III. Kirkendall speaks on morality

Kirkendall discussed the importance of establishing new concepts in morality and the need for clear definitions. The old notion of merely accepting a thesis is that the most moral decision is the one that creates “trust, confidence and integrity in relationships.” He believes that any action of a human being will have meaning for society. An individual is not isolated from the world.

Kirkendall further stated that “the white man will be in a position of dominance in the world if he is able to adapt the true, ancient and modern techniques and standards so that the world need not be governed by the white man.”

VIII. National Honor Society

Mary Anderson, a member of the editorial board of "The Winonan", is a member of the National Honor Society and has been awarded a scholarship for her contributions to the college.
A STUDENT COMMENTS in a Letter to the Editor this week: "The only other side he could succeed is to become atheistic. This would eliminate all those foolish and ridiculous letters to the Editor. This in itself would cause less controversy. This would also help the paper get its one-sided view totally in perspective.

We do not agree with any of these views, but how many sides of every issue should we support? We feel the fact that we print this student's letter (with which we do not necessarily agree)—speaks for itself. Rather than repeating correction, we would refer you to the editorial in the March 8 edition of the Winonaan.

WHEN WE STOP being one-sided (i.e., stop having opinions), we are free.
To the Editor:

IT'S GREAT to be a college student. Man, do you get an education. Not only do you learn that the pills float like cotton candy, you get a good, practical education, too. You say, how? Well, two weeks ago, I read an article by Mr. Frank Siebenaler, student at Winona State College. Last week I read another article by M/SGT. Gerald E. Banks, a student at Winona. You say, U.S. Army, oh yes, retired, also what did I learn? Well, this is what I learned.

First of all, I found out that I have a great deal of respect for Mr. Siebenaler, and at the same time, M/SGT. Gerald E. Banks, I think, gives me a funny pain. Why? I encourage you to read Mr. Siebenaler's letter. Then read the M/SGT. Banks's letter. Mr. Siebenaler's article states his opinions and ideas on a very important issue in the world today. And what does the M/SGT. Banks's letter say? Says it says a great many things, all of which, to use up to "Hey, you, let's gang up on Frank and get even with him for disagreeing with us."

Now I would like to address a question. How do you think the United States has benefited from Mr. Siebenaler and the M/SGT. Banks? I would like to see a paragraph on this issue. Mr. Siebenaler and the M/SGT. Banks are not the ones who are, I think, to blame for the situation. It's not that we are trying to create a free and democratic society, it's not that we are trying to show how he can belittle someone, it's not that we are showing the importance, that's your problem. You need to know so many things, to show how he can belittle someone, to show how the important principles and ideas of the Black; and that is not the way we were taught to live in a free and democratic society.
