Tri-State Convention will be held on Winona campus

The thirteen member colleges of Tri-State will converge here May 3-4 for their annual convention. The convention was authorized by the Tri-State Board of Directors, headed by Charles Gundersen and Joan Pretzel, coordinators of the convention.

Tri-State is a student government organization with members in Minnesota, South Dakota, and North Dakota. The purpose of the organization is to promote and coordinate activities and ideas of schools of relative size. Winona State is the largest college in the Tri-State organization.

The convention will kick off on May 2 with registration in the Alumni Lounge, a dinner in the Union, and free time with exhibits on Sigma Tau Gamma's Spring Carnival.

General meetings and a campus and city tour will accent the activities of May 3. The meetings will feature discussions on the following topics: student-faculty relationships, student rights and responsibilities, name entertainment, special activities, student government, attendance policies, and representation in Tri-State.

At 5:30 p.m., a banquet will be held in the Union, for which a speaker has yet to be announced. Sigma Tau Gamma will have a dance later in the evening.

The delegates will have a business meeting at 10:30 on the morning of May 4 to select next year's host school, among other things.

This convention will officially end at noon, but a picnic will be held for the delegates at Lake Park in the afternoon.

Gundersen noted that, "although still in the planning stag-

Who's Who

nominations will close April 17, hurry!

Teachers to be evaluated by students

The Teacher Evaluation Committee has announced that WSC students will again participate in the Evaluation Program, May 20 through 27.

Dr. William Johnston of the sociology department has reported that the office is in the process of reducing the number of scaled questions. These first 40 questions will be answered on IBM cards. The second part of the form will be opened questions which will be answered in essay form.

The Teacher Evaluation Program is a valuable tool for open communication between students, instructors, and administrators. The evaluation form is used not as a gripe quiz, but as a tool to improve the quality of instruction.

Student volunteers will again help in distributing the forms. The evaluators of the office will again be in the Tri-State Convention during the second half of the hour. Students may also order the evaluation form by writing for the evaluation May 20 and 21; Gildemeister and Wolfe Halls, May 22 and 23; and Pasteur Hall, May 24 and 27.

Dean announces honor students

Dr. Raymond, Academic Dean, has released the list of honor students for winter quarter. They are:

- Mary Aarsleff, Fredric Baranski, Oprah Brown, Lois Buechel, Fred De Loach, Martin Divak, Barbara Gustafson, Ronald Heeb, Carol Hino, Michael Hoffmeister, and Raymond Joenser.

Dean's Note: This list was compiled and submitted by the department heads.
Letters to the Editor

to the Editor:

I TOO went to the Command[?]'s "briefing" at the Newman Center Friday morning. It was two of my friends and myself who were, according to Colleen Goltz, "typical of all the—attitudes and lack of empathy" to wallows[?] in the [?]. I can't conclude, the evening would have been a total loss without our personal comments being heard.

It seems there were about twenty-five people there who cared enough to come. Some of the main points covered were: Colleen, you are theпаины и винами новые и старые, no 250. It is said that "LOO", is a word that is not just and suits as ghastly as it did in the 1960's. I refuse this beca-

Dear Editor,

you Colleen, read your article that you wrote last week and you will find that you are stating that you do not think I did anything wrong. You say that you don't think I did anything because you think I did.

Incidentally, Colleen, I asked the "Man" who I was and I related it to the Students for Democratic Society organization. You glibly uttered words of peace and said that because of the Veterans Club, SDS became inactive. I say only that this was a shame because I have been involved for many of you which of you definitely mirror what I did.

You Colleen, read your article that you wrote last week and you will find that you are stating that I did not want to die and that I was not taken in by the one-trick-pony that you represent. I say that I was not taken in by the one-trick-pony that you represent.

I was also asked if I ever read "The War Lord's Prayer"? I read it, but I have no comment about the one who wrote it. Occasionally I write . . . But sometimes . . .

I hope this answers your question.

I will not have any more activities if you will just leave me alone.

Sincerely yours,

(Mary)

The Winonan

April 12, 1968
More than 800 members of the Inter-Faculty Organization of the Minnesota State College System will meet on the Winona State College campus April 25 and 26. One of the principal speakers on the opening day will be Dr. C. Theodore Mitas, new chancellor of the Minnesota State College System. Members of the State College Board will also be present.

The organization includes the faculties of the state colleges at Bemidji, Mandan, Moorhead, St. Cloud, Southeast (Marshall), and Winona. Its purpose is to further education in Minnesota through promoting the welfare of the staff and students in the State College System.

M. J. McCaulley, Assistant Professor of Physics at Winona State, has been appointed a member of the Physics Advisory Committee of the Nuclear Research Institute Laboratories.

The committee will review the Physics activities in the Instructional Laboratories, including Nuclear Physics and the Spectroscopy courses. Its purpose will be to make recommendations for faculty workshops, faculty-student-measurer institutions, and new equipment that will be most useful to the educational community.

The Argonne National Laboratory is one of America's major Atomic Energy Research and Development establishments. It is located on a 3,000-acre site 67 miles southwest of Chicago. Argonne National Laboratory is operated for the Atomic Energy Commission by the University of Chicago.

