Six girls were chosen candidates for Campus Cover Girl:

- Patricia Bisel, an elementary education major from Burt,
- Tanya Hildebrandt, an elementary education major from Brooklyn, Minnesota.
- Kathy Kenney is a junior from Winona.

The winner will be announced at the Valentine's Banquet on Feb. 11. Last year's Campus Cover Girl was Susan Rustede, a junior from Lake Elmo.

Science sessions to be offered June 14 to July 10

A Computer Science Workshop offering six quarter-hours of graduate or undergraduate credit will be conducted at Winona State College June 14 through July 10.

FROM the U. S. General Accounting Office, the individual will receive special classroom training and on-assignment training. Also, there is special training in such subjects as machine operation, testing, processing, testing, and investigatory techniques.

If students are interested, they should contact the Placement Bureau to sign up for interviews. A comprehensive brochure explaining needed qualifications, applications required, salaries, and benefits is available at the Placement Bureau.

The College Senior Placement Examinations, offered by the Minnesota Civil Service Department will be given Wednesday. This will take approximately an hour. Interested candidates need to have completed all college work and are handling the characterizations of their application.

The CSPE program is designed to acquaint college graduates with the wide variety of career opportunities available in the Minnesota State Service and to offer the graduating senior an opportunity to qualify for a variety of positions by filling one application and taking one examination. The applications may be obtained at the college Placement Bureau or the Business Office. It is necessary that students comply with application for examination before Wednesday.

Summer workshop planned

Seven institutes and workshops, seven special programs, and five seminars in elementary art education will be offered at Winona State College during two summer sessions.

The first summer session will be June 14 to July 15; the second, July 15 to August 4. Institutes and work-ERSHMENT and workshops will be held July 15.

INSTITUTES AND WORKSHOPS: National Science Foundation Institute in teaching science, math, and physics, July 6-8; 36 computer science workshop, June 14-17; 13 music workshop, July 12; 12 science workshop, July 18-25; remedial reading workshop, July 25-30; 11 communication workshop, July 24-30; aerospace education workshop, July 18-29, and health problems workshop, July 15-27.

The five seminars in elementary education with emphasis on art will be offered weekly during the first sessions for undergraduate or graduate credit. Nationally known educators will lead discussions on current problems.

Special programs offered: Special education /mentally retarded, guidance and counseling; summer training, elementary school administration, directed teaching, audio-visual coordination certificate program, and remedial reading certificate programs.

ADDITIONAL INFORMATION may be secured from the office of the Academic Dean or the Registrar.

The family of Lloyd J. Severson has set up a memorial fund with the WSC Foundation recently.

Mr. Lloyd J. Severson passed away suddenly in Pittsburg, Pa., on Thanksgiving Day. He was serving as Director of International Resources for U.S. Steel Corporation with which he had a distinguished career.

A number of contributions have come from officials of U.S. Steel Corporation. Mr. Severson gave the Commencement Address here in June 1966. He attended this college one year before going to the University of Wisconsin where he graduated in engineering. He was a native of Galveston, Wisc. A daughter, Virginia, is a student in her second year at Winona State College.

Another scholarship for prospective teachers has been set up by the firm of Robert and Corliss. It will be awarded for the first time in the spring of 1967.

Art exhibited

Works by the French artist Rouault are now being displayed in the WSC art gallery. All students and faculty are invited to view the exhibition.

Interviews, tests to be scheduled; contact placement

Social committee criticized

Dear Editor:

On Jan. 18, Phi Sigma Epsilon received a notice from the Social Committee at Winona State College asking if we would like to sponsor any events for the upcoming semester. The notice was sent to the committee's members, who then voted on the events to be sponsored. The list of events included a dance on Feb. 12, a basketball game on Feb. 26, and a homecoming dance on Apr. 16.

We sponsored the basketball game and the homecoming dance. The Social Committee had written on the notice that the major post office near our dormitory was one week before the event.

Safard Betcher, Phi Sigma Epsilon

The photography staff, headed by Gene Lund of White Bear Lake, was organized last fall to help develop photo-journalism and to serve the Winona and Mt. St. Mary's students. Now have sixteen active members.

Lund is a cadet lieutenant in the Air Force Officer Training Corps program. He previously attended the University of Minnesota where he worked for the Audio Visual Education Service in the Audio Visual Laboratory as a communications technician.

"We must design a photo staff not only the yearbook and the newspaper, but also other departments," Lund said. "We try to further the goal of journalism and publications in our college and in so doing allow a greater form of expression by our institution, when so often in the past colleges have been either ignored or misunderstood. It has been only in recent years that we have been able to convince the people of our willingness to concern ourselves in academic matters.

