1934

AT WINONA, MINNESOTA

Mail subscriptions $2.00 per school year or 50c per term. Alumni Society Membership includes subscriptions. Entered as second class matter at Winona, Minnesota.

ALMS OF THE WINONAN
1. To provide an organ for the expression of student opinion and ideas.
2. To foster the development of wholesome school spirit and to support those traditions of the school which are worthy of perpetuation.
3. To provide training in written and oral expression.

The Passing of the Third Sex

The peculiar position in which school teachers have found themselves, that of attempting to incorporate in our schools the femininity of the virtues held to be of value in a certain community, yet lacking the sum total of what all the individual in that community hold to be evil, has drawn forth the catch-phrase once so common, that there are three sexes: male, female, and school teachers. Most of us are willing to admit that in times gone by this statement was not without its justification. But is the situation basically altered? Are we now in a less embarrassing position than formerly?

If we want convincing proof that, as a class, school teachers are the most submissive, apologetic, down-trodden and patient of all human beings, we need only a superficial knowledge of what took place this summer during the N.E.A. convention at Washington, D. C. Braving the heat that belied over the nation’s capital, they came, taking responsibility as Grover Cleveland. Here were the leaders in control of the educational system of the country. What power they must wield, we poor galilean souls thought! These educators, upon whose ability or inability to lead rest the welfare of tens of millions of human beings, certainly they would demand that the keeping of faith with children would not be violated, that a government that guarantees a billion for hogs must meet the crisis in education.

They requested the presence of the President. This was a request of General Johnn. Word came that the General was ill. An investigator found that he was gorging in New York. The convention disbanded, mildly rebuking the administration. These incidents are trivial but they indicate the entire disregard and contempt with which educators are regarded. While billions are being spent to keep dividends coming in, the school teacher sits in a hole of more than the common ditch digger. Never was there a time more crying the case for men and women who have something other than well-muffled politics to offer, and never have the leading politicians shown more contempt for us, who, for reasons of their own, would like to be assured that all following generations of educators shall be as comprehensible, as wholesome as those of the past. Submissiveness, docility, com- plicity are wonderful qualities — for slaves.

CHEMICAL PROPERTIES —

A CHEMIST’S ANALYSIS OF WOMAN

A chemist reports that he had at last been able to analyze woman. Here is his account:

"Land of Laughs . . . " Seen with the proper perspective and with both an objective and subjective sense of reality, the American Scene . . . is unquestionably the most vitally interesting and amusing under the sun. As a show, life here is beyond improvement; an endless comedy of futility and chaos in which whole hordes of meddlers, busy-bodies, cardsharps, ^crooks, reformers, refugees, and all of the regularly tractable can improve, be it a low and hearty laugh or an erudate peace and bliss, make life more worth living, and induce the race to hoist itself to a higher level by its own bootstraps. Each man or woman he has known in the course of his career has been a bottom fig of them, thereby achieving nothing except revealing his petty individual ego and increasing the outside chance of his degrading grossness and making the world more cruel and original, and more reformers and cardsharps to propagate this or the other evil idea. The show is filled with enough pathos and dignity to keep it from degenerating into farce.

H. L. Mencken "On being an American" (In the United States, more than anywhere else that I know of or have heard of, the daily panorama of human existence, of private and communal folly is the impending procession of government extortions and the American winning lottery, to say nothing of the macabre, satirizing, of theological buffoonries, of aesthetic ridicule, of legal violations and harlotries, of miscellaneous requests, villanies, imbecilities, grotesqueries, and extravagances — is so inordinately gross and preposterous, so perfectly brought up to the highest conceivable amperage, so steadily enriched with an almost fabulous daring and originality, that the wish of the man who was born with a petrified diaphragm can fail to laugh himself to sleep every night, and to awake every morning with all the eager, unflagging expectation of a Sunday-school superintendent taking the Paris peep-shows. (one can’t laugh naturally or pleasantly at the monstrosities, horrors, and paradoxisms but only hysterically.)"

