## 1,000 Questioned in Estes Investigation

By G. MILTON KELLY  
WASHINGTON (AP) — Senate investigators disclosed today their agents have questioned more than 1,000 persons in the widening Billie Sol Estes case.

And, said the informant, many more will be questioned before the Senate investigations subcommittee is ready to start its hearings into whether Washington influence helped Estes build his rickety business empire.

The report came after President Kennedy related at a news conference Wednesday that the FBI has moved into the investigation of the mysterious death of Henry Marshall, a Texas farm official, shot to death a year ago while checking into Estes' dealings under the government cotton program.

The FBI declined to comment on the unusual circumstance of its entry into what normally would be a local police case.

Last June, when Marshall was found dead, shot five times, his death was written off as suicide. But under the pressure of the Estes investigation, his body was exhumed Tuesday for an autopsy in Franklin, Tex. Later the county medical examiner told county grand jurors his preliminary finding was murder.

The examiner, Dr. J. A. Jachimczyk, was expected to make his final report today.

The FBI also had no comment on the case of Howard Pratt, 31, Chicago office manager of Commercial Solvents Corp., found dead in his car Wednesday of carbon monoxide poisoning. The company's financial relations with Estes, who bought great quantities of liquid fertilizer from the chemical firm, are under investigation.

The Senate subcommittee, headed by Sen. John L. McClellan, D-Ark., said it had no evidence of any link between Estes and Pratt.

but would look into the death because of a cryptic note found in Pratt's car which said in part "the burden of guilt is on my shoulders."

Investigators said they doubted Pratt had any connection with Estes.

Meanwhile Rep. H. Carl Andersen, R-Minn., became the second Congress member to volunteer publicly to testify before McClellan's subcommittee after his name had been linked with Estes.

Sen. Ralph W. Yarborough, D-Tex., previously had announced he was offering to testify. He acknowledged accepting about \$7,500 from Estes in campaign contributions and to help finance the senator's radio broadcasts to constituents.

Andersen has said he sold Estes \$4,000 worth of stock in a Washington state coal mine owned partly by the congressman. Andersen said the FBI has checked his records and "I am sure they will find that everything is in proper order."

McClellan has stated that any Congress member whose name is mentioned in the hearings will have a chance to become a witness.

A House subcommittee headed by Rep. L. H. Fountain, D-N.C., plans to start hearings Monday on the Estes case, with political controversy already swirling about its ears.

In ceremonies at the Waldorf Astoria Hotel, the committee also presented awards in various categories to nine other persons, including:

Actor Robert Morse, "Stage Father of the Year"; entertainer Arthur Godfrey, "Radio Father of the Year"; actors E. G. Marshall and Robert Reed, "TV Father and Son of the Year"; attorney Louis Nizer, "Literary Father of the Year."

Actress Olivia de Havilland, "Woman of the Year"; boxing champion Gene Fullmer, "Sports Father of the Year"; conductor and composer Meredith Willson, winner of "Humanitarian Award"; entertainer Don Mahoney, "Blind Father of the Year"; and printer Jack Markowitz, "Worker Father of the Year."

### No Compromise On Medicare, Kennedy Says

WASHINGTON (AP)—President Kennedy has made his no-compromise stand on medical care for the aged more emphatic than ever. He insists on weaving it into the Social Security system. He says the public wants it that way.

Firing another broadside at the American Medical Association Wednesday, Kennedy repeated his prediction that Congress will adopt his plan this year if it reaches the House and Senate floors. And he contended that despite AMA opposition, "more and more doctors are supporting it."

Kennedy heatedly attacked the AMA and Republican critics of his medical care program at his news conference—a conference dominated by his strong views on the big legislative controversy of 1962. The questioning elicited these comments and charges:

Kennedy said he does not plan to follow up his current proposal for payment of hospital, nursing home and outpatient bills with a plan to cover doctors' bills. He accused critics of talking through both sides of the mouth. They criticized it one day, he said, for "going too far in limiting the relationship between doctors and their patients, and on another day attacked it for not including doctors."

AMA SPOKESMEN have denounced the plan as "a cruel hoax." Kennedy said the association used the same words in unsuccessfully opposing Social Security in the 1930s. The AMA may not support this bill, he said, "but I think the American people will, and I think more and more doctors are supporting it."

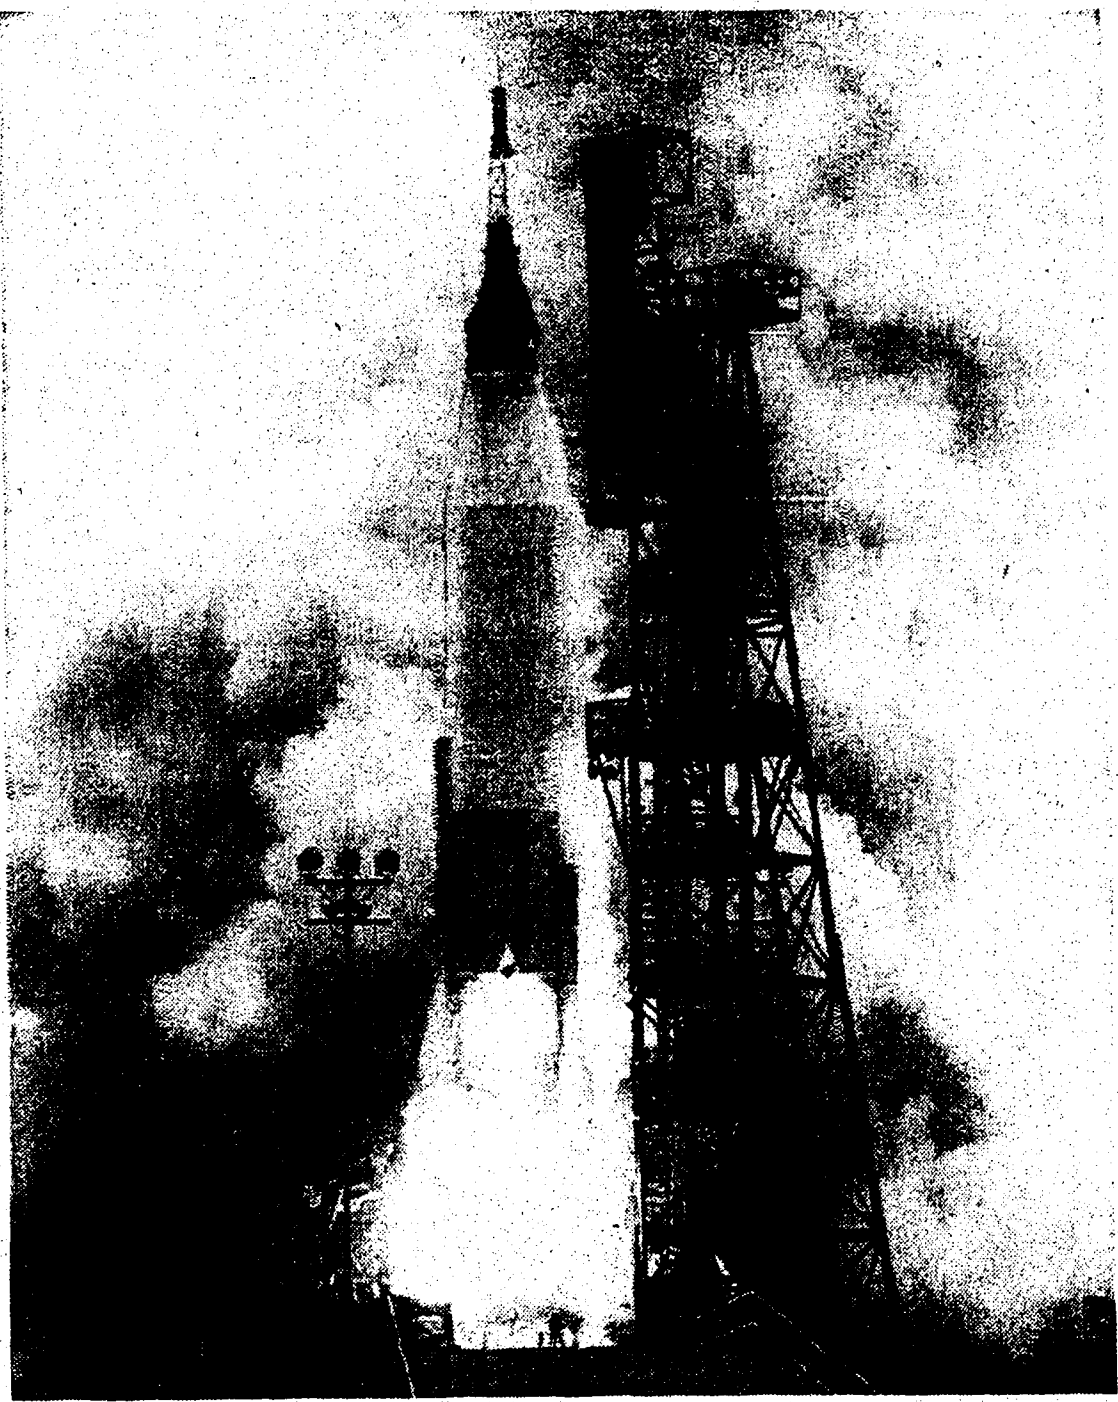

Would he accept a compromise that omitted Social Security financing?

No, he replied. Social Security is the heart of the bill.

### Submarine Edison Fires Two Polariss Missiles

CAPE CANAVERAL, Fla. (AP)—The nuclear submarine Thomas Edison fired two Polariss missiles from below the Atlantic surface Wednesday. Both traveled more than 1,500 miles and both shots were declared successful.

The firings, about two hours apart, were the first for the Edison.

### Plane Finds Flier on Raft Near Capsule

By HOWARD BENEDICT  
CAPE CANAVERAL, Fla. (AP)—Astronaut Malcolm Scott Carpenter successfully orbited the earth three times today and then—after a harrowing 35 minutes when it was not known whether he had survived the re-entry—he was sighted sitting in a life raft in the Atlantic Ocean.

A Navy P2V Neptune bomber flashed the word that Carpenter apparently was all right after spotting him in the raft some 135 miles northeast of Puerto Rico.

Floating nearby was the Aurora 7 spacecraft which had carried him three times around the globe in 4 hours and 56 minutes at 17,532 miles an hour.

The capsule overshot its intended

### Kennedy Watches

WASHINGTON (AP)—President Kennedy looked on by television today as astronaut Malcolm Scott Carpenter became America's second man in orbit.

Kennedy saw Carpenter's liftoff on a television set in the bedroom of his living quarters in the executive mansion before walking over to his office.

ed landing area by 200 miles and Carpenter apparently decided to leave it and wait out recovery in the one-man inflatable life raft which he carried aboard the capsule.

The Neptune reported it was circling the raft and said that Carpenter was "sitting upward." There was no immediate report on his condition, but the plane said he appeared to be okay.

When the Navy plane first reported sighting the 37-year-old Navy lieutenant commander in the sea, an obviously relieved and happy Lt. Col. John A. Powers, Mercury spokesman, reported to newsmen.

"A Navy P2V Neptune has reported sighting the spacecraft floating in the landing area. Along side it was a life raft, and sitting in it was a gentleman named Carpenter."

An Air Force air rescue service plane reached the area at 1:40 p.m. (EST) and prepared to drop two paramedics into the water to assist Carpenter if necessary.

Meanwhile, two twin jet helicopters were dispatched from the aircraft carrier Intrepid, which was stationed in the intended drop zone 200 miles away.

The Virgin Islands Coast Guard said Carpenter had no apparent problems.

"He waved as the plane passed over," the Coast Guard said.

Carpenter performed his triple circuit of the globe in a masterful display of cool courage.

