Coach Habermann Renews Contract for Next Year

We are fortunate to again have Mr. Habermann as coach of Winona Teachers College Athletics. Although definite plans have not yet been made, coaching will probably be his only work in the school. Mr. Habermann will devote his afternoons to this work and his mornings to insurance business.

The Coach has done a great deal for the athletics of this college. Since the Habermann regime Winona has always been in the running for championships in the major sports. We have been Southern Champions in football of the Little Ten Conference for the last three years. In 1923 we were defeated by Hibbing only, the following year we tied with Hibbing, and this year we are the holder of the state title. In basketball and track Winona has also done well under the tutelage of Coach Habermann. So three cheers and a tiger for the man who will lead our teams on to victory again next year!

W.T.C. CLOSES BASKETBALL SEASON TONIGHT

The Winona cagers go to St. Cloud for the last basketball game of the season. Both Winona and St. Cloud are tied for second place and, if Rochester loses to Mankato tonight, will tie Rochester for first place. Winona gave St. Cloud a good fight here two weeks ago so with better guarding on our part we should win this game.

WINONA LOSES TO ST. CLOUD 23-19

Friday, February twelfth, the St. Cloud cagers invaded Winona and beat the Purple and White basketeers by a twenty-three to nineteen score. Poor defense on the part of Winona was largely the cause of the defeat. Many times the St. Cloud players were free to shoot without interference.

The St. Cloud quint took an early lead and scored seven points before the Winona quint got started. With the exception of a short time in the second half when Winona led by a seven-to-sixteen score, St. Cloud led throughout the game.

Westgaard, center, started the scoring for the upstate team; Gerecke opened our scoring with two field goals. Salitermann and Westgaard proved to be the stars for St. Cloud while "Wee Gee" did the outstanding playing both defensively and offensively for Winona.

INTERMEDIATE GRADE CLUB ENTERTAINS AT A VALENTINE PARTY

Saturday, February thirteenth the college gymnasium was the scene of the annual Intermediate Grade Club party, which was a delightful Valentine affair.

The decorations were indeed fitting and attractive, for they constituted a "Garden of Hearts" in which hearts grew in abundance. Large hearts — small hearts — but all of them happy hearts — hung from streamers of red and white on the lights, balcony, and the baskets at the ends of the gymnasium. Colorful red and white streamers were artistically arranged around the balcony and also formed a low trellis-like roof over the gymnasium.

The guests received gifts of Valentine favors, which the ladies wore in their hair and the men on their arms. Dancing was enjoyed to the entertainment of Earl Wood's Orchestra. A carnival atmosphere was created by a shower of colored streamers thrown from the balcony during one of the dances. Frappe was served at 9:30.

The party proved to be one of the prettiest of the season and was indeed a scene of happy hearts.

COLLEGE GIRLS FORM NEW ORGANIZATION

Twenty-five college girls were invited by the Winona League of Women Voters to be their guests at a luncheon given at the Winona Hotel on Monday of this week to honor Miss Ely from the national organization. Miss Ely spoke of the need for intelligent citizenship and of the need of information in regard to the political questions of the day if we are to be intelligent voters. She also emphasized the fact that the majority of voters today are not able to use the ballot intelligently. She cited the League of Women Voters as the organization through which the women of the country are preparing themselves for intelligent and worthwhile citizenship.

After the luncheon the college girls met with Miss Ely and Miss Blegen, who is the state organizer, and formed an organization to be known as the Young Voter's League.

Esther Hall was elected president, Elizabeth_SIGNAL_ Burns vice president, Emma Erickson secretary, and Lucinda Archibald treasurer. All girls of the college are eligible to membership. There will be three meetings before June first. The City League of Women Voters has provided a speaker for each of the meetings; announcements of which will be made from time to time. We hope many will avail themselves of the opportunity afforded by this organization to become more familiar with the vital problems that confront us as voters and prospective voters.

