WRECKAGE AFIRE . . . Flames from derailed cars leaped high Monday night in a fire which resulted when a North Western train and a truck collided at a crossing in Valley Junction, Wis. A passenger in the truck, perhaps two, were killed in the collision. Note height of flames compared with men in foreground. (AP Photofax)

Freight, Truck Collide

Woman Killed, Fire Started in Mishap

VALLEY JUNCTION, Wis. — The collision of a long freight train and a truck loaded with farm machinery at a rural crossing Monday night killed a woman and touched off a fire that was not brought under control until early today.

The blaze had resisted the desperate attempts of firemen from six area departments and three military bases.

Oakdale District Fire Chief Lloyd McCaskey said early this morning after the fight was nine hours old that it "looks like we can hold it now."

Heavy earth moving and construction equipment was brought in from Monroe County contractors and rented from adjoining Jackson County to separate the eight burning cars from the 37 other derailed cars. The wrecked cars, piled atop the truck at the Highway 173 crossing, included one loaded with sugar and 10 packed with plywood sheets. The stubborn blaze was centered in the plywood.

About 65 firemen were on the scene during the night.

The body of an unidentified woman, who apparently had been in the truck, was found under the wheel of a derailed car. Authorities believed a man died in the wreckage of the truck cab.

The wrecked cars were piled high at the crossing, and about 100 yards from a tavern and grocery store, the major buildings in this community of 60 persons.

The North Western Railway train and the truck collided about 6:35 p.m. The fight against the flames was launched by volunteer departments from Oakdale, Warren, Necedah, New Lisbon, Camp Douglas, Tomah and Lincoln.

When water was ineffective, fire fighting specialists were called from Volk Air Force Base. They were joined by other military units from Camp McCoy and Camp Douglas.

Foam used by the military firefighters to blanket the fire also failed to put it out. Milk trucks in the area were rounded up to bring in new supplies when fire officials decided to go back to water.

H. A. Johnson of Altoona, the engineer, said the truck showed no signs of stopping as it approached the crossing.

Johnson and two other crewmen in the cab of the twin diesel unit leaped to safety from windows. Two other crewmen in the caboose also escaped unhurt.

MOTHER OF THE YEAR . . . Mrs. Lorena Chipman, 75, of Provo, Utah, holds bouquet of roses after her selection as American Mother of 1965 by the American Mothers Committee, Inc., in New York. She is the mother of six children and wife of an inventor and physicist. (AP Photofax)

4 Red Trucks, 9 Freight Cars Hit by Bombers

SAIGON, South Viet Nam (AP) — U. S. Navy jets made four small strikes at North Viet Nam Monday night. They claimed four trucks and nine freight cars were destroyed or damaged.

Two Skyhawk jets participated in each of the two raids at targets between 80 and 100 miles south of Hanoi. All planes returned safely to their 7th Fleet carriers.

The Southeast Asia Treaty Organization, meeting in London, went into secret session today to debate means of halting the mounting Communist menace in the Orient.

The United States charged at the opening session Monday that the fighting in Viet Nam is being escalated by the Reds from guerrilla fighting to head-

Sales Tax Supporters Back Plan

ST. PAUL (AP) — Some 300 supporters of a sales tax packed a House Tax Committee hearing Monday, chanting, applauding and appealing for passage of a bill to relieve "onerous" personal property taxes.

Rep. Paul Overgaard of Albert Lea predicted that in the next few years there will be a sales tax in Minnesota "regardless of which party is in power."

Overgaard is sponsor of one of four sales tax bills in the House.

The committee listened to the proponents of the bills and took no action because opponents of sales taxes will be heard Wednesday night.

Some observers feel that any sales tax proposal has only the faintest chance of enactment this session.

Karl Neumeier of Stillwater told the committee Minnesota should join the other 39 states which now have a sales tax, adding "we should get in line."

Harry Bureau of Otter Tail County, which is the home of tax committee chairman Roy Dunn, said "the people of Minnesota are dead serious about tax reform," and "unless it comes this year, it will be the No. 1 election issue of 1966."

Among other speakers were Mayor George Vavoulis of St. Paul, Mayor Ray Stordahl of Moorhead, and Mrs. Odean Goss of Lewiston, a dairy farmer's wife who drew smiles from the committee with her novel, personal approach.

Mrs. Goss brought cold facts — with names attached. She said she and her husband, with five sons, pay \$332 in personal property taxes on their 200-acre farm.

A man who lives in Lewiston, with four children, pays only \$5.36, she said, and his name is Sen. Roger Laufenburger.

Vavoulis appealed to the committee to include property tax relief and financial help for cities in any reform bill.

San Salvador Area Evacuated In Earthquake

SAN SALVADOR, El Salvador (AP) — Areas around San Salvador were evacuated today as earth shocks continued. Reports of the toll in Monday's quake ranged from 43 to 150 dead.

The government declared a state of emergency and started mass inoculations against typhoid and other diseases in the areas of heaviest damage.

Many homes were destroyed and at least 4,000 were damaged. Adobe shacks on the outskirts of San Salvador were hardest hit.

The official residence of U.S. Ambassador Raul Castro suffered about \$35,000 damage. Castro, a former judge in Tucson, Ariz., said no Americans of the embassy staff were hurt.

The government put the death toll at 43 and said about 300 were injured. Other reports said as many as 150 were killed and 400 or more injured.

Reports received Monday night at the U.S. military headquarters in the Panama Canal Zone said there were 101 dead and 300 injured. A spokesman said no request for U.S. assistance had been received.

The quake cracked part of the runway of San Salvador's airport and damaged the new multimillion-dollar terminal building.

The first shock came at 4:02 a.m. San Salvador newspapers said its force registered 7.5 on the Richter scale. Other shocks came at 9:02 a.m. and at noon. A ham radio operator said he counted 10 tremors.

The quake apparently centered in San Marcos and in Santo Tomas, about 10 miles southeast of San Salvador. Extensive damage was reported in towns near the capital.

San Salvador was ruined by earthquakes in 1854 and in 1873 and was jarred heavily in 1917. The city, founded four centuries ago, has a population of about 160,000.

"YANKEE GO HOME" . . . American troops, after establishing a link between both sides of the beleaguered city of Santo Domingo, drive past the sign that tells them "Yankees, Go Home." The sporadic fighting continued as an OAS commission entered the rebel held sector of the city in an effort to bring about an end to the revolt. (AP Photofax)

Congress Asked for More Viet Funds

WASHINGTON (AP) — President Johnson asked Congress today to act immediately on a bid for an extra \$700 million to support United States' operations in Viet Nam and the Dominican Republic.

Johnson said that providing this money would be a demonstration of "a firm and irrevocable commitment of our people and our nation, whatever the risk or whatever the cost" in the two trouble spots half a world apart.

The chief executive gathered members of the House and Senate Foreign Affairs, Armed Services and appropriations committees in the White House East Room to outline his request and review conditions in both Viet Nam and the Dominican Republic.

In Viet Nam, he said American firmness "may already have brought us much closer to peace." Yet he saw no possibility at the moment for negotiation and said that the United States will continue to hit the North Vietnamese Communists.

With respect to getting the adversaries to a conference table, Johnson said in Texas fashion: "I'm a reasonably good cowboy and I can't even rope anyone to bring them in."

Congress appears to be in the mood to give Johnson what he wants in military spending to support his actions in Viet Nam and the Dominican Republic.

Usually budget-conscious Republicans suggested Monday that the administration might want to ask Congress for more military funds this year.

Rep. L. Mendel Rivers, D-S.C., chairman of the House Armed Services Committee, declared, "Whatever he needs, he's going to get as far as I'm concerned." He said he felt sure Congress would give the President any additional money he might need.

Rivers' committee last week authorized \$15.3 billion for the purchase of military aircraft, ships and missiles and for research and development. The

Some Progress Toward Peace Being Reported

SANTO DOMINGO, Dominican Republic (AP) — Negotiators of the Organization of American States reported headway Monday night toward a peace agreement in the Dominican revolt as U.S. forces sealed off the rebel stronghold in Santo Domingo.

Ricardo Colombo of Argentina, head of the OAS peace committee, said the negotiators had made "a great deal of progress toward a solution of the crisis" after a two-hour session with the rebel military command. He declined to give details.

The committee met with Col. Francisco Caamaño Deno, rebel military commander and his aides in rebel-held territory in downtown Santo Domingo. Earlier the inter-American group met with leaders of the military junta set up by Brig. Gen. Elias Wessin.

U.S. Marines and paratroopers boxed in the insurgent stronghold in the downtown area by establishing a corridor across the remaining exposed edge of the sector. Its avowed purpose was to assure a flow of supplies to an international safety zone set up for the protection of foreigners. Since the revolt erupted nine days ago they have been supplied by helicopter.

The U.S. troops took up positions in houses, alleys and garages. Some residents chatted with the soldiers, but others glared resentfully.

One Marine was killed and two were wounded Monday by sniper fire, some of it directed at the U.S. Embassy. Three rebels were reported slain. A U.S. paratrooper wounded in fighting earlier died in Puerto Rico, bringing to six the number of U.S. military personnel killed since Friday. The U.S. Defense Department said 23 Army men and 21 Marines have been wounded.

An unconfirmed report said a U.S. paratrooper also was killed Monday when his hand grenade accidentally exploded.

A U.S. Navy spokesman in San Juan, P.R., said an American was listed as missing in action after disappearing from a landing craft off Santo Domingo.

It has been estimated that 1,000 Dominicans have been killed and 1,200 wounded in the revolt.

U.S. officials in Washington said they had received reports that some of the rebels were beginning to hide their weapons and give up the struggle, at least for the time being.

President Johnson said in a speech Monday night: "We don't propose to sit here on our rocking chair with our hands folded and let the Communists set up a government anywhere in this hemisphere."

Johnson reaffirmed his determination to see that peace is restored and that the Dominican people are given hope of a stable government before U.S. troops pull out.

CAN'T FIND PICKERS

Strawberry Crop Rotting in Sun

SACRAMENTO, Calif. (AP) — California is looking into classrooms, kitchens and Army barracks in a desperate search for workers to harvest a multimillion-dollar strawberry crop reportedly rotting under a warm spring sun.

The recruiting drive intensified today as growers' spokesmen predicted that "this is just the beginning" of a crisis in California's lush fields, brought on by sustained fine weather.

O. W. Fillierup, executive vice president of the Council of California Growers, pointed to an acute labor shortage in the strawberry-rich Salinas Valley 100 miles south of San Francisco.

"Crops are rotting, and they are rotting because of a genuine labor shortage in spite of all the efforts by responsible growers to recruit and maintain a domestic labor force," he contended.

Fillierup laid the blame for the crisis at the door of Secretary of Labor W. Willard Wirtz. He said the government was told months ago that foreign workers would have to be put into the fields because there weren't enough domestics.

State labor union officials, however, replied to Fillierup that if growers paid more than the \$1.40 hourly minimum set by Wirtz, the crops could be adequately handled.

"The growers seem to think they are somehow entitled to government-supplied foreign labor if U.S. workers don't suddenly rush out to compete for jobs offering a guarantee of only \$56 a week gross on an eight-hour day, five-day-a-week basis," commented Thomas L. Pitts, secretary-treasurer of the state AFL-CIO.

Wirtz has authorized importing 1,000 to 1,500 Mexicans to the valley, but state employment director Albert Tieburg said they won't show up before the last week in May. Assemblyman Alan Pattee, a Republican rancher from Salinas, said Monday Wirtz was "too late with too little."

U of M Professor Pulitzer Winner

MINNEAPOLIS (AP) — John Berryman, 50-year-old University of Minnesota humanities professor who got the Pulitzer prize for poetry said he was "surprised" to have been selected.

"They used to give the Pulitzer Prize to boobs, but nowadays they give it to some serious people," Berryman commented Monday when told his "77 Dream Songs" had been selected for the prize.

He added that "in former days I would have refused" the prize but that "now I would be very happy to accept it."

Dominican Reds May Go Underground

AP Special Correspondent
WASHINGTON (AP) — U.S. officials see a serious possibility that as peace is restored in the Dominican Republic hard-core Communist leaders may go underground or take to the countryside with plans to wage a campaign of terror and subversion.

The U.S. government is represented by authorities here as being determined to make sure that so far as possible all measures will be taken to eliminate any danger of a Communist seizure of power before American troops leave the war-torn Caribbean island.

Thousands of Acres Flooded at Quincy

By THE ASSOCIATED PRESS
The Mississippi River pounded weakening dikes today in the Hannibal, Mo.-Quincy, Ill., area while water swirled over thousands of acres of farmland and through communities from Burlington, Iowa, to Hannibal, Ill.

The river is expected to crest today at 24.6 feet in Hannibal and 24.5 feet in Quincy.

The Mississippi cut a 10-foot swath half way through a dike on the Illinois side of the river, threatening 42,000 acres including the town of Hull, six miles to the east.

State police said farmers rushed to the scene and threw sand bags and other material into the opening. They said they thought the dike would hold, but the last of Hull's 535 residents have been evacuated.

A levee break closed the Mark Twain Memorial Bridge in Hannibal, U.S. 36, a main route from Indianapolis to Denver, was blocked off in Kinderhook, Ill.

The river burst two secondary levees Monday near Pleasant Hill, Ill., a community of 950 about 30 miles south of Quincy, and at Clarksville, Mo.

The Pleasant Hill break — a 50-foot slash — inundated more than 7,000 acres of farmland and drove families from about 20 homes.

The levee breaks lessened the pressure of the river on remaining dikes, and officials hoped they would hold.

But officials at drainage headquarters in New Canton, Ill., said excessive backups in a tributary of the Mississippi near Pleasant Hill, have increased the need for reinforcing dikes.

Hannibal, with a population of 20,000 and Quincy, with 45,000 residents, are on high ground, not in danger of flooding. Some industries just south of Quincy are threatened.

Flood officials have said that the flood danger will diminish when the river crests in the Quincy-Hannibal area. South of Louisiana, Mo., the tide flows into wider river bottoms where the threat is expected to be negligible.

DEAR ABBY:

Grades Down, So Bangs Go

By ABIGAIL VAN BUREN

DEAR ABBY: When my father saw my report card, he hit the ceiling. He said there was no excuse for grades like mine, and from now on I was going to act and look like a human being instead of a sheep dog. Then he went and got the scissors and cut my bangs. All the kids wear bangs down over their foreheads, just covering their eye-brows. I think it looks neat. So what if my grades weren't so great? Do you think cutting my hair was any solution? Yours for a speedy answer. PAUL

DEAR PAUL: Your father was annoyed with you because your grades were poor, and he punished you by attacking your bangs because they annoyed him, too, and were handy. Get those grades up, Paul. And if they are really good next report card time, I'll bet your father won't care if you wear your hair in a pony tail.

DEAR ABBY: Apropos your comment that the "male determines the sex of the child." Please let me assure you that it is indeed a female who makes the choice. Not the wife, however, but the wixen, Lady Luck. To be sure, the sperm cells carry the sex-determining load of chromosomes; but the male supplies great quantities of both kinds — apparently in equal numbers. And it is pure chance which will predominate. Perhaps it is not "pure" chance but, if not, it is just as likely that conditions in the female may favor "girl-making" or "boy-making" sperms as it is that the male asserts influence on this preponderantly random process. Let's not oversimplify. ANN ONYMOUS

DEAR ANN: Assuming you are correct, and it is a matter of "pure chance," who made "Luck" a lady?

DEAR ABBY: Every Easter since we've been married, my husband has bought me an Easter plant. I have told him a dozen times that I would rather have a corsage, but he goes right ahead the next Easter and buys me a plant. He says a plant is more practical because he can plant it in the yard later. I say if that is what he has in mind when he buys me an Easter gift, he is thinking of HIMSELF, not ME. What do you think?

PREFERS A CORSAGE

DEAR PREFERS: You should be glad he remembers you at all. When it comes to expressing gratitude for your husband's thoughtfulness at Easter, you certainly delay an egg.

DEAR ABBY: Last week I had five beautiful children. Today I have only four who are beautiful, and one who may be beautiful again, but we aren't sure.

My year-old baby put a plugged-in extension cord in her mouth and burned off her upper lip, and half of her lower lip. The doctor says it will take a series of plastic surgery operations to make her look half way normal again. Please, please, tell mothers to keep extension cords where children can't get them. It's a miracle my baby is alive today. If this letter saves just one baby from being burned as mine was, it will be worth the space in your column. I beg you to print this. HEARTBROKEN MOTHER

\$15 Million Damage In Puget Quake

OLYMPIA, Wash. (AP) — State officials Monday boosted estimated damage from last week's Puget Sound earthquake from \$12.5 million to \$15 million.

The Department of Civil Defense said the new figure is based on additional information from local officials and the Army Corps of Engineers.

Nest in Church Cross Burns

LEWISTON, Idaho (AP) — The congregation of the Lewiston Orchards Methodist Church was in the midst of the third verse of the opening hymn at their 11 o'clock Sunday service when the pastor interrupted the singing.

"The church is on fire. Let's all leave very carefully," he announced. The congregation filed out, and looked for the fire. The blaze was located in a bird's nest atop a large, 30-foot cross built into the front of the church.

A fire engine from a station half a block away doused the conflagration. The congregation went back to resume the hymn.

Speeding Diplomats Thrown Off Freeway

NEW BRUNSWICK, N.J. (AP) — New Jersey Turnpike authorities have ordered foreign officials who speed to be banished from the busy superhighway.

William J. Flanagan, the turnpike's executive director, has ordered state troopers to usher off the road speeders protected by diplomatic immunity.

There have been 44 speeding violations by diplomatic cars on the 118-mile turnpike in the past nine years, and in five cases the cars were going more than 100 miles an hour, Flanagan said. The speed limit is 60 m.p.h.

The turnpike is a link in a direct highway route between New York and Washington.

Board to Study Flood Threat on School Site

By C. GORDON HOLTE
Daily News Staff Writer

Mindful of the recent flood threat, a member of the Winona Board of Education Monday night suggested that the tentative selection of a tract near the west end of Lake Winona as the site of a new Senior High School be reconsidered with thought given to another area for building purposes.

Requesting additional study of the proposed building site south of Gilmore Avenue and west of an extension of Wilkie Street before the high school project enters its advanced planning stages was Franklin A. Tilman, 4th Ward director, who expressed concern over the 38-acre tract's general elevation of 652 feet.

School Board

ALTHOUGH this — of all the sites given serious consideration by the board when a location for the school was under consideration — was the only one that remained completely dry during the emergency period, Tilman asserted that engineering studies indicated that major dike defenses broken there might have been eight feet of water on the tract.

Acknowledging that the alternate site he was proposing had certain disadvantages, Tilman suggested that the board give new consideration to an area between old Highway 61 and the new highway and just west of Siebrecht's greenhouse.

Although this area had water on it during the period of the record river crest, Tilman pointed out that it has an elevation of 658 feet and by raising the site three feet it would be safe from the record river levels even though it is outside of the dike perimeter.

Explaining that the flood factor was the principal reason for his asking for a review on the site selection matter, Tilman said he could think of a

few other reasons, also, why the east end site might be more desirable.

If it's true that residential building areas to the west are limited, he observed, it would appear likely that any future substantial increase in population in the city might result in an expansion to the south and east and that construction of a new school in the suggested area might help stimulate this expansion. He expressed fear, that if industrial expansion were to take a westward trend into Goodview, Winona could become "a bedroom community for Goodview."