Rapid fuel consumption in his Aurora 7 spaceship caused great concern during his second orbit. Officials detected fast consumption of the fuel shortly after the second orbit began and told Carpenter to begin using his manual control system at that time to

## Glenn's Father 'Dad of Year'

NEW YORK (AP)—A man acclaimed for doing a good job above the earth today was honored for doing a good job on it. Marine Lt. Col. John H. Glenn Jr. was named the nation's "Father of the Year."

Although Glenn, as the first American to orbit this planet, has been as far away from his family as any man ever has been, he was rated tops as a family man by the National Father's Day Committee.

It also praised his courageous performance in his orbital flight last Feb. 20, and "his modesty in insisting that the honors heaped upon him belong to the space program itself and not to him personally."

The committee cited Glenn's "rare gifts of intellect, charm and daring" and called him "America's newest hero in its quest for peace and universal freedom."

He and his wife, Anna

Margaret, have two children, John David, 14, and Carolyn Ann, 13.

In ceremonies at the Waldorf Astoria Hotel, the committee also presented awards in various categories to nine other persons, including:

Actor Robert Morse, "Stage Father of the Year"; entertainer Arthur Godfrey, "Radio Father of the Year"; actors E. G. Marshall and Robert Reed, "TV Father and Son of the Year"; attorney Louis Nizer, "Literary Father of the Year."

Actress Olivia de Havilland, "Woman of the Year"; boxing champion Gene Fullmer, "Sports Father of the Year"; conductor and composer Meredith Willson, winner of "Humanitarian Award"; entertainer Don Mahoney, "Blind Father of the Year"; and printer Jack Markowitz, "Worker Father of the Year."

### One Body Still Missing in Plane Crash

UNIONVILLE, Mo. (AP)—One body was still missing today in the fatal crash of a Continental Airlines jet plane. The other 44 bodies were in an improvised morgue here.

Search for the missing, unidentified victim and for the cause of the accident that tore the big plane apart in the air over southern Iowa continued with teams of federal investigators on hand.

The \$5½ million Boeing 707 plane left a trail of wreckage for 60 miles Tuesday night before its main fuselage plummeted into a Missouri farm.

The plane had been advised of thunderstorm turbulence as it neared Kansas City on its flight from Chicago.

Officials hoped that the taped flight record, salvaged from what was left of the main fuselage and sent to Kansas City, would afford some clue.

Federal Aviation Administrator Najeeb Halaby said there was no shred of evidence that the airliner had collided with a small plane or had been ripped apart by a bomb. He also said there was nothing to show that it may have been caught in a tornado.

The only person who might have been able to tell what had happened died in a hospital soon after he was removed alive. He was one of the 37 passengers, a Japanese-born engineer.

### Wife Sees Takeoff at Canaveral

CAPE CANAVERAL, Fla. (AP)—Rene Carpenter was reported somewhere on the beach today sharing the moment unobserved among other watchers when her husband, astronaut Malcolm Scott Carpenter, was hurled into orbital flight.

Mrs. Carpenter is the first of the astronauts' wives actually to witness a blastoff putting her husband into flight. Her whereabouts remained a mystery but it was reported she and her four children watched only a few miles from the launching pad.

Lt. Col. John A. Powers, public affairs officer of the National Aeronautics and Space Administration, said Wednesday that Mrs. Carpenter had chosen to watch as a private citizen and preferred seclusion.

### Titan Missile Blows Up at California Base

CHICO, Calif. (AP)—A Titan missile was destroyed in a blast today as its silo exploded at the missile complex near Chico.

Twenty-four persons were treated for smoke inhalation, the Air Force announced.

There were no fatalities. The other two missiles and silos in the complex escaped damage, as did the control center, the announcement stated.

The explosion occurred as contractors were running a test before turning the base over to the Air Force.

The Air Force spokesman declined to say what caused the blast or to comment on whether it resulted while test fueling of the Titan missile was under way.

The blast was felt in Chico, eight miles south of the nearly completed Titan base. The missile installation has not yet been placed in operation.

## City Offering Day Camp for 9-12 Bracket

All the fun and skills of camping except sleeping out are provided local youngsters in the 9-12 age range by the Park-Recreation Board's day camp program.

The sessions will begin June 11 and continue to Aug. 3 at Holinger Lodge on the south shore of Lake Winona. Daily hours are 8 a.m. to 5 p.m., Monday through Friday.

The camping season is divided into eight weekly segments with a quota of 15 campers assigned to each. The park-recreation office reports that 41 of a possible total of 120 registrations already have been received and urged parents wishing to enroll children to do so soon, at the City Hall office.

Camp director will be Ronald Buck, at present a Winona State College student. Buck is married and has had experience supervising groups in nature and camp craft studies.

Transportation is furnished the youngsters according to schedules given enrollees at the time of registration. Arriving shortly after 8 a.m. at the campsite each day, the youngsters carry on a complete program of outdoor activities, such as cooking meals, hiking, fishing and nature studies. They return at 5 p.m. and spend the night at their homes.

Comfortable clothes are the order of the day. Jeans are favored as are plain shoes and a jacket should be taken in the event of a sudden shower. It's advised. A folding pocket knife and a towel should be taken and compasses, cameras and field glasses also are useful but not required.

Campers are instructed to bring lunches but milk is provided, its cost being covered by the tuition fee of \$1.50 charged each child. Campers plan their own menus in advance and do their own cooking on one day during the camp period.

## Rain Predicted For Weekend; 75-80 Friday

Pleasant weather is forecast for the Winona area tonight and Friday but occasional showers and thunderstorms will be back for the weekend.

It'll be fair tonight with the thermometer dropping to 50-55. Friday, says the weatherman, will see increasing cloudiness and a high of 75-80. The outlook for Saturday is for rain and cooler.

AFTER 13 of an inch of rain in two light showers Wednesday, clearing weather set it. The thermometer rose to 66 in the afternoon and dropped to 53 during the night. By noon the reading was up to 68.

They contrasted with a high of 77 a year ago today and a low of 44. All-time high for May 24 was 93 in 1928 and the low 34 in 1925. Mean temperature for the past 24 hours was 59. Normal for this day is 62.

Rain was general over much of the state Wednesday with the heaviest amount, 62, recorded at Duluth. Bemidji reported 29 of an inch and International Falls 17, where the lowest reading for the night was 47.

Rochester posted a Wednesday high of 62 and a morning low of 52 with .06 in precipitation. At La Crosse the figures were 65, 55 and .05. Most state points reported clear skies today.

Windy weather, howling across WISCONSIN at speeds up to 40 miles an hour, began diminishing today.

The southwesterly winds averaged 25 miles per hour during the day Wednesday, but they began to decrease slightly as they shifted more to the north and northwest early this morning.

Partly cloudy skies brought rain to most sections of the state Wednesday, with amounts ranging from .62 of an inch at Superior to .01 at Green Bay.

Milwaukee hit the high temperature of 74 degrees during the day and Superior was the coolest spot with 58.

MINIMUMS early today ranged from 47 at Superior to 59 at Milwaukee and Beloit.

Presidio, Tex., set the national high of 103 and Ely, Nev., was the coolest community in the nation early today with 30.

## Canton Straw Ballot Favors School Addition

CANTON, Minn. (Special)—Following a town hall type meeting at Canton school Wednesday night, 141 voters of Canton school district favored building an addition, 6 wanted to stay as they are, and 5 would join another district.

It was a straw vote; a formal vote on financing is to follow.

Superintendent O. E. Johnson, discussing present inadequacies to accommodate the 282 pupils, said plans drawn for the new building would include a new auditorium-gym and would provide for new and large science and home economics departments and farm shop. Some conversion in the present building would provide additional classrooms.

Cost of the proposed project is estimated at \$240,000. Financing plans were discussed by Clerk Kenneth Turner. He said the assessed valuation of the district is \$460,383. It includes the village of Canton and four rural schools which have consolidated with the village.

Robert Miller reviewed a meeting with the state Department of Education when board plans for expansion were approved.

There are four more rural schools in the area which are prospective additions to Canton District, Johnson said, and some students from Winneshiek District, Iowa, attend here. Plans to organize an area high school in Winneshiek area are in litigation brought by residents who claim "illegality in the election in which a bond issue was passed for the project."

Flad-Smith & Associates, Winona, are architects for the district. Verle Flad, board chairman, presided at the meeting.

## PORTION OF SYSTEM

## Cable Shorts; Fire Alarm System Out

Emergency action to restore fire alarm service disrupted this week in part by a short-circuit in the 60-year-old underground cable that constitutes the main artery in the city's alarm box network was authorized Wednesday by the Board of Fire & Police Commissioners.

Fire Chief John L. Steadman told commissioners that one circuit in the long deteriorating system went out Monday when the short developed in the cable running from the Central Station at East 3rd and Laird streets along 3rd Street to Huff.

THE CHIEF said that the trouble had been localized generally in an area between Market and Walnut streets. The grounding of the cable, the chief said, knocked out all service in the West End, including alarm boxes in the vicinity of Winona General Hospital and large industrial plants on West 2nd and 3rd streets.

Steadman said that there is no replacement cable available here for limited emergency repairs and the only thing that can be done to restore service is to replace the entire length of underground cable.

He estimated the cost of this at approximately \$2,000. Of this amount cost of the cable will amount to about \$1,700 and the

remainder represents labor costs for the employment of off-duty firefighters to assist the alarm operator, C. O. Huff, on the project.

COMMISSIONERS agreed that restoration of service as soon as possible was essential and a resolution authorizing the purchase of new cable without a call for bids was drafted.

The board is authorized to make such purchases in emergencies with the approval of the City Council. Council members immediately were called by telephone and informed of the situation. Board Secretary Roy G. Wildgrube later reported that seven of the alarm boxes contacted had said they'd approve the resolution when it's submitted at the next meeting.

Steadman suggested that until the cable can be replaced emergency work be done to restore service in the hospital areas by cutting out some of the remaining alarm boxes in some residential districts. The board approved the plan and Steadman said work would begin today.

THE OUTAGE occurred at a time when the board had been considering extensive repairs or replacement of the existing telegraph alarm reporting system. During the past two months representatives of the Gamewell Co.,

## Police Getting New Patches Showing Boat

Winona's uniformed policemen soon will be wearing shoulder patches calling attention to the city's historic attachment to the Mississippi River.

The purchase of 220 of the new patches showing an outline of a ship's wheel framing a paddle wheel steamer on the river was approved Wednesday by the Board of Fire & Police Commissioners.

The steamer is set against a background of sky blue while the lettering "POLICE" and the outline of the wheel are in gold on the patch formed in the shape of a shield.

Each patrolman will receive six of the patches for his uniforms.

Specifications were ordered preparatory to an advertisement for bids for a new camera to be used in the police department. Chief of Police George H. Savard said that the new camera, estimated to cost about \$490, will replace a 20-year-old one that does not function properly.

The chief also was authorized to buy a new fingerprint camera costing about \$140 to replace a 30-year-old unit.

The police department pistol team was authorized to participate in three Southeastern Minnesota Police and Peace Officer Association pistol meets out of the city this summer and the state shoot at Austin.

Bills for the police department amounting to \$2,131.05 and for the fire department, \$778.34, were approved for payment.

## \$1,500 Damage To Car; Driver Slightly Hurt

A Rochester man was charged with careless driving following an accident near Lewiston early this morning.

Sheriff's deputies said that Gerald C. Modlin, 21, was driving east on Highway 14 about 1 1/2 miles east of Lewiston at 5:45 a.m. As he passed a car he lost control of his own 1960 model car and skidded 625 feet on the right shoulder of the road. His car then slid broadside across the highway for 136 feet where it struck a bank on the left side of the road. It bounced off and came to rest on its top 75 feet from the point at which it had struck the bank.

