## New Viet Army Coup Crushed

SAIGON, South Viet. Nam (AP) — A lightning series of raids Thursday night and today blocked an attempt to overthrow Premier Phan Huy Quat's government and the South Vietnamese military high command.

Quat said one rebel officer was killed resisting arrest. Reliable sources said at least 50 other plotters, including a colonel and several majors were arrested. They were being held at the heavily guarded police headquarters in Saigon.

Several of the key plotters were reported still at large. Quat said the "coup attempt was the work of dissident military men who tried in November and again in February to take power."

## Education, Jobless Pay Bills Passed

ST. PAUL (AP) — The Minnesota Legislature burned the oil until nearly midnight Thursday and passed and sent to the governor two major pieces of legislation.

The first money bill in state history to exceed one-half billion dollars — a \$503.1 million package for education was approved in the Senate, 53-11, after earlier passage by the House, 125-1.

The first changes in Minnesota's unemployment compensation law since 1957 were embodied in a bill that sailed through both houses without a dissenting vote.

Gov. Karl Rolvaag was expected to sign both measures.

The education money package is more than 21 per cent higher than the current education budget. It includes \$361 million for aids to public school districts but provides no funds to pay off the deficit in school aid funds.

University of Minnesota faculty and staff members will get salary increases of 6 per cent, and state and junior college staffs a 5 per cent raise. State college presidents would get a raise of \$1,000, from \$17,000 to \$18,000 a year.

Tuition for state college students will go up 17 per cent, under the bill.

The measure designates International Falls as a new junior college site and directs studies of six areas for future college sites, including Fairmont and Owatonna-Albert Lea.

Major money distribution in the bill includes \$81.4 million for the state university, \$25.4 million for state colleges and \$7 million for junior colleges.

The bill creates the Minnesota Liaison and Facilities Commission, combining two existing agencies into an 18-member board to receive federal building funds and make long-range college plans.

There was no mention of university status for Mankato State College, although the planning commission could take it under study.

Labor and the minority Liberals said they were not opposed to the new unemployment compensation bill and Liberal Leader Fred Cina of the House predicted the governor would sign the bill.

New employer contribution rates would take effect next January but the new benefit schedules would be delayed to July 1, 1966.

There has been a special push for action at this session, both because benefit levels were out of line with living costs and because the unemployment compensation fund had sunk to a dangerously low level of about \$12 million. About \$50 million is regarded as a safe minimum to cushion any possible recession.

The proposal would increase maximum benefits to \$47 a week and raise employers' contribution rates from a top of 3 per cent to a top of 4.5 per cent of payroll. The minimum rate goes up from .6 to .7 percent. The payroll base on which the tax applies would be raised from \$3,000 to \$4,000.

The new rates will increase employer contributions by \$13.4 million a year to a total of about \$42 million.

Maximum duration of benefits would be 26 weeks, as under present law.

Eligibility and disqualification sections of the law were revised by the conference committee so as to eliminate around 14,000 workers who qualify for benefits under present law.

Quat charged that the Communist Viet Cong had a role in the attempted coup but did not give details of this.

The coup attempt sent all military installations in the Saigon area into a state of alert Thursday night and shattered the calm which had appeared to prevail in the capital's political world for the past two months.

Quat's military supporters apparently acted before the coup attempt got off the ground. There were no signs of the activity usually accompanying such upheavals, and the city this afternoon appeared generally normal.

However, the headquarters of the National Police was sealed off, and tanks and machine-gun emplacements were manned around it.

While details still were shrouded in secrecy, it was believed that an armored unit was involved in the attempt to overthrow the government. The officer reported killed was believed to have been a member of the 46th Regiment that has tried unsuccessfully in the past to oust the government.

The brother of one of the leaders of the February coup was reported arrested Thursday night. He was identified as Pham Ngoc Thun, a civilian. His brother, Col. Pham Ngoc Thau, was sentenced to death in absentia after the February coup.

U.S. Navy planes left one Communist boat "burning fiercely" and another smoking in the fourth day of renewed air strikes against targets in North Viet Nam.

A U.S. military spokesman said two A4 Skyhawks and two F8 Crusaders spotted the boats on the Lach Giang River 85 miles south of Hanoi and scored direct hits with 250-pound bombs and rockets.

The pilots encountered heavy anti-aircraft fire from the PT boats and from two shore batteries, but they made it safely back to the carrier Midway, the spokesman said. No hostile aircraft were sighted during the 15-minute raid.

## House Kills DST, Session Near End

### 3-Day Deadline on Bills

ST. PAUL (AP) — Any bills the legislature passes today or Saturday can sit on the desk of Gov. Karl Rolvaag until next Thursday, if he wants to take action on them, or he can refuse to sign them.

Under the Minnesota Constitution, the governor has three days after the legislature stops working in which to act on bills passed during the last three days of the session. He can refuse to sign bills, but the legislature cannot do anything about it.

The legislature has no chance to act on any more bills.

The legislature can pass bills until midnight Saturday. When it returns Monday, it does some cleanup chores, but can pass no more bills.

### Gov. Rolvaag Noncommittal On Districting

ST. PAUL (AP) — The Minnesota Legislature heads into the final three days of its session today with lawmakers generally optimistic that the pieces are falling into place for a fairly easy job of closing up shop.

The legislature can pass bills up to midnight Saturday, then return Monday for its house-keeping chores and farewell speeches.

Both houses held night sessions again Thursday. In the day's major developments:

—A conference committee announced agreement on an unemployment compensation bill said to be acceptable to Gov. Karl Rolvaag. It raises top weekly benefits from \$38 to \$47.

—Education conferees came out with a \$503.1 million bill to finance public school aids and college and university budgets, the largest money bill ever to be passed by the legislature and the first to top one-half billion dollars.

—A bill raising individual income taxes by \$30 million was sent to a conference committee, likely to emerge with a few changes as one of the last items of business Saturday.

While Liberal legislators continued to predict that the governor will veto the legislative reapportionment bill, Rolvaag himself continued silent on his plans.

One report was that he will not make his intentions known until he makes his traditional appearances before the House and Senate Monday, the day the session adjourns and when a governor usually comments on the session's work.

The reapportionment bill had not formally reached the governor late Thursday.

The governor let a bill repealing the county option liquor law to become law without his signature. Under this bill, communities rather than entire counties, will decide whether they wish to authorize the sale of liquor. There are now nine dry counties in Minnesota, and 11 others in which communities have been able to vote on the question of establishing municipal liquor stores.

Supporters of a six-month period of daylight saving time apparently lost their last chance for a law extending Minnesota's present DST period Thursday. The House refused by a 67-61 vote to suspend the rules and the bill went to the General Legislation Committee, which has bottled up all previous fast time legislation.

A small local bill which could have significance in the parochial school controversy was given preliminary approval in the Senate. The bill would allow two school districts near Cold Spring to use public funds to transport pupils to parochial schools. Apparent aim is to provide a court test prior to the next legislative session.

An attempt to bring up the "bill" failed in the Senate, where a two-thirds vote was needed. The bill has passed the House.

A driver education bill raising the minimum driver licensing age to 18 was given preliminary approval in the Senate. It also has passed the House.

### Removing Dead, Wounded

## 24-Hour Cease-Fire Set in Santo Domingo

SANTO DOMINGO, Dominican Republic (AP) — A 24-hour cease-fire between junta and rebel forces was scheduled to start at noon today to permit removal of dead and wounded from Santo Domingo's battle-torn northern suburbs.

The Red Cross and the United Nations negotiated the agreement to suspend the five-day

battle which has caused a death toll estimated at more than 100.

"I have every hope that this 24-hour cease-fire will be permanent," Dr. Luis F. Fernandez Martinez, president of the Dominican Red Cross, told a newsman.

But the junta president, Brig. Gen. Antonio Imbert Barrera,

whose forces have cut deep into rebel positions in the northern part of the capital, vowed to carry his attack into the main insurgent stronghold in downtown Santo Domingo. He hinted this would happen next week.

Rebel spokesmen acknowledged that their northern forces were being encircled with their backs to the Ozama River.

Imbert told a newsman: "It is now too late for a permanent cease-fire such as the United Nations and the Organization of American States have been trying to arrange."

"We have renewed our military operations and they cannot be stopped," he declared. "We want to avoid bloodshed if possible, and we are giving every chance to those in the rebel area to surrender or to come out. But we have to take the rebel stronghold very soon, and bring peace back to the country."

U.S. military authorities announced that a Marine was killed by rebel fire Wednesday night after he and another Marine accidentally drove their truck into insurgent territory.

The body of the dead Marine, who was not identified, was returned to U.S. authorities. The other man, Pfc. Leslie Mykle of Utica, N.Y., was released by the rebels.

The Marine's death brought to 19 the number of Americans killed since U.S. forces landed in the Dominican Republic more than three weeks ago.

### State Senate Confirms Quigley

ST. PAUL (AP) — The Senate confirmed the appointment of Stephen Quigley as commissioner of administration by a voice vote Thursday.

The only voice heard in opposition was that of Sen. Donald Wright, Minneapolis, who tried unsuccessfully to have the matter laid over when it came before the Senate Civil Administration Committee.

Sen. John Zwach, majority leader, described Quigley as a man of character and integrity and expressed the hope he would not again "become involved in petty politics."

Quigley had a running dispute with James Marshall, until Marshall completed his term as highway commissioner, and has had a string of differences with Rolland Hatfield, holdover tax commissioner, over Hatfield's revenue estimates.

## Family of Five Dead in Fire

VIRGINIA, Minn. (AP) — Fire roared through a small home and killed five members of a family at a suburb three miles west of here early today. Two children staying elsewhere were spared.

Authorities identified the victims as Joseph Gams, 28, a foundry worker; his 29-year-old wife, daughters Jo, 4, and Wanda, 2, and a son, Nick, eight months.

Two older children were staying at the home of their grand-

parents, Mr. and Mrs. Howard Knutsen, in Virginia.

The Gams lived near Mountain Iron in a two-bedroom home. Firemen said the blaze apparently started in or near the kitchen area, as this part of the house had the most severe damage. Two sides of the house were burned badly and the roof was burned through.

A neighbor, Mrs. John Tieberg, saw flames when she arose shortly after 4 a.m. to feed her baby. Her husband ran to the Gams house and pounded on the door. He said within moments the pressure of heat blew out a window, and the fire had a racing head start.

Firemen from Mountain Iron and Virginia answered the alarm. They found Gams' body near the bathroom and the body of one child beneath the baby's crib, indicating they'd awakened before being overcome by smoke.

## Detroit Fire Routs 900 in Statler Hotel

DETROIT (AP) — Eight firemen were overcome fighting a \$250,000 pre-dawn fire that drove more than 900 persons from their rooms in the Statler Hilton Hotel in downtown Detroit today.

Frederic Donner, board chairman of General Motors Corp., was among those who fled the five-alarm fire. Neither Donner nor any of the other guests was injured. Many of those who escaped were dressed only in their night clothes.

The only casualties were those suffered by the firemen. The eight overcome by smoke were taken to a hospital and treated.

Fire Chief Glenn Thorn said Donner was attending a meeting on the 11th floor of the hotel with a group of GM auto dealers from South Africa when the blaze broke out. Thorn made the damage estimate.

Hotel manager Frank Teich said guests were allowed to return to their rooms on the first eight floors of the 15-story building after the fire was put out.

"We've made arrangements to house the other guests at nearby hotels," said Teich.

### Train Derailed In Wisconsin Crossing Crash

PORT WASHINGTON, Wis. — A North Western Railway passenger train derailed today, apparently after crashing into a panel truck at a crossing.

A spokesman at the Milwaukee County sheriff's office said he "heard unofficially" that an occupant of the truck was killed. He said he knew of no other injuries but that several cars of the train derailed at a crossing at the northern city limits.

The train was bound from Green Bay to Milwaukee.

## U.S. Electric Bill Rising Despite Johnson's Efforts

WASHINGTON (AP) — Sometimes, President Johnson, you can't win for losing.

You go around switching off the lights in the White House and somebody at the Census Bureau gets a new electric computer.

It adds up to this: The federal government's electricity bill is expected to rise a total of some \$800,000 in its buildings across the country in the coming year. It was \$20,900,000 last year.

It appears to be an embarrassing predicament — with a boss in the White House who's cut his electric light bill by a reported \$1,800 a month — from \$4,600 to \$2,800.

However, the President's example may be responsible for slowing down the increase in government electricity costs.

A check today at the General Services Administration, which pays the utilities bills for some 6,000 federal buildings (out of some 9,000, such buildings), brought this information:

The electricity cost increase

is due largely to new air-conditioning equipment being put in existing buildings.

Improvements in light intensity is definitely a factor (work output is supposed to improve with better lighting).

Federal agencies are installing more automatic data processing equipment, and this, too, requires more electrical power.

Of course, new federal buildings are going up, with more lights, more air conditioning and more mechanical equipment.

## Milk Strike Hits Toledo

TOLEDO, Ohio (AP) — Sale of powdered milk and canned evaporated milk took a sharp upturn today as this city's 350,000 residents headed into a weekend in which fresh milk won't be delivered to their doorsteps or be available at neighborhood stores.

The milk supply was just about dried up by a strike early Wednesday of Teamsters Local 361 against the six major Toledo dairies. The union is deadlocked

with the companies in negotiations on a new contract for about 500 drivers and plant workers employed by the dairies.

Thursday a few stores still had milk for sale — in most cases because they held it back from Wednesday's rush of customers. But by noon the stocks of all the supermarkets and larger stores were gone. Generally, sales were limited to one gallon per customer.

Some fresh milk still is available from a small dairy, Sterling, which has no Teamsters Union contract and serves about a dozen stores. And residents in northern Lucas County need drive only a short distance across the state line to Michigan to pick up a few gallons.

Infants and adults will all men requiring milk in their diet are able to obtain it with a doctor-signed slip at one of four fire houses in the city.

## June 3 Target Date for New Gemini Flight

McDivitt White

CAPE KENNEDY, Fla. (AP) — The National Aeronautics and Space Administration announced today that Thursday, June 3, is the target date for the four-day space flight of Gemini astronauts James A. McDivitt and Edward H. White II.

Officials had said previously that the flight was scheduled "in the third quarter of 1965," which begins July 1. However, news services have listed the June 3 date for several weeks, based on unofficial sources.

The agency had listed the later period to provide time for preparation and to avoid criticism if the target day were missed.

NASA said McDivitt and White will circle the earth 62 times in 97 hours, 50 minutes to evaluate the effects of extended space flight on crew performance and physical condition.

The agency said it had not yet determined whether White would be the first American astronaut to expose himself to the elements of space from a spacecraft. It reported that the space suit and hatch-opening procedure had not been fully qualified. A decision might not be made until a day or two before launching, the agency said.

If the go-ahead is given, White will open the hatch and poke his head into space for a 15-minute look-around.

Soviet Alexei Leonov left his Voskhod spacecraft for a 10-minute walk in space March 18. Complete emergence of a U.S. astronaut is not planned until later this year.

DEAR ABBY:

This Hospital Rule Had 'Teeth' in It

By ABIGAIL VAN BUREN

DEAR ABBY: When my sister went to the hospital to have her baby, she couldn't locate her husband, so I went with her. She had had all her teeth pulled and has dentures. When they were preparing her for the delivery room, the nurse asked my sister to take her dentures out. She said she wouldn't do it because she didn't want her husband to see her without dentures. The nurse said they would have to come out, but my sister said the nurse would have to fight her for them. Then the nurse said she didn't take nurses' training to fight the patients. My sister said she wasn't going to have her baby there and she started to leave. Then things started to happen real fast, and she had her baby there — with her dentures in. All during her stay at the hospital those nurses were so mean to her they hardly spoke to her. Is there a rule about dentures in a hospital? Or did they just make that up? CELIA

DEAR CELIA: Each hospital has its own rules and there is a good chance that this was the hospital rule. You could find out definitely from your sister's doctor. (Not all "rules" are consistently enforced, but this one apparently had teeth in it.)

DEAR ABBY: My gentleman friend separated from his wife so I let him move into my home as I have a spare bedroom. We hope to marry as soon as his divorce becomes final. When delivery men come to my door with dry cleaning or groceries, they call him "MR. (my name)." He says this is very embarrassing and he thinks he ought to have HIS name on my mailbox. We have had several quarrels about this. I don't think it is proper for him to have his name on my mailbox where everyone can see it. I would like your advice. KAY

DEAR KAY: For a woman who is living out of wedlock with a man, your true concern for "propriety" is debatable. At this point his name does not belong on your mailbox, and the two of you don't belong under the same roof.