If rural school consolidation measures were to make it necessary for Winona's public school system to absorb rural pupils from this area now served by its high school, he continued, this could lead to the necessity of providing additional elementary school facilities which could be accommodated on the east end property but not on the proposed Lake Winona building site. The property referred to by Tilman is owned in part by Arthur Noeske and in part by W. S. L. Christensen.

AGREEING that careful study should be given to the Lake Winona area in view of the record flood threat this spring, board members questioned whether contemplated bolstering of the city's permanent dike system and, perhaps, some design factors might not insure — to as great extent as is possible — the security of the Lake Winona area.

It was selected in the first place because, among other things, it could serve within walking distance the greatest number of students of any of the sites. Tilman acknowledged that his alternate site would pose transportation problems.

Edwin O. Eckert of the Winona firm of Eckert & Carlson, associated with Caudill, Rowlett & Scott, Houston, Texas, as architects — for the school project, had some comments on the flood threat to the recom-

mended lake area.

HE MENTIONED that it appeared likely that the proposed site south of Gilmore Avenue could be raised to a level with additional flood safety factors at a cost less than that of extending utilities to the area suggested by Tilman.

Moreover, Eckert remarked, "Now that the city has won the flood fight with a substantial investment I don't think it will lie dormant but will continue to take steps to insure the protection of the entire city."

He said that he was sure that the experience of the past spring would result in a revision of plans of the Corps of Engineers for the new permanent dike system to provide protective structures against much higher river levels than had been planned prior to this spring's near 21-foot crest.

HE NOTED that the area suggested by Tilman now is outside the proposed dike system (Tilman said he was sure his suggested site would be embraced if a school were to be built there) and that as far as he was concerned, Eckert would prefer to have the school erected within a city dike network that undoubtedly over the years would be adapted to changing conditions should this become necessary.

After an extended discussion of the matter it was agreed that Eckert should obtain all information possible regarding flood factors as they affect the lake site and present the information to the board at its next meeting.

Eckert said that one of the things he thought should be determined, if possible, would be the exact amount of water that would have reached the lake building site had a dike broken. He questioned whether the amount previously cited would have developed should there have been a dike break.

HE SAID that if possible attempts would be made to obtain information about plans for the new permanent dike system and observed that a raising of the site, together with certain design adjustments, probably could provide the extra measure of safety desired.

Directors Monday agreed informally that James J. Kleinschmidt, Winona, be retained to topographic and site surveys. Kleinschmidt was expected to begin work this week and the cost is estimated to run something under \$1,000. Additional test borings on the site also are scheduled.

Board President Lawrence Santelman said that during the emergency, period all of the people he'd talked to "were tickled to death over the site we chose because it stayed high and dry."

Tilman, on the other hand, said that people he'd talked to had expressed concern over the possibility of a dike break and flooding of the site.

Dr. C. W. Rogers pointed out that a school building is an especially important structure in time of emergency because of its potential use for housing and caring for persons evacuated from other areas.

EDWIN O. ECKERT of Eckert & Carlson, Winona, associated with Caudill, Rowlett & Scott, Houston, Tex., an architectural and engineering services for the new high school, told board members that another team of CRS representatives from Houston will be in Winona the week of May 17 for additional work here on design development.

Meetings of the architects and high school department heads are planned for that week and a meeting with the school board probably will be called later in the week.

Red Cross Asks Early Request For Flood Aid

The Red Cross is urging anyone who feels he might need assistance with flood losses to register as soon as possible at the chapter headquarters, 5th and Huff streets.

Harry Garst, Red Cross disaster worker from Sioux Falls, S.D., said the agency wants to close its disaster relief rolls here. No deadline has yet been set, however.

Garst, who has been — and is continuing as — the Red Cross representative in Cochran during the flood emergency, is replacing Mrs. Peg York, Atlanta, Ga., who returned home because of illness. Mrs. York was here during most of the flood crisis.

A Red Cross worker will be at the chapter headquarters between 9 a.m. and 5 p.m. each weekday to accept applications for assistance, Garst said.

Few actual applications have been received.

Mrs. Margaret Dorn, executive secretary, said that surplus commodities, however, have been distributed to numerous families. To those dislodged from their homes temporarily and to those who were hosts to displaced families. Some food remains.

Band Concerts At Commercial Events Ruled Out

Performance of the Winona Senior High School band at dedication ceremonies for a new shopping center wouldn't be in accordance with usual school policies, members of the Board of Education agreed Monday night.

Actually, the band hasn't received a formal invitation to participate in events planned for the opening of the Miracle Mall shopping center on Gilmore Avenue later this month.

Superintendent of Schools A. L. Nelson told board members at their committee of the whole meeting, however, that since the municipal band isn't organized for the season yet there had been some mention of the possibility of the high band playing.

Board members observed that, in the first place, it would be inadvisable to have band members miss a portion of the school day for such a performance, especially since the school year has been curtailed already by the extended Easter recess necessitated by the flood emergency.

Moreover, it was noted, the band hasn't played in the past except at school-associated activities or specific civic events.

Since there has been no invitation extended no action was taken or planned but the superintendent was advised of board feelings on the matter.

Wabasha Sentencing

WABASHA, Minn. (Special) — Richard Wegman, 18, and Duane Adler, 19, Rochester, pleaded guilty to larceny before Municipal Judge Kenneth Kalbrenner here Monday afternoon.

Each was sentenced to 60 days in the county jail for purse snatching at the American Legion Club dance at Millville Saturday night. The sentences were suspended, continued for six months, and the men were restricted from Wabasha County.

The ferocious robber fly has a mustache and beard. The brightly mass helps protect the fly's eyes from struggling victims.

Engineers' Report Near on Dike Costs

By FRANK UHLIG
Daily News Staff Writer

A Corps of Engineers team, surveying flood protection costs for the Office of Emergency Planning, expects to finish its report by Thursday, the City Council learned Monday night.

Heading the group of five engineers at the council meeting was Lloyd Tyner, St. Paul, Corps area engineer for emergency flood control. He was accompanied by Melvin Jordahl, St. Paul district office; Roger G. Fast and Howard Gregory, Chicago division office of the Corps, and H. C. Krause, resident engineer for the Minnesota Highway Department.

JAMES BAIRD, city engineer, said the team's report will comprise about three-fourths of the total federal funds to be requested in the city's project application for OEP disaster relief. It covers the fields of emergency dike building and of debris clearance, which means their eventual d is mantling, prior to replacement by permanent structures.

City Council

The report will be preliminary, Baird pointed out, and very likely will be followed by supplementary applications as thorough examinations reveal other damages to city properties and services. He noted the city's urgent need of immediate funds and suggested that the team's report be the basis of a first application to OEP's Mankato office.

A number of contractors' bills have been received, Baird said, but it is vital that all others be turned in quickly. These will form the basis of the team's report on emergency protection costs, Tyner agreed. He also pointed out that OEP would not require a wholly accurate estimate at this point and would quickly forward a 75 percent advance on whatever figure is submitted, provided it is "reasonably close" as borne out by totals of bills received up to now.

AUDITS OF ALL requests will be made by state officials, Tyner said, and comparisons will be made. Consideration will be given to the fact that price negotiations or contracting procedures were impractical or impossible, he said, and that unit prices therefore will likely be higher.

Council President Harold Briesath asked engineers to "guarantee" that present emergency dikes would be replaced this year by permanent structures. The city wants "assurance that we won't be caught without a dike," he stated. Briesath noted that Lt. Col. Leslie Harding, district engineer, had talked about possible removal of various parts of the dikes.

Walking the dikes, Fast said, the team was "impressed by their magnitude and excellence. However, the contractor, Park Construction Co., will expect to begin work within a few days, he said, and a review of the work is necessary. Park Construction Co., will expect to begin work within a few days, he said, and a review of the work is necessary. Park Construction won the contract last fall for permanent dikes between Prairie Island and Huff Street.

The original Corps design was adequate for this year's exceptional flood, Fast said. It calls for dikes that will contain a 20-foot stage with three feet of freeboard.

Corps engineers hope to go ahead with their plan, with changes to include some of the present construction, he said. Compaction and materials are not according to Corps specifications at some points, Fast said. The Prairie Island dike section, which includes flood gates on Crooked Slough, probably would be kept, but nearly all the remaining dikes would have to be replaced, he said.

Another reason for their removal is that these costs should be put into OEP estimates, Fast pointed out. This would include refilling of borrow pits, particularly a large excavation in the Chicago & North Western switch yard, now strongly urged by the rail company.

Mayor R. K. Ellings suggested present dikes be kept and that appropriations be diverted to construction of a wall that would protect downtown industries that were flooded this year.

Fast replied that the Corps does not want to be responsible for dikes built without its stamp of approval at all stages. Jordahl added that a supplementary resolution would be necessary for consideration of new area inclusions. Meanwhile, he argued, other work should not be delayed while such a request made its way through customary channels.

Briesath, noting that quick refilling of the C&NW borrow pit is urgent, Fast suggested that OEP aids might be paid if the material were obtained elsewhere than from the standing dikes. Tyner advised President Briesath to get an opinion on the question from OEP officials in Mankato.

Mayor Ellings asked whether the dredge William A. Thompson could be operated in nearby channels and the dredged material put into the crater. Tyner said it may already have been committed for the season and its procurement is doubtful.

The Corps design memorandum for permanent controls had been valuable, Baird pointed out, because it showed the amount of interior pumping capacity needed. These needs, known in advance, were adequately met by ordering emergency pumps in from many points, he said.

Nevertheless, the permanent plan requires more study, Baird suggested. Since he says the river gradient rises about one foot per mile, a break at Minnesota City could make 22-foot levees at Winona useless, he said.

Such an upstream break, where the level might well be 24 or 25 feet, would be disastrous here, Baird contended. This possibility makes it imperative that clay cores be installed along riverward sides of railroad grades northwest of the city, he said.

Conceding that a review is possible, Jordahl restated the Corps position that work should proceed now because a full study of the whole project could hold up work indefinitely. A final decision probably will be given by Col. Harding in a few days, engineers said, in which the sections to be retained or removed will be designated.

The driest spot on earth is Chile's Atacama Desert, the National Geographic says. At one place, Calama, no rain has ever been recorded. Rain fell throughout the area is barely measurable.

The other two bids were by American Plumbing Co., which offered prices of \$18,028 and \$8,720.

City Engineer James Baird said the diversionary line will enable the city to transfer flow from the Huff-Olmstead area to storm sewers for direct exhaust into the river if flooding makes this necessary.

Man Dead of Burns
ROCHESTER, Minn. (AP) — Chester E. Bethke, 50, of rural Waseca, died Sunday of burns received when his tractor caught fire in a field near his farm home Saturday.

Europe has some 4,500 miles of superhighways in use.

Repair Work Without Bids Gets Approval

Emergency authority was voted Monday night by the City Council giving the city engineer and street commissioner power to effect emergency repairs without contracting for work.

City Engineer James Baird reeled off a long string of damages to city streets and sewer facilities, all of which he said should be fixed immediately. Aldermen instructed the department heads to distribute work among contractors as evenly as possible.

Some of the 35 items Baird said were on the list were sanitary sewer breaks on Bellevue Street between Sioux and Dakota streets and on Howard Street, just east of Lafayette Street. These involve sections 50 to 100 feet long. A storm sewer at Main Street and Broadway also has settled out of alignment, he said.

At the city's primary treatment plant, still being cleaned up after flooding, a 30-inch gate valve must be replaced, he said. The plant's digester and gas holders also need cleaning so the plant can be put back into operation.

Storm sewers need repair at 3rd and North Baker streets, 5th and Jefferson, Johnson and Front and on 2nd Street from Huff to Harriet street.

A number of streets in all parts of the city have had surfaces heavily damaged by truck traffic, Baird said. All work will be eligible for federal government reimbursement, he said.

2 Sewer Jobs Cost \$25,190

Bids on two sanitary sewer construction projects were opened Monday night by the City Council, with only two firms submitting proposals.

A main extension to the Louis Streets location of the new Gorman Foundry Co. building was awarded to Winona Plumbing Co. at a bid of \$17,690.

The firm also was low bidder on a diversionary main to be laid on 2nd Street, from Huff to Olmstead street, at \$8,500.

The other two bids were by American Plumbing Co., which offered prices of \$18,028 and \$8,720.

City Engineer James Baird said the diversionary line will enable the city to transfer flow from the Huff-Olmstead area to storm sewers for direct exhaust into the river if flooding makes this necessary.

School Term May Extend To June 11

It appeared likely today that the school year for Winona's public schools may be extended two additional days this spring to compensate for time lost because of the school closing prompted by the recent flood emergency.

The Board of Education was advised by Superintendent of Schools A. L. Nelson that the extended recess at Easter had reduced the school year — if the original schedule for spring dismissal were to be followed — to 174 days, four fewer than originally planned.

HE NOTED that the North Central Association, which accredits high schools, requires a school year of at least 175 days for a high school and this would not be met if the school year were to be ended on Wednesday, June 9, as originally scheduled.

Nelson suggested two alternatives for makeup. One would be having school on May 31, the day after Memorial Day and a legal holiday; the other would be extending the school year later in the final week.

Board members agreed with Nelson that scheduling classes for the day after Memorial Day would probably draw some strong objections from parents who traditionally plan trips or other activities over the long weekend.

ALSO TAKEN into consideration was the fact that May 31 will be a legal holiday for school custodians and other personnel. Informal agreement ultimately was reached that school classes should be continued through Thursday of the final week and that elementary school children would return on Friday for their report cards. That would provide a school year of 176 days.

Further consideration will be given the alternatives and formal action establishing the dismissal time will be made at next Monday's meeting.

Police Arrest Accomplice in Fiberite Theft

Police announced today the arrest of a youth named Monday by admitted burglar Donald Singer as his accomplice in the burglary Feb. 28 of a vending machine at Fiberite Corp., 515 W. 3rd St.

Michael Kapustik, 19, 22 Otis St., is scheduled to be charged Wednesday in municipal court with burglary. He was named Monday afternoon in District Court by Singer when Judge Arnold Hatfield asked Singer who had been his accomplice in the burglary.

Singer pleaded guilty to a burglary charge which could bring him a maximum sentence of five years in prison. Judge Hatfield ordered a pre-sentence investigation for Singer after hearing the youth's guilty plea.

County Attorney S. A. Sawyer represented the state in the case and swore out a warrant for Kapustik's arrest Monday afternoon. Attorney Dennis A. Challen represented Singer.

Rochester Going On DST Sunday

ROCHESTER, Minn. — The Rochester City Council voted Monday to go on daylight saving time from 2 a.m. Sunday, May 9, until 2 a.m. Sunday, Oct. 31.

Rochester has previously observed the official statewide DST dates from Memorial day to Labor day.

FOUNTAIN CITY HAIL.
FOUNTAIN CITY, Wis. (Special) — Hail as large as walnuts fell at Fountain City between 8 and 8:30 a.m. Monday. Heavy rain and wind followed but no apparent damage was done.

County Gets Bids; Center Limit Up

Bids on bituminous material, crushed rock surfacing, petroleum products, a truck, a soils drill and two tractors, with mowers were opened by the Winona County Board of Commissioners this morning.

No contracts were awarded. They are to be let this afternoon, after Gordon M. Fay, county highway engineer, has had an opportunity to check all bids submitted.

OTHER ACTION by the board this morning included approving a state special law giving the county authority to spend up to \$10,000 a year on the veterans service center here, granting two requests for homestead classification and placing monthly reports on file.

There were four bidders on crushed rock surfacing — part of county-wide maintenance work this year. Bidding on the entire project was N. A. Roverud Co., Winona, \$46,655.02; Patterson Quarries, Inc., St. Charles, \$47,545.46; and Fred Fakler, Winona, \$46,125.90.

Hector Construction Co., Inc., Caledonia, bid on part of the project. Its price for work on eight roads is \$8,707.

Bidding on bituminous material for maintenance were Hector Construction Co., Inc., with a price of \$67,645.36, and Dunn Blacktop Co., Winona, \$94,195.92. Hector apparently did not bid on the entire project, a quick examination of the firm's bid revealed.

NET BIDS on two tractors and mowers were \$13,333 from Feltan Implement Co., Winona, and \$11,342.76 from Spitz Oil & Implement Co., Rollingsstone.

Winona Truck Service was the only bidder on the four-wheel drive truck. Its price is \$5,395. It will allow \$995 for the county's trade-in vehicle, making the net price \$4,400.

Two bids were received for supplying soils drill and installing it on the new truck. The price submitted by Hayden-Murphy Equipment Co., Minneapolis, is \$5,688.65, while that of Central Equipment Co., Minneapolis, is \$5,385, with an alternate price of \$5,785 for a more powerful model.

There were three bidders on the petroleum products, which include gasoline, diesel fuel and fuel oil. Prices (per gallon) submitted are as follows:

Tri-County Cooperative Oil Association, Rushford — gasoline, 14.2 cents; diesel fuel, 11.4 cents, and fuel oil, 11.4 cents.

Mobile Oil Co., Niles, Ill. — gasoline, 13.9 cents; diesel fuel,

11.4 cents, and fuel oil, 11.4 cents.

Standard Oil Co., Minneapolis — gasoline, 14.1 cents; diesel fuel, 13 cents, and fuel oil, 11.5 cents.

THE RESOLUTION approving the state's law raising the limit on county expenditures for the veterans service center will enable the state action to be put into effect. The county had earlier asked for such legislation by the state. The county's previous limit on expenditures for the center was \$8,000.

The homestead classification request granted — both of them recommended by David V. Sauer, county supervisor of assessments — affected Walter M. Henderson, Dakota, and Joseph Nation, 1276 W. Broadway.

The action lowers the assessed valuation of the Henderson property from \$680 to \$425. Nation's property's assessed valuation is lowered from \$1,720 to \$1,120.

I 90 HEARING SLATED

HIXTON, Wis. — The Public Service Commission will conduct a hearing in Madison May 17 at 2:30 p.m. on petition of the Highway Commission to establish two highway overpass crossings of tracks of the Green Bay & Western Railroad Co. on Interstate Highway 94 near the east limits of Hixton.

Meetings of the architects and high school department heads are planned for that week and a meeting with the school board probably will be called later in the week.

FIRST-HAND LOOK... These students, watching a county board meeting, are half of a group of high school juniors from Winona Senior, Cotter, St. Charles, Lewiston and Rollingsstone Holy Trinity high schools, here today for boys and girls county, sponsored by the American Legion. After visiting

county offices, the jail and the Winona County Board of Commissioners, they heard county Superintendent of Schools Jesse B. Jestus speak at a luncheon at the Legion club, then discussed county government with attorneys Harold Liber and Leo F. Murphy Jr. (Daily News photo)

SPECIAL NOTICE

TO MEMBERS OF LOCAL 14782, DISTRICT 30 UMWA
(ARCHER-DANIELS-MIDLAND EMPLOYEES)
— TWO IMPORTANT DATES —

Tuesday, May 11, 1965 — Election of International Officers, West Recreation Center, Winona, Minn. — 2 p.m. to 4 p.m.

Saturday, May 15, 1965 — Regular Monthly meeting in the Sky Room at the Hotel Winona — 6:30 p.m., Nomination of Local Union Officers.

NOTE CHANGE OF DATE & PLACE OF MEETING!

It Happened Last Night

Preston Back With His Wife

By EARL WILSON

NEW YORK — Robert Preston, who separated from his wife Cathy twice recently — announcing April 4 that he'd marry his blonde Swedish leading lady Ulla Saltert — is once more back with his wife at their home in Rye. His plans to marry Ulla, "the Mary Martin of Sweden," an ex-baroness who'd divorced her baron, are, of course, off. Preston and Ulla, who had emotional struggles on stage in "Ben Franklin in Paris," due to their on-and-off romance, won't have those on stage any longer — the show closed Saturday — the season's over. We hesitate to say this decision by Preston is final, because, as he himself has said, "I keep coming back like an unclaimed letter."