Modlin was taken to Winona General Hospital by a friend, Leon Wolfe, also of Rochester. After emergency treatment for cuts and bruises, Modlin was released. He was alone in the car.

Sheriff's deputies estimated that his car had received \$1,500 damage. Modlin pleaded guilty before Goodview Justice Lewis Albert this morning. He paid a \$25 fine and \$5 costs.

## Boathouse Found Adrift on River

Missing a boathouse, maybe even with a boat in it?

Officers Lyle Lattman and Richard Braithwaite spotted a boathouse drifting on the Mississippi River near Whittaker's Marina about 3 p.m. Wednesday. When it became lodged in willows on the Wisconsin shore, they took the police boat and towed it to shore, where it tied up.

The frame quonset type has white ends and a green roof. A plastic water scooter appears to be protruding from the boathouse. It's padlocked and officers weren't able to determine whether there's a boat in it.

## AT SENIOR HIGH

## Top Students Given Awards

Awards in recognition of academic achievements were presented Wednesday at Winona Senior High School students at an assembly in the high school auditorium this morning.

Today's Individual awards program was one of three recognition assemblies scheduled at the close of the current school year.

Friday group awards for participation in music, athletics, forensics and publications will be announced and scholarship winners will be introduced Monday afternoon.

## Bids Invited On Post Office Construction

Local contractors have been invited to submit bids for construction of the new Winona post office to Wilfred J. Riopelle, president, U. S. Investment Corp., 8817 W. Lynx Ave., Milwaukee 18.

Riopelle told the Daily News his firm would soon open bids and award contracts so the building would be ready for occupancy this year. The new post office will be built at a Central Park site covering 65,000 square feet. That's the north 220 feet of the park. This will leave 80 feet of the park in the south side of the sidewalk on the south (West Broadway) side.

U. S. Investment Corp. was low bidder last August to build and lease the building to the government. The firm's annual rental bid for the basic 20-year term of the lease is about \$41,280.

The building, which will have brick facing on all sides, will be constructed of a new type of steel framing system. Architects are Rasche-Paschke, Inc., 217 W. Wisconsin Ave., Waukegan, Wis. The firm has done much work in post-office building design.

"It is the intention of our company to use as many local contractors and sub-contractors as possible," Riopelle said. "Anyone desiring information may write directly to us here in Milwaukee."

## Thoughts at Random— From Editor's Notebook

SOMETHING finally is being done about bringing tourists into the scenic Winona-La Crosse region of the Upper Mississippi River Valley instead of efforts merely to get them to go through here on their way to the northern lakes country.

And why shouldn't we bring them in—and urge them to spend their entire vacation here? We have the finest scenery in North America, our fishing cannot be excelled anywhere in the Upper Midwest and accommodations—good hotels, motels and eating establishments—are as good as they come in most of the resort areas of the world—and better than many.

UNDER A PLAN announced this week, the Winona Travel Agency and Goli Travel Service of La Crosse, cooperating with the Milwaukee Railroad, will operate regular tours into this area from the Twin Cities, Milwaukee, Madison and Chicago. If they are successful—and there's no reason to believe they won't be—the plan may be expanded further next year to involve airlines which would bring visitors from all parts of the United States.

The "package" deal this year includes a trip on the Mississippi River out of the Port of Winona with lockage through the Winona Dam; a visit to the Riverboat Museum in the Steamer Julius C. Wilkie in Levee Park; a bus ride on the "Ridge Road" through the La Crosse apple country; overnight at the new Holiday Inn on the La Crosse-La Crosse dike road; a visit to Granddaddy Bluff at La Crosse and lunch at the Maple Grove Country Club at West Salem, 12 miles east of La Crosse. Visitors would come to Winona and leave from La Crosse via the Milwaukee Railroad's Hiawatha streamliners.

NOT ONLY is the whole project encouraging as to its potential, but it is a step toward more and better cooperation between Winona and La Crosse in promoting this section of the beautiful Hiawatha Valley as suggested in a guest editorial in this column not long ago by the editor of the La Crosse Tribune.

He went even further and proposed that private enterprise undertake a motorboat shuttle service between Winona and La Crosse marinas to show off to best advantage the combined water and bluff scenery in these environs and fulfill the first request of visitors who invariably ask, "How do we go about taking a ride on the Mississippi?"

We have said frequently that once this magnificent area is "discovered," we won't be able to accommodate the throngs—and perhaps the tour service announced this week is just the type of project needed to kick it off to astounding heights.

WHILE WE'RE talking about tourism, let's not overlook the fact that a year ago the National Association of Travel Organizations selected U. S. Highway 61 through the Hiawatha Valley and on up along the North Shore of Lake Superior as the second most scenic drive in the United States.

World travelers proclaim the upper Mississippi, particularly in the La Crosse-Winona-Wabasha-Lake City sector, more attractive than the Rhine and Danube river valleys and equally as beautiful as the widely publicized Palisades of the Hudson River north of New York.

ANOTHER of our favorite subjects is modernization of our downtown business district. Experts have warned repeatedly that unless the downtown areas of our cities are made attractive and inviting to shoppers, business is going to go elsewhere. This trend will hit Winona merchants and property owners where it hurts most—in the pocketbook.

Such a modernization project to be successful, however, requires the cooperation of all. Not only the owners of businesses and business property—but the city government as well.

We have long advocated that the gingerbread and upper story trimming of many of our buildings be eliminated, that our "1890 look" be wiped out, that the upper stories be given new fronts or at least a coat of paint to take away their grimy appearance.

MANY BUILDINGS have been modernized and more are under way—but a recent case best illustrates our point about cooperation:

A downtown store was purchased by a development firm which remodeled the interior into an attractive and inviting suite of offices and added a modern tile front. Fine—this is what must be done if our downtown is to keep pace with neighboring communities and shopping centers.

But here's the catch: Before the project was completed, the new owners received notice from the city assessor politely announcing that the assessed valuation of the building had increased 50 percent. In other words, a 50 percent boost in taxes!

CITY GOVERNMENTS constantly need more money to operate—and costs are rising steadily. No downtown business wants to be a burden on other taxpayers and most businessmen are happy to pay their fair share of city taxes. But when someone finally does invest in a badly needed improvement or development—and the taxes are kicked up 50 percent overnight—it doesn't lend much

## Washington Calling

# CIA Continuing Rapid Growth

By MARQUIS CHILDS

WASHINGTON—This is an anniversary most of us would like to forget. It was just two years ago that President Eisenhower returned from Paris after being subjected by Premier Khrushchev to the violent and humiliating attack that blew up the long-awaited summit meeting.

That was the aftermath of the shooting down of the U-2 espionage plane 1,300 miles inside the Soviet Union. And the disaster to the U-2, with the capture of the pilot, Francis Gary Powers, set in motion a chain of consequences only dimly understood in the two years that have passed.

Ever since World War II a mysterious element called "intelligence" has figured in American policy decisions. A huge intelligence apparatus has come into being. While part of this apparatus is exposed to public view, as in the big headquarters that the Central Intelligence Agency has built on the Potomac River near Washington, the mysterious reports of the CIA and military intelligence are always shrouded in secrecy.

Despite efforts to cut it back and coordinate it on the military side, there is a strong suspicion that the intelligence tail has more often than not wagged the policy dog. A look backward at intelligence evaluations on which presumably major decisions have been based raises substantial doubt as to whether this overbalancing influence—formed on information always denied to the public and in certain instances even to officials of the government—is wise.

THE MARGIN of error seems always to have been on the optimistic side. This goes from the estimate of when the Soviet Union would obtain the atomic bomb, a misjudgment of anywhere from four to 20 years, depending on the intelligence source, to the Cuban fiasco and the informed conclusion that the landing of 1,200 Cuban patriots at the Bay of Pigs would touch off a successful uprising against Fidel Castro.

It certainly covers the latest events in Southeast Asia. Largely through the machinations of the CIA, a "strong man," Phoumi Nosavan, was put in power in Laos. He has proved to be strong chiefly in pressing very large demands on the United States. As recently as a year ago or less military intelligence was touting the Royal Lao Army as an effective military force. While disillusion seems to have set in, there is no reason to wonder whether anyone was prepared for the flight from Nam Tha led by the Royal Laoian generals.

The answer of the CIA is that their successes must necessarily be kept secret while their failures are advertised to the world. But, if the successes cannot be known, surely something can be learned from the disasters.

encouragement to future projects of similar nature.

Seems that something could or should be worked out between the city government and those individuals or firms willing to modernize, whereby a tax break of some sort would foster development of a more modern and attractive downtown area.

For the time is coming when people will not endure sound teaching, but having itching ears they will accumulate for themselves to suit their own likings. II Timothy 4:13.

## 'Bah! Stars Are Seen Only Under Cover Of Darkness!'

## THE WASHINGTON MERRY-GO-ROUND

# Investigation Softened In Exchange for Votes

By DREW PEARSON

WASHINGTON—When 36-year-old Robert F. Kennedy slapped an indictment on his old arch-enemy, 49-year-old Jimmy Hoffa, the other day, he omitted one interesting political fact.

What was given the public was the charge that Mrs. Josephine Poszywak Hoffa and Mrs. Alice Brennan, widow of the late No. 2 teamster in Detroit, had inherited a trucking firm, called Test Fleet, used for transporting passenger cars from Detroit all over the country.

Earlier charges had been made that the wives of the two teamster officials inherited this profitable company after Hoffa had settled a Flint, Mich., strike contrary to the wishes of his striking local. The Test Fleet company had netted the two wives \$242,273 before taxes in nine years.

All the above was made public. What wasn't made public was the following political fact, not germane to the legal case, but nevertheless interesting:

When the House Government Operations Committee went up to Michigan during the Ike administration to start probing the manner in which Mrs. Hoffa and Mrs. Brennan acquired the Test Fleet Corp., suddenly the committee was stopped dead in its tracks. It was a Republican committee, and it was stopped by none other than the top Republican of Michigan, the astute and charming Postmaster General Arthur Summerfield. The hierarchy of the Republican party in Michigan just didn't want Hoffa and the teamsters investigated.

This brought protests from another Michigan Republican, Rep. Clare Hoffman, who publicly declared: "The committee had barely entered upon its investigation when apparently for political reasons it was liquidated."

"The pressure came from so high," said Rep. Wint Smith, Kansas, another Republican, "that I can't even discuss it." The deal he couldn't discuss was that the teamsters, in return for calling off the probe of Jimmy Hoffa and his wife, were to support Republican Sen. Homer Ferguson. This they dutifully did. But Homer lost anyway—to Sen. Pat McNamara.

That's how politics sometimes operates.

The John Birchites are coming out in the open with some rough stuff in the Republican primary in California. They have been knocking down billboards at night and even tried to prevent Richard Nixon from being photographed with Thomas Noonan, Republican candidate for Congress who is vigorously opposing the John Birch Society.

Noonan is running against Rep. John Russell, Republican, one of the few members of Congress who openly boast of their John Birch membership.

At a political cocktail party in Sierra Madre the other day, Photographer Jerry Bernstein of the La Fuente Valley Journal tried to get a shot of Nixon with GOP Candidate Noonan. A swarm of Birchites intervened, pushed camera-men away, and shoved Mrs. Noonan several feet.

Bernstein said he recognized several extreme right-wingers, among them Walter R. Snell and Richard Kowalsky, in the group.

Finally, Bernstein asked Nixon to pose with Noonan. Nixon, who has publicly denounced the John Birch Society, agreed.

Meanwhile, Noonan's billboards have been mysteriously disappearing at night. One large board costing the candidate \$630 was torn down and then run over by a half-ton truck. A Russellot sign was put in its place. Three other 4-by-8 billboards were torn down at night and replaced by Russellot signs, while a sign placed inside the enclosed back yard of Noonan's campaign manager, Robert Hartman, in Covina, was even removed by someone who climbed over the fence.