OUR FRIENDS THE COACHING EXPERTS

While I have always harbored the possibly old-fashioned notion that a successful coach in any line is born rather than made, I have not been ruled by this idea to the extent of fostering the belief that "no good can come out of Nazareth." I am still of the opinion that there has not yet been devised any method of making a real coach out of a person who has no inherent aptitude for the work, but this does not imply that anyone possessing such inherent talent, may not materially increase and improve his coaching ability by the observation and study of such methods as are being expanded and exploited by coaching experts at schools of coaching that are available to the ambitious student in various parts of the country.

However well equipped an athletic coach may be through natural endowment, there is doubtless much that may be learned by sitting at the feet of men who have had a more extensive actual experience than he has.

I would not advise one to put too much time in studying the various things about sports written by those who base everything on theory. There is a certain amount of hard actual experience connected with success in anything.

For those who expect to go out and do some coaching, and expect to make a living that way, might just as well know right now that coaching is teaching, and what you learn in classes of education and so forth, are very valuable. The embryo coach will soon discover that each future athlete needs different treatment if you are going to teach him anything, and that no two are alike.

I have read in books just how to go about coaching a man for a certain position, but have always had to get right down and study him for myself. It is very much like the student education and so forth, are very valuable. The embryo coach will soon discover that each future athlete needs different treatment if you are going to teach him anything, and that no two are alike.

ARE YOU LIVING?

Someone has said, “So many men are dead and don’t know it.” Did you ever take inventory of your life? What things are there about it that make you really live? What in it deadens development of the self? Only the individual can answer for himself.

Mr. H. A. Waldhoren, Welfare Administrator of the Battle Creek, Michigan, Welfare Fund, gave an illustrated lecture, “Town, Gown, and Common Welfare” at chapel, Thursday, February eighteenth. He presented some very constructive ideas of true welfare work and convinced the audience of the good that is being done and is still to be done in this field.

Last Tuesday evening the Twin City Club enjoyed a long hike after which they treated themselves to a delicious chicken dinner. Did they eat? Ask Edith Laughlin.

The Kindergarten Club held a regular meeting on Wednesday afternoon, February seventeenth, at five o’clock. A piano solo by Beulah Sanders opened the meeting, the program was closed with a song by Nellie Rollins, accompanied by Vernice Rice.

Miss Mildred Smith, Health Educator, gave a very interesting and beneficial talk to the members. She especially stressed the point that we, as teachers, must show tolerance towards the parents in dealing with the health of the children and must accept good ideas of the parents so that they will welcome suggestions from the teachers.

The Wenoah Players and their guests had a peppy skighride last Saturday evening. The party returned to Shepard Hall where lunch was served. A short stunt was presented and dancing was enjoyed.

Who’s Who and Why

President Maxwell, Miss Richards and Miss Branner left last week to attend the National Educational Association Convention which was held in Washington D.C. Mr. Maxwell, who left Wednesday night, also attended a conference of Teachers College presidents.

Mr. Jedderman, Mr. Selle, Mr. Owens, Mr. Stanger and Mr. French have been acting as judges at various debates of the Quadrangular League held in Wisconsin towns. The members of the league are: Arcadia, Blair, Fountain City, and Galeville.

Louise Barton went home for the week end. Esther Benedict entertained her sister, Ida, and Ilae Dahl of Carleton College last week end. Geneva Smaby and Ruth Johnson spent the week end at their home in Peterson.

Bernice Berg, Verne Mille, and Margie Peterson entertained four Morey girls at his homes in Lewiston.

Miss Mallory is recovering nicely from her recent operation.

Do you remember Kipling's story of "THE SHIP THAT FOUND HERSELF!" The skipper said:

"There's more than engines to a ship. Every inch of her, ye'll understand, has to be livened up and made to work with its neighbors -- sweetenin' her, we call it technically. For when a ship finds herself, all the talking of the separate pieces ceases and melts into one voice, which is the soul of the ship."

