# Freeman Proposes State Shake-up

## Won't Let Formosa Fall, Ike Declares

By MARVIN L. ARROWSMITH  
WASHINGTON (AP) — President Eisenhower said today the cause of peace has been served by the United States' making it crystal clear it does not intend to let Formosa fall to international Communism.

He told a news conference he believes this country's defend-Formosa declaration, voted by Congress last week, insures against any miscalculation by the Chinese Communists about American determination.

The President said there has been no commitment to use American ground forces in defense of Formosa. But he declined to go

into any details as to how this country intends to protect that main Chinese Nationalist island and the Pescadores.

Eisenhower specifically refused to say whether the Nationalists' offshore outpost islands of Quemoy and Matsu would be defended by the United States.

**Refuses 'Blueprint'**

He said he was not going to provide any blueprint for the Reds. The news conference covered a wide range of topics. They included:

**Army strength** — The President said that at this moment he sees no reason to alter plans for a cut in Army strength. He made that

remark in response to a request for comment on the statement by Gen. Matthew Ridgway, Army chief of staff, that the planned cut of 140,000 men might jeopardize national security "to a degree."

Supreme Court — Eisenhower said it is unfortunate the Senate has delayed action on his nomination of John Marshall Harlan to be an associate justice. The delay is too bad, the President added, but he is not going to stand up and criticize Congress because of it.

Dixon-Yates — Eisenhower said crisply in response to a question that he does not intend to withdraw the controversial Dixon-Yates power contract as a result of Democratic opposition to it in Congress.

As for the resolution adopted by the ten Democrats on the Senate House Atomic Energy Committee calling for cancellation of the contract, the President said he had no comment other than to say the resolution was drawn along party lines.

## 31 Dead, 100 Hurt; Storms Rip Midsouth

### Tornadoes Strike In Arkansas And Alabama

MEMPHIS, Tenn. (AP) — Deadly tornadoes ripped through three Midsouth states Tuesday, leaving 31 dead and about 100 injured along their haphazard path.

The storms, probing from the furious clouds of a squall line, struck in Arkansas and Alabama — with a bloody jackpot in Mississippi. Extensive property damage was reported.

Twenty-eight were killed near Commerce Landing, Miss., about 30 miles south of here, including an unidentified young girl who died today in a Memphis hospital. Three perished in another twister at Olive Branch, Miss., 18 miles south of Memphis.

Hop — scorching tornadoes also caused considerable damage near Marianna, Ark., and Huntsville, Ala., but no one was seriously injured.

**Many Children**

Many of the Mississippi dead and injured were schoolchildren. Each twister had an elementary school dead center in its path.

National Guardsmen patrolled the Commerce Landing area today as survivors searched the Leatherman plantation's splintered tenant houses for possible additional victims.

Most of the damage at Olive Branch centered at Wiggins Negro elementary school. Twenty-three students were at their desks when the twister struck. A teacher and two children were killed.

Ambulances from towns in the surrounding delta area moved the injured to hospitals in Memphis and Tunica, Miss.

The 25-bed hospital at Tunica, about 15 miles south of Commerce Landing, was soon jammed. Volunteers, some in their party dresses, were organized to help the staff. A school was converted into a makeshift dormitory for the homeless.

**Tenant Houses Levelled**

The Commerce Landing tornado cut a swath 200 feet wide through the 8,000-acre Leatherman plantation, destroying a row of tenant houses, a Negro church, a school and a cotton gin.

W. V. France said the school was whipped away before his eyes, as if a giant hand had snatched it up and tossed both wreckage and bodies into the boiling clouds.

"Afterward men and women came to the spot," he said, "they would find a child and come crying up the road with it in their arms. It doesn't seem possible anybody got out, but they say two little boys did."

The school had an enrollment of 45. No one knew how many of the children were in the school when the tornado struck. The teacher was among the battered dead.

### Heart Attack Kills Rochester Fisherman

ROCHESTER, Minn. (AP) — Emil Johnson, 61, Truman, Minn., died from a heart attack Tuesday as he sat spearing in his fishhouse on Perch Lake.

Five minutes previously he had walked 20 feet over to Emil Briethart's shack and announced, "Well, it doesn't look like we're doing so good." He then returned to his fishing and died.

A Tornado, striking savagely at the Middle cotton gin at Commerce Landing, Miss., to a South Tuesday, reduced the Abbey-Leatherman twisted rubble. (AP Wirephoto)

## Legislature Set To Vote on U. Regents Today

ST. PAUL (AP) — Names of two businessmen and two farmers will be presented to a joint session of the Minnesota House and Senate today for election to the University of Minnesota board of regents.

Three of them, endorsed by caucuses of legislators from their districts, will be up for re-election. They are Daniel C. Gainey, Owatonna businessman, First Congressional District; A. J. Olson, Renwick farmer, Seventh District; and Herman Skyberg, Fisher farmer, Ninth District.

The fourth candidate is Edward B. Cosgrove, a Le Sueur businessman. He was endorsed by Second District legislators in place of Dr. E. E. Novak, 81-year-old New Prague physician, who has been a regent since 1939.

"Names of the four candidates will be presented to the joint meeting as a slate."

Under the procedure followed in recent elections, other nominations may be made from the floor, but each nominee must be offered as a substitute for a specific name on the slate.

Usually, the Legislature supports the endorsements of the district caucuses.

Before the voting, one legislator from each of the four districts will give a short talk about the candidate from his district.

Sen. Walter Burdick, Rochester, will speak for Gainey; Rep. H. R. Anderson, North Mankato, for Cosgrove; Sen. Harry Wahlstrand, Willmar, for Olson; and Sen. Louis Murray, East Grand Forks, for Skyberg.

Voting is a long process since it is done orally.

A bill memorializing Congress to meet unemployment problems in Minnesota by setting up a national public works program was in hands of the Senate today after being passed, 85-30, by the House late Tuesday.

Sixteen House members who had opposed the measure during debate refused to vote on it. The bill also is expected to come up against tough opposition in the upper house, dominated as it is by Conservatives.

The House also approved unanimously a measure calling upon federal officials to take action toward resumption of package freight service on the Great Lakes.

House bills introduced included those to repeal the anti-secondary boycott law; to remove the \$60 monthly maximum for old age assistance; and several tax measures to plug existing loopholes in present income tax statutes.

## Accidents Killed 91,000 Last Year

CHICAGO (AP) — Accidents in the United States last year took a staggering toll, killing 91,000 persons and injuring 9,200,000. The estimated economic loss was nearly 10 billion dollars.

The nation's No. 1 accident killer, as in the last several years, was the motor vehicle.

The National Safety Council, which today reported the various mishaps in 1954, said 36,300 lost their lives in traffic. That was a reduction of 5 per cent from the 38,300 motor fatalities in 1953 and the lowest total since 1950. The all-time record high was 39,969 in 1941.

Traffic accidents last year also caused about 1,250,000 nonfatal injuries.

The 1954 over-all accident death toll compared to 95,000 in 1953, a decrease of 4 per cent. The 1954 death rate for accidents of all types was 56.5 per 100,000 population. That was the lowest rate on record and 26 per cent under the 1941 rate.

However, the council said one out of every 17 persons in the United States suffered a disabling injury last year.

The estimated economic loss of \$9,200,000,000 from mishaps in 1954 covered both fatal and nonfatal accidents. The total included wage losses, medical expenses and overhead costs of insurance, production delays, damage to equipment in work mishaps and property damage from traffic accidents and fires.

The value of property destroyed and damaged by 1954 motor vehicle crashes was estimated at \$1,600,000,000. All costs, including medical expense, overhead costs of insurance and motor vehicle property damage, were \$4,350,000,000.

Accidents in the home claimed the second largest number of lives, 28,000, a decrease of 1,000 over 1953. The council, which said all figures are estimates, said another 16,000 persons lost their lives in public (not motor vehicles) accidents, the same number as in 1953, and 14,000 were killed in mishaps at work, a decrease of 1,000 over 1953.

## Senate Ratifies Defense Treaty

WASHINGTON (AP) — The Senate ratified by an 82-1 vote late Tuesday the Southeast Asia defense treaty designed to combat either open aggression or subversion in the Far East.

Sen. Langer (R-ND) cast the lone dissenting vote, saying he thinks this country "ought to mind its own business and keep out of foreign entanglements all over Europe and Asia."

Parties to the treaty, negotiated at Manila last fall, are the United States, Great Britain, France, Australia, New Zealand, the Philippines, Pakistan and Thailand. The treaty area specifically embraces three nonbelligerents: Viet Nam, Laos and Cambodia.

### WEATHER

#### FEDERAL FORECAST

Winona and Vicinity — Partly cloudy to cloudy tonight and Thursday. No important change in temperature. Low tonight 10, high Thursday afternoon 25.

#### LOCAL WEATHER

Official observations for the 24 hours ending at 12 m. today: Maximum, 28; minimum, 15; noon, 26; precipitation, trace; sun sets tonight at 5:18; sun rises tomorrow at 7:23.

#### AIRPORT WEATHER

(North Central Observation)

Max. temp. 25 at 11:30 a.m. today. Low 15 at 6:30 a.m. today. Noon readings — Temperature 25 degrees. A scattered layer of clouds at an estimated 4,000 feet; another scattered layer at an estimated 15,000 feet. Visibility more than 15 miles. Wind from the east at 7 knots. Humidity 70 per cent. Barometer 30.48, rising.

## Work of 100 Agencies Would Be Done by 10

### Governor Will Have Plan Ready In Two Weeks

By JACK B. MACKAY

ST. PAUL (AP) — Sweeping revision of the state's administrative machinery, which would regroup functions now performed by 100 or more different state agencies into about 10 major departments, will be proposed to the Legislature by Gov. Freeman in about two weeks.

The governor said there are now about 25 major departments and indicated that his proposal, which will be in the form of an omnibus bill, will make many of the agencies subdivisions within specified departments.

As examples, Gov. Freeman cited that his big bill will provide for creation of a department of revenue, department of protection, and department of commerce.

In the department of protection would be such agencies as the highway patrol, the state safety division, civil defense, adjutant general's office, chauffeurs and drivers license bureau and the state bureau of criminal apprehension.

#### No Policy Changes

Asserting that his reorganization move would not involve policy changes, the governor said that under the present arrangement of executive departments "efficient and sound administration is extremely difficult."

Gov. Freeman said his omnibus bill, in addition to regrouping the functions of small and major departments, calls for:

1. Improving the civil service system.

2. Improving the procedures for handling state investments.

3. Bringing employees' salaries into proper alignment with tasks performed and with requirements of an efficient merit system.

Gov. Freeman said he has consulted with Sen. Gordon Rosenmeier, Little Falls, and Rep. D. D. Wozniak, St. Paul, chairmen of the respective civil administration committees, and that he has been assured their cooperation in making certain that the committees give the proposals early and earnest consideration.

He said that he has spent much time working with his special advisor in this area, Dan Magraw. He said they have examined the findings of many surveys, studies and reports bearing on administrative organization and management, adding:

#### Not a Paper Plan

"We are convinced that substantial economies can be accomplished and the efficiency of our operations vastly improved. We are determined that everything possible be done to realize economies wherever they can be made."

"This is not a paper effort. It is part of a program that will get the strongest emphasis and the highest priority throughout my administration."

Freeman said he was aware that his reorganization proposals all ways have aroused opposition on the part of special interest groups.

## Truce May Cost Quemoy, Tachens

### Secret Message Given to Nehru

LONDON (AP) — Indian sources said today Communist China has delivered a secret message about a Formosa cease-fire to Prime Minister Nehru.

The Indian informants denied reports published abroad that the Peiping message to Nehru demanded the surrender of Formosa, the Chinese Nationalist stronghold, as the price for a cease-fire in the China coast fighting. They would not disclose the contents of the message.

By JACK BELL  
WASHINGTON (AP) — Sen. Sparkman (D-Ala.) said today the United States will have to consider the possibility of yielding some small Nationalist-held islands to the Chinese if this country follows through on United Nations efforts to work out a cease-fire in the Formosa area.

Sparkman, chairman of the Senate Foreign Relations Far Eastern subcommittee, said in an interview he has no doubt that if the Chinese Communists accept a U.N. Security Council invitation to talk about a truce, "the least of their demands will be that the Chinese Nationalists give up Quemoy, Matsu and the Tachens."

Close to China

These islands — close to the China mainland — are regarded as covered by the defend-Formosa resolution passed by Congress last week, but Sparkman said the administration's attitude toward defending them remains "foggy."

"The Communists have made it very clear that they will insist on getting these islands," he said.

"If the islands are necessary for the adequate defense of Formosa, then we ought to tell the world that we are going to fight for them. If they are not essential, I don't think we ought to spill American blood over them."

Some of those who attended a conference of Republican congressional leaders with President Eisenhower yesterday said they came away with the impression that any Red Chinese attack on the offshore islands will be met with immediate American counter-moves.

**Knowland Opposes Yielding**

Sen. Knowland of California, the Republican leader, has said he would fight any move to give these islands — or any other Nationalist-held territory — to the Communists to gain a cease-fire.

Knowland said an amendment of this nature would be proposed if Sen. Humphrey (D-Minn.) renews attempts to get Foreign Relations Committee approval for a resolution that would put the Senate on record as backing administration moves to seek a cease-fire through the U.N.

The committee yesterday declared consideration of the resolution for a week on the insistence of Knowland and others. But Humphrey said in an interview he will bring it up again next Tuesday.

He said he would fight against amendments "because they might include some reservations that the administration would not want included."

The President has proposed the cease-fire action and we have been led to believe that he would not fight any move to give these islands — or any other Nationalist-held territory — to the Communists to gain a cease-fire.

He said he would fight against amendments "because they might include some reservations that the administration would not want included."

### Coffee Break Gets Share of Criticism

LONG BEACH, Calif. (AP) — The American custom of a coffee break came in for criticism from the city council.

Executive Secretary Paul Wilcox of the Associated Property Owners told the council yesterday that city employees were wasting time "unnecessarily, unjustifiably and dishonestly" by taking coffee breaks.

When Wilcox finished, Mayor George Vermillion announced: "Council will now recess for a coffee break."

U.S. Navy Commander-in-Chief in the Pacific, Adm. Felix B. Stump, faces a news conference at Taipei, Formosa, after completing 10 hours of top strategy talks. Adm. Stump said his "beefed up" Seventh Fleet, is "ready to go" with the evacuation of 10,000 Nationalist Chinese troops and 15,000 civilians from the Tachens, if ordered to do so by Washington.

## First Evacuees From Tachens Reach Formosa

By FRED HAMPSON

TAIPEI, Formosa (AP) — Chiang Kai-shek's warplanes hurled near strikes at Yikiangshan, official reports said. The Nationalists said all returned.

While the U.N. Security Council awaits Communist China's reaction to its invitation to talk over a cease-fire, air and sea actions swirl almost continuously around the Tachens. Meanwhile, powerful U.S. 7th Fleet forces supported by swift Air Force Sabrejets await orders to evacuate the Tachens.

Refugees told of the shattering effects of Red bombings on the two Tachens islands. Schools were closed and civil activities were at a standstill, they said.

The official Formosa provincial newspaper, Hsin Sheng Pao, said 40 children slated for evacuation

north of Formosa.

Nationalist bombers flew through intense anti-aircraft fire in their strike at Yikiangshan, official reports said. The Nationalists said all returned.

While the U.N. Security Council awaits Communist China's reaction to its invitation to talk over a cease-fire, air and sea actions swirl almost continuously around the Tachens. Meanwhile, powerful U.S. 7th Fleet forces supported by swift Air Force Sabrejets await orders to evacuate the Tachens.

Refugees told of the shattering effects of Red bombings on the two Tachens islands. Schools were closed and civil activities were at a standstill, they said.

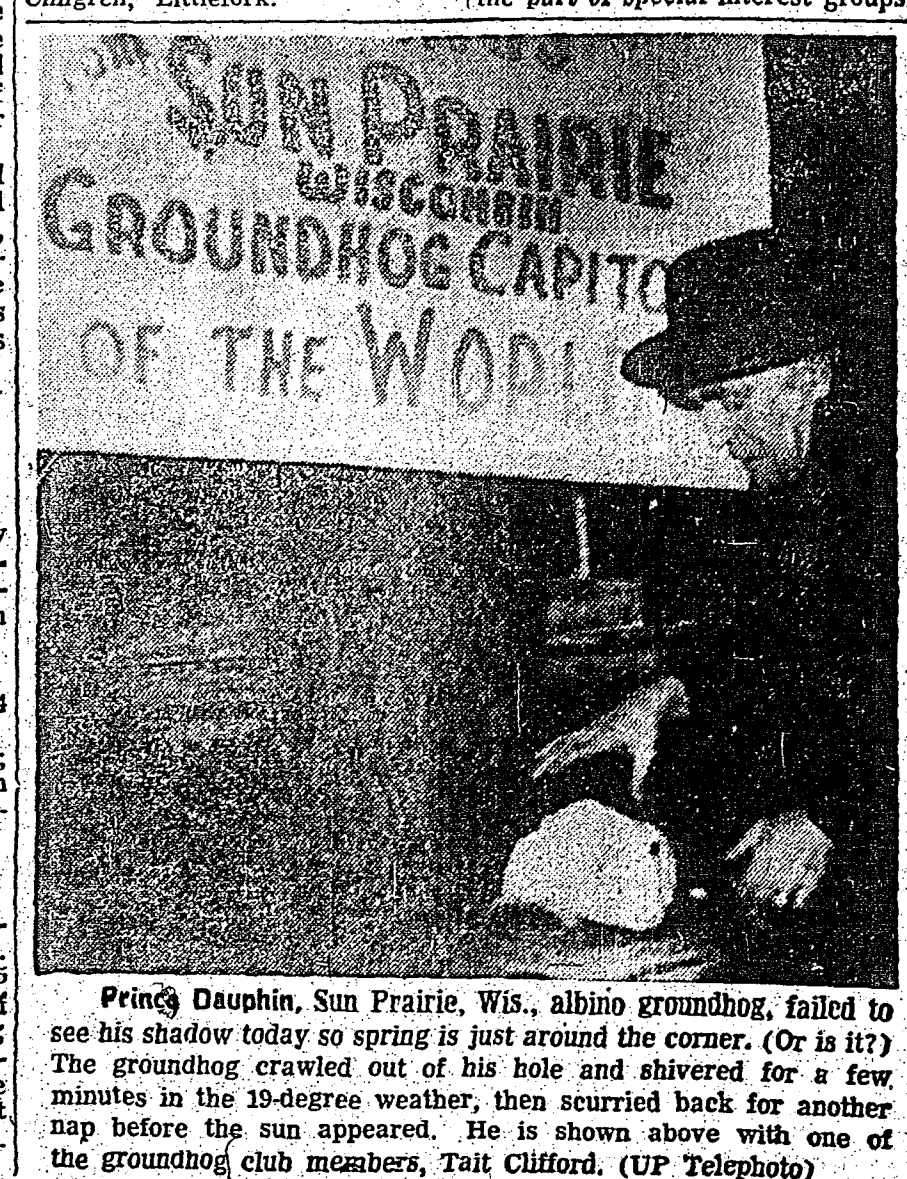

The official Formosa provincial newspaper, Hsin Sheng Pao, said 40 children slated for evacuation

were killed Sunday when Communist bombers sprayed lower Tachens with firebombs.

U.N. Secretary General Dag Hammarskjold has invited Red China to join in talks seeking a cease-fire in Formosa Strait. At U.N. headquarters in New York, it was reported delegates had agreed unofficially to wait a week for Premier Chou En-lai's answer.

New Zealand proposed the talks. (Peiping radio called New Zealand's proposal "only one of the steps in the United States' cease-fire tricks.") It said the proposal "contravenes the charter of the United Nations."

The broadcast, heard in Tokyo renewed Communist threats to liberate Formosa and the Pescadores and said Red China would "not tolerate any foreign intervention.")

Prince Dauphin, Sun Prairie, Wis., albino groundhog, failed to see his shadow today so spring is just around the corner. (Or is it?) The groundhog crawled out of his hole and shivered for a few minutes in the 19-degree weather, then scurried back for another nap before the sun appeared. He is shown above with one of the groundhog club members, Tait Clifford. (UP Telephoto)

## Sharp Decline In Employment Here Reported

Large lay-offs in Winona retail trade and construction employment during the past 30 days accounted for a lion's share of the biggest December-to-January employment decrease in six years.

Releasing nose-diving employment and sharply-increased unemployment figures — something that normally happens each January — was Stanley S. Hammer, manager of the Winona office of the Minnesota State Employment Service, who added that the "picture should be brighter from now on."

### 9,670 Employed

At present, there are 9,670 persons employed in Winona. The total is: 556 less than December; 132 less than employed in January a year ago; the biggest December-to-January drop in six years; the lowest total number of persons employed in the city since 1932.

While employment swung into its yearly downward trend, unemployment inversely zoomed, with both the actual number of persons seeking work through the employment office and the total number of jobless claims during a 30-day period showing sharp increases since December.

Hammer announced that 875 persons are now seeking work in Winona. That includes 315 women. This is 255 higher than a year ago, when 720 persons were out of work, including 200 women. As the employment total, 975 is a six-year mark.

### Claims Under 1954

Winona County unemployment claims for the Dec. 15 to Jan. 15 period were 539. That's 172 more than in December, but 65 less than a year ago.

Both Houston and Wabasha counties showed an increase in claims since December, but both are still less than in January 1954.

Hammer added that the unemployment claim load as announced at this time is for the period ending Jan. 15. "Actually," he said, "that 539 total is not right up to date — the real picture of the December-to-January jump in claims will be reflected in February's report."

Employment reports, however, are inclusive through Jan. 31 and will not, said Hammer, continue downward, even though the unemployment figure will be higher next month.

Hammer said today that the big drops in retail trade, government and construction employment are "nothing to be alarmed about," adding that the decreases were "about normal."

**Construction**  
Retail stores and the post office always put on extra part-time help at Christmas, he said. Construction? "Well," continued Hammer, "that drop of 60 is about normal for most years. That hasn't happened, however, in the past three or four years though, because there's been a lot of construction work going on during the winter in Winona and the area."

In his employment report, Hammer said, "the present level of 9,670 is more than 100 lower than that of a year ago and is at its lowest point since January of 1952."

"Lowered employment was general throughout most of the 10 categories, with the exception of a small advance in manufacturing. Much of the employment loss was due to heavy drops in retail trade, construction and government, but slowly rising employment levels are forecast by employers during the next several months."

Manufacturing, which has been climbing slowly, rose for the third consecutive month. The entire rise was due to heavy hiring in the metal working group as the electrical industry increased production substantially.

The textile and apparel group dropped workers because of climbing inventories and production curtailments. Heavy hiring in the chemical industries such as the

## Serving in The Armed Forces

The families of servicemen from Winona, Southeastern Minnesota and Western Wisconsin are invited to send news about them — assignments, addresses, promotions, transfers, leaves, etc. — for use in this column. Pictures will be returned, if requested. Address: Servicemen's editor, The Winona Daily News.

William P. Drugan, son of Mrs. V. A. Rice, 1603 W. 5th St., has been promoted to the rank of first lieutenant while serving at an Air Force radar station at Siglek Bay, Labrador. He entered the Air Force in August 1951 and spent a 30-day delay en route here last fall after completing an officer's course in communications and electronics at the Scott Air Force Base, Belleville, Ill. Lt. Drugan's address is: AO 3006836, 924th AG & W Sqn., APO 677, New York, N.Y.

Pfc. Kenneth B. Wooden, son of Mr. and Mrs. John Wooden, 968 E. Broadway, has returned to duty with an Army engineer unit near Darmstadt, Germany, after spending 55 days in the Army's hospital at Frankfurt. He enlisted March 1, 1953, and took basic training at Ft. Riley, Kan., before attending

commercial fertilizer plants will swell manufacturing employment in the next several months.

Labor demand was light throughout the month. The need for women stenographers and office clerks continues strong.

Labor supply rose substantially, with layoffs in retail trade and outdoor activities accounting for much of the increase.

The report in detail:

	1954	1955	Jan.
Manufacturing	3,607	3,629	3,780
Wholesale trade	447	447	399
Retail trade	1,982	1,591	1,641
Service	1,463	1,440	1,506

### New Turbojet Engine Put Through Paces

BRISTOL, England (AP) — A new turbojet engine for airplanes, billed as the world's mightiest, went through its first public paces here yesterday. Capable of 11,000 thrust, it is more powerful than seven locomotives.

a welding school at the Aberdeen (Md.) Proving Grounds. He went overseas in October 1953.

The new address of Pvt. Norris J. Nelson is: Co. B, 70th Tank Bn., APO 201, San Francisco, Calif.

★ COCHRANE, Wis. (Special) — Pvt. Darwin T. Fetting, son of Mr. and Mrs. Elmer T. Fetting, Cochran, and Pvt. Howard Loe, Alma, are

serving together with the Army near Frankfurt, Germany. They enlisted in August and took basic training at Ft. Leonard Wood, Mo. Pvt. Fetting is assigned to duty as an automotive mechanic. His address is: 35th Trans. Co. (Lt. Trk.), APO 165, New York, N.Y.