Politics is getting rough in California.

It looks as if the U. S. Senate, which so often squawks about secrecy along Pennsylvania Avenue, may put the silencer on one of the agencies dealing with the vast Rocky mountain domain—the Bureau of Land Management.

The senator who wants to wield the silencer is Henry Dworshak of Idaho, a Republican about as Rock-ribbed as the Rockies whence he comes. He is taking advice and counsel from Ed Woolley, former chief of the Land Management Bureau. While in that position, Woolley drastically restricted government public information.

The bureau controls such important questions as oil leases on wildlife preserves, which are supposed to be known to the public. Under Woolley, they were not.

Since he was ousted by the Kennedy take-over, Woolley has been serving as Sen. Dworshak's administrative assistant, and now wants to continue his own secrecy policy by curtailing Land Management's public information office.

Under Secretary of the Interior Udall and his Land Management director, Carl Lindstrom, there has been complete freedom of information. But Dworshak, who is ranking Republican on the Senate Interior Committee, is trying to wipe out a large part of the Public Information Service.

President Kennedy may even surpass the late Franklin D. Roosevelt as the whipping boy of Wall Street. At first, the money moguls were critical but not unkind. Now the lid is off. . . . No one is more distressed over the Billie Sol Estes scandals than Tennessee's strait-laced Sen. Estes Kefauver, who is in no way connected to Billie Sol. But Kefauver's first name and Billie Sol's last name are awkward to squeeze into a headline, he is usually identified on Tennessee's front pages simply as Estes. Result: Kefauver is being confused with Billie Sol by some Tennessee readers.

Most of them had one of five reasons, he said:

1. A need to identify themselves as part of the stricken populace.
2. A desire to see for themselves what they had seen and heard about on television and radio and what they had read in newspapers.
3. An eagerness to tell others they had seen the storm damage.
4. A wish to feel more keenly a sense of gratification that they had not sustained a loss themselves.
5. An urge to sympathize with and to help those who had been hurt.

Atlantic City, N. J. (U.P.)—When hordes of sightseers flocked to the New Jersey shore after it was devastated by a late winter storm, a psychiatrist said they mostly were prompted by normal, healthy curiosity.

## TODAY IN NATIONAL AFFAIRS

# This Man Has Kennedy's Ear

By DAVID LAWRENCE

WASHINGTON—What the man who has the ear of President Kennedy tells him about business is important to know—and perhaps for everybody to read about whenever possible. That's why the address given by Professor Walter W. Heller, chairman of the President's Council of Economic Advisers, last week in New York City before the New York State Society of Certified Public Accountants is worth a careful examination. It throws some light on the plight of American businessmen today.

While the speech explains some general principles that are vital, it doesn't indicate just how they are going to be applied.

Professor Heller takes note of what's happening in the stock market currently, but doesn't come to grips with the psychological situations in the national economy which are so important in building confidence in the future. He spoke first in an optimistic vein about the gains in production and income in the first quarter of 1962 and then said:

"Some of you may wonder about the divergence between the current economic indicators emanating from Pennsylvania Avenue and the current price quotations from Wall Street. So do I at times. The stock market's constant reappraisals of its own verdicts produces some interesting mysteries. I cannot tell you whether price-earnings ratios were too high a few months ago or whether they are too low today. It is not that I am keeping a secret, the fact is that no mortal man knows the answer."

"But the things I do know suggest that the market's downturn since March 15 is not a reflection of current disappointments and downward revision in the near-term economic outlook. For one thing, the \$2.4 billion profit figure for the final quarter of 1961 and the preliminary earnings statements for the first quarter of 1962 have, on the whole, exceeded the projection of most business and financial experts six months ago."

"SECONDLY, there is encouraging direct evidence on business expectations. The majority of businessmen expect improvements in sales and earnings, according to surveys conducted recently—after the steel price episode—by the National Association of Purchasing Agents and by Dun and Bradstreet. According to the Dun and Bradstreet findings, business optimism has increased in the past three months. We share that optimism."

Unfortunately, statistics of this kind of "expectations" do not always give with psychological attitudes either inside or outside of the business field. Dr. Heller seems to think that the prospects are good "for prolonged expansion" and that this provides "solid support for business fixed investment."

BUSINESSMEN privately, however, do not talk that way. They show real concern. When speaking for publication, they naturally conceal their pessimism and feelings of uncertainty. They hesitate to add fuel to the flames. But the doubt is plainly there. Dr. Heller unwittingly explains the real cause for hesitation in business planning when further on in his speech he says: "Of course, in a free market economy, investment does not happen automatically. It is consciously undertaken by businessmen in the expectation of securing future profits. This administration fully appreciates the importance of adequate profit levels—and business confidence—in generating the increased investment that is so vital to speed our lagging rate of economic growth and to promote full use of our current economic potential."

"Profits are among the most sensitive reactors to economic slack. In periods of rising economic activity, they climb vigorously, as demonstrated by their one-third rise from the first to fourth quarters in 1961. But even a slowdown, let alone a slump, can cut into profits painfully. In the first quarter of 1962, the recovery did not register the kind of buoyant gains we had hoped it might, nor did profits continue their rapid rise. But the stepped-up pace of expansion points to profits gains ahead."

"IN THE FINAL analysis, the outlook for profits and investment is tied to the outlook for continued expansion—and vice versa. The administration realizes that no expansion can last without substantial help from private investment—and the administration's economic policies and programs reflect this awareness."

But abstract statements like this hardly do not fit in with concrete actions that disturb confidence and cause frustration in planning for the future. It isn't just because the President calls the executives of one of our largest steel companies a name synonymous with "sons of beelzebub." It isn't because Mr. Kennedy sometimes talks one way and acts another on business and labor matters. It is because all around the President are men who have written statements and messages for him which have disturbed businessmen. They see a tampering with the price structure without sanction of law. They read of tax proposals that threaten an interference with the system of American production in companies abroad. Also, the whole question of taxes on business in this country has been confused by a variety of proposals that add up to fundamental changes in business operations. All this produces uncertainty.

Sooner or later, these advisers to the President will have to become realistic and take cognizance of the fact that it is deeds, not words, that count. Steps that will make possible "productivity" gains which can actually be reflected in better margins of profit—not in mere "expectations"—have everything to do with the growth of confidence and with sound planning for the future of American business through private investment.

## Letters To The Editor

Heart Association  
Expresses Appreciation

To the Editor:

The Winona County Heart Association wishes to publicly thank the citizens of Winona County upon the successful attainment of quota achieved last week. The quota for Winona County was \$5,322.

This was achieved through the efforts of many men and women acting as block workers, solicitors and township chairmen. The nursing students of the College of Saint Teresa, the Kadets of Winona State College, a group of volunteers at St. Mary's College, the WA-TAN-YE Club and the Winona Association of Life Underwriters gave us a tremendous amount of help in making the drive a success.

As chairman of the county heart fund drive, I am particularly indebted to Mrs. Howard Bielefeld, rural chairman; Mrs. James Cole, secretary for the association; Mrs. Don Williams, Heart Sunday chairman; Mrs. Earl Heiling, publicity; and Carlus Walter, distribution of heart canisters, for their assistance in making the fund drive successful.

## 4 Army Officers Wounded in South Viet Nam

By MALCOLM W. BROWNE  
SAIGON, South Viet Nam (AP)—Four U.S. Army officers were wounded Wednesday in one of South Viet Nam's biggest victories over Communist guerrillas in a month. Another American sergeant was injured in a fall in another sector.

The four officers—two field advisers and two helicopter pilots—were struck by bullets and flying metal and windshield fragments when their helicopter was hit by Communist fire. The aircraft apparently was landing close to the target of a Vietnamese infantry attack when it was hit.

All four were flown to Saigon for medical treatment, but only one was kept in a dispensary for further attention. He was suffering from a heel wound. The damaged helicopter was one of 14 that landed Vietnamese forces to take part in an attack in

PETERSON, Minn. (Special)—Poppy posters made by grades 4 through 6 in the Peterson School were judged by American Legion Auxiliary members at their meeting last week.

The winners were as follows: Grade 4, first, Curtis Glenn; second, Paul Lova, and third, Daniel Agrimson; grades 5 and 6, first, Sue Ellen Brink; second, Norine Stensgard, and third, Mark Lova.

Mrs. Elbert Agrimson and Miss Geneva Selvig each the three grades.

the Mekong River delta area south of Saigon.

Vietnamese military authorities said 55 guerrillas were killed and 18 captured in the battle.

President Ngo Dinh Diem's government also announced that 34 Viet Cong guerrillas were killed and 25 captured in actions Tuesday and last Friday.

The sergeant was injured today in a fall over a trip wire for a defensive land mine, a spokesman said.

The spokesman said the soldier's injuries were not serious. His name was not announced.

## Coin Club to See Wood Carvings at Tuesday Meeting

Winona Coin Club members will see an exhibit of wood carvings at their meeting Tuesday night at VFW Club.

The showing has been arranged by the club president, Arthur F. Gier, Galesville, Wis., and is the work of George Oedisma, a Dutch specialist in wood sculpture.

Guests of the club for the evening will be the Boy Scouts of Galesville, Gier announced. Business sessions will include reports on the Central States Nu-

mismatic Society convention at Milwaukee by Richard Bott, La Crosse, and Mrs. Gier. A Winona club member, J. Mortimer Pugh, Austin, won a ribbon at the Milwaukee convention for his collection of Canadian coins, Gier said.

## NOW-BEAUTIFUL BUYING DAYS! AT YOUR CHEVROLET DEALER'S ONE-STOP SHOPPING CENTER

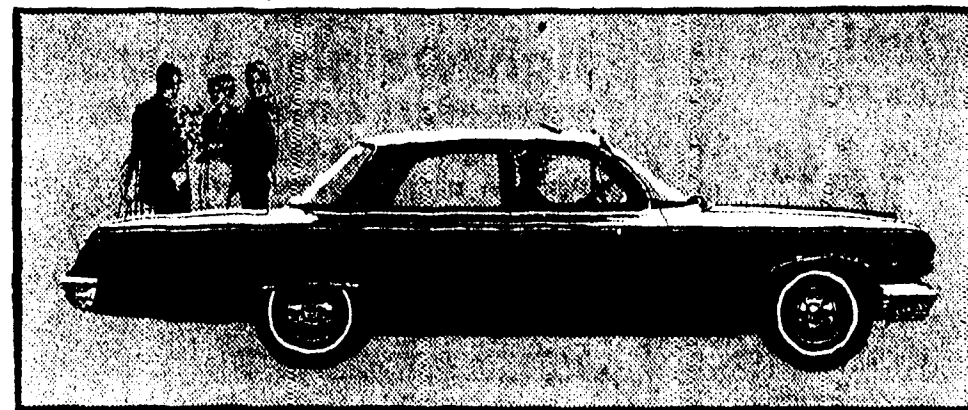

**Chevy II Nova 4-Door Sedan**—This one fits big families and small parking places with equal ease. Gets all kinds of spunk from a gas-sippin' 6. New Mono-Plate rear springs take the bounce out of bumpy roads. And you never saw luxury and low cost so beautifully blended. Or so easy on upkeep. The editors of *Car Life* magazine tested Chevy II against the rest of the '62 crop and gave it their coveted Engineering Excellence award. All this sound like just the savor you're looking for? (Comes in 11 models, too.)

**BODY BY FISHER**

**Bel Air 4-Door Sedan**—You'd be hard put to find a more beautiful buy than this popular-priced Bel Air. It has all that Chevrolet talent for making like an expensive car on modest means. Things like that roomy family-size Body by Fisher. A baggage-room of a trunk. Your choice of 6 or V8 engine. And that velvety Jet-smooth way of going (one ride will spoil you for anything else near the price!).