Laughing in the Jungle — Louis Adamic

"You despise books, you whose whole lives are absorbed in the vagaries of ambition, the pursuit of pleasure, or indifference; but remember that all the known world, excepting only savage nations, is governed by books."

— Voltaire

A CHEMIST’S ANALYSIS OF WOMAN

A chemist reports that he had at last been able to analyze woman. Here is his account:

PUBLIC OCCURRENCES — Can be found wherever man exists. Always appears in disguised condition. Surface of face usually protected by coating of paint or film of powder. Boils at nothing and may freeze at any moment. However, melts when properly treated. Very bitter is not used correctly.

CHEMICAL PROPERTIES — Extremely active. Possesses power of combining with and destroying precious stones of all kinds. Violent reaction when placed next to a person who was born with a petrified diaphragm can suffer burns through a hole in the body, thereby achieving nothing except revealing his petty individual ego and increasing the outside chance of his degrading grossness and making the world more cruel and original, and more reformers and cardsharps to propagate this or the other evil idea. The show is filled with enough pathos and dignity to keep it from degenerating into farce.

AN OPINION OF WALT WHITMAN

I have read and re-read Whitman, saying to myself: that there is much that is good, and equally much that is bad. He is, on the whole, unpoetic; but what of such poems as "When Lilacs Last in the Dooryard Bloomed?" His long lists, as catalogues, are indeed boring, but I continue reading them, unable to deny that they interest me. And so I argue with myself and in the end I must admit that I enjoy Walt Whitman.

Perhaps the word best describing Whitman's claim to fame is "different." There have been other poets of realism since his time, (Sandburg the greatest, in my mind), but the "Song of Myself" will always be startling. Whitman's barbarian expressions bring the reader to earth with a thump. They grate on one's sense of harmony and delicacy, and they are decidedly not poetic, but they are part of what makes Walt Whitman. We cannot say that his realism has been as striking and revolutionary as in verse. We cannot say that they interest me. And so I argue with myself, and in the end I must admit that I enjoy Walt Whitman.

Music is to me an ethereal rain, an ever-soft dissillation, fragrant and liquid and wholesome to the soul, as dew to flowers; an incomprehensible delight, a joy, a voice of mystery, that seems to stand on the boundary between the spheres of the senses and the soul, and to ascend into regions of seraphic unconscious life.

W. H. Boots
Art Club Sponsors 9 Day Exhibition
Open to Winona Citizens And School Children Of City

The Art Exhibit, which included 75 reproductions of famous paintings, opened Wednesday, Oct. 10, with a tea which was attended by about 125 members of the college.

The Art Club, which sponsored this exhibit, extended an invitation to citizens of Winona as well as school children in the city, to view the exhibit which is entitled "A Survey of Painting."

Miss Dorothy Clark, fine arts instructor, has charge of the exhibit and in connection with the exhibit, she will present a lecture, "Great Paintings by Old Masters," written by Will Hofahlen, professor of Fine Arts at the American University. The lecture will be illustrated with 35 slides and will be given Oct. 19 at 8:00 P.M. in the college auditorium. This is to be followed by a tea in the clubroom where the exhibit is shown.

The Art exhibit is a decided asset, for there it can be seen that money is being spent for the encouragement of education, both in this college and elsewhere.

Miss Kling Has High Opinion of Am. Youth

"I have a high opinion of the modern American youth," announced Miss Kling as she sat back in her rocking chair. "They are rather extreme in dress and mannerisms that is true, but the pendulum is gradually swinging back. They have gained for them- selves individuality of thought and action and a broad outlook on life that I admire. I like their self-reliant, fine up-standing characteristics. They see things square. Nothing about the clinging vine to them.

Miss Kling, who spoke here Sept. 28 on "Personality" is a graduate of Winona College, and makes one feel immediately at ease and who speaks eloquently, yet with forcefulness and facility. Because of her extensive traveling, her varied experiences in Chicago, Miss Kling speaks with authority and interest. Her animation and vigor and desires she practices as well as preaches.

"The worse thing about the department store is the daisies," "the ruining of dispositions."

Miss Kling is an ardent advocate for higher education. She was emphatic in her beliefs. "Education is never lost," she affirmed, "you always stand a better chance if you have a degree."