★ ARCADIA, Wis. (Special) — C.P.O. Clarence Pellowski will leave Monday for Portsmouth, Va., after completing a 19-day leave. He will be assigned to duty aboard the USS Des Moines, a heavy cruiser of 6th Fleet. A chief electrician's mate, he is the son of Mr. and Mrs. Felix Pellowski, former Arcadia residents now living in Winona. Pellowski has been in the Navy 16 years. In 1954, the Des Moines amassed a record of 46,419 miles of travel in one and a half "Giltmo" cruises and one shipman cruise, or the equivalent of almost two times around the world. Chief Pellowski's wife and family are residing in Arcadia.

★ Pfc. Kenneth B. Wooden, son of Mr. and Mrs. John Wooden, 968 E. Broadway, has returned to duty with an Army engineer unit near Darmstadt, Germany, after spending 55 days in the Army's hospital at Frankfurt. He enlisted March 1, 1953, and took basic training at Ft. Riley, Kan., before attending

### Princess Margaret Rests in Trinidad

PORT OF SPAIN, Trinidad (AP) — Princess Margaret rested this morning in breeze-swept Government House, gathering strength for her rigorous tour of Trinidad and nine other British islands of the new world.

Government authorities said they were "overwhelmed" by the public turnout which welcomed the radiant 24-year-old princess.

### Nation Reaches New Electrical Milestone

NEW YORK (AP) — The nation reached a new milestone in the age of electrical living last week — output of 10 billion kilowatt hours in a single week.

Power production has doubled in a little more than seven years and has quadrupled in about 15 years, partially due to increased use of home electrical appliances.

### A Million Dollars to Relieve Piles

It is estimated that over a million dollars a year is spent on varied remedies to relieve piles. Yet druggists tell you that cooling, astringent, and ointment soothes pile torture in minutes. So box or 75c tube applicator. Peterson's Ointment gives fast, joyful relief from itching. Be delighted or money back.

## 80,000 Cattle In Fillmore Co. Getting Tests

Three Weeks Needed To Get Blood Samples Throughout County

By EARL GILBERT  
Daily News Area Editor  
WYKOFF, Minn. — One of the largest bangs testing programs in the state of Minnesota has been set up in Fillmore County this week to test an estimated 80,000 head of cattle in about three weeks.

A pair of mobile laboratories to process blood samples extracted from the cattle by 32 veterinarians have been brought into the county. One is headquartered here along side Highway 80 on the northeast edge of town; the other is at Lanesboro. Each will service half of the veterinarians who are hired by the State Livestock Sanitary Board.

Fillmore County has been divided into 32 districts, each supervised by a veterinarian who has a local farmer assistant. The testing, which normally takes about six weeks in most counties with fewer veterinarians on the staff and one laboratory, should take about three weeks here, officials figure.

Added to the brucellosis testing in Fillmore County is a tuberculosis test which was scheduled for 1955 but as an economy move is being given simultaneously.

The mobile laboratories handle all brucellosis blood specimens and keep a day to day record of the TB test. Dr. L. B. Hines, district veterinarian of the state board out of Austin, is in charge. Dr. Bennett E. Monson, Adams, Minn.; Mrs. Pearl C. Benton, and Mrs. Mary Johnson, Cloquet, biological aids; James McKeag, Cannon Falls, lab technician, and Mrs. George Nashold, Grand Meadow, Minn., lab aid, are employed at the unit here.

Veterinarians usually can draw blood samples from 200-300 head of cattle daily and these are catalogued by number on the sterilized test tube and by a metal clip on the animal's ear. The samples are brought to the lab at the end of the day and there solids are serum are "broken down" by agitation and then overnight settling.

The next day they are given a screening glutination test for evidence of brucellosis. If an animal is a reactor or a suspect the serum, when united with an antigen, will appear like snowflakes or cottage cheese. Positive tests are rerun after the screening process.

If a farmer has animals with brucellosis, which may produce undulant fever in humans, he may sell them for slaughter within 15 days and receive a federal-state indemnity payment. Or he may isolate reactors for a retest within 60 to 90 days. This is done under a quarantine. He also may start a vaccination program.

Method of Figuring Indemnity payments are figured at two-thirds of the difference between the appraised and market values not to exceed \$25 for grade cattle and \$50 for purebreds.

The TB test is given much as it is in humans—between layers of the skin. However, in cattle it is difficult to find a place not covered with hair so the injection is made in the soft folds of skin under the tail near the spine. If the animal is tuberculous, a solid lump will appear in the area within 72 hours. It must then be slaughtered.

Fillmore is the fourth Southeastern Minnesota county to be tested for brucellosis. Olmsted and Wabasha counties are now being tested while Houston County was tested last year.

Petitions for the testing program were started in Winona County Tuesday.

## Township Officers To Meet Saturday For Annual Meeting

The annual meeting of the Winona County Township Officers Association will be held at 10:30 a.m. Saturday at the Red Men's Wigwam, Lewis Campbell, president, announced today.

Reports of officers, including that of Secretary Louis McMartin, will be heard in the morning.

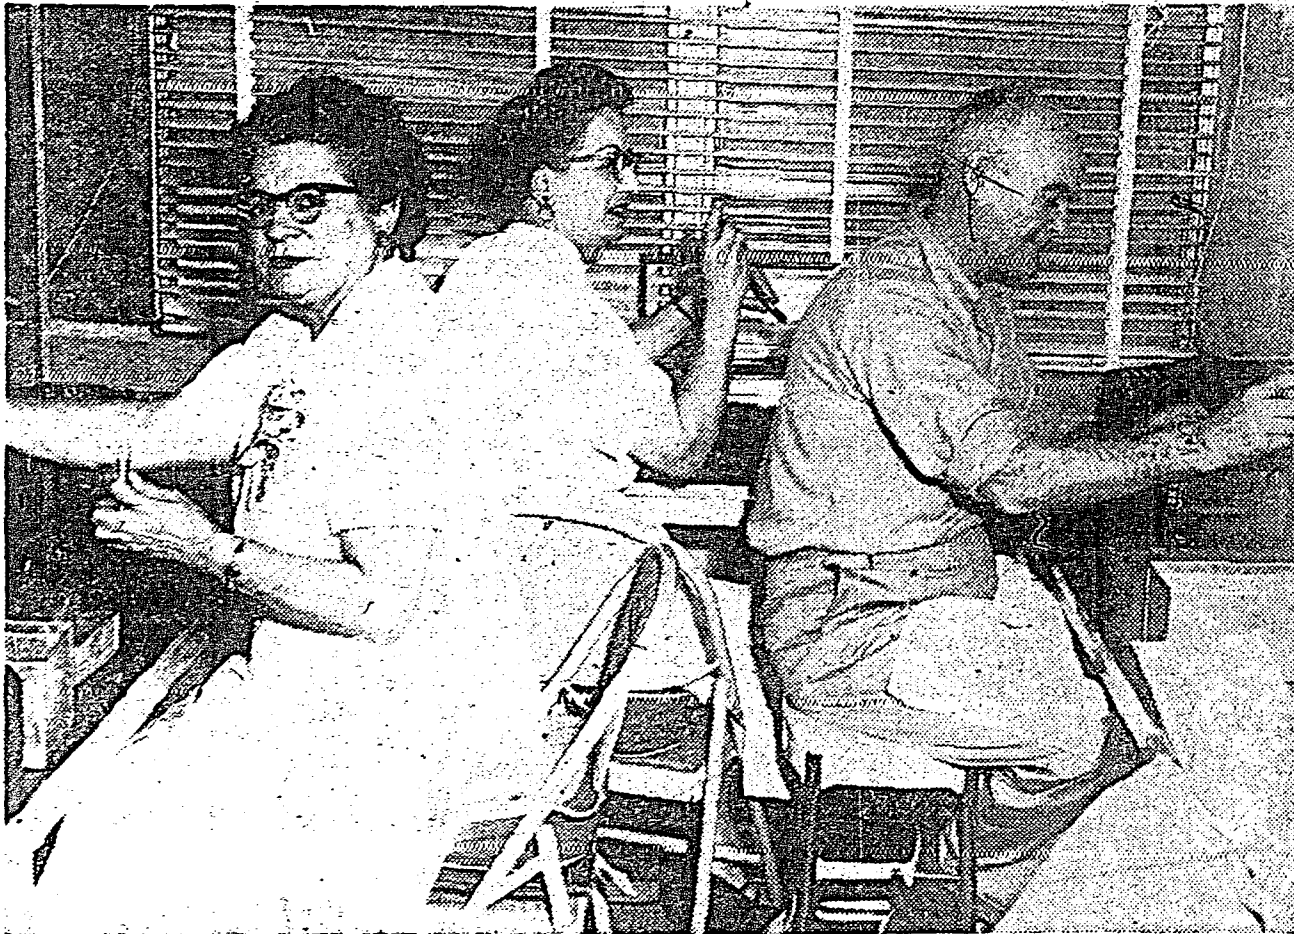

After a noon dinner, resolutions will be considered.

## Divorce Granted In District Court

Mrs. Bernice Rose Ryan, Lewiston, this morning was granted a divorce from her husband, Ralph J. Ryan, on grounds of habitual drunkenness.

The hearing was held before Judge Karl Finkelnburg with Mrs. Ryan and Mrs. Milo Bundy, also of Lewiston, appearing as witnesses.

Mrs. Ryan was represented by Martin A. Beatty, and her husband, who did not contest the action, was represented by Leo F.

Wykoff Is The Site for one of two brucellosis laboratories in the current test of Fillmore County cattle. The other is at Lanesboro. Processing blood at the Wykoff laboratory, left to right, are, Mrs. Mary Johnson and Mrs. Pearl C. Benton.

Cloquet, Minn., biological aids, and James McKeag, Cannon Falls, laboratory technician. During the next three weeks the two units will read results of 80-90,000 blood tests. (Daily News photo)

## Groundhog Day Sunny; Thursday Will Be Cloudy

Partly cloudy to cloudy tonight and Thursday with no important change in temperature is the weather Bureau's forecast for the Winona vicinity.

But two other forecasters have gloomy outlooks. The groundhog, who must have seen his shadow today, predicts six more weeks of winter and the "Old Farmer's Almanac" sees heavy snows through Feb. 11 followed by clear and fair weather the next 10 days and high winds after Washington's birthday.

The reliability of the groundhog might be questioned, however, as last year, Feb. 2 was bright and sunny. The month that followed was the warmest, driest February on record.

The weatherman added that the low temperature expected tonight is 10 degrees, compared with Tuesday night's 15. A high of 25 is forecast for Thursday afternoon. Tuesday, the mercury rose to 28 degrees.

Groundhog Day brought New York City its heaviest snow of the winter today, piling up more than 2 inches by early morning and slowing traffic in the metropolitan area. There was stormy weather through the south and east in the wake of Tuesday's tornadoes which killed 31 and injured 100, mostly in Mississippi.

## Baseball Players To Attend Dinner

Baseball players and representatives of the press and radio will be guests at an annual wild game banquet to be held at the Red Men's Wigwam at 6:30 p.m. Thursday.

The party will be for members only and there will be no charge. Invited guests will include Winona Chief Manager Emil Scheid; signed members of the Chiefs; Moose Skowron, New York Yankees 1st baseman; Ralph Reeve, sports editor of The Daily News; Chuck Williams, KWNQ sports-caster; Merritt Kelley, Winona Daily News photographer, and Tom Koeck, sports editor of the Austin Herald.

M. A. Goldberg will serve as toastmaster.

A class adoption will be held following the banquet program with the American degree exemplified by the tribe's degree team.

## Mondovi Council Names Assessor

MONDOVI, Wis. — Houser F. Rockwell, 58-year-old Mondovi hatchery operator, was named city assessor and building inspector by the City Council Tuesday night. He succeeds William H. Myers who resigned as assessor Tuesday.

Rockwell was selected from a field of five applicants for the position that carries a salary of \$750 per year plus fees.

Other applicants were Roy J. Tanner, Rex Clafin, Paul A. Walker and William W. Butler.

The aldermen also approved purchase of the city's first police patrol car, accepting the low bid of \$1,600 submitted by the Elkinton Auto Sales. Three other Mondovi firms, the Fischer Auto Co., Gleason & Schultz and the Loomis Motor & Electric Co., also submitted bids.

Murphy Jr., of the firm of Streator & Murphy.

The Ryans were married at St. Charles, Oct. 26, 1939, and have one child.

## Architect Named For Blair School

BLAIR, Wis. (Special)—Bids for construction and remodeling at Blair High School are expected to be asked about mid-March, according to members of the local school board who hired the architectural firm of F. L. Mabbitt, Madison, late last week.

Preliminary plans will be submitted Feb. 10 for scrutiny by the board and final plans are scheduled to be complete by March 31. Bids can be asked about two weeks prior to this, officials state. Proposals probably will be opened in mid-April and contracts let at a public meeting now scheduled for May 10.

At that time, too, it is expected that the school district will release land adjacent to the school for the new gymnasium-auditorium which will be financed by the city with a bond issue.

Remodeling of the old gym into class room space would begin when the school is dismissed for the summer about mid-June. Although the voters did not specify the size of the bond issue they would support, it is thought that the project will cost more than \$100,000. The city would finance the new structure and in turn rent it to the school district. When it is paid for, the city will turn it over to the school permanently.

## Nelson Rod, Gun Club Elects Milton Knabe

NELSON, Wis. — Milton Knabe, Walter Radatz, Harold Klingner and John Kennedy have been named officers of the Nelson Rod and Gun Club. They're president, vice president and secretary-treasurer, respectively.

A drive for members is now under way. It was announced that a building donated to the club by H. O. Tiffany will be moved from Misha Mokwa to Nelson soon.

## 60 and Over Senior Citizens Hobby Show at Armory March 5

A "Hobby Show for Senior Citizens" — the first of its kind in the county — will be held at the Winona Armory March 5 under the joint sponsorship of eight local organizations.

The affair—exclusively for city and county residents past the age of 60 — has been set up strictly on a nonprofit basis. No entry fee is required and no admission will be charged. Officials heading the project said today that many goods and services for the event have been donated.

A special entertainment program, featuring demonstrations of the oldest pet hobbies, has been planned for the afternoon and evening show.

Sponsoring Groups Local organizations sponsoring the pilot presentation of the affair—which officials hope will become a continuing thing—include: The Winona Park-Recreation Board, YWCA, the Catholic Recreational Center, YMCA, the Winona County chapter of the American Red Cross, the Winona County Historical Society, the Townsend Club and the Soroptimist Club.

Idea for the affair stemmed from the success such a program had in the Twin Cities and elsewhere. Officials of Winona civic organizations have become increasingly aware of the number of past-60 persons in the area who have interesting and unusual hobbies, said one program leader today, which ultimately led to proposal of such a program here.

Sponsors of the show said today that prospective exhibitors should begin sending in their registrations immediately, so that programming of the affair can get under way.

Persons wishing to show their hobby at the affair have been asked to send in a registration blank to the Park-Recreation Board of the City Hall, in care of M. J. Bambenek. A copy of the registration blank appears on this page, but additional blanks may be secured at the board office. Additional information may be had there too, said officials.

The sponsoring organizations have announced that they will provide a motor pool for entrants on the day of the show. Transportation to and from the armory will be provided for exhibitors simply by indicating that wish on the entry blank.

Climaxing the March 5 show will be the awarding of prize ribbons in each of several categories.

Mail to Park-Recreation Board, City Hall, Winona. For more information call Winona Park-Recreation Board.

## Austin Youth Found Guilty Of Assault

Fine of \$25 Set; Case Stemmed From Post-Game Fracas

A \$25 fine was paid by Sidney Baldwin, 17, Austin, late Tuesday afternoon after he had been found guilty in municipal court on an assault and battery charge involving an alleged attack on a Winona youth here Jan. 7.

The finding was made by Judge E. D. Libera following the day-long trial of Baldwin on a charge stemming from a complaint by Tom Swearingen, 17, 538 W. King St., that he and several companions had been accosted by Baldwin and other members of a group of Austin teen-agers following the Winona-Austin high school basketball game here.

During the morning court session Swearingen and his companions testified that Swearingen had been struck a number of times about the face and head by Baldwin with no apparent provocation.

During the afternoon the Austin youths testified that Baldwin had struck only one blow at the Winona boy and that that had occurred only after Swearingen had directed the first blow against Baldwin.

Ten Witnesses The last of 10 witnesses called for the state by County Atty. S. A. Sawyer were Winona Police Sgt. Donald Berg, Austin Detective Robert Nelson, Winona Assistant Chief of Police Everett Laak, Winona Detective Marvin A. Meier and Mrs. George Swearingen, Tom's mother. Each took the witness stand Tuesday afternoon when the trial was resumed after a noon recess.

Sgt. Berg told of how the Swearingen boy came to police headquarters on the evening of Jan. 7 and reported that he had been struck a number of times by an unidentified assailant he believed to have been from Austin. Sgt. Berg described the boy's appearance when he was at police headquarters and said that he apparently had suffered a nose injury, his mouth was swollen and he appeared to be in a state of shock.

But there was an exchange of words and that he and Swearingen "got into kind of a heated argument."

Baldwin said that Swearingen "took a swing at me and hit me on the shoulder."

At this point, Baldwin said, he struck back and at almost the same time both boys slipped down on the icy sidewalk and fell on the ground. Baldwin said he then got up and the Austin group left.

Baldwin was asked by his attorney, "You heard testimony here that you rained blows on Tom's back and neck while he was down. Is that true?"

The Austin youth replied that he did not and denied that he had struck the Swearingen boy between 10 and 20 times as had been testified earlier.

Baldwin said that after leaving the Winona youths they drove to the high school, parked the car and went to the high school dance where they remained for about an hour before beginning the return trip to Austin.

"Picking a Fight?" Asked if he and his group came to Winona "with the idea of picking a fight," Baldwin replied that they had not and said that when the two groups met on the street he did not notice any punches thrown until he was hit by Swearingen.

"Isn't it true," Sawyer asked in cross-examination, "that you got into another fight before this one happened?"

Baldwin said that he had not been in another fight but under subsequent questioning acknowledged that another member of his group — Kirkwood who was not present for the trial — had been involved in an altercation several blocks away from the high school a short time before the encounter with Swearingen and his friends.

Ploof was the next witness called by Dunnette and he testified that he was the driver of the car at the time the Winona and Austin groups first encountered each other. Witnesses for the state had held that Baldwin was the driver of the car when it stopped at the stop sign.

Ploof's account of the incident was similar to that presented by Baldwin as was the testimony of a third Austin boy, Lynn Weber, 17.

Ploof said that he saw Swearingen strike the first blow and that the Winona youth was hit only once by Baldwin.

Weber said that although he was at the scene he did not actually witness the exchange of blows.

Both youths testified that the sidewalk where the exchange took place was icy.

Cross-Examination In cross-examination Sawyer asked Weber whether he had stated during questioning at Austin that "Sidney has a terrible temper."

"I said that he gets mad sometimes," Weber replied.

Mrs. Sidney Baldwin Sr., Mrs. Lynn Weber and Mrs. Caleb Ploof, the mothers of the three Austin boys who testified, were the final witnesses called by Dunnette.

Before he rested his case, Dunnette recalled Ploof in rebuttal and, referring to a statement made by one of the Winona youths that he had smelled beer or liquor on the breath of one of the Austin youths, asked the witness whether any of his group had been drinking on the evening they came to Winona.

Ploof said that they had not.

## Gun Club Elects Dr. R. B. Tweedy

Dr. Robert B. Tweedy, Winona physician, was elected president of the Winona Rod and Gun Club at its annual meeting at the Red Men's Wigwam Tuesday evening. He succeeds Chauncey Safranek, president the past two years.

No action was taken on the report of the committee on river drawdown pertaining to the Whitman pool. It indicated that percentage of lowering of the river is slight and may not seriously affect fish and wildlife. The pool was three-fourths of a foot above winter level when the lowering started Monday.

Sale of "Save Minnesota Wetland" buttons has been good, President Safranek reported. The funds secured are turned over to the state to supplement federal and state money in buying marshlands threatened by drainage.

Other officers re-elected were: Clarence Thorpe, vice president; John Hughes, secretary, and O. V. Myers, treasurer.

There was lunch and a movie.

## Own Testimony Cost Youth \$15 On Liquor Count

ST. CLOUD, Minn. (AP)—An 18-year-old Saint Cloud youth whose admission that he bought beer and liquor from a tavern keeper led to the latter's arrest, Tuesday was fined \$15 on the basis of his own testimony.

The complaint against the youth was signed by the tavern operator, Nick Justin of nearby St. Stephen. Justin is free on bond awaiting trial on charges of selling beer and liquor to a minor.

The youth admitted buying the liquor in testimony at Justin's arraignment. He was fined in municipal court by Judge Wendell Hennings.

said was, "Austin" and "You've got a good team."

Go Over to Winonsa's Baldwin said that after the exchange of words, Ploof drove across the intersection, stopped the car and Baldwin and three companions got out and went over to where the Winona boys were standing.

He said that when the two groups met there was an exchange of words and that he and Swearingen "got into kind of a heated argument."

Baldwin said that Swearingen "took a swing at me and hit me on the shoulder."

At this point, Baldwin said, he struck back and at almost the same time both boys slipped down on the icy sidewalk and fell on the ground. Baldwin said he then got up and the Austin group left.

Baldwin was asked by his attorney, "You heard testimony here that you rained blows on Tom's back and neck while he was down. Is that true?"

The Austin youth replied that he did not and denied that he had struck the Swearingen boy between 10 and 20 times as had been testified earlier.

Baldwin said that after leaving the Winona youths they drove to the high school, parked the car and went to the high school dance where they remained for about an hour before beginning the return trip to Austin.

"Picking a Fight?" Asked if he and his group came to Winona "with the idea of picking a fight," Baldwin replied that they had not and said that when the two groups met on the street he did not notice any punches thrown until he was hit by Swearingen.

"Isn't it true," Sawyer asked in cross-examination, "that you got into another fight before this one happened?"

Baldwin said that he had not been in another fight but under subsequent questioning acknowledged that another member of his group — Kirkwood who was not present for the trial — had been involved in an altercation several blocks away from the high school a short time before the encounter with Swearingen and his friends.

Ploof was the next witness called by Dunnette and he testified that he was the driver of the car at the time the Winona and Austin groups first encountered each other. Witnesses for the state had held that Baldwin was the driver of the car when it stopped at the stop sign.

Ploof's account of the incident was similar to that presented by Baldwin as was the testimony of a third Austin boy, Lynn Weber, 17.

Ploof said that he saw Swearingen strike the first blow and that the Winona youth was hit only once by Baldwin.

Weber said that although he was at the scene he did not actually witness the exchange of blows.

Both youths testified that the sidewalk where the exchange took place was icy.

Cross-Examination In cross-examination Sawyer asked Weber whether he had stated during questioning at Austin that "Sidney has a terrible temper."

"I said that he gets mad sometimes," Weber replied.

Mrs. Sidney Baldwin Sr., Mrs. Lynn Weber and Mrs. Caleb Ploof, the mothers of the three Austin boys who testified, were the final witnesses called by Dunnette.

Before he rested his case, Dunnette recalled Ploof in rebuttal and, referring to a statement made by one of the Winona youths that he had smelled beer or liquor on the breath of one of the Austin youths, asked the witness whether any of his group had been drinking on the evening they came to Winona.

Ploof said that they had not.

## Nov. 27 Accident Victim Released By Hospital Here

Raymond Gittens, 43, Minneapolis, Tuesday was released from the Winona General Hospital where he had been confined since Nov. 27 with injuries suffered in a fatal traffic accident on Highway 14 near Utica.

Gittens was the driver of one of the cars involved in a head-on collision Thanksgiving Day. A passenger in his car and the driver of the other automobile were killed in the crash.

Gittens was released from the hospital after a period of observation. He is expected to return to his home in Minneapolis.

## Wabasha County Maps Highway Program for '55

WABASHA, Minn. — Bids for a bridge over the Zumbro River at Hammond, Minn., will be opened here March 8.

The project was part of a report for operation of the Wabasha County highway department in 1955 submitted to the board of county commissioners at the February meeting here Tuesday by Engineer Bert Pinsonneault.

It marked the first board session in more than a year in which no school land petitions were handled. In addition to the highway report, business centered around the closing of Buena Vista tuberculosis sanatorium Feb. 28 and the opening of a county-operated nursing home here.

All of the patients were moved to Mineral Springs Sanatorium, Cannon Falls, Tuesday. The buildings are now empty and the board passed a resolution dissolving operation of the sanatorium Feb. 28 and another establishing the nursing home.

Frank Wachs, a member of the sanatorium commission, will act as Wabasha County representative in making a final settlement with Winona County on a division of assets of the sanatorium. The commission will cease functioning Feb. 28.

The Wabasha County Welfare Board was named the county nursing home board. It will regulate the nursing home once it is opened and will hire a manager as resident executive. Mrs. Dollie W. Arntson was superintendent of Buena Vista.