Kim Novak on the phone from Beverly Hills invited the B.W. and me to the "Moll Flanders Ball" at the Waldorf May 7 — said she hoped "I'll be taking time off some time to have a baby" — but nothing in sight yet — and about her marriage to leading man Richard Johnson: "It's a bit of adjustment, but, yeah, I think it's good."

She thinks it's so good, I learned privately, that she insists on doing her next film in London, to be near him... Tony Bennett, single-o nowadays, is back from Europe... "Mai Davis" — that's Sammy's wife — studies painting 3 hours daily with Benay Venuta.

EVERYBODY'S talking about Chef Huntley's story of the Vice Admiral whom the King invited hunting at his country estate. The Vice Admiral, who shot an armadillo, later reported, "I don't know what I shot, but it had a big rear and a long nose." The guards shouted, "Oh, my God, you probably killed the Queen!"

The Alan King-Sheila MacRae triumph at City Center in "Guys and Dolls" was saluted with one of the Friars' greatest parties. King, who lost thousands in cafe and club dates doing this show, said, "I'm tired of being thought of as a one-dimension actor." He next wants to direct, which'll cost him even more... Now that Easter has passed, my B.W. wants to name the Best Dressed Men who include: Rudy Vallee, John Daly, Alan Gould, John Chapman, Les Carpenter, Russell Crouse, Howard Lindsay, Lewis Funke, John Effrat, Howard Teichmann... Capt. Peter Townsend told friends he's seeking new business connections.

TODAY'S BEST LAUGH: Paul Anka went golfing, and

complained: "They kept telling me to keep my head down — and while I did, someone stole my golf cart."

WISH I'D SAID THAT: When a woman insists that she doesn't repeat gossip, she means you'd better listen carefully the first time — Quote

REMEMBERED QUOTE: "Public speaking has become such a popular subject in schools that they should introduce courses in listening, just to keep things balanced." — Frank A. Dickson.

EARL'S PEARLS: "The joys of motherhood are what a woman experiences every day, when the kids are finally in bed." — Anon.

Pat Henry notes at the Copa that some food prices at the Fair are high: "Give the man at the snack bar a quarter and tell him you want a frankfurter — and he'll tell you where you can get one." That's earl, brother.

Drunken Flying Bigger Problem Than Suspected

WASHINGTON (AP) — Federal aviation officials fear they may have a bigger drunken flying problem among private pilots than they ever suspected.

The bases for this concern, a House Appropriations subcommittee was told, were the findings of some 50 autopsies conducted on crash victims.

"To our great surprise, there has come out of these autopsies a much more serious drunk flying problem than we understood there to be before," said Nabeeh E. Halaby, in testimony March 2 before he resigned as Federal Aviation Agency administrator. The testimony has just been made public.

Halaby stressed that he was talking about private pilots, not airline pilots.

"The problem on air carriers, as far as we can ascertain, does not exist. The airline pilots do not drink," he said.

For the past several years, he explained, there have been about 500 fatal crashes each year killing 900 to 950 persons in general aviation.

"We thought that the average pilot, with the amount of experience he had had and the respect he had for the elements, just would not drink before flying," said Halaby. "We now find that one-third of the sampling we have taken of these fatal accidents in the year 1963 were probably under the influence of alcohol."

However, most common fishing places were inaccessible. The road to Prairie Island was closed. The Minnesota City Boat Club could not be reached. All large Winona harbors were out and most boat fishermen took one look at the rough main channel current and turned around and drove home with their boats.

Professional sport fishermen like Karl Conrad Jr. and John

McGuire, with their big boat, came back after an exploration trip Saturday without any wall-eyes. They could not get them on artificials. Bait fishing was better.

Areas below the dams generally were rated as fair by most fishermen. The current made fishing from a boat almost impossible. Those in boats were hugging the shoreline which is no place near where shorelines should be. Snags were plentiful in the flooded areas. There were some big northerns taken from among the trees and out of the submerged weeds. Riprap rocks were far out from shore below the Winona dam but great lure traps.

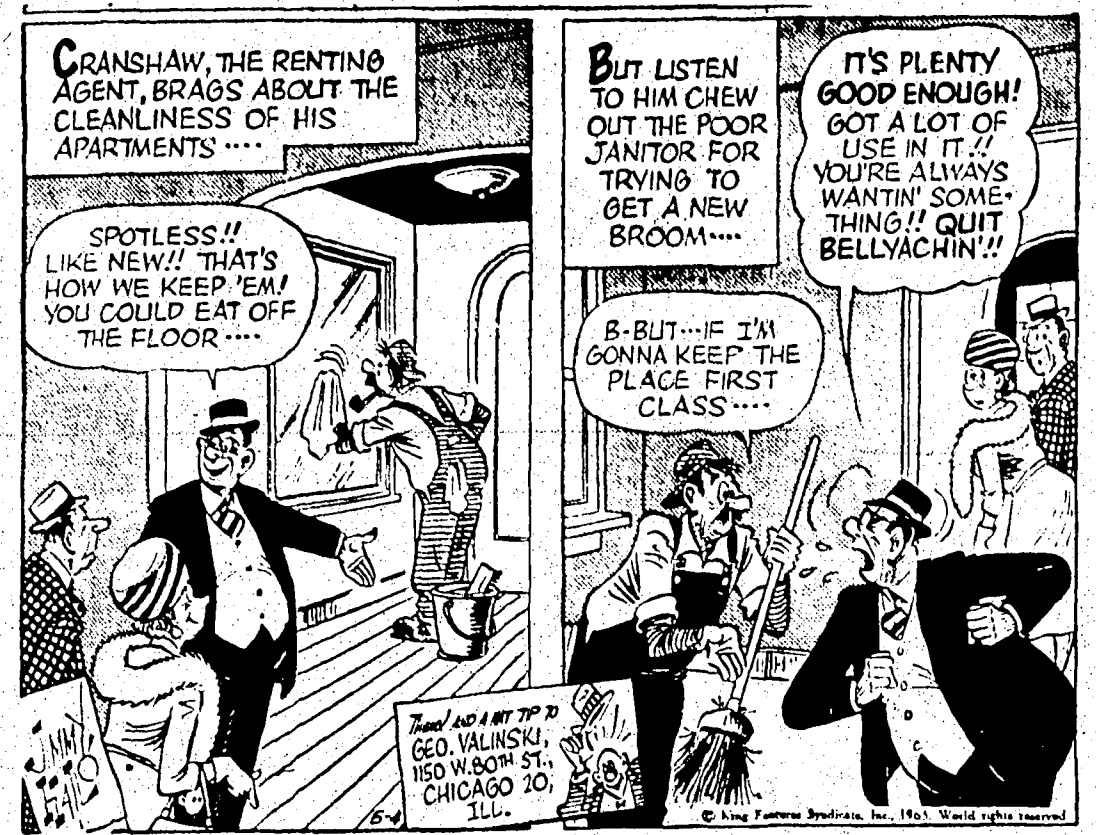

The Big Rainbow Elmer Hede's eight-pound rainbow still is the fish of the year in the conversation of trout fishermen. It is as far as they know, the biggest rainbow taken out of the Whitewater in recent years. There has been some larger browns but as to rainbows, even the Mauer's don't recall a bigger one.

It is doubtful, according to Russell Hanson, Lanesboro, who is responsible for the release of brood stock, that it is a fish turned loose in recent years.

Heeden's fish, Hanson estimates, from the description we gave him, was at least nine years old. The rate of growth after they get six pounds is very slow in the local streams. Instead of migrating, this fish, probably like brown trout do, decided to be different and found a deep hole over which it reigned under a good protective bank.

They'll Do It Every Time

By Jimmie Hatlo

Voice of the Outdoors

Top Walleye This eight-pound, eight-ounce walleye, caught by William Boeniges, 1126 W. Broadway shown holding the fish, so far is the top walleye of the week-end caught locally. Bill is the son of Mr. and Mrs. Robert Boeniges. He got it on a gold sonar below the Winona dam.

From Alma comes the report of a ten-pounder caught by Gerald Smith Saturday while fishing along the lock wall. Smith and his daughter got a string full of big ones that went around 50 pounds.

River fishing over the weekend was only fair. Some fishermen who found the fish while fishing off shore and mainly in the backwaters got a few fish. The walleyes and saugers seemed to be still lingering in the larger sloughs.

However, most common fishing places were inaccessible. The road to Prairie Island was closed. The Minnesota City Boat Club could not be reached. All large Winona harbors were out and most boat fishermen took one look at the rough main channel current and turned around and drove home with their boats.

Hail Damage Extensive in Fairmont Area

By THE ASSOCIATED PRESS

Hail driven by strong wind hammered the Fairmont area Monday, causing extensive window damage in some communities. Farm buildings were wrecked or damaged by wind.

At Truman, 15 miles north of Fairmont, hundreds of windows were smashed. Forty-eight panes were broken in the high school.

Store keepers got out snow shovels to clear hail drifts that collected in doorways. The hail stones ranged in size up to near-golf ball circumference.

Jerry Teig, Truman bank worker, said the storm approached about 4:30 a.m. with a roar. "It sounded just like a train rushing in," he said.

Hail damage also was reported at Trimont, about 15 miles southwest of Truman. Many buildings in the Truman and Trimont areas were pockmarked by the wind-driven hail and some roofs were damaged.

A barn on the Howard Strade farm near Trimont was wrecked by wind. Several head of cattle were trapped when a barn collapsed on the Willard Wolff farm in northeastern Jackson County.

Cardinal Warns Marching Nuns

IPSWICH, Mass. (AP) — Richard Cardinal Cushing has told about 1,000 Sisters of Notre Dame that the nuns place is in the classroom — not marching in street demonstrations.

Cardinal Cushing made no reference to Southern civil rights demonstrations in which nuns took part.

The cardinal, in his second public appearance since undergoing surgery last February, took part Sunday in dedication of a statue of blessed Julie Billiart, French founder of the Sisters of Notre Dame order.

He urged the nuns to do their part toward canonization of blessed Julie "and by that I don't mean carrying placards. I don't think you'll find in the story of Julie Billiart's life where she went out on the highways and byways."

Very few big rainbows stay in Southeastern Minnesota streams, Hanson said. They are migratory and go downstream to the river in the fall. Some of them return to spawn in the spring. It is doubtful that any fish hatched from spawn in any of Southeastern Minnesota streams grow to adult or fishable age.

Heeden's fish, Hanson estimates, from the description we gave him, was at least nine years old. The rate of growth after they get six pounds is very slow in the local streams. Instead of migrating, this fish, probably like brown trout do, decided to be different and found a deep hole over which it reigned under a good protective bank.

Retired Director Leads Blair High Band in Number

BLAIR, Wis. (Special) — An 82-year-old retired band director was invited to direct the last number on the program at the annual spring concert of the Blair High School music department Thursday night.

Frank Smith, who wielded the baton, lives in Galesville. He and his wife came to the concert with Mrs. J. O. Beadle, Galesville, who teaches French and English here.

Everett Berg, director of the junior and senior bands here, invited Smith to take over in recognition of his many years as a band director. He organized the first band at Blair High School.

Following the concert, Music Mothers served lunch to the capacity audience in the school auditorium.

Whitehall Spring Concert Slated For Wednesday

WHITEHALL, Wis. (Special) — The annual spring concert by the Whitehall High School band and chorus will be presented at 8 p.m. Wednesday in the school auditorium.

The vocal portion of the program will include sections from "Ben Hur" and the "Hallelujah Chorus" from Handel's "The Messiah," sung by the mixed chorus, as well as two works sung by the boys glee club.

The band's part of the program will include "Death and Transfiguration," the work it will play in this year's music contest. Richard Herried will be featured in "Reflective Mood," a trombone solo with the band.

Barbara Leavitt is the group's accompanist.

Volcanic heat furnishes much of the electricity used by the Italian State Railways.

C'mon in...

Concert Set At Trempealeau

TREMPEALEAU, Wis. — Trempealeau High School's music department will present its spring concert at 8 p.m. Thursday in the school gymnasium.

Participating groups will be the mixed junior high school chorus and the junior high girls glee club, both directed by Mrs. Marlene Steffes, and the senior band and choir, both directed by Eugene Steffes. In addition, the school's pom-pom girls will perform to hand accompaniment.

Rhonda Engelen is accompanist for the junior high groups, which will include folk songs and J. S. Bach's "To Spring" in their programs.

Steffes' arrangement of "Ebb Tide" will be one of the selections performed by the senior band. Beginning with "Thundercrest" march, the band's program will range from "Rhapsodic Essay," "Streets of Athens" and "The Good Daughter" overture, to such popular selections as "Begin the Beguine," "I Left My Heart in San Francisco" and "Trumpet Boogie."

The band's final selection, "Capitol Hill" march, will be directed by David Brunkow, student conductor.

The choir's program will include "When You Wish Upon a Star," "Summertime," "Let All People Praise the Lord," "God So Loved the World" and "The Christ Theme" from "Ben Hur."

Barbara Leavitt is the group's accompanist.

Volcanic heat furnishes much of the electricity used by the Italian State Railways.

Kansas City Judge Quitting

KANSAS CITY, Mo. (AP) — "The tragedy of too many men in public office has been that they did not know when to quit," said Judge Richard M. Duncan.

The judge, 75, used the line Monday in announcing he will retire May 31 from the federal bench. He was appointed to the U.S. District Court for Missouri in 1943 on the recommendation of Harry S. Truman, then a U.S. senator. Duncan had served 10 years in Congress.

Architect for Tech School To Be Named

A Winona firm of architects, W-Smith Architectural & Engineering Services, is expected to be contacted this week concerning planning for the proposed \$1.35 million Winona Area Vocational-Technical School.

Members of the Board of Education at their committee of the whole meeting Monday night informally agreed that W-Smith should be contacted to determine whether they are interested in preparing plans and specifications for the new school building and a meeting with representatives of the firm may be arranged during next Monday's board meeting to discuss the project.

Superintendent of Schools A. L. Nelson told board members Monday that one of the first things that must be decided is exactly what programs the new school should be designed for, what enrollment can be expected and how the design should accommodate future needs.

As yet no site has been selected but Nelson said that he thought that at least 20 acres should be provided to allow for parking facilities and possible future expansion.

Board members felt that within the next week or so an inspection tour should be made to study areas that might be considered desirable for vocational school building purposes.

Since the area of vocational school building — in its newest concept — is still a relatively new one, Nelson suggested that some expert acquainted with vocational school programs and construction be consulted in preliminary planning phases.

Construction of the vocational-technical school is a part of a multi-million dollar building program that also anticipates construction of a new Senior High School. Both buildings are time-tabled for completion by the fall of 1967.

Outside the United States peanut butter is virtually unknown except as a health food. In England, a housewife may find it on the drug counter rather than on the grocery shelf.

AWARD — Marilyn Dahlen, Mabel, Minn., left, and John Wees Jr., Rochester, were the only representatives of Gamehaven Council receiving the Wood Badge award at the annual meeting of Region 10, Boy Scouts of America.

Mabel Scouter Receives Award

MABEL, Minn. — A Mabel Scouter, Marilyn Dahlen, was one of 24 men from Region 10, Boy Scouts of America, who received the Wood badge award at the 44th annual meeting at Minneapolis Sunday.

John Wees Jr., Rochester, was the other winner from Gamehaven Council. Presentation was made by Frank Preston of the national council training division.

Of more than 500 representatives present from 16 counties in Minnesota, North Dakota, Montana, Wyoming and parts of Wisconsin and Michigan, 49 Scouters and wives from the Gamehaven Council won the attendance prize for being the largest group present from outside the Twin Cities.

Peirce Receives Honorary Degree

ST. PAUL, Minn. — A Winona man was among the 15 adults who received state honorary farmer degrees at the Minnesota FFA convention here.

He is Harry Peirce, Winona FFA adviser and president of the Minnesota Vocational Agriculture Instructors Association. The 35 received the award for their service to FFA members.

More Kindergarten Space Being Sought

The problem of finding classroom areas next fall for an expanded kindergarten enrollment in already crowded public schools was brought to the attention of the Board of Education Monday night.

Although the exact number of

children to be enrolled won't be known until next fall — a pretty good idea will be had from data obtained at the annual spring kindergarten roundups during the next two weeks — it is known that an influx of some 50 or more children who would ordinarily be attending St. Stanislaus School can be expected next year.

ST. STANISLAUS won't be having kindergarten classes with the new school building program now under way.

Superintendent of Schools A. L. Nelson explained that Washington - Kosciusko School this year has had four kindergarten sections and there isn't room for expansion now at W-K.

Central Elementary School, the next easternmost elementary school, has two overcrowded sections, Nelson explained, but it's thought that room can be found there for two more sections.

Board members agreed with the superintendent that notes should be distributed to parents attending the kindergarten roundups this spring explaining the situation and pointing out that space limitations will necessitate the distribution of some children to Central Elementary.

Results of the roundup and subsequent enrollment studies will be considered in the ultimate decisions to be made next August on enrollment distribution.

ST. STANISLAUS figured in another enrollment discussion, too.

Nelson said that the Rt. Rev. Msgr. N. F. Grulkowski, pastor of St. Stanislaus parish, had contacted him informally on probable St. Stanislaus temporary needs for additional classroom space next year until their overall building program is completed.

The superintendent said that it was his understanding that St. Stanislaus has been assured of eight classrooms ready for occupancy next fall and that six others have been arranged for on a temporary basis at the old Notre Dame building and Cotter High School.

THAT STILL leaves two rooms to be acquired for temporary occupancy and Msgr. Grulkowski, while acknowledging that the public schools have a crowding problem of their own right now, wondered whether there was any possibility that some space might be made available on a temporary basis.

Nelson told board members that at the moment he didn't know what arrangements could be made, if any, but that a detailed study of building use would be made to determine whether some plan could be worked out.

LANESBORO PATIENT — Mrs. Stanley Danielson is a surgical patient at Olmsted Community Hospital, Rochester.

Assistant City Engineer Gets Informal OK

Growing work loads in the city engineering office make it necessary to hire an assistant engineer, the City Council agreed Monday night.

But the aldermen could not agree fully on whether to hire a graduate fresh from college or a more-experienced registered engineer. City Engineer James Baird estimated the younger man would command a starting salary of about \$8,000, compared with \$10,000 for the engineer with four years of experience or more.

IT SHOULD also be noted, Baird advised economy advocates, that all this year's civil engineering graduates at the University of Minnesota already have been placed. Aldermen suggested a subordinate would be preferable to a fully-qualified colleague, since some one in the department must give orders.

Ald. Jerry Brzyskowski, who favored the graduate idea, nevertheless believed the position would have a succession of short-term incumbents, each moving on as he acquired experience. Baird said adequate pay scales would be required and that would help insure stability. Ald. Neil Sawyer said the difference in value of a higher-salaried man might be more than the difference in respective salaries.

Ald. David Johnston asked where the money would come from, since it is not in the current budget. Ald. Sawyer said it is possible the first-year salary of such an assistant could be secured from the federal Office of Emergency Planning as a flood-related expenditure.

HE POINTED to the fact that some of the engineering design work ordered as much as five months ago is still unfinished because of excess work loads imposed by the flood crisis. At the suggestion of President Harold Briesath, the council moved to advertise in trade journals to see whether applicants may be found.