DEAR ABBY: A few years ago I clipped an item out of a magazine, and now I can't find it. I am sure you wrote it. It was your impression of Milwaukee. You started out by saying it operated on beer power. I need it for a speech. Abby, and if you can help me out I will give \$10 to your favorite charity. R. A. U. IN MILWAUKEE

DEAR R. A. U.: I've found it and here it is: "Milwaukee impressed me as a robust city, operating on beer power, still tingling with the success of the Braves, and defying modern architecture with a German accent."

You can send your check for \$10 to the local Society for Crippled Children and Adults right there in Milwaukee.

CONFIDENTIAL TO "TYPICAL TEEN-AGER": An inexpensive but positively sure way to improve your looks is — to smile!

McDonald Drops Union Contest Against Abel

PITTSBURGH (AP) — David J. McDonald will step down as president of the United Steelworkers Union next month without the fight he promised.

McDonald announced Wednesday that he was withdrawing his protests to the union's Feb. 9 election in which he was narrowly defeated by Secretary-Treasurer I. W. Abel.

Although associates said he

still believes he won, McDonald told newsmen he was bowing out to avoid a lengthy legal wrangle that could weaken the union in its current contract talks with basic steel.

The negotiations, now facing a possible Sept. 1 strike date, were twice interrupted by the bitter Abel-McDonald struggle. McDonald, 62, who once toiled for 22 cents an hour in mills where steelworkers now make more than \$3.60 an hour, guided his union to some of its best contracts and through its longest strike — 116 days in 1959.

During his 12-year reign he negotiated the first comprehensive profit-sharing plan and won extended 13-week vacations for senior workers in first the aluminum, then the can and steel industries.

One of his abiding interests was the problems of older workers and those who had retired. It was an interest that came

from seeing an illness kill his father who was still at work the mills at 72.

McDonald was one of the first labor leaders to win pension

increases for workers long retired. His own pension, when he steps out June 1, will be \$25,000 a year. As president he was paid \$50,000.

## 968 Families Served by County Welfare

The county welfare department is currently working with a case load of 968 families, William P. Werner, its director, told the Winona County Welfare Board Thursday.

The scope of the department's program is indicated by the reports given to the board Thursday and by the action taken by the group, Werner said.

WERNER TOLD the board that his department has completed five studies for courts, all relating to persons in need of care and treatment at state hospitals. He also told the board of the status of three cases involving termination of parental rights.

The department has placed four persons recently discharged from state hospitals, Werner said, and it has completed the placement of a retarded person at the Fairbault State School and Colony.

It is now involved in making two new adoptive studies, and it is attempting to get state clearance for treatment of two persons by the crippled children's service, the director said. It also has referred seven persons to University of Minnesota hospitals, he said.

**BOARD ACTION** Included approving one new old age assistance grant, canceling seven OAA cases and denying two applications for OAA; approving two new aid to dependent children grants, canceling three and denying four; canceling one aid to the disabled grant, and approving 10 new medical assistance to the aged grants and canceling seven, all because of the deaths of the recipients.

The board discussed pending legislation that would affect the operation of the welfare department, and it concluded that some re-examination of standards might be necessary if some of the bills were to be passed.

It also recommended a foster home for relicensing.

## Pumps Continue At Two Lakes

Pumping at Lake Winona outlet is continuing because subsoil moisture levels remain high, the city engineer's office said today.

The lake, .86 of a foot above its normal elevation of 6.66 feet, is being held to consistent levels by a 20-inch pump. The pump has been in almost continuous operation since early last month.

Water in the outlet ditch was slightly more than one foot higher than the lake today, engineers said. The outlet gates therefore are still closed.

Sweeney Lake continues to fall slowly, helped along by two pumps at its northerly end. A dike across its south end at 5th Street has been leveled but water has not subsided enough to permit use of two low-lying fairways at Westfield Golf Course.

## Most Lock Tow Haulage Units Back in Operation

Tow haulage units, which permit multiple lockages, are back in operation at lock and dams 1 through 10 with the exception of 5A, Winona.

Mechanically and electrically the unit is ready, said Lockmaster Wally Voss, but multiple lockage won't be attempted until the flow gets down to about 40,000 cubic feet a second. It was 87,500 feet this morning.

## City Expecting \$1,267,125 Check

Federal disaster funds will be forwarded to the city by early next week, Office of Emergency Planning officials have assured Mayor R. K. Ellings.

The mayor, who carried the city's application to OEP regional headquarters in Battle Creek, Mich., Wednesday, said the agency head in Washington, D. C., had guaranteed same-day payment of a 75 percent advance.

State Treasurer Val Bjornson should receive the check for \$1,267,125 by Tuesday, said Mayor Ellings, after which it will immediately be turned over to the city.

**THE CITY'S** original application for \$1,920,000 was pared to \$1,689,500 by OEP reviewers at Mankato Tuesday. This amount was approved by Battle Creek officials, who telephoned Washington to expedite payment when it arrives there.

Mayor Ellings flew from Battle Creek to St. Paul in time

to review the city's flood situation at a conference of governmental officials Thursday. Council President Harold Briesath also was present, expecting to substitute for the mayor if needed.

Mayors of Minnesota cities damaged by floods and tornadoes were allotted five minutes each to review losses for visiting congressmen. The congressional delegation, members of the House public works subcommittee, was led by Cong. John Blatnik, D-Minn.

**FLOODS AND** tornadoes this spring caused \$148.5 million in damage in Minnesota, according to the estimate made Thursday by Gov. Karl Rolvaag.

The governor increased the earlier flood damage of \$88 million to \$97.5 million and lowered his earlier tornado damage estimate slightly to \$51 million.

He pointed out that, in less than one year, drought, floods and tornadoes have caused \$200 million in damages in the state. Losses from tornadoes and floods, he said, were "incalculable, short of war, itself."

**IN ROLVAAG'S** estimate, damage included \$4 million damage to schools, \$12.5 million to roads not covered by federal aid, \$12 million to health and sanitation facilities, plus costs of debris clearance, and \$106.5 million damage to private property.

Col. Leslie B. Harding of the U. S. Corps of Engineers told the congressional delegation that spring floods in Minnesota caused \$116 million in damage. Harding estimated that damage along the Mississippi River totaled \$47 million, \$44 million along the Red River of the North, \$5 million on the St. Croix and \$3 million along the Crow and Rum rivers.

Mrs. Warner was presented a gold watch and the Froemmings, tourist luggage.

A crowd of 450 attended open house at the high school in honor of the Froemmings. Judge George Murray introduced the Froemming family; Robert Utley, board president, expressed the people's appreciation of his services and Supt. Harold Aue, Harmony High School, spoke.

The high school band, directed by Donald Trembley, played and the high school choir sang under the direction of Carol Kitchell. The Rev. John Payne of the Methodist Church gave invocation and benediction. Mrs. Dean McKnight and Mrs. Jerry Oster were in charge of serving refreshments, furnished by Fountain PTA and the Interested Citizens Committee.

He and his wife have no immediate plans for the future.

## Flood Fund To \$13,660

With the addition of \$150 in the last few days, the city of Winona Flood Control Fund has reached a total of \$13,660.40.

Included in the new gifts is a check from Mr. and Mrs. William J. Rother, former Winonans now living in Seattle. Contributions are as follows:

Previously received	\$13,510.40
Rose Fort	10
Rose Marie Ables	5
Park-Ree Square Dance Club	25
Mr. and Mrs. William J. Rother	10
Portia Club	100
Total	\$13,660.40

# Cloudy and Wet Weekend Possible

Cooler weather on the heels of a sharp forenoon shower is predicted for Winona and vicinity tonight.

The showers, which began at mid-morning, were slated to be intermittent during the day. Rainfall to noon measured .06 of an inch.

**PARTLY** cloudy is the forecast into the weekend with a low in the 40s tonight and a high of 65-70 Saturday.

The outlook for Sunday is for a little warmer weather and some showers.

Despite the rain, the stage of the Mississippi River here was slated to drop in the next three days. The reading today was 11.3, unchanged since Thursday. The Weather Bureau predicted the following stages for the next several days: Saturday 11.1, Sunday 10.8 and Monday 10.6.

Near normal temperatures are indicated in the extended forecast for Winona and vicinity. Daily average highs of 70-73 are forecast and nighttime lows of 47-51. It is expected to be cool at the beginning of the period and a little warmer next week.

Precipitation of up to an inch is forecast in occasional showers and thunderstorms throughout the period.

The Winona temperature rose to 75 Thursday afternoon, dropped to 67 during the night and under cloudy skies was 74 at noon today.

**THIS COMPARES** with a high of 74 a year ago today and a low of 49. All-time high for May 21 was 88 in 1934 and the low for the day 31 in 1883. Mean for the past 24 hours was

71. Normal for this time of the year is 61.

Heavy overnight rains again doused Northern Minnesota with .85 of an inch at St. Cloud, .59 at International Falls, .40 at Alexandria and .45 at Duluth.

A trace was reported at Rochester where the morning temperature was 63 after a Thursday high of 70. At La Crosse the low was 63 and the high 74. No rain was reported until a light shower at mid-forenoon. St. Cloud had a low temperature of 51 and Minot, N.D., 45 but Edmonton, Canada, reported a bone-chilling 24.

Cloudy, and possibly stormy conditions, developed in Wisconsin today with the arrival of warmer weather.

The Weather Bureau said some thunderstorms could be heavy with hail and strong winds.

Cloudiness moved into the western and northern portions of the state Thursday and early today. By mid-morning, the southeastern corner of Wisconsin had sunshine.

The Superior portion of the state had 45 inch of rain in the 24-hour period ending at daybreak today. A trace was reported at Wausau, Eau Claire and Park Falls.

Temperatures on Thursday ranged from a high of 78 at Beloit to 58 at Superior.

The lows early today were considerably higher than those of early Thursday. Park Falls and Superior set the low of 45.

**BLYTHE** and Imperial, Calif., topped the nation Thursday at 104 degrees and Lewiston, Mont., had the low of 27 early today.

## Youth Bound Over on Burglary Count

A Winona youth was bound over to District Court on a burglary charge today after a preliminary hearing in municipal court in which his attorney's motion for a dismissal was denied.

Michael Kapustik, 20, 22 Otis St., was being held in county jail today in lieu of \$1,500 bond set by Judge John D. McGill and pending his arraignment in District Court on the burglary charge, in connection with an alleged burglary Feb. 28 at Fiberite Corp., 515 W. 3rd St.

**LEWIS T. Gasink**, 755 Clark Lane, a mechanical engineer for Fiberite was the only witness at today's hearing. He testified that he was at work Feb. 28, a Sunday, supervising a small crew he had working.

As he left the building about 6 p.m., Gasink told the court, he had to pass through a room containing about six vending machines.

As he entered this room, Gasink testified, he encountered two men by one of the machines. One man was crouching in front of the machine and held an iron bar in his hand, which he displayed threateningly, the engineer said.

Gasink told the court that one of the men was Kapustik and that the other was Donald Singer, 20, Minnesota City, who was arrested earlier on a charge rising from the same alleged crime, and had pleaded guilty.

The two intruders ran out of the room, through the plant and through a courtyard to a wire fence which they climbed, Gasink related. He chased them as far as the fence, he said.

**WHEN COUNTY ATTORNEY S. A. Sawyer** asked Gasink what had been "determined" to be missing from the vending machine the two men had been near, court-appointed attorney Martin A. Beatty objected that this called for a conclusion by Gasink. He had earlier testified that he did not stop to see what had been done to the machine.

Judge McGill sustained the objection, and Gasink ended his testimony by saying that neither Kapustik nor Singer were Fiberite employees.

Beatty did not cross-examine Gasink, and he called no witnesses.

**HOWEVER**, the defense attorney offered a motion to dismiss the complaint against Kapustik. Beatty argued that Gasink's brief testimony failed to establish the facts alleged in Sawyer's complaint.

First, Beatty said that the complaint accused Kapustik of entering the Fiberite building with the intent to commit larceny. Yet the state had offered no evidence to show that larceny had occurred, much less to prove Kapustik's intent, Beatty pointed out.

Second, the complaint charges Kapustik with "feloniously" entering the building. But, Beatty argued, the alleged theft would have had to be a felony to make the entry felonious. The defense attorney cited the Minnesota Statute covering theft to show that thefts of under \$100 in value are misdemeanors.

Again, Beatty pointed out that the state had offered no evidence on how much the alleged theft had netted.

**SAWYER** answered Beatty's arguments by pointing out that Kapustik was charged with burglary, not with theft. The county attorney cited the Minnesota Statute on burglary to show that it is defined as entry without the owner's consent with intent to commit "a crime."

Whether the alleged theft involved 5 cents or \$5,000 is immaterial, Sawyer argued. Either way it would still be a burglary. And, for the purpose of a preliminary hearing, it is not necessary to go into the specifics of the crime, Sawyer added.

# Garage Set for Third and Huff

Demolition of three dwelling units at 3rd and Huff streets is expected to begin June 1, preparatory to erection of an automotive sales building on the site.

The new building will house Winona Auto Sales, now located at 810 E. King St. The firm, which sells Dodge and Rambler cars, will vacate its present site in another week. It will operate in the interim at the Cities Service property, 5th and Center streets, according to Gordon Flannery, owner and manager.

**WMC, INC.**, which purchased the Huff Street site from Winona Warehouse Corp., will construct the building and lease it to Flannery. The property was acquired by the warehouse group in January, 1964. It is on the southeast corner of the intersection and measures 100

# Saint Teresa To Honor Four

The College of Saint Teresa will present its Teresa of Avila awards to four persons—three Minnesotans and one former Minnesotan—at 2 p.m. Saturday. Citations will be read by Sister M. Emmanuel, vice president and academic dean, and Sister M. Camille, president, will give the awards to the recipients.

**HONORED WILL** be Dr. Charles W. Mayo and Sister Mary Brigh Cassidy, OSF, both of Rochester; Dr. Edward M. Carlson, president of Gustavus Adolphus College, St. Peter, Minn.; and Dr. Francis J. Braceland, formerly of the Mayo Clinic staff and now psychiatrist-in-chief at the Institute of Living, Hartford, Conn.

The Teresa of Avila award is given by the college to honor distinguished men and women for outstanding service to the community, the state, the church and higher education.

## Bambenek Again President of Latsch Board

Alfred J. Bambenek was elected to his 10th consecutive term as president of the John Latsch Memorial Board at its annual meeting Thursday.

Bambenek, appointed to his first four-year term in 1956, is the board's community representative. Also re-elected were E. J. Sievers, vice president, and John S. Carter, secretary. Bills totaling \$2,040.36 were presented by Carter and ordered paid by directors.

## Lake City Legion Installs Officers

**LAKE CITY, Minn. (Special)**—New officers of Louis McChill American Legion Post 110 were installed Monday night at the clubrooms by Ralph Hughes, St. Charles, 1st District commander.

Phil Baker is commander succeeding Eugene Solheid; LaVern Herron and James Hanson, first and second vice commanders respectively; Ellsworth Johnson, finance officer; Ralph Adolph, chaplain; Luverne Weick, service officer; and Emory Zillgitt, Roy D. Carlson and Solheid, executive board.

It is only necessary to show an intent to commit a crime. Gasink's testimony showed illegal entry, and the iron bar and the two men's flight showed that their intent had been to commit a crime, Sawyer argued.

**BEATTY** rebutted with a repetition of his argument that the state's evidence must show that a theft had taken place. Sawyer answered that the state did not need to show that a crime took place, only that one was intended. The two may have been surprised before they actually committed a crime, Sawyer pointed out.

Judge McGill agreed with Sawyer that Gasink's testimony had established reasonable grounds to believe a crime was committed and probable cause to believe that Kapustik committed the crime.

The state was under no obligation to prove its case beyond a reasonable doubt, as they must do in a trial, Judge McGill pointed out. The judge denied the motion to dismiss.

Sister M. Camille said: "In selecting three of our 1965 award candidates from the field of medicine and nursing, we were mindful of the fact that the college is in close proximity to Rochester. Within the academic year we were privileged to participate in the Mayo Centennial Year and the diamond jubilee of St. Mary's Hospital. Our association with both institutions has been long-standing, and we are proud to honor these representatives who have been outstanding in their dedication to their profession."

Dr. Mayo was cited as a surgeon, educator and civic leader; as a leader in the Mayo graduate school of medicine and a member of the University of Minnesota board of regents; as a delegate to the United Nations general assembly and the World Health Organization, and as a humanitarian.

In honoring Sister Brigh, the college honors an alumna, a member of the faculty, a member of the college board of directors and the administrator of St. Mary's Hospital.

In the last role, Sister Brigh has preserved and heightened the spirit and purpose of St. Mary's in perpetuating the Franciscan tradition of generous and selfless service to the sick, the citation says.

Her dedication to her profession, her interest in civic projects, her leadership in advancing the institutional excellence of St. Mary's Hospital as established by her predecessors is recognized as evidenced by the many positions held by her at the national, state and regional level, it says.