As explained by Wilbur Koelme, county auditor, a sprinkler system for fire protection at a probable cost of about \$4,000 must be installed before patients can move in. It is estimated that 40 persons will be accommodated at the nursing home.

\$15 Fine Paid for Assault, Battery Junior Ferguson, 30, Sugar Loaf, paid a \$15 fine in municipal court this morning after pleading guilty to a charge of assault and battery.

He was arrested by police on the complaint of an Everett Engler who charged that Ferguson hit him Saturday.

Two Cars Collide, Another Hits Tree Two cars were damaged in a collision at East 5th and St. Charles streets at 3 p.m. Tuesday.

Involved were cars driven by Wallace T. Jozwiak, 162 St. Charles St., who reported \$75 damage, and Stanley Ferguson, 604 Grand St., who estimated his damage at \$250.

Mrs. Leone Johnstone, 159 W. King St., reported that she was making a turn at West Mill and Main streets at 9:37 p.m. Monday when she reached out to keep a child from falling off the front seat of her car, lost control of the automobile momentarily and the car ran over the curb and hit a tree.

Damage to the car was set at \$150.

Alternate squares of beef tenderloin, small mushrooms and squares of green pepper and bacon on skewers. Dip in melted butter or margarine and broil. Serve with rice and tomato sauce.

They said that they found no one at a Lewiston service station so they left the car parked at Lewiston in search of a jack to use in removing the flat tire.

They were beginning to remove the tire when they were arrested by Lewiston Constable Arthur Lindgren who notified Sheriff Fort.

The sheriff said that a number of bottles of strong beer were found in the car and this morning he questioned the boys about this.

At first, the sheriff said, the youths maintained that another person had bought the beer for them but shortly before noon today they admitted that they walked into a storeroom at the Rochester VFW Club and took the beer.

They drank three bottles apiece en route to Lewiston, the sheriff said.

Sheriff Fort said that he has notified Rochester authorities who are expected to come to Winona later today to take custody of the youths.

## Buena Vista TB Sanatorium Closes Down

8 Patients Moved To Mineral Springs; Nursing Home Planned

Buena Vista TB sanatorium at Wabasha closed its doors Tuesday for "at least two months" with seven of the institution's nine employees on an "unpaid vacation," said Mrs. Dollie W. Arntson, superintendent, today.

Closing of the sanatorium marked the completion of a Winona-Wabasha counties' agreement for care of the two counties' tuberculosis patients.

The Winona County Board of Commissioners voted unanimously in December to begin sending its patients to Mineral Springs Sanatorium at Cannon Falls, Minn., and agreed to extend its half of the two-county contract only to Feb. 1.

The move forced Buena Vista to close down insofar as TB care is concerned, with the Wabasha County board electing to send their patients to Mineral Springs, too, on the same per diem basis that will cover Winona County patients.

Of the nine patients still at Buena Vista Jan. 31, eight of them were moved by car to Cannon Falls Tuesday. The ninth, a Winona County patient, was removed to a rest home at Elgin, Minn.

Two Wabasha County, three Winona County and three Houston County patients were included in the switch. Houston County has been sending TB patients to Buena Vista on a noncontract basis.

Mrs. Arntson reported that beginning today, an extensive "housecleaning" job will get under way at Buena Vista. A complete inventory also will be taken.

Aim for April 1 She added that Wabasha County officials hope to have the building ready for occupancy as a county-supported nursing home by April 1, which means that employees at the institution will be on a forced vacation for at least two months.

Only one person—a caretaker—will be kept at Buena Vista on a full-time basis until the renovating job is completed, with Mrs. Arntson working on a part-time basis.

The remaining employees—five women and two men—will be unemployed during the interval. All but one live at Wabasha.

## Rochester Youths Held Here for Theft of Beer

Three Rochester area teen-agers have admitted the theft of 16 bottles of beer from the Veterans of Foreign Wars Club at Rochester Tuesday night, Sheriff George Fort reported today.

Sheriff Fort said that the trio—a 19-year-old Rochester farm youth and 15- and 16-year-olds from Rochester — was arrested after their car was stalled with a flat tire at Lewiston at about 1:30 a.m. today.

The boys said that they left Rochester at about 11 p.m. drove to Chatfield and were nearing Lewiston when the tire went flat.</

## Actor's Life Religious, Then Slightly Tippy

By BOB THOMAS

HOLLYWOOD (AP)—During the week, Donald Curtis portrays a tipsy Lothario in "All That Heaven Allows." On Sunday, he mounts the pulpit of his Santa Barbara, Calif., church and preaches the gospel.

This is the double life of Donald Curtis. You've seen him in many pictures, often as a heel or heavy. Currently he's in "Phffft" as the actor who lures Judy Holliday to his apartment.

But his congregation of 500 knows him as Dr. Donald Curtis, pastor of the Church of Religious Science.

I talked with Curtis at U-I, where he is playing a country club wolf who forces his attentions on Jane Wyman. I asked him, as a clergyman, could he reconcile himself to such roles.

"Somebody asked me that on the set," he remarked. "Someone who was listening came up with the answer. He suggested that you could preach goodness by showing the bad example just as well as you can the other way."

"No, I'm not too concerned about being typed as a wolf or a heavy. My congregation doesn't seem concerned; they were quite amused by 'Phffft.' But my wife worries about it. She said she is going to apply some positive thinking."

Curtis is a big man, tall, broad-shouldered with a handsome face and trim mustache. I asked him how he manages to develop his two-fold career. Born in Spokane, Wash., he became a professor of speech at Northwestern and other universities, then took up acting full time. He landed a term contract at MGM, where he lasted six years. Then he became a free-lancer.

"Like many young actors, I led a pretty gay life," he said. "I guess the change came in 1941. Pearl Harbor happened on a Sunday, and the following week I was on location for a Universal Western. On the set, we stood around a radio and listened to the reports coming in from the Pacific."

"It made me stop and think. Here I was playing cowboys and Indians while history-making events were happening in the world. I decided I should try to do something more important with my life."

Curtis moved on to New York, playing in shows like "Goodbye, My Fancy" and on radio and TV. For four years he also took religious studies and graduated as a full-fledged minister. After his graduation, he took over a Philadelphia church, commuting daily to New York, where he starred in a soap opera.

Then he had the opportunity to assume leadership of a church in Santa Barbara. He moved his family westward.

## 'Bereaved' Dog Has Some Biscuits Coming

LOUISVILLE, Ky. (AP)—A little dog that kept a lonely vigil over another killed by a car has a dollar's worth of biscuits waiting for him.

But Works Director H. T. Meiners can't find the black puppy with the white-tipped tail.

His search started yesterday after an anonymous writer explained he saw a picture of the dog who is left behind. I hope this dollar brings him happiness. If the puppy can't be found within a week, Meiners is going to buy dog biscuits for inhabitants of the pound.

"After all, they have been left behind," too," he said.

## Gene Molitor Tops Cribbage Tourney

Gene Molitor is the 1955 cribbage champion at the American Legion Memorial Club.

He defeated Frank Grupa 4-3 in a match this week.

Thirty-two were in the annual tournament. Grupa beat John LaBarre 3-0 to reach the finals, and Molitor defeated William Linahan 3-1.

## U.S. College Students Total Almost 2 1/2 Million

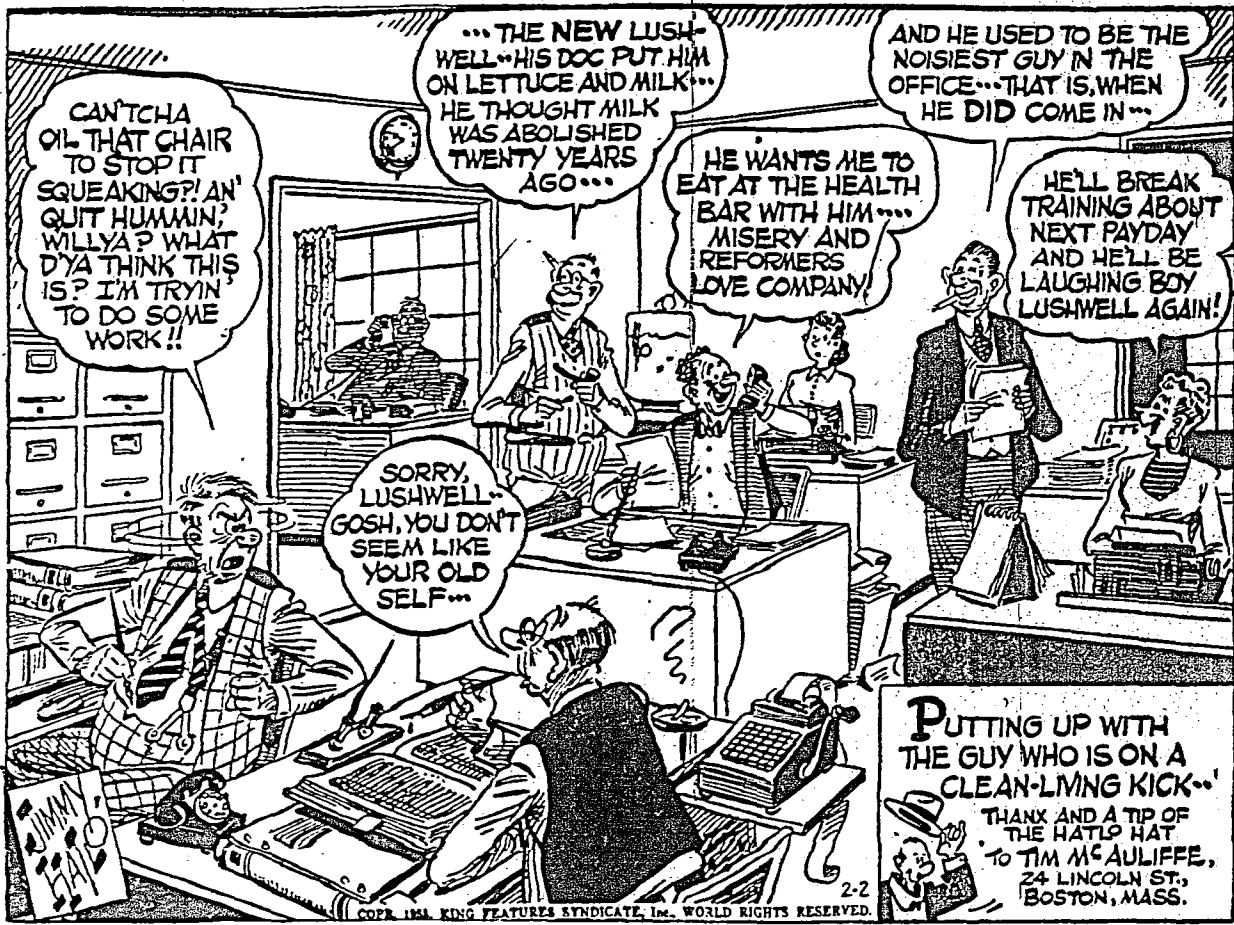

WASHINGTON (AP)—Colleges and universities had a record fall enrollment of 2,499,750, Secretary of Welfare Hobby announced. The total was 11 per cent higher than 1953 and 2 per cent above the previous record in 1949.

Boiled grapefruit makes a refreshing ending for dinner when roast duck has been on the menu. Cut the grapefruit in halves and remove seeds, if any. Cut around each section with a small sharp knife to loosen pulp from membrane. Drizzle honey over grapefruit and place under broiler, about 3 inches from source of heat. Broil about 5 minutes and serve at once. Brown sugar may be used instead of the honey, if desired.

**STOP!**  
It is dangerous to let cough from common cold hang on. Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated. Get Creomulsion quick and use as directed. It soothes raw throat and chest membranes, loosens and helps expel germey phlegm, mildly relaxes systemic tension and aids nature fight the cause of irritation. Creomulsion is guaranteed to please you or drugstore-refunds money.

## They'll Do It Every Time

## Housing Authority Discusses Bill For Legislature

A number of suggested changes in the Minnesota housing and redevelopment act and a proposed amendment to eminent domain proceedings, all related to development of low-rent housing projects, were tabled during the semi-monthly meeting of the Winona Housing & Redevelopment Authority Tuesday afternoon.

The proposed changes, drawn during a meeting of Minnesota housing authorities in St. Paul late last month, probably will be presented to the Legislature in the near future. Most of the suggestions are intended to make Minnesota public housing regulations conform with national statutes.

Commissioners present for Tuesday's meeting decided that a study of the 10 pages of proposals should be made before they took any action. An accompanying letter suggested that the local authority pass a resolution recommending passage of the suggested changes.

The brief meeting also included discussion of the room in the authority's administration building that has been the site of the meetings since last fall.

Several commissioners noted that the room had been intended as a community room for residents of the Arthur C. Thurley Homes, but that as yet, the room is not equipped with chairs and tables.

Executive Director Arthur A. Gallien said that provision has been made in the budget for the purchase of about 80 chairs, 20 4-place tables and several larger tables, and that the purchases will be made upon approval of the new budget. At that time, the room will be available for meetings and social gatherings by residents of Thurley Homes.

Gallien also noted that Chester Treece of the management section of the Public Housing Administration's Chicago office was expected to arrive in Winona today (Wednesday) to further assist the local authority in the beginning of the management phase. The development phase ended Jan. 1.

A crew of the city's street department was erecting street signs at the site Tuesday. Attending the meeting were Chairman A. L. Kitt, Commissioners W. J. Thurov, Frank Cunningham and Roy K. Carpenter and Gallien.

Gene Molitor is the 1955 cribbage champion at the American Legion Memorial Club.

He defeated Frank Grupa 4-3 in a match this week.

Thirty-two were in the annual tournament. Grupa beat John LaBarre 3-0 to reach the finals, and Molitor defeated William Linahan 3-1.

WASHINGTON (AP)—Colleges and universities had a record fall enrollment of 2,499,750, Secretary of Welfare Hobby announced. The total was 11 per cent higher than 1953 and 2 per cent above the previous record in 1949.

Boiled grapefruit makes a refreshing ending for dinner when roast duck has been on the menu. Cut the grapefruit in halves and remove seeds, if any. Cut around each section with a small sharp knife to loosen pulp from membrane. Drizzle honey over grapefruit and place under broiler, about 3 inches from source of heat. Broil about 5 minutes and serve at once. Brown sugar may be used instead of the honey, if desired.

**STOP!**  
It is dangerous to let cough from common cold hang on. Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated. Get Creomulsion quick and use as directed. It soothes raw throat and chest membranes, loosens and helps expel germey phlegm, mildly relaxes systemic tension and aids nature fight the cause of irritation. Creomulsion is guaranteed to please you or drugstore-refunds money.

## It Happened Last Night

## Serge Rubinstein Always Was a 'Big Dame Hunter'

NEW YORK—"What kind of a guy was he—this Serge Rubinstein?" Many have asked that. What an irony that was to his end: That he should duck the draft fearing death on a bloody battlefield—and be murdered in his normally peaceful bedroom.

I knew him but slightly—but Saloon Society was aware he'd been living it up furiously lately . . . outwardly happy . . . eager to make a date with any "new talent," meaning any new beautiful girl.

He'd pick up a tab for a party of 25 to 50—and of course that made some people dislike him less than formerly.

Still an old joke almost applies. I refer to the one saying: "The list of suspects has been narrowed to 10,000."

He could be pretty chilly to the male escort of some girl he liked. He often said that his father was a thousand times greater financial wizard than he was.

I saw him a few weeks ago with the biggest drink I'd ever beheld. A "Coupe Rendezvous," it was served in a tall, 20-ounce glass, containing strawberries, a sugar, brandy, Grand Marnier and a split of champagne.

Price: \$4.50 for one. He boasted of being part owner of a film company. And in Hollywood I saw him quarreling one night not long ago with a waiter.

He accused the waiter of giving him change for a \$20 bill when, he said, he'd handed the waiter a \$50 bill.

"How can you be sure it was a \$50 bill?" the restaurant proprietor asked Rubinstein, for the waiter was an old and trusted one and Rubinstein was a little up-steady on his feet. Besides, the hour was late.

"Because," flung back Rubinstein, "I only carry \$50 bills!" A man with Rubinstein apologized for his conduct, and assisted him into his car, and they shot away.

I've told this incident to a couple close friends of his who said it wasn't like him at all, and insisted that he had many good qualities. Surely he had no premonition of his fate, because he made a reservation, the day before his death, for a big supper club opening the following Wednesday night. He had planned on living it up for a long time to come.

"Judge not that ye be not judged," it says in the most famous Book of all. We shall try, but it does seem, as somebody on Broadway said, that Rubinstein pyramided not only his wealth but his enemies.

THE MIDNIGHT EARL . . . Greta Garbo drops into the Normandy restaurant to see just the trailer of her picture, "Camille!" Marilyn's veep, Milton H. Greene, will photograph Gloria Vanderbilt for Look . . . Just loved that Shirl Conway in "Plain and Fancy," and congratulations to writers Joe Stein, Will Glickman and Arnold Horwitt—and to actress Nancy Andrews.

Dot Records signed the hottest new male singer, Pat Boone, of Denton, Tex., great-great-great-grandson of Daniel Boone—a young preacher, but handsome . . . Now that she's prez of a company, the Wall St. Journal wants to interview Marilyn Monroe . . . Michael Wilding busted up with MGM—he wants to do TV . . . Anne Francis traveled all over Texas in tight jeans to promote the movie "Bad Day at Black Rock."

One of the stage's very top stars is suffering memory lapses, with other cast members covering it up . . . Wally Cox, who seldom gets around, gave a party for 20 at the

WASHINGTON (AP)—The Republican National Committee said today a record total of 304 women are serving in state legislatures.

Miss Bertha S. Adkins, director of women's affairs for the committee, said a survey showed 186 of the women lawmakers are Republicans, 116 are Democrats and 2 have no party designation.

Only five states—Alabama, Arkansas, Florida, Georgia and Oklahoma—have no women in their legislatures, according to the survey.

## American Girl Meets Monaco's 'Prince Charming'

MONTE CARLO, Monaco (AP)—American coed Jo Ann Stork has met Monaco's ruling Prince Rainier III and says she'd "love to be a princess and live in this country." There was no indication today that bachelor Rainier would grant her wish.

The 20-year-old University of Illinois student flew to Monaco last week on the blind chance of meeting the handsome, 31-year-old prince after reading in a U.S. magazine that his subjects want him to get married and some would like the bride to be an American.

At first she couldn't get past the palace gates. Then the prince's Roman Catholic chaplain, the Rev. Francis Tucker, interceded and she visited Rainier for two hours yesterday afternoon. Father Tucker and Rainier's sister Princess Antoinette chaperoned.

Joan said they discussed football, yachting, music, the prince's plan to go to the United States in the future. They toured "the Green Room, the Blue Room, the Throne Room, the corridors with pictures of his ancestors on the wall," and the terrace, which has a "marvelous view."

Rainier, she bubbled, was "a real prince charming . . . more handsome than all the pictures I have seen of him."

Joan didn't say what further plans she has. The prince wasn't available for comment.

## Dog Rescues Master Cornered by Bull

ROHRERSVILLE, Md. (AP)—Bozo, a 3-year-old collie, went to the rescue of his master Frank L. Beard, 57, who had been knocked to the ground by a bull.

As the bull pawed at Beard, Bozo nipped at the animal's legs and head. The distraction enabled the farmer to crawl to safety through a gate. He was treated for bruises. Bozo was not hurt.

## Sixth Cannon Battalion To Be Sent to Europe

WASHINGTON (AP)—The Army, in a move to strengthen its atomic striking force overseas, said today it will send a sixth battalion of 280-mm. cannon to Europe in the near future.

The unit is the 216th Field Artillery Battalion, now completing training at Ft. Sill, Okla. Like the other five already in Europe, it has six of the cannon capable of hurling both conventional and atomic ammunition up to 30 miles.

## ALSOPS

(Continued from Page 1.)

Inquired how the Chinese leaders could conceivably hope to take Formosa proper, with so many miles between the big island and the mainland. The reply was that air warning on Formosa was poor; that the morale of the government and people was low; and that Formosa would be softened up for the final attack by powerful air bombings of Taipei and other centers.

Whether this assessment is still correct, this reporter hopes to find out on the spot in a few days. It was certainly correct last year. The Chinese might have added, and perhaps did add, that against land based IL 28 jet bombers and bomb carrying MIG 15's, our aircraft carriers in the narrow waters of the Formosa Strait would have a very hard time indeed.

Risk U. S. Reprisals  
There is no hard information as to whether this latter point was made. In any case, the Chinese convinced the Burmese they meant business and were willing to risk American reprisals. In Rangoon, in fact, a quiet warning of bad trouble to come in China was recently given to a friendly neutral diplomat leaving for Peking on an entirely peaceful and irrelevant mission.

Having spent the last two months studying the Communist danger in Southern Asia, this reporter can make no attempt to evaluate the danger to Formosa. It is simply worth noting that the Chinese leaders declared their warlike intentions with such positiveness and in such detail to the Burmese whom they are courting.

They may have been seeking to frighten the extremely stout hearted and astute Burma government, for they have reason to fear that the Burmese will abandon what may be called the Nehru position if Communist pressure in South Asia goes much further. Or the Chinese may simply have been unburdening themselves of their real plans.

If a complete shot in the dark is permissible, these Chinese warnings to the Asian neutrals,

mere bluster though they may be, have probably produced one very important result already. For the news has surely been passed on to Washington, through London or by some other route. And such news would be just the kind of secret lever that could shift the President from his firm former position, and lead him to the new decision to include Quemoy and the Matsu islands in the Formosa defense perimeter.

The general confidence that the Chinese do not mean business

about Formosa proper has been squarely based on the same habit of thought that was the real explanation of Pearl Harbor — the habit of thinking out what the other fellow will do on the basis of what you would do if you were the other fellow. The news here given, whether it means anything or not, would be likely to raise a question mark among those thinking along these lines in Washington. And the natural result would be a bolder and tougher policy.

## Sen. Humphrey Introducing 11 Civil Rights Bills

WASHINGTON (AP) — Sen. Humphrey (D-Minn.) prepared to introduce Tuesday 11 civil rights bills aimed at outlawing lynching, the poll tax as a voting condition, and other forms of discrimination.

Humphrey said in a prepared statement he and groups of fellow senators are jointly sponsoring the measures "with a prayer that the 84th Congress will crystallize and symbolize a feeling of good will and brotherhood" by passing some or all of them.

In past years, civil rights proposals have stirred heated controversies on Capitol Hill and few have managed to make it through Congress.

At the top of the list Humphrey placed a bill to encourage equal opportunity in employment. He said it has 17 other sponsors, including Langer (R-ND), and Murray (D-Mont).

Other bills, he said, would forbid discrimination in interstate transportation; declare it to be a crime to interfere with or deny the right to vote; and tighten the peonage, convict labor, slavery and involuntary servitude laws.

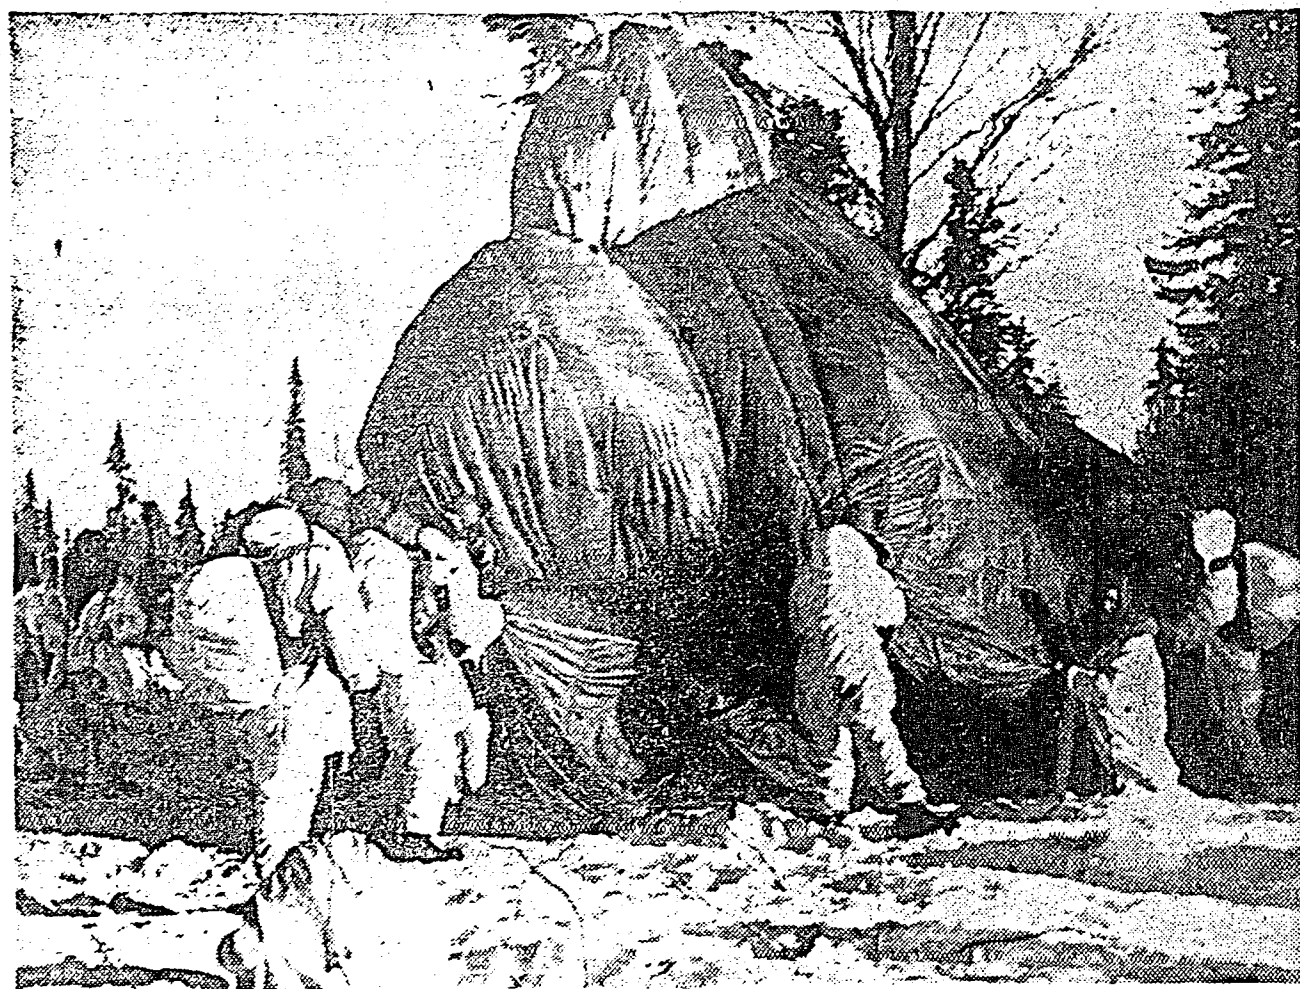

An "ombudsman" bill to protect civil rights and proposals to create a commission on civil rights, tighten existing civil rights laws, create a Senate-House committee to study civil rights problems and to create a civil rights division in the Justice Department also were included.