Two Eleva-Strum Entries Rate High

ELEVA-STRUM, Wis. (Special) — Two top ratings were won by Central High School students at the state music contest at Eau Claire State University Saturday.

Gwen Hatcher with a French horn solo and Gail Hatcher, vocal, won firsts.

Second places went to Gwen and Diane Back, piano solos; a woodwind quintet composed of Linda Larson, Gwen, Virginia Gullicksrud, Tanna Tweet and Carol Nelson, and a clarinet trio with Virginia, Linda Johnson and Marlys Hanson playing. Linda Wenaas, clarinet solo, placed third.

Dentists Advised To Walk a Lot

A dozen Winnans were among dentists from 35 states attending the three-day 82nd annual meeting of the Minnesota State Dental Association in Minneapolis recently.

They are Drs. C. A. and Curtis A. Rohrer, L. L. Korda, John Alampi, D. T. Burt, John M. Cross, W. Douglas James, George P. Joyce, R. G. McGill, E. V. Schoener, Roger J. Zehren and John P. Leubbe.

Nearly 2,250 dentists at the convention heard of techniques for preventing dental disease, controlling pain and repairing chipped teeth. They also heard some recommendations on how to maintain their own physical well-being.

Dr. Dennis Kane of the University of Minnesota medical

school told the dentists they should walk if they wish to avoid varicose veins and other vascular diseases. They are especially prone to such ailments, he told the dentists, because they spend many hours standing alongside their chairs, working on patients.

Man Gets 25 Years in La Crosse Kidnaping

ST. PAUL, Minn. (AP) — William G. Birnbaum, 32, convicted

in the kidnaping of a La Crosse, Wis., man six years ago, was sentenced Monday to 25 years imprisonment.

Birnbaum was convicted in U. S. District Court last week. He was accused of kidnaping Paul J. Scott, then 26, from Scott's La Crosse home on March 17, 1959. Scott was forced to accompany Birnbaum to St. Paul.

The kidnaping occurred the day after Birnbaum was released from the Wisconsin State Prison at Waupun.

Lake City Barn Fire Spreads to Strawberry Patch

LAKE CITY, Minn. — Lake City fire department fought two fires Sunday which destroyed a barn, part of a strawberry field and a patch of lawn.

Firemen were called to the Dave McKenzie home in the city at 2 p.m. to extinguish a grass fire. At 3:30 p.m. a small barn burned down on the Ed Zillgitt estate on the outskirts of Lake City near Lakewood Cemetery. Winds carried flames to a strawberry patch belonging to Newland Nursery, destroying a fourth to a third of the plants.

Osseo Musicians Win Three Firsts

OSSEO, Wis. (Special)—Three firsts were won by Osseo High School music students at the state solo and ensemble contests at Eau Claire State University Saturday.

One of the top winners was a triple trio consisting of Kristine Gore, Diane Olson, Joyce Hestekin, Linda Faldet, Diane Johnson, Rachel Hageness, Linda Christmann, Jane Quinn and Sue Sieg.

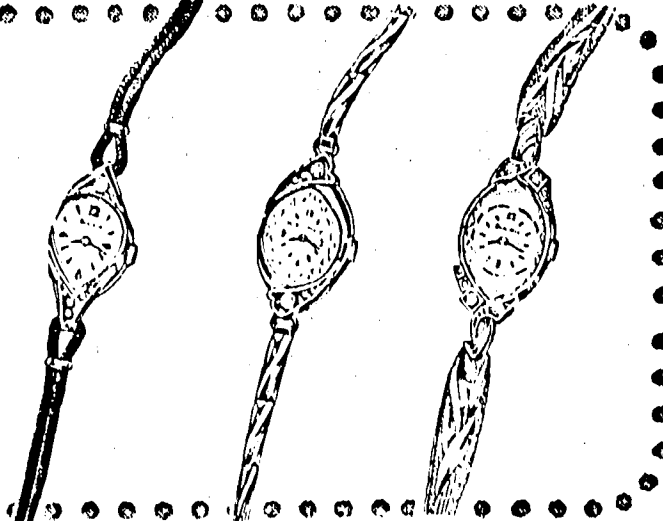

Kristine Gore and Diane Olson won firsts with vocal solos. Kristine won third with a piano solo.

Second places went to Diane Olson and Karen Brecklin, saxophone duet; Sylvia Andrews, bass, clarinet solo; Karen Brecklin, alto sax solo, and Joyce Hestekin, clarinet solo.

Katzenbach's Pretrial

News Code

ATTORNEY GENERAL Katzenbach's outline of rules governing the release of information in criminal cases may prove to be an important step in the solution of a problem which has been troubling the press, the bar and the courts for some time. Katzenbach presented his code in an address to the American Society of Newspaper Editors. He explained that in his opinion it was not up to the Department of Justice or the bar "to regulate the conduct or the content of the press."

He said, "We, whether in the Department of Justice or in the bar, are hardly the exclusive keepers of the keys to the kingdom of justice," and in his outline he presented his idea of what the members of his department should do to protect defendants' right to a fair trial while at the same time respecting the public's right to be informed.

The outline was apparently quite well received by the 450 editors present. It is a certainty that the editors will want to make their own rule on what shall or shall not be published but they admittedly have a deep interest in rules governing announcements by law enforcement officers and members of the bar. In recent years there has been a tendency among newspaper editors and writers to blame the publication of material prejudicial to the rights of defendants upon self-serving announcements by prosecutors and defenders in criminal cases.

UNDER KATZENBACH'S rule it would be improper for personnel in his department to "furnish any statement or information for the purpose of influencing the defendant's trial." Quite obviously the same rule would apply equally to the conduct of attorneys for the defense.

The department's code would permit the announcement of a number of facts after arrest by FBI agents, United States marshals, federal prosecutors and other officers of the department. These facts would include the defendant's name and identifying background information; the charges against him; the arresting agency and the length of the investigation and the circumstances of the arrest, including the time, place, resistance, pursuit, possession and use of weapons and a description of items seized.

More important, however, are the list of items which the order would prohibit officials from making:

"Observations about a defendant's character.

"Statements, admissions, confessions or other alibis attributable to the defendant.

"References to investigative procedure such as fingerprints, polygraph examinations, ballistic tests or laboratory tests.

"Statements concerning the identity, credibility, or testimony of prospective witnesses.

"STATEMENTS concerning evidence or arguments in the case, whether or not it is anticipated such evidence or arguments will be used in the trial."

The attorney general held that officials should not volunteer for public information statements on the defendant's previous record but they might provide the record of convictions upon a specific inquiry. He said that the personnel of the department should take no action to encourage or assist news media in photographing or televising a defendant or accused person being held or transported in federal custody. Further he said department representatives "should not make available photographs of a defendant unless a law enforcement function is served thereby."

In the case of fugitives the rules are somewhat different since certain information may be helpful in the pursuit.

NOW IF THE bar association can come up with a set of rules which prove to be enforceable covering the same field as is covered by the rules of the Department of Justice, the press will be in good position to establish practices which will protect the defendant and give the public the information it requires.

Try and Stop Me

By BENNETT CERF

A very thirsty man was denied admittance to a Sacramento pub the other day because he had a talking mynah bird perched on his shoulder. "Sorry," said the barkeep firmly, "but we're not allowed to serve mynahs."

Therefore, being justified by faith, we have peace with God through our Lord Jesus Christ. —Romans 5:1.

TODAY IN NATIONAL AFFAIRS

Capital Needs War on Crime

By DAVID LAWRENCE

WASHINGTON — President Johnson is commended for sending marines into Santo Domingo to protect the lives of 1,200 or more Americans and European nationals — but there are those who say he hasn't gone far enough. They point to the tens of thousands of Americans living in Washington, D. C., who need similar protection, particularly at night. Even servicemen in military installations near large cities are being warned, because of the dangers of assault, not to go out alone but only in groups of at least two or three persons.

The situation in the District of Columbia is not far different from what it is in other parts of the United States. But it so happens that the President has complete authority to govern the national capital and to use federal troops as policemen to protect the lives of the residents. Many marines and soldiers in the regular army have no heavy duties at their military bases or barracks and could be employed to guard the lives of American citizens in this country, especially in the evening hours.

THE TRAGEDIES are numerous. Here is an excerpt from a letter just received by this correspondent from a serviceman who has fought gallantly for his country:

"My wife and I both worked our way through college. We lived and worked in the District of Columbia, where she was graduated at the Southeastern University and also attended the Corcoran School of Art. She was a talented artist, accountant and legal secretary. In December 1962, she got off a bus in southeast Washington, where we lived. A teenage colored boy ran up behind her and slugged her viciously with a brick or club, knocking her down on walk, and almost broke her arm when he jerked the purse off her arm. She was covered with blood and hospitalized nearly a week.

"Last Aug. 25, 1964, she went out of the apartment about midnight with a flashlight looking for her cat. She was 55 years old. A 20-year-old Negro grabbed her around the neck with an arm lock and attempted to drag her into the nearby woods to rape her. When she screamed for help, he stabbed her four times with some vicious, narrow daggers, almost like ice picks. She died 12 days later in the hospital, although she was given many blood transfusions and operated upon by the best doctors in Washington. Servicemen in the Department of Defense gave 16 pints of blood to the hospital in her memory. There is no use attempting to tell you how terribly I feel about this; I cry all the time about losing her, and just scream when I think of the attack by this vicious brute.

"THE POLICE did a good job catching him, but he hasn't been convicted yet and may beat the case, although they found her wrist watch in his pocket. He has been in jail six months waiting trial.

"There is nothing more to add. It is really a matter of the survival of our country, if the crime wave isn't stopped. In the meantime, merchants are being shot to death and policemen maimed right here in the shadow of the capital.

"Would use of the marines and troops be possible to stop the crime wave? Should all men be fingerprinted? Should criminals be deported? Surely there must be some solution to save our country. It is more dangerous to walk the streets of Washington, D. C., than anything I faced in World War II or the service during the Korean police action, and I have nine campaign ribbons and lived through it, only to find my wife murdered in front of our home in Washington, D. C."

It would cost the government of the United States hardly any extra funds to allocate troops to the major cities of the United States for night patrol duty. They could travel in automobiles and make tours every few minutes in all sections of a city. Eventually, of course, the states would have to appropriate money for permanent patrols by policemen of their own. But it might require months and months, if not years, to organize such additional forces. There could, however, be some immediate relief through the use of federal troops.

IN YEARS GONE BY

Ten Years Ago . . . 1955

Clement F. Gostomski was elected to his third term as president of the Board of Fire and Police Commissioners. Vice president John Kleist was also re-elected.

New officers were elected at the Winona Toastmistress Club as follows: president, Mrs. Irvin Teasdale; vice president, Mrs. Elvin Humble; secretary, Mrs. Marie Fjelstad and treasurer, Mrs. Olaf Anfinson.

Harold Deorer was elected ambassador supreme of the Winona Chamber of Commerce Ambassadors succeeding Arnold Stenehjelm.

Twenty-Five Years Ago . . . 1940

Snapdragons and other spring flowers in baskets in pastel tints filled bowls at the Winona Country Club for the opening dinner dance of the club's 1940 social season.

The rural school day, when more than 1,200 children from Buffalo County were entertained here, went off so well that plans will be worked out soon for a similar event next fall.

Fifty Years Ago . . . 1915

Mrs. Emma Ellefseth was appointed as police matron of the Winona Police Department. Bert and Harry Beyerstedt have subleased the Opera House from Manager G. F. Burlingame for the summer and will put on motion pictures and vaudeville.

Seventy-Five Years Ago . . . 1890

The regular annual meeting of the South-eastern Minnesota Poultry Association was held. The increased attendance over previous meetings shows renewed interest in the organization which is now in its fourth year. M. R. Rose was elected president.

Messrs. Jacob Seherffus, John Dotterwich and Max Peterson departed for St. Paul to attend the session of the grand lodge of the ancient order of United Workmen.

One Hundred Years Ago . . . 1865

Abner Lewis has been appointed deputy assessor of internal revenue for Winona County in place of J. I. Ehle.

The weather was warmer than it has been before. The mercury stood at 85 degrees in the shade this afternoon. The backward vegetation needs a little more of such warmth.

'I THOUGHT I TOLD YOU KIDS TO STAY OUTSIDE!'

THE WASHINGTON MERRY-GO-ROUND

World War II Anniversary Finds New Peril Growing

By DREW PEARSON

(Editor's Note: On the 20th anniversary of the end of World War II in Europe, Drew Pearson reviews world efforts to build for peace and the present drift toward another world war.)

WASHINGTON — Twenty years ago today, the great German army began to surrender. Its mechanized might had ridden roughshod over Poland, Belgium, Holland, France like a giant bulldozer pushing through shanty town. It had spread out over the plains of Russia, ripped south as far as Stalingrad, engulfed the Balkans, and crossed the Mediterranean to fan out over the deserts of North Africa.

But on May 4, 1945, German soldiers, knowing the end was a matter of hours, began to lay down their rifles. At the River Elbe, Russian and American troops had met, shaken hands, drunk a toast for peace. A war which for Europe had begun almost six years before was over.

On that day, 20 years ago, I was in San Francisco, along with many other newsmen, watching the leaders of the Allied world build an edifice for peace. On the whole they built well. One foundation stone of their building was discussion — the vital importance of bringing two quarreling nations before an assembly of peace and requiring them to thresh out their differences in public before their critical fellow U.N. representatives.

SECRETARY OF State Dean Rusk, ordinarily a thoughtful, common-sense diplomat, has discouraged congressional criticism of the administration's war policies. He accuses his critics of "gullibility," "non-sense," and "stubborn disregard of plain facts." President Johnson, in his latest press conference, did not agree. He said it was unfair to label all critics as appeasers and to discourage "honest, forthright discussion."

I agree with President Johnson. Not only was the United Nations founded for the purpose of free and open discussion, but the constitution of the United States requires that a declaration of war must be debated and voted by Congress.

In most previous threats of war, Americans had no opportunity to look down the track, see the locomotive of war bearing down on them in time to avoid collision.

IN KOREA, the attack occurred overnight. At Pearl Harbor the American people woke up on a Sunday morning to find their fleet sunk. True, events leading up to those tragedies, especially Pearl Harbor, gave indication that war was coming.

But in the current crisis in Viet Nam, this so-called "brush - fire" or isolated war has dragged on for 18 years. We have had time to diagnose it, analyze it, determine whether we want it to drift into world war.

This drift is dangerous. Never in the 20 years since the German army began surrendering has there been such a danger of war, such dire need to head off world war.

In the Middle East, Pakistan and India are engaged in minor skirmishes which could become major war — with both sides using American weapons. The United States has poured around four billions in weapons and aid into Pakistan, even though we knew she had designs on her neighbor.

More recently we have poured lesser amounts in arms into the arsenal of her neighbor.

IN THE Dominican Republic, two revolutionary groups are firing at each other with so many American arms that the U. S. government which furnished those arms has had to send U. S. Marines to rescue its citizens. For years under Dictator Trujillo we poured arms into the Dominican Republic.

On the island of Cyprus, two of our allies, Greece and Turkey, have been at each other's throats, again with both sides using American arms. American jet fighters, given to the Turks, have flown over Cyprus, strafing Greek Cypriots below.

In Viet Nam, we have armed all of the South and, indirectly, part of the north.

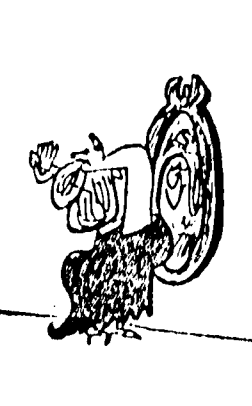

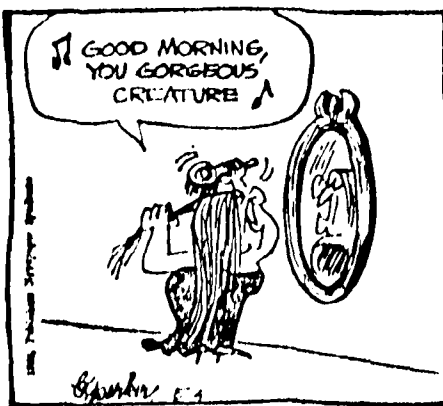

Yet the arms race and the alliance between big defense contractors and the big military President Eisenhower warned against, goes on; with President Johnson recently appointing Admiral William Raborn, vice president of the giant Aerojet Defense complex to be the administration's eyes and ears as head of Central Intelligence.

"For heaven's sake! Would you all please hold still for a minute?"

THE WIZARD OF ID

WASHINGTON CALLING

Russia Keeps Nikita Plan

By MARQUIS CHILDS

WASHINGTON — While Nikita Khrushchev was abruptly shoved off the stage into obscurity, the doctrine he proclaimed still prevails. For harassed American policy-makers with a second war on their hands that doctrine is a warning sign on the road into a troubled future.

The landing of the Marines in the Dominican Republic is not comparable as yet with the ever-increasing American military effort in Viet Nam. But the two conflicts seem to fall roughly into the formula of "wars of liberation" prescribed by Khrushchev in a speech that has been rombed over, studied, analyzed and interpreted more than any Communist utterance since the end of the war.

The Khrushchev declaration of Jan. 6, 1961, followed a meeting in Moscow of delegates of 81 Communist parties. It was the first authoritative definition of the reasons for the split between Red China and the Soviet Union. Khrushchev declared for "peaceful co-existence," since a nuclear war would destroy all civilization. China was contending for war as an instrument to impose communism, with the risk of a nuclear holocaust accepted.

BUT THE speech was much more than that. It defined "wars of national liberation" as "sacred" wars, with Khrushchev pledging aid to all peoples "striving for their independence." In Moscow's interpretation the war raged in South Viet Nam by the National Liberation Front fits this description to a tee.

American policy is based on the conviction that the Vietnamese war is fomented and largely supported by North Viet Nam with help from China. If this is a "war of national liberation" it must be resisted no matter what the cost. Failure would mean more such wars wherever supposedly soft spots exist.

The Pentagon is now preparing to double at least the number of American ground troops in South Viet Nam. Whether this will be sufficient to hold the line is widely debated within the military command, an influential view being that 60,000 to 70,000 American troops can hardly be more than a token in terms of need. But this illustrates how grave is the commitment to resist such wars.

THE EXPLOSION in the Dominican Republic illustrates still another difficulty in assessing and restraining wars that may or may not have Communist aid and encouragement. The troubled effort at self-government, following 30 years of a cruel and ruthless dictatorship, has ended in virtual anarchy. How much infiltrators from Cuba have helped to create this anarchy no one can say with accuracy.

In his famous 1961 speech Khrushchev cited Latin America as "one more front of active struggle against American imperialism." No longer, he said, is Latin America "an appendage of the United States." "The whole world has heard the thunder of the heroic Cuban revolution," he went on. "Solidarity with revolutionary Cuba" was not only the "duty" of Latin Americans but also the "duty of the socialist countries, of the entire international Communist movement, the proletariat of all areas of the world."

WHAT HAS been happening in Viet Nam and now in the Dominican Republic can occur at a dozen other pints. That is a gauge of how broad the American commitment is if the definition runs to every spot where trouble breaks out in a "war of liberation." The question of American military resources, present and future, is acute.

Currently the United States has 14 heavy and two airborne divisions in being, trained and ready. Six of the heavy divisions are committed in Germany. If two of the available eight — the 25th Division in Hawaii is the subject of rumor out of Saigon — are sent to Viet Nam this would leave six. In addition there are four Marine divisions, with 8,000

Letters to The Editor

In Case of Future Flood

To the Editor:

As the City has to pay for hauling the sand and sandbags from the dikes — why not build a permanent dike from the foot of Olmstead Street down along the river in back of the fence along the shore. And connect with the Chicago & North Western right-of-way to its drawbridge. And if they ever get to build the "Love Wall" — I would want to raise it about 18 inches at the second wall and give it a slope for drainage in case of another flood. A dike could be built on the driveway from the reservoir at the pumping station to the Peerless Chain wall. It would save time and money.