**New Monza Convertible**—How's this for staying in step with the weather? Corvair has gone and flipped its top! This one's got a new stylish, sturdy unitized Body by Fisher, front bucket seats and the same rear-engine scamper and sure-footed traction that make Monza-ing something special. Even if your dealer doesn't have a Corvair Convertible in stock now, he'll be happy to tell you all about it.

## DFL Opens Convention On Friday

By ADOLPH JOHNSON  
Associated Press Staff Writer  
Minnesota Democratic - Farmer-Laborites will begin to gather in Duluth Friday for their state endorsing convention, but the fireworks probably won't start until Saturday afternoon.

Party leaders hope that by then the endorsements committee will come in with a recommendation on a candidate for lieutenant governor.

Lt. Gov. Karl Rolvaag is giving up that office to seek the governorship and on the eve of the convention had no opposition for endorsement for that office.

Earlier action on an endorsement for lieutenant governor will be sought because many of the party's more attractive candidates have been mentioned for that office and it is believed some may offer themselves for other posts if they fail to get the nod for lieutenant governor.

On unofficial lists are six state representatives and a former state representative, three state senators and four others.

Here they are: Reps. Fred Cina of Aurora; leader of the liberal majority in the State House of Representatives; D.D. Wozniak of St. Paul, chairman of the tax committee; Ed Chigren of Littlefork, speaker of the House; Bill Shovel of St. Paul, chairman of the House Appropriations Committee; Peter Popovich of St. Paul and Wayne Bassett of Worthington.

State Sens. Harold Schultz of St. Paul, leader of the liberal minority in the State; Vladimir Shipka of Grand Rapids, and Karl Gritter of St. Paul.

Former State Rep. A.I. Johnson of Benson, now a University of Minnesota regent; Gerald Dillon, 1959 candidate for mayor of Minneapolis; Conrad Hammer, St. James farmer who was DFL nominee for state treasurer in 1950; Paul Skjervold, former deputy attorney general; and John Vuklich of Virginia, a St. Louis County commissioner.

Of course there is no certainty that the candidates endorsed to oppose Republican State Treasurer Val Bjornson and GOP State Auditor Stafford King will come from this group, but the chances appear to be pretty good.

One of them also could oppose Paul Rasmussen in his bid for endorsement for re-election as a member of the railroad and warehouse commission.

Despite his failure to win district endorsements, this veteran of 10 years on the commission has served notice he will seek endorsement at the state convention and will be a candidate for re-election whether he is endorsed or not.

Endorsement for re-election of Atty. Gen. Walter F. Mondale and Secretary of State Joseph Donegan probably will be routine, as will the conventions acceptance of district endorsements for Congress.

The state meeting may be called upon to take some action with regard to the 7th District. That district's convention was unable to break a deadlock between State Rep. Ben Wichterman and Dr. Harding Noblitt, Concordia College professor. If the state convention declines to act, an open DFL primary in the district is a possibility.

## Students Rebel At Ban on Bermuda Shorts

HIGHLAND PARK, Mich. (AP)—The nakedness of a knee was fraught with social significance at Highland Park Junior College today.

Bermuda shorts have become a touchstone of undergraduate dignity. Wednesday, 400 of the college's 1,000 day students wore the shorts in defiance of a new school rule.

The location of the college across the street from Highland Park High School lies at the base of the social drama in the Detroit suburb.

"We are told we are setting an example for students at the high school," said college freshman Jake Feminineo, 19.

The students rebelled at the anti-Bermuda regulation and used bare legs as "a symbol of student protest," said Terry Roach, 19.

## Trempealeau School Meeting on Monday To Discuss Addition

TREMPEALEAU, Wis. (Special)—Earl E. Malles, clerk of Trempealeau Joint School District 1, today urged interested persons in the school area to attend the special meeting called for Monday at 8 p.m.

Elected are to consider authorizing the board to construct an addition not to exceed a cost of \$175,000. The addition would include kitchen area, locker rooms, a band room and an industrial arts department.

They were treated at Tri-County Memorial Hospital, Whitehall.

## Kraft Trial

WHITEHALL, Wis. (Special)—Judge A. L. Twesme, Galesville, acting Dunn County judge in the William F. Kraft estate has set June 20 at 10 a.m. for starting trial on the interim account of the executor, William R. Kraft. The case will be heard at the Dunn County courthouse, Menomonie. This action is being brought because of objections to the account of William R. Kraft, executor, by Aurora Sipple, one of the heirs.

## Chinese Ask Refugees to Stay at Home

By FORST EDWARDS  
HONG KONG (AP) — Blaring Communist loudspeakers today appealed to Chinese fleeing Red China to stay home and help grow needed food. But Red border guards reportedly made no attempt to stop the flow of refugees to Hong Kong.

About 5,000 succeeded in getting across the frontier into this British crown colony before dawn. Sources in the border area said all but about 500 were rounded up by British police and army patrols. They were rushed to a detention camp for return to Red China.

Reports from the sealed-off border area said the Communist loudspeaker broadcasts to throngs massing along the Hong Kong line were given as patriotic advice rather than orders. Border sources said they had nothing to substantiate earlier Hong Kong press reports that Red guards had commanded the waiting mobs to turn back and fired warning shots when their orders went unheeded.

The Hong Kong government expressed appreciation for the interest and concern shown by the United States for Hong Kong's problem.

A government spokesman voiced the appreciation after reports that President Kennedy had cleared the way for between 5,000 and 6,000 refugees to be admitted to the United States.

## Soviet Cosmonaut Says Good Luck Carpenter

OSAKA, Japan (AP) — Soviet cosmonaut Yuri Gagarin extended good wishes today to American astronaut Malcolm Scott Carpenter "as long as the project is for peaceful purposes."

That was Gagarin's only remark when asked for comment on the American plans to send Carpenter into orbit today.

Gagarin, the first man to orbit the earth, is on a good-will tour of Japan.

# Dredge Thompson Busy at Reads; Next: Wabasha

READS LANDING, Minn. — The Army Corps of Engineers' dredge William A. Thompson has been dredging the Mississippi River in the Reads Landing area and will move next to Wabasha, Minn.

Meanwhile, the engineers' sounding crews went to work this week along the Upper Mississippi to determine other places where the river needs deepening.

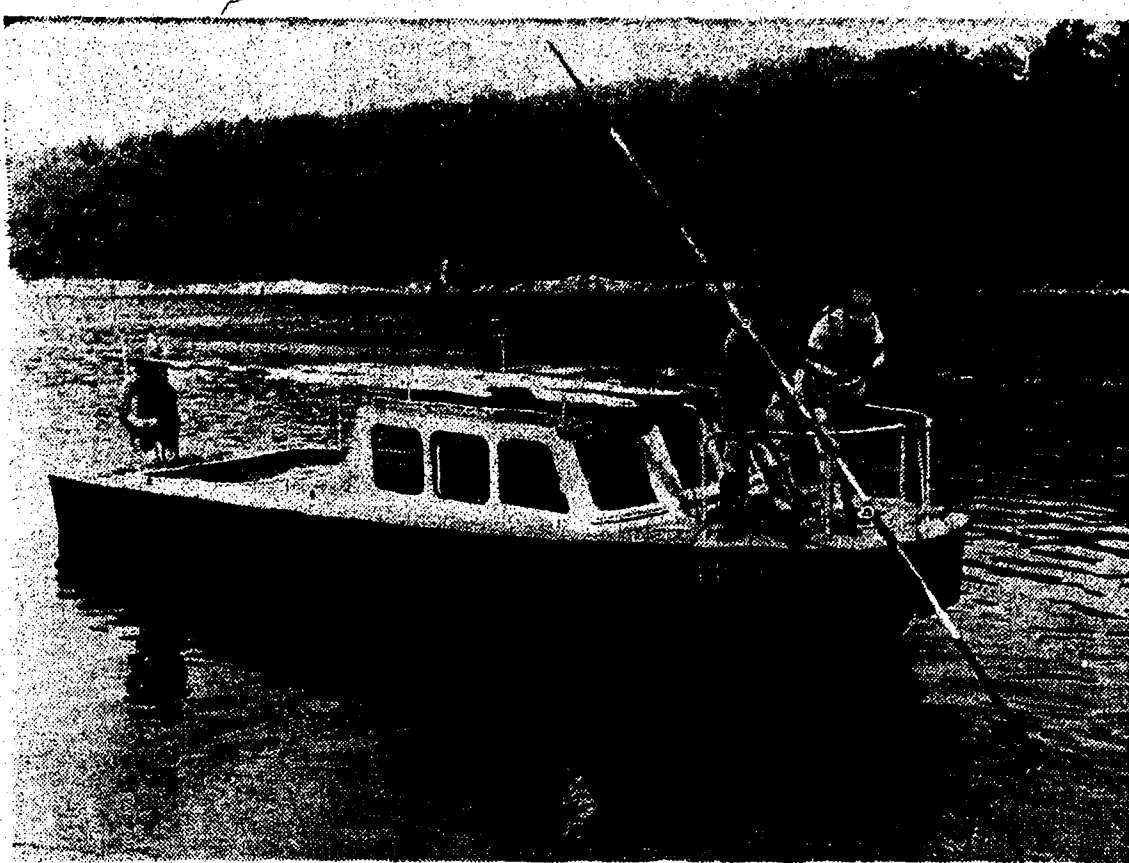

As soon as the areas have been located where shoals have developed or the channel has narrowed, the Thompson or a derrick boat will remove the silt, sand and other obstructions.

Three three-man crews are doing the work aboard 30-foot-long diesel-powered survey boats. One crew uses a fathometer for finding out shoaled areas; the other two use sounding poles.

"Our purpose now is to locate critical areas where immediate dredging is required so that barge traffic and pleasure boating will have the best possible conditions," said Col. W. B. Strandberg, St. Paul district engineer.

Critical areas generally are present where tributaries join the Mississippi, emptying several hundred thousand tons of material into the river every year. Danger spots include the mouths of the Chippewa, Zumbro, Root and Upper Iowa Rivers near Wabasha, Alma, La Crosse and Lansing, Iowa. The mouth of the Kinnickinnic in the St. Croix River also is troublesome.

Cross sections are taken every 200 to 250 feet at critical locations

**PREPARE FOR DREDGING** . . . A sounding crew of the Army's Corps of Engineers obtains readings of river depths during springtime operations along the Upper Mississippi River.

with depths measured at 40-foot intervals across the river.

"We will take some 150 miles of detailed soundings during a year," said Col. Strandberg. "Sometimes we may have to go back to a bad spot two or three times in a season to see if shoals are developing again."

Members of the crews are Richard Schleich, Winona; Clarence Fluekiger, Alma, Wis.; and Rodney

Ressie, Fountain City, Wis., sounding party No. 1; Laurits Giversen, Fountain City; Raymond Gosse, Wabasha, and Ralph Heiser, Minnetonka, sounding party No. 2; and Arnold Larson, Winona; Leonard Seymour, Bay City, Wis.; and Donald Wolfe, Fountain City, sounding party No. 3.

Good lunch: Corn fritters served with maple syrup and crisp bacon.

**BROWNIE CAMP**  
TREMPEALEAU, Wis. (Special) —Applications are being taken by Mrs. John Husie, Galesville, and Mrs. Francis Wood, Trempealeau, for a business manager, three unit leaders and first aid director or nurse for Galesville-Trempealeau Girl Scout Day Camp. The camp for Brownies scheduled for June 18-22 is already staffed with a unit leader and camp director.

# Seven to Graduate At Sacred Heart

DODGE, Wis. (Special)—Sunday is graduation day for eighth grade pupils of the Sacred Heart School, Pine Creek.

A class of three boys and four girls will receive their diplomas at exercises at 2 p.m. in the church held in connection with the May crowning devotions.