Dr. Carlson is honored as a Minnesota educator, scholar, president and author. For many years, he has served the Minnesota Private College Fund and the Association of Minnesota Colleges as an officer and leader. He has served as a member of the Minnesota Liaison Committee for Higher Education.

Nationally, Dr. Carlson serves on the commission on the humanities sponsored by the American Council of Learned Societies, the United Chapters of Phi Beta Kappa and the Council of Graduate Schools.

Also honored by the college will be Dr. Braceland, long associated with the college, both while at Rochester as a consultant and lecturer and more recently as chief of staff for the conference, "You—Emotions and Modern Times," held at Saint Teresa's in January 1965.

"Physician, lecturer, author and teacher, Dr. Braceland exerts and has exerted a profound influence in all four areas," the citation says.

Citations and a bronze replica of Saint Teresa, mounted on a walnut base, will be presented to the recipients.

## Outstanding Teen Named at Hokah

**HOKAH, Minn.**—Kathy Von Arx was named outstanding teen of the graduating class of St. Peter's High School here.

Daughter of Mr. and Mrs. Paul Von Arx, Kathy would like to enter the field of practical nursing next February. She's been in chorus, choir and band. She played flute in the pep band two years and with the German band two years.

She was majorette the last two years after twirling as freshman and sophomore. She's trained grade school twirlers. She was a member of the Catholic Action Club and Key staff. She was sophomore treasurer, cheerleader the last two years, participated in County Day and was a winner in the annual Catholic Daughters of American poetry contest.

## Squirrel Bites Boy; Rabies Check Ordered

Three thefts and a bite from an injured squirrel were reported to city police Thursday and today, Chief James W. McCabe reported.

Paul Grangaard, 7, son of Mr. and Mrs. George Grangaard, 1108 W. Mark St., was bitten twice on the arm when he came too near an injured squirrel on his way home from Jefferson School Thursday afternoon.

**MRS. GRANGAARD** drove her son to a doctor for a tetanus shot, then called police who collected the squirrel—which has died—for tests to determine whether it might have been rabid.

Paul and some school friends had first seen the injured squirrel trying to climb a tree near Cummings and Howard streets during the noon hour. Its hind legs would not function, however, and they speculated that it might have been run over by a car.

Paul's sister told Mrs. Grangaard about the squirrel at lunch, and she warned her children to stay away from it. However, after school, Paul found it lying at the bottom of the tree next to the street which it had been trying to climb.

He tried to touch it, and the animal bit him twice.

The squirrel's body has been sent to the Minnesota Department of Health in St. Paul for tests to determine whether it had been diseased. Veterinarian James W. Kahl said a report might be available by Monday.

**CHIEF McCABE** reported an 11-inch television set and an electric mixer stolen from the window of B & B Electric Co., 155 E. 3rd St., sometime Thursday night. A neighbor reported today at 3:49 a.m. that one of the front windows of the store had been smashed.

Investigation showed that the television and mixer were missing. No loss estimate was made.

Phillip Karsina, 456 Mankato Ave., told police that someone took a spare tire and wheel from his car while it was parked in front of 810 E. King St. Thursday night. He valued the tire and wheel at \$18, Karsina reported.

A fishing rod and reel and 300 feet of electric wire cable were missing from Western Oil & Fuel Co., 1020 E. 2nd St., after a theft Thursday night. Company superintendent Clifford F. Murray, 259 W. Mill St., reported the loss but estimated no value on the missing articles.

## Mankatoan Asks For Delay in Burglary Trial

The trial of Erwn Jones, 46, Mankato, Minn., on a charge of burglary with a tool in connection with the alleged burglary attempt at Winona Senior High School Jan. 7 is tentatively set for June 7 in Olmsted County District Court.

County Attorney S. A. Sawyer said today, however, that the defendant has asked for a continuance of the trial date to the August term of court. A hearing on the motion for continuance is scheduled for today at 2:30 p.m. in Rochester.

Attorneys Joseph Gunderson, Albert Lea, and C. Stanley McMahon, Winona, represent Jones. The Mankato man is to be tried by a jury before Judge Donald T. Franke.

## MAIL AT LA CRESCENT

**LA CRESCENT, Minn. (Special)**—Beginning July 1 mail for La Crescent and area towns will be received from the Rochester sectional center instead of Winona. Mail will be carried by star route trucks between Rochester and La Crescent. To implement this plan, the Post Office Department is advertising for bids to operate the route. Interested persons may obtain bid forms from the postmaster at La Crescent.

# Parisian Miss Hails New York

By EARL WILSON

NEW YORK — "People are nice in New York... In Paris, people are rude."

A beautiful red-haired Parisian who ought to know about the rudeness of Paris, since she was born there, delivered that pronouncement. Claudine Auger, James Bond's shapely 23-year-old leading lady in "Thunderball," sat beside me in a taxi with her skirt high above her pretty knees, exclaiming about the wonder of the Fifth Avenue shops which she found superior to the Paris stores.

"In one store," Claudine said, "I try 50 dresses and I only take two."

"The saleslady was so happy and so nice. In Paris they would say 'AW' and 'Pssh, pssh, pssh,' and be so rude. But here they were happy to see me and I was happy to be there."

Claudine was so happy, in fact, that she spent most of her first two days in America just buying... a red fox... a black meerkat... I can't help it.

"I bought a Napoleon toy," she said — in a novelty shop — "You pull the string and Napoleon says, 'I'm mad about you.'"

"YOU DON'T know," Claudine continued, "you are a very great country. You have the Rockies, you have Texas, Florida, New York cowboys, and you have very shick cities."

Claudine and Sean Connery were flying back from Nassau to London to finish the picture and Claudine had insisted on a two-day stop here — "I dream

all my youth about seeing America and I nearly fainted when I got here... after deener, I walk through the streets seenging."

CLAUDINE preferred to talk about the wonders of New York to discussing the underwater lovemaking she does with Connery in the film. It was nice to meet such an enthusiast — she is a good argument for Americans to heed LBJ's admonition and stay at home this summer and see America.

Goodbye, Champs Elysee... hello Broadway and Main Street!

TODAY'S BEST LAUGH: Ronnie Martin watched a double-header at the huge Houston Astrodome, and thinks it'll inspire a new song: "Take Me IN to the Ball Game."

WISH I'D SAID THAT: Jimmy Dean defines a real executive: A guy who gets his secretary to do the crossword puzzles for him.

EARL'S PEARLS: "At cooking school," writes Nonnie Conan, "my wife got in trouble the first day. She burned the application."

Veteran actor Ed Wynn, being feted by the TV Academy, told the guests: "Television has kept me very active. I have a color set, and I have to keep jumping up to adjust it." That's earl, brother.

### WSC Players To Present 3-Act Farce

"See How They Run," a farce by Phillip King, will be presented by Winona State College's Wenonah Players next week.

The three-act play, directed by Jacques Reidelberger, will be presented at 8:15 p.m. Monday, Tuesday and Wednesday in the college's Somsen Hall auditorium.

There are four Winonans in the production. Jeanne Morrison, daughter of Mr. and Mrs. David Morrison, 363 E. Mark St., will play Miss Skillon. Connie Eckoff, daughter of Mrs. Selma Eckoff, 409 Lincoln St., will appear as Penelope Toop. Playing the part of Clive Winton will be Steven Andersen, son of Mr. and Mrs. E. M. Andersen, 471 Wayne St., and Frederic Sillman, son of Mr. and Mrs. William Sillman, 1071 W. Wabasha St., will take the role of an intruder.

Others in the cast are Joan Graham, Albert Lea, as Ida; James Wagner, Wykoff, as the Rev. Lionel Toop; John Hess, Tomah, Wis., as the bishop; Victor Borgasen, St. Paul, as the Rev. Arthur Humphrey; and William Spurbuck, Paribault, as Sgt. Towers.

### Civil Defense Sirens To Warn of Tornadoes

LOUISVILLE, Ky. (AP) — Jefferson County's 31 Civil Defense sirens will be used to sound a warning when tornadoes are sighted in the Louisville area.

A plan for the alert was worked out Thursday by Sam Briggers, Civil Defense director for the Louisville area, and O.K. Anderson, head of the U.S. Weather Bureau office in Louisville.

### Whitehall Band, Chorus to Record Year of Music

WHITEHALL, Wis. (Special) — Whitehall High School's band and chorus are making a recording of selections they have performed during the last school year.

The records, which will be sold to the public, will have selections played by the band on one side, and music performed by the chorus on the other.

The band is under the direction of Sheridan Johnson, and William Dahl directs the chorus.

### Pigeon Falls Native Attends Film Festival At Cannes, France

PIGEON FALLS, Wis. (Special) — Mrs. Thomas Douglas Hunter of London, England, the former Solveig Stetland of Pigeon Falls, is attending the International Film Festival at Cannes on the Riviera in France.

She has written her parents, Mr. and Mrs. E. A. Stetland, Pigeon Falls, that she is enjoying the sunshine after the fog of London.

Mrs. Hunter works with Sir Charles Evans, former director general of NATO and now director general of the British film industry. Before her marriage she was executive director of the Broadcasting Foundation of America in New York City.

### Radio Relay League To Set Organization For Disaster Work

Thomas M. Kulas, 1709 W. Mark St., has been selected to set up an organization of Winona amateur radio operators prepared to furnish organized emergency communications in time of disasters. It was announced today by Communications Manager F. E. Handy of the American Radio Relay League.

Kulas' assignment, which carries the title of emergency coordinator of the Amateur Radio Emergency Corps, is to band together members of the amateur radio service to perfect arrangements for emergency radio communication.

### Recital Set At St. Mary's

Piano students at St. Mary's Catholic School will be presented in a spring recital at 7:30 p.m. Sunday in the school auditorium.

In addition to the pianists' recital pieces, the program will include two selections sung by the school girls choir.

The Most Rev. Bishop George Speltz, St. Mary's pastor, will present a high school diploma in social music to Linda Wright, a Corder High School senior who won an award in national piano auditions conducted here recently.

Certificates and pins won during the same auditions will be presented to James Stein, Roberta Testor and Frances, Joan, Patty and Tim Curran, all of Winona, and Fritz and Lora Beseler, Trempealeau.

The following, all students of Sister M. Conleth, will take part in the recital program:

Mark Brandt, Mary Reinhardt, Katie Sullivan, James Stein, Beth Scholmeier, Kathy Shoup, Paula Klein-Schmidt, John Coleman, Margaret Foege, Susan Springle, Debbie Smith, Joan Curran, Kathleen Conrad, Richard Klein-Schmidt, Mella Fox, Mary Ellen Farrell, Theresa Wadden, Paula Ellen Farrell, Theresa Wadden, Paula Smith, James Carroll, Mary Kay Lettner, Carol Wilgen, Roberta Taylor, Christine Reinhardt, Kathy Curran, Fritz Beseler, Catherine Fleming, Kathleen Burke, Gretel Maier, Dora Reinhardt, David Lettner, Lora Beseler, Thomas Herman, Marian Hildebrandt, William Bernatz, Tim Curran, Catherine Herman, Pat Winczewski, Frances Curran, Jeanne Troche and Linda Wright. Julie Kohner, Harriett Koslowski, Terri Reilly and Pat Todd will be ushers.

## School Sewer Costs Estimated At Pigeon Falls

WHITEHALL, Wis. (Special) — Newland Berge, of the Pigeon Falls village board, told the Whitehall school board Monday that the new sewer system there will cost the school district about \$2,000, plus annual use charges of about \$550.

Members voted to discuss the matter further with the village board.

JOHN BROWN, school administrator, said two interns have been assigned to teach English in the high school next year. They will teach one sophomore and one senior class and also will chaperone basketball games and dances and assist in editing the high school annual.

Mrs. Willie Johnson, who will be intern adviser, will go to Madison in July for instruction. Interns are hired at \$1,200 a semester. A few of the state universities are sponsoring these intern programs in cooperation with the University of Wisconsin.

Sidney Otterson, junior high principal several years, has been hired as guidance counselor. Otterson will attend summer school. A vacancy exists for a junior high mathematics teacher for the class now taught by Otterson.

James Nihart, industrial arts teacher, and Miss Karen Kardin, home economics teacher, were released from contracts. Nihart, here four years, will go to the St. Paul public school system. Miss Kardin was here one year.

THERE ALSO is a vacancy at Pigeon Falls for a first and second grade teacher.

Maurice Ewing, elementary supervisor, will teach the summer reading improvement class, and Mrs. Roselyn Resler, commercial teacher, the personal typing class.

Lowell Glodowsky and Kenneth Stelfflug, both coaches, will work at the school during the summer. The former will work full days and the latter, who will attend summer school, part time. Part of their job will be putting curb around the track field at Sunset School.

Lawrence Sanford, custodian five years, will retire July 1. He will not be replaced. The three custodians now employed by the

school, Truman Olson, Leonard Kaag, and Arnold Moistad, will handle the work at both Memorial and Sunset schools.

## Man, 103, Gets Letter From LBJ

NEW YORK (AP) — "One hundred and three years span more than half the life of the United States. Your anniversary reminds us anew of our country's youth and vitality and of the opportunities open for us through the lifetimes ahead."

# Low Lewiston Bids Total \$1,206,645

LEWISTON, Minn. (Special)—Construction bids were opened for the new Lewiston High School by the board Wednesday night.

Apparent total of the low base bids is \$1,206,645, slightly over the estimate.

For general construction the apparent low bidder was Weis Builders, Rochester, at \$805,995.

For the electrical work the apparent low base bidder was Austin Electric Service Inc., Austin, at \$107,350.

The apparent low mechanical base bidder was Frank O'Laughlin Plumbing & Heating Co., Winona, at \$292,300.

Other base bids were as follows:

General construction — Floyd Larson Construction Co., Rochester, \$855,000; Howard L. Keller, Winona, \$912,000; and P. Earl Schwab Co., Winona, \$881,400.

Electrical — Norm's Electric, Rushford, \$112,965; and Bauer Electric, Inc., Winona, \$119,425.

Mechanical — Winona Plumbing Co., \$321,700; Holm Bros. Plumbing & Heating, Atwater, \$328,200; and H. Dornack & Sons, Inc., Rochester, \$297,200.

The school board is studying the bids. Lewiston district approved a \$1,100,000 bond issue for the new school in August 1972-73. Estimated cost of the building was placed at \$1,154,300, the balance to be made up from funds on hand.

## How's Fishing

Although Mississippi River fishing has slowed down below the channel dams in the past few days, as a whole, river fishing is good. Fishermen are finding walleyes and bass at other locations. For example, big walleyes have been taken from shore at Buffalo City, Wis., and an exciting run of sunfish has given fishermen a full creel off the new fill at Bass Camp near Whitman Dam.

Here are the reports of Wisconsin wardens along the river on fishing in the river zone. The Mississippi now is a slow dropping river. Here are the details by counties:

**Buffalo County** — Wardens Stanley Apel and Elliot Peterson: Mississippi River fishing for walleyes and northerns continues good, with good catches being taken below dams and in Buffalo City area from shore.

**Trempealeau County** — Wardens Frederick Gardner and Harold Kubisiak: Catfishing good in most areas, blood and cheese bait being used. Large northerns are being caught on live bait. Bass fishing fair to good on artificial bait. Walleye fishing has dropped off in all areas. Trout fishing fair. High water conditions, strong current.

**Pepin County** — Warden Marion Kincannon: Walleyes

are biting well in Chippewa River and in running sloughs with sonars and jigs best bait. Fishing best in evening hours. Smallmouth bass hitting fair on artificials and live bait. Crappies being taken on minnows in back waters. Lake Pepin fishing is still slow. Water still higher than normal.

**La Crosse County** — Wardens Carl Frick and David Hammes: Panfish beginning to hit poppers on Lake Onalaska especially on quiet evenings. Northerns and largemouth bass biting good on Lower Goose Island. Bullhead fishing at night is very good. Some nice walleyes were caught this past week, but it still remains slow. Water still high and fast.

**Pierce County** — Warden Maurice Black: Walleyes are hitting on Lake Pepin and Mississippi River in the Prescott area on minnows and artificial lures. Waters above normal.

**Vernon County** — Warden Homer Moe: Walleyes, northerns and bass are hitting very well on the Mississippi River. Panfish action is increasing and Jumbo Perch are biting on worms near Genoa and Stoddard. Trout fishing has slowed, but some nice catches are reported. Mississippi is still high and trout waters above normal.

**Crawford County** — Warden William Hiebing: Walleye fishing is good with bait and jigs

at Lynxville Dam, Cold Springs and other deep cuts. Bass hitting in back water areas on minnows and plugs. Good catches of crappies being taken on minnows and spinning baits at Cold Springs and other brushy flooded areas. Some bluegills hitting on worms in same areas. Catfishing picking up in Wisconsin River on worms and cheese. Trout fishing good. Mississippi and Wisconsin rivers high, but fairly clear. Trout streams getting dirty because of recent rains.