To Your Good Health

Irritation Can Cause Skin Itch

By JOSEPH G. MOLNER, M. D.

Dear Dr. Molner: I am 83 and all winter long had a terrible itching of the membrane around the rectum. It even prevents sleep. I suppose others have this awful trouble. What do you suggest? — L. S.

Yes, they do, but a great many people find relief by following two rules: Keep the area clean; keep it dry. (Too many don't realize the importance of that second point.)

The itching, after all, is a form of skin irritation. Scrupulous cleanliness keeps the skin free of irritants. But a continually moist skin is more vulnerable to irritation, too. So careful drying, followed by placing a small pledget or wad of absorbent cotton at the opening often does wonders.

Marines now on the ground in Viet Nam and a Marine division is also in speculation.

Little arithmetic is needed to see how this trained and ready force in being can be chewed up in subsequent "wars of liberation" in Asia, Latin America or Africa. Reserves would have to be called back and the draft inevitably expanded. That is the next phase in contingency planning.

ACCORDING TO the Khrushchev doctrine, Communists opposed the "export of revolution." But they also opposed the "imperialist export of counterrevolution." Kremlinologists interpreted this as a reference to the uprising in Hungary, which was brutally suppressed by Soviet tanks.

The theme of the Khrushchev speech was communism's inevitable triumph by peaceful means if possible and by civil wars of liberation if the "imperialists" resisted. But in the present confrontation the striking fact is that so far as is known not a single Russian soldier is in combat while 35,000 Americans are already at the shooting stage. That is the painful dilemma for American policy-makers.

Souvenir Flood Edition Offered

Orders are coming in by the thousands for the special Winona Daily News souvenir edition of the 1965 flood which will be published as soon as possible after the emergency.

The tabloid-size edition is now planned for 32 pages of photographs and stories telling of the flood fight in Winona and nearby cities in South-eastern Minnesota and Western Wisconsin.

There will be separate sections on weather conditions that were responsible for the flood and the story of the river's rise; the measures taken to combat the record river levels; the impact on industries, business, transportation and residential areas; the role of Civil Defense, Red Cross, Salvation Army and other agencies in the flood fight and a section on the flood period in the Winona area.

The special edition will not be distributed as a part of this newspaper. It will not contain advertising.

To make sure that you will obtain your copy (and those you wish to send to friends and relatives who reside elsewhere) fill out the following order blank and send it to The Daily News today. Send 50 cents (which includes postage) for each copy you want and your copies will be mailed to the destinations you indicate. This special publication will be entitled "The City That Saved Itself."

Address envelopes to Souvenir Flood Edition, Winona Daily News, Winona, Minn.

WSC Graduation Set for Outdoors

Winona State College will hold its first outdoor commencement exercises this spring, weather permitting that is.

The faculty has voted to switch the ceremonies June 4 from Memorial Hall to Maxwell Field. Students had suggested the change.

In case of rain the exercises will return to Memorial Hall.

Game Bird Salesmen Come From Birdsnest

NORFOLK, Va. (AP)—Three Virginians were arrested Monday as part of an 11-state crackdown on persons illegally selling migratory game birds.

The three were Clinton Pearson, Norman Pearson and Mrs. Norman Pearson.

Their home town: Birdsnest, Va.

Suits Settled; Jury Reports Next Tuesday

Settlement Monday afternoon of two civil cases and dismissal of a third cleared the District Court calendar of the work scheduled for this week, Judge Arnold Hatfield told the petit jury panel.

The jurors were dismissed until May 11 at 8:30 a.m. (CST). Ten civil cases, out of 67 on the calendar, have been settled without trial since the beginning of the April term two weeks ago.

THE \$15,000 damage suit scheduled for a jury trial Monday at 1:30 p.m. was settled between its scheduling Monday morning and the time set for trial.

The suit was brought by Andrew E. Blasko, 470 W. Broadway, on behalf of his minor son, Daniel, who allegedly suffered a skull fracture in an accident while riding his bicycle.

Defendants in the suit were the driver, John A. Schuth, and owner, Herman A. Schuth, both of 706 Gilmore Ave., of the car which allegedly struck the Blasko youth at West Broadway and Grand Street July 2, 1963.

The law firm of Brehmer & McMahon represented the Blas-kos; the Waseca, Minn., firm of Mooney & Senn represented the Schuths.

"WHIPLASH" injuries resulting from a collision at West 5th and Huff streets Nov. 7, 1963, are the alleged cause of the other action settled Monday.

Mrs. Robert Carroll, 1845 W. 5th St., allegedly received the injuries when a car driven by Mrs. Lyle W. Tschabold, 346 Elm St., collided with the rear of the Carroll vehicle. Mrs. Carroll claimed \$25,000 damages.

Attorney P. S. Johnson represented Mrs. Carroll; the firm of O'Brien, Ehrick & Wolf represented Mr. and Mrs. Tschabold.

THE ALIENATION of affections suit brought by Mrs. Jane M. Nowlan, 315 E. 3rd St., against the former Margaret Courtier was dismissed without prejudice by Mrs. Nowlan's attorney, P. S. Johnson, Monday afternoon.

The dismissal without prejudice means that Mrs. Nowlan is not prevented from again initiating action against the present Mrs. Nowlan (Margaret Courtier) on the same charge. It had been Mrs. Nowlan's claim that she was forced to divorce her husband, Darrel V., July 27, 1964, after the former Mrs. Courtier had alienated Nowlan's affections from her.

Nowlan and the former Mrs. Courtier were married Nov. 26, 1964. The law firm of Plunkett & Peterson represented the present Mrs. Nowlan.

Public Drinking Answer Original

DANVILLE, Va. (AP)—A man was fined \$10 and costs in Municipal Court Monday after he offered this explanation for a charge of public drinking: "I only had the can of beer to get rid of the fleas on my dog."

PETITIONER SAYS:

County Misinformed On Road Construction

Winona County is basing its road-building plans on misinformation, a Gilmore Valley man charged Monday.

Appearing before the Winona County Board of Commissioners, Evan Henry, an accountant, presented a petition asking that the county improve County State Aid Highway 21 through Gilmore Valley. The petition was signed by Henry and 19 other property owners in the valley, which is in Winona Township.

HE SAID, however, that he and other residents would oppose the county's present plans to widen and straighten the road. This project is scheduled for 1967 under the county's five-year program.

Henry's petition, which he read to the board, asked that the road be resurfaced to its present width, that two narrow bridges be replaced and that an underpass be constructed beneath Trunk Highway 14. The last project would allow traffic from Winona to turn onto the valley road without making a left turn across oncoming TH 14 traffic, he explained.

Told that the board already has plans to rebuild the road in 1967, Henry said valley residents would oppose the move for two reasons — they want the work done immediately, and they do not want the right of way widened.

WIDENING THE road, Henry said, would result in a hardship for some residents, who built too close to the present road and might have to move some buildings if the right of way were widened.

Commissioner Len J. Merchlewitz, Winona, told Henry the road has to be widened if it is to be maintained in good driving condition. As it is now, he explained, there is no place

to push snow. When it melts, therefore, it washes the road's base away, causing the black-top surfacing to crumble.

"I don't know where you're getting your information," Henry declared at this point.

He produced a booklet — published by a national association of blacktop surfacing firms — that said such surfacing would hold up if it were paid on a properly constructed base.

CHARGING variously that the present surfacing is crumbling because the road's base is inadequate, but that there is no need to widen the road to provide for a properly drained base, Henry implied that county officials were misinformed about such engineering matters.

All that needs to be done, Henry contended, is for the county to break up the present surfacing, then lay a hot-mix blacktop coating atop the rubble.

He went on to tell the board that it could save money by buying some second-hand bridge materials from H. S. Dresser & Son, a Winona contractor. This could be used to replace the present narrow bridges on CSAH 21 with bridges "of the proper width." He did not say how wide that would be.

COMMISSIONER Leo R. Borkowski, Goodview, in whose district Winona Township is situated, explained that the road would have to be widened in order to have it conform to state-aid standards.

If that were true, Henry retorted, the valley residents would rather do without state aid for the road. If the road were widened, he said, there would be "a lot of unhappy people" in the valley.

There are sometimes unhappy persons when roads are widened in the county's rural areas, Merchlewitz said, but standards must be maintained.

Borkowski said he would turn Henry's booklets on blacktop

surfacing over to Gordon M. Fay, county highway engineer.

The board placed the petition on file.

Social Security Office Moving Back to Sarnia

The Social Security Administration is moving back to its office at 386 E. Sarnia St., manager Victor Bertel said this morning.

To escape from a potentially dangerous flood zone, the office equipment and records were moved to the Exchange Building April 15.

Social security representatives are doing business in both the East Sarnia Street and Exchange Building offices today, but they will be working in the former place beginning Wednesday, Bertel said.

Geologist Slated For WSC Talk

Dr. Joseph D. Martinez, department of geology, University of Wisconsin, will address Winona State College students on the topic of the relationships of geophysics and geology May 3 at 4:30 p.m. in Pasteur Auditorium.

Dr. Martinez received his Ph.D. degree from Louisiana State University in 1959. He was previously employed as senior research geologist by the Humble Oil Corp. At present he is on leave from Northern Illinois University where he is associate professor of geology.

Dr. Martinez is a specialist on the directional properties of rocks and palcomagnetism. His visit here is sponsored by the American Geophysical Union.

He will be speaking on the directional properties of rocks and palcomagnetism. His visit here is sponsored by the American Geophysical Union.

He will be speaking on the directional properties of rocks and palcomagnetism. His visit here is sponsored by the American Geophysical Union.

Singer Pleads Guilty to Reduced Count

Accused burglar Donald Singer, Minnesota City, pleaded guilty — on his 21st birthday — to a reduced burglary charge at a hearing Monday afternoon in District Court.

Singer and his attorney, Dennis A. Challen, heard County Attorney S. A. Sawyer read an amended complaint charging the youth with entering the Fibe-rite Corp., 515 W. 3rd St., for the purpose of committing a theft.

THE ORIGINAL complaint accused Singer of burglary, with a tool — a crime carrying a maximum penalty of 20 years in prison. The new charge carries a maximum penalty of five years. Singer pleaded not guilty to the more serious charge April 19.

Sheriff George L. Fort said Monday that he had taken Singer to La Crosse last week for a lie detector test. On the basis of the new information turned up by this test, Sawyer entered the amended complaint.

Judge Arnold Hatfield, who heard Singer's guilty plea Monday, questioned the youth as a preparation for the pre-sentence investigation he later ordered.

SINGER SAID that he and his accomplice in the burglary had gotten about \$4 out of the vending machine they opened Feb. 28 at the Fibe-rite Corp. The youth said that he had worked for Miller Waste Mills in the same building between April 1962 and June 1963.

The Minnesota City youth said he had never done a burglary before. However, he listed two breaches of the peace, an unlawful assembly, failure to comply with a policeman's order and petty larceny among his previous offenses.

Singer said that he had gone to school through the eighth grade at Jefferson School. He quit school to help his father on the family's 220-acre farm near Minnesota City, Singer said. He hadn't been to church in about

a year, the youth added. LEWIS GASINK, 155 Clark's Lane, an employee of Fibe-rite Corp., who discovered Singer and his accomplice as they jammed open the cash box of a vending machine and chased them out of the building, testified at Singer's preliminary hearing in municipal court that Singer had been holding an iron bar flattened at one end at the time of the burglary.

As he chased Singer and the other youth, Gasink testified, Singer had called out, "I'll kill you with this." Gasink had believed Singer was referring to the iron bar which, Gasink testified, Singer continued to carry in his hand.

New York City Director Arrives to Put Show on Road Tonight at Tryouts

By JEAN HAGEN
Daily News Women's Editor

Paint the Town Pink preparations took on a new burst of enthusiasm Monday night with the arrival of the New York City director of the production.

CRAIG ATKINSON of the Jerome H. Cargill Producing Organization Inc. came to town late Monday afternoon and met immediately with co-chairmen and their husbands at the William F. White home to plan the tryout talent party, which is tonight at the Country Club.

Although he had flown up to Minneapolis Sunday night from Dallas, Tex., where he had done the choreography and co-directed Cargill's biggest talent show of the season, he was eager to start.

"Let's have the talent show tonight!" he said impatiently, after hearing the enthusiastic plans of the local chairmen and discussing with them the strategy he will use in whipping the show in shape.

PRESENT for the interview in addition to Mr. and Mrs. White were the Messrs. and Mmes. Douglas B. Robinson, Everett Edstrom and T. H. Underdahl.

They discussed the urgency of everyone's attending the talent party, which will be at 7 p.m. today at the Country Club, so that Mr. Atkinson will have adequate material to select the cast of from 75 to 90 persons for special parts. It was emphasized that everyone who wishes to take part will be placed somewhere in the show. Baby-sitting service will be provided during the coming rehearsals, it was pointed out.

The committee anticipates and hopes that at least 250 people will turn out. There will be refreshments and fun entertainment, including the dancing of the Pink Lady Rockettes and music by Fred Hoyer's Combo.

Participants will sign up for the kinds of work they would like to do in the show on big placards placed around the walls, after Mr. Atkinson has selected the special parts.

Mr. Atkinson explained that he will be looking for tonight in the way of talent. In the Paint the Town Pink show, which will follow the Follies idea, he will need four mistresses of ceremonies to introduce the five skits or sketches, 16 couples for dancing the waltz, the hoe-down and the Cha Cha, 12 girls to do the Charleston (he will teach them how), 10 tall show girls, six girl singers, seven men singers and 15 good dance girls.

The latter he described as "ponies" because they can be short, in contrast to the show girls, who are always tall.

The main trouble, he said, is in getting enough people to try out for the parts and echoed the words of Mrs. R. W. Miller, talent chairman — "Everybody is welcome to the talent party. We need you!"

MR. ATKINSON, a 37-year-old personable bachelor, charmed the chairmen and their husbands last evening with his

show-biz know-how and warm interest in their project, which is the big fund-raising event of the year of the Community Memorial Hospital Auxiliary. Proceeds will be used to furnish the new Convalescent and Rehabilitation Unit of the hospital.

He is a native of Ocala, Fla., and began his theatrical career when he started taking dancing lessons at the age of six. Choreography is his main interest. Because his father is an engineer, now retired, young Craig traveled extensively even as a child.

Since he has been in the theater he has been all over the United States. Affiliated in a director and choreographer capacity with Cargill the last two and a half years, he has put on 26 shows. This last season they have been in Kissimmee, Fla., Fort Walton Beach, Fla., Lafayette, La., Orlando, Fla., Cape Girardeau, Mo., Tampa, Tex., State College, Pa., Naples, Fla., and most recently at Dallas.

"PEOPLE ARE pretty much the same all over," Mr. Atkinson says. "They are all just marvelous American people all over the United States."

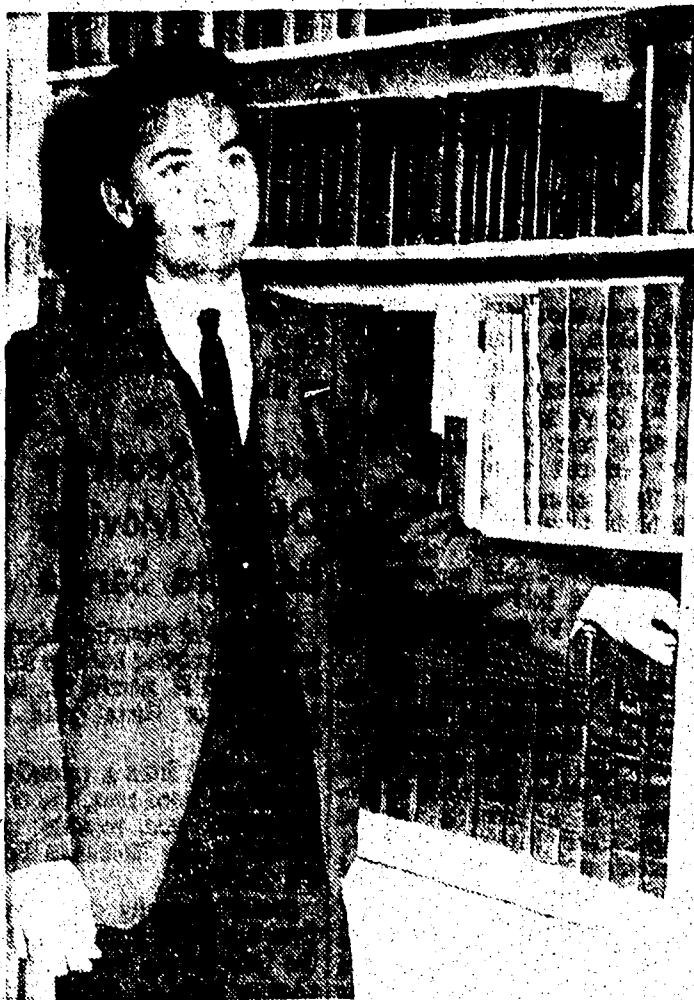

He works with Cargill for an eight-month season and then spends the summer in summer stock. This year, when the season closes, he will go to Lafayette, La., to play the part of Tulsa in "Gypsy" at the University of Southern Louisiana. He also anticipates spending some time on a dairy farm at Culpeper, Va., with a delightful family he met when he put on a show in Culpeper some time ago.

The Paint the Town Pink director, who makes his home in New York City, has worked there in theater in "Lil Abner" on television and in night clubs. He has done choreography for such musicals as "South Pacific," "Guys and Dolls," "Lil Abner" and "Damn Yankees" and has danced leading parts in "Fanny," "Red Head," and "Kismet."

LAST SUMMER he did "Music Man" with Bert Parks for six weeks at the Music Circus at Wallingford, Conn., Framingham, Mass., and Buffalo, N.Y. He has worked with such stars as Martha Raye, Gypsy Rose Lee, Pat O'Brien, Brian Donlevy, Joe E. Brown, Barbara Britton, Sheryl Conway and Victor Jory.

He has directed "Auntie Mame" and "The Women" in stock companies and has acted in productions of "Bell, Book and Candle," "My Three Angels," and "You Can't Take It With You." He danced the lead part of Curly in "Oklahoma," and had the lead in "Pal Joey." Mr. Atkinson is a graduate of Stetson University, DeLand, Fla., where he majored in stage production, and did graduate work in drama at the University of Miami, Fla.

ST. JOSEPH'S UNIT LANESBORO, Minn. (Special) — Mrs. Theodore Bell and Mrs. Vincent Sand will be co-hostesses when St. Joseph's Unit of St. Patrick's Altar Society meets at 8 p.m. today at the home of Mrs. John E. Westrup. There will be a discussion on the changes in the Mass.

Address _____
City _____ Zip Code _____
State _____

OFFICIAL RULES: 1. Identify six landmarks, and complete the sentence in 25 words or less. Mail to address shown at left. Entries must be postmarked by May 31, and received by June 4, 1965. Enter as often as you wish. Mail each entry separately. 2. Entries judged on correctness of landmark identification and originality and artistry of thought in completing sentence. Judges' decisions final. Entries become the property of Hi-Lex. No alternate prizes awarded. 3. Contest is open to anyone except employees (and their families) of the Hi-Lex Co., its advertising agency, brokers, printers and contest judging organization. Contest subject to federal, state and local regulations.