## Church Relief Budget Set at \$9½ Million

NEW YORK (AP) — The Church World Service, overseas relief agency representing 35 Protestant and Orthodox denominations, has set a \$9½-million-dollar budget for relief work in 1955. The fund, to be raised in a current "united appeal," is 1½ million more than the sum spent last year.

## C47 Crashes, 10 Die

NEW DELHI (AP) — A C47 transport crashed yesterday near Nagpur Airport, killing all 10 aboard.

Paratroopers of the 503rd Airborne Regimental Combat Team take down a parachute snagged in a tree during the air drop of the Joint Army-Air Force winter maneuver "Exercise Snowbird,"

at Talkeetna, Alaska. More than 100 C119 Flying Boxcars disgorged 1,800 paratroopers and their equipment in an airborne assault on an improvised snow-packed "enemy" airfield. (UP Telephoto)

## Pedestrian Killed By Twin Cities Bus

MINNEAPOLIS (AP) — Roy D. Nelson, 64, died Tuesday night in General Hospital several hours after being struck by a bus near his home at University avenue and 4th street, S.E.

Police tagged Ernest L. Cline, 36, St. Paul, driver for the Twin City Rapid Transit Co., for careless driving and failing to yield the right-of-way to a pedestrian. Nelson's death carried the state traffic toll to 57 compared with 50 a year ago.

Add various seasonings to ground beef — horseradish, prepared mustard, grated onion or crushed garlic and catchup. Spread the cut sides of hamburger buns with the meat mixture, making sure it covers the edges of the roll. Broil several inches from high heat until meat is done as much as desired. Watch carefully so the meat won't be overdone. You can spread six hamburger buns with a pound of meat this way.

## Democrats Talk Convention With Prospective Hosts

WASHINGTON (AP) — Democrats start talking today with cities interested in playing host to their 1956 national convention.

A subcommittee of the Democratic National Committee assembled at party headquarters to listen to bids.

Chicago and Philadelphia are the leading if not only serious contenders, as they were in bidding for the Republican convention recently. The GOP National Committee will meet here Feb. 17 to select a date and city.

Since both parties are now talking of August conventions, Atlantic City appears to be out of the running. The resort is packed with vacationers then. The tentative Democratic date is Aug. 13.

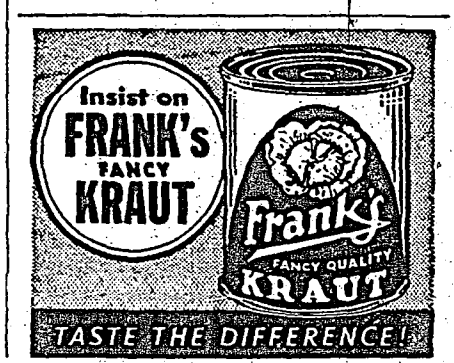

Democratic National Chairman Paul M. Butler told a National Press Club luncheon yesterday

party officials "hope to come up with some novel ideas" for the convention next year.

"I think it will be a streamlined, interesting and really entertaining convention," he said.

## Automotive 'Big 3' Have Record Month

DETROIT (AP) — The "Big Three" — General Motors, Ford and Chrysler — turned out 634,287 passenger cars in the United States last month for their biggest January production in history. They topped January 1954 by 203,600 cars.

**HOTTEST BUICK IN HISTORY**  
No wonder you see so many 1955 Buicks on the highways—they're rolling up bigger sales than ever in history—topping the popularity that has already made Buick one of the "Big Three."

**You can take it over for only \$2337<sup>88</sup>\***

delivered locally!

MOST PEOPLE still don't believe it. But it is true.

And when you look into the facts, you'll find these two solid truths:

Buick is one of the "Big Three" in sales volume—and hotter this year than ever before. And Buick is one of the "Big Three" when it comes to prices which make such popularity possible. The price we show here proves it.

So why not get what a Buick has to offer, if you are in the market for a new car?

You find that the dollars you pay for Buick buy you a lot more automobile—and the sheer satisfaction that comes with bossing a brawny traveler of this caliber.

You find it in the record-high V8 power that gives life to this spirited performer. You find it in the soft and level and cruiser-steady

ride that comes of all-coil springing and torque-tube stability. You find it in the extra roominess, the extra frame strength, the extra tread width, the extra silencing—all part and parcel of every Buick.

We could tell you about the little things, too. Things usually charged for as "extras" in other cars, but yours as standard equipment at no extra cost in every Buick. Things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in glove and trunk compartments—and so on.

But—you get the idea. This is a buy, this '55 Buick—a great buy—and a thriller from the instant you press its gas pedal. Come in this week and check things for yourself, won't you?

\*2-door, 6-passenger Buick SPECIAL Sedan, Model 48, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as: Heater & Defroster ... \$81.70; Radio & Antenna ... \$92.50.

### Tongue in Cheek, Writer 'Lays It on the Line'

Somebody with tongue in cheek is having a little fun with the Industrial Committee of the Winona Chamber of Commerce. Because it makes good reading—and it has been set in type just as it was written—we are publishing the letter, addressed to a committee member, as follows:

"Dear Mr. —:

"To whom this may concern. I am writing you concerning this great Winona of ours in general and of which is going to the dogs but fast, this great town honestly is the talk of the Universe. I understand that you are one of the leaders or officers of our (big Deal) industrial development here in this city, and of which nothing has developed as yet and nothing will. If you or the rest of the men whom are on this committee can not do a better job than what you have been doing, why not just be honest with yourselves and say we just can not undertake this job and be done with it, this way you will do justice with yourselves and the citizens of Winona, or if someone or a body elects or appoints you to these positions please do not accept them this way you will be honest with yourself and us poor taxpayers.

"Now just look at our third street isn't that pathetic and a shame, it looks like it went through the civil war and its about that old, I could write a 10,000 page book about this lousy town but what's the use nothing would be done about it anyway that's the way its got to be, but something is going to be done about it as of now I mean immediately.

"Well a few of the local citizens here in this city formed and we had had a meeting the other night of which will be held once every two weeks and as these meetings progresses are committees will get larger, and we are going to make this little village a proud city to live in. We have contacted several large industrial plants or firms from various large cities all over the United States, and we have already gotten results big results as far as we know now there is going to be one of these large industrial concerns moving to Winona, and we are going to induce more of these big firms to locate here in this city, this particular industry which is moving to Winona is going to employ between 1,500 and 2,000 people and the rate of pay is from \$1.60 an hour to \$2.90 an hour, and this will be all steady work, no lay offs.

"We are also going to induce all these penny ante what you would call industries (ha, ha) what a laugh huh to move right out of this town and pretty darn fast, and we are also going to do the something with all these farmers coming here and taking our homes and what few jobs we have here from the people here whom have payed their taxes here all of their lives. The few lousy jobs that are left here the farmers grab and we are also going to appoint a city manager, as we certainly do not need a mayor, that's just throwing away our money, in fact we are going to ease up on every person whom is on our city payroll we are going to divide the money evenly by that we mean the ones that are overpaid their wages are going to be cut and those that their wages are not enough are going to get a boost in wages, you see our viewpoint on this matter, you can see the condition and shape this town is in and we are going to straighten and put this town in number one shape and we are going to induce more and more industries in our city, we are going to run this town from now on and hope to do a better job than you fellows we sure can not make it any worse, hoping you take this serious matter in deepest consideration and leave well enough alone, and thanking you for same, and hoping you understand,

"We remain,

"Us Poor Taxpayers."

After digesting the letter, the recipient of same expressed his willingness to give the "new committee" full reins, his blessings and good wishes.

The Industrial Committee, incidentally, was organized in 1950 and has an outstanding record of achievement. Entirely due to its efforts, Winona payrolls have been increased by a million dollars in less than five years.

### Try and Stop Me

By BENNETT CERF

An ambitious young man went to work one Monday morning in the lowest position in a huge manufacturing plant. His starting salary was ten dollars a week, but he began his climb up the ladder. Within a month he was the shipping department head at a hundred a week. Soon he was in the front office, getting a thousand a week. And exactly one year later, the big boss called him in and said, "My boy, you've done well. You are hereby named president of the company, at a hundred thousand a year."

"Thank you," said the young man softly. "Thank you, he tells me," grumbled the big boss. "Haven't you anything else to say for yourself?"

"Yes," said the rising young executive. "Please tell Mama I won't be home for dinner."

The ground hog heralds spring again . . . Or it predicts more snow . . . And maybe you believe it but . . . It isn't really so.

### These Days

## National Wool Act Should Be Studied

By GEORGE E. SOKOLSKY

NEW YORK — So much legislation is passed by Congress that the significance of some measures is missed at the time of passage. The effects of the act only become apparent in time. And often there are clauses and paragraphs which, in practice, mean more than hits the eye as it wanders through the verbiage of legislation. One such law is the National Wool Act of 1954, which opens the door to nefarious procedures.

It is understood that the promoters of this act were L. M. Pexton of Denver and Robert Franklin who acted for the National Wool Growers Association.

The sheep industry, it is true, deteriorated before World War II, and during the war, with supplies cut off from Australia, there was a shortage which encouraged many to buy ranges and to grow sheep. Wool was protected by the tariff in the normal manner. When it became clear that under the Eisenhower administration it would be impossible to raise the tariff on wool and mohair because the trend of tariff legislation would be downward on the general basis of a "trade not aid" program, the wool growers turned to other means to protect their industry.

THE PLAN WAS EVOLVED to get special legislation to benefit wool and this was done in a manner which opens the door wide for bad practices that require further investigation by Congress. For instance, the price support on shorn wool is fixed not to exceed 110 per cent of parity. Rigid price supports were generally regarded as high at 90 per cent of parity, and Sec. of Agriculture Ezra Taft Benson considered this too high and labored valiantly for flexible price supports. These wool growers over-reached themselves by demanding and getting 110 per cent of parity plus tariff protection.

But they go further than that. Section 708 opens the door to a check-off to trade associations which, if it spreads, can be damaging to the American economy. Note the following:

"The secretary of agriculture is authorized to enter into agreements with, or to approve agreements entered into between, marketing cooperatives, trade associations, or others engaged or whose members are engaged in the handling of wool, mohair, sheep, or goats or the products thereof for the purpose of developing and conducting on a national, state, or regional basis advertising and sales promotion programs for wool, mohair, sheep, or goats or the products thereof."

This promotion fund can only be used after the secretary of agriculture has determined that at least two-thirds of the producers approve of such action. Now, I hear that turkey growers are after such a fund and it will not be long before those interested in other commodities will be finding ways to do the same. It is bad legislation. In days before dopes, check-offs, welfare fund royalties and similar devices were employed, this would be called "honest graft" for a trade association.

THE NATIONAL WOOL GROWERS Association in a pamphlet states, referring to . . . a conference which President Ray W. Willoughby had with Pres. Eisenhower" early in 1954 that "in that conference Pres. Eisenhower made it very plain that the present administration would not sanction tariff increases. He stated that our nation could not afford to risk a possible misunderstanding over a matter of a few million dollars' increase in tariff which might nullify the billions now being spent for global defense of which no small part is international good will."

Several American industries find themselves in the same position as to wool growers. This is true of lead and zinc, of watches, ceramic wares, wallboards, electrical equipment, etc. Such industries are already suffering, some severely, from the tariff policies of this administration.

Suppose each one of them followed the procedures of the National Wool Growers Association and went to Congress for a special act, providing not only price supports but a check-off for the trade association! We should have a National Zinc and Lead Act, a National Watches Act, etc., etc., and there would always be slick lawyers to add a novel clause which each would copy. It would not be long before price supports would not only be provided for agriculture but for industry as well. The entire economy would be on a dole with check-offs for trade associations.

It is surely time for Congress to study these problems with some idea to scientific investigation rather than partisan advantage.

### IN YEARS GONE BY

## WHAT NOW CHOU?

### Washington Merry-Go-Round

## Administration Could Take Some Pinch Off Taxpayers

By DREW PEARSON

WASHINGTON—Here are a few ways the administration could save the taxpayers' money without hurting the efficiency of government—perhaps even improving it:

Renegotiating Contracts—Sec. of Commerce Weeks, chief friend of big business in the Eisenhower administration, has quietly killed the extremely important Renegotiation Act which protects the taxpayers against defense profiteers. This act authorized the government to recover excess profits from defense contractors who were found to be soaking the public.

However, the act expired on Dec. 31. In the past, when it expired, President Truman asked Congress to renew it immediately. But this time Sec. Weeks wrote a secret memo to the White House urging that the law be scrapped. By constant nagging, Weeks finally got his way. The White House has quietly discarded the Renegotiation Act.

This means that defense contractors can now collect from the government if their costs run higher than expected, but the government in turn will not be able to collect from contractors if their costs run lower than expected. This will mean millions more out of the taxpayers' pockets.

Family Air Rides — Robert Anderson, the efficient and generally thoughtful Deputy Secretary of Defense, flew his eldest son, James, to Williams College, Mass., in a Defense Department plane when he first entered school. The excuse was that the boy had two trunks to carry and the plane was going to Albany, N. Y., on a regular run anyway. This was true. But it doesn't look right to thousands of other boys who can't get an airplane in which to fly to college—even though they may have two trunks also. They take the trunks on the train. After the Anderson family got to Albany, the Deputy Secretary of Defense phoned an air base commander and found an other plane that was "going near" Williams College as "a matter of routine." This completed the trip.

Husband and Wife Hops — Frances Knight, who in private life is Mrs. Wayne Parrish, wife of the publisher of American Aviation, turned up in Paris last September at the time her husband arrived. Miss Knight works for the State Department where she's Scott McLeod's right-hand assistant and a contact of Sen. McCarthy. Some State Department officials describe her as McCarthy's "leak."

Miss Knight's excuse for going to Paris at the same time her husband did is that she wanted to make a sudden "dive bomb" inspection of the American consulate there. Some consuls, she believes, are still displaying pictures of Harry Truman and Franklin Roosevelt and she wants to stop it.

In Paris she found no pictures of Truman and FDR, but she did find a picture of the city of Beirut, Syria; that there was no flag in the room where passport visas are issued; and that no rug was on the floor — due to a tight State Department budget. Miss Knight will now try to take some money out of the already restricted Voice of America budget so there can be a rug on the floor and a flag in the passport room. She will also send a picture of the Grand Canyon to replace that of the city of Beirut.

She is writing a 40-page report on this, but strangely the report isn't finished. She made her trip in September — four months ago. Anyway she had a nice visit with her husband who was going to Paris on an aviation business. September, incidentally, is vacation time and a wonderful time of year to be in Paris!

Brothers-in-law on the Payroll — After 18 years of outstanding civil service, H. Byron Mock, regional western administrator for the Bureau of Land Management, got notice to move from Salt Lake City — a city in which he had worked for many years and in which his family had grown up. As a grade 15 civil servant, Mock is supposed to be protected from such abuse; however, Sec. of the Interior McKay told him to move anyway. Just to make sure he'd move, they also threatened to demote him. Mock took the hint, resigned.

It then became apparent why he was being pushed out. Appointed to his place was the brother-in-law of Sen. Welker of Idaho — Neal D. Nelson. For four years, Nelson had been an office boy for the man who is called the "junior Senator McCarthy." With only 90 days in the Interior Department, he was given the intricate job of handling land management in four western states with headquarters at Salt Lake City.

U. S. Navy in South Africa — Max Rabb, chief picker-up-of-broken-pieces around the White House, has been busy picking up after the airplane carrier Midway visited South Africa, the most segregated anti-Negro nation in the world. It has been strict Navy policy for some time to avoid segregated countries; so Max had quite a job picking up after the Navy's bad' boner.

First, Max called in Ethel Payne of the Chicago Defender and Alice Dunigan of the Associated Negro Press to explain that the visit of the Midway actually had been a good demonstration to the South Africans of how non-segregated democracy works. The South Africans had been able to come aboard the Midway, he said, and see how white and Negro sailors shared the same quarters.

A couple of hours after Rabb's explanation to Negro reporters, the Navy put out exactly the same explanation; later inspired a story in the New York Times. Real fact was, however, that when American Negro and other non-white sailors went ashore in South Africa, they were ordered to visit only carefully segregated areas, and Negro personnel were ordered to mingle only with Negroes.

This was arranged in advance by Capt. R. D. Hogle, captain of the Midway, in cooperation with the American consul. It was in direct contradiction of previous Navy policy worked out under Truman that the U. S. Navy would not visit ports or countries where seamen could not be treated alike regardless of creed or color.

Note — Actually there were only about 60 Negroes on the carrier out of 600 non-whites. The other 500 were Filipinos and Americans of Japanese descent. All were segregated, which U. S. diplomats felt was not the best thing to happen just as the Afro-Asian conference to stop Communism is about to get under way.

### Advice on Health

## Pneumonia Can Follow Common Cold

By H. N. BUNDESEN, M.D.

Virus pneumonia is one of your greatest enemies this time of year. Like the common cold which usually precedes it, virus pneumonia is not often fatal. But it can keep you pretty run-down and tired for several weeks or even months.

It develops during the course of a simple cold. Quite frequently many of you ignore such cold symptoms as a mildly sore throat and nasal congestion.

You don't consider them serious enough to put you into bed until you have recovered.

In about four or five days you will notice a severe headache, become chilly and develop a fever varying somewhere between 100 and 103 degrees.

Other Symptoms — You will probably lose your appetite and in a few days more you will develop a dry, hacking cough. Often the cough is worse at night than during the day. This not only interrupts your sleep, but it will make your headache even worse.

For several days, the cough will remain tight and dry. Eventually, though, you will cough up thin, watery sputum which may be streaked with blood.

By this time the doctor can be pretty sure you've got virus pneumonia.

Keep Calm.

Now don't become unduly worried. As a rule, in about ten to 14 days it will run its course and you'll begin to get better.

But, as I said, it probably will be several weeks before you have recovered completely. You will be very tired, have little energy and little appetite for some time.

There isn't much we doctors can do to cure you, once you've come down with this disease which differs in pattern from other types of pneumonia.

You know at least 17 different viruses all of such minute size that they are difficult to identify, which may cause virus pneumonia.

We can identify these viruses. But by the time we do, you are usually on your way to recovery anyway.

No Vaccines — As yet, we have no vaccines which can prevent this disease. Don't, however, get the idea that there is no need to call your doctor if you begin to develop symptoms of virus pneumonia. You should summon him at once.

He can probably ease your cough and headache and, even more important, he can, if necessary, give you antibiotics to prevent your developing more serious diseases.

There's a simple method you can use to prevent all this discomfort.

Go to Bed — If you've got a cold, go to bed and stay there until you have recovered. You must get all the rest you can. This is the same old advice I've been trying to put across to you for years.

And it's still the best advice I can give you. Heed it, won't you?

QUESTION AND ANSWER — L. M.: About once a week my husband wakes up at night with a dry cough. This cough lasts about five minutes. He is cutting down on cigarettes. What causes the cough?

Answer: The condition you describe may be due to excessive smoking, or a condition which has been called "smoker's asthma." However, it would be advisable for him to have a careful examination made to determine whether or not there is some other condition responsible for the cough, such as an infection of the nose or throat.

A hailstone six inches in diameter was reported from Nebraska in 1928.

## THE WORLD TODAY

## Formosa Open to Reds 5 Years Ago

By JAMES MARLOW Associated Press News Analyst

WASHINGTON (AP)—The Communists, credited with being cunning characters, probably kicked themselves for a pair of colossal blunders: Their handling of Formosa and Korea. They did it the hard way, and backwards.

For six months in 1950 they evidently could have taken Formosa without American opposition. Instead, they tackled South Korea. They might have had both if they had worked in reverse. They wound up with neither.

Five years ago Formosa was wide open to the Red Chinese. They had driven Chiang Kai-shek there from the mainland. And President Truman said on Jan. 5, 1950, the United States would not defend Chiang.

Chiang was in poor shape to defend himself. American diplomats predicted the fall of the island. The way seemed clear. Why then didn't the Chinese Communists cross the 100 miles of water separating Formosa from the mainland?

Homework First — Since they had just taken over the mainland, they may have thought they had some homework to do first. Perhaps they felt they lacked enough equipment for an invasion of Formosa. Or perhaps they felt they "could take their time."

The United States in the first half of 1950 was militarily weak, cutting its armed forces even more, and showing no signs or intentions of getting stronger or into a fight for Formosa. The Reds let six months pass.

Then the North Korean Communists invaded South Korea in June 1950. Truman, no doubt to the surprise of the Reds, put the United States into the war and threw the 7th Fleet into defense of Formosa. It has been there since.

In the intervening five years the American mood changed. The United States decided to keep Formosa from the Communists. The defense of Formosa now is stronger than any time since World War II. The Reds had missed their main chance.

Why Big Delay? — If they had taken Formosa before grabbing for Korea, they might have been solidly in the island now. And, because of their strategic location on Formosa, the United States might not have intervened in Korea. That's a guess, anyway.

Why did the Red Chinese and the Russians let the Korean Communists try to take South Korea before Formosa was invaded? Probably because at the moment it looked like the softer touch.

And South Korea would have been a pushover if the United States hadn't intervened. But the Korean invasion backfired in other ways: It aroused the United States into rearming and into a tougher attitude toward Communism in general.

Further, the United States' European allies were stirred into greater defense. So the Communists—at least in the case of Formosa, Korea and Western Europe—are worse off than they were five years ago.

They might have been further ahead all around if they had snatched Formosa when it was easy.

### Paraplegic Graduates With College Honors

DETROIT (AP) — A 36-year-old paraplegic hospitalized for the past 17 years graduated with honors last night from Wayne University.

Nick Kobane attended the graduation ceremonies in a wheelchair and received a degree of bachelor of arts in chemistry. Ten prominent Detroiters, members of the Nick Kobane Club, have spent \$16,900 to supply Kobane with tutors and books.

Missing Babies Tag Strollers as Stolen

LOUISVILLE, Ky. (AP)—Two men pushing strollers along the street forgot to bring the babies.

Detectives who stopped the pair yesterday also spotted something else: price tags on the vehicles.

Getting no satisfactory answers as to where the strollers were obtained, detectives jailed Marion McGregor, 42, and Thomas Southern, 49, on vagrancy charges.

The latest census shows there are about 43 million people in France.

## Dirty Money Smell Would Floor Horse

By HAL BOYLE

NEW YORK (AP)—Money stinks. Not all kinds of money, of course. Just old dirty, beat-up money—the kind a man would hesitate even to give to a relative.

This wornout currency is accumulated by the federal reserve banks before it is destroyed.

"One of our biggest problems recently was designing air-conditioning for two federal reserve vaults," said John Moser, executive vice president of the 107-year-old Mosler Safe Co. "They had to have fresh air ducts to take away the money fumes."

"Most people like the smell of crisp new money. But the smell of stacked old money will knock a horse over."

Hard to Burn

Getting rid of this repulsive fragrance is only one of the troubles with old money. It is also hard to get rid of the money itself. You may find money easily burns a hole in your own pocket, but the government has found it so difficult to destroy bundles of old bills that it now has a money shredder to chop it up before it is put to the torch.