Miss Kling verified the statement that average ability and personality would carry a person further than brilliance. Especially in the business world is power worth a decided asset, for there it contributes 50 to 80% of all successes. Personality plus ability added to cooperation is the perfect equation for success in almost any field.

The Art Club Will Play For Homecoming Festivities

The Art Club will have an exhibit on display from Oct. 14 through Oct. 25. It will be located in the lobby of the college auditorium.

T. C. Band Will Play For Homecoming Festivities

The T. C. Band will play for the Art Club's exhibit on Oct. 14. They will perform selections from their repertoire.

A Survey of Painting

The Art Club will sponsor a survey of painting on Oct. 19. The lecture will be given at 8:00 P.M. in the college auditorium. It will be followed by a tea in the clubroom.

The Art Club also sponsors a 9-day exhibition of paintings, open to Winona citizens and school children of the city. The exhibition is entitled "A Survey of Painting."

How a Dime Made a Boy Happy

The pitiful cries of a small black alley cat last night pierced the heart of a braver football lad and brought shelter to the hungry, exhausted kitten. Most football players while walking with their ladies, could not be moved by such a trivial thing as a cat's meow; however, this certain boy cared not about the chucks and puns of passersby, and bravely carried the tiny thing home. He is no ordinary home, it is none other than the one and only, West-Lodge!

Curiously he opened the door and walked stealthily to his room, last one of the "regular fellers" to see him, or most of all — it? Taking but a few minutes to prepare for the night, the hero was soon asleep. But he was not alone, for his sleeping in his arms was the tiny ball of fur he had rescued. Perhaps this story would have gone untold, but for it? awakened early in the morning and by cries for food, roused the other nearby sleepers. "It's" hero became their hero, and plans were being made to present him with the West Lodge Medal of Honor for Kindness to Animals.

When asked late today concerning the episode, the hero's only reply was, "Gosh, that was nothing. I was a Boy Scout and that was just another good turn."

Soviet Russia Still Idealistic Says Rosen

"Soviet Russia's Successes and Failures" was the subject of an address given by Samuel D. Rosen, eminent authority on foreign affairs, Wednesday evening, Oct. 17, at the college auditorium.

In his talk Mr. Rosen gave an unbiased discoursed on current Russia, neither praising it or de- nouncing it. He said the new system is an experiment and may or may not be successful, but the important thing is that it is an attempt to build a new and better Russia.

Among the successes of the new government the speaker included the planning for the future, the progress in education, race equality, the raising of the laborers status, and the willingness to serve others that the people have developed.

Mr. Rosen continued by giving the case of New Russia. Some of these he enumerated were the loss of individualism, intolerance and the fear of government spies. Despite all the hardships and handicaps the Russians are undergoing, Mr. Rosen felt confident that they are happy in their great experiment. He concluded with the statement, "Although oppressed, Russia lives for an ideal. That is her aim — their goal!"

SCIENCE SOUNDINGS

1. The hemlock tree is not poisonous. The "hemlock" poison made famous by Socrates is derived from a plant similar to the wild carrot and containing poison in root, stem, leaf, and bud.

2. The whitest paint pigment is made from ilmenite, a black mineral essentially the same material as the "Cellophane" wrap that keeps their cigarettes fresh.

3. The rayon hose girls wear may be made of essentially the same material as the "Cellophane" wrap that keeps their cigarettes fresh.

4. The flight of a bird's egg holds about 2 fluid ounces, but a predator's bird, the Aepyornis, laid eggs with a capacity of 258 ounces, or over 2 gallons.

5. Maggots, millions of ordinary blowfly maggots, are now used to doctors and surgeons for the treatment of serious wounds.

6. The sugar used in making medicine tablets also goes into explosives.
Purple Clash With Saints Saturday

Purple Win Opener; Beat Bemidji 6-0

The T. C. eleven opened their Northern T. C. Conference season with a 6-0 win over Bemidji in a game played under the lights at T. C. Field on Friday night, Sept. 28.