Status of Women, Community Problems Aired by AAUW

The American Association of University Women elected officers at a luncheon meeting Saturday at the Hotel Winona. Dr. Margaret Boddy talked on the status of women and Mrs. J. Milton Dahm discussed community problems.

MRS. E. J. Toller will continue as president. Miss Margaret Driscoll is first vice president. Elected to two-year terms are Mrs. Lloyd Belville, second vice president; Mrs. Roger Brosnahan, recording secretary, and Mrs. James Frankard, director. Mrs. Robert Horton, Mrs. J. L. Martin and Mrs. H. J. Honer comprised the nominating committee.

In an advisory vote the members recommended Law and the Citizen and Education — An Antidote to Poverty as study topics to be considered by the program committee. The branch has completed a two-year study of Occident and Orient and Bridging the Gap Between Science and the Layman.

DR. BODDY spoke on her activities on the governor's commission on the status of women. She is a professor of English at Winona State College and served on the commission with 35 other women and 10 men representing a variety of walks of life.

Dr. Boddy noted the following recommendation of the commission to the governor and legislature for action:

- Employment opportunities — Enactment of a wage collection law which would empower the appropriate state agency to assist in collection of wages due. This would cover employees of small businesses not covered by present law. The commission supports state legislation based on the principle of equal pay for equal work and encourages heads of departments or supervisory groups involved in the regulation of state departments and state agencies to set up procedures which will ensure that no bias will exist undetected. The commission recommends sponsorship of a series of meetings in cooperation with other interested groups in strategic locations in the state to promote the public understanding of the federal equal pay principle.

- CIVIL AND political rights — enactment of laws giving the same privileges and punishments to both women and men in awarding damages, in adultery and in selection of a jury. The commission recommends that the state give increased attention to appointment of qualified women to public office in policy making, executive, and administrative posts and to judicial offices. It encourages state women's groups, state political committees, professional societies and other appropriate organizations to make continuing arrangements for proposing qualified women for state public service.

- Education — supported development of junior colleges and increased vocational training. The commission called on women's groups such as church, PTA and AAUW, to take leadership and assume increasing responsibility for stimulating women to pursue needed education and to seek ways of motivating high school students to go on to junior colleges.

- Home and community — formation of a statewide consumer conference and a consumer advisory council. The group encouraged day care projects and homemaker services and recommended steps to upgrade the prestige and training of household employment.

Dr. Boddy distributed a working paper for household employment. A SUMMARY report by Mrs. Dahm, area representative in Community Problems, cited three continuing interests — aging, mental health and consumer education.

Mrs. Dahm reported on two winter meetings in which 15 members participated and considered the issues. After discussing the three interests in detail, Mrs. Dahm quoted the National AAUW president, Blanche Dow, "We are involved in mankind; out of our study will come attitude, resolution and finally action."

The democratic process is nurtured in AAUW, Mrs. Dahm continued, and individual choices are encouraged, as well as the ability to "react" and act. "It is up to you," she concluded.

Evidence is mounting that some meteorites come from the moon, scientists report.

AT RURAL TEACHERS MEETING . . . Donald McLeod, speaker at the annual election meeting of the Winona County Teachers Association, and Mrs. Ruth Seeling, who

was given special recognition at the meeting, visit with the new president, Mrs. August Fahrenholz, right. (Daily News Photo)

Mrs. August Fahrenholz Heads Rural Teachers Group

Mrs. August Fahrenholz, District 2557, was elected president of the Winona County Rural Teachers organization at a noon luncheon Saturday at Winona State College Smog.

OTHER OFFICERS elected were Mrs. Irvin Blumenritt, District 2553, first vice president; Mrs. Kermit Plotz, District 2561, second vice president; Mrs. Erm Hermanson, District 2561, secretary; and Mrs. Elsie Pearson, District 2600, treasurer.

Guest speaker was Donald McLeod, state representative,

who talked on "Current Legislation." He discussed the problems in resolving legislation on reapportionment, finance, taxes and education. He talked briefly on the retirement program for teachers.

MRS. CLYDE Girod, outgoing president, presided during the business session.

Mrs. Warren Seeling, secretary in the office of Jesse B. Jestus, Winona County superintendent of schools, was presented with a corsage in appreciation of her many services to the teachers.

Mr. and Mrs. Terry Hansen

Hansen-Dejno Vows Exchanged At Independence

INDEPENDENCE, Wis. (Special) — Miss Diane Dejno, daughter of Mr. and Mrs. Lawrence Dejno, Independence, and Terry Lyn Hansen, Bangor, Wis., son of Mr. and Mrs. Vernon Hansen Sr., were married April 24 at St. Peter and Paul Catholic Church.

THE REV. Joseph Miller officiated and Mrs. Regina Reinhold was organist and accompanied the senior choir which sang. Soloist was Edmund Lyga.

The bride wore a floor-length gown of dacton sheer, styled with a scoop neckline, embroidered in a floral design, elbow-length sleeves and a controlled skirt with a Watteau train. Her English illusion veil was held by

a coronet of pearls and hand-cut crystals. She carried a bouquet of red and white roses, with sweetheart roses on streamers. Mrs. Rodney Ottum, Kenosha, Wis., sister of the bride, was matron of honor. Bridesmaids were Miss Carol Tate, Kenosha, and Miss Janice Hansen, Bangor, sister of the groom.

They wore romance-blue sheer gowns with oval necklines and three-quarter-length sleeves. They carried cross-shaped bouquets of pink and white carnations. Their floral headpieces held circle veils.

Flower girl was Carol Jo Kilmek and ringbearer was Lawrence Dejno.

James Hansen, Kenosha, brother of the groom, was best man and groomsmen were Donald Dejno, Kenosha, brother of the bride, and Rodney Ottum, Kenosha. Ushers were Vernon Jansen Jr., Kenosha, and Antony Dejno.

A reception for 250 guests was held at Club Midway in the afternoon, following a noon dinner. Mrs. Vernon Hansen Jr. and Miss Gale Williams cut the wedding cake.

The bride couple went on a week's honeymoon in Northern Wisconsin and Minnesota. They are at home now at 4729 7th Ave., Kenosha.

The bride is a graduate of Independence High School and works at St. Catherine's Hospital, Kenosha. The groom is a graduate of Bangor High School and is employed by American Motors, Kenosha.

Prenuptial showers were given by Mrs. Dennis Hansen and Mrs. Vernon Hansen Sr. in Bangor, by Mrs. Rodney Ottum and Mrs. Lawrence Dejno and by the nurses at the hospital, with whom the bride works.

3-Time Mayor Of Austin Dead

AUSTIN, Minn. (AP) — Funeral services will be Wednesday for Jacob Becker, 72, former three-term mayor of Austin who died Sunday in St. Mary's Hospital, Rochester. He served two year terms in 1930, 1938 and 1940.

Miracle Mall Officers Named

Members of the Winona Miracle Mall Shopping Center Merchants' Association have elected their first officers and directors.

Named to direct activities of Southeastern Minnesota's newest shopping center during the first year of its operation are: President, Arnold Albrecht, owner and manager, Fairway Foods; vice presidents, R. B. Price, manager, Montgomery Ward, and Ted Maier, owner, Walgreen Drug; treasurer, Stanley Meyer, manager, Tempo, and secretary, Gordon Lofquist, owner and manager, Lofquist's Variety and Cafe.

Directors of the association include the officers and Ellsworth Johnson, vice president of Western Land Corp., developer and owner of the new center.

The Miracle Mall Merchants' Association, formed to set policy for the nearly completed 100,000-plus square foot enclosed mall shopping center, located between US Highway 3 and Route 32 (Old 61), is now planning for the center's grand opening later this month.

The group, which held its first meeting today in Arden Hills, will study "governmental services at the state level in planning to meet present and future needs."

The appointment was by Louis R. Morony, state traffic safety study director.

Weishorn Named To State Group

Gordon L. Weishorn, 1003 W. Howard St., has been named to an advisory study group of the Minnesota State Highway De-

Main-dish treat with extra meat

Briesath Names City Council Committees

Standing committees of the City Council were named Monday night by President Harold Briesath.

The announcement came two weeks after the council's annual meeting, when appointments had been 'elbowed aside' in the press of emergency business.

With chairmen's names listed first, committees are:

Finance — Neil Sawyer, James Stoltman, Harold Thiewes, Henry Parks, Don Klage.

Streets — Park, Sawyer, Thiewes, Stoltman.

Sanitary and engineering — Sawyer, Stoltman, Thiewes, Klage, Parks.

Purchases — Jerry Borzyskowski, Stoltman, Klage, Barry Nelson.

Ordinances — Borzyskowski, Klage, Nelson, David Johnston.

City building — Nelson, Johnston, Borzyskowski, Klage.

Harbors — Klage, Sawyer, Stoltman, Parks, Johnston.

New projects and industrial development — Sawyer, Parks, Thiewes, Stoltman.

Civil defense — Thiewes, Sawyer, Borzyskowski, Nelson.

Parking and safety — Stoltman, Parks, Sawyer, Nelson, Borzyskowski.

Zoning — Klage, Thiewes, Nelson, Johnston.

Health and welfare — Stoltman, Sawyer, Johnston, Nelson.

License — Parks, Sawyer, Borzyskowski, Stoltman.

Airport — Johnston, Parks, Sawyer, Nelson.

Band — Nelson, Thiewes, Borzyskowski, Klage.

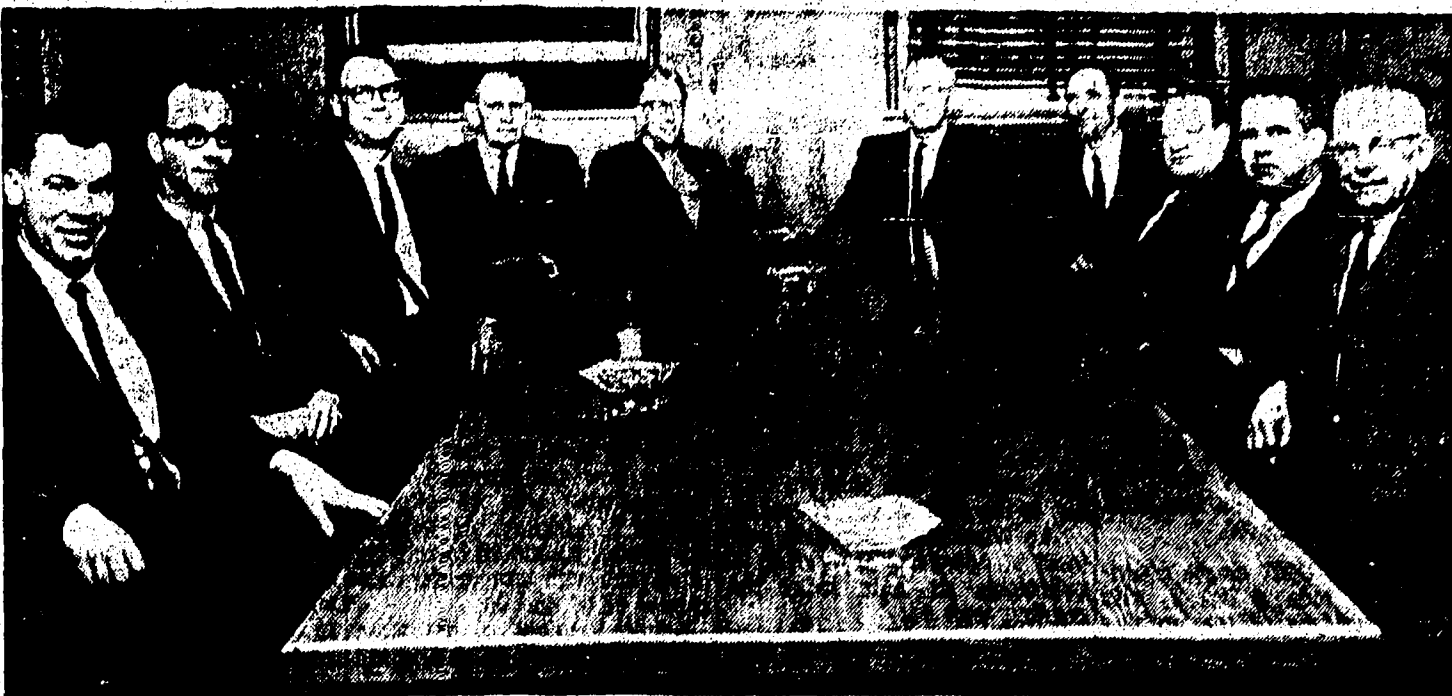

Lighting — Thiewes, Parks, Sawyer, Johnston.

Insurance — Johnston, Sawyer, Klage, Borzyskowski.

Sheriff Checks Source of Fire In Wilson Town

Sheriff George L. Fort is investigating the possibility that a bluff fire Saturday afternoon near the George Goetzman farm in Wilson Township was deliberately set.

The suspicion of arson was aroused when Robert Wessel, Winona rural route, who helped fight the blaze, found an article

NEW COUNCIL . . . Delayed for two weeks by the flood emergency, the City Council sat Monday night for its annual reorganization picture. From left, around the table, Barry Nelson, alderman at large; David Johnston, 1st Ward; Neil

Sawyer and Henry Parks, 2nd Ward; Mayor R. K. Ellings; Council President Harold Briesath, 1st Ward; James Stoltman and Jerry Borzyskowski, 4th Ward, and Harold Thiewes and Don Klage, 3rd Ward. (Daily News photo)

\$212,000 Monthly To Fillmore Co. In Social Security

PRESTON, Minn. (Special) — Monthly old age and survivors and disability insurance benefits in Fillmore County have hit an all-time high for \$212,000. That's 2 percent more than last year.

This increase can be attributed to changes in the law in recent years plus the growth of the aging population, Beardsley said.

On Dec. 31, 1964, 3,673 Fillmore County residents were collecting about \$2,544,000 annually from social security, an increase of 2 percent over 1963.

"More people in Fillmore County could draw benefits if they knew more about the law," Beardsley said.

The number and amount of each type of monthly benefit paid in Fillmore County during 1964: Retired workers, 2,162, \$142,920; wife or husband, 707, \$24,580; widow and widower, 349, \$21,048; mothers and children, 343, \$15,200; and disabled workers and dependents, 131, \$7,830.

with a name on it near the scene.

The fire had blazed up again Saturday at about 7 p.m. after apparently being checked Saturday afternoon. It blazed again Sunday.

MICROFILMING DISCUSSED

Supervisors Oppose Public Defender Plan

By GEORGE McCORMICK
Daily News Staff Writer

The Winona County Board of Commissioners Monday went on record as opposing proposed legislation that would establish a judicially-controlled system of county public defenders.

Bills that would do this have been submitted to both the state Senate and House of Representatives.

PUBLIC defenders, who act as counsels for indigent defendants, are now appointed by courts.

Putting a corps of public defenders under judicial control would thereby deprive "the people of this community of the safeguards and control they now have through their county boards and through election," the board's resolution stated.

The proposed system would "definitely increase the cost of public defenders for indigent persons without increasing the quality of that service as is now provided by local attorneys," it declared.

The resolution asks:

• That the proposed legislation be rejected unless it is limited to appellate service or is handled through appointment

or election of defenders at the local level.

• That the "entire problem of criminal law," including enforcement and prosecution, police training and the protection of constitutional and statutory rights of defendants, be referred to a "properly-appointed" legislative interim commission for study and report at the next session of the legislature.

THE BOARD also passed a resolution asking state highway officials to design all county highway crossings of Interstate 90 to a seven-ton axle load capacity. The resolution goes on to pledge that the county will construct connecting highways to the same specifications, either concurrently with I-90 construction or within five years after its completion.

Harold Jambois, La Crosse, a representative of an office machine firm, appeared before the board to try to sell it a micro-filming device for use in the register of deeds' office. The machine, a product of Minnesota Mining & Manufacturing Co., would cost the county \$1,295. A reader, necessary for viewing the filmed documents, would cost another \$1,285.

The board has been considering buying such equipment, but it told Jambois it would not decide on any particular manufacturer's offerings until it has inspected microfilming, setups in other counties.

It decided to go to Olmsted County's register of deeds office with Jambois the last week of this month to see his firm's equipment in use there.

Commissioner Len J. Merchle-witz, Winona, told Jambois — and Anthony Winczewski and Ronald Dreas of Winona County Abstract Co., who accompanied the salesman — that the board has decided to buy its own micro-filming equipment instead of renting such a service from the abstract company.

IN OTHER ACTION Monday, the board:

• Told an eight-man delegation of Cedar Valley farmers that it would inspect a road there at 10 a.m. Wednesday. The road is virtually impassable, the delegation contended.

• Appropriated \$50 to each of the following veterans organizations: Clarence Miller Camp 5, Spanish American War Veterans, Winona; the Winona American Legion post; the Winona Veterans of Foreign Wars post; the St. Charles Legion post; the St. Charles VFW post; the Lewiston Legion post; the Winona Barracks 1002; Veterans of World War I, Inc.; the Winona Women's Relief Corps; the St. Charles WRC, and the Winona Memorial Day Association. The money is to be used for Memorial Day observances.

• Authorized County Auditor Richard Schoonover to advertise for bids on supplying coal for the courthouse and jail during the coming winter.

• Accepted contracts and

bonds from Winona Truck Service, which sold two trucks to the county last month, and J. S. Dresser & Son, Winona, low bidder on a bridge construction project.

• Approved Pleasant Hill Township's 1964 poor relief bill for \$468.68 (the county's share of the township's gross expenses of \$809.64).

• Authorized Schoonover to pay \$10,986 to the Hiawatha Valley Mental Health Center — the county's per capita share of the center's expenses from November 1, 1964, until June 30, 1965.

• Filed a financial report from the Automobile Club Safety Council of Winona, which received \$350 from the county this year. Including the county's donation, the council's balance as of March 19 was \$1,800.81, according to Gordon Welshorn, treasurer.

• Set public hearings on two petitions for school district set offs. The petitions came from William Sass, Fremont Township, and John Bain, who lives near Sass. Both seek to have their land set off from Common School District 2548 to Independent School District 857, Lewiston, in which some of their land is already situated. The hearing on Sass' petition will be conducted at 2 p.m. June 7, and Bain's petition will be heard at 2:15 p.m. that day.

• Took no action on a letter from Gov. Karl F. Rolvaag, requesting that the board send two or three representatives to a "Keep Minnesota Clean and Scenic" conference to be conducted in St. Paul May 21.

Houston DHIA To Hear Wayne

CALEDONIA, Minn. — Ralph Wayne, extension dairyman, will speak at the annual Houston County Dairy Herd Improvement Association (DHIA) meeting Friday at 8 p.m. CST in the community room of Sprague State Bank here.

Dairymen who recently enrolled in central processing are to bring their last monthly report. Small group discussions will be held at the beginning of the meeting to answer questions on central processing data.

Board members will be elected. Other items will include test supervisors annual reports, high producer awards and talk by Wayne concerning Minnesota mastitis control programs.

Reid Johnson is county chairman.

Fillmore ARC To Meet Friday At Lanesboro

LANESBORO, Minn. (Special) — The Fillmore County Association for Retarded Children will meet Friday at 8 p.m. at Lanesboro Elementary School.

The annual event is sponsored by Lanesboro clubwomen. Mrs. Keith Burmeister, elementary music director, has arranged a special program. Richard Berg, special education teacher at Rushford, has planned activities for the older boys. The public is invited.