(There is a rumor that several Texas multi-millionaires keep one or two of these machines around the home. By shredding their old bills and throwing them in the furnace they avoid a long, tiring trip to the bank to make a deposit. It enables them also to brag, "Man, I bet it takes more money to heat my house than it does yours.")

Too Much Money? — There is so much cash in America today that the care and proper protection of it has become the safe-and-vault business into a 50-to-60-million-dollar-a-year industry.

It has also developed several new gimmicks to make the chore of depositing or withdrawing money easier for bank customers.

One of the new devices is the "snorkel" for drive-up banking. The snorkel sits at the curb outside the bank and looks like an automatic vending machine. The motorists drive up, reach out and put the deposit or the check they want cashed into an elevator tray which descends to the teller, who is beneath the pavement but can see the depositor through an overhead mirror. He completes the transaction by sending up the bankbook or cash in another elevator tray.

Another device is the pedestrian window, built in the walls of the bank. A shopper can do business without ever entering the building.

Many people now have safes in their homes—one lady asked for a pink safe with a carved gold knob to fit the decor of her boudoir.

Capehart Offers Plan For Military Housing

WASHINGTON (AP) — Sen. Capehart (R-Ind) has proposed a program for supplying 300,000 additional housing units for military personnel in the next three years.

Private contractors would build the units, then the government would take title and rent them out, retiring the three-billion-cost over a 32-year period with mortgage loans.

### Dixon-Yates Furor Interfering With AEC Work, Claim

WASHINGTON (AP) — Sen. Jackson (D-Wash.) said today it is "quite obvious" that the furor over the Dixon-Yates contract has interfered with important tasks of the Atomic Energy Commission.

Jackson said this had been clearly shown in testimony by commission members this week before the Senate-House Atomic Energy Committee on which he serves.

AEC Chairman Lewis L. Strauss told the group Tuesday the Dixon-Yates project "may have added to the burdens" of AEC members, but he said it had not interfered with their work.

Sen. Anderson (D-NM), chairman of the joint committee, said in a separate interview "the differences they have in the commission seemingly have all developed since they got into Dixon-Yates."

### No Contests Develop In Independence Filing

INDEPENDENCE, Wis. (Special) — The election at Independence April 5 will be rather quiet, according to filing of nomination papers.

Philip Roskos, city clerk, reports that Roy Lyga filed for alderman of the 3rd Ward succeeding George Sylla. Sylla moved out of the ward last fall, when Lyga was appointed to fill his unexpired term. The term of Earl Hutchins, 4th Ward alderman, expired but he did not file for re-election and no one filed, so at this time there is no candidate. Filing for re-election without opposition were Melvin Samplawski and Roman Slaby, 1st and 2nd Ward aldermen; Edward J. Kulig, Joseph M. Roskos, Myron H. Olson and Lester A. Senty, supervisors of the city's four wards.

The terms of Rufus Warner as mayor, and George V. Bautch, Mike Skroch, John Maule and Clarence Klick as aldermen do not expire. Roskos and Treasurer August A. Misch are appointed. The assessor also is appointed following the election. Last year Roman Skroch served in this capacity. Constable and justice also are appointed.

### Old Settlers Set Plainview Meeting

PLAINVIEW, Minn. (Special) — The 78th anniversary meeting of the Old Settlers Association will be held at the Plainview Consolidated School Feb. 12.

The Association will furnish coffee, cream, sugar, butter and dishes for the 12:30 p.m. dinner, followed by the business meeting and program at 2 p.m.

Officers are: Kenneth Baldwin, president; August Manzow, vice president; W. D. Hassig, treasurer, and Malcom Doane, secretary. Committees are: Program — Messrs. and Mmes. Cyril Greive, Arthur Olin, A. A. Burkhardt and Kenneth Steffen; reception — Messrs. and Mmes. Byron Wood, Herman Engel, H. H. Eggers, C. W. Herman and Joseph Ley; table — Mrs. Elliot, Mrs. Goetz, Miss Merle Staudacher and Messrs. and Mmes. Clayton Bennett, Lester Christison, Stanley Wood, Otto Claussen, Fay Martin, Carol Wurst, Lloyd Melendy, Elmer Young, John Liebenow, Raymond Slawson, Herbert Marshman and Edgar Herman.

Paris has a population of almost 6½ million.

### 20-Minute Flight Crashes, 2 Killed

VANCOUVER, B.C. (AP) — An airplane carrying six passengers and the pilot on what was to have been a 20-minute flight crashed in the Queen Charlotte Islands yesterday, killing two of those aboard and injuring the others seriously.

Only meager details were available of what happened to the B.C. Air Lines, Ltd., plane on the short hop from Alliford Bay to Aero Camp. Scene of the crash was about 500 miles northwest of here. The injured and dead were taken to Sandspit in the center of the island group, and were to be flown to Vancouver. Identity of the victims was withheld.

## Aluminum Plant Called Best Bet For North Dakota

By THE ASSOCIATED PRESS

An aluminum smelting plant, powered by lignite coal, is North Dakota's best single bet for major industrial development, a privately-financed industrial engineering survey reported today.

The survey's sponsors are 16 private firms active in the Minnesota-Dakotas area and known as the Resources Research Committee. The survey was made public at a luncheon meeting in St. Paul Tuesday.

The project was underwritten as a study of the area's industrial potential in terms of its natural resources. It concentrated on North Dakota lignite, which the committee termed "the largest single fuel resource in the world." It left the Williston Basin oil and gas resources largely to the oil industry now developing them.

While the report concentrated on North Dakota, Committee Chairman Julian B. Baird, St. Paul, said many of its conclusions applied equally to portions of South Dakota, eastern Montana and western Minnesota.

The engineering report avoided any prediction that industrialization was ahead of largely rural North Dakota and the surrounding areas. It said lignite coal was a potential source of power at competitive rates, however, and that industrial development would be linked to greater use of the coal.

A prediction that North Dakota would become a highly industrialized state through greater use of its coal resources was made when the committee began its work, however. The prediction was made by Dr. H. N. Stephens, research director for Minnesota Mining and Manufacturing Co., St. Paul, and a committee spokesman.

The industrial engineering firm which made the survey is Arthur D. Little, Inc., Cambridge, Mass. The 16 contributing firms spent \$130,000 on the project.

Most of the survey stresses the industrial potential of the low-grade lignite coal found chiefly in western North Dakota but also found in South Dakota and Montana in lesser amounts. These particular beds contain 12 per cent of the total estimated usable fuel reserves in the United States.

This does not include atomic energy, which the survey did not regard as a long-range threat to industrial development of lignite on grounds the foreseeable demand for power will outstrip the supply from all sources, including nuclear energy.

Besides an aluminum plant, the study regarded as economically feasible these lignite-powered industries — in order of their feasibility:

1. Smelting Minnesota iron ore in North Dakota;
2. Furnishing power for taconite (low-grade iron ore) processing in western sections of the Northern Minnesota iron range;
3. An ammonia plant (for fertilizer);
4. Production of salt from Williston Basin wells.

## King Boreas XIX Crowns St. Paul's New Snow Queen

ST. PAUL (AP) — King Boreas XIX crowned Dorothy Arneberg, St. Paul, a 19-year-old blue-eyed, fair-haired insurance company employee "Queen of the Snows" Tuesday night before 9,000 spectators at the St. Paul Auditorium.

For the next three days, sled dog races will be run along state highways for prizes totaling \$1,000 for the three fastest sleds.

The three contests will be run from Hastings to the Ramsey County Courthouse on Thursday, from Hudson, Wis., to Bluff, Wis., on Friday and White Bear Lake to Lake Phalen on Saturday, concluding at the area where the Winter Carnival American Legion Junior Ice Fishing contest will be in progress.

## British Ministers Discuss Uses for Atomic Power

LONDON (AP) — The British Commonwealth prime ministers turned today to discussion of the industrial use of atomic power to help release the vast economic resources of their far-flung territories.

Informants said Prime Minister Sir Winston Churchill was expected to open the discussion today of an atomic power blueprint for the Commonwealth's economic future.

One of the main questions at the 10-day conference, it was understood, is how best the nine countries could cooperate in developing atomic power and put it to practical use in industrializing undeveloped areas in Australia, Asia and Africa.

The goal is a higher living standard, and with it a new weapon to fight Communism.

Conference sources foresee an atom-for-industry program developing through the Commonwealth, beginning with Britain training her sister nations' scientists and then encouraging British atomic engineers to join them in the field to help establish atomic power plants. These probably would be subsidized heavily by the governments at the start, with private industry gradually taking over.

The conference yesterday was told of British plans for a flying "fire brigade" to nip small wars that might break out in Asia, the Middle East and Africa. Informants said Defense Minister Harold MacMillan told the premiers his government is establishing a mobile strategic reserve of two British divisions, based at home but with a fleet of air transports to fly them to meet Communist penetration.

## Assessor Candidate Withdraws at Whitehall

WHITEHALL, Wis. (Special) — Peter Roskos, Whitehall, for whom nomination papers were filed Jan. 25 for the office of assessor, has withdrawn, leaving only one candidate for this post, E. A. Sorenson.

## Congress Action On Jobless Pay Sought by AFL

By NORMAN WALKER

MIAMI BEACH, Fla. (AP) — AFL leaders said today that "polite appeals" from President Eisenhower to states to boost unemployment compensation payments have failed and it is time for Congress to impose higher benefit levels.

An increase both in the amount of benefits and their duration for jobless workers was advanced by the AFL Executive Council in winter session here as a major step toward maintaining the nation's purchasing power.

The council said the revisions are particularly needed now because the AFL expects unemployment, measured by the latest government count at 2,838,000 in December, to rise to 3½ to 4 million in February or March.

At present, states pay an average \$25 per week to workers insured by the unemployment insurance system. Eisenhower has twice called on states to raise the payments to equal half a worker's regular pay for as long as 26 weeks or half a year, of unemployment.

Few states have heeded this advice. There have been several attempts to have Congress boost benefits, including one last year, but they have never gotten very far.

Meanwhile, it was learned that the 10-million-member AFL has refused, out of dissatisfaction with the policies of Secretary of Labor Mitchell, to appoint a representative to a labor advisory council which Mitchell is trying to form.

The AFL, along with the CIO, United Mine Workers and the independent railroad unions, were invited to name representatives to the group, which is to advise Mitchell on labor legislation and other matters. All except the AFL have named representatives. The AFL council may reconsider.

## 50% Pay Raise Recommended for Congress Members

'DAY' AT WHITEHALL

WASHINGTON (AP) — A 50 per cent pay raise for members of Congress was recommended today by the Senate Judiciary Committee, along with substantial salary hikes for federal judges.

A bill approved by the committee would raise the pay of House and Senate members to \$22,500 a year. This compares with their present pay of \$15,000, including a \$2,500 expense allowance.

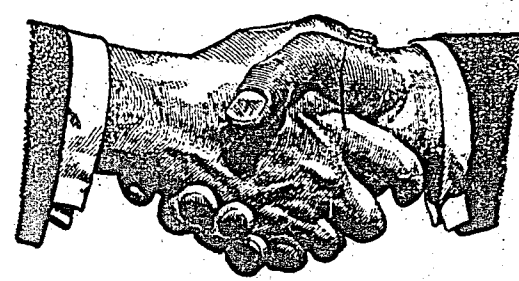

Federal judges would receive pay boosts of \$7,500 to \$9,500 a year, and the speaker of the House and the vice president would have their pay raised \$5,000 a year.

The proposed pay raises are \$5,000 less than recommended last year by an 18-member commission set up in 1953 to study congressional and judicial salaries.

## James Arnoldy, Bride at Home In Goodview

LANESBORO, Minn. (Special)—Mr. and Mrs. James Peter Arnoldy are at home at 3935 W. 5th St., Goodview, following a brief wedding trip in Wisconsin after their marriage Jan. 15 at St. Patrick's Church, Lanesboro.

Mrs. Arnoldy is the former Johanna Marie Gullickson, daughter of Mr. and Mrs. Gilbert Gullickson, Whalan, Minn., and Mr. Arnoldy is the son of Mr. and Mrs. Theodore Arnoldy, Rollingstone, Minn. They were married at 10:30 a.m. by the Rev. William Gorman. Organ music was played by Miss Deloris Maus, Minnesota City.

The bride given in marriage by her brother, Herman Gullickson, Whalan, was attended by Miss Ellen Arnoldy, Rollingstone, sister of the bridegroom, as maid of honor and Mrs. Arden Gullickson, Whalan, bridesmaid.

Edward Spitz, Minnesota City, was best man and Arden Gullickson, Whalan, was groomsmen. Ushers were Robert Haslerud, Whalan, and Lester Maus, Minnesota City.

The bride wore a floor-length gown of white nylon with scooped neckline, long sleeves of hand clipped Chantilly lace and wide panels of lace forming the front and back of the skirt which extended in a train. Side panels of lace banded tiers of nylon tulle. Her veil was held by a crown and she carried a white prayerbook on which rested a bouquet of red roses. The bride's jewelry was pearl and rhinestone earrings and bracelet, gifts of the bridegroom.

The maid of honor was attired in an emerald green gown with matching headress and Mrs. Gullickson wore an identically fashioned gown of pink with matching headress. They carried colonial bouquets of pink and white carnations, and wore rhinestone necklaces, gifts from the bride.

The bride's mother's dress was purple with black accessories and the bridegroom's mother wore a black dress with matching accessories. They wore pink and white carnation corsages.

For travel, the bride chose a navy and white two-piece suit dress and black accessories.

Mrs. Pearl Block, Winona, was hostess at a dinner at the White Front Cafe in Lanesboro following the wedding. The wedding cake was baked by Mrs. Leland Benson and decorated by Mrs. Darmon Berckham, both of Whalan.

A pre-nuptial party was given earlier in the month at the Whalan village hall by Mrs. Robert Haslerud, Mrs. Arden Gullickson and Mrs. Gilbert Gullickson.

The bride attended Peterson High School, and the bridegroom attended Holy Trinity High School, Rollingstone. He is employed as power engineer by Archer-Daniels-Midlands, Winona.

### COSTUME PARTY

DURAND, Wis. (Special)—The Durand Woman's Club will meet at the Durand High School Tuesday at 7:45 p.m. The topic for the meeting will be "We Make Our Own Fun." Members are to come in costume. On the committee in charge are Mrs. Norman Latschaw, Mrs. C. K. Brainard, Mrs. Edward Fisher and Mrs. Ralph Blair. Hostesses will be Mrs. Joseph Bohrer, Miss Elva Smith, Mrs. S. S. Coddon and Mrs. I. L. Bloss.

### LUTHERAN GROUPS

PLAINVIEW, Minn. (Special)—The Lutheran ladies aid will meet in the basement of the church Wednesday at 2:30 p.m. Hostesses will be the Mmes. Blanche Mussell, Henry Neumann and Roy Mussell. The Junior Walther League will meet in the parochial school Wednesday at 8:15 p.m. The senior choir will rehearse Thursday at 8:15 p.m. in the church basement.

### PLAINVIEW WSCS

PLAINVIEW, Minn. (Special)—The WSCS of the Methodist Church will meet Thursday at 2:30 p.m. in the church social rooms. In charge of the topic will be Mrs. Harold Schwanbeck and hostesses will be the Mmes. Grace Pletsch, Louis Dickerman, Dean Nutter and Roy McFarlin. Mrs. Ida McFarlin entertained the Evening Circle of the church at her home last Tuesday evening.

Mr. and Mrs. James Peter Arnoldy are now at home in Goodview following a wedding trip in Wisconsin. The bride is the former Johanna Marie Gullickson, daughter of Mr. and Mrs. Gilbert Gullickson, Whalan, Minn., and the bridegroom is the son of Mr. and Mrs. Theodore Arnoldy, Rollingstone, Minn. (Yorklane photo)

## St. Croix Valley Girl Scout Council Directors Meet

DURAND, Wis. (Special)—The St. Croix Valley Girl Scout Council board of directors met at Menomonie Jan. 18 with the new executive, Miss Ruth Mogg. Miss Mogg is now giving individual training to area officers and committee chairmen. After that she will start collective board training and leadership training.

At present there are 1,757 active Girl Scouts in this area, with 516 adults associated with scouting. Plans are going forward for the Annual Girl Scout cookie sale March 19 through April 2. Profits from these cookies go directly to improve Camp Nawakwa, area camp site.

The annual council meeting will be held in Barron April 15, with workshops and program geared to improve leadership aids. A financial report is being prepared and will be published, showing amounts each community contributed to promote St. Croix Area girl scouting.

### ILLINOIS GUESTS

SPRING GROVE, Minn. (Special)—Mr. and Mrs. Julian Myhre, DeKalb, Ill., were visitors here this past weekend.

### LEAVES AFTER VISIT

DODGE, Wis. (Special)—Lawrence Bambeck, Los Angeles, Calif., who has been visiting his brothers, Vince and August, and sister, Mrs. Wesley Staublin, has left to visit relatives in Milwaukee and Chicago before returning home by plane.

### BETHLEHEM AID

SPRING GROVE, Minn. (Special)—The Bethlehem Ladies Aid will meet at 2:30 p.m. Thursday at the church with Mrs. Kenneth Oster and Mrs. William Glasrud as hostesses.

### PERSONAL SHOWER

WHALAN, Minn. (Special)—Miss Geraldine Engbreton was guest of honor at a personal shower, given by friends and classmates, Monday evening at the Whalan Parish Hall. Twenty-one guests were present and the hostesses included the Mmes. Orlene Chiglo, Martha Johnson, Evelyn Erickson, Gloria Moger, Diana Thompson, Phyllis Dole, Carol Rogers, Eloise Patrick and Gloria Olson. Miss Engbreton will be married next Saturday to Richard Hellickson, Preston, at the Union Prairie Lutheran Church.

## Keep in Trim

### 20-Pound Weight Loss Cuts Down On Dress Size

By IDA JEAN KAIN

The very thought of slimming down 20 pounds helps any overweight feel considerably lighter. One overweight on the verge of dieting was telling her husband about her good intentions. When he asked what she weighed, she replied, "Around 200." Gallantly, he offered to buy her a \$25 new bonnet if she had slimmed down to 180 pounds by Easter. Her smile quickly faded—for the blushing truth was she actually weighed 225 pounds.

Now about those 20 excess pounds, you are slimming off by April 10 at the satisfying rate of 2 pounds per week. When you are that many pounds slimmer, how many bulging inches will be gone with the fat, and what size outfit can you plan on wearing?

This depends on your stature. As you probably know, the number of pounds between sizes range from 10 to 20. In small sizes there is a 10 pound difference; in the medium size range, there are 12 to 14 pounds; but in larger sizes, there are 16 and even 20 pounds from one size to the next. There it is . . . so even though you are in the large size range and crowding the seams, you can wear a full size smaller by slimming down 20 excess pounds.

The number of inches between sizes is also standardized. In women's sizes, the difference is two to two and a half inches through the control measurements—bust, waist, abdomen and hips. There is a two-inch increase through the bust and hips with each increase in size; and a two to two and a half inch increase through the waist and the abdominal measurements on the larger size dresses. In misses' sizes through 16, the difference is one and a half to two inches from one size to the next in the control measurements.

What about half sizes? Many of you have inquired about the number of pounds between one half size and the next. It's ap-

## Loretto High Lists Yearbook Staff

CALEDONIA, Minn. (Special)—The new Annator staff chosen at the Loretto High School is as follows: Co-editors, Mary Ellen Mariarty and Frederic Renner; feature editor, Marilyn Gengler and Thomas Schiltz; music notes, Joanne Karels; fashion news, Yvonne St. Mary, Joyce Stemper and Kay Schleicher; library news, Donna Corcoran and Judith Meyer; sports news, William Mulvanna and Donald Schmitz;

Senior sketches, Jean Ellen Roerkohl; casual observer, Donna Scanlan; inquiring reporter, Geraldine Lager and William Dvorak; class reporters, Muriel Karels, Kay Schiltz, Mardene Roerkohl and Maureen Walsh; mission news, Patricia McConna, and Typists, Donna Corcoran, Marilyn Gengler, Anna Marie Graf, Gretchen Grohman, Nancy Heisler, Dorothy Hjelm, Fay Koenig, Geraldine Lager, Marie Manhart, Barbara Palen, Yvonne St. Mary, Judith Scanlan, Kay Schiltz, Sherry Stadler and Donna Zibroski.

proximately the same, with 12 to 14 pounds in the small and medium size range, and 16 to 20 in the larger sizes. The half sizes are proportioned for the shorter, wider figure.

The cue as to where your figure needs the most alteration is which measurement is a tight squeeze in your present size. Chances are it's around the waist and across the abdomen, for those are the most likely places for fat to lodge. An extra inch around the waist cramps your style; two extra inches can alter your size. Take them off . . . Take them off there. How? Back up the 1,100 calorie Take Your Choice Diet with stretching and side-bending exercises. We'll ease through a few shape-ups tomorrow . . .

For help in your slimming program, send long, stamped, self-addressed envelope for Take Your Choice Diet and Perfect Dress Size Chart. Address request to Ida Jean Kain, care of The Winona Daily News. Post card requests cannot be answered.

## Dean E. Henry Takes Cloquet Girl as Bride

UTICA, Minn.—Miss Margaret Ann Becklund, daughter of Mrs. John Becklund, Cloquet, Minn., and Dean E. Henry, son of Mrs. Ruth Henry, Utica, were married by the Rev. Don A. Bundy at the Congregational Church chapel, Rochester, Minn., Jan. 28, at 1:30 p.m. The bride given in marriage by Frank LaRue, Hovland, Minn., wore an eggshell white brocade gown with matching accessories and corsage of white roses and her maid of honor, Miss Kathleen Hewitt, Cloquet, wore royal blue with white accessories and pink rose corsage.

Alexander Henry, Utica, was his brother's best man.

A reception was held in the church social rooms. The bride is a graduate of Cloquet High School and the Methodist Kahler School of Nursing and the bridegroom of Lewiston High School. They will make their home in Utica.

Colored pencils can be used for retouching scratch marks in furniture.

## ASIDES

by the  
SOCIETY EDITOR

A glimpse of the Russian Zone of Germany is contained in a letter received in Winona from Capt. George O'Dell, son of Mr. and Mrs. George F. O'Dell, 163 Gould St., former Winona State Teachers College student, who has traveled all over the world during his period in the U. S. Air Force. Capt. O'Dell writes to William A. Owens that he is working toward a degree in military science, taking extension courses for university credit while in service. His tour of duty is over this coming summer, and he expects to be back in this country in July. He is now stationed in Erding, Germany, and completed 15 years in service last November.

He has been completely around the world during his years of service. Sailing out of New York City in 1942, he did not return to this country until 1945, when he reached San Diego, Calif. During that period, he touched at Rio de Janeiro in South America, visited the Union of South Africa and Capetown where he recalls the view from Table Mountain, Egypt and Libya. Other stops were in Israel, Saudi Arabia, the Suez, Calcutta, New Delhi, Lahore and other places of interest in this area.

"I missed China and Japan," he writes. "However, I did make Melbourne and Sydney in Australia. The only island I have been in is New Caledonia. We were ordered into Hawaii but never made it. Halfway there, our orders were changed. I have been in Canada and Mexico and in every state of the Union except Vermont, New Hampshire and Rhode Island. I have a few more places I would like to visit—Lima, Peru, Bermuda and the Hawaiian Islands. In Europe, I have been in Spain, France, Luxembourg, Belgium, Holland, Denmark, Yugoslavia, Italy, Switzerland, England and Germany. I have never been to Ireland, but have seen it as we sailed past.

"This year, our vacation took us through Denmark and Holland. They are the cleanest countries that I have been

Daniel Wroblewski and His Bride, the former Janice Haack, daughter of Mrs. Elfrida Haack, 366 E. 5th St., are pictured above following their wedding in the Cathedral of the Sacred Heart. He is the son of Mr. and Mrs. John Grochowski, 817 E. King St. (Edstrom photo)

in over here. We also took a trip to Berlin. The West Zone of Berlin is very gay and carefree. You see plenty of people walking in the streets, and driving cars and trucks and the stores are well filled with non-rationed goods of all types. The rebuilding program has progressed very well and nearly all signs of the bomb raids and shell fire are gone.

"We then took a tour of the Russian Zone. The contrast was something a person would long remember. It is a pity that some of the people in our homeland who have Communist leanings, cannot make that tour. Then they could see for themselves, the so-called blessings of the Communistic way. Stalin Alley, the much-publicized Communist apartment building and shopping center, is really an impressive sight from the front. You get a shock when you see it from in back." Capt. O'Dell drew sketches in his letter to illustrate this point. The buildings, each in U-shape, are a shell around each block, the front always shown in pictures, in the hollow of the U, the "area is nothing but heaps of rubble and bombed out remnants of buildings. People still live in these ruins—more like beasts than human beings."

He continued, "The people of the East Zone are poorly dressed and what few of them you do see walking on the street are grim faced. To me, they had a haunted, despairing look. You may wonder why they do not escape to freedom in larger numbers. The answer is simple. First, you have to have some money and they have none. You can't trust your neighbor. He may be a spy for the police. Last, but not least, you have your family. If you escape and leave some of them behind, you know that they will go to Siberia.

