Delegates share ideas at Tri-State Convention

WINONA STATE was host to 52 delegates from nine colleges and universities last week in the annual Tri-State Student Government Convention. The convention wound up with a business meeting Saturday, with Jamestown State College, Jamestown, N.D., being chosen as the site for next year’s convention. Kurt Skoblen, student body president at Jamestown, was chosen coordinator for the event.

Highlights of the three-day convention were the Friday and Saturday sessions on subjects ranging from student rights and student-faculty communication to big-name entertainment.

STUDENT RIGHTS was the second recurring topic in the discussion, as the students compared policies from the various schools present. For example, Valley City College disclosed that all women students must be in the dormitory by 11 p.m. on weekdays and that the hot water is turned off at 11:30 p.m. “If one can take showers, disturbing the other students,”

The Valley City representatives also stated that dormitory head residents “have the right to listen in over the intercom system to students in the privacy of their own rooms.”

Some of the colleges present brought out similar examples of situations on their campuses which are infringements of their rights. Consensual of college regulations, and room searches were also discussed. It was decided that each of the college student governments present should establish constant contact with representatives of American Civil Liberties Union in their own locality.

STUDENT APATHY, always a major topic of discussion at college conventions, was much discussed, as were student-faculty relations, with emphasis on attendance requirements at the different colleges.

Dr. Curtis Siemern, Winona State’s vice president in charge of Student Affairs, was the principal speaker at Friday evening’s banquet. He spoke on the student’s role in the university today.

Ray Gunderson and Joy Pretzof of WSC were coclairmen of the convention.

“What is a bummer?”

Serious destructive effects and complications may result from the use of LSD “because the critical functions of the ego may be wiped out completely,” according to Dr. Sidney Cohen, a leading authority on LSD, who spoke in Sumner Auditorium Monday night.

Dr. Cohen, an associate professor of medicine at UCLA, chief of the psychiatry service at Wadsworth V.A. Hospital in Los Angeles, and author of recent books on drugs, talked about the history of drugs and discussed complications and effects of LSD.

Dr. Cohen said LSD has very valuable uses in medical research if it is given to the right person under the right circumstances. Unfortunately the people who have been taking LSD are the very people who should not take it. These people generally feel insecure and inadequate and are attracted to LSD as a solution to their problems.

As a result many complications and drug effects are associated with LSD which “become enormously important,” and the grandiose stage under which a person has tremendous feelings of power and the critical functions of the ego may be wiped out. In such a stage when radical ideas enter a person’s mind, there are no counterebalancing elements. The most common grandiose notion is that of being able to fly.

In such a stage when radical ideas enter a person’s mind, there are no counterebalancing elements. The most common grandiose notion is that of being able to fly.

Another complication is the flashback which may occur weeks or even months after the last LSD trip. There are no psychoanalysts of LSD left; this is a channeling phenomenon in which a person slips into either a blissful or overwhealing horrifying state.

The Valley City representatives also stated that dormitory head residents “have the right to listen in over the intercom system to students in the privacy of their own rooms.”

Student Senate

11 run for Sophomore offices

by Stephen P. Johnson

Elections were held yesterday for Sophomore offices. The candidates were: Steve Halibur, Dennis Murray, and Diane Rippel, junior; R. L. Hansen, veteran; Mr. Siebenaler, president; Lee Bohan and John Edwards, vice presidents; Cheryl Scearbe, secretary; Cathy Clark, Alice Rovall, and Pat Bruce, class officers; and Charles Red- ing, treasurer.

The Senate moved to adjourn for the summer, as the College Board to raise the Student Senate quorum was passed. Junior class officers will be elected next week. Students with $8.00 credits will be permitted to vote.

The pending questionnaire on campus was presented and tabled until next week, pending a meeting with the Psychology department to discuss the usefulness of such a questionnaire. This is the problem which the Senate has been trying to get at for the past few meetings. Senator Hansen stated that class standing was not the only way someone could have been asked to have an obsession against Negro students. He said that this could be done as individuals, and not as a whole class. Senator Hansen feels that the class standing should be considered as a whole, and not just as an individual case.

In conclusion the Senator stated that the students should be aware of the problems that arise from these issues. He also stated that the students should be more aware of the fact that these problems can be solved.

Junior states race problem originates in provincial ideas

To the Editor, and to Mr. R. L. Hansen:

UNFORTUNATELY, I did not see your article until last week's reprint in the Winonan. Unfortu- nately, too, I could not locate your name in the WSC student di- rectory, for I much wanted to find out your home town. But I shall look for you there, if you are in Minnesota for your

views and opinions are definitely "small town."