Graduates are Kenneth Kujak, William Kulas, David Kramer, Charlene Jereczek, Mary Kujak, Kathleen Servais, and Carol Wicka. Graduates and their parents will occupy the front pews of the church at the 8 a.m. Mass and will receive Holy Communion in a body.

Mary Kujak will place the crown on the statue of the Blessed Virgin during the afternoon services. Two first grade girls, Kathy Brom and Debbie Maliszewski will lead the graduates and Kathy will carry the crown on a white satin pillow. The student body will form the living Rosary for the recitation.

# Man Found Guilty In Fillmore Co.

PRESTON, Minn.—At a special term of Fillmore County District Court Monday, Judge Warren F. Plunkett presiding, Loren Smith, Spring Valley, was found guilty of unlawfully discharging a 22-caliber rifle in Spring Valley.

He was sentenced to pay a \$50

fine. Sentence was suspended and he was placed on probation.

Mrs. Esther Pierce, Spring Valley, represented by Paul Cross, Spring Valley, was granted a default divorce from Marvin Pierce Sr., address unknown, on grounds of cruel and inhuman treatment. No minor children were involved. A judgment quieting title was granted Helen Utley, represented by George Murray, Preston, against Clair Mayland and others. The property is in Fountain. A special session of court is scheduled for Tuesday, according to Clerk of Court Kenneth Hall.

DEAR ABBY:

Still Picking Up After Husband

By ABIGAIL VAN BUREN  
DEAR ABBY: I have been married three years and I am still picking up after my husband. He leaves a trail of clothes from the kitchen to the bathroom. He never puts the cap on a tube of toothpaste or shaving cream. He never hangs up anything or puts his soiled clothes in the hamper. Honestly, you would think he was a little boy. Why are men so lazy and what can a wife do about this?

DEAR EXHAUSTED: Your husband's sloppiness has nothing to do with laziness. His mother never finished "raising" him. Finish the job.

DEAR ABBY: I am a daughter-in-law who is stuck with my husband's mother 24 hours a day. She has three daughters, all of them married, and much better off financially than we are. But they refuse to keep her or give us a penny toward her expenses. She is 66 and in poor health. Her mind is going, too, and I can't trust her alone in the house. I didn't marry my husband to be a 24-hour nurse for his mother, yet I can't put her out on the street. I told her daughters what I thought of them and now they aren't speaking to me. I am only 37 and look like 50. What should I do?

DEAR STUCK: You are addressing your complaint to the wrong department. Your husband should take the matter up with his sisters. If they don't want to keep their mother, they should each contribute toward the wedding or must have an invitation. This is very embarrassing.

DEAR ABBY: Our only son (22) is marrying a girl who is not speaking to us. A few months ago she found out something about us that happened years ago, which is nobody's business but ours. The wedding will be a big affair. Isn't her mother supposed to ask me for a guest list? And aren't we automatically invited to the wedding or must we have an invitation, too? This is very embarrassing.

DEAR MOTHER: Although the bride isn't speaking to you, I presume the groom is. Ask him about the wedding plans and straighten it out with the parents of the bride immediately.

WATER STILL SPRINGS on Park Department land "as long as anyone can remember." The spring has been piped to the purest of water here. People come from miles around daily to get their supply.

Great Lakes, Mississippi Study Planned

MADISON, Wis. (AP)—A two-year study to determine how well waterfronts are being utilized in Wisconsin's Great Lakes and Mississippi River port cities will be conducted soon. Budget Gov. Gaylord Nelson said Wednesday. The Federal Housing and Home Finance Agency in Washington said it would provide a grant of \$50,000 for the study, which will be carried out by the state Department of Resource Development. The grant also calls for release of information gathered in the study to other states. Nelson said the waterfront industrial sites suitable for handling raw materials received by boat are in great demand. He said some 200 parcels of land will be analyzed to determine how well they are being used. Included in the study will be five Mississippi River harbors, 12 Lake Michigan harbors and six Lake Superior harbors, including Superior, Port Wing, Cornucopia, Bayfield, Washburn and Ashland.

Fresh Fruits, Vegetables Best Menu Buys

By THE ASSOCIATED PRESS  
Supermarket produce counters are taking on a festive air with the arrival of increasing numbers of watermelons, cherries, blackberries, peaches, cantaloupes and strawberries. Vegetable selections also show the effect of the calendar's progress, with sweet corn, snap beans, asparagus, radishes and cucumbers becoming available at correspondingly lower prices. For main courses, there is a good selection of easily cooked items — pork chops, ground beef and bacon. Smoked hams and picnics and rump, round and chuck roasts are widely featured. Lower prices on cheese and other dairy products also assist in facing the quick, light meal. For budget stretching, broiler-fryers and turkeys are again top nominees as prices continue very low.

Congresswoman Raps Taylor, Burton Actions

WASHINGTON (AP)—Rep. Iris Blitch, Democrat, a grandmotherly congresswoman, says Elizabeth Taylor's romance with Richard Burton will hurt the U.S. foreign aid program and leave the Communists chuckling. She denounced the actress and actor Tuesday in the House and said she hopes Atty. Gen. Robert F. Kennedy will take the measures necessary to determine whether the two are ineligible for re-entry into this country on grounds of undesirability. Miss Taylor, an English-born American citizen, has announced plans to divorce her fourth husband, singer Eddie Fisher. Burton is a Welshman, a British citizen, and has a British wife. Burton and Miss Taylor are in Rome for filming of the motion picture "Cleopatra."

EAGLES RETURN

FULFORD, B. C. (AP)—Bird watchers report the bald eagle population appears to be growing around this Salt Spring Island community. They are feeding on a plentiful fish population and leaving available ducks alone.

## Teen-Parent Understanding PTA Panel Topic

A panel discussion, "What Can Be Done To Promote Better Understanding Between Teenagers and Parents?" was the subject presented by junior high school students under the direction of Miss Mildred Arndt, Leland Larson and Jerry Lehmer at the Jefferson School PTA meeting Monday evening.

Pamela Gorsuch served as moderator with panel members Bill Squires, Tamara Toye, Sandra Ambuhl, Dale Dopp, Terry Spatz and John Host. They discussed, "freedom and responsibility," "the difference between fear and respect," "Do you think your parents understand you?" and "do you think you understand your parents?" Parents were invited to question the panel.

Eighth and ninth grade girls presented a style show of garments they had made. Seventh grade pupils gave a choral reading entitled, "Our Heritage."

Mrs. Robert Lembeck, president, presided at the business meeting. Mrs. Ray Zenk reported on the kindergarten round-up held May 10 and thanked mothers who had helped. Mrs. Jack Orlitzfeld and Mrs. Donald Stedman's second grade class were thanked for the table decorations and favors which they made. Mrs. Paul Sanders, chairman of the safety committee, reported on results of the survey made by her committee.

Mrs. Clayton Haessig, secretary of the district PTA, installed the following officers: Mrs. Lembeck, president; Mrs. William Sconalla, secretary; Mrs. William Green, treasurer; Mrs. Earl Laufenberger, vice president; and Mrs. Alfred Krieger, historian. A standing vote of thanks was given to the retiring officers, Mrs. Donald Stedman and Mrs. Norton Cocker.

Members of the student council served the refreshments.

# St. Mary's to Grant Two Honorary Degrees

St. Mary's College will grant honorary doctor of laws degrees at commencement June 3 to Leighton A. Wilkie, native Winona and president of the DoALL Co., Des Moines, Ill., and Brother Philip of the Christian Brothers.

The Rev. James D. Habiger, superintendent of schools for the Winona Diocese and pastor of St. John's Church, Winona, will say the baccalaureate Mass and give the sermon at 9 a.m. in the St. Thomas More Chapel that day.

Commencement will start at 2:30 p.m.

Wilkie is founder and owner, together with his two brothers, of five manufacturing plants and a chain of stores selling industrial tools and equipment throughout the world. The DoALL Co., which ranks among the 10 top machine tool companies in the world, began with Wilkie's invention in 1933 of a metal-cutting contour band sawing machine.

He was born July 29, 1900. His father, the late Julius C. Wilkie for whom the Julius C. Wilkie Steamboat Museum is named, was a master mechanic for the Chicago & North Western Railway.

Following graduation from Winona Senior High School where he played football and engaged in dramatics, Leighton Wilkie entered the University of Minnesota where he studied mechanical engineering and business administration.

He is chairman of the board for these DoALL companies: The parent company at Des Moines; Continental Machines, Inc., Savage, Minn.; Contour Saws, Inc., Des Moines; Continental Granite Corp., Escondido, Calif.; the DoALL Co., G.m.b.H., Duesseldorf, Germany, and the DoALL Co. of Canada, Ltd., Toronto.

Brother Philip was director of the Christian Brothers Scholasticate on the St. Mary's College campus 13 years before becoming provincial in 1948. He was born in Baden, N. D., Sept. 27, 1906. One brother, Brother Lambert Thomas, FSC, is president of Christian Brothers College, Memphis, Tenn.

Leighton A. Wilkie

Brother Philip

The provincial attended Creten High School, St. Paul, until he entered La Salle Institute, Glencoe, to prepare for his apostolate as a Christian Brother. He received the brothers' habit Aug. 30, 1924. After completion of his novitiate, he entered DePaul University, Chicago, where he received a bachelor's

degree in 1928. Three years later he received a master's degree in English from DePaul.

From 1928 to 1931 he was stationed at De La Salle High School, Chicago, teaching English. In 1931 he was assigned to Glencoe, as sub-director of the first year student brothers, and in 1934 he was appointed director of the Christian Brothers Scholasticate in Winona. In 1947 he was sent to the general motherhouse of the congregation in Rome for a detailed study of the history and customs of the Christian Brothers.

When Brother Philip was appointed provincial, the St. Louis Province numbered 323 brothers, 9 missionary brothers, 40 student brothers, 25 senior novices, 61 junior novices (high school students) and 8,261 students in one senior college, one junior college and 14 high schools. In 1962, the province has almost doubled with 682 brothers, 141 student brothers, 62 senior novices, 141 junior novices, and 21,705 students in 3 senior col-

## Boy Drowns In Cistern at Spring Valley

SPRING VALLEY, Minn. — A 3-year-old boy drowned Wednesday when he fell into a cistern on his parents' farm two miles east of Spring Valley.

The victim was Timothy Kenning, 3, son of Mr. and Mrs. Jack Kenning.

The boy had been playing in the farm yard and vanished. His body was found in a cistern on the edge of a house that had been destroyed by fire last fall. The cistern contained about 5 1/2 feet of water.

The Kennings have three other children.

leges, 29 high schools, 3 missionary high schools (two in Guatemala and one in Nicaragua) and one mission elementary school (in Nicaragua).

For his contributions to education, Christian Brothers College, Memphis, and Xavier University, Cincinnati, have conferred on Brother Philip, honorary doctor of science and doctor of laws degrees respectively.

Roxanne

Here's why Roxanne is the best fitting suit you've ever worn...

Roxanne comes in bra sizes: 32 A or B cup; 34 to 36 A, B, C cup; 38 to 40 B or C cup. The length between waist and bra top is perfectly proportioned for smooth fit, full coverage and control.

True-proportioned foundation fit is achieved with 3-panel front for firm body control. No boning over the bust. The bra lure is gently rounded, firmly supported with pella. Removable side stays lend support for strapless sunning.

Look to the zipper. It's the same stalwart kind you'll find in foundations. Roxanne fabrics are experts at holding and moulding a firm body line.