La Crosse Gets \$300,000 Grant For New Library

MADISON, Wis. (AP) — The Wisconsin Free Library Commission reported today that \$318,583 will be available for public library building under the U.S. Library Service Construction Act.

La Crosse will receive the largest single grant, \$300,000 for a new library. Milwaukee will get \$97,000 for remodeling the main library. Manitowish will receive \$110,750 and Stevens Point \$100,000 for new buildings.

Council Raises Sign Height To 40 Feet

The City Council voted Monday night to remove the 15-foot limit on ground signs as now imposed by the zoning code.

The motion to amend came after two attorneys for Western Land Corp., builders of Miracle Mall shopping center, contended the limit was unrealistic. The action also overrode the recommendation of the City Planning Commission, which urged retention of the height limit. The new limit will be 40 feet. An ordinance amendment will be drawn by the city attorney.

The commission, in a letter, said it believes better control of unsightly signs can be maintained and that signs still can be authorized in excess of the limit through variances granted by the Board of Zoning Appeals.

Attorneys Duane Peterson and Dennis Challen told aldermen their client has a May 20 opening date and expects to erect an \$8,000 sign which will be above the 15-foot level. Even if the height limit were removed, they said, other controls would be unchanged. These include prohibition of flashing lights, external spotlights and other features that might be nuisances to neighbors. The new Miracle Mall sign will conform to all these restrictions, they said.

Challen said other businesses also contemplate signs higher than 15 feet. In each case, he pointed out, the variances probably would be granted but that published and mailed notices are required and a public hearing must be held in each case. Such a frequently-bypassed law is obviously obsolete and un-

workable, he suggested.

The city building code, adopted in 1954 from a national model code, contains a 40-foot height limit. This regulation was super-

sed by the zoning code, which was adopted later.

Surfboards were introduced to California from Hawaii about 1907.

3 Hospitalized In Taylor Crash

TAYLOR, Wis. — One Taylor and two Black River Falls persons were taken by Jensen ambulance to the Community Hospital in Black River Falls following a collision Monday at 1:35 p.m.

Mrs. Edgar Arndt, Black River Falls, passenger, was in serious condition with a severely lacerated left cheek and other facial injuries. Her daughter, Mrs. Butterfus, 43, Black River Falls, with whom she was riding, received minor injuries.

Ingvold Iverson, Taylor, received multiple lacerations and a seriously cut lip. His wife received a fractured right forearm.

The accident occurred at the Rygh corner near here at the junction of Highway 95 and Jackson County P. the Iverson car pulled out of the county road, striking the 1964 Butterfus car, according to Undersheriff Elmer Davis.

A live fish never stops growing. Growth slows abruptly at sexual maturity, but the fish generally gets a little longer and a little thicker every year.

We asked her to smile, but she didn't know how
This girl has never smiled. She is one of the "autism" children in America who are mentally ill. She has a hard time to help children, with crippled bodies. Now it must find ways to help those with crippled minds. Through its research program the National Association for Mental Health is working to save these children. It is also working to establish special schools. You can help, too. Please join and support your mental health association.

Milwaukee Road Car Derails at Minnesota City

Derailment of a boxcar, 15 cars behind the engine of an eastbound freight on the Milwaukee Road line at Minnesota City blocked two village crossings for about an hour early today.

John Kaslo, Minnesota City, section foreman for the railroad, said that the car derailed because of a burned-off journal box on one of its trucks. The mishap occurred today at about 5 a.m. CST.

The trucks of the derailed boxcar tore up the pavement at the two Minnesota City crossings, Mill and Minnesota streets, but did no other damage. The two crossings were blocked for about an hour as the derailed boxcar and the cars behind it could not be moved.

The front part of the train continued on its way, but the rear section could not be moved until a westbound train came along and was flagged down. Using the engine from the westbound unit, the derailed cars were pulled onto a siding.

Kaslo said he expected the damaged boxcar to be repaired and the rear section of the delayed freight to be on its way by today at around 1:15 p.m.

The foreman said that such occurrences are not rare but that it is unusual for a derailment to occur within corporate limits where motorists may be inconvenienced. Sheriff George L. Fort was apparently telephoned today by a motorist who wanted the crossing cleared immediately.

Two-State Deaths

Helmer Rogness
HIXTON, Wis. — Helmer Rogness, 59, Hixton, died of a heart attack at his home here Saturday.

He was born Aug. 28, 1905, in Jackson County and was a lifetime resident. He was employed by a Hixton produce firm.

Survivors are: His wife, Clara; two sons, Vernon, Black River Falls, and Gaylen, Kenosha; six grandchildren; four brothers: Sanford, Monona, Iowa; Leonard, Woodstock, Ill.; and Elvin, Elrick, and Hilman, Galesville, and two sisters, Mrs. Axel Hanson, Tomah, and Christine, Black River Falls.

The funeral service will be Wednesday at 2 p.m. at Our Saviour's Lutheran Church, Hixton, the Rev. Franklyn Schroeder officiating. Burial will be in Trinity Rest Cemetery here.

Friends may call this evening at Jensen Funeral Home, Hixton.

Jerry Suchanek

HATFIELD, Wis. — Jerry Suchanek, 59, operator of Inwood ballroom and night club at Hatfield the last 15 years, died early Monday morning at his home here following a heart attack. He had a heart condition but had worked as usual Sunday.

He was born in Bridgeport, Conn., Oct. 28, 1905. He was in the casket manufacturing business at Cicero, Ill., before purchasing the ballroom and moving here. He was a member of the IOOF in Chicago.

Survivors are: His wife, one daughter, Mrs. Michael Borcher, La Sueur, Minn.; one son, Jerry Jr., in the U.S. Air Force; one grandchild; his mother, Mrs. Peter Henzik Sr., and his stepfather of Neillsville.

The funeral service will be Wednesday at 2 p.m. at Langlois-Galston Funeral Home, Black River Falls, the Rev. A. J. Thueke officiating. Burial will be in Hatfield Cemetery.

George Mossman

LAKE CITY, Minn. (Special) — George Mossman, 58, Guilford Township farmer, died Sunday afternoon at Lake City Municipal Hospital, where he had been taken Saturday evening after becoming ill suddenly.

He was born March 10, 1907, at Hubbard, Iowa, to Mr. and Mrs. Charles Mossman.

He married Florence Woodrow Sept. 17, 1932, at Hannah, N. D. They farmed in the Belmont, Iowa, area until moving to Guilford Township in 1956.

Survivors are: His wife, one son, George Jr., Hampton, Iowa; two daughters, Mrs. James (Gladys) Arndorfer, Clarion, Iowa, and Mrs. Donald (Kay) Aldrich, Belmont, Minn.; nine grandchildren; his mother, Mrs. Grace Hollis, Hampton; three brothers, Erick, Des Moines, Iowa; Charles, Auburn, Calif.; and Dean, Phoenix, Ariz.; and three sisters, Mrs. Thelma Poyzer, Hampton; Mrs. James Mariga, Belmont; and Mrs. L. K. Richardson, Gillin, Md.

The funeral service will be Wednesday at 2 p.m. at Clarion, with burial at Rolland, Iowa.

Friends may call at Peterson-Sheehan Funeral Home here tonight.

Genhard Strand

STRUM, Wis. (Special) — Genhard Strand, 64, mortician here 30 years, died of a heart attack at his home in Strum Monday at 7 a.m.

He was born July 19, 1900, at Strum to Mr. and Mrs. Henry H. Strand. He was graduated from Mondovi High School. He served in World War I and was a member of Osseo American Legion Post.

He succeeded his father as funeral director here. The last three years he has been associated with Gordon Kjenvet in funeral parlors at Strum, Eleva and Mondovi.

He married Ruth Garson here Nov. 26, 1921. He was a member of St. Paul's Lutheran Church, serving as deacon. He served on the Strum school board, with the volunteer fire department, and was active in the Commercial Club and other civic affairs.

Survivors are: His wife, two sons, Jack and Robert, Minneapolis; one daughter, Mrs. Lyle (Ellen Marie) Beck, Torrance, Calif.; 13 grandchildren, and two brothers, Elvin, Strum, and Harry, Eau Claire.

The funeral service will be Thursday at 2 p.m. at St. Paul's Lutheran Church, Strum, the Rev. Luther Monson officiating. Burial will be in the West Bend River Cemetery here.

Friends may call at Strum Lutheran Chapel after 2 p.m. Wednesday.

Minnesotan Hurt In Crash Dies
ST. PAUL, (AP) — Gerald Warren Hempel, Route 2, Mount, Minn., injured Monday afternoon in a traffic accident in Bloomington, died early today in a hospital here.

The death raised Minnesota's 1965 traffic fatality count to 174, compared with 232 a year ago.

Knitting Mills Employees Give To Flood Fund

The city of Winona Flood Control Fund has its second day today, when a total of \$1,232 was added to it.

This brings its total to \$12,183.70.

Only one other day's total contributions exceeded today's. That was Thursday, when the Winona Knitting Mills, Inc., sent its check for \$10,000.

THE LARGEST single contribution in today's list is \$712 from employees of the knitting mill. Another large gift was the \$300 received from Standard Foundry Co.

All money given to the fund will be turned over to the city for use in paying its immediate flood-control bills. Contributions may be sent to the Daily News, which is administering the fund.

Contributions are as follows:

Previously received \$10,951.70

Rain Expected Into Thursday

Mostly cloudy with occasional rain and thunderstorms, tonight and Wednesday. That's the weatherman's prediction for Winona and vicinity.

Not much change in temperatures is expected with a low of 48-52 tonight and a high of 65-70 Wednesday. Temperatures near normal with showers ending is the outlook for Thursday. The Winona temperature rose to 67 Monday and dropped to 50 overnight. At noon today the reading was 54.

RAIN WHICH fell in two shower periods Monday morning totaled .24 of an inch.

A year ago today the Winona high was 82 and the low 55. All-time high for May 4 was 94 in 1959 and the low for the day 27 in 1907. Mean for the past 24 hours was 58. Normal for this time of the year is 55.

The rainfall along the Upper Mississippi had little effect on the falling tendency and drops of up to .7 of an inch were recorded at all stations between La Crosse and the Twin Cities.

At Winona the river at noon was at a 13.35 stage, down .68 from Monday. Flood stage is 13 feet, which was reached April 10. The Weather Bureau issued the following forecasts for the next three days:

Wednesday 12.8

Thursday 12.3

Friday 11.8

Rainfall along the river ranged up to .70 of an inch at Theil.

Winona, on the Trempealeau the precipitation was .62.

Rainfall at other points included .39 of an inch at Durand, 16 at Galesville, 11 at Houston, and .53 at Trempealeau.

The rainfall at La Crosse was .46 of an inch for the past 24 hours. Low temperature there this morning was 49 after a high of 71 Monday. At Rochester rainfall amounted to only .10 of an inch with temperature extremes of 66 and 50.

Lowest reading in the state this morning was 40 at Bemidji and International Falls.

WISCONSIN'S EARLY May "cold wave" which hit the state in a rush of tumbling temperatures Monday is due to move out tonight. A return to somewhat warmer weather was predicted for Wednesday.

A series of thunderstorms developed in the central part of the state Monday afternoon as the cool front moved through. Some storms were accompanied by hail, especially in the area from Wausau to Sheboygan.

The mercury fell from 80 to 55 in a 20-minute period in Milwaukee.

Pewaukee had set the state high of 86.

Park Falls had the low of 39 early today.

Two Buildings May Be Rented For Classes

Rental of two areas for classes to be organized in the Winona Area Vocational - Technical School under provisions of the federal Manpower Development and Training Act was discussed Monday night at the committee of the whole meeting of the Board of Education.

Directors were told by Superintendent of Schools A. L. Nelson that space must be acquired to accommodate sections in electronics and welding and that two rental properties may be available.

One is the former J. & W. Tool & Manufacturing Co. building at 67 Main St., and the other a building at 810 E. King St., now occupied by Winona Auto Sales. The latter, owned by Joseph J. Holman, could be used for welding classes and the old J. & W. building, directors were told, would be suitable for the electronics classes.

It was understood that the auto firm's lease expires this spring and that the firm plans to move to another location.

Board members felt that both locations would meet requirements and authorized the administration to continue investigation into leasing possibilities. The matter probably will come up for action at the regular board meeting next Monday.

School Board

Mondovi Wins 19 1st Places

MONDOVI, Wis. (Special) — Nineteen Mondovi High School music entries received first ratings at the state solo-ensemble contests at Eau Claire Saturday.

Four of the 19 were recommended to audition for scholarships—Terry Wright, oboe; Anita Haugland, flute; Allyn Hubbard, trombone, and Linda Duncan, tenor sax.

SIXTH RATINGS: Jerry Johnson, Robert Lee Fort, Lloyd and Paul Larson, French horn; Joan Lind, Gail Casey, Anita Haugland and Linda Johnson, flute; and Patricia Blaser, French horn.

SEVENTH RATINGS: Susan Henneman and Jane Hageness, French horn; and Patricia Blaser, French horn.

EIGHTH RATINGS: Mary Cook, Martha Rieck, Pamela Johnson, Jane Hageness, Shirley Fort, Kay Johnson, Louise Tarrant and Michelle Anderson.

NINTH RATINGS: Jerry Johnson, Robert Lee Fort, Lloyd and Paul Larson, French horn; Joan Lind, Gail Casey, Anita Haugland and Linda Johnson, flute; and Patricia Blaser, French horn.

TENTH RATINGS: Mary Cook, Martha Rieck, Pamela Johnson, Jane Hageness, Shirley Fort, Kay Johnson, Louise Tarrant and Michelle Anderson.

ELEVENTH RATINGS: Jerry Johnson, Robert Lee Fort, Lloyd and Paul Larson, French horn; Joan Lind, Gail Casey, Anita Haugland and Linda Johnson, flute; and Patricia Blaser, French horn.

Twelfth RATINGS: Mary Cook, Martha Rieck, Pamela Johnson, Jane Hageness, Shirley Fort, Kay Johnson, Louise Tarrant and Michelle Anderson.

Thirteenth RATINGS: Jerry Johnson, Robert Lee Fort, Lloyd and Paul Larson, French horn; Joan Lind, Gail Casey, Anita Haugland and Linda Johnson, flute; and Patricia Blaser, French horn.

Fourteenth RATINGS: Mary Cook, Martha Rieck, Pamela Johnson, Jane Hageness, Shirley Fort, Kay Johnson, Louise Tarrant and Michelle Anderson.

Budgeted Wage Boosts Approved

Following brief discussion of a requested raise in the city food inspector's car allowance, the City Council voted Monday night to adopt city employee wage schedules as established last fall at budget time.

The salaries, effective this month, are three percent higher than those of last year.

ALDERMEN granted the request of Willard Swanson, food inspector, for an increase from \$30 to \$35 of his monthly car expense allotment. Ald. Henry Parks suggested that the city should consider reimbursing on a uniform mileage rate system for actual miles driven. Ald. Neil Sawyer said that, by comparison, public health nurses were under-compensated.

City Council

47-Year Employee Of NSP Retires

Cleda E. Shirk

A 47-year employee of Northern States Power Co. here was honored at a retirement party at the Winona Country Club Monday evening.

She is Miss Cleda E. Shirk, who was honored by 200 NSP employees and their wives. A native of Winona, she was the daughter of Mr. and Mrs. W. O. Shirk. She graduated from Winona Senior High School and was employed by the Wisconsin Railway, Light and Power Co. in 1918 as secretary to Russell M. Howard, who then was vice president and general manager.

After his retirement, she became secretary to E. H. Finkelnburg, who was vice president and general manager of Mississippi Valley Public Service Co. She continued as his secretary after he was elected president of the company in 1961.

Since 1957 she has served as secretary to S. J. Petersen, division manager of Northern States Power Company.

Miss Shirk has been an active member of McKinley Methodist Church and is a member of its Women's Society of Christian Service and Circle 6.

She plans to spend some of her time traveling. She likes to sew, read and listen to music. Miss Shirk, who will continue her residence at 266 1/2 Lafayette St., has one sister, Mrs. J. R. (Doris) Hancock, Glenview, Ill.

THE SPEEDING COMPLAINT against Scott G. Gerson, 24, 355 Market St., was amended today to place the alleged violation at U.S. 61 and the Service Drive. The original complaint had alleged that Gerson also speeded from Kraemer Drive to Pelzer Street.

A previous amendment had changed the charge against Gerson from careless driving to speeding. Gerson is now charged with speeding 45 m.p.h. in a 30 zone at U.S. 61 and the Service Drive Nov. 21, 1964, at 1:40 a.m.

Gerson pleaded not guilty to the original careless driving charge Dec. 2. Trial was set for Dec. 16, postponed to Jan. 12, April 8 and, finally, May 6. The Winona man is scheduled to be tried on the speeding charge Thursday at 9:30 a.m. by a six-man jury.

City Prosecutor James W. Soderberg represents the state in the case; Attorney Dennis A. Challeen represents the defendant.

TRUCK DRIVER Leslie Iversen, Lewiston, entered a guilty plea Monday in municipal court to a charge of driving overweight on County 25 in Ulfex Township April 10 at 3 p.m.

Mrs. Harold Belter, owner of the truck driven by Iversen, entered the guilty plea for him.

Judge McGill imposed a \$50 fine, which was satisfied out of the \$100 bail posted when Iversen pleaded not guilty to the charge in Lewiston justice court April 15 and asked for a change of venue to municipal court.

Shorff George L. Port reported Monday that Iversen appeared Saturday in Goodview justice court and pleaded guilty to the charge. He said that Iversen paid a \$15 fine and \$5 costs.

since they receive \$20 a month for car operation. Council President Harold Briesath said they had not asked for increases and that the budget has been established in any event.

City employees generally will receive a 3 percent increase with most getting it in cash. Street department employees get a contribution to a health and welfare plan. Each street department employee enrolled in the plan will receive up to \$13.65 credit against his premium each month in lieu of a cash rise. This corresponds to a 2 percent increase. Department employees also were granted pay for accumulated sick leave at retirement. Sick leave can be accumulated to a 90-day maximum.