**Jackson County** — Wardens William Barton and Werner Radke: Some walleyes and smallmouth bass being taken on Black River and East Fork. One 10-pound catfish also was caught. Trout hitting fair on creeks on worms. Musky action slow. Waters normal.

## Here and There

The Wisconsin Conservation Congress at its Madison meeting recommended a year around open season on all fishing in the Mississippi River zone and on the Chippewa River. This means that walleye, northern and bass may be taken legally through the year below the dams and ice fishing. Under present regulations the season is closed during March and April.

Before the recommendation would become effective in the Mississippi boundary zone, it must be approved by the Wisconsin Conservation Commis-

sion, and Minnesota would have to approve a recommendation of Wisconsin embodying the change. Minnesota law says that the commissioner may adopt a regulation approved by a bordering state.

Don Gray, Upper River refuge manager, will be one of the federal government representatives at the Minnesota conference on pollution being held in St. Paul today.

Ted Shields, Minnesota game and fish commissioner, calls attention to Minnesota law which prohibits the dumping of minnow buckets into the waters of the state. He fears the introduction of carp into clean lakes. Smelt showed up in some of the inland lakes in Northeastern Minnesota this spring, not directly connected with Lake Superior.

## Taking Girl Out Costly for Student

SEATTLE, Wash. (AP) — University of Washington School of Communications researchers, studying the habits of students, have discovered something a lot of the fellows could have told them before they started:

The average costs of an evening out: \$7.78 with a girl, \$3.52 without. The survey, covering living patterns and buying habits of 19,000 students, showed that girls without escorts spend an average of \$3.29.

# GOP Willing To Advise LBJ On Problems

WASHINGTON (AP) — The Senate and House Republican leadership — saying the administration's "uptake has been slow" in the Dominican crisis — offered Thursday to give President Johnson secret advice on what to do.

On the record the Republicans called at a news conference for "re-establishment of Cuba's independence" and the elimination of the Castro government as "the breeding ground for Communist subversion throughout this hemisphere."

Sen. Everett M. Dirksen of Illinois, the Senate Republican leader, said that in handling the

Dominican crisis — especially as it relates to Castro's hand in it — the administration has "been wanting in some respects, and its uptake has been slow."

Rep. Gerald R. Ford of Michigan, House GOP leader, put in that the Republican leaders "are willing and anxious to make specific suggestions" if the President invites their advice.

Ford said the GOP suggestions should not be discussed publicly, but given to the President since the ultimate decision is "a matter of highest policy formulation."

## Highway Bond Measure Asked For Wisconsin

MADISON, Wis. (AP) — An Eau Claire assemblyman has issued

a warning to the Assembly Highways Committee that uncompleted sections of the interstate system will become "death strips" unless funds are provided to finish them soon.

Thomas Barland, a Republican co-authors who appeared Thursday at a public hearing on their measure providing for the establishment of a corporation to issue up to \$100 million in bonds for an accelerated highway construction program in Wisconsin.

"It's becoming increasingly more apparent that with the construction of interstate highways, we have a very serious problem of filling the gaps between these roads," Barland said.

His plasterers are working on the remodeling at Edstrom's Studio, too. We are making it a little inconvenient downstairs, so when you come in, go directly upstairs — they're all set up there to take care of you. After we finish this place will be "pretty as a picture."

## Economic Indicators Showing Gains

**MOST ECONOMIC** indicators in the 9th Federal Reserve District are showing substantial gains in year- and month-earlier comparisons, says the Federal Reserve Bank of Minneapolis in its monthly economic review.

"General expectations of favorable business prospects ahead are dominating in all but the essentially rural areas and have been since the first of the year," the bank added.

District total nonagricultural employment moved ahead sharply in February and preliminary estimates for March and April are optimistic. Further, the bank said, the improvement in the job picture seems to be broadly based: Mining and construction employment are showing the most vigor.

Recent data on the industrial use of electric power and production worker man-hours indicate that district industrial production has expanded roughly parallel to that of the nation as a whole — 7 to 8 percent ahead of the same months in 1964. Moreover, the bank's business conditions survey of important industries shows a rising trend of manufacturing output. Available information on oil and copper production through February, for example, points up a 4.5 percent increase from year-earlier levels.

Conditions on district farms have not been so favorable, the bank said. Farmers were plagued this past winter by relatively low prices, severe storms, feed shortages, high costs, and prospects of a poor spring calf crop. Also, farm incomes have continued to lag year-earlier levels.

A feature of district credit development in recent weeks has been a continued strong demand for loans, particularly business loans. To meet this demand some banks have found it necessary to liquidate a portion of their investment portfolios.

**BANKS** generally have continued to be net purchasers of federal funds and, although some increase in borrowing by member banks at the Federal Reserve Bank is reported, only a relatively few banks have been borrowers on any one day. The net loan-to-total-deposit ratio at city banks at 61.2 percent in March was at a five-year high.

## Sales Tax Veto Body Blow to State

**GOV. KARL ROLVAAG** has succumbed finally to the reactionary philosophy of the so-called Liberal leadership in the Minnesota Legislature and has announced that he will veto any and all sales tax bills that reach his desk. This follows several months of a cat and mouse game on the issue in which the governor left the door open, slightly, the better possibly to bang it on the proponents of any such legislation.

This means that home owners will continue to suffer from outlandish, almost unbelievably high property taxes.

It means that industrial expansion here, so badly needed both for jobs and for a broadened tax base, has received a deadening body blow.

It means that the so-called "little guy" Rolvaag and his Greek chorus in the legislature regard with such unctuous public sympathy and worship has received still another kick in the pants.

**IT MEANS THERE** will be no reform in a screwball system of taxation that has more than 20 classifications of property taxation and that it will remain unchanged.

It means that a sensible revenue source for badly needed services has been choked off.

It means, in short, that Minnesota is to remain sick financially, operating under gimmicks and dodges. And that a liberal philosophy has gone bankrupt.

It means all of this, of course, unless enough votes are mustered in both houses to overturn the veto. Little chance has been seen for such a miracle, but such things have happened in politics when it finally occurs that the best politics is constructive politics.

Rolvaag and such protectors of the faith as Rep. Don Wozniak of St. Paul and Sen. Paul Thuet of South St. Paul can declaim at length and express their love for the little man ad nauseum — as, indeed, they have.

**BUT THE FACTS** are the legislature and the governor have within their grasp right now an easy, progressive means of raising more revenue painlessly, of reforming our silly and discriminatory tax structure, of relieving the oppressive and regressive burden of taxes on homes and of doing it in such a way that no extra burdens are assumed by the low-income wage earner or pensioner. In regard to the last, this group actually would benefit financially under one of the sales tax proposals.

**CONSERVATIVES** apparently are going to give it the old college try anyway. More power to them. It takes some realism to view the sales tax objectively and political courage to stand and be counted on the issue. Minnesotans can only hope that enough Liberals will evade the iron yoke their leadership has attempted to impose and help pile up enough votes to override the promised veto. — St. Paul Pioneer Press.

If we say that we have no sin, we deceive ourselves, and the truth is not in us. — I, John 1:8.

## TODAY IN NATIONAL AFFAIRS

### What Excise Tax Cut Means

By DAVID LAWRENCE

**WASHINGTON** — Evidently the "big cut" in income-tax rates for individuals and corporations enacted last year did not bring in enough revenue to wipe out the annual deficit of the federal government. So President Johnson now has decided on another cut — this time in excise taxes — which he hopes will stimulate a further expansion of business and result in increased income for businesses.

The record thus far shows that for fiscal year 1965, ending on June 30, individual income taxes will bring in a total of slightly less than was collected in fiscal year 1964.

Corporation taxes have been estimated at \$1.8 billion more, and the federal deficit was figured last January as likely to be \$6.3 billion. The President in his message to Congress this week indicated, however, that receipts now are at a rate of \$92.6 billion instead of the \$91.2 billion in the January estimate. But even this improvement still means a deficit of approximately \$4 billion.

Now the President is proposing a cut in excise taxes which will reduce treasury receipts by approximately \$4 billion. Will expansion of business bring in an increase in receipts of around \$8 billion to offset the deficit?

It's a big gamble. If it doesn't succeed, the administration will find itself compelled to restore some of the income-tax rates for both individuals and corporations that have been reduced. Already it is planned to raise social security taxes to meet medical costs for the elderly.

**THE ALTERNATIVE**, of course, to a raising of income-tax rates generally is to continue larger and larger deficits. This involves a trend toward inflation, which means higher and higher prices due to the decrease in the purchasing power of the dollar.

Reliance on the removal of certain excise taxes and the enactment of increases in others is, however, the new policy of the administration which Congress is being asked to approve. Everybody dislikes excise taxes, and hence there is apparently a wave of approval for President Johnson's proposal that such levies be removed in the next few years. It may be surprising to some people to learn that repeal of the excise taxes will not necessarily mean, in the long run, lower prices for the American consumers.

Excise taxes are unpopular in retail businesses because they are an "extra." The storekeeper doesn't like them and shares the vexation of the customer when, after the price of an article is quoted, the excise tax is then mentioned perhaps for the first time in some instances. In other cases, the excise tax is already included in the net price by the manufacturer. Even with the repeal of excise taxes, prices may go up somewhat. This may prove true in the case of tickets to some theaters.

**NATURALLY**, the sellers of goods want to remove any possible impediment to sales. But it may be questioned whether purchases have always been discouraged solely because of the current excise taxes. The history of this form of taxation has shown that, after excise taxes imposed in wartime were repealed, the prices of the goods themselves were pushed upward on the theory that the public could stand some increase.

Prices have not gone up immediately, but in the long run they tend to exceed the previous price, even including the excise taxes. Labor unions, on seeking the increased business and profits for a brief period, promptly ask for higher wages, and the net result is that the public pays a bigger bill than was paid before, when the excise taxes were in effect.

## THE WASHINGTON MERRY-GO-ROUND

### General Accounting Office Battles Government Waste

By DREW PEARSON

**WASHINGTON** — There is only one agency of government which has paid any attention to Gen. Eisenhower's farewell message to the American people warning of the alliance between big defense contractors, retired generals and admirals, and the Defense Department. That agency is the General Accounting Office.

During the last fiscal year alone, the General Accounting Office submitted 144 reports on improper military spending. They checked into everything from subsidizing golf speculators to squandering money on dress shoes and pants with pocket flaps.

This is the inside reason why defense contractors have pulled wires with Rep. Clet Holifield, the onetime liberal Democrat from California, and induced him to investigate the General Accounting Office. Irony is that Holifield's subcommittee is charged with policing military mismanagement and waste. It is supposed to work with GAO, not against it.

GAO's unsung accountants pursue the disappearing tax dollar through the maze of defense contracts as no congressional committee ever does. They search for hidden profits, watch for mispent money, check all the fine print in defense contracts. Scarcely a defense industry has escaped their eagle eye.

**HERE IS SOME** of the phony spending which GAO has turned up in the last year:

1. Fort Gordon was revealed to have been providing cut-rate accommodations for military brass who come to Augusta, Ga., to watch the annual Masters golf tournament. Visiting officers are charged as low as 40 cents for a room in the bachelor officers' quarters, up to \$2.50 for family accommodations. (Commercial rates in Augusta during Masters week run about \$20 a day.) The Army also has been furnishing free transportation to the golf course, cocktail parties after a hard day on the links, and daily towel service.

2. The Navy was found to be spending an unnecessary \$150,000 a year, simply because

cause the admirals had refused to give up their brown dress shoes and wear only black shoes like the generals.

3. The flap over pants flaps was caused by Army-Marine failure to settle on one style of pants. The GAO complained that it cost the taxpayers an extra \$68,000 to supply trousers both with and without flaps on the hip pocket.

**THE GAO** has been roughest, however, on the weapons makers. They have been taking the biggest bite out of the taxpayers, and one GAO report last year charged that the Navy had spent a staggering \$445,400,000 with the Glenn L. Martin Company over a ten-year period, yet had not received a single serviceable P-61 seaplane for its money.

The GAO also accused Bethlehem Steel of collecting \$5,000,000 more than its cost figures justified for the construction of the nuclear frigate NS Bainbridge.

In another report, GAO jumped on the Aluminum Company of America for charging the Air Force an

exorbitant 51 percent markup for aircraft forgings. Boeing was also accused of pocketing \$2,203,450 (a.o.m.) on its B-57C missile contract.

The sharp-eyed GAO accountants watch both dollars and cents for savings. They raised Cain with nine contractors last year for buying first-class rather than tourist-class airplane tickets at the taxpayers' expense.

**OBVIOUSLY** THE big defense contractors would like to get GAO off their backs.

The last survivor of the Triangle fire died last week. She was 83-year-old Frances "Fanny" Perkins, FDR's secretary of labor and one of four national figures who, like Phoenix, rose from the ashes of the Triangle fire.

That fire, which in 1911 roasted to death 145 people at their work in New York City's Triangle shirtwaist factory, shocked the world. It also awakened the United States to horrible working conditions in sweatshops, and started a crusade for reform.

## WASHINGTON CALLING

### Sugar Key to Dominican Crisis

By MARQUIS CHILDS

**WASHINGTON** — A key to the tragedy of the Dominican Republic is to be found in one word. The word is: Sugar.

In the rough, money-plus-politics game of the world sugar market the little Caribbean republic is a pathetic pawn. And now here in Washington back-scenes maneuvering threatens to bar the American market not only to Dominican sugar but to the sugar of other Latin-American nations as well. Always struggling Yankee land, these nations must export commodities and sugar is one of the most important.

Powerful pressures have built up from the subsidized beet sugar growers here at home to impose a tax of three cents a pound on all imported sugar. Officials of the Departments of State and Agriculture have been wrestling with this one and they believe a compromise is in sight. Thanks to the intervention of the sugar refiners, the tax will be one cent instead of three.

But this will be enough to keep out the sugar of the Dominican Republic where by the end of 1963 wholly unrealistic production costs were greater than the subsidized American price of just under seven cents a pound. While these costs have dropped they are still so high as to put Dominican sugar out of reach of the American market and far out of line with a world price ranging around 2½ cents.

**THE BEET SUGAR** growers working through the Agriculture Department and a committee chairman on Capitol Hill have one of the powerful lobbies in Washington. One estimate puts the total government subsidy the growers have received since 1938 at \$1.685 billion. That represents the difference between the world price for sugar and the government supported price over those years.

The beet lobby has a rival in the collection of highly paid Washington lawyers working for more than 30 countries supplying about 40 percent of the sugar Americans consume. Their goal is to get as big a share of the American quota for their respective clients as possible. The Dominican dictator, Trujillo, was wise in the ways of fees and pay-offs to get what he wanted out of Washington. At one point he hired Franklin D. Roosevelt Jr. for a \$50,000 retainer. The list of those to whom he passed out retainers or handsome gifts was a long one.

**THE BASE** of the vast Trujillo fortune was in the family ownership of 80 percent of all sugar plantations and refineries. This contributed a large part of the \$150,000,000 or more the Trujillos got out of the country and on which surviving family members live in carefully guarded luxury in Europe.

There was a very special reason why the Trujillo operation was so profitable. The labor used in the fields and the refineries was virtually all, in effect, slave labor. Trujillo's ruthless police-state methods insured a constant supply of victims.

Then with the overthrow of the dictatorship Juan Bosch was elected president in a great outburst of popular feeling over the restoration of constitutional government. An idealist, close to men such as Luis Munoz Marin of Puerto Rico and other Latin Americans who have tried to bring evolutionary social change to the hemisphere, Bosch had long lived in exile. He was far from being a Communist or under the domination of Communists.

**BUT HE HAD** little experience or ability in practical administration. One of his early acts was to give the sugar workers a wage that was almost double what the nominal rate had been. At the same time featherbedding, favoritism and ancient graft were prevalent in the state-owned sugar operation. This same graft pervaded the higher ranks of the military, with many generals continuing to exact a sizable levy.

Since sugar represents nearly 60 percent of all the Dominican Republic's exports the rising cost of pro-

Says Benefit Show

To the Editor:

Last night I saw a run through of "Paint the Town Pink" for the first time. It's really great! The costumes alone look like Broadway and the cast is tremendous. There are only 3,800 tickets for 25,000 people so I hope no one who likes a good show will miss it. A full house means more money for the convalescent hospital; Friday night best for tickets.

duction — to a virtually prohibitive level — played havoc with the economy. Aid from Washington was some compensation. But the sugar fiasco was a big factor in the swift slide toward breakdown and chaos.

**THE CASE** history of sugar illuminates not only for Latin America but for Asia and Africa as well the problem of the underdeveloped countries. They find the prices of the raw materials they sell low while the manufactured goods they want to buy in this country are priced high. Both industry and agriculture in America are so productive that competition is difficult. And industrial research is constantly coming up with substitutes for the raw materials these lands must export.