(Above) It's a carefully proportioned plot to maximize the positive and minimize the negative! The stripes are slim where they should be slim, broad where they should be broad and set on a slant where they should be... to set you off as you would be! Acetate and Lastex that's proportioned to your torso and your bra cup. Lavender, grey, blue. Sizes 32-38, A, B, C cups. \$19.98

(Above) Colors make a splash in the smashing abstract print of this cotton knit! A slim and supple sheath, the scoop of neck swooping deep, deep in back. Like no other knitted suit you've ever worn! A, B, C bra-cup sizing and torso length proportioning. Brown. Sizes 32-38 in A, B, C cup. \$17.98

(Center) Let the straps down... the suit stays up! Magnificently up, with Roxanne's superb "foundation fit!" It's the new surprise sheath that bares your shoulders for a beautiful tan... bares your figure to its beautiful essentials! And the back swoops low, low, low! Charcoal or brown acetate and Lastex faille splashed with flowers. Sizes 32-38 in A, B, C bra-cup proportioned sizes. \$22.98

GRATEFUL . . . Dick Donovan (left), Cleveland Indians pitcher, expresses his gratitude to teammate Chuck Essegian whose ninth-inning home run gave Donovan his eighth win of the season. # Donovan Gets 8th; Tribe Tips Chicago

By JIM HACKLEMAN  
Associated Press Sports Writer  
Remember the hard-luck Dick Donovan of just a year ago, with that disheartening string of five successive one-run losses? His luck is a little better this season and so's his record—8-0.  
The big right-hander became the first eight-game winner in the majors Wednesday night when the Cleveland Indians cut loose with another eleventh-hour home run attack and overpowered the Chicago White Sox 5-4. Pinch hitting rookie Al Luplow and Chuck Essegian connected back-to-back in the ninth inning as the Tribe won for the third time in a week with ninth inning homers.

By winning the squeaker, Cleveland remained a half game behind the top-place Yankees, who buried Kansas City 13-7 with a nine-run eighth inning triggered and capped by rookie Joe Pepitone's home run blasts. Boston beat Minnesota 6-1 and dropping the Twins to third, one game back. Washington whipped Los Angeles 7-2, while Detroit and the Orioles were rained out at Baltimore.

Donovan was tagged for 10 hits, one a two-run homer by Al Smith in the first, but singled in one run himself as the Indians stayed close to the White Sox all the way.  
Dom Zanni, who had pitched strongly in relief of Juan Pizarro, was the victim of Cleveland's uprising in the ninth. Luplow led off with his score-tying homer into Comiskey Park's lower left field deck and Essegian promptly zeroed in on the same sector with his 11th of the season.  
Pepitone and fellow rookie Phil Linz, both fill-ins for the injured, handled Yankees' produced handily in the explosive rout of the A's. Held to four hits by Dan Pfister and trailing 7-4 going into the last of the eighth.  
Pepitone kicked off the rally with a homer and clinched it with another with two aboard, becoming the 15th major leaguer to homer twice in one inning. Linz took over at third after Cleve Boyer was hit on the wrist by a pitch in the third, homered in the seventh with one on for his first hit in the majors, and sent the Yanks ahead with a two-run single in the big ninth.  
Tex Clevenger, called up from the minors Tuesday as the winner with one inning of relief and Diego Segui took the loss. Jimenez whacked a homer for the A's.  
Pete Burnside pitched a nine-inning shutout for the Red Sox, who broke away from the losers in the first three innings with seven runs—four of them unearned. Ted Bowsfield was the losing pitcher.

McREYNOLDS, who admits his job is one of the toughest since the Reds have the smallest scouting staff and are the smallest city in the majors, is high on Winona's Steve Wally, catcher for the Minnesota Gophers.  
"Wally is the only ball player Dick Seibert has at Minnesota," McReynolds flatly states.  
The "C" scout also points out that Wally has tremendous possibilities as a pro. "He should be playing ball some place this summer. Glen Gostick wants him to go with him to the Basin League (the Dakotas) where he will be managing, but Wally isn't too hot on it," said McReynolds.

McREYNOLDS HAS some observations on his club, the Reds, and the Milwaukee Braves, too.  
"We were lucky to win the pennant last year. We really didn't win it; they gave it to us. Actually, we are still two years away from being a good club. We have a lot of young players and next year should be real tough."  
The Braves?  
McReynolds thinks the Milwaukee front office made a serious mistake in putting out too much pre-season publicity about pennant possibilities. He feels they should have tread softly.  
"And then the Braves haven't promoted like the Twins have done. They had the crowds to start with, but didn't do anything about trying to keep them coming," he explained.

KEN BARKER, ex-La Crosse Central boy playing with Winona State, hasn't seen too much action this year.  
Against Stout, Coach L. A. McCown had him racking bats during the game until putting him in as a pinch-hitter. First time up, Barker backed the Stout left fielder against the fence with a long ball, permitting a mate to score from third.  
Next time up Barker singled sharply. Which led a Stout wiseacre to comment: "Look, even the batboy on this club is a hitter!"

OFF THE CUSHION: Secretaries of Winona bowling league, all which have finished their winter seasons, have only two more days in which to submit final averages for inclusion in the Daily News' Bowling Review . . . Dick Seibert says of Steve Wally: "He could move into Metropolitan Stadium tomorrow and not hurt the Twins a bit." . . . Rude reception: Fairbault High School's tennis team traveled all the way to Red Wing for a Big Nine match, only to find, on arrival, that Red Wing High School doesn't have tennis this season.

DROP TO THIRD ON 6-1 LOSS

# Injuries Begin to Tell on Twins

BOSTON (U)—Injuries could be starting to tell on the Minnesota Twins who Wednesday night dropped a 6-1 decision to the Boston Red Sox and fell from a virtual tie for first place in the American League to third place.  
Both first place New York and third place before Wednesday night Cleveland won their games Wednesday, leaving the Twins a game behind the Yanks and a half game behind Cleveland.

It was a combination of lousy Boston hitting and clutch pitching and lack of timely hitting on the part of the Twins which contributed to Wednesday's defeat at the hands of the ninth place club in the league.  
When the Twins did get runners on base, no one was able to bring them around. Rich Rollins' seventh inning home run was the only tally Minnesota could muster off Boston's "beef thrust."  
Starter Earl Wilson, a former Minneapolis Miller, and reliever Dick Radatz, a former Michigan State University star, combined to hold the

Twins to seven hits.  
Radatz is a hulking athlete of 235 pounds who looks like a football fullback and throws with the easy motion of a ballerina. He throws very few pitches which aren't fast balls and has fair control for a big boy. Wilson, some 15 pounds lighter than Radatz, is also a fireballer.  
Another former Minneapolis American Association player, Carl Yastrzemski, led the Sox at the plate with a double and two singles and two runs scored. Gary Geiger added a home run and doubles and another former Miller, Ed Bressoud, cracked a homer. Minnesota was handicapped with both slugger Bob Allison and catcher Earl Battey on the shelf with injuries.  
Don Lee was saddled with his third loss in six decisions and Wilson took the victory, his first against a single setback.  
The two clubs clash again today in the finale of the two-game set here. Rookie Joe Bonikowski, fresh from a 2-1 heartbreak loss to the Yankees Saturday, will take the hill for the Twins and will be opposed by Don Schwall, still another former Minneapolis player.  
The Twins travel to Chicago Friday before returning home Monday against these same Red Sox.

## Ageless Spahn Proves Stopper; Braves Win 4-2

MILWAUKEE (U)—What's this talk about a youth movement? At the age of 41, Warren Spahn still holds his ranking of "Stopper" on the Milwaukee Braves' pitching staff.  
The Braves snapped a four-game losing streak by defeating the Chicago Cubs 4-2 with the help of Spahn's five-hit pitching and a pair of unearned runs Wednesday night before a crowd of 6,542 at County Stadium.

Spahn mastered the lowly Cubs, but it took an error to provide the Braves the victory margin. Stung by bad breaks themselves most of the season, Milwaukee quickly capitalized on the fielding miscue.  
With the score tied 2-2 in the last of the sixth, Eddie Mathews led off with a walk and advanced to second as third baseman Ron Santo failed to come up with Hank Aaron's potential double play grounder. Mack Jones then singled home Mathews and Aaron came across as Del Crandall hit into a double play.

The Braves jumped off to a 1-0 lead in the first inning when Roy McMillan cracked his third homer, a shot into the runway next to the left field bleachers. A triple by rookie Howie Bedell and a sacrifice fly by Eddie Mathews upped the count to 2-0 in the third.  
With one out in the Chicago fourth, Ernie Banks walked on a 3-2 pitch, went to third on a single by George Altman and scored on a sacrifice fly by Santo. The Cubs tied the score in the sixth on an infield hit by Ken Hubbs, a single by Billy Williams and a sacrifice fly by Banks.

The Braves then scored their decisive runs in the sixth and Chicago starter Glenn Hobbie was saddled with his sixth straight defeat of the season.  
Spahn struck out five and walked three in boosting his season record to 5-4 and winning the 314th game of his National League career. Two of the hits off him didn't get past the infield and another was a pop fly behind third.  
The victory enabled the Braves to maintain their hold on sixth place and move within 9½ games of pace-setting San Francisco, defeated 10-7 by Philadelphia. The Phillies are percentage points behind Milwaukee.  
The Braves named southpaw Bob Hendley, holder of a 2-3 record, to oppose the Cubs in the series windup tonight. Chicago plans to counter with right-hander Bob Buhl, the former Milwaukee ace traded recently. Buhl's record of 2-2 includes two victories and one loss with the Cubs.

SAYS 280 WILL WIN

## Palmer: Oakmont Will Be Tough

OAKMONT, Pa. (AP)—"She's a monster," Arnold Palmer said after coming to friendly grips with his next major golf antagonist—the Oakmont Country Club.  
This piece of real estate nestled in the western Pennsylvania hills is the site of the 62nd National Open championship June 14-16. Palmer drove the 42 miles from his home in Latrobe, Pa., to play the course for the first time in four years.  
"She's going to be awfully tough," golf's leading money winner and prime tournament favorite said after a scrambling 18 Wednesday. "I'm having to revise my estimates. Originally, I said 275 would win the open here. Now I believe it'll be nearer 280."  
Palmer toured the 6,916-yard, par 71 layout with his professional father, Milfred (Pap) Palmer and two Latrobe neighbors, Harry Saxman and Ken Bowman.  
"I didn't keep a score but I must have shot an 80," he said afterward. "I'll play it again later this week more seriously. I should get a better idea then."  
He complained to Frank Haggan, a member of the U.S. Golf Association staff and one of the spectators, about the hour-glass out of the fairways on some holes—particularly the 10th, 11th and 12th and the first and second on the outgoing nine.  
The fairways offer a large target to the short hitters but taper to as little as 50 yards in the area where the game's longer drivers, such as Palmer, Jack Nicklaus and Sam Snead might hit the ball.  
"I don't see the reason for continually penalizing the long hitter," Palmer said. "Normally, it's the long hitter who is wild and the short hitter who is accurate. But some of these holes make it impractical, if not impossible, for the hitter to attack."  
Palmer praised the condition of the course, saying "it's in wonderful shape."

LAKE CITY PLAYS FRIDAY

## Winhawks at Stewartville Today; 4 in District One

### Miller Out Of 440 Race

By AUGIE KARCHER  
Daily News Sports Editor  
Two District Three baseball games, both washed out Wednesday, were on tap today along with four District One contests.  
The Winona High Winhawks were to meet Stewartville there at 4 p.m. today with Pine Island taking on Rochester in the Mayo City at the same hour. Wet grounds forced postponements yesterday.  
Lewiston conceded to Rochester when their scheduled game Monday was rained out.

LAKE CITY and Kasson-Manitouville will tangle at 7:30 p.m. Friday at Lake City in a District Three semifinal game. Lake City beat Dodge Center 3-2 Tuesday.  
Winner of the Winona-Stewartville and Rochester-Pine Island will probably play early next week.  
Today's games in District One sent Mabel to Lanesboro. Harmony to Caledonia, Spring Valley to Spring Grove and Peterson to Chatfield.