"The streets of the East Zone are in a bad state of repair. The transportation has poor equipment and most all of the delivery equipment for every type of service is horse drawn. The thing that amazed me the most was the lack of Russian soldiers in the sector. In the West Zone, at any time of the day, you can see French, British and U. S. soldiers on the streets, in the stores and everywhere. The Russian soldiers are allowed in Berlin on Sundays only. At that time, they are taken on guided tours of the Russian war memorials and they must stay in large groups and at all times are closely watched by their officers and police. You have heard of the German East Zone police force no doubt. All of them that I have seen are young boys, 17, 18, 19, at the very most."

Capt. O'Dell states that Erding is about 30 miles directly east of Munich near the East Zone of Germany and close to the Czechoslovakian border. "We are only five minutes by air from the Iron Curtain." Matter of fact, the Russians shot down a Navy plane just ten miles away from our base. Regardless of what our "Red Friends" have said about it, that ship was in our own zone. Our seasons over here are very much like those of southern Minnesota. It doesn't get as cold however. The lowest temperature that we have had (prior to Dec. 10) was one degree below zero." — May Murray.

**OPEN HOUSE**  
WYKOFF, Minn. (Special)—Open house will be held for Mr. and Mrs. F. B. Speer on Sunday from 2 to 5 p.m. on their 25th wedding anniversary at the home of their daughter, Mrs. Clayton Malley, Wykoff.

**ATTENDS CONCERT**  
Miss Eleanor Dahm, 357 E. 5th St., who was a guest of Miss Virginia Heim, St. Charles, student at the University of Minnesota, in Minneapolis the past weekend, and Mrs. Lloyd Heim, mother of Miss Heim, together with Miss Heim, attended the concert by Arthur Rubinstein and the Minneapolis Symphony Orchestra at Northrop Auditorium.

**ATTEND FUNERAL**  
ALTURA, Minn. (Special)—Mr. and Mrs. Ralph Huston and two sons, Des Moines, Iowa, visited at the home of the Rev. Frederick Kosanke Tuesday. He accompanied them to Weyauwega, Wis., where they attended the funeral Wednesday afternoon of their grandmother Mrs. Mary Kosanke, 85, who died after a illness of several years.

# Dad's Night Planned by Cotter Mothers

Dad's Night will be observed at the March meeting, it was announced at the meeting of the Cotter Mother's Club Tuesday evening in the recreational room of Cotter High School. The business session was brief with only routine business being handled.

Mrs. Allen Ramsden, chairman of the sophomore class project, urged members to attend the public party this evening at the Catholic Recreational Center. Fathers will be guests at a potluck supper which will be served at 6:30 p.m. in the Catholic Recreational Center dining room preceding the March Dad's Night. In charge of arrangements will be Mrs. William Srnee, assisted by the executive committee. Members who plan to attend, are to call their parish chairman for suggestions as to what food to bring to the supper.

The Cotter Band entertained with several musical selections during the social hour last night. Mothers of students from St. Casimir's parish with Mrs. Joseph Goodrich and Mrs. Harry Losinski as co-chairmen were in charge of refreshments. The attendance prize went to Mrs. Martin Pelpinski.

## TO CALIFORNIA

WOODLAND, Minn. (Special)—Mr. and Mrs. Herbert Marshman accompanied by Mr. and Mrs. George Mason, Plainville, left Saturday for Springfield, Mo., where they will visit for a few days with Mr. Mason's sister and family. From there they will go to California for several weeks.

## CELEBRATES BIRTHDAY

WEAVER, Minn. (Special)—Phyllis White was entertained at a party at her home last Wednesday evening. Neighbors and friends were present. Phyllis received many gifts and a lunch was served by her parents, Mr. and Mrs. Fred White.

## SL LUTHER LEAGUE

PIGEON FALLS, Wis. (Special)—The Synod Lutheran League will meet Sunday evening, Mary Hagen will lead the devotion and the following program will be given: Reading, Alva Fromm; vocal solo, Mrs. Basil Olson; slides taken in Okinawa to be shown by Charles Anderson; a talk, the Rev. E. B. Christopherson and songs, the choir.

## POLIO FILM

WHITEHALL, Wis. (Special)—A film on polio, "They Shall Not Want," starring Helen Hayes who lost a daughter with polio, will be shown by Glen Olson, vocational agriculture teacher at Whitehall High School, at the meeting of the Pleasantville Community Club at the school Friday evening. David Lee will give a reading; Mrs. Herman Jacobson will entertain with a monologue and Sonja Sielaff will contribute a vocal solo.

## PARENTS-TEACHERS

WYKOFF, Minn. (Special)—The Parents-Teachers League started last fall, met Monday evening with 46 parents present. Officers elected were: President, Alvin Theiss; vice president, Donald Eickhoff; secretary, Mrs. Ray Jesko, and treasurer, Alfred Schroeder. A movie on religious training of a preschool child was shown. Named to a program committee were Mrs. Harold Hingewald, Mrs. Otto Meyer and Max Eickhoff. Lunch was served.

## QUEEN CANDIDATE

ARCADIA, Wis. (Special)—Miss Jean Schwertel, Arcadia student at Stout Institute, Menomonie, Wis., has been selected as a candidate for queen of the annual Stout Winter Carnival. Miss Schwertel, a sophomore majoring in home economics education, is prominent in many school activities. Phi Sigma Epsilon Fraternity is sponsoring her candidacy. She is the daughter of Mr. and Mrs. Vernon Schwertel, Arcadia. At the game Saturday evening the name of the queen will be announced. The election was to take place at today's convocation at the college.

## LADIES AID

SPRING GROVE, Minn. (Special)—The St. Paul's Ladies Aid will meet at 2:30 p.m. Saturday with Mrs. Ephraim Foss and Mrs. Myrtle Gilbertson at hostess.

## ELKS LADIES

The Elks Ladies entertained 22 at a Guest Day card party at the Elks Club Tuesday afternoon. Cards were played at five tables. Prizes went to Mrs. S. J. Rogers and Mrs. J. B. Elliott in 500, Mrs. J. L. Orlovsky in contract bridge, Mrs. Henry Parks in schafkopf and Mrs. E. M. McLaughlin in canasta.

## SACRED HEART PTS

DODGE, Wis. (Special)—The PTS of the Sacred Heart Parish, Pine Creek, will sponsor a public card party in the parish hall Thursday at 8 p.m. Schafkopf, 500 and buncio will be played. The Mmes. Vince Bambenek, Emil Glensinski, Henry Glensinski, Joseph Jaszewski and Edward Patzner are on the lunch committee.

# Janice Haack Becomes Bride At Cathedral

White and yellow pompon chrysanthemums decorated the altar of the Cathedral of the Sacred Heart for the wedding of Miss Janice Haack, daughter of Mrs. Elfrida Haack, 366 E. 5th St., and Daniel Wroblewski, son of Mr. and Mrs. John Grochowski, 817 E. King St., Jan. 22 at 10 a.m. The Rev. Edgar J. Schaefer performed the ceremony.

Miss Carol Wenzel, cousin of the bride, sang "On This Day," "Ave Maria" and "Panis Angelicus." The bride was attended by Miss Marion Wroblewski, sister of the bridegroom, as maid of honor and the Misses Mary Mlyniczak and Carole Gappa, bridesmaids. The bride's sister, Ruth, was junior bridesmaid.

The bride's gown was made with Chantilly lace jacket finished with Peter Pan collar and long sleeves, lace bodice and skirt of ruffled net over satin, floor length. Her lace-edged veil fell from a tiara of seed pearls, and she carried a white orchid on a prayerbook with a shower of stephanotis on white satin ribbon. She also carried red roses which were placed on the altar of the Blessed Virgin. Her pearl earrings were the gift of the bridegroom.

The bridal attendants wore floor-length gowns of net over taffeta with matching headbands. Two attendants were in shrimp color and two in blue. The former carried colonial bouquets of chrysanthemums in blue and white with lacy ribbon and stephanotis, and the latter's bouquets were in white and shrimp color. Their rhinestone earrings were gifts from the bride.

William Haack, brother of the bride, was best man and James Niemeyer and Edwin Russell were groomsmen. Ushers were Clarence Losinski and David Postlewaite. A wedding breakfast was served in the Flamingo Room at the Hotel Winona at 11 a.m. A reception followed at the American Legion Memorial Club from 3 to 8 p.m. Decorations were white and yellow pompons and white carnations. The Swiss Girls orchestra played.

When the couple left on a week's trip to Chicago, the bride wore a black wool cashmere suit. She is a graduate of Cotter High School, and has been employed by the Lake Center Switch Co. The bridegroom attended the Winona Senior High School, and is employed at Happy Dan's Skelly Service Station. They will make their home at 712 1/2 W. 5th St.

Showers were given by Mrs. Elfrida Haack and Mrs. John Grochowski and by Mrs. Clarence Losinski, Miss Judith Davies, Miss Mary Mlyniczak and Miss Carole Gappa.

# Toastmistress Club Hears Talk on Factors in Effective Meetings

"Good meetings just don't happen—they are a combination of numerous ingredients, hard work, careful and advance planning and thought," Lloyd Deike told members and guests of the Winona Toastmistress Club at their meeting Tuesday evening at the Williams Hotel in his talk on "How to Make Your Meeting Effective."

"Effective meetings start with careful selection of officers and committee personnel. Our meetings are going to be good or bad because of the leadership we have selected," Mr. Deike said.

"Programming is one of the most important things in my organization. An organization will succeed or fail, it will make an impact or it will not have good attendance, depending upon the program you give the people," he continued.

Mr. Deike stressed the advisability of sticking to a program which is a projection and furtherance of the basic principles for which the particular organization was created.

"If you are going to have a successful organization you must keep your program within that scope and objectives of the organization. Programming is a long-range thing. Good programs don't just happen either."

"They are based upon committee chairmen. . . . Again I would like to emphasize the importance of selection—choose very carefully your committee personnel. They can make or break your organization."

"Advance planning of programs is essential. Don't wait from month to month to get the job done."

"Never overlook the services available from state and national organizations with which your group is affiliated. Find out what they have and take advantage of it. . . . Do utilize local talent. If it is well selected it can make your meetings successful and effective."

Successful handling of business meetings can be accomplished, it was stated, if meetings are started on time, kept to an announced schedule and business limited to a minimum.

"You will find upon careful analysis that many of your problems can be handled and cleared through the board of directors or through your executive committee. You will find that your key people can handle and make decisions on most of your business problems and then ask for the approval or

# Caledonia OES Past Matrons Meet for Dinner

CALEDONIA, Minn. (Special)—The Past Matrons of the OES were entertained Monday in the Masonic Lodge rooms at a 6:30 p.m. dinner. Mrs. Ove Blexrud, Mrs. Mary Dorival and Miss Doris Wheaton were hostesses.

Officers in charge for 1955 are Mrs. Mary Dorival, president, Mrs. Eva Bye, vice president, and Mrs. Roy Ditley, secretary and treasurer. Committees and social events for the year were discussed.

Following the business meeting, a social hour was spent in playing canasta. Prizes were awarded to Mrs. Minnie Gerdes, Mrs. Ralph Gordon and Mrs. Bye.

## Lady Bugs Plan Annual Banquet For March 1

Arrangements to hold their annual banquet March 1 were made by Gnat's Circle 13. Military Order of Lady Bugs, at their meeting at the VFW Clubrooms Tuesday evening. The banquet will be served at the Eagles Hotel, Fountain City, at 7 p.m. that day, and will be followed by a business session.

All members are to meet at the VFW Clubrooms at 6:30 p.m. March 1 and transportation will be furnished by members.

Last night's meeting was conducted by Mrs. Phillip Hicks, Lady Gold Bug. General orders from the Royal Council and acknowledgments from the Owatonna State School and Buena Vista Sanatorium, Wabasha, were read.

Mrs. Mabel Maloney reported on a recent card party, proceeds of which will be used for the February hospital work. Mrs. Hicks announced 7,600 cotton swabs were made at the meeting held at her home for the Winona Public Nursing Service. The Mimes, Alice Parker, Alvin Baran, Clarence Thorpe, Edward Modjeski, Dorothy Meier and Vera Lande were at the meeting.

The January visit to the Winona General Hospital where 57 favors were distributed, was made by Mrs. Baran, and Mrs. John Thilmany, chairman. Mrs. Hicks, Mrs. Parker, Mrs. Meier and Mrs. Modjeski, Mrs. Baran, Mrs. Thilmany and Mrs. Lande visited the rest homes and distributed 71 favors.

Twenty-five large size bills have been made by Mrs. Baran, Mrs. Parker, Mrs. Meier, Mrs. Modjeski, Mrs. Baran, Mrs. Thilmany and Mrs. Lande. They are to be used for the state school at Owatonna.

The Royal Council meeting will be held Feb. 20 at the Russell Gaylord VFW Hall, 225 N. 4th St., Minneapolis at 10 a.m. The auxiliary to the post will serve the dinner at 12:30. A social get-together will be held the night before with the Anti-In-Pants Cootie Pup Tent as host group.

Mrs. Hicks appointed the following as hostesses for the February hospital and rest home visits: Mrs. Lester Kanh, chairman; Mrs. Howard Reckow and Mrs. Clarence Thorpe. The hospital will be visited at 7 p.m. Feb. 14 and the rest homes at the convenience of the committee.

A cancer work meeting will be held at Mrs. Baran's home, 956 Gilmore Ave., at 8 p.m. Feb. 15. Cancer pads for the St. Anthony Free Cancer Home, St. Paul, will be made. Lunch will be served.

The attendance prizes furnished by Mrs. Meier and Mrs. Baran, went to Mrs. Madigan and Mrs. Keelan respectively. A social hour followed the business session with Mrs. Meier, Mrs. Keelan and Mrs. Lande as hostesses.

**RNA MEETING**  
BLAIR, Wis. (Special)—The RNA will meet at the home of Mrs. Harris Hanson Feb. 8 at 8 p.m.

**FHA PLAY**  
BLAIR, Wis. (Special)—"The Bird on Nellie's Hat," a comedy for women, was presented by the FHA Monday at the high school. The cast of characters included Mary Ellen Oppgaard, Marlene Nestingen, Phyllis Olson, Mary Lou Amundson, Phyllis Thompson, Ellen Hosanson, Lily Hermanson and Barbara Tidquist.

**NORTH DAKOTA VISITORS**  
BLAIR, Wis. (Special)—Mr. and Mrs. Robert Lerner, Harvey, N.D., have been recent visitors at the home of the former's brother-in-law and sister, Mr. and Mrs. Frank Leemister. They were en route to their home after a visit with relatives at Bangor, Maine, Chicago and other points.

**BIRTHDAY PARTY**  
WEAVER, Minn. (Special)—Mr. and Mrs. Andrew Peterson entertained the teacher, Mrs. Arthur Welch, and her pupils at a birthday party in celebration of their daughter Sharon's seventh birthday Tuesday after school. Sharon received many gifts. Lunch was served. Guests also were entertained in the evening.

**DANCING LEAGUE**  
The sum of \$10.00 raised through the sale of a donation from Wally's to the white elephant sale, donated at the dinner dance of the Tuesday Night Dancing League at Wally's Tuesday evening, is to be turned over to the March of Dimes polio fund. About 40 attended the party at which music for dancing following dinner was furnished by Frenchy La Renz and his orchestra. The next party will be May 3.

## Ove Blehruds Celebrate 40th Anniversary

CALEDONIA, Minn. (Special)—Mr. and Mrs. Ove Blehrud celebrated their 40th wedding anniversary at their home Sunday with 35 relatives and friends.

Mr. Blehrud and Marie Johnson were married Jan. 26, 1915 at Caledonia by the late Rev. H. J. Wein. Their attendants were Mr. and Mrs. Olin Blehrud, brother and sister-in-law of Mr. Blehrud, La Crescent, who were present Sunday.

A buffet supper was served. The table was centered with a low ruby bowl filled with red and white carnations, and crystal candelabra holding ruby candles. Their daughter-in-law, Mrs. George Blehrud, Spring Grove, made the anniversary cake.

Mrs. Elma Schmidt, Dysart, Iowa, sister of Mr. Blehrud, poured. Assisting with the serving were their daughters, Olive and Mrs. H. A. Worman, Caledonia; their daughter-in-law, Mrs. Blehrud, Spring Grove, and Miss Doris Wheaton, Caledonia.

Sisters and brothers of Mrs. Blehrud, and their families present were Mrs. Valborg Hytchek, Owatonna; Mr. and Mrs. A. R. Thompson and son Glenn, Spring Valley; Mr. and Mrs. George Watson and daughter Helen, Caledonia; Mr. and Mrs. M. W. Roland, Sheldon; and Mr. and Mrs. John Johnson and son Viril and Martin and Olaf Johnson, Sheldon Township. Mr. Blehrud's only sister, Mrs. Schmidt, Dysart, and the attendants, Mr. Blehrud's only brother and sister-in-law, Mr. and Mrs. Olin Blehrud, La Crescent, were present. Mr. and Mrs. H. A. Worman Sr., Holmen, Wis. also attended.

Mr. and Mrs. Blehrud have one son, George, Spring Grove, and two daughters, Mrs. H. A. Worman Jr., Caledonia, and Olive, at home, and three grandchildren.

Mr. and Mrs. Blehrud received a number of cards and gifts. They have always made their home in this community.

## Toastmasters Plan Club Speech Meet For Ladies Night

Hiawatha Toastmasters will select a speaker to represent the club in the area contest during the club contest Tuesday night at the Oaks.

The 7 p.m. event has been scheduled as a ladies night with wives and friends of the members attending. About 40 will be present. Arrangements are in charge of Cy A. Hedlund.

Frank Tillman will be toastmaster with tabletopics in charge of Henry Aune. President Leroy Olan will preside, and Gerhardt Olan will welcome the ladies.

Speakers selected by the membership to participate in the club contest are Joseph Martin, Hedlund, Walter Dopke and Robert Eggleston.

Three former members of the club, George M. Robertson Jr., Fred Leighton and Dr. Max DeBolt will be judges.

Olan was toastmaster of the regular Tuesday night meeting at Hotel Winona that included 5-minute talks by Robert Swanson, Maurice Quale and President Holden. Tabletopics master was Dr. Myron Wolfsten, whose tape recording of the entire meeting was presented after the session.

Also present was William Young, Rochester, area governor, who discussed the area contest next month.

In other business, Walter Dopke accepted appointment as educational vice president. He succeeds Cyrus Anderson.

## Shell Real Estate Representative Cited For 25 Years' Service

John N. Kolb, 1134 Marian St., has been honored by Shell Oil Co. on the completion of 25 years of service.

Kolb, district real estate representative of the company's Winona office, was presented with a special service emblem by R. T. Seidel, division manager, at a special luncheon in Minneapolis.

When he first came to the company in 1928, Kolb was employed in a service station while attending the University of Minnesota in Minneapolis. Since then he has been service station representative, retail representative and real estate representative in Iowa, Minnesota, Wisconsin and Illinois.

At a special luncheon, Kolb was presented with a watch, commemorating his 25 years with Shell. Mr. and Mrs. Kolb have two daughters. Cynthia is attending Macalester College and Northwestern School of Nursing in the Twin Cities and Karen is a student at Winona High School.

## Letter From Airplane Crash Arrives at Blair

BLAIR, Wis. (Special)—Mrs. Carl Penno, wife of the vocational agriculture instructor at Blair High School, recently received a Christmas greeting which was part of the air mail salvaged from an air crash.

The card, from a pen pal in England, bears a sticker on which is printed, "Salvaged Mail, Aircraft Crash, Prestwick, 25-12-54."

It had been mailed Dec. 24 at Hol-beach Spaulding, England. Evidence of the crash was apparent, a corner of the envelope being charred.

**DRIVE AT WHITEHALL**  
WHITEHALL, Wis. (Special)—Mrs. Curtis Carlson has been appointed the new cancer drive chairman in Whitehall succeeding Mrs. Wayne Luke, who resigned. The annual drive will be held in April.

**AT LANESBORO HOSPITAL**  
LANESBORO, Minn. (Special)—Mrs. Cyrus Odegarden, Chatfield, is a patient at the Johnson Hospital, having fractured her left arm in a fall near her home Saturday.

## Pancakes Served Up By Chatfield Cubs To Pay Train Ride

(Picture on Page 16)  
CHATFIELD, Minn. (Special)—A pancake supper here Monday night, sponsored by the local cub scout pack, was a huge success, according to Cubmaster Moppy Dudek. About 300 attended.

Funds will be used to finance a ride on the North Western 400 from Rochester to Winona during the Easter vacation from school and to support other cub scout activities here. The cubs served tables at the school cafeteria.

Committee members were Melvin Schroeder, Maro Evans, Leonard Chase, Donald Turner, Wendell Anderson, Donald French and Leonard Zawacki. Den mothers who prepared and helped serve the supper were Mrs. Monroe Button, Mrs. Lester Trostad, Mrs. Leo Giehlbrock, Mrs. Edmund French, Mrs. Arthur Bernard, Mrs. Virgil Miller, Mrs. Henry Ring, Mrs. Wendell Anderson, Mrs. Elizabeth Anderson and Mrs. Donald Stemp.

## Custodian Who Fell On Courthouse Stairs Now in Good Condition

Condition of James Kohner, 21, 326 Center St., who was injured early Tuesday at the county courthouse, was described today as "good" by an attending physician.

Kohner, employed as a courthouse custodian by the county highway department, fell down a 15-foot flight of stairs at 8:40 a.m. Tuesday after complaining of "extreme dizziness" to a fellow worker. He was knocked unconscious.

He was later taken to the home of his parents, Mr. and Mrs. Ray G. Kohner, for observation.

A Winona physician said today that the youth apparently suffered no broken bones or internal injuries and was "resting comfortably."

## Land O'Lakes Patrons To Meet at Whitehall

WHITEHALL, Wis. (Special)—A meeting of all grade A patrons of the Land O'Lakes plant will be held Friday at 10 a.m. at the city hall, according to Patrick McCormick, head of the fluid milk department.

Carl Mattson, quality inspector with Land O'Lakes, Inc., Minneapolis, and Walter Cantley, supervisor for the fluid milk division, will discuss the new base surplus plan for payments on grade A milk. This new base surplus plan will be adopted following the discussion. The plan involves readjusting the production of grade A milk so that a uniform supply is received during every month of the year. At present there are seasons of heavy milk production and seasons of light production.

Any farmers not now selling grade A to the plant but interested in doing so are invited to attend. Lunch will be served at noon.

**ATTEND FUNERAL**  
WEAVER, Minn. (Special)—Mrs. P. A. Winters from here and her son Robert, Minneapolis, attended the funeral of Mrs. Walter Winters, formerly Harriett Pore of Hastings, Minn., at International Falls Saturday afternoon. Mrs. Winters had been in poor health for a number of years. She is survived by her husband and one daughter.

**Before You Go On Your Vacation**

Leave your dog with us. We are fully equipped to handle all size dogs from 1 day to a month.

Minn. City Road, 1 1/2 mi. past Airport

## Whitehall Lions Hear District Governor

WHITEHALL, Wis. (Special)—Tom Tobola, Cadott, district governor of District 27E, Lions International, addressed the Whitehall Lions Club on the humanitarian service of the organization at the regular meeting at the Walgett Hotel Monday evening.

The Lions also discussed a program of music which they are planning to bring to Whitehall in late February. They are engaging the barber shop choral group from Eau Claire.

**FIRE AT CHATFIELD**  
CHATFIELD, Minn. (Special)—Fire on the roof of the William Kremer home here early Tuesday caused minor damage. The fire department was called at 8:15 a.m.

## Cub Scouts at Hokah Take Railroad Trip

HOKAH, Minn. (Special)—Members of Cub Scout Pack 100 of Hokah traveled to Winona by train as

part of a month-long study of railroading. This trip was planned by the den mothers.

Thirty boys, many of whom had never ridden on a train before, made the trip.

While in Winona, they toured The Daily News plant, in La Crosse

they saw the roundhouse and the switch yards of the Milwaukee Road.

The pack was organized here in 1952. Den mothers are Mrs. Ralph Leitau, Mrs. Arnold Ender and Mrs. Paul Guenther. Robert Sauer is the cubmaster.

# Soviets Order Speed-up on Farms, Industry

MOSCOW (U)—The Soviet Communist party's powerful Central Committee has ordered an all-out drive to increase production of grain, livestock, milk, wool, poultry and eggs in the Soviet Union.

But a committee decree, published today, said the party still "regards as its major duty a further increase of heavy industry, which forms a solid basis for the whole economy and for the industrialization of the country."

The decree followed up a Jan. 24 editorial in the party newspaper Pravda denouncing recent emphasis on production of consumer goods at the expense of heavy industry as a distortion of previous decrees and dangerous to the defense of the country.

The Central Committee meeting was held Jan. 25-31, in advance of tomorrow's opening of the Supreme Soviet (Parliament). The first word of the session was given to American correspondents yesterday at the Kremlin. Today's editions of Moscow newspapers carried long reports on the meeting.