THE NEW schedule, showing monthly salaries:
City engineer, James Baird, \$1,006.82; city attorney, George

M. Robertson Jr., \$787.95; city recorder, John S. Carter, \$721; treasurer, Alfred Berndt, \$525.30; deputy clerk of municipal court, Edgar Lynch, \$472.77; deputy clerk, conciliation court, Henry Scharmach, \$308.12; assistant recorder, Darrell Johnson, \$446.50;

Assessor, Donald O'Dea, \$604.10 plus \$35 car allowance; deputy assessor, Lyle Haney, \$433.38 plus \$35 car allowance; assessor stenographer, Miss Dorothea Reps, \$302.44; janitor, Robert Vera and Richard Knaak, \$357.20;

Electrical inspector, George Jensen, \$525.30; building inspector, George Rogge, \$525.30; draftsman, Ralph Leininger, \$572.58; instrument man, Robert Thurely, \$546.32; senior rodman and inspector, John Cierzan, \$427.60; junior rodman and inspector, \$416.04; plumbing and heating inspector, Marvin Nelson, \$462.26; secretary, engineering department, Mrs. Ruth Gulbrandsen, \$315.18;

Treatment plant operator, James Puck, \$446.50; assistant operator, Arthur Martinson, \$414.98; lift station operator, Bernard Sheridan, \$446.50; assistant station operator, John Nelson, \$414.98; sewer maintenance foreman, Harry Skuczynski, \$446.50; sewer maintenance helper, James Stanek, \$414.98;

Welfare commissioner, Mrs. Lawrence Breitbach, \$499.04; assistant welfare commissioner, Mrs. Robert Beeman, \$309; welfare department stenographer, Miss Diane Duellman, \$262.66;

Health officer, Dr. W. W. Haesly, \$262.66; dairy inspector, Dr. James Kahl, \$231.14 plus \$30 car allowance; salary inspector, Roy Vose, \$462.26 plus \$40 car allowance; food inspector, Willard Swanson, \$433.38 plus \$35 car allowance; health department technician, Mrs. Frank Uhlig, \$376.90; health department clerk, Miss Carol Lebeck, \$202.66;

Nursing supervisor, Mrs. Mary Crane, \$467.52 plus \$20 car allowance; Mrs. Fay Gilje, nurse, \$388.72 plus \$20 car allowance; nurses, Mrs. Carol Vaughn, Mrs. Neil Sawyer and Mrs. Sandra Wunderlich, \$393.98 plus \$20 car allowance; nursing secretary, Mrs. Richard Drussell, \$262.66;

Veterans service officer, Philip Kaczorowski, \$510; veterans service stenographer, Mrs. James Theis, \$285; bandmaster, Harold Edstrom, \$170; civil defense director, George McGuire, \$115;

Street commissioner and harbor master, Arthur Brom, \$663; assistant commissioner, Valentine Modjeski, \$498.60; bookkeeper, street department, Donald Rice, \$397.80; meter repairman, John Thompson, \$409.74;

Street department machinists, \$2.62 per hour; class A operators, street department, heavy machinery, \$2.51 per hour; class B operators, \$2.40 per hour; class C operators, \$2.28 per hour; truck drivers, \$2.23 per hour; driver helpers, \$2.05 per hour; part-time drivers, \$1.79 per hour; laborers, street department, \$1.62 per hour; new street department laborers, \$1.65 per hour;

Weed inspector, Harry McMillen, \$125 per month plus \$20 car allowance, five-month basis, and airport manager, J. Robert Dunn, \$346.70.

Park-Recreation department administrative personnel wages will be established at a special meeting of the department board today at 5 p.m. Fire and police salaries will be set today by that board.

RECENTLY I knew of a man who earned his living as a truck driver. Financially he's had a hard pull, partly due to considerable illness within the family. Someone suggested insurance. He put on his Sunday best, and you know, he looked like a salesman. Next, he called on an insurance office and learned they would give him a chance, while he held his present job for income purposes. The insurance company proceeded to put him through a training program, preparing him for the written exams, and with some practical experience also worked in. Already this truck driver has a new horizon. It includes not only a better income, but the possibility of building an agency that will give him a new kind of security.

Another man and wife team now own a hobby shop. It all started when he was employed in a local factory. The store was a sideline. The day came when the factory closed down, leaving hundreds jobless, but not the hobby man. Today he is self-employed because there was a time he had a desire to own a hobby shop and dared to try on a small scale.

What's your ambition? Somehow, if you really want to achieve, there's an opportunity waiting for you, but you have to reach for it as contrasted with being in a rut. You can just fall into that.

At present, you may be a factory job. You do it well, it pays fairly good, and as jobs go, you have no complaint. It's just that if you had to do it over again, you would have been a salesman, owned a hobby shop, or taken up window decorating. My point is, most of us can, over a period of time, change our course if we desire to. I expect there has never been a time when so many opportunities to learn something new was available. Vocational schools offer specialized training in sales, merchandising, and a host of things. Hobbies always prove a splendid way to learn something.

DOING WHAT comes naturally can soon get pretty monotonous. Ambition may be a natural quality, but ambition it seems to me, is usually born of an idea steeped in the desire to achieve a given end. It's always easier to get a job done, which you enjoy doing, so set a goal and start working to that end.

At present, you may be a factory job. You do it well, it pays fairly good, and as jobs go, you have no complaint. It's just that if you had to do it over again, you would have been a salesman, owned a hobby shop, or taken up window decorating. Highway Patrol Comments on Wire Cutting Case

A highway patrolman who on Saturday had charged a man in municipal court with damaging state property said today that the man's statement to Judge John D. McGill didn't tell the whole story.

Albert I. Severson, Lamolite, told the judge Saturday at his arraignment that he had been driving along U.S. 61-14 near Lamolite April 11 when he began to have trouble with his clutch. It was raining at the time, and he was three miles from home, the Lamolite man said.

He stopped to clip a strand of wire from a roadside guard cable, Severson said, to make a temporary repair. As he did so, Patrolman Ronald B. Loftness, 553 E. Howard St., drove up and charged him with damaging state property, Severson told Judge McGill. He had to walk home, the Lamolite man concluded.

Loftness said today that Severson had not been snipping one strand off the cable. He was one-third of the way through the cable with a hack saw, Loftness said. The highway patrolman said he offered Severson a ride to the nearest garage to get help but the Lamolite man refused.

It was not raining at the time he stopped, Loftness added. Thus, the circumstances of the Severson arrest were different from their presentation in court, Loftness maintained. Severson paid a \$10 fine imposed by Judge McGill on his guilty plea to the charge.

Langley Asks Delay on Foster Home Program

ST. PAUL (AP) — Sen. Clarence Langley of Red Wing asked the Senate Public Welfare Committee Monday to delay for two years action on a bill authorizing a system of group foster homes for parolees from the Sauk Centre Home School for Girls and the Red Wing Training School for Boys.

Joseph Rowan, deputy corrections commissioner, told the committee girls must be kept at Sauk Centre as long as four-and-a-half months after they have been paroled because there is no place to send them. He said boys must wait as long as three months after parole to be released from Red Wing.

Under the group foster home plan, several boys and girls are sent to a single foster home which serves as a sort of halfway house before they go back to their home communities.

Langley described conditions at Red Wing as "chaotic." He said action on the proposal should wait until the Department of Corrections can "put its house in order" by establishing a real correctional program.

He told of numerous escapes from Red Wing and the resultant car thefts, burglaries and "threats to life."

He said he had a resolution from the Goodhue County Board asking that no group homes be established in that county.

The sophisticated toughs at Red Wing are not amenable to direction or even control," said Langley.

Among those who appeared in support of the bill was Julian Baird, retired St. Paul banker and former undersecretary of the treasury.

Baird, now vice chairman of the Minnesota Citizens Council on Delinquency and Crime, told of the success of the group home plan in Wisconsin.

"You don't protect society by running schools for crime, which institutions can become," he said, stressing the need to get boys and girls out of institutions into a more normal home situation as fast as possible.

The committee delayed action until a later meeting.

Four Hit National Honor Counts in Westgate Pin Topplers

Once there were eight, now there are 12. That is the story of women's national honor counts in the city for the 1964-65 season. Rolling two shifts because of a postponed date during the flood crisis, the members of the Westgate Pin Topplers League staged a torrid demonstration Monday night. Four of the league members — two from Watkins Mary King and two from Main Tavern, the two teams deadlocked for first place — came up with national honor counts. This, among other things, is what happened:

- Helen Englerth, Main Tavern, a 638 for first place in the city.
- Betty Englerth, Main Tavern, 619 for second place.
- Marianne O'Brien, Watkins Mary King, 612 for a sixth-place tie.
- Irene Trimmer, Watkins Mary King, 606 that missed tenth place by a single pin.

Helen and Irene hit their counts during the first shift. Helen wiring 14 strikes and 14 spares into the 638. She had only two blows during games of 179, 226 and 233.

"It was almost as if I knew what I was doing," she said after informing that the season — up to now, at least — was not entirely to her liking.

"MY AVERAGE (171 after the 638) is down about four pins. I'm only bowling once a week, so that makes a difference," finished the 15-year veteran, who said this was her highest series.

Betty, who carries a 172 average, smashed 18 strikes and six spares while running into two splits and four blows. She opened with 234, hit 213 and finished with 182.

Meanwhile, Irene was swinging to games of 212, 158 and 236 (that missed tenth by two pins) while smashing 16 strikes, eight spares, bumping into four splits and two blows.

MARIANNE HAD games of 234, 201 and 187. She had 16 strikes, 12 spares, one split and three blows. She holds a 163 average. Irene's average is 167.

With Helen hitting 638 and Betty 629, Esther Poiane and Helen Nelson slid into a third-place tie with their 618s. Marianne tied with Helen Nelson at 612.

During the first shift, Watkins Mary King cracked 920 and Main Tavern 2,655. Esther Poiane leveled 205-204-574. Betty Schoonover 523, Gladys Roetzler 506 and Betty Englerth 505.

DURING THE second shift, Irene Trimmer and Marianne paced Watkins Mary King to 2,731 (out of the top ten). Irene totaled 236-561.

Main Tavern tumbled 949. Esther Poiane 204-553. Irene Bronk 546, Betty Schoonover 559, Vivian E. Brown 201-534, Leona Lubinski 531, Helen Englerth 522 Vivian H. Brown 519, Sylvia Hassinger 512 and Henrietta Young 503.

In a makeup night at Westgate Bowl, the Lakeside League saw Bob Kosidowski lead Vikings to 955-2,826 with a 621 on games of 199, 244 and 178. The series was errorless.

Janice Drazkowski, rolling for Mohan's Window in the Westgate Alley Gators League, pushing over 530 while Bernadine Redalen was leading Montgomery Ward to 922 with her 207. Nash's topped 2,565, Carolyn Gerth 507 and Bette Sievers 205.

HAL-ROD LANES: City —

Robert Jandt's 597 paced Country Kitchen to 2,909. Ray Bambenek clouted 233 for Oasis and Merchants Bank, 1,026.

VFW — Ralph Bambenek's 589 led Wason's Supper Club to 1,042-2,858. Charles Hagedorn tipped 223 for Bub's.

High School Girls — In a Sunday League, Cheryl Biltgen slammed 508 for Scramblers while Bev Biltgen's 180 was pacing Alley Gators to 727-2,112.

High School Boys — This Sunday League saw Bruce Biltgen come within an eyelash of an honor count when he ripped 594 for Pin Busters. Pat Hopf dumped 222 to pace Good Players to 2,264, and Pin Smashers came up with 819.

His 'N Hers — Suzy Schneider cracked 509 to lead Kauphusmans to 769. The team also got 201 from Jim Kauphusman. Arwin Overby's 542 paced Overby-Rustad to 2,245 and Marty Hansen tipped 189 for Anderson-Hansen.

Park-Rec Jr. Boys — Kraig Lang's 187-322 led Four Go Fours to 768-1,479.

WESTGATE BOWL: Saturday Jr. Boys — Dave Smelser rapped 177-485 for Strikers and All-Stars 740-2,159.

LET'S
TALK
SPORTS

with Gary Evans

CONGRATULATIONS ARE DUE Marv Gunderson, Winona High School football coach. Gundy was elected second vice president of the Minnesota High School Football Coaches Association at the annual dinner meeting of the organization at the Normandy Hotel, Minneapolis, Friday.

Under the present plan of succession, Gunderson will become first vice president next year and president the following year.

Willmar's Bill Hansen is president and Ron Masanz of Morris first vice president.

In Minneapolis for the annual University of Minnesota spring football clinic, the coaches instituted a hall of fame and honored Bronko Nagurski of International Falls, former University of Minnesota football coach Bernie Bierman and former high school coaches Frank Cleve of Henry, Bernie Cole of Stillwater, Lew Sweanigen of Jackson and Vern Morrison of St. Cloud Tech.

FORMER CATHOLIC Recreation Center director and interim Winona State golf coach, Aussie Loeffler, now Bemidji State College trainer, made a recent issue of Student Trainer for a suggestion.

Said Loeffler: "For those shavers or hair clippers that seem to pull or act sluggish, try pouring a half inch of tape remover into a cup and running the head of the clipper in the solution for 10 or 15 seconds."

While I'm thinking of it, that ought to be a pretty good tip to make to my barber.

SHIRLEY GEHLHAART of the Westgate Ladies League and Herb Kelm of the Westgate Community League take the 1965 prize for prompt return of their Bowling Review forms.

Both arrived at the sports desk Monday morning. In all fairness, it must be said that Hal-Rod teams are still competing and that forms for Winona Athletic Club and Red Men's alleys were not mailed until Monday because of secretary checks.

At any rate, this is the type of effort we need.

WHILE THE SOUTHERN Minnesota Baseball League has been dormant in Winona for several years, it definitely will be in existence this summer.

A five team league — including the Winona Athletics (the name chosen at a board of directors' meeting Monday night) — begins operation June 13.

It is on that date that Winona will host Rochester in what is to be an 8:15 p.m. contest. Plans have already been formed for opening day ceremonies.

Max Molock, St. Mary's NAIA hall of famer, is both board president and field manager. He will be assisted on the field by Gary Grob and Jon Kosidowski, two ball-players who need little introduction to local fans, as well as Jim Kline, a board member.

"We have gathered the money that will carry us through the season, and we are very, very grateful to the people and business firms who were generous and kind enough to donate," said Molock. "It is gratifying to know we're getting such fine backing from the community."

With Molock as president of the board, Jack Williams is secretary-treasurer, Dr. Robert McGill, vice president, and Jon Kosidowski, Kline, Gary Evans, Chuck Williams, Pat Twomey, Bob Crick, Ed Rivers, Robert Podjaski, Max Kulas and Bill Wiczorek, board members.

Molock plans a strong, aggressive entrant from Winona — one complete with many college ballplayers who have and are winning fame at the two city schools.

Mentioned in addition to Kosidowski and Grob are Mark Dille, Roy Leonhardt (who is out of pro ball this year), Bill Alkire, Cliff Warnken and Dave Heise (both at St. Olaf) and Gary Grabow (at Baylor University), Dick Papenfuss, along with Rolie Papenfuss, a Dakota stalwart for several years.

"There are many more, but we don't know who just yet," said Molock.

The coach should get a fair idea May 17 when the board and prospective players are to meet at Lake Park Lodge at 8:30. Any players who are out of town and won't be able to attend are asked to call Molock.

League members in addition to Winona and Rochester will be Austin, Albert Lea and Owatonna.

TRADED . . . New York Yankees catcher John Blanchard talks to newsmen in Yankee Stadium dressing room Monday night after it was announced that he had been traded to the Kansas City Athletics. The Yankees received catcher Doc Edwards from the A's in the trade, which also sent Roland Sheldon to Kansas City. (AP Photofax)

NEW YORK (AP) — Elston Howard will be lost to the New York Yankees for six weeks and with him may go the team's hopes for an unprecedented sixth consecutive American League pennant.

The veteran All-Star catcher, plagued by an arm injury since the start of the season, will undergo surgery Wednesday for the removal of a bone chip from his right elbow.

Dr. Sidney Gaynor, Yankee team physician who will perform the operation, said today he was hopeful that Howard will be able to return to action by mid-June.

The 35-year-old catcher has been placed on the disabled list, which means he cannot be returned to active duty for at least 30 days.

In an attempt to shore up the catching vacuum, the Yankees acquired Howard (Doc) Edwards from the Kansas City Athletics Monday night. They paid dearly for the light-hitting but strong defensive receiver, giving up catcher Johnny Blanchard and pitcher Roland Sheldon.

Howard was a picture of despair in the clubhouse Monday night after the Yankees had dropped a 2-1 exhibition to the New York Mets played for the benefit of sandlot baseball in the metropolitan area.

"My wife was opposed to the operation," he said. "But I couldn't go on this way. I can't do anything. I can't throw and I can't control the bat. Shucks, I can't even straighten out the arm."

Howard injured his throwing arm in an exhibition game in Puerto Rico April 3, while attempting to pick Bernie Daniels, Washington Senators' pitcher, off second base. His foot slipped in the soft sand around home plate and his throw was off balance.

Ellie caught opening day, April 12, in Minnesota, and re-injured his arm. He has not caught since although he played three games at first base and pinch hit in two others. He has four hits in 18 times at bat for a .222 average. All his hits have been for extra bases.

The Yankees, sorely missing Howard's big bat, are in eighth place with a 7-9 won-lost record.

Last year he appeared in 150 games, batted .313, hit 15 home runs and drove in 84 runs. His 1965 salary is a reported \$70,000.

ALL BECAUSE HOWARD MUST REST

Yanks Acquire Edwards For Blanchard, Sheldon

NEW YORK (AP) — Elston Howard will be lost to the New York Yankees for six weeks and with him may go the team's hopes for an unprecedented sixth consecutive American League pennant.

The veteran All-Star catcher, plagued by an arm injury since the start of the season, will undergo surgery Wednesday for the removal of a bone chip from his right elbow.

Dr. Sidney Gaynor, Yankee team physician who will perform the operation, said today he was hopeful that Howard will be able to return to action by mid-June.

The 35-year-old catcher has been placed on the disabled list, which means he cannot be returned to active duty for at least 30 days.

In an attempt to shore up the catching vacuum, the Yankees acquired Howard (Doc) Edwards from the Kansas City Athletics Monday night. They paid dearly for the light-hitting but strong defensive receiver, giving up catcher Johnny Blanchard and pitcher Roland Sheldon.

Howard was a picture of despair in the clubhouse Monday night after the Yankees had dropped a 2-1 exhibition to the New York Mets played for the benefit of sandlot baseball in the metropolitan area.

"My wife was opposed to the operation," he said. "But I couldn't go on this way. I can't do anything. I can't throw and I can't control the bat. Shucks, I can't even straighten out the arm."

Howard injured his throwing arm in an exhibition game in Puerto Rico April 3, while attempting to pick Bernie Daniels, Washington Senators' pitcher, off second base. His foot slipped in the soft sand around home plate and his throw was off balance.

Ellie caught opening day, April 12, in Minnesota, and re-injured his arm. He has not caught since although he played three games at first base and pinch hit in two others. He has four hits in 18 times at bat for a .222 average. All his hits have been for extra bases.

The Yankees, sorely missing Howard's big bat, are in eighth place with a 7-9 won-lost record.

Last year he appeared in 150 games, batted .313, hit 15 home runs and drove in 84 runs. His 1965 salary is a reported \$70,000.

Bold Lad Won't Enter Preakness

NEW YORK — There's still an air of mystery surrounding Bold Lad, the puzzling disappointment of the Kentucky Derby. But one thing is certain — he's out of the Preakness.

Bold Lad, the 1964 2-year-old of the year and a heavy favorite in last Saturday's Derby, was never better than fifth in the Run for the Roses and finished up beating only one horse in the field of 11.

The strapping colt popped splints in both front legs during the winter and there have been persistent reports that something was wrong in his Derby run.

"I can't see too much wrong," trainer Bill Winfrey said Monday. "He's perfectly sound."

Winfrey said Bold Lad would skip the Preakness, second jewel on the Triple Crown, and instead will be pointed for the \$100,000 Jersey Derby at Garden State May 31.

REDMEN MEET MACALESTER WEDNESDAY

10 Straight? It's Possible

By GARY EVANS
Daily News Sports Editor

The man tugged at his cap, gazed at the practice field, and candidly gave his impression of the 1965 St. Mary's baseball team.

"Yes, we're capable of winning 10 straight," was the forthright opinion of the 25-year veteran coach, Max Molock. "But we're much greener than we were when we did it last year."

The Redmen, unimpressive in four straight early-game losses, have rebounded with three straight victories, the first over MIAC unbeaten Augsburg and the second two a

Hawk Golfers Top Tigers

LAKE CITY, Minn. — Winona High School's golf team pushed its record to 2-1 by defeating Lake City 157-164 in a nine-hole match at the Country Club here Monday.

John Pendleton's forces took the victory behind a 37 from medalist John Walski and a 38 from Tom Miller.

Bob Cliff turned in a 38 for Lake City and Tom Dunwell played the rolling terrain in 40.

The Hawks were scheduled to meet Red Wing at Westfield today.