Nor in spite of their high-priced Washington lawyers can they compete in political pressure. The proposed tax on sugar imports is one more example of that.

## ELECTRONIC TRACKERS

**CHICAGO (AP)** — What the Internal Revenue Service employees may miss in processing business tax returns is unerringly detected by its automatic data processing systems.

Four regional offices spanning half the nation found an additional \$30.3 million in taxes in fiscal 1964, says Commerce Clearing House. These taxes were collected through delinquency leads on 185,000 business returns and accounted for over half the \$52.5 million in additional taxes tracked down by the automatic equipment during the year.

## Galesville Lions Elect Officers

GALESVILLE, Wis. (Special) — Lions Club officers elected Monday will take over in July. ## NW Repair Shop Being Remodeled For Warehousing

Remodeling now in process will transform the former Chicago & North Western repair shop into modern warehouse space, its new owners said today.

The building, purchased in January by W. A. Hodgins Transfer & Storage Co., Inc., will be ready for use in about three weeks. It is at the edge of the C & NW yards at the foot of Marian Street.

Previously slated for demolition by the railroad, it will become one of southern Minnesota's most modern facilities of its type, said J. R. Nankivil, vice president of the corporation. All openings have been bricked up, a new roof added and new roof supports installed. Fully enclosed loading facilities can accommodate either trucks or rail cars.

About 50,000 square feet of floor space will be available for commercial storage or as leased space, Nankivil said. In practice, this will be multiplied about three times, since the 27-foot ceiling makes three-level stacking possible.

Among innovations will be a pallet-box method of storing household furniture. Boxes, all uniform size, are loaded and sealed at the home, then moved to the warehouse. There they are handled by automated equipment, including fork lifts. Remodeling contractor is the P. Earl Schwab Co. Mrs. R. M. Nankivil is president of the Hodgins corporation.

## Colorado Senator Attacks Gun Bill

WASHINGTON (AP) — Sen. Gordon Allott attacked today the administration-backed bill to curb gun traffic. He said Lee Harvey Oswald could just as easily have purchased his rifle from a sporting-goods store as from a mail-order house.

"That gun from a sporting-goods store would have been just as readily as the mail-order weapon he used," said Allott, a Colorado Republican, in testimony prepared for the Senate Juvenile Delinquency subcommittee.

Two days ago, Atty. Gen. Nicholas Katzenbach, testifying in favor of the bill, told the subcommittee:

"As long as I live, I can never forget that it was a mail-order rifle — sent to a post-office box, that had been rented under an assumed name, by a man with an established record of defection and mental instability — that killed President Kennedy."

Allott and another Republican senator from the West — Arizona's Paul Fannin — argued that the administration bill would penalize ordinary, law-abiding citizens without correcting abuses in the use of firearms.

## Rolvaag Signs 4 Welfare Bills

ST. PAUL (AP) — Gov. Karl Rolvaag signed four welfare bills into law Wednesday, turning them into state aid to the disabled and retarded.

One bill changes the definition of disabled and removes the 65 age limit. This will bring 3,600 more persons into the program and remove many from county-paid general assistance.

Another proposal removes the \$70 a month limitation on aid to the disabled.

A third bill raises from \$7,500 to \$10,000 the value on real es-

## NASON ON EDUCATION

# Low Vitality Cuts Grades

By LESLIE J. NASON, Ed.D.  
University of Southern California

Dear Dr. Nason:

At the start of her schooling, my daughter, now 11, was always on the honor roll. Not until the fourth grade did I notice that she was gradually slowing down and that her marks were getting lower. Now, on a visit with her sixth-grade teacher, I was informed that her work is not satisfactory and that her I. Q. has gone down seven points since last year.

Could you please tell me what causes the I. Q. to go down? — MRS. D. G. J., Massapequa, L. I., N. Y.

Answer:

I. Q. is based upon test results. I. Q.'s sometimes go down gradually over a period of years when a child is living in a very barren environment. In your daughter's case I suggest a thorough physical examination. Low vitality could be the factor influencing her test grades.

Dear Dr. Nason:

Our son reports that in his school the weekly tests are corrected by fellow students. They sign their names at the bottom of the test and return them directly to the original student, although the grade is recorded in the class book.

Is this a good practice? — K. O. W., Erie Pa.

Answer:

During the development of a new topic, the correcting of papers by other students under the direction of the teacher allows students to discover their own errors quickly. This is much more effective than papers corrected and returned to the student one or two days later. However, any marks placed in the official gradebook should be determined by the teacher and not by another student.

Teachers must grade enough papers to keep informed as to the progress of each student in class.

Dear Dr. Nason:  
I wish to change my line

of work, but since I have a wife and child I'll need some type of loan or grant. I have an AB degree and six units of graduate work, but feel that the social work field I hope to enter will require a master's degree in sociology.

Where can I obtain information regarding financial assistance? — F. K. N., Ossining, N. Y.

Answer:

The National Defense Student Loan Program provides for loans to graduate students. Application should be made directly to the college.

I suggest you visit the campus in person and work out a complete program including financial support before starting so important a change.

## *When God Gives Us Our Marching Orders*

## Presbyterians Seek Closer Religious Ties

COLUMBUS, Ohio (AP) — The 177th annual General Assembly of the United Presbyterian Church in the U.S.A. turned today to work on means for establishing closer links with other Christians.

Among suggested steps was occasional attendance by Presbyterians at Mass in Roman Catholic parishes.

"The needs of the Church universal in our generation can only be met by Christian people working together," declared a report placed before delegates from across the nation.

William Phelps Thompson, a Wichita, Kan., attorney, took over the gavel, after his election late Thursday as moderator of the 3.5-million-member denomination, its highest titular office.

Further Christian unity was cited as one of his key concerns.

A wide-ranging series of actions to increase interchurch ties was proposed in a report by the church.

It noted that new associations "of an infinite variety" are developing with Roman Catholics in communities throughout the United States, and urged extension of the trend.

By God's grace we are being led in our time from prudential tolerance one of the other to genuine brotherhood in the household of faith," the report said.

On the morning's program was a message of greetings by Roman Catholic Bishop John J. Carberry of Columbus. Representatives from a dozen denominations also were present to extend fraternal wishes.

## Lake City Pastor Cited in Program

LAKE CITY, Minn. (Special) — The Rev. Robert Hull, retiring pastor of First Lutheran Church, Lake City, received tributes Sunday which ranged from the president of the synod to a former confidant now a pastor and a young confidant to graduate from high school.

In a program and reception given by the congregation at the church to honor Rev. and Mrs. Hull after 15 years of ministry in Lake City and 39 as a Lutheran pastor, he was called "a good man, full of the Holy Spirit, and of faith."

Dr. Leonard Kendall, Minneapolis, president of the Minnesota Synod of the Lutheran Church in America, spoke those words from the Book of Acts.

Opening the program was the Rev. Ralph Lindquist, St. Paul, a former confidant of Rev. Hull, and concluding it was the Rev. Rodney Hansen, Red Wing, dean of the Goodhue District LCA. The Rev. A. J. Ward represented the Lake City Ministerial Association.

Five local church laymen paid tribute to their pastor for his work in all areas of the congregation. They were Mrs. Erling Moe, church women; Harry Brostrom, church men; James Carlson, youth; Robert Wallace, Sunday school; and Mrs. Walton Luettinger, choir. Richard Maland was master of ceremonies and Robert Law, church council vice chairman, presented a gift from the congregation.

Music was provided by the junior and senior choirs and a solo by Mrs. Howard Brostrom. The group of 200 present included eight members of the local clergy and eight Goodhue District pastors as special guests.

Pastor Hull will preach his last service Sunday but will continue to live in Lake City.

Pastor and Mrs. Hull have two sons in Winona who are attorneys, Robert and William Hull.

## Lewiston Brethren Church Helping Restore Library

LEWISTON, Minn. (Special) — Lewiston Church of the Brethren is starting a fund to enable the Rev. Charles Nettleton, Sifer, Iowa, to replace the books necessary for his work.

Rev. Nettleton, native of Lewiston and descendant of Jonathan Lewis for whom Lewiston was named, lost his extensive library in a tornado which hit his area May 11. He, his wife and children had taken refuge in the basement of their home when they heard warnings of severe storms and were trapped by caving walls and heavy fallen debris. They were rescued several hours later suffering from shock and bruises. All that was left was the clothes they wore. The church next door and their car also were destroyed.

Contributions may be sent to the Rev. L. A. Whittaker, Lewiston.

## Don Quixote Talk Wins Toastmaster Spark Plug Award

The Hiawatha Valley Toastmasters spark plug award went to Arsenio Sandoval who told colleagues Wednesday night the 20th century "needs Don Quixote."

Sandoval said Cervantes' story of the comic knight is considered a classic because it "transcends limitations of time and place. It goes beyond the frontiers of Spain; it belongs to the world."

The universal truth it proclaims, said Sandoval, is that "the reality we see, feel and touch is only one part of reality. We need not accept this reality if it is not to our liking. But we can beautify it and adorn it in order to make it more palatable. Eventually what we at first only imagined becomes real for us. In a true sense, we are what we believe we are. Like Don Quixote, we become noble when we begin to think, feel, act and dream like nobles."

An ice-breaker speech was given by Robert Mathot. The importance of good dental care was stressed by Clarence Bell, who said: "Be true to your teeth and they will not be false to you."

Tabletopics were in charge of Duane Ringler. Individuals were asked for extemporaneous replies to questions he posed.

General evaluator was James Casey. Sandoval was evaluated by Victor Bertel, Mathot by Dr. Cleve Gruler and Bell by Richard O'Bryan. Bertel was grammarian and Robert Collins was timer.

Toastmaster for the evening was Dennis Challeen. He showed how introductions can create favorable or unfavorable images of guest speakers.

## \$300 Damage In Truck Fire Near Lamoille

More than \$300 damage was done to a two-ton rack truck by a fire which started in its load of burlap sacks as it moved south on U.S. 61 - 14 near Lamoille, Thursday morning, Sheriff George L. Fort reported.

A tank truck from the Winona fire department was called out at 10:55 a.m. and rushed to where the truck was stopped on the highway, half a mile south of Lamoille.

DRIVER Hjalmer Munson, 650 W. 5th St., told Sheriff Fort that he was driving to a destination in Wisconsin with a load of burlap sacks in the back of his U. S. government truck.

He noticed the fire in his rear-view mirror south of Lamoille and stopped to call the fire department. A second driver, driving a similar government truck in convoy behind Munson, had spotted the flames nearly four miles north of Lamoille but had been unable to catch Munson to warn him of the flames.

A car was traveling between the two trucks.

FLAMES charred the wooden rack and bed of the Munson truck next to the cab, and seat cushions and other flammable material in the cab burned while the fire department truck was en route to the scene.

The two trucks were on a trip from the Fountain City, Wis., boatyard at the time of the fire. The damaged truck was to be towed back to the boatyard today.

Its load of burlap sacks was partially damaged, with the bales being charred around the edges.

## Judith Luedtke Becomes Bride At St. Martin's

Miss Judith Luedtke, daughter of Mr. and Mrs. Walter Luedtke, 302 E. 4th St., became the bride of Thomas R. Christopherson, son of Mr. and Mrs. Earl Christopherson, Wyattville, Minn., May 8 at St. Martin's Lutheran Church.

The Rev. Armin Deye performed the ceremony. Miss Mary Mesenbring was organist and Miss Dorothy Deye, soloist.

Given in marriage by her father, the bride wore a floor-length gown of silk organza over taffeta with lace. Her long-sleeved bodice had a sabbina neckline with sequin trim. The bouffant chapel-length skirt had lace-edged tiers. Her bouffant silk veil was held by a double crown of crystal and pearls and she carried a cascade of gardenias and yellow roses.

MISS VICKI Luedtke, sister of the bride, was maid of honor. She wore a floor-length yellow brocade dress with three-quarter-length sleeves. Her headpiece was a yellow rose with a silk veil. Mrs. David Matzke, sister of the bride, and Mrs. Wilbert Jonsgaard, sister of the groom, were bridesmaids. They wore floor-length green brocade dresses with three-quarter-length sleeves and headpieces of green roses with silk veils.

The maid of honor and the bridesmaids carried cascades of white and yellow and white and green pompons. Barbara Jonsgaard, the flower girl, carried white and yellow pompons. Randall Luedtke was ringbearer.

James Christopherson, brother of the groom, was best man and Wilbert Jonsgaard and Kenneth Luedtke, brother of the bride, groomsmen. Ushers were Gary Luedtke and Eugene Hill.

The bride's mother wore a two-piece mint green ensemble and had a corsage of white, yellow and pink roses. A flowered dress and a green coat was worn by the mother of the groom. She had a corsage of white, green and pink roses.

A RECEPTION for 200 guests was held at the American Legion Memorial Club. The wedding cake was made by the

groom's mother and served by Mrs. Eugene Hill. Others assisting were the Mmes. Gary, Kenneth and David Luedtke, Jerald Larson and James Christopherson and the Mmes. Janet Lewis, Jane Wenzel and Patty, Susan and Mary Ann Eggert.

Mrs. Christopherson attended Winona Senior High School and is employed at the First National Bank. Her husband attended Lewiston High School and is employed by the Technigraph Company.

A prenuptial shower was given by the Mmes. Eugene Hill, Wilbert Jonsgaard, William Cordes, David Matzke, Jerald Larson, Gary Luedtke and James Christopherson at the Wyattville Hall and by the bride's fellow workers at the Williams Annex. The groom's parents were hosts at a bridal dinner at Shorty's Cafe.

The newlyweds are at home here.

## FHA Style Show Held at Whitehall

WHITEHALL, Wis. — The Future Homemakers of America and the home economics department of Whitehall High School combined efforts to present "Fantasy in Fashion," their spring style show, May 11.

Gloria Humphrey and Virginia Patterson, narrators, introduced the models who wore garments they made in class for FHA projects. The stage appeared as a spring garden with a rustic bridge of birch.

Escorts for the models were Gerald Manka, Garth Shanklin, Gerald Guse and Richard Sessold.

Miss Karen Kardin is the home economics instructor and FHA adviser.

Lunch was served from a tea table decorated in pink and white. Various classes had exhibits of their projects on display.

## Rushford Girls Host Style Show

RUSHFORD, Minn. (Special) — Members of the home economics department and of the Future Homemakers of America presented a musical style show May 10 at the Rushford High School auditorium.

All of the clothes worn were made by the models. On the humorous side, two comical suits were modeled: One was made of two cardboard boxes and the other was a "spring" suit with metal springs attached.

The Rushford High School Band and the Girls Glee Club furnished background music. Roger Young directed the band and Mrs. Ruth Iken, the Glee

## Houston Youths Receive Awards From Auxiliary

HOUSTON, Minn. (Special) — Americanism awards were presented to a boy and girl May 14 when the juniors of the Arnet-Sheldon American Legion Auxiliary conducted the senior auxiliary meeting.

Special guests were the Gold Star Mothers, neighboring units, mothers of the award winners, Mrs. Duane Bierbaum, Eyota, Minn., district president, and her secretary, Mrs. Irle Gusa, Eyota.

Mary K. Briggs, junior vice president, was in charge. A short program of songs and talks by the Junior Jewels was presented. Each guest received a corsage.

MRS. Bierbaum presented the auxiliary Americanism awards to Sharon Poppe, daughter of Mr. and Mrs. Vincent Poppe

Sharon James

and to James Steele, son of Mr. and Mrs. Wayne Steele. These awards are given each year to the best all-round students in the senior class.

The juniors were congratulated on their resourcefulness by Mrs. Bierbaum. She spoke to the senior unit on the necessity of keeping a strong organization and congratulated the unit on its Americanism project. Mrs. Bierbaum said that Houston County was one of the first counties over the top in membership.

Miss Briggs announced that the juniors sent handkerchiefs and Mothers Day cards to the Veterans Hospital; that they received honorable mention for their report for units over 20, and that the unit will sell poppies and help with the upcoming rummage sale.

LINDA BENSON, past junior president and current vice president, presented four card tables to the senior unit.

Mrs. Kenneth Botcher, who presided over the senior meeting, announced that the rummage sale will be May 29 with Mrs. S. L. Johnson and Mrs. Adolph Olson in charge and that the cookie barrel date is July 14.

Delegates and alternates were elected for the convention at Glenville, Minn., June 4-6. Mrs. Virgil Benson was chairman of the social committee.

## St. Mary's School Art Exhibit Opens At HSA Meeting

An all-school art exhibit was opened Tuesday evening at St. Mary's Catholic School, when the Home School Association held its final meeting of the year. The show will be on display through Sunday at the school and is open to the public.

Sister Mary Geoffrey, art director at the school, talked to the parents on how to encourage imagination and creativity in children. She said that each child had at least one piece of art on display and explained that the children have been given an opportunity to try their skill in various mediums, such as paint, chalk, paper mache, and in wood constructions and sand molding.