Although the committee gathering came as the Far Eastern crisis gathered steam and Russia's campaign against West German rearmament hit full stride, neither the decree nor the newspapers mentioned any foreign policy decisions.

Based on a report presented to the meeting by Party Secretary Nikita Khrushchev, the decree said the nation's grain harvest must hit "no less than 10 billion poods" (180 million tons) by 1960.

The Soviet grain harvest in 1952 was officially announced as eight billion poods (144,448,000 tons).

The decree said there also must be a "marked increase in the production of meat and animal fats, production of milk must be doubled and there must be approximately twice as much production of eggs and wool."

# BEDTIME STORIES

By HOWARD GARIS

Fixie the fox, Bobbie the bob cat (who had a brother named Bounce) and Wootie the wolf, were cuddled in a snowdrift trying to keep warm. They were also trying to forget that they were hungry.

The three bad chaps had been blown off Jack Frost, which was Uncle Wiggly's snow boat when the rabbit gentleman and his friend, Pat Butter, were stuck fast in a drift.

"I wish I had some ear nibbles!" growled Wootie.

"I wish we had some warm place to stay instead of here in this snowdrift," yapped the fox. "What did you mean, Bobbie?" he asked, "when you said we were going to sneak up? Did you mean we were going to sneak up on some place where it is warm and where we can get something to eat? Did you mean that, Bobbie?"

"Yes, I did," mewed the bob cat. "Where is this place on which we are going to sneak up?" asked the fox and wolf together, like twins, though, of course, they were not twins.

The place is Uncle Wiggly's hollow stump bungalow," answered the bob cat. "It isn't far from here. We can sneak up on it now. We can hide in another snowdrift near the bungalow. In the morning we can sneak inside the bungalow, get nice and warm and also have something to eat."

"Do you mean ear nibbles?" asked the wolf.

"That's what I mean," mewed the bob cat.

"But if we are going to sneak up on the rabbit's bungalow, why don't we do it now?" asked the fox.

"Why wait until morning? Must we stay out in this cold snowdrift all night, Bobbie?"

"Not this snowdrift, but another one, closer to the bungalow," answered Bobbie.

"What's the idea of hiding in another snowdrift, closer to the bungalow and not sneaking inside the warm bungalow tonight?" snarled Wootie the wolf.

"Because either Uncle Wiggly, Nurse Jane or some of the rabbit children might be awake and hear us if we sneaked inside the bungalow now," mewed the bob cat who was very sly and cunningly sharp.

"You know that Uncle Wiggly has been up late so has Nurse Jane. Chief the police dog and Pat Butter left the bungalow only a little while ago. I don't believe our rabbit will sleep soundly after all his adventures in his snow boat. He might hear us sneaking in and he or Nurse Jane would call the police dogs back," mewed the bob cat.

"Yes, that might happen," admitted Fixie the fox.

"Then what are we to do?" Wootie the wolf inquired.

"We will sneak along through the snow, until we find a big drift near the bungalow," mewed Bobbie. "We can snuggle down in the drift and keep as warm as possible, until early morning. Very early in the morning, while Uncle Wiggly, Nurse Jane and the children are sleeping soundly, we will sneak into the bungalow and get ear nibbles for breakfast," answered Bobbie.

"How are we to get in?" Wootie wanted to know. "The doors and windows will all be locked."

"We many find one open," said the bob cat, hopeful like. "After all the excitement and the party Nurse Jane made, some door or window may not have been locked. We can easily get in. Now let's sneak along to another snowdrift, near Uncle Wiggly's bungalow, and wait for morning."

So that's what the three bad chaps did, though Fixie and Wootie grumbled about being cold and hungry.

"It will soon be morning," mewed Bobbie the bob cat.

Morning came, after a while. The first light of day twinkled into the cave den of Mr. Stubby, the jolly bear gentleman. He rolled out of bed, his wife, hearing him, asked, sleepy like:

"Were you going, Stubby, so early in the morning?"

"I am going to look for my shadow," growled Mr. Stubby in a pleasant and kindly voice, even if it was a growl. "I must look for my shadow!"

More about the shadow tomorrow if the clock doesn't look in the bathroom mirror and make faces at itself so that it laughs and wakes up the pussycat's toothbrush.

# Staff Shakeup Dirty Politics, Says McCarthy

By G. MILTON KELLY

WASHINGTON (U)—Sen. McCarthy (R-Wis.) protested as "cheap, dirty politics" today what he said was the action of "the Democrats" on the Senate Investigations subcommittee in asking seven staff members to resign.

It is not unusual for committees to have a staff shakeup when party control of Congress shifts, but McCarthy said the present case violates a rule adopted by the subcommittee last year—at the Democrats' insistence, he said.

He said he has advised the staff members not to resign, and that he will resist any effort to vote them out of their jobs when the subcommittee meets next, presumably late this week or early next week.

Chairman McClellan (D-Ark.) said in an interview that "the chairman (McClellan himself) has advised some members of the staff he would not submit their names for confirmation" to continue in their jobs, and offered them the opportunity, if they cared to, to resign. He declined to name them.

McCarthy said that if they decide not to resign, the matter will be submitted to the full subcommittee for a vote on whether to replace them.

McCarthy said those asked to resign are Thomas Lavenia, Daniel Buckley and C. George Anastos, his appointees as assistant counsel; Charles Tracy and Robert McElroy, staff investigators; Miss Rosemary Engel, assistant clerk; and Miss Regina Roman, research assistant. All seven are holdovers from McCarthy's administration as the subcommittee's chairman in the last Congress.

None of the seven was reached for comment.

# VOICE of the OUTDOORS

No Prophet

This groundhog, on behalf of all his brothers and sisters throughout the world, desires to inform you that he is no weather prophet, never has been, and does not want to be one. It is a different creature—that lowly European hedgehog—that is supposed to be the weather prophet—who, if he sees his shadow on Candlemas Day—returns to sleep for another six weeks of winter weather.

This hedgehog business all started way back in early Christian times when this animal was "bicked to run from the sunshine or not on Feb. 2. But Christians came to America and lo and behold—America had no hedgehog.

Who was to be the weather prophet? Many sleepless nights were spent in the old tavern—then someone thought of the woodchuck, the happy fellow who doesn't have a single care in the world. He sleeps all winter, wakes up with spring—and eats well when food is plentiful. When it again gets cool outdoors at night he crawls deep below the frost line and sleeps until the frost goes out in the spring.

So these early New World settlers gave him the job that he didn't want and despite his protests for more than 300 years, he is the guy being damned today because there may be six more weeks of cold weather.

Here in Minnesota or Wisconsin, woodchucks are quite unaware of the party they are expected to play on Candlemas Day, which is known as "Groundhog Day" even if they desired to help. On Feb. 2, Dr. Thaddeus Surber, Minnesota's

mammal authority, wrote a number of years back, the woodchuck, even if he was awake, could not come out. He is still frozen into his burrow, snow and ice sealing the entrance which he closed up tight in the fall when he went down below for his long nap.

For scientific purposes, burrows of woodchucks have been excavated when the ground was frozen. In one case, Surber stated, the excavation was made in a line along the burrow and the nest was found 25 feet from the entrance. Curled up in the dry grass in the nest were two woodchucks, fast asleep, each one rolled up like a hairy ball. One of them had his forepaws over his eyes. When his paws were pulled away his eyes were closed, and all efforts to waken him were futile. He would yawn like a sleepy child, put his little black paws back over his eyes, and curl up again.

Anyway, it is quite clear that the woodchuck is poorly qualified to see his shadow on Groundhog Day. In fact, he can't even open his eyes or get out of his burrow if he wanted to. But for many more centuries to come, because some pilgrim had to have a hedgehog for Candlemas Day and it was getting late and the place was about to close up, the decision was made and ever since the poor old sleepy woodchuck has been known as the weather prophet among animals.

However as Bill Cox, in his book puts it, "I think we must admit that our woodchuck with the weather job thrust on him for the last 300 years, has done about as well as most of our weather prophets."

# Northern Radar Station Line Part Of U.S. Defenses

SOMEWHERE IN ONTARIO (U)—A radar station in this area, staffed by 280 men and women of the Canadian Air Force, is a part of the Pine Tree chain designed to give North America a line of defense in the event of air attack from the North. Two thirds of the chain's cost was borne by the United States, the remainder by Canada.

Reporters permitted to visit this station found it situated atop a hill in an area where temperatures plunge to -30.

For each such station, there is at least one fighter squadron, Canadian or American. Though Pine Tree is a warning chain, its more vital task is control of interceptor aircraft, the long-range, all-weather CF100 twin-engine jets.

In event of air attack on this continent, it would be the duty of this station and others like it to plot the route of the enemy planes, marshal the interceptors from fighter bases and bring them into position where they could shoot down the attackers.

Construction of another radar line along the 56th parallel will start soon and plans are being laid for a third line in the arctic.

# Coffin-Loaded Truck Proves Death Trap

MONTPELIER, Vt. (U)—A coffin-loaded truck proved a death trap yesterday for Alonzo Dukette, about 60, of Worcester, Mass.

Dukette was killed and Roland Gaboury, 23, also of Worcester, was overcome as they napped in the cab of the truck at a gaso-

lin station. Police said the motor was running, apparently to provide heat in the cab. Carbon monoxide was blamed for the death.

The truck is owned by Frank Sessions Co., Worcester casket manufacturers.

The infant death rate in France has been reduced from 66 per thousand children under one year old in 1938 to 38 in 1953.

# Unknown Parisian Painter's Show Viewed With Awe

PARIS (U)—Crowds of art lovers are milling about a gallery on Paris' fashionable Rue Faubourg St. Honore to view with "awe" and "ahs" the oils of a completely unheard-of painter who is 10 years old.

Thierry Vaubourgn is the youngest artist to have a one-man show within the memory of gallery goers here. There are 45 of his paintings in the Alex Cazelles Gallery.

He paints when he feels like it. His father is a director of an orchestra of the French radio network. His mother is a violinist. Thierry, a frail, straw-haired boy, began drawing six years ago. He took up oils three years later and has had no formal instruction.

Most of the paintings are still life. The gallery manager thinks a painting of a dish of pears, set gold against a subdued background, and a plate of silvery, blood-stained fish are among Thierry's best works. He did them in his "early period"—in 1952.

Not all the paintings on exhibit are for sale. But 10 were sold—at \$57 to \$110.

# Reds 'Trap' Attorney Into Contributing 3c

SALT LAKE CITY (U)—A Salt Lake City attorney says he was bilked into contributing 3 cents to the Communist party.

He was angry enough about it to take his story to the FBI and a Salt Lake newspaper. But he declined use of his name.

The attorney says a letter, with no return address, was delivered to his office yesterday with 3 cents postage due.

After paying the 3 cents, the attorney says he discovered the envelope to contain a mimeographed sheet telling about the Communist party, over the name of "The Communist Party of Utah."

# Slayer Without Friends Dies Alone in Prison

CRANSTON, R. I. (U)—Blennin Crovagreer, 75, who served 43 years as a convicted murderer without a single visitor or letter from the outside world, died yesterday at the state infirmary, where he was transferred in 1941 under conditional pardon.

He spent 26 years in bed, hopelessly paralyzed.

Crovagreer, a Polish immigrant, was sentenced to life imprisonment in 1912 for the shooting to death of Joseph Brigham at West Kingston, R. I., after a violent argument. He had neither relatives nor friends.

The American and English cocker spaniels are two distinct and different breeds; they have different physical characteristics, but search for and handle game the same.

District One Seniors interested in teaching were given advice by Miss Amanda Aarestad, Winona State Teachers College, far left, at a career day at the Houston High School last Thursday. About 500 youths from 13 schools in Houston and Fillmore counties spent the day

planning their futures. Among instructors were representatives from the armed forces, labor, schools and colleges, trades, agriculture and business. It was the third career day sponsored by District One institutions. (Daily News photo)

Drilling For Rushford's new well was started today by E. L. Niffenegger, Monroe, Wis., standing at the right of a forge, which will be used to heat bits.

Engineers figure he will have to drill to a depth of 625 feet. The shaft will be 18 inches in diameter until bed rock is struck. From there

on it will be 12 inches. The new well is located at Money Creek and Glen View streets in the northeast corner of the Brooklyn section of Rushford. Drilling equipment was set up Tuesday afternoon. Standing at the left of the forge is Bernard Iverson, employee of the city. (Daily News photo)

Officers Were Elected by the Cotter High School Alumni Association at its meeting here Monday night. The organization of the association was effected by members of the 1953 and 1954 graduating classes at the school.

Standing, left to right, are Joann Holmgren and Don McElmury, members of the executive committee; Robert Hennessy, treasurer; Shirley Slaggie, secretary; William Pellowski, president; Mary Stewart, vice president, and the Rev. Harold Dittman, diocesan superintendent of schools, moderator.

Objectives included the preservation of friendships made at Cotter, intellectual advancement and adding to Cotter prestige. Committees are: Constitutional—Rommie Ritter, chairman, Ted Lelwica, Ann Weir, Joann Holmgren and Theresa Wicka; activities—Ceil Lelwica, chairman, Richard Goetzman, Robert Snee, Jane Schneider and Sandra Munson; publicity—George King, chairman Shirley Wohlafer, Rose Ann Maze, Jane Snyder and Don McElmury. Next meeting will be Feb. 14 at 7:30 p.m. (Durfey Studios photo)

## Police Claim New Facts in Rubinstein Case

By JOHN BAUSMAN  
NEW YORK (AP)—Police officials say new information has been turned up in the Serge Rubinstein murder case, New York's biggest murder mystery in years, but they are keeping the facts to themselves.

A four-hour inspection at the home of the slain millionaire playboy and draft dodger was made yesterday by the two men in charge of the investigation, Asst. Dist. Atty. Alexander Herman and Dep. Chief Inspector Edward T. Feeley.

After leaving the luxurious house on 5th Avenue, they were asked if anything new had been learned. "Yes," answered Herman. He declined to elaborate.

Herman said he and Feeley had inspected once again the third-floor bedroom where the 46-year-old Rubinstein was found gagged, bound and strangled last Thursday.

However, he added, most of the time was spent questioning Rubinstein's elderly mother and aunt and the household servants—a butler, who discovered the body; a cook, parlor maid, personal maid of Rubinstein's mother and a secretary.

As a result of information gleaned, Herman said, "new and more witnesses are being sought." He said detectives had been sent out of the city but declined to say where.

Herman said the day's questioning had discounted earlier reports about a mysterious "woman in brown" roaming about the house on the morning of the murder.

Both Rubinstein's mother, Mrs. Stella Rubinstein, 78, and her sister, Mrs. Genia Foresta, 82, had reported seeing such a woman.

Acting Postmaster Named at Kellogg  
KELLOGG, Minn. (Special)—Lester Graner replaced Miss Catherine G. Lydon as postmaster at the Kellogg Post Office Tuesday.

The appointment is temporary, according to Graner, until a civil service examination is held and evaluated. Miss Lydon completed 32 years with the postal department, including 19 as post mistress here, she retired because of poor health.

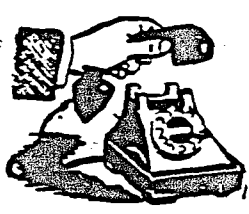

Graner is a native of this area and has lived here with the exception of nine years in Wabasha. Recently he has been operating a service station in the community. Previously he farmed and was a carpenter.

Miss Lydon also is a native of Kellogg and replaced Charles F. Wolfe as head of the local post office in November 1953. At one time her father was postmaster here.

## Production Gains Continue in Russia

By TOM WHITNEY  
AP Foreign Staff

NEW YORK (AP)—The biggest news story from Russia rarely breaks into the headlines: It's the fact that the Soviet Union continues year after year to register big gains in industry. Production of machinery—capital goods and war material—is zooming upwards. Figures make dry reading. But they are much more liable to tell the final story of war or peace and who wins out in the race for world leadership than conflicts within the Kremlin.

Kremlin leaders agree on one thing—that the industrial building of the U.S.S.R. must be pushed.

Only last night the Central Committee of the Soviet Communist party published a new decree reminding the party that its "major duty" is the "further increase of heavy industry."

Here's how the Soviets compared in 1954 with the United States in production of four major industrial commodities generally regarded as reflecting overall economic strength of nations:

Commodity	U.S.S.R.	U.S.
Steel	41	80
Coal	346	373
Petroleum	58	312
Electric power	148	544

(Steel, coal and petroleum measured in millions of metric tons, electric power in billions of kilowatt hours.)

Except for coal, U.S. production of these basic items is from two to five times that of the U.S.S.R. but the U.S. margin used to be much higher in some items.

In coal, not only a basic fuel but also a raw material for the chemical and metallurgical industries, the story is quite different. Because American coal production has dropped sharply during recent years, the U.S.S.R. is about to capture first place in the world unless there's a quick upswing in U.S. output.

The Soviet leadership has many serious problems in its economy, particularly in agriculture. But none was serious enough to prevent the Soviet Union from increasing steel output in 1954 by more than 3 million tons, coal by 26 million, cement by 3 million, petroleum by 6 million tons and electric power by 15 billion kilowatt hours.

During this same year U.S. steel production fell off by about 20 million metric tons, coal by about 60 million and petroleum about 6 million tons.

## State Senate Unit Kills Pemberton Liquor Store Bill

ST. PAUL (AP)—The Senate Liquor Control Committee today killed a bill designed to permit the village of Pemberton in Blue Earth County to establish a municipal liquor store.

Under the general law no liquor may be sold within 1,500 feet of a school. The committee was told that Pemberton, which had a 1950 population of 152, is so small there is no place for a liquor store that is 1,500 feet from the school, which is just outside the village.

Action to kill the bill was on motion of Sen. Harry Wahlstrand, Willmar, who declared exceptions to the general law are bad legislation.

His contention that the village was incorporated solely for the purpose of establishing a liquor store, was denied by Sen. Val Imm, Mankato, sponsor of the bill. Sen. Imm said voters in the village had voted four to one in favor of a liquor store.

Toothpaste was first packaged in collapsible metal tubes in 1892.

## Equipment Bought For Spring Grove School Gymnasium

SPRING GROVE, Minn. (Special)—Equipment valued at \$26,404 has been purchased for the new gymnasium-auditorium at the Spring Grove School, it was announced this week.

The city bought bleachers, chairs, curtains and lights, locker racks and wire baskets, basketball backboards and an understage truck for the chairs at a cost of \$24,479.74. \$2,000 bond issue for these purchases was authorized in December 1953.

Lockers were purchased by the school board for \$1,924. Bids for all of the equipment were asked in early December, opened Jan. 5 and Jan. 12 respectively, and contracts let by the city Jan. 17 and by the school board Jan. 12.

Contracts were as follows: Lockers, Lyons Metal Products, Inc., Aurora, Ill., \$1,924.34; bleachers, Berlin Chapman Co., Berlin, Wis., \$12,902; backboards, Gopher Athletic Supply Co., Owatonna, Minn., \$1,694.95; folding chairs, Bjorlie & Steele, Spring Grove, \$4,037.50; curtains and lighting, Twin Cities Scenic Co., Minneapolis, \$5,892.47; locker racks and baskets, American Playground Device Co., \$322.82; and understage truck, Bjorlie & Steele, \$630.

Bids for a dividing net, parallel bars and a trampoline were rejected by the city.

## Blair Firemen Planning Dance

BLAIR, Wis. (Special)—The annual firemen's dance will be held at the City Hall Feb. 25 with St. Thurston's Orchestra providing music. Tickets may be purchased from any volunteer fireman and donations also are being accepted.

At the recent fire department annual meeting, all officers were re-elected. They are: Agnus Olson, president; Robert Burt, first vice president; Otis Berg, second vice president; Al Peterson, chief; Iver Berg, assistant chief; Jerome Mattison, treasurer, and James Simonson, secretary.

Fire Warden Lief Pederson, who is employed by the city, makes quarterly inspections of the business district and checks residential areas twice a year.

The annual report showed that 20 runs were made during 1954, although there were no major fires in the community. The fires included five grass fires, nine chimney fires, five minor building fires and one vehicle fire. All 16 members of the department are registered with the mobile battalion of the civil defense fire service, under the jurisdiction of the La Crosse fire chief. The department here has two trucks.

## 4 Winona Students on University Honor Roll

ST. PAUL—Four students from Winona were on the University of Minnesota College of Agriculture, Forestry, and Home Economics honor roll during the fall quarter. They include: John M. Gates, a senior in agriculture; Timothy B. Knopp, a sophomore in forestry; Ronald H. Sherwin, a sophomore in forestry and Miss Jean A. Schneider, a senior in home economics. Students must have at least a B average to be on the honor roll. In so doing, they rank in the upper one-fifth of all students enrolled.

## Caledonia Gun Club Renames All Officers

CALEDONIA, Minn. (Special)—All officers of the Caledonia Rod & Gun Club were re-elected Monday night at the City Hall.

About 138 members and guests attended the session that included reports, wild life motion pictures and a lunch.

Officers are: John Zenner, president; George Bissen, vice president; I. C. Gengler, secretary, and Adolph Eiken, treasurer.

The club's annual dance will be held Friday night at the Union Hall ballroom. Proceeds will be used to continue the pheasant feeding project and other conservation practices.

## Heart Fund Head in Lincoln Town Named

WHITEHALL, Wis. (Special)—Henrik Herness, chairman of the Town of Lincoln, has been named chairman of the 1955 Heart Fund drive in this area by Gen. Paul B. Clemens of Solon Springs, Wis., state Heart Fund chairman. It will be a mail campaign this month.

His drive will not be conducted in the city of Whitehall, where a contribution is made to the Heart Fund from the Community Chest, but it will cover the area in the Town of Lincoln and elsewhere that the chest does not cover.

## Amateur Talent Series on KWNO To End Tonight

The final program in a series of Winona Jaycee-sponsored March of Dimes talent shows on Station KWNO will be aired at 8 p. m. today when 20 more Winona and area youngsters will perform for votes.

Norman Svien, general chairman, said today that response to the program has been "wonderful," adding that 59 youngsters up to 18 years of age have now registered or have performed on the air. Approximately 40 participated last year.

Svien announced that the deadline for mailing in vote-contributions in the contest will be Sunday, with the names of the 10 contestants to appear in a public talent contest Feb. 10, to be released Tuesday.

The public contest, to be held at Winona Senior High School auditorium, with winners to be awarded cash prizes, also will feature specialty acts, from Winona colleges, the St. Mary's College men's choir and vocal solos by Miss Jeanne Reince, Miss Minnesota of 1954.

Performing in tonight's program—slated to be emceed by KWNO Manager Ed Allen, will be: Phyllis Miller, 16, 1844 W. 4th St., vocal; Lois Miller, 17, 1844 W. 4th St., vocal; Robert Nogosek, 15, 450 Winona St., accordion; Nancy Thurne, 14, 184 N. Baker St., vocal; Joan Rolbicki, 14, 1637 Gilmore Ave., vocal; Kathryn Lester, 14, 453 Macemon St., vocal; Judy Merchelwitz, 13, 3758 6th St., Goodview, vocal;

June Chabourne, 15, 524 Huff St., accordion; Thomas Bauer, 13, 775 E. Front St., bones; Alfred Wolfram, 12, 263 Walnut St., vocal; Karen Adleman, 13, 263 W. Mill St., guitar; Charles Biesanz's Kids' Chorus, a group 4 to 12 years in age;

Lucille King, 12, 770 W. Mark St., accordion; Polly Kay Carpenter, 12, Homer, vocal; Marlene Kramer, 13, Homer, vocal; Dorothy Neitzke, 13, 3810 6th St., Goodview, organ; Elmira, Rouse, 15, 1731 W. Wabasha St., vocal; Charolette Vreeland, 16, 1755 W. Wabasha St., accordion; Layonne Schmidt, 14, Homer, vocal, and James Brand, 11, 517 E. King St., vocal.

## 'Young Man' Award History Here Recalled

Sometime during the evening of Feb. 28, a Winona man will be the recipient of this city's highest civic achievement award—the Distinguished Service Award.

The man who will receive the gold key given annually by the Junior Chamber of Commerce to the city's outstanding young man, will be between 21 and 35 and will be the one who, in the opinion of five fellow citizens, has contributed the most to Winona civic affairs during 1954.

Serving on a committee to pick this year's winner are: E. J. Sievers, chairman, and Joseph C. Page, Fred E. Boughton, Henry Murras and S. J. Petersen.

The history of the award—as far as Winona is concerned—goes back to 1935, just two months after a local Jaycee chapter was chartered.

First local winner of the outstanding young man tag was W. Kenneth Nissen, Winona attorney, who later served 16 years as county attorney.

During the 20 years since 1935, 15 more men have been given the DSA award—the 17th will be named this month. No award was given in 1940 and 1942 and in 1944, at the height of World War II, the honors went to the mythical "G.I. Joe." In 1953, "Our Servicemen Fighting in Korea" were the recipient of the award.

At that time, William Tomaskiek, decorated for heroism in Korean fighting, accepted the award from Mayor Loyde E. Pfeiffer and presented the scrolls to the local American Legion and VFW posts.