TO CLASH WITH ST. CLOUD ON HOMECOMING

The only touchdown of the game was scored midway in the second quarter on a pass from Johnson to Viezbicki which netted 80 yards and a touchdown. Twice before the Purple had been turned back short of the goal. In the first quarter the ball was advanced to the visitors 9 yard line after a punt had been blocked. A four yard pass which fell incomplete into the end zone ended the threat.

Again, in the second quarter, Winona reeled off three first downs to carry the ball 48 yards to the Bemidji 7 yard line. An attempted field goal, on fourth down was short.

For the first three quarters the Northerners showed little offensive power. Late in the final period, however, they came to life and threw a real score into the Winona 16 yard line. The Purple braced and held the visitors, taking the ball on downs. Winona ran off a few line plays and the game was over.

Statistics on the game show 18 first downs for Winona and 8 for Bemidji, with two of the latter coming on passes and one on penalty. The Purple outgained the losers by 210 yards to 182.

A feature of the game was the fine kicking of Fred Moilanen. Fred’s kicks averaged over 35 yards in length but were doubly valuable in that Bemidji was unable to return a single one.

The victory Friday was costly for Winona for Gene Jaspers, veteran tackle, suffered a fractured nose in the left arm and will be out of action for several weeks.

W.A.A. Chooses Fall Leaders and Officers

The president of W.A.A. has appointed the following people as fall sport heads: hockey, Alyce Hill; swimming, Catherine O’Flaherty; soccer, Betty Jane Failing; and hiking, Virginia Robb.

About twenty-five girls have reported regularly on Tuesdays and Thursdays for soccer. Two team captains, Gwendolyn Englerth and Bertine Olson, have been elected and teams have been chosen. Competition is keen! The players voluntarily endure the bruises and bumps which are, as that is primarily a kicking game, inherent in the activity. It would seem, too, that the girls are highly skillful, or else why should the college men be so interested in their playing?

W.A.A. also has elected new officers to fill thevacancies of two girls who did not return to school. Alyce Hill was elected secretary-treasurer of the club, and Ruth Richards, social chairman.

Unfortunately, girls, our hike for an announcement of the last thirteen years have decreased. The local paper gives this account, “When the Winona Teachers eleven disembarked from their purple and white dappled pullman yesterday morning at 11:38 at the Milwaukee Depot they had with them, in person, the St. Cloud Goat, and a very tame goat, it was, too, after the boys got through with the up-state Teachers Saturday.”

Winona gained possession of the goat again in 1928 and 1929 but lost it again in 30. Every year since that time the game has made every effort to bring back the Goat but the Saints always managed to keep it very closely guarded.

Being a Monday night game and White celebrating their 16th anniversary, the homecoming every effort will be made to have a more successful game. Cloud and again gain possession of the goat.

Coach Green rated the Moorhead game as close as he said they appeared to be undoubtedly the strongest in the Conference. Moorhead defeated Duluth 17 to 0 last Saturday.

Purple Have Won 5 Games In Last 13 Years; Seek Sixth Win

W.S.T.C. football team during the last thirteen years have defeated St. Cloud five times and will go on the field Saturday seeking their sixth victory in order to tie the record which the Saints hold over them.

St. Cloud has won six games, Winona five and two have been tied during this time. In 1920, however, athletic relations were stopped and the records fail to show a game between the two schools but in 1927, the relations were again renewed and the two schools played a 0 to 0 tie game.

The Winona Teachers haven’t managed to overcome St. Cloud since 1929 when the great championship team of Captain Tom Muller’s; including such Purple veterans as Kern, Kremer, McKibben, Rice, Rogge and Welch; defeated the Saints 12 to 6.

Since 1920 Winona hasn’t scored a touchdown on the up-state champions.

Last year St. Cloud defeated the Purple 21 to 0 but due to the inelegibility of DePaul, Saint quarterback, the Winona Teachers were awarded a full quarter before he is eligible for an inter-collegiate activity.

The two tie games were played in 1927, 6 to 6, and in 1928, 2 to 2. The first game was played in 1920 when St. Cloud defeated the Purple 13 to 7. Winona won the following year 7 to 0. The Saints defeated the Winona Peds 9 to 0 in 1922 and a tie game was played when St. Cloud defeated Winona two years later 12 to 7 and 6 to 0 respectively.