Living in the Chicago-Gary area for the past 13 years, I have probably known more Negroes than you have ever seen. You refer in your letter to a "class strain." You say that this is a question of "class," but it is not. This is the problem that Senator Hansen seems to miss. It is not a question of class, but rather a question of race.

Senator Hansen stated that class standing was not the only way someone could have been asked to have an obsession against Negro students. He said that this could be done as individuals, and not as a whole class. Senator Hansen feels that the class standing should be considered as a whole, and not just as an individual case.

When the Senate meets again next week, the Students will be forced to face the facts, and to come to a conclusion as to what action they should take. This is the problem that Senator Hansen seems to miss. It is not a question of class, but rather a question of race.

In conclusion the Senator stated that the students should be aware of the problems that arise from these issues. He also stated that the students should be more aware of the fact that these problems can be solved.

Junior states race problem originates in provincial ideas

Alumni invite members to annual dinner meeting

ALL ALUMNI and graduating seniors are invited to the Annual Alumni Dinner and Meeting, to be held June 1 at 6:30 p.m. in Kryzsko Commons.

The dinner will be preceded by the formal dedication of the Winona State College sign on the corner of Fourth and Lafayette. Robert Clayton, president of the Alumni Association, is arranging the dedication.

Honorled at the dinner will be the class of 1918. Miss Bartoch is in charge of the reunion. A sixteen-person committee has been organized, and return the above form to the Student Senate.

Sorority pledges 12 new members

Delta Zeta has pledged 12 new girls into the sorority. Cheryl Linneman, Colby Cee, Vicki Brinkley, Alice Green, Sharon Greenwood, Nellie Crumial, Patricia Kennedy, Alice Koval, Mary Landof, Nancy Olson, Carol Pretzel and Mary Zimmerman are the new pledges.

Cheerleaders

Varsity cheerleaders for the 1968-69 school year were chosen: May 3. Pati Brown, Cote Hingvenience, Julie Strock, Barb Veitkatz, and Susan Williams were selected from try-out participants.

Effects of LSD differ

In conclusion, Cohen stated that current uses of LSD have improved research, but we must remember that it has “something to do” with the question of LSD and its uses.

GOLFERS STILL UNDEFEATED

THE GOLFERS are still undefeated in this year's play. Monday they defeated the Manitou State Indians 16-8 in conference action.

Terry Nelson led the field with a 74, while John Walski, Tim Bargen and Stoffel were the only others.

Bob Goldstrand had a fine day. Greg Stezenski went the distance as he drove the ball over the plate and drove in Dewyre. The bases were then cleared once more — this time by Chuck Goerz as he drove the ball over the right field fence. The Warriors are in St. Cloud this weekend with one game today and two Saturday. Next week-end the Warriors finish their season at home with Manitou in a three game stand.

WIC TENNIS TEAM LOSSES 6-3

TO U. OF M. B. SQUAD

THE WARRIORS lost their fourth match of the year to a tough U. of M. b squad Friday. The only two Warriors to win their single matches were Rich Pett, who defeated Mike Lamber- ton 6-1, 6-4, and Bob Hartwich who downed Dick Johnson 6-4, 8-6.

The doubles team of Von- borg and Stoffel were the only Warriors to win. They defeated the team of Hiller and Schwartz 6-4, 1-6.

The next meet for the Notters is Saturday, May 11 as they meet Loras College, there.

Judson initiates science society at Winona State

Dr. Lyman Judson represented Winona State at a meeting of Sigma Xi, the national honorary science society, at Wisconsin State University in La Crosse recently.

Dr. Judson met with the society members for the purpose of founding a Sigma Xi chapter open to qualified faculty and students of Winona State, St. Mary's College, the College of St. Teresa, Viterbo College and Wisconsin State University.

Judson is elected on excellence in scholarship, original research and/or publication in professional journals and in the highest honor available to individuals in the field of science.

Dr. Judson, who was elected to Sigma Xi at the University of Wisconsin on the basis of his original research on the physical-electrochemical properties of nerve conduction and for his Voice Science textbook and contributions of scientific journal articles, requested that interested faculty members notify him.

The charter banquet for the new group is tentatively scheduled for late May.

All You Need is Love

After all, it's what makes the world go round in that wonderful, once-in-a-lifetime way. The engagement ring you choose says so much about your love...and should it be a Keepsake, the word is "perfect." A brilliant diamond of fine color and modern cut guaranteed perfect for replacement assurance! Just look for the mark Keepsake, in the ring and on the tag at your Keepsake Jewelers store. He's in the yellow pages under "Jewelers."