Also a speaker was Mrs. Donald Blake, who gave suggestions on how children and parents can have interesting summer vacations together. She listed various local spots where families can have picnics and go on hikes and fishing.

Kenneth Wiltgen, St. Mary's College basketball coach, who is a park recreation director during the summer, discussed the Winona Park Recreation schedule. He said there are still openings for players in some of the baseball leagues.

The Rev. Donald J. Winkels talked on keeping children aware of the spiritual side of life. Summer is not vacation time for this part of a child's life, he said.

Robert Shoup, outgoing president, introduced the new officers for next year: Dr. James Tector, president; Ronald Drees, vice president; Mrs. James Rowan, secretary; and Mrs. Reginald Nelson, treasurer.

Refreshments were served by Mrs. Joseph Lombardo, assisted by other mothers.

## Help Needed To Clean Girl Scout Camp

A plea is being made for people to help clean up the Girl Scout Camp Wi-Gi-Sco-Ca near Trempealeau Saturday.

Mrs. John Woodworth, a member of the camp committee, said that many persons are needed to help with the spring housecleaning at the camp, which this year is also flood-cleaning time. The lodge and some of the units need to be cleaned.

Anyone wishing to help is asked to go out to the camp tomorrow, any time after 9 a.m., bringing rakes-pails and cleaning rags.

## Past Pocahontas Group Elects New Officers

New officers of the Past Pocahontas Association of Winnebago Council 11, Degree of Pocahontas, were elected at the annual spring dinner meeting Wednesday evening in the Red Men's Wigwam.

Elected were: Mrs. Friebert Laak, prophetess; Mrs. Harold Compton, Pocahontas; Mrs. Henry Fegre, senior Pocahontas; Mrs. Walter Kram, junior Pocahontas; Mrs. Arthur Kern, secretary-treasurer; Mrs. Alden Maynard, scout; Mrs. Norton Cocker, officer of the day, and Mrs. Jessie Dowers, musician. The officers were installed by Mrs. Albin Johnson, past Great Pocahontas of the state of Minnesota.

Mrs. Laak presided at the meeting. Mrs. John Reszka gave the dinner prayer. There was a discussion of a mid-summer picnic to be held at the home of Mrs. Frank Johnstone.

Taking part in a memorial service, conducted by Mrs. Kern, were the Mmes. Walter Williams, Roy Wildgrube, Gerald Ziegeweld, Reska and B. R. Wandsnider.

Potted plants donated by Mrs. Louis Brugger were won by the Mmes. Kram, Cocker and Reszka. On the dinner committee were the Mmes. Laak, Compton, Kern, John Carter and Raymond Bronk.

## U.S. Launches New Drive on Tuberculosis

DENVER, Colo. (AP) — Tuberculosis, believed by some authorities to be near eradication a decade ago, affected almost as many persons in the United States last year as did polio in 1952 — a peak year for that disease immediately preceding development of polio vaccine.

Because of government concern, the U.S. Public Health Service has joined with Denver's National Jewish Hospital — a charity-supported institution specializing in respiratory diseases — in establishing a tuberculosis training program.

Preliminary figures for 1964 indicate that nearly 51,000 persons contracted new active cases of tuberculosis. The polio incidence in 1952 was under 58,000. The death rate by tuberculosis in 1962 (the most recent official figures) was just over 9,500.

Dr. Thomas Moulding, coordinator of the project at National Jewish Hospital, said today: "It is now apparent from the experience of the last few years, which shows a leveling-off or a slight rise in the rates of new active cases, that rapid elimination of this disease is not likely."

About 200 specialists have enrolled for courses covering bacteriological, clinical and public health aspects of tuberculosis.

## State Reduces Blair Rate Hike

BLAIR, Wis. (Special) — Water rate increases in Blair will be less than sought.

Acting upon a request from the city for a rate increase to pay for proposed additions and improvements to the water plant and distribution system, the Wisconsin Public Service Commission has granted a raise of \$2 per quarter, a total of \$8 a year.

The city, with advice from its engineer, had requested an increase of \$3.50 per quarter or \$14 per year.

Improvements approved by the PSC will cost an estimated \$135,000. The project still is awaiting approval by the state Board of Health.

No water rate increase was authorized beyond the minimum billing of the first 5,000 gallons. Now 5¢ or 2 1/2-inch meter is charged \$3.50 for the minimum. After improvements, the minimum will be \$5.50. Rates remaining the same will be 55 cents per thousand for the next 15,000 gallons; 45 cents, next 30,000; 35 cents, next 250,000, and 20 cents, over 300,000 gallons.

No increase in sewer rates was requested.

## India Hails 19 Who Climbed Mount Everest

NEW DELHI, India (AP) — Victory-hungry India put aside its worries today to salute 19 new heroes — the members of the first Indian team to climb Mt. Everest.

Army Capt. A. S. Cheema and Nawang Gombu, a Sherpa, reached the 29,028-foot peak of the world's highest mountain at 9:30 a.m. Thursday and tied the Indian and Nepalese flags to the pole left there two years ago by an American expedition, the government announced.

Five more Sherpas, including Nawang's brother Anu Kaml, joined them on the top of the world. It was the largest group that ever has been on Everest's summit at one time.

Nawang and Anu are nephews of Tenzing Norgay, one of the first two men to reach the top of Everest, in 1953. It was Nawang's second trip to the top, making him the first climber to achieve that distinction. His first time up was with the Americans in 1963.

The awesome, snow-capped peak had been climbed three times before — by Sir John Hunt's British team in 1953, by a Swiss group in 1956 and by Norman Dyhrenfurth's American expedition in 1963. Two previous Indian expeditions failed in 1960 and 1962.

## Drain Dug Up To Rescue Dog And 5 Puppies

NEW ORLEANS, La. (AP) — Cleo, a small pooch who has no owner but many benefactors around Chestnut and Constantine streets, decided to have her litter deep inside a drain culvert at the intersection.

The first heavy rain would probably drown the five pups. A man from the Society for the Prevention of Cruelty to Animals tried to coax Cleo out. The new mother, usually a pal of neighborhood kids, bit him.

Street department workers came to the rescue, dug for 35 minutes Thursday and ripped up 16 feet of culvert to reach the puppies.

"It'll take a lot longer than 35 minutes to put it all back," commented H. J. Boudreaux, city street department foreman. He couldn't give an estimate of the cost.

## How Hydrogen Weapons Work

WASHINGTON (AP) — America's hydrogen weapons employ a four-stage fission-fission-fusion-fission process of energy release, Dr. Ralph Lapp said today.

The nuclear physicist provided this new wrinkle on how hydrogen weapons work after studying a long-overlooked government report which disclosed the key ingredient in the weapons is an ordinarily nonexplosive chemical called lithium deuteride.

Pound for pound, lithium deuteride is at least half as costly as the key alternative ingredients of conventional atomic weapons — uranium 235 or plutonium.

The Atomic Energy Commission some time ago made public the fact that tritium — the heaviest of the hydrogen isotopes — is the substance which produces the explosive thermonuclear reaction of the H-bomb.

The first official disclosure that the lithium compound is used inside hydrogen weapons was made by Dr. W. J. Frank of the AEC's weapons laboratory at Livermore, Calif.

He did so in a talk at a symposium on the "Flowsheet" program — the venture aimed at using nuclear explosives for peaceful purposes such as canal digging — held at the University of California at Davis more than a year ago.

bomb. It's done by a process known as fusion — joining — of atoms as distinguished from the fission — splitting — process of the A-bomb.

The AEC also indicated that the tritium is produced by bombarding a form of lithium with atomic neutrons, or rays, in special nuclear reactors.

But the new Lapp slant is that most of the tritium is manufactured within the exploding bomb itself, with built-in lithium deuteride as the source.

## Caledonia Hospital Observes Week; Women to Organize

CALEDONIA, Minn. (Special) — Caledonia Community Hospital observed Hospital Week May 12 by hosting a program for hospital and nursing home personnel from Spring Valley, Harmony, Lanesboro, Mabel and Rushford.

Guest speakers Mrs. Beatrice Schimmelman, nursing consultant with the state Department of Health, and Gunnar Thaug, deputy state fire marshal, were introduced by S. C. Stenehjorn, administrator of the hospital and nursing care and convalescent home here.

Mrs. Schimmelman stressed the importance of these meetings and suggested ways to better serve the patients.

Thaug showed a film on fire prevention and evacuation, discussed the subject, and answered questions.

George Albert, local fire chief, demonstrated various types and uses of fire extinguishers.

Following coffee, guests were given a conducted tour of hospital and nursing care home.

Mrs. Schimmelman met with women from the auxiliary and others interested in developing a Pink Ladies group and in

## Woman Gets Divorce, Man May Visit Dog

INDIANAPOLIS (AP) — Custody was awarded to Mrs. Glenn O. Black, but her husband got visitation rights — two hours a week with the family dog.

"I haven't had a case like this for 15 years," said the veteran judge after issuing the decree.

Judge John L. Niblack's order Thursday permits Glenn O. Black, 63, Indianapolis, to visit his 3-year-old Toy Manchester named Pretty from 2 p.m. to 4 p.m. on Sundays.

Niblack, of Marion Circuit Court, added a stipulation, however. With each visit, Black must bring a third party to keep the peace.

Niblack recalled that 15 years ago he granted a farmer visitation rights with 16 cows awarded the divorced wife.

"He wanted to make sure the animals were well taken care of," the judge said.

# New Seedlings Urged for Land In Feed Grain

LEWISTON, Minn.—Farmers who are diverting acreage in the feed grain and wheat programs this year are encouraged to make use of this acreage to get new seedlings of grasses and legumes established for 1966, John F. Papenfuss, chairman of the Winona County ASC committee, said.

The exceptionally severe winter kill of grasses and legumes has all but eliminated stands for use in 1965, in the majority of cases, and the diverted acreage should provide an excellent means of establishing new stands, since pasturing cannot be done until after Oct. 1.

Where oats are used as a nurse crop, they must be clipped before maturity of the acreage is to be pastured after Oct. 1. No pasturing is permitted before that time and no harvesting by removal of growth in any manner is permitted, the chairman said. Barley or wheat should not be used as nurse crops, Papenfuss said, because in such cases they must be clipped by June 30.

Farmers who will be short of meeting their conserving bases will receive credit by seeding down fields to grasses and/or legumes and harvesting the green oat nurse crop for pasture, hay, green chop, or silage. Annual grasses, such as sudan and sorghum-sudan crosses, also count toward conserving bases, Papenfuss said.

A farmer should make certain that when he buys sorghum-sudan crosses, that he is not buying grain sorghum, dual-purpose sorghum, or sweet sorghums, as these varieties count against the feed grain base. The county ASC office has a list of approved varieties, most of which are sold under trade names, and an answer can be quickly obtained by contacting the office or the extension office.

# 600 More Acres Of Strips in Root River SWCD

CALEDONIA, Minn.—Root River Soil and Water Conservation District cooperators have established about 600 acres of contour strips.

Contour strips make the water walk down the hill instead of running, according to Harold Diene, Houston County work unit Conservationist.

Contour strips are one of the easiest conservation practices to start and they do a very good

# Wisconsin Price Received Index Shows April Gain

MADISON, Wis.—The index of prices received by Wisconsin farmers for products sold in April was 6 percent above a year ago, according to the Wisconsin Statistical Reporting Service. This gain was accompanied by an increase of 1 percent in the index of prices paid.

Index figures for the important farm commodity groups show price gains over April last year of 5 percent for both milk and meat animals, 11 percent for poultry, 6 percent for eggs, and 15 percent for crops. The index of prices received by Wisconsin farmers in April was 254 percent of the 1910-14 average compared with 312 percent for the index of prices paid.

While gaining on a broad front, not all farm products prices showed increases over April last year. While hog prices averaged \$16.20 a hundredweight in April or \$2.20 more than a year ago, prices received for calves averaged \$21.80 a hundredweight or \$2.70 lower. Prices received by Wisconsin farmers for turkeys sold in April averaged 25 cents a pound and prices for farm chickens 8 cents a pound. Turkey prices were 5 cents higher and farm chicken prices unchanged from April last year. Egg prices averaged 28½ cents a dozen—up 1½ cents from a year ago but still at a relatively low level.

The level of prices received for crops was boosted by unusually high prices for potatoes and baled hay. Corn and oat prices were also the highest in recent years. Potato prices averaged \$3.18 a bushel—up \$1.38 from April last year and the highest for the month since 1952. Baled hay prices averaged \$25.60 a ton and were the highest for the month since 1949.

Prices received for milk sold by Wisconsin farmers in April averaged \$3.45 a hundredweight—up 13 cents from a year ago and the highest since 1961.

# RUSHFORD PLANT SALE

RUSHFORD, Minn. (Special)—The Rushford FFA Chapter is holding a plant sale at the agricultural shop at Rushford High School. All plants are locally grown and include tomatoes, flowers and early cabbage. Plants will be on sale from 8 a.m. to 4 p.m. May 31.

job, he said.

Soil Conservation Service technicians assisting the Root River District have laid strips out on the following farms:

Harlan Ingvalson, Levern Maxman, Dale Harrington, Peter Koenig, Donald Lager, Eugene Kasten, Vincent Strub, Leo Schulte, Elmer Anderson, Paul Tewes, Earl Knutson, Caledonia; Leo Whalen, New Albion; Paul Beranek and Arnold Jucker, Hokah; Elmo W. John, Ralph Lind and Leander Loeffler, Houston; Jerome Houcker, Julius Haugstad, Morris Twetten and Odel Lee, Spring Grove.

# Control of Weeds In Corn Discussed

LEWISTON, Minn.—Corn and soybean growers have several things to consider before using weed control chemicals this spring, Oliver Strand, Winona County agent, said.

First—should chemical weed control be used at all—or can effective weed control be accomplished by cultivation and tillage? This question depends on the particular weed problem in the field under consideration and type of weather and climatic conditions encountered, Strand said.

WITH ONE giant foxtail plant per foot of row causing an eight-bushel reduction in corn yields in Illinois trials—there is little doubt that weed control of some kind is needed. When one considers a corn plant requires 368 pounds of water per acre to produce one pound of dry matter while ragweed requires 948 pounds of water for one pound of dry matter, we can soon determine that most weeds are undesirable competitors in a corn field.

Generally it is safe to say that chemical weed control—at least in the band (applied along corn row) is good weed insurance at a minimum cost for the farmer.

Secondly—once the farmer decides to use chemical weed control—he must decide on which chemical to use. For corn, the pre-emergence weed control choices are atrazine, Randox-T, Loro and Amoben. Amoben has label clearance for use on corn at 2 pounds of active ingredient per acre. However, on our soil type it has taken 3 pounds of Amoben to give consistently good results on soybeans. (Amoben has the advantage of no residual carry-over to effect oats or beans the following year.) Loro also has the advantage of no carry over—but has given erratic results in county agent trial plots.

# Utica Herd Leads Winona Co. DHIA

LEWISTON, Minn.—Top herd in the Winona County DHIA in April was owned by Argene Beyer, Utica, Unit 5. His herd of 26 grade Holsteins averaged 62.3 pounds of butterfat and 1,685 pounds of milk.

High cow in the county was owned by Eldor Mattheus, Rollingstone, Unit 5. His No. 21, a grade Holstein, produced 128 pounds of butterfat and 3,190 pounds of milk.

Top herds in the other four units in terms of average butterfat production: Karrol Boyum, Utica; Unit 1, 60.6; Cyril Kronebusch & Son, Minnekahta; Unit 2, 56.7; Allen Aldinger, Winona Rt. 3, 62; and Kenneth Rupprecht, St. Charles, Unit 4, 53.2.

# Trempealeau Co. Holstein Breeders OK Calf Project

WHITEHALL, Wis. (Special)—Douglas Kopp, Whitehall, and James Call Jr., Osseo, were re-elected to serve three-year terms on the Trempealeau County Holstein-Friesian Association Board.

Gerhard Fremstad, Whitehall, also was elected to a three-year term on the board.

The election was held at the annual banquet of the association at St. John's Catholic Church here Saturday evening. About 100 attended.

Rolf Christopherson, Pigeon Falls, who recently traveled through England, Holland, Lebanon, Teheran, India, Thailand, Manila, Hong Kong, Japan, Australia and New Zealand on a Dairy Trade Mission, showed slides and spoke on dairying in those places.

This year 15 county youths in the calf project will receive calves. The association, along with some county businessmen and creameries sponsor the calves for the boys and girls. Calves will go to: Dennis Klotzbach, Terry Berge, Larry Gilbertson, Katherine Berg, Blair, Mary Peterson, Mary Berg, Larry Myhre, Sandra Olson, Osseo; Larry Estenson, Susan Bohlinger, Whitehall; Roger Klein, Trempealeau; Randolph Poss Jr., Galesville; Karen Iverson, Sharon Russell, Eleva, and Ellean Berg, Eltrick.