"We must design these opinions as well as possible for 'vice good picture' is worth a thousand words. The goal of the photo staff is to serve the photo-journalism needs of our school and its constituency. A school photographer must be in the right place at the right time. He is a true historian because he preserves and records events.

"He must picture the people as they really are in a natural unposed manner. There is a natural excitement about taking a picture. People have always been mystified by their pictures since the time of the Indians, when they thought their spirit was captured in the picture, until now when people being photographed hope their personality was captured."
Cagers fall to Mankato, Bethel; record now 5-9

Winona State's basketball team continued to have difficulty in their search for a winning combination last week. On January 10 the Warriors suffered a 58-83 setback at the hands of Bethel College in St. Paul. Last Saturday afternoon Coach Robert Campbell's squad dropped a conference game to Mankato here by a score of 47-58. The two defeats brought the Warriors season record to 4-5, and left them in fourth place in the NIC with a 2-3 mark.

Tim Anderson, Bangor, Wisconsin, pipped in 22 points for Winona against Bethel, but a defensive letdown allowed the Royals to build up a 10-point lead in the first half. The Warriors hopes for a rally were crushed when senior Mike Jerecek, fouled out of the game with nearly seventeen minutes remaining. His replacement, Chip Schwartz, did a satisfactory job, but Winona could come no closer than eight points.

BETHLEHEM Ron Pederson led all warriors with a 38-point effort, and he was second high for the Warriors with 14 tallies.

Despite the enthusiastic efforts of a wild student cheering section, Winona State was plagued by cold shooting and costly turnovers in the game against Mankato. The loss to the Indians was the Warriors' third straight since a victory over Michigan Tech January 14. Mankato reigned unchallenged in conference play.

Dave Mezner showed why he is currently the second leading scorer in the NIC as he collected 31 points to take game scoring honors. Coach Campbell started another fast guard, Rick Sharack, in an attempt to bottle up Mankato's offense. Sharacki, a 1964 graduate of Cotter High, as in Jerecek, totaled 10 points in his first varsity competition.

Matmen win 10 straight

The Winona State College wrestling team maintained its perfect record with another dual meet triumph over Luther College December 29 at Decorah, Iowa. The final score was 22-11 and the victory gave the Warriors an unblemished 16-0 mark for the season.

COACH ROBERT GUNNER's matmen finally are scheduled to return home Saturday to host Superior State University in a dual contest beginning at 7:30 in Memorial Hall. Superior has several lettermen back from the team that tied Winona last year.

At Luther the grappler's standout performers were John Zwicklinski, Perry King, and Roy Wicks. King, the 133-pounder, collected six takedowns as he decisioned his opponent by the wide margin of 15-0.

Joe Wentworth, a 125-pound grappler, claimed his tenth consecutive win by decisioning his opponent by the wide margin of 25-14; and Richards' Basketeers with 25 points, giving her a total of 39 points in the tournament.

The single elimination tournament for the Intramural league is scheduled to begin on Feb. 7. Action begins next week at 8:00 p.m. for the teams playing the first shift and at 7:30 p.m. for the teams playing the second shift.

All teams had enough players present to play. Present team standings are:

In the Red division

Coaches: Buzz Peterson and Mike Jerecek

Participation is heavy in intramural leagues

Each year only a handful of qualified basketball players are given the opportunity to compete on a varsity basis here at Winona State.

Those that are unwise to play but were unable to make the college's team most often resort to some form of intramuralism. This year has been on exception. A large intramural league has been organized here on campus consisting of three separate divisions: Red, White and Blue, with five teams each. Four games are played every Tuesday, Wednesday, and Thursday nights. Coach Collinhost has promoted the league and has attracted a record turnout this year.

The current leaders in the Red division are the Roosters who have been paced by the Rock brothers, Fred and Terry. They have won all four of their games this far.

The Scholars have jumped off to a 3-0 record in the White division and they appear to be the team to beat come tournament time. Clark Spanton, Jack Benedict, Roy Wintzler, and Doug Morgan have been consistent scorers for the Scholars. However, the Pheasants, led by Dave Denny, and Jerry Usgaard, have kept even with the Scholars up until now in the strong White division along with the Phi Sigs, whose heaviest scorers have been Tom Flasshaberg and Nick Majerus.

The current leaders in the Blue division are the Falcons and the Cowboys, both with 3-0 marks so far.

The present leaders are the Falcons and the Cowboys, both with 3-0 marks so far.

INDIVIDUAL HIGH scorer for the evening was Barb Iverson with 14 points.