We call it "pulling together." A democratic spirit among the students who have confidence in their president and faculty, all of whom have the backing of the alumni, results in a certain "esprit-de-corps" which is the secret of success in any school. ALL MUST PULL TOGETHER.
PURPLE AND WHITE TRIUMPH IN LAST HOME GAME OF THE SEASON 30-22

The Winona quint finished their home schedule for this season with a thirty to twenty-two victory over Mankato on Friday, February nineteenth.

Mike Bambenek led the scoring for Winona with four field goals and two free throws. Gerecke and McCaffrey followed close each with four field goals. Tust and Huston, each with a field goal to their credit, made the remaining points.

Ver Duin, left forward, and Daugus, left guard, led the scoring for Mankato with nine and eight points respectively. Ver Duin opened the scoring for the Mankato five with an unusual field goal. Many of the points of the visiting team were gained by free throws. They made ten of their twenty-two points in this manner.

Very close refereeing by Dahl of the Winona High caused three men, Wright of Mankato, Rolly and Mike, to be retired from the game on four personal fouls.

1926 FOOTBALL SCHEDULE

La Crosse Normal — Here...Sept. 25 or 26
Stout Institute — There...Oct. 2
Fort Snelling — Here...Oct. 16
Open date — Oct. 23
Mankato Teachers — There...Oct. 30
Hibbing Junior College — There...Nov. 6

Rochester Junior College — Here...Nov. 13

Coach Habermann is negotiating for at least two more games.

APPRECIATION OF BROWNING

Have you not ever read his dramatic song
Who pictured human beings struggling right or wrong;
Who to mankind has opened many doors,
The man whose mind is keen, whose spirit soars?
I mean great Robert Browning whom you'd love
Because he is so very far above
Most other poets that you now do know.
Just let me tell you, not now of Rousseau,
Who to mankind has opened many doors,
The man whose mind is keen, whose spirit soars?
I mean great Robert Browning whom you'd love
Because he is so very far above
Most other poets that you now do know.

Plain as a Mud Fence

An actor fell in love with a chorus girl who did not return his affection. After he had proposed to her for the twentieth time she became exasperated, and said excitedly: "Look here, I wouldn't marry you not if you was the last man on earth. I don't want nothing to do with you. Is that plain English?"

"It's plain enough, my dear," replied the Englishman. "How in thunder do they get at the bottom?"

"They begin at the bottom and dig up."

"That is your question, answer it yourself."

"They open wide for me the door of art,
Depends not on the size, or if it's new."

"So I will tell you what he's done for me.
Experienced Student — "Not always. I bumped into a guy once, and he knocked me cold."

"When two bodies collide they generate heat."

"That's your question," said the Irishman.

"Answer it yourself."

College Dub — "Would you object if I kissed you?"

C. D. — "Would you mind if I kissed you?"

C. D. — "Say, are you deaf?"

C. D. — "No, are you dumb?"

Physics

Teacher — "When two bodies collide they generate heat."

Experienced Student — "Not always. I bumped into a guy once, and he knocked me cold."

Importance!

A Senior stood on the R. R. track,
The train was coming fast;
The train got off the 2. R. track,
To let the Senior pass...

— BADGER DEMOLAY.

Questions

An Irishman and an Englishman were waiting for a train, and to pass the time away, the Irishman said — "I'll ask you a question, and, if I can't answer my own question, I will buy the tickets. Then you ask a question, and, if you cannot answer yours, you buy the tickets."

It was agreeable.

"Well," said the Irishman, "you see those prairie dogs' holes out there, (pointing to a distant prairie dog town) how do they dig those holes without leaving any dirt around?"

"I don't know," said the Englishman. "That is your question, answer it yourself."

"They begin at the bottom and dig up."

"How in thunder do they get at the bottom?"

"That's your question," said the Irishman.

"Answer it yourself."

The Englishman bought the tickets.