The much sought for goat which St. Cloud has possessed for the past thirteen years was first heard of in 1925. The local paper gives this account, “When the Winona Teachers eleven disembarked from their purple and white dappled pullman yesterday morning at 11:38 at the Milwaukee Depot they had with them, in person, the St. Cloud Goat, and a tame goat, it was, too, after the boys got through with the up-state Teachers Saturday.”

Winona gained possession of the goat again in 1928 and 1929 but lost it again in 30. Every year since that time the game has made every effort to bring back the Goat but the Saints always managed to keep it very closely guarded.

Being a Monday night game and White celebrating their 16th anniversary, the homecoming every effort will be made to have a more successful game. Cloud and again gain possession of the goat.

Coach Green rated the Moorhead game as close as he said they appeared to be undoubtedly the strongest in the Conference. Moorhead defeated Duluth 17 to 0 last Saturday.

THE WINONAAN

Winona, Minnesota, Oct. 17, 1934

Purple Clash With Saints Saturday

Have you heard of a women’s athletic field? Believe it or not, this college has one. Yes sir! Only much to our sorrow it is across the railroad tracks. At a recent faculty meeting the possibility of the girls using the field was being discussed. Coach Earl Green was greatly handicapped by injuries to several members alternating with Herman. Again, in the second quarter, Winona reeled off three first downs to carry the ball 48 yards to the Bemidji 7 yard line. An attempted field goal, on fourth down was short.

For the first three quarters the Northerners showed little offensive power. Late in the final period, however, they came to life and threw a real score into the Winona 16 yard line. The Purple braced and held the visitors, taking the ball on downs. Winona ran off a few line plays and the game was over.

Statistics on the game show 18 first downs for Winona and 8 for Bemidji, with two of the latter coming on passes and one on penalty. The Purple outgained the losers by 210 yards to 182.

A feature of the game was the fine kicking of Fred Moilanen. Fred’s kicks averaged over 35 yards in length but were doubly valuable in that Bemidji was unable to return a single one.

The victory Friday was costly for Winona for Gene Jaspers, veteran tackle, suffered a fractured nose in the left arm and will be out of action for several weeks.

W.A.A. Chooses Fall Leaders and Officers

The president of W.A.A. has appointed the following people as fall sport heads: hockey, Alyce Hill; swimming, Catherine O’Flaherty; soccer, Betty Jane Failing; and hiking, Virginia Robb.

About twenty-five girls have reported regularly on Tuesdays and Thursdays for soccer. Two team captains, Gwendolyn Englerth and Bertine Olson, have been elected and teams have been chosen. Competition is keen! The players voluntarily endure the bruises and bumps which are, as that is primarily a kicking game, inherent in the activity. It would seem, too, that the girls are highly skillful, or else why should the college men be so interested in their playing?

W.A.A. also has elected new officers to fill thevacancies of two girls who did not return to school. Alyce Hill was elected secretary-treasurer of the club, and Ruth Richards, social chairman.

Unfortunately, girls, our hike for an announcement of the last thirteen years have decreased. The local paper gives this account, “When the Winona Teachers eleven disembarked from their purple and white dappled pullman yesterday morning at 11:38 at the Milwaukee Depot they had with them, in person, the St. Cloud Goat, and a very tame goat, it was, too, after the boys got through with the up-state Teachers Saturday.”

Winona gained possession of the goat again in 1928 and 1929 but lost it again in 30. Every year since that time the game has made every effort to bring back the Goat but the Saints always managed to keep it very closely guarded.

Being a Monday night game and White celebrating their 16th anniversary, the homecoming every effort will be made to have a more successful game. Cloud and again gain possession of the goat.

Coach Green rated the Moorhead game as close as he said they appeared to be undoubtedly the strongest in the Conference. Moorhead defeated Duluth 17 to 0 last Saturday.
A certain wit has stated "the only thing I shine in is school is old blue pants." Don't we all?