MEANWHILE, the Winhawks, also slated at La Crosse Logan today, will keep the date. Coach Eddie Spencer formed a secondary team of "B" squad regulars and "A" squaddies not going to Stewartville. Either John Duell or Jim Kasten was to hurl with Jim Elliott handling the coaching reins.  
Winona High's six qualifiers for the Region One track and field meet go to Austin Friday, but Morrie Miller, second in the district quarter-mile, will not be able to run due to a bad insect. He will be replaced by Doug Blanchard, third in the district.  
Gary Nissalke suffered a turned ankle but is expected to be ready for the pole vault along with Rich Karnath. Other Winhawk qualifiers were Jim Bambenek, shot and discus; Steve Morgan, 880, and Dave Reed, mile run.

JOHN WALSKI, lone Winhawk golfer to qualify in the District Three golf meet, will go to Rochester Saturday for Region One play. The Hawk tennis team met Rochester here today to determine qualifiers for Saturday's Region One meet at Rochester.  
On the Big Nine baseball front, Austin meets Rochester tomorrow with the title at stake. Only other remaining games, both make-up affairs, are Austin vs. Red Wing and Austin vs. Owatonna. Their status depends on tomorrow's outcome.

## Boxing Committee Ends Hearings

NEW YORK (AP)—A joint legislative committee investigating boxing in New York next will look into such matters as criminal influences and the manipulation of odds.  
The committee, its investigation spurred by the ring death of former welterweight champion Benny (Kid) Parrel, closed three days of public hearings Wednesday.  
No definite date for further hearings was set, but Assemblyman Hayward Flumadore, heading the probe, said further hearings definitely will be held. The committee is seeking to determine if boxing should be banned in the state.

## HORNING TO BE OUT IN 5-6 DAYS

KANSAS CITY (U)—Capt. Paul Horning, the Green Bay Packers' football star, probably will be out of the hospital in five or six days and back to full duty in the Army in two or three weeks.  
He was operated on for appendicitis Wednesday. The attack developed Monday night.

# Harmony Athletes Receive Awards

HARMONY, Minn. (Special) — Harmony High School athletes were honored at the 11th annual awards program at the high school here Tuesday evening.

S. L. Houdek, principal of schools, gave the welcoming address and introduced football

Coach Dick Norman, who led the Cardinals to an undefeated season and the championship of the Maple Leaf Conference.

Harmony owns the state's longest present winning string. The Cardinals are undefeated in 31 games. The record includes two ties, one at the hands of Mabel early last season.

Norman presented the football and track squads and then turned the program over to Tom Meulemans, basketball and baseball coach.

Meulemans took his basketball team to the championship of the Maple Leaf Conference and then saw them drop a heartbreaking overtime decision to Spring Valley in the finals of the District One Tournament.

After awarding basketball and baseball letters Meulemans called on Richard Maher who introduced the wrestling squad.

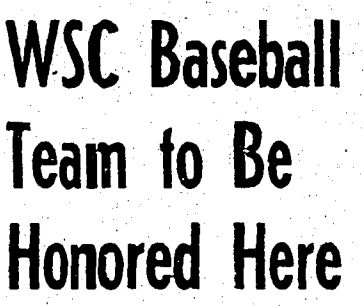

Houdek, who is also the athletic director, presented senior letters to the athletes.

## Arcadia Faces Eau Claire in Game Tonight

ARCADIA, Wis. (Special) — Arcadia will meet defending state champion Eau Claire at 6 o'clock tonight (Wisconsin time) in the first round of the sectional baseball tournament here.

Eleva-Strum and Holmen meet at 7:30 p.m. in the other semifinal, also here.

Winners tonight will tangle at 7:30 p.m. Friday for the right to advance to the 15th annual state tournament next weekend at Eau Claire.

Arcadia gained the sectional by defeating Ellsworth 2-0. Eleva-Strum whipped Black River Falls 9-5. Holmen ousted Gale-Ettrick 8-2 and Eau Claire hammered Holcombe 13-0.

Eau Claire won the state title in 1957 and 1958, in addition to last year. The Old Abers were runners-up in 1956.

## Phillies Slice Game From Giants' Lead

By MIKE RATHET Associated Press Sports Writer

Philadelphia's flip-flop Phillies, rejoining the National League's more respected members for the 1962 campaign, have continued San Francisco's skid and cut another length off the Giants' bridge in that tightening pennant race.

Playing solid ball after shaking off the effects of last year's disastrous 23-game losing streak and a last-place finish 46 games back, the Phillies thumped the league-leading Giants 10-7 Wednesday night.

It was the third consecutive loss for the Giants who up until a week ago were pulverizing the opposition with 17 victories in 20 games and had built a 4½-game lead.

Now the Phils, striving to climb into the first division of the expanded 10-club circuit, have cut the Giants edge to 1½ games while moving into a virtual tie for sixth place.

The Los Angeles Dodgers moved into second place with a triumph over the New York Mets behind Don Drysdale's four-hitter. St. Louis, its six-game victory string ended by a 6-3 loss to Pittsburgh, dropped into third, 2½ back.

Houston blanked fourth-place Cincinnati 2-0 on Ken Johnson's five-hitter and Milwaukee beat the Chicago Cubs 4-2 as Warren Spahn posted the 34th triumph of his career with a five-hitter.

Tony Taylor and rookie Ted Savage each stroked a double and two singles, scoring three runs apiece, to pace the Phillies' 13-hit outburst against Mike McCormick (1-2) and four successors. Art Mahaffey (4-5) started for the Phils, allowed only four hits through six innings, but had to leave when his arm stiffened.

The Giants battled back with three runs each off relievers Frank Sullivan and Jack Baldschun but fell short.

The Dodgers cracked a 1-1 tie in the eighth. Ron Fairly's sacrifice fly knocked in the winner before Frank Howard's rounder added an insurance run. The victory was Drysdale's sixth against three losses. Roger Craig (2-5) went the distance, allowing 11 hits.

The Pirates jumped on Larry Jackson (4-5) for four first-inning runs. Ken Boyer homered for the Cards and Bill White went 4-for-4 but it wasn't enough. Harvey Haddix (3-2) got the victory with relief help from Tom Sturdivant and Diomedes Olivo.

Johnson's five-hitter gave him the edge over Reds' starter Bob Purkey, losing his first after seven triumphs despite holding the Colts to eight hits.

**Richter Tops League In Total Bases: 39**

CHICAGO (AP)—Pat Richter, Wisconsin football star who also turns in a creditable performance on the baseball diamond, is the Big Ten leader in total base hits with 39.

Big Ten statistics released Wednesday show that Richter also is tied with John Nachado of Ohio State with most doubles during the 1962 season. Both had six.

UCLA basketball coach John Wooden, who coached the Bruins to a fourth place finish in the 1962 NCAA basketball tournament, is a 1932 graduate of Purdue.

## Fireman Given Leave to Take Pacific Cruise

A leave of absence Wednesday was granted a member of the Winona fire department so that he can accompany his Explorer Scout post on a Pacific cruise aboard a Navy transport ship.

Cleo Keiper, assigned to Central station and for five years active in Boy Scout work at Central Lutheran Church, sought the leave for the period of July 16 to Sept. 2 when Explorer Post 2 sponsored by Central Lutheran, will be on cruise to Hawaii, Guam and the Philippines.

The post, and some other local Scouts, was awarded the tour in recognition of its selection as the outstanding youth group in the 17-state Ninth Naval District.

Members of the fire department who are on duty 24 hours and off 24 receive three additional off-duty days a month, known as Kelly Days. By working on his Kelly days for the remainder of the year Keiper proposed to make up the leave of absence.

"This is a real honor the post has received," Mayor Ellings told the board. "Keiper has worked closely with the boys of the post and I hope that if there is any way possible for his request to be granted the board see fit to do it."

Commissioner Harold S. Streater said that he didn't object to Keiper going on the cruise but he questioned whether the board legally could pay him for time he didn't work. Streater said that, in fact, city employees are not paid for days off—like Kelly days—in the fire department or Sunday's for other municipal employees on a 5½ day week—and that allowing him compensation for these days would be setting a precedent.

**AFTER AN extended discussion** of the issue the board adopted a resolution granting Keiper the leave of absence with the assurance that he would be granted overtime pay for 18 Kelly days after his return to augment the vacation period and allow for compensation during the leave. Payment will be made on the

The people of Elgin, Hammond, Millville, Postdam, Bremen, and Forest Mound areas may obtain the vaccine at 25 cents an immunization, the clinic has announced.

The second dose will be administered June 30 and the third in September.

## Ambassadors Plan Visit to Arcadia

The Winona Chamber of Commerce Ambassadors, membership and good will committee, is organizing a good will caravan to the Arcadia, Wis., Broiler-Dairy Festival Sunday, June 3. William P. Theurer, ambassador supreme, announced.

Cars will assemble at 11 a.m. on Levee Park Road. "Hello from Winona" banners will be provided. The caravan will be led by Mayor R. K. Ellings and Steamboat Days and Winter Carnival royalty.

## Gift at Spring Grove

SPRING GROVE, Minn. (Special) — Spring Grove firemen donated \$20 to Trinity Lutheran School in memory of four firemen who died last year. The memorial was dedicated to Oscar Clauson, Knute Buxengard, C. P. Glasrud and Rudolph Reiersen.

Trinity Lutheran Church conducts a 12-grade school here for children attending on released time from public school. Elmer Mathson is teacher of junior and senior high school students besides directing the choir and assisting the Rev. Rolf Hanson, pastor of the congregation. Mrs. Gordon Pitell is teacher of the younger children.

## WSC Baseball Team to Be Honored Here

A recognition dinner for the Winona State College baseball team and the "W" Club's "High School Athletes Day" will be staged here Saturday.

The dinner will be held at 7 p.m. at the Richards Hall cafeteria honoring the Warrior nine and Coach L. A. McCown who has clinched a tie for their second NSCC championship.

The program will include brief talks and a social hour. Reservations for tickets may be made at the WSC athletic department offices.

Winona State's "W" Club will be host to area high school athletes and their coaches starting at 9 a.m. Saturday with registration at Memorial Hall. They will tour Memorial Hall, Pasture Hall, new science building, and the dormitory after a coffee and coke hour.

A luncheon will be held at noon at which Dr. Nels Minne, WSC president; Lance Johnson, "W" Club president, and Dr. Robert Campbell, incoming athletic director, will speak briefly.

All visiting coaches and athletes will be guests Saturday afternoon at the Winona State-Moorhead State baseball doubleheader at Gabrych Park.

# Stock Market Goes Higher on Brisk Recovery

NEW YORK (AP) — A brisk technical recovery put the stock market somewhat higher early this afternoon after two straight days of sharp decline.

The Associated Press average of 60 stocks at noon was up 1.70 at 232.50 with industrials up .70, rails unchanged and utilities off .10.

Gains of fractions to a point or so prevailed among most key stocks but scattered losers robbed the advance of much conviction.

Steels, motors, oils, chemicals, tobacco, electrical equipments and mail order-retails were mostly higher.

IBM advanced 10 1/4 from Wednesday's low to 426, but as the market upswing began to falter it fell from its peak and made a new low for the year of 408 showing a net loss of 9 1/4.

Beckman Instruments was up more than 3. Ligon Industries and Polaroid sharply cut gains of about 3 each. Xerox erased a gain of about 2 and showed a net loss of more than a point.

Gains of around a point or better were displayed by Ford, Texaco, Radio Corp., American Tobacco, Pizer and U.S. Rubber.

U.S. Steel, AT&T, Du Pont, Standard Oil (New Jersey) and General Motors showed slight gains.

The Dow Jones industrial average at noon was up 3.39 at 630.11.

Prices were generally higher in moderately active trading on the American Stock Exchange.

Corporate bonds were irregular. U. S. government bonds continued to advance.