Awards were presented to these 4-H youth: Sharon Schanberg and Dennis Johnson, Blair, the champion 4-H girl and boy; Rodney Nilstuen, Arcadia; Lorna Bergum now Mrs. Robert Tenneson, Blair, and Dennis Johnson, showing the champion purchased and grade animals at the county fair, and Susan Bohlinger, Whitehall, who received the Roy Berge award for having the best fitted and trained dairy animal at the county fair.

The board elected Everett Herness president, replacing Roy Berge who has served in that capacity several years; Berge, vice president, replacing Emil Skroch, Independence, and

# 4 Girls Enter Competition for Dairy Princess

LEWISTON, Minn.—Only four girls have been entered in the Winona County dairy princess contest to date, Oliver Strand, Winona County agent, said. Last year 20 competed for the county title.

The four are Diane Rennie, Winona Rt. 1, daughter of Mr. and Mrs. George Rennie; Marie Tveten, Lewiston, daughter of Mr. and Mrs. Henry Tveten; Sharon Beyer, Utica, daughter of Mr. and Mrs. Wesley Beyer; and Sherry Peterson, Lewiston, daughter of Mr. and Mrs. Leon Peterson.

ALL ORGANIZATIONS, business places and other interested groups were urged to sponsor a candidate. Sponsors are asked only to host the girl's parents at the county dairy banquet and to provide transportation to their princess contest the day of the contest, if needed. Judging of the candidates will be the day of the banquet, June 14, with the winners to be announced at the banquet at the Oaks.

Mrs. Leon Henderson, Houston Rt. 1 is in charge of the princess contest, assisted by Mrs. John Waldo, Winona Rt. 3. Princess candidates should be over 16 and under 25 as of June 1.

They must have completed high school by the date of contest and should not be engaged. Princess candidates are eligible to enter again unless they were in the state finals. The girls must come from a farm home in Minnesota where their parents are actively engaged in producing milk or cream for sale. A girl can still qualify if she is away from home at school or work if she still considers the farm as her home. All interested girls are urged to enter the contest. Both girls and interested sponsors should contact the Extension Office at Lewiston for entry blanks and details. A wallet size picture of the girl should be included with the entry form.

CLIFF MARKUSON, St. Paul, head of the Minnesota Dairy Association, will be guest speaker. Also attending the dairy banquet will be Princess Kay, Karen Bracken of Verdi.

ETTRICK FARM SOLD

ETTRICK, Wis. (Special)—The Hogden brothers, who sold their farm in French Creek, have purchased the Ben Nelson home on the upper table in Galesville. The Nelsons purchased a smaller house on East-side, Galesville.

IT IS OF course imperative that the proper rate of chemical be applied, Strand said. Directions of the manufacturer should be followed according to local soil type and trial results.

To insure proper rate of application, the sprayer must be calibrated at an effective operating pressure and speed. The amount of liquid being applied per acre should be determined by one of several methods. When the sprayer output per acre is known by calculation and trial—it is a simple matter to put the desired rate of chemical into the tank—figuring the number of acres to be covered by one tankful.

For help on sprayer calibration, contact your County Extension Office.

FINALLY, safety precautions spelled out on the label, should be followed closely to avoid trouble. Properly dispose of all empty containers and store agricultural chemicals away from feedstuffs, children and animals. Avoid body contact with all pesticides. Most herbicides are relatively safe to use if directions are followed. Herbicides are a tool for crop production. They will only do the job they are designed to do—and must be used properly.

For further information on chemical and cultural weed control—ask for the 1965 Weed Control bulletin at the extension office.

# Officers Renamed Shorthorn Field Day Set June 20 At St. Charles

ST. CHARLES, Minn.—Kachler Brothers Shorthorn Farm, two miles north of here, has been selected to host the Minnesota Shorthorn and Polled Shorthorn field day June 20.

There will be judging competition for adult and junior members. Robert Heine, Denver, Colo., an official of the association, will conduct a classifying demonstration. A picnic lunch will be served. All area farmers are invited.

GALESVILLE, Wis. (Special)—All officers were re-elected at the annual meeting of the Gale Packing Co. Wednesday.

They are L. S. Montgomery, president and general manager; A. S. French, vice president; and R. J. McKeeth, secretary-treasurer. Other directors re-elected were Ray F. M. Andersen, R. D. Hammer and A. L. Twesme.

Although the drought affected last year's operations, the firm added equipment to its plant and the same acreage of peas and green lima beans is planned.

## Dessert Recipe Contest Slated In Trempealeau

WHITEHALL, Wis. (Special) — Trempealeau County homemakers can earn cash for their favorite dairy dessert recipes, reports Ed Ausderau, secretary of the County June Dairy Month Committee.

A contest sponsored by the committee will provide \$5 weekly prizes during June for the best recipes received, and also a \$10 award for the final winner.

Any man, woman or child residing in the county is eligible to enter a dairy dessert recipe in the contest. The recipes should be plainly written or typed, should give complete directions, state size of utensils necessary, and give time and temperature for cooking, baking, chilling or freezing if required. Tell how many servings the recipe will make.

All recipes should be sent to: Dairy Dessert Recipe Contest, County Extension Office, Courthouse, Whitehall. Put your name, address and telephone number in the upper right hand corner of the recipe. The name will be removed and a number assigned so the recipe will be judged without a name on it.

The first weekly winner will be selected from recipes received by June 5, the second winner will be selected from recipes received from June 7-12. The third and fourth winners will be similarly selected from recipes received during weeks ending June 19 and June 26. No recipes will be accepted that are postmarked later than June 25. Each person may submit only one entry during the contest.

The four weekly winners will be asked to prepare the desserts from their recipes to compete for the \$10 grand prize. Date and place of the final contest will be announced later.

## Dakota Pupils Offered Choice On High School

DAKOTA, Minn. (Special) — The policy of Dakota Common School District 2609 will be to continue sending high school students to Winona, providing transportation there, Chairman Harry Fousl, said Wednesday.

However, since La Crescent High School will open this fall, some parents may wish to enroll their children there.

Until otherwise specified by the state Department of Education, a student in a common district has the option of attending the high school of his choice. Transportation currently is available to La Crescent and can be provided by the district for high school students.

Information on curriculum or enrollment at La Crescent may be secured from Principal Jerome Thompson. A change to La Crescent should be reported to the school clerk, Mrs. Otto Dobrunz, as soon as possible.

Mrs. Dobrunz isn't considering re-election this year, her term expiring July 1. Filling deadline with her is June 17. The election and annual meeting will be June 29 at 8 p.m.

## Tax Review Boards Begin Meetings Soon

If you're not satisfied with your 1965 personal property assessment, your local board of review is the place to go. David V. Sauer, Winona County supervisor of assessments, said today, "These boards of review are for the taxpayer," Sauer asserted.

BOARD OF REVIEW meetings this year will begin June 1 and will continue almost daily until June 29. Their purpose, Sauer explained, is to review this year's personal property assessment and to correct inequities. The county board of equalization will meet July 19. He emphasized that real estate was not assessed this year, except for structures erected or destroyed since the May 1, 1964, assessment.

There is no opportunity to appeal a real estate assessment this year if it was unchanged from last year's figure, he said. The schedule for board of review meetings is as follows:

JUNE 1 — Hillsdale Township, 9 a.m.; Winona Township, 1 p.m. and village of Elba, 7 p.m. JUNE 2 — village of Utica, 7 p.m. JUNE 3 — Norton Township, 9 a.m.; Mount Vernon Township, 1 p.m. and village of Rollingstone, 7 p.m. JUNE 4 — Fremont Township, 9 a.m., and Warren Township, 7 p.m. JUNE 5 — Saratoga Township, 1 p.m., and village of Minnesota City, 7 p.m. JUNE 6 — Pleasant Hill Township, 1 p.m., and village of Stockton, 7 p.m. JUNE 9 — Wiscow Township, 9 a.m.

JUNE 10 — Elba Township, 9 a.m., and Whitewater Township, 1 p.m. JUNE 11 — village of Dakota, 9 a.m. JUNE 14 — village of Dresbach, 1 p.m., and village of Lewiston, 7 p.m. JUNE 15 — Richmond Township, 9 a.m., and village of Altura, 7 p.m. JUNE 16 — Hart Township, 9 a.m.

JUNE 17 — New Hartford Township, 9 a.m., and village of Goodview, 7 p.m. JUNE 18 — Utica Township, 9 a.m. JUNE 21 — city of St. Charles, 1 p.m. JUNE 22 — St. Charles Township, 9 a.m. JUNE 23 — Wilson Township, 9 a.m. JUNE 24 — Homer Township, 9 a.m. JUNE 25 — Rollingstone Township, 9 a.m. JUNE 29 — city of Winona, 9 a.m. JULY 19 — county board of equalization.

IN THE EARLIER days fragrance was considered to be a necessary feature of a rose, together with a full bloom of many petals. When the China Teas with long buds and graceful blooms were introduced, the early hybrids were similar to the modern Hybrid Teas. Further crossing gave rise to the Hybrid Perpetuals and other crosses produced the Hybrid Teas.

The old time roses are charming, fragrant, beautiful and rugged. Many of them will survive our severe winters with practically no protection, yet they vary greatly in the regard. The Grootendorst roses, both the red and pink, will generally come through all right, although some of the older canes may be killed.

One of our Centifolia roses known as the Painter's Rose survived several winters with only a slight mulch at the base, but killed out later. Our red moss rose, Lanell, was killed to the ground last winter, but is making good new growth at the base. It had been mulched with only a few leaves. One of our interests in the old roses is to find some that will go through our winters without any special protection. We like the moss roses and consider their development one of the many wonders in the world of roses.

MOST OF the so-called shrub roses are considered winter hardy, but even so it is well to give them a mulch of leaves at the base, just the same as is done with herbaceous perennials and some other plants. The Hybrid Perpetuals were derived by intercrossing some of the species roses as Centifolia, Gallica and others. They are vigorous, and some will stand low winter temperatures without much protection. Many of the old roses are inclined to sucker, if grown on their own roots. Obtaining budded plants is desirable, if some of the varieties are to be kept within bounds.

## Let's Get Growing

By A. F. SHIRA

THE members of the Winona Rose Society and their guests were treated to an eloquent discourse on old roses at the meeting on Wednesday evening of last week in Pasture Hall on the campus of Winona State College.

Mrs. Walter P. Merhoff, New Berlin, Wis., an enthusiastic grower of old roses gave detailed information on many of the 200 varieties of old-fashioned roses that are grown in her extensive garden, under the title of "Old Roses — Living Antiques of the Rose World." She gave a narrative account of the established history of a number of the old types from the early species roses through the various recognized groups such as the Gallicas, Damasks, Albas, Chinas, Bourbons, Centifolias and the Mosses. The last important type of the old-European roses are the Centifolias from which the moss roses were derived.

Her descriptions of the roses were synchronized by the colored slides shown by Mr. Merhoff who did the beautiful color photography in their garden.

ALONG WITH the flowers, a number of "close-ups" of the different forms of rose "hips," or fruits, were shown. It is interesting to note that, in addition to a heavy flowering in June, the hips make a pleasing display through the fall and early winter months. They may range in color from yellow through orange to dark red. They are generally very rich in vitamins.

The classification of roses, especially in regard to the old types, has been considered impossible with any degree of accuracy by the rose historians, since there has been so much over-lapping and integration. Without question, it is agreed that the fragrance of the old Damask roses has been transmitted to some of our modern hybrids. Another feature of the Damask roses is the fact that they do not sucker as freely as the Gallica Group.

IN THE EARLIER days fragrance was considered to be a necessary feature of a rose, together with a full bloom of many petals. When the China Teas with long buds and graceful blooms were introduced, the early hybrids were similar to the modern Hybrid Teas. Further crossing gave rise to the Hybrid Perpetuals and other crosses produced the Hybrid Teas.

19,000 See Great Lefthander: His Name? Blasingame

By THE ASSOCIATED PRESS  
Some 19,000 Warren Spahn fans went to Milwaukee's County Stadium to see a great lefthander. And they did.  
His name, however, was Wade Blasingame.  
Blasingame was everything Spahn used to be as he kept the New York Mets off balance with his breaking pitches. Thursday night and allowed only one hit — Ron Swoboda's ground single

with two out in the seventh inning — as the Milwaukee Braves ruined Spahn's return home, 7-1.  
For the first time since opening day, the upper stands at County Stadium were open to accommodate the large crowd that turned out to cheer Spahn, who was unceremoniously sold to the Mets last season after 20 years with the Braves.  
But the 44-year-old Spahn showed his age while the 21-year-old Blasingame showed his stuff.  
Some of the stuff was taught by Spahn, who tutored the young southpaw when he was called up from Denver in mid-June last season. Blasingame applied the lessons quickly and posted a 9-5 record.  
However, he had only a 2-4 record going into Thursday night's game but took that opportunity to put his best pitches forward while Spahn was drubbed in a seven-run fifth-inning uprising that included a grand-slam homer by Eddie Mathews, his teammate of 13 years.  
Spahn was out of the game when Swoboda collected the Mets' only hit on a grounder back through the middle that Blasingame said he should have been able to get.  
Meanwhile, unbeaten Bob Gibson won his eighth game as the St. Louis Cardinals whipped Philadelphia for their seventh victory in eight games. Gordy Coleman lifted his average to a National League-leading .416 with four hits in Cincinnati's 11-3 thumping of Pittsburgh and Willie Mays hit homer No. 15 in San Francisco's 2-0 victory over the Chicago Cubs.  
The Los Angeles Dodgers and Houston were not scheduled.

Spahn, now 3-4, had allowed only two hits when Rico Carty triggered the seven-run fifth-inning uprising. Gene Oliver's double scored Carty before singles by Frank Bolling and Sandy Alomar and a walk produced another run and left the bases filled.  
Mathews proceeded to clear them with the seventh grand slam of his career and his eighth homer of the season. The Cardinals made it easy for Gibson, shelling five Phillie

pitchers for 13 hits, including homers by Curt Flood and Phil Gagliano. Flood drove in four runs with a two-run homer and a double as St. Louis chased Chris Short and pushed across seven runs in the first two innings.  
Gibson went into the ninth with a four-hit shutout but lost it when Tony Gonzalez hit a homer following a walk to John Briggs.

Birdie Suddenly Has Pitchers to Go With Hitters

By THE ASSOCIATED PRESS  
Cleveland Manager Birdie Tebbetts, whose strong suit with the Indians this season was supposed to be hitting, has suddenly found some pitching to go with his punch.  
Tebbetts' staff has permitted just five runs in the last four games, the latest a 5-2 victory over Baltimore Thursday night that completed a three-game sweep of the Orioles.  
Sonny Siebert, whose 4-2 record and 2.43 earned-run average is second best on the Indian staff, stifled the Orioles on six hits going into the ninth. When Baltimore threatened, Gary Bell came on to strike out rookie flash Curt Blefary with two on, ending it.  
Fred Whitfield's two-run homer capped a four-run Cleveland second inning against Baltimore starter Dave McNally. After that, Siebert took over.  
Elsewhere in the American League, Mel Stottlemyre celebrated the birth of his second son by beating the Boston Red Sox 6-3 for New York and Detroit shaded Washington 9-8 in 10 innings.  
Ralph Terry, scheduled to open the series against Boston tonight, is Cleveland's leading pitcher with a 4-1 mark and a 2.42 ERA. Bell with a 1-1 record and 2.57 ERA for 12 relief roles, is the top man in the bullpen.  
The Indians' off-season trading activity was aimed at getting some hitting to supplement Leon Wagner. They acquired Rocky Colavito and Chuck Hinton and seemed set in the power department. Terry, however, was the only new pitcher on the club.  
Stottlemyre got the news of his son's birth early Thursday and then went out and beat the Red Sox with ninth-inning help from Pedro Ramos.  
Joe Pepitone and Tom Tresh tagged two-run homers with Pepitone's shot in the third inning climaxing a four-run burst against Red Sox starter Bill Monbouquette.