**WCT TRACK TEAM YOUNG — Look Strong in Results**

Coach Keister said his track team is quite young this year, but he predicted that they will break at least 8 or 9 school records, especially in the relay races.

The track men this year are led by senior Capt. Tom Oehre, who runs both the 440 and 880 yard events. Tom's .5 mile time is 1:35.5, which is a school record. Coach Keister said: "Tom does a real good job of leading the others. He's the leader of the older men on the team, so the team looks up to him."

**THERE ARE THREE OTHER LEADERSHIP POSITIONS FOR THE WARRIORS: Don Arnold (Jr.), Don Rahaim (Sr.) and Bob McIntyre (Sr.)**

"The leaders are the core of our team, since we only have four returning men they have to help a lot," said Keister.

Both the 440 and 880 relay teams are made up of Bob McIntyre, Lee Zimmerman (Junior), Esteville J.C. (who is a Sophomore), Russ Jacobson (Fresh.) a sprinter, Dennis Murray (Fresh.) and Bill Oehre.

The leading steeplechase student, Al Gilman (Worth J. C.) is a half mile and one mile runner. Al has had his time on the track, he was not pushed, so he looks good this season. A mile run was 4:34. His .5 mile is 1:59. Mike Greenless (Soph.) also shows a lot of promise in the two events.

**WEIGHT ROOM**

Three other distance men are Sophomores, Larry Wehling (1, 3, and 4 mile), Romeo Cook (Fresh.) and Dave Oland (Fresh.).

The hurdlers for the Warriors this year are Alan Woylandt and Terry Suneson. They also are good prospects for this year's team. Tom Green and Curt Palmer do the pole vault and that is an area for the team.

Tom Anderson (Sr.), Mike Erdmann and Ray Lockwood (Soph.) throw the shot and the discus. Jim Thomas is the only man on the high jump and he should do well this year.

**COACHES SAY**

"If it can be expected from the team. They are young and can only improve. Coach Keister said: "They all deserve a lot this year, because they have to put up with a lot of things one is that they do not have a track to practice on. They have to share one. The boys also train hard; we run about 13 miles each night."

He also said that every week the team runs a mile for a check of progress and they drop 7 to 23 seconds off the time each week. Coach Keister then said: "We'll perform as much as we want to — we can."

The next meet will be this Saturday, April 13, at Mt. Vermon, Iowa, where there will be 12 teams participating.

**WAS KEATS THE BOB DYLAN?**

Who was the greatest of the English Romantic Poets—Byron, Shelley or Keats? This question has given rise to many campus discussions and no new stabbings. Let me try to find an answer.

First, Keats or The Lancashire Slugger, as he is commonly called. Keats' talent bloomed early. While still a schoolboy at St. Martin's he had his epic lines: *"If I am good I get an apple, If I don't I get a slap in the face."

From this distinguished beginning he went on to write another 50 million poems, an achievement as remarkable when you consider that he was only five feet tall! I mention this fact only to show that short size-longs never keep the true artist from creating. Byron, for example was tall. Shelley suffered from the same height and both killed people with their poetry.

Nor did they neglect their personal lives. Byron, a devil with the ladies, was a hero with the ladies, too. But Keats, in a man's world, was a great lover. He had his moment, as evidenced by these immortal lines:

*"I love to stay home with the missus and write, But I don't enjoy it half as much as dancing check to check to check to check."

While Byron fought in Greece, Shelley stayed in England, where he became a private companion to the Duke of Gloucester. Shelley was happy in his work, as we know from his classic poem, *Prometheus Unbound.* But Keats, his muse, was never in love with his work, and, of course, no matter how he tried he was never able to get a proper edge on the Poet's Rival's work. Keats was banished to Holy Goven, and then to the United States Marine Corps.

**PRE-DICTION**

All seasons will be dominated Monday evening by the annual track meet at 7:30 p.m. First, Keats (or The Louisville Slugger, as he is commonly called) Keats' talent bloomed early. While still a schoolboy at St. Martin's he had his epic lines: *"If I am good I get an apple, If I don't I get a slap in the face."

From his this distinguished beginning he went on to write another 50 million poems, an achievement as remarkable when you consider that he was only five feet tall! I mention this fact only to show that short size-longs never keep the true artist from creating. Byron, for example was tall. Shelley suffered from the same height and both killed people with their poetry.

Nor did they neglect their personal lives. Byron, a devil with the ladies, was a hero with the ladies, too. But Keats, in a man's world, was a great lover. He had his moment, as evidenced by these immortal lines:

*"I love to stay home with the missus and write, But I don't enjoy it half as much as dancing check to check to check to check."

While Byron fought in Greece, Shelley stayed in England, where he became a private companion to the Duke of Gloucester. Shelley was happy in his work, as we know from his classic poem, *Prometheus Unbound.* But Keats, his muse, was never in love with his work, and, of course, no matter how he tried he was never able to get a proper edge on the Poet's Rival's work. Keats was banished to Holy Goven, and then to the United States Marine Corps.