Former winners

Other winners, in order since the 1935 award, include: James McConnon, J. Roland Eddie, Julian Neville, Arthur J. Fritz, Karl Conrad, F. Allan Wood, Walter Falbicki, Lloyd E. Deike, Orland Johnson, H. Irving Tingley, Harold J. Libera, Carrol Syverson, Adolph Bremer, Leslie Woodworth and Richard O. Powell.

No previous winner will be eligible for the 1955 award.

Although the award is sponsored by Winona Jaycees, no member of the committee is a member of the local chapter and no Jaycee will know the winner's name until he is picked out of the crowd during a 6:30 p.m. banquet at the Oaks.

## Rev. Voight Leaving West Florence, Frontenac Churches

FRONTENAC, Minn.—The Rev. Walter Voight, pastor of Wisconsin Synod Lutheran churches here and at West Florence for five years, is moving to a new pastorate this week.

He and his family were honored guests at a number of gatherings at West Florence and here prior to his final sermons at the two churches Sunday.

He is taking a pastorate near Wausau, Wis. Until another pastor accepts a call, a teacher and student pastor will serve the two congregations.

## The Daily Record:

### At Winona General Hospital

#### TUESDAY Admissions

Mrs. Florian Glauert, 521 W. Mill St.  
Mr. Emil Paape Sr., 569 E. Wabasha St.  
Frank Gokey, Homer.  
Charles Risser, 378 Center St.  
Arthur Weiss, Rollingstone.

#### Births

Mr. and Mrs. Roger Polus, 834 1/2 W. Wabasha St., 8 sons.  
Mr. and Mrs. Earl Blumentritt, 164 W. 3rd St., a son.  
Mr. and Mrs. Leo Murphy Jr., 416 W. Mill St., a son.  
Mr. and Mrs. John Walsky, Winona Rt. 3, a daughter.  
Mr. and Mrs. Daniel Kaczorowski, Trempealeau, Wis., a daughter.

Mr. and Mrs. Merton Sutter, Fountain City, Wis., 2 daughters.  
Mr. and Mrs. William May, 683 E. Wabasha St., a son.

### Two-State Deaths

Frank W. Stark  
FOUNTAIN CITY, Wis.—Funeral services for Frank W. Stark, Fountain City, were conducted at 2 p.m. today at St. Martin's Lutheran Church, Winona, the Rev. W. G. Hoffmann officiating. Burial was in the Fountain City Public Cemetery. Pallbearers were Clarence Schueler, Clarence Tacke, Clarence Shank, Stanley Jorde, Manuel Snyder and Roy Bork.

George Schaefer  
HOMER, Minn.—Funeral services for George Schaefer, Homer, were conducted at 2:30 p.m. today at the Breilow Funeral Home, Winona, Elder Percy Lamb of the Seventh Day Adventist Church and the Masonic Lodge in charge. Burial was in the Pickwick Cemetery. Pallbearers were Dan, Howard, John and Donald Stedman, Thomas Stuck and Fritz Drewes.

Mrs. Henry Lundt  
CHATFIELD, Minn. (Special)—Mrs. Henry Lundt, 69, lifelong Fillmore County resident, died at 5 a.m. today at her home here.

The former Louise Niemeyer, she was born March 24, 1885, in Fountain Township and was married to Henry Lundt Jan. 16, 1902. The couple farmed near Fountain for 12 years and near Wykoff for several years. They later moved to a farm north of Chatfield and lived there until 1936, when they retired and moved into the village.

Funeral services will be held Saturday at 1:30 p.m. at the Boettzer Funeral Home and at 2 p.m. at St. Paul's Lutheran Church, the Rev. W. C. Lohrke officiating. Burial will be in the church cemetery.

Surviving are: Her husband; three sons, Fred and Albert, both of Chatfield and Lawrence, St. Paul; three daughters, Mrs. Oscar Kalstabakken and Mrs. Elmer Worden, both of Chatfield and Mrs. Clarence Kirchner, St. Paul; three brothers, Albert, Chatfield; Fred, La Crosse, and Armin, Wykoff; three sisters, Mrs. John Stello, West Salem, Wis.; Mrs. William Meyer, Fountain, and Mrs. Henry Meyer, Wykoff; 27 grandchildren, and 17 great-grandchildren. One brother, Louis, died in 1947.

Friends may call at the funeral home after 7 p.m. Thursday and until time of services Saturday.

Mrs. Robert G. Olson  
BLAIR, Wis. (Special)—Mrs. Robert G. Olson (Barbara Winick), 28, died Tuesday night at Georgetown University Hospital, Washington, D. C., following a long illness.

Mr. Olson was born Jan. 2, 1929, at Chippewa Falls, the daughter of Mr. and Mrs. G. H. Winick, now of Blair. They lived in the Chippewa Falls and Owen communities before coming here. Mrs. Olson was educated at the Eau Claire State College, and had lived at Alexandria, Va., recently.

She is survived by her husband; her parents and a sister, Mrs. Shirley Rusch, Thorp, Wis.

Memorial services will be held at First Congregational Church, Washington, D. C., at noon Thursday and it is expected that a service will be held in this area later.

## No Decision Yet On Alma Widening; Promised Shortly

LA CROSSE, Wis.—V. L. Fiedler, district engineer here for the Wisconsin State Highway Commission, said today that the state has not as yet made any decision on a proposed widening of Highway 35 at Alma, Wis.

A decision on the project is already more than a week overdue. Fiedler had said in December that a verdict would "probably" be handed down on or before Jan. 25. "If it was to get in on 1955 highway programming."

Dissension arose between Alma citizens and the State Highway Commission in November, when the commission announced that 14 houses, along Main street in the south end of town might have to be removed.

The proposed \$450,000 widening project lies between the Burlington Road tracks and the 14 houses in Alma's 1st Ward.

When the commission said that either the railroad or the property owners were going to have to move aside for the expansion, the Burlington Road entered the argument and said it wouldn't. Alma citizens called it a "major catastrophe" in a formal letter of protest to the state and said they wouldn't move either.

The highway commission, saying that the decision would be made on the basis of "sound engineering principles," reported today that the matter is still being studied, with the final decision delayed for a second time. They indicated, however, that a decision would be forthcoming soon.

## Blair FFA Members Collect Corn Thursday

BLAIR, Wis. (Special)—Carl Penno, vocational agriculture instructor at Blair High School, has announced plans for Future Farmers of America members to tour the school bus routes Thursday to collect corn in the "Corn for Polio" section of the 1955 March of Dimes.

The Mothers March on Polio here last week netted \$161.65. Mrs. R. E. Anderson is chairman of the campaign.

nities before coming here. Mrs. Olson was educated at the Eau Claire State College, and had lived at Alexandria, Va., recently.

She is survived by her husband; her parents and a sister, Mrs. Shirley Rusch, Thorp, Wis.

Memorial services will be held at First Congregational Church, Washington, D. C., at noon Thursday and it is expected that a service will be held in this area later.

## CHIEFS SIGN SHORTSTOP

## Jerry Kindall Rated Top Prospect

A lanky 19-year-old, "one of the finest baseball prospects that has ever entered the University of Minnesota," will play next summer at a shortstop position for the Winona Chiefs.

The boy's name is Jerry Kindall, a 6-2, 175-pounder who is currently a member of the Minnesota basketball varsity.

The fact that Kindall will play with the Chiefs next summer was confirmed today by Winona Baseball Association authorities.

If advance dope holds up, the Chiefs may have in the fold one of the best young prospects in the Southern Minny.

He played shortstop for Marshall in the Class AA Western Minny last summer and was very popular there.

"All the fans liked him," one Marshall observer said. "He

sure could cover a lot of ground."

Kindall showed power at the plate, too. He batted around the 300 mark until a late-season slump cut his final average to .263 with 31 hits in 118 times at bat.

He had three doubles, four triples, four home runs and 15 RBIs in 34 games on a team that finished a game behind Fairmont in regular season standings.

Fairmont, recently admitted to the Southern Minny after the Western Minny folded, went on to win the post-season "Little World Series" against the Rochester Royals last fall.

Dick Siebert, baseball coach at the University of Minnesota, is the one who calls Kindall one of the finest baseball prospects ever to enroll at Gopherville.

He is also rated a great prospect for Minnesota basketball.

Lou Gelfand, St. Paul sports writer who followed Kindall's prep career at Washington High School, writes:

"Kindall was an All-City high school shortstop in St. Paul two years, and also All-City in basketball. He was named the outstanding player his senior year in baseball and given the Quentin Mason Legion Memorial Award.

"He played on the North End Legion team that won the state and regional and lost in the sectional 4-1 to Cincinnati which won the national that year.

"Kindall has a great arm, goes either way and looks like a shortstop. His hitting is improving. He has excellent power and is a good base runner.

"He's definitely a pro prospect, but scouts haven't tried to sign him since he decided to enroll

at the University.

"He is an outstanding individual off the field, well-mannered and a great kid. Every one in Winona will like him. Incidentally, he's a terrific singer, too—ballads and that sort of stuff."

In basketball at Minnesota, Kindall is the replacement for All-American Dick Garmaker, and as such hasn't seen a great deal of action.

But as the Minnesota basketball brochure describes him, "He has tremendous agility, speed and spring. . . . He was considered one of the best freshmen a year ago. . . ."

Kindall is the 15th ball player announced on the roster of the Chiefs next summer. As a college student, he doesn't sign a contract, but merely a declaration of intention to play for Winona.

## WILL MISS GRID

## Crazylegs Calls Movies Challenge

By BARD LINDEMAN

NEW YORK (AP)—Elroy (Crazylegs) Hirsch, who starred as a college halfback at both Wisconsin and Michigan and holds two professional records as a pass-catcher, is breaking into the open field as a movie star and he likes it.

"It's another challenge," he said. "Nobody likes to be a failure. I like it. And we do real honest stories."

The retired National Football League veteran of nine seasons is out-beating the drums for his dramatic vehicle, "Unchained."

Hirsch broke into Hollywood in 1953 with his life story, "Crazylegs."

"I did 'Crazylegs' because the producer, Hal Bartlett, said there had never been a real honest picture on football. It clicked and now we did another picture."

"I like it fine, but I'll never get too far away from sports," Crazylegs said. "After 17 years you don't just give something up."

The story of Hirsch's life, and it's not unlike that of any football career man, is the All American story and that's why it was set to film. There was a man fighting hardship, disappointment and finally reaching success.

Crazylegs suffered a skull fracture playing with the old Chicago Rockets in 1948. The injury robbed him of his coordination. For a year he was out of the game, training, playing basketball and building back his precious timing.

"I would go to catch a basketball and it would hit me in the face. I would see a loose ball and just watch it roll by. It was frightening."

Little by little Crazylegs made his comeback. The Rams picked him up and he made the switch from halfback to end, and in a big way.

In 1951 he had his best year in the pro leagues. He scored 102 points, broke Don Hutson's pass yardage mark, totaling 1,495 yards gained with passes and tied Hutson's mark of 17 touchdown passes.

Crazylegs, who was named Elroy for the boy next door — a model child "who came when he was called" — picked up the nickname from his running style.

"Ever see a woman run? The way they point the toes in and throw the legs wide, that's the way I run in the open," Hirsch said. "I wobble. I picked it up as a kid. I love to run. I used to run home from the movies at night and raced my shadow under the street lights. They thought I was crazy."

The Union Club team took second place with 2,604 on a 426-pin handicap to tumble the leader the first two days, First National Bank, into third in Class A activities.

Three members of the Main Tavern team fired honor counts.

Gertrude Suchomel collected 528, Lucille Schaale had 525 and Vera Hegg 503. Main Tavern's total was 73 pins better than second-place Union Club's.

Callahan's Liquors won Class B with 2,551. 45 pins ahead of Chate's Alley Wags.

There will be 20 payoffs in Class A and the tentative low payoff is 2.47. Fifteen teams will share prizes in Class B. Tentative low payoff there is 2.358.

The highest single game in Class A team event bowling was Elsie Dorsch's 211, while in Class B, Vera Langowski took honors with 210. A complete prize list will be published at the end of the tournament. Starting tonight with a 6:45 p.m. shift at the Keglers Klub and running through Sunday afternoon is the doubles-singles action.

## Bowling Clinic

By Billy Sixty

## HESITATION AT TOP

Key to Lillard Timing — Pro

golfers agree the secret of rhythm is a slight hesitation at the peak of the backswing.

Walter Hagen and McDonald Smith, of the topflighters I observed, stopped especially long at the top. So long you could have counted two on iron shots, and three on wooden shots. The same holds true in bowling, and it's so valuable that it'll pay dividends to work on it.

That little hesitation is the answer for Bill Lillard's smooth action. As he goes into the third step of his four-step footwork the arm stops altogether as it reaches shoulder-level top of the backswing, as sketch shows. And then, as the line and arrows show, there is no sudden effort to rush the ball into its downward-forward motion. Instead, Lillard allows the ball to drop almost straight down into what is called the slot of the groove. Thus the ball weight pulls his body down into comfortable position for the finishing footwork — the fourth slide-step and the smooth, all-the-way-out arm-swing, with a lift to put hook-spinning power on the ball.

## SPORTS Sidelights

BY RALPH REEVE

## Surprising Swimmers

The Winona High swimming team has turned in a surprisingly successful season thus far. Spirit and desire on the part of Coach Lloyd Luke's tankers have splashed the Winhawks to a 4-4 dual meet record to date.

Luke, in his first season as Winona High swimming coach, greeted a squad the opening day of practice that boasted only one letterman, state individual medley champion Wilton Berger, a junior.

Even then, however, Luke would say, "Give the kids time, they'll be okay."

It's beginning to look like he knew whereof he spoke. In dual meets Winona holds victories over Austin, St. Thomas and University High. They lost a pair to Rochester's powerful state titlists and were edged by Shakopee.

In beating Austin in a dual meet at Austin pool, this year's squad was the first in 18 years to turn the trick.

Comparative scores with meets against Rochester offer more clues that the Winhawks are improving. Last season, Rochester beat Winona 68-7 in one dual meet. . . . The first time this year the Rockets won 52-23. . . .

The second time the squads opposed each other the Winhawks whittled the margin to 47-28. . . . The Winhawks reached a season peak here last Friday in a 46-29 victory over St. Thomas Academy. . . .

Luke, Jerry Miller, a sophomore, chopped six seconds off his previous best time in the 200-yard freestyle event, and freshman Jerry Ziebell, in winning the breast-stroke, cut his time to 1:12.8.

Roland Kratz, a junior, and sophomore Jim Hauser, have showed great improvement in the 40 and 100-yard freestyle events.

Mike Hull, a freshman, improves in the backstroke and Bob Hervey is a good diving prospect and only a sophomore. . . . After the St. Thomas meet, Luke said, "We should have quite a group of swimmers here the next two years. . . . The future looks bright."

To that, our Chicago man would amen, "You better believe it!"

Here & There

The Mankato Vikings, you might say, are a "Lyons-hearted" group of hockey players. . . . When the Vikings beat Albert Lea Jan. 16 at Mankato by a 9-2 score, the following members of the Lyons clan got into the act:

Tom Lyons, goalie; Ben Lyons, left defenseman; Dick Lyons, center ice; Joe Lyons, spare; John Lyons, referee, and Allie Lyons, scorer. . . .

Stewartville wrestling coaches Ken Hanson and Howard Sloneker are looking for a match either Feb. 10 or Feb. 11. . . .

The last year Winona High won a Big Nine Conference basketball title, was during the 1931-32 campaign. . . .

Red Wing and Mankato have both won eight titles and Austin six. . . . Faribault, Northfield and Rochester have two Big Nine cup trophies, Winona and Albert Lea one apiece and Owatonna none.

In football, Austin leads the pack with 10 championships, followed by Rochester with six and Red Wing with four. . . .

Winona, Albert Lea and Mankato each have a pair of football titles and Northfield and Faribault one each. . . . As in basketball, Owatonna hasn't won any football titles. . . .

Northfield, winners the past two years in Big Nine track, dominate the picture in that spring sport with 10 league titles. . . .

Mankato follows with seven track crowns and Rochester three. . . .

Winona, Austin, Owatonna and Faribault are the others schools with conference track trophies. . . . In baseball, Austin holds six titles, Winona two and Mankato one. . . .

Golf champs include Mankato six times, Austin and Albert Lea four times, Rochester thrice and Faribault twice. . . .

Winners of the Big Nine tennis crown the past six years have been the Rockets of Rochester. . . . Winona, Faribault and Albert Lea all own one title in that sport and Mankato three. . . .

The Big Nine doesn't consider hockey a conference sport since only Rochester and Winona compete. . . . Only conference competitors in swimming are Rochester, Winona and Austin. . . .

And, for what it's worth, Rochester and Winona are the only teams in the Big Nine Conference that compete in every sport offered—football, basketball, hockey, swimming, wrestling, track, baseball, golf and tennis.

NEW YORK (AP)—The free throw has become such a vital factor in college basketball this season that the more alert coaches around the country are reported hurriedly reviewing their tactics to take advantage of the trend and grab their share of the foul-line gravy.

Instead of sending their athletes pelting down the court in quest of a field goal, as had become customary in the modern game, they again are teaching ball control and tempting the opposition to come out and fracture the rules. They have learned quickly that a foul in their favor can be as valuable as the most brilliant shot from the floor.

Under a strange new rule thought up for this year the foul shooter is rewarded for excellence. If his first try goes through the hoop, he gets another shot for free.

WALKING ON AIR . . . Pete Polus, who scored 30 points for Winona State which upset St. Mary's 82-75 Tuesday night, shows how it's done as he walks up invisible stairs to lay the ball into the basket.

Included in Polus' total was 20 free throws and only four misses, along with a swisher from midcourt as the final gun sounded.

## Warriors Upset St. Mary's 82-75 as Polus Scores 30

By RALPH REEVE

Daily News Sports Editor

The Winona State Warriors maintained the "anything-can-happen" tradition of the city college basketball series Tuesday night at Memorial Hall by stunning the favored St. Mary's Redmen, 82-75.

The Warriors played their best game of the season in chalking up their fourth victory in 14 starts. For St. Mary's it was the sixth loss against 14 victories.

Winona State held as much as a 16-point lead with 4:45 left in the first half and with 11 minutes left in the game the Warriors led 57-44.

The Redmen refused to concede and staged a tremendous rally that closed the gap to 77-75 with 30 seconds remaining in the game.

With 25 seconds to go Pete Polus hit a free throw for a 78-75 margin. Craig Currier was fouled after the Warriors again gained possession of the ball and he sank two pressure shots for a five-point spread. With 10 seconds to go, Lee Paul hit a free throw and it was 81-75.

The game signaled the return to oldtime brilliance of Pete Polus and the Winona State whippet provided the climax of the night.

With the Warriors in possession of the ball out of bounds and three seconds left, Polus took a pass in, sighted, and arched a swisher from midcourt as the gun sounded. That made it 83-75 for the history books.

Polus was the game's top scorer with 30 points, included 20 free throws in 24 attempts. Other Warriors

scorers in double figures were Gil Regnier with 17 points from the pivot spot, guard Dave Smith with 14 and forward Lee Paul with 13.

In defeat, the Redmen were not without their heroes.

Marty Coughlin, St. Mary's captain, had 18 points including 15 in the second half when he carried the St. Mary's cause to pull the game out.

Winona State jammed the middle defensively and in the first half especially, the defense bothered the Redmen, who were unable to collect their usual quota of points from the inside.

St. Mary's was held to six field goals the first half, but a 16-of-19 performance from the free throw line before intermission prevented the Warriors from pushing the point spread higher.

Coughlin went to work in the second half from the outside, collecting seven field goals on jump shots from both sides of the basket and around the circle.

The Marions closed the count to 51-43 after six minutes of the second half but two free throws and a fast-break drive by Polus, along with Paul's jump shot from the circle upped the count to 57-43.

That was Winona State's last big lead.

From that point on the Redmen steadily whittled away the margin and reached a four-point deficit with 6:30 remaining when Coughlin hit from the 5' for a 62-58 count.

The Warriors' lead varied from

four to six points until St. Mary's center Johnny Curran converted a rebound for a 72-69 count with two minutes left.

Polus and Paul then hit five of six free throws with only Ken Jensen's long set shot retreating for St. Mary's. Winona led 77-71 with 43 seconds to go.

Mike Surby cashed a pair of free throws and Jensen electrified the patrons with a long jump shot at the 30-second mark.

The Warriors didn't panic, however, and took a time-out to set up an out of bounds play. Polus was fouled taking a return pass to get the ball down the floor and one of his free throws was good for the 78-75 count.

The last seconds found, as mentioned before, Polus, Paul and Currier adding icing to the cake for the 83-75 final.

The game evened the city college series. St. Mary's won the first encounter 79-67.

Next game for the Redmen is Saturday night against Macalester at Memorial Hall in a Minnesota College Conference contest. The Warriors fly via the J. R. Watkins Co. DC3 to Bemidji and Moorhead for a pair of State Teachers Conference games Friday and Saturday nights.

Making Tuesday night's reversal complete was the St. Mary's junior varsity team. Losers to the Winona State jayvees by three points the first time they met this year, the Redmen "B" team copped a 53-50 decision. Surby played a big role in that contest, scoring 18 points.

## LAFF-A-DAY

"If you ask me, Mac, that sounds more like a vitamin deficiency."

## LET'S EXPLORE YOUR MIND

By ALBERT EDWARD WIGGUM, D. S.

## Answer to Question No. 1

1. Only those groups of feeble-minded families who intermarry. But experts estimate that probably half of feeble-minded children are born of healthy parents who "carry" the trait in some sex cells. When two "carriers" marry, they may have one feeble-minded child, rarely more — a great tragedy. That's why we should know our "pedigrees" as well as we do those of dogs, horses, etc.

## Answer to Question No. 2

2. One experiment showed students' smellers improved by trying to distinguish faint odors of several substances for two weeks. Children have much keener sense of smell than most adults. They lose it as they go along — probably from lack of practice. Practice sure makes perfect with people who stick their noses into other

people's business — their smellers improve with age!

Answer to Question No. 3

3. Yes. Lack of understanding will cause great suffering in the victim and his family. I can't describe all the symptoms here, but the Hogg Foundation, The University of Texas, Austin, Texas, will send you a fine pamphlet free. It is called "Mental Illness in a Family Affair," and it may save your family heartache and money.

## THE GRAB BAG

## THE ANSWER, QUICK!

1. What animal is the best known as an example of protective coloring?  
2. What author of a famous tale of life on a desert island wrote 250 books?  
3. What famous runner was despatched from Athens to Sparta in 490 B.C., to ask Spartan aid against a Persian invasion?  
4. In the religion of what people did Isis and Osiris figure prominently?  
5. Who is generally called the most pessimistic philosopher?

## HOW'D YOU MAKE OUT?

1. The chameleon.  
2. Daniel Defoe.  
3. Phaedippides.  
4. The early Egyptians.  
5. Arthur Schopenhauer.

Natives of the jungle village of Mengela in French Cameroon, West Africa, are summoned to their mission church by the ringing of a locomotive bell, the gift of an American railroad.

Healthful Refreshing, Delicious

## FAIRLY SPOKEN

By MARGARET LATROBE

Lady, you want to run for President of the United States? Don't depend on candidacy in 1956—it isn't in the cards. And let's hope it never is.

Some of the female contingent talk too much and say too little, which perhaps is no worse than talking too little and saying too much. But those of the feminine gender who continually upbraid the public prints with protests that they are discriminated against in business just because they are women—these lassies give me a pain in the neck.

Recently a career woman, self-designated, wrote the editor of a large weekly magazine stating that weren't only Russian women who were "citizens second class." She herself felt very second-class, right here in the good old U. S. A. (Wonder if she could have meant "second-rate"?)

Well, girls, if you want to feel that way about the business world (and this is usually the bone of contention) go ahead and feel that way. Just don't ask me to join in the lament. It would appear to this observer that any gal with the tickets can board the train to success—in just about any field of endeavor which appeals to her. And all the yipping about men grabbing off the better salaries, the better jobs, the better deals is typical sour applesauce.

"Equal pay for equal work," they want. I wish I knew of any field which was sharp enough to determine exactly what wages anyone is worth. Even in professions inhabited solely by men (if such there be), equality in work and pay doesn't exist. How can it? How can the human equation be measured so accurately?

"Field of competence" is a lofty-sounding phrase of which I am fond. It means that, if lucky and industrious enough, you have a special line, a particular interest in

## Ken Huxhold New Farm Director For North Western

CHICAGO (P)—Former University of Wisconsin football star Ken Huxhold, the new agricultural agent of the Chicago and North Western railway system.

Huxhold, 28, who played professional football with the Philadelphia Eagles, was appointed to the post Tuesday.

Huxhold was captain of the Badger squad in 1950. He graduated from the College of Agriculture in 1952 and played offensive guard for the Eagles in the National Football League last season. He succeeds Howard Gramlich. He will work with farm and cattle interests in the nine state region served by the railroad.

The United States has six per cent of the world's land and seven per cent of its population.