Blasingame Was 'A Little Sorry'

MILWAUKEE (AP) — The pupil gave teacher a lesson with a near perfect performance in an emotion-packed southpaw pitching duel.  
Wade Blasingame, tutored as a rookie by the great Warren Spahn last season, hurled a brilliant one-hitter against the old master Thursday night as the Milwaukee Braves unloaded for a 7-1 victory over the New York Mets.  
A crowd of 19,140 turned out to cheer the 44-year-old Spahn, who won 356 games for the Braves before being sold to the Mets last fall.  
"It's the closest I've ever come to a no-hitter," Blasingame said. "What disturbs me the most is that I had a shot at Swoboda's hit. He hit a good pitch, a low fast ball, but I did not make an effort on it."  
"I should have knocked it down. The ball was hit right back at me and I just looked at it."  
Swoboda struck out in his first two times at bat and was in no mood to talk in the clubhouse, snapping: "Of course it was a fast ball. You didn't see me hit any curve balls, did you?"  
Blasingame and his mates felt a little sorry for Spahn, who was left with a 3-4 record while seeking to move into a tie with Kid Nichols for sixth place among all-time winners. Spahn has 259 triumphs.  
"I couldn't help thinking about facing him," Blasingame said. "He and our pitching coach, Whitlow Wyatt, helped me plenty last year. And Spahn was roommate on the road. If any left-hander does as well in this league as he has, he'll be a great pitcher."  
Spahn held court in the New York clubhouse, claiming a poor slider was his downfall. He was disappointed, but not disheartened in his first appearance against the Braves.  
"I tried, but failed," he said. "I really wanted to win this one because of the fans. The crowd was a great personal tribute and I'm very proud of it. It's pretty nice that the people here think that much of me."  
"But," Spahn added, "one of the things I thought of most was Blasingame's pitching. I can't help but think that the things I taught him he used on us tonight. He pitched a terrific game."

'Now Listen Mister, You've Got My Dollar!'

NEW YORK (AP) — Since nobody seems to want Yogi Berra, a 17-year-old New York school girl offered to buy him today for \$1.  
Maxine Siegel sent her order, check enclosed, to the New York Mets. Now she's waiting for her package.  
"I don't know what in the world I'll do with him," Maxine said. "Maybe I'll take him to school and show him to all my friends."  
"The Mets' front office was thrown into a tizzy by the following hand-written letter: "To Whom It May Concern: "I read in the paper a few weeks ago that Yogi Berra was on waivers for one dollar. Since I have been a Yogi Berra fan for many years now and it doesn't seem like anyone really wants him I thought I would buy him. Enclosed you will find my check for the sum of \$1. Sincerely, Maxine Siegel."  
The Mets' management admitted that the letter put them in an embarrassing position. "You see," a spokesman explained, "Yogi actually was put up for sale on the waiver list for \$1, but it was just a formality."  
"We hired Yogi as a coach and then decided to use him as a player. Before the May 11 cut-down, Yogi decided he wanted to stick strictly to coaching."  
"To get him off the player roster we had to put him on waivers for \$1. Of course, no club would grab him—it's an agreement—and he wouldn't report anyway. We didn't expect anything like this."  
"This is no joke," said Maxine, a freshman at City College of New York, majoring in biology. "I always loved Yogi when he was a member of the Yankees. When he moved to the Mets, I became an ardent Met fan. My sister, Joyce, and I go to every night game."  
"When I saw he was on waivers for a dollar, I told my father I thought it was terrible and I'd like to buy him. Father said why not. My mother wrote the check."

Trade Talk Fizzles, Twins Eye Athletics

ST. PAUL (AP) — Against a backdrop of fizzling trade talk, the Minnesota Twins and Kansas City Athletics open a three-game weekend baseball series tonight.  
Forty-eight hours ago, Twins President Calvin Griffith reported he was close to a multi-player swap with the A's.  
Then Kansas City turned down Griffith's offer and submitted a counterproposal which Griffith found unacceptable.  
So the trade talks were stymied at least for the time being—today. Griffith and Athletics owner Charles O. Finley are slated to continue the discussions over the weekend, however.  
Finley was quoted from Chicago as saying, "right now, we aren't even close."  
Finley told the Minneapolis Tribune the Twins offered pitchers Dick Stigman, Jerry Fosnow and Jimmy Perry, outfielder Jimmie Hall and third baseman Rich Rollins for A's relief pitchers Wes Stock and John Wyatt, infielder Wayne Causey and outfielder Jim Landis.  
Finley, the newspaper said, made a counter offer of Wyatt and pitcher Moe Drabowsky, third baseman Ed Charles and outfielder Mike Hershberger for Stigman, Fosnow, Hall, Rollins and left-handed pitcher Jim Merritt, now at Denver.  
Griffith and Twins Manager Sam Mele got together today to discuss possible player changes. They were expected to talk about the possibility of bringing Merritt and left-handed reliever Garry Roggenburk up from Denver, and whether to activate infielder Bernie Allen who has been on the disabled list while his operated knee heals.  
The Twins returned home early-Thursday from a road trip, on which they split in eight games, with second baseman Jerry Kindall their hottest hitter and sluggers Bob Allison and Tony Oliva fighting slumps.  
Kindall collected 10 hits in 29 times at bat on the trip for a .345 average, raising his season mark to .208.  
Allison has gone 0-for-15 in the Twins' last six games, dropping his average to .264. Oliva was 5-for-34 on the trip, and his mark dipped to .233.  
Camilo Pascual (4-0) pitches tonight's series opener against the A's Diego Segui (2-4).  
The Twins trail Chicago by three games in the American League.

IT WAS A BALL ... Milwaukee Braves pitcher Wade Blasingame and third baseman Eddie Mathews pose with the game ball in the dressing room at County Stadium after Blasingame's one-hitter and Mathews' grand slam home run against the New York Mets. Blasingame beat former Braves pitcher Warren Spahn who was making his first start against his old teammates. Mathews' homer in the fifth inning was the seventh grand slammer of his career and his 453rd home run. (AP Photofax)

Cotter Boosters Holding Sale Today, Saturday

The Cotter High School Booster Club, the organization which promotes the school both athletically and academically, is sponsoring a rummage sale today and Saturday.  
The sale, proceeds from which will be used to better the Cotter program, will be held at the former Gambie's Store on Center Street.  
The club recently completed purchase of new track and baseball uniforms for the Ramblers.

Warriors Off To NIC Meet

Winona State College's track team left this morning for St. Cloud and the Northern Intercollegiate Conference meet Saturday.  
The Warriors, and especially Coach Bob Keister, were not the confident, happy group they were at the start of the season. The reason for the dismay was the fact that many of the top point getters were being left at home due to ineligibility or injury.  
"We thought it was going to be a good year until we ran into all the problems," said Keister. "Now it's going to be tough. It's hard to forecast just where we might finish."  
For 17 consecutive years, Mankato has dominated the picture. The script is not expected to change.  
A year ago, Mankato chalked up 103 1/2 points to 70 1/2 for St. Cloud. Bemidji totaled 34 1/2, Winona 20 1/2, and Moorhead and Michigan Tech nine each.  
Winona's best bet appears to be sophomore letterman Jim Rahman in the distance events.

Records up for grabs are:

100-YARD DASH: Walters, Mankato (1946), 18.8.  
220-YARD DASH: Rouse, Winona (1951), 21.4.  
440-YARD DASH: King, Mankato (1952), 49.5.

Trempealeau Tourney Will Open Saturday

Wisconsin spring baseball tournaments are scheduled to get under way at area sites Saturday and Tuesday.  
Trempealeau plays host to a meet that is scheduled to begin Saturday while Pepin's tournament gets under way Tuesday.  
Many of the other schools compete in the summer high school baseball program. The first WIAA summertime tournament will be held in July.  
At Trempealeau Saturday, Gale-Eitrick will meet Holmen at 1 p.m. and Trempealeau will tangle with Mindoro at 3 p.m.  
Winners of the first-round games meet for the district championship Tuesday at 3:30.

"Since when do you drink Bourbon?"  
"Since I tasted Jim Beam"  
SATURDAY TO MARK CLEANUP  
Members are asked to turn out in force Saturday for cleanup day at Westfield Golf Club.  
The course, peppered with litter from flooding Sweeney Lake, will be cleared. Work details will begin the job at 8 a.m. Anyone who cannot make it then is asked to report at his convenience. Free refreshments will be served.

# Wolves End Lanesboro's Reign

## Place First At District Track Meet

DECORAH, Iowa — The two-year reign of Lanesboro as District One track champion was broken at Luther College here Thursday.

The Burros saw their hopes for a third consecutive title crumble when Spring Valley came up with 31 points to cop a very close race for honors.

Peterson, a co-favorite along with the Burros, was second with 28 and Lanesboro, Preston and Mabel tied for third with 27.

**THE SPRING VALLEY** victory came as a surprise. The Wolves were not mentioned in pre-meet balloting.

Two records were set during the competition. Houston's plucky Bruce Carrier traveled the mile in 4:44.3 to break the standard of Peterson's Dave Hensley. Set in 1961, the time was 4:48.8.

Mabel's mile relay team of Chuck Johnson, Randy Snell, Jim Welper and Rich Horgan gave a repeat showing of its 1964 record bid, slicing one second off the previous 3:43.7 best.

**FALLING IN** behind the leaders were Spring Grove with 16, Harmony 13, Houston 12, Chaffield 12, Caledonia 8, Wykoff 5 and Rushford 4.

Spring Grove's Mel Hornuth, Peterson's Jim Hattvig and Harmony's Robert Severson all highlighted their careers by sweeping a pair of victories.

Hornuth copped the 100-yard dash with a time of 1:08.5 and took the 440 with a :54.4 clocking. He was one second off the record.

Severson won the shot put with a flip of 47 feet, two inches and took the discus with a toss of 131 feet, 10 1/4 inches.

**HATTEVIG** went 5-4 to capture the high jump and took the half mile with a time of 2:06.8.

Other firsts went to Lanesboro's Brian Gardner in the 880-yard relay team, Lanesboro's Tom Wanger in the low hurdles, Preston's Ken Pfeister in the 220, Houston's Kim Loftsgaarden in the pole vault and Spring Valley's Craig Churchill in the broad jump.

All first- and second-place individuals will advance to the Region One meet at Northfield June 4 as well as winning relay teams.

**TEAM TOTALS:** Spring Valley 31; Peterson 28; Lanesboro 27; Preston 27; Mabel 27; Spring Grove 16; Harmony 13; Houston 12; Chaffield 12; Caledonia 8; Wykoff 5; Rushford 4.

## Liston Taking Short Course In Geometry, Clay Mouthing

LEWISTON, Maine (AP) — Challenger Sonny Liston is taking a quick course in geometry for his May 25 heavyweight title fight — the shortest route to champion Cassius Clay is a straight line.

Clay, who prefers his Black Muslim name Muhammad Ali, is studying how not to make friends with Joe Louis.

And Ernie Terrell — recognized by the World Boxing Association as heavyweight king — has mastered the art of muscling into the act by bringing the subject of the much-maligned fight to the attention of another courtroom.

**It's all part of the late news** regarding the transplanted rearing, banned in Boston, already postponed from last Nov. 16 by Clay's hernia operation.

Trainer Willie Reddish has a pet phrase he yells at Liston these days: "Shorten it, shorten it."

While Liston took it easy Thursday at his nearby Poland Spring, Maine, camp, for fear of getting "too fine," Clay played host to ex-heavyweight kings Louis, Joe Walcott and Jim Braddock at his training quarters in Chicopee, Mass.

**W-K Sweeps Junior High Track Meets**

Washington-Kosciusko swept both ends of a junior high track meet held at Jefferson Field Thursday.

The W-K heavyweights scored 48 points to 37 for Jefferson and nine for Central, and the lightweights tallied 40 to 22 for Central and 14 for Jeff.

The highlight of the heavy-weight competition came in the 880-yard medley relay where Jeff's Mike Robiecki, Al Nord-sving, Dick Schagel and Ted Stearns set a new record with a 1:54.7 clocking. The old mark was 1:58.7 held by Jeff.

Robiecki also won the 440 and the shot put.

In lightweight competition, Wayne Ledebuhr won both the 75-yard hurdles and the 75-yard dash.

**HEAVYWEIGHT TEAM TOTALS:** Washington-Kosciusko 48; Jefferson 37; Central 9.

**100-Yard Hurdles:** 1. Sam Notteman (W-K); 2. Todd (W-K); 3. Austin (J); 4. Engler (W-K); T—13.5.

**100-Yard Dash:** 1. Robert Todd (W-K); 2. Nord-sving (J); 3. Notteman (W-K); 4. Stearns (J); T—11.2.

it." Willie says he means he wants the ex-titholder to make more diagonal moves intended to cut off the quick-moving Clay.

"The way I see it, Clay is going to try to make Sonny come to him," says Reddish. "He knows that's how Sonny has to fight. So Cassius probably will be circling at the start, waiting to throw counter punches."

"All I'm trying to get Sonny to do is to use side-steps to get to Cassius quicker. If he follows Clay around in a circle, he could get into trouble."

Undaunted, Clay moved in again and tried to get Louis to say he — Cassius — was the fastest heavyweight in history.

Louis offered only: "You're fast."

Clay claims the world crown. Terrell is backed by the WBA which has members in 47 states and 20 countries.

Terrell asked for a Chicago circuit court order Thursday to stop Clay from claiming the world crown, claiming he alone holds the title and that Clay has diluted it by using it in advertisements for the forthcoming fight.

**State Golfers At Conference**

ST. CLOUD, Minn. — The Winona State College golf team, which made a surprisingly strong run as youngsters a year ago, attempts to annex the Northern Intercollegiate Conference golf crown here Saturday.

The Statesmen, under the direction of Coach Moon Molinar, will have to fight favorites Bemidji and St. Cloud for honors.

A year ago Winona scored 470, Mankato won the meet at 460.

Back for the Warriors is NIC medalist Dick Jones. Jim Huettl also figured in the scoring.

The tennis meet will be played at Bemidji.

**Gymkhana Set For Sunday**

A Lanesboro convoy is expected to leave the highway Country Kitchen here at 8 a.m. Sunday to compete in a sports car gymkhana at Kasson Fairgrounds.

Practice runs will be held there from 9 a.m. to noon with timed runs beginning at 1 p.m.

Cars will be divided into five classes determined by engine size. The course will be run on the one-third mile dirt track.

No snow tires will be allowed and entrants are required to wear seat belts.

Any participants or spectators are welcome to attend. Further information can be obtained by contacting Tom Kaisersatt, 460 E. Broadway.

**Stock Cars to Open Sunday**

ROCHESTER, Minn. — The 1965 stock car racing season gets under way in Rochester on Sunday night under Minnesota Speedway. Racing at the St. Charles Speedway is opening Wednesday and at the Kasson Speedway May 28.

Many of last year's veteran drivers will be back, also included will be many new faces. Dave Noble of Blooming Prairie, last year's modified racing champion, will face stiff competition in trying to defend his title.

Maury Behnken of Rochester who won the stock title last year has moved up to the modified class. Paul Fitzpatrick of Rochester who has won many of the season titles has moved into a new racing machine, and he too is rated among the drivers to beat.

Racing each week starts at 8:30 p.m.

**Cards, Jays Cop Victories**

LANESBORO, Minn. (Special) — Preston and Harmony won non-conference baseball games. Preston scored the winning run in the seventh to trip Chaffield 8-7 and Harmony whipped Canton 8-4.

Preston's Jerry Himli, who was 2-for-4, drove in the winning run with a seventh-inning single. Jerry Rislove and Al Vashell had two hits each for the winners and Ed Tuohy was 3-for-4 for Chaffield.

Bill Barrett clubbed 2-for-3 for Harmony.

## Trading Slows As Stock Prices Slip

NEW YORK (AP) — Stock market prices were moderately lower early this afternoon as trading slowed.

Selling pressure was light following Thursday's sharp setback.

Motors yielded only fractions instead of 1 or 2 points as in the previous session.

The trend was a little lower among rails, steels, rubbers and mail order-retails.

The pattern was irregular among oils, airlines, tobaccos, drugs, electrical equipments, chemicals, nonferrous metals, electronics and aircrafts.

The news background to stock trading was relatively neutral, with no outstanding new development to spur prices either way.

The Associated Press average of 60 stocks at noon was off .8 at 338.9 with industrials off 1.1, rails off .2 and utilities off .6.

The Dow Jones Industrial average at noon was off 3.26 at 924.01.

Losses of a point or so among a scattering of pivotal stocks accounted for most of the drop on average.

Prices were mixed in moderate trading on the American Stock Exchange.

Corporate and U.S. Treasury bonds were mostly unchanged.

## Mayno to Host Title Bout

ROCHESTER, Minn. — The e l o s e d - c i r c u i t telecast of the heavyweight championship fight between Cassius Clay and Sonny Liston will be shown at Mayo Civic Auditorium Theatre in Rochester, it has been announced by promoter Ben Sternberg. The title bout, to be at Lewiston, Maine, will be held Tuesday night, May 25, starting at 9:30 p.m. (CDT).

The Auditorium Theatre, which is air-conditioned, seats 1,500 and a large screen will be installed for the Tuesday night showing.

The Clay-Liston bout will be shown in some 250 closed-circuit outlets in the United States, Canada and Mexico — with approximately 600,000 fans expected to view the proceedings. Also, for the first time, delayed kinescopes and video tapes will be rushed by plane all over the world and will be shown the next day in England, Germany, Australia, Japan and some 12 other countries.
