# Two Young Americans Go on Trial in Russia

LENINGRAD, U.S.S.R. (AP) — Two young Americans pleaded guilty at the start of their trial in a Leningrad court today to violating Soviet currency regulations.

Buel Ray Wortham of North Little Rock, Ark., also pleaded guilty to stealing an antique statue of a bear from a Leningrad hotel.

The currency charge against Wortham and Craddock M. Gilmour Jr. of Salt Lake City, Utah, carries a possible prison sentence of three to eight years. The maximum sentence on the theft charge is three years.

Wortham, 25, and Gilmour, 24, were arrested Oct. 1 as they were driving to Finland. Gilmour was released Dec. 1 on bail of more than \$11,000 but bail was denied Wortham.

The trial is expected to last three days.

The indictment charged that Wortham illegally exchanged \$35 and 35 Finnish marks for 75 rubles while Gilmour had Wortham change \$30 for him for 45 rubles. In effect this meant that

the two paid about \$75 for rubles worth \$132 at the official rate.

The indictment also accused Wortham of taking a statue of a bear from his hotel and trying to remove it from the country in his suitcase.

After the indictment had been translated into English, the woman judge presiding, Nina I. Isakova, asked the defendants how they pleaded.

Wortham, his brow furrowed and a worn look on his face, said: "I plead guilty."

Gilmour, looked fresher as he replied: "I plead guilty but only in the amount of \$20."

About 90 persons, mostly Soviet journalists and court officials, were sitting in the ornate courtroom at the city court, a former palace. The trial was filmed by the Soviet news agency Novosti and also recorded on tape.

Gilmour's father, Craddock M. Gilmour Sr., introduced 12 affidavits attesting to his son's good character. Among the signers were Utah's two U.S. sena-

tors, its governor, the mayor of Salt Lake City and the elder Gilmour, a prominent lawyer in Salt Lake City.

Gilmour Sr. and Harlan G. Moen, the U.S. Embassy consular officer, sat in the front row.

Wortham said when he and Gilmour drove into Leningrad from Finland, they got lost looking for their hotel. They finally found some youths who spoke English and offered to show them the hotel and also a gas station.

"On the way to the gas station," Wortham continued, "they asked if we had any clothes for sale. We said no. Then they asked if we would change dollars."

He said he was dubious but agreed to change \$5 and five Finnish marks — \$1.58 — into rubles to buy gas.

The Soviet youths offered to change more money later for them. In their hotel, Wortham said, he and Gilmour "discussed the rate among ourselves and

decided we would go back and make another deal.

"We discussed this while we were changing our clothes. I was the first to finish dressing so I decided to do it. Gilmour gave me about \$20 in change."

Wortham said he went to an agreed rendezvous with the two Soviet youths. While waiting for them, another tried to buy his clothes, but one of the first two came and Wortham changed \$40 and 30 Finnish marks with him.

Returning to the hotel, "I explained what had happened to Gilmour and gave him his share of the money," Wortham said.

This amounted to 30 rubles for Gilmour's \$20, compared with an official value of 18 rubles; and 45 rubles for Wortham's currency which was officially worth about 26 rubles.

Wortham said that a third time in Leningrad he changed money at a rate of two rubles per dollar when approached on the street by a different Rus-

sian. The official value of the ruble is \$1.11.

Returning to Leningrad after driving to Moscow, Wortham and Gilmour were put in one of the largest rooms of a hotel built before the Revolution.

Wortham said he found the statue of a bear in a cabinet.

"I decided the bear would make a good souvenir of the Soviet Union so I decided to take it with me," Wortham testified.

He said he put it in the suitcase and took it to the car before Gilmour walked.

Driving toward the Finnish border, Wortham continued, "I started worrying a little about having the statue."

He decided to say if questioned "that I bought him from a lady in Moscow."

Customs officers found the bear in the trunk of the car and asked about it. Wortham used the lady-in-Moscow story "which was a lie," he said.

# U.S. Asks U Thant to Try For Vietnam Cease-Fire

UNITED NATIONS, N.Y. (AP)—The United States today asked U.N. Secretary-General U Thant to take whatever steps were necessary to arrange a cease-fire in Vietnam.

The request was handed to the secretary-general by U.S. Ambassador Arthur J. Goldberg during a 20-minute private meeting.

Goldberg pledged full U.S. cooperation in any cease-fire efforts.

The U.S. request was contained in a letter which stressed the desire of President Johnson for an end of the Vietnam conflict, and the U.S. hope that the secretary-general might be able to take a useful initiative.

Goldberg said a cease-fire could be the first order of business at a peace conference "or could be the subject of preliminary discussions."

"I herewith reaffirm our commitment to that proposal," Goldberg declared noting that both Pope Paul VI and Thant had appealed for a cessation of the hostilities.

"Our objective remains the end of all the fighting, of all the hostilities and of all violence in Vietnam — and an honorable and lasting settlement here, for

which, as we have repeatedly said, the Geneva agreements of 1954 and 1962 would be a satisfactory basis."

He concluded as follows:

"We turn to you, therefore, with the hope and the request that you will take whatever steps you consider necessary to bring about the necessary discussions which could lead to such a cease-fire."

"I can assure you that the government of the United States will cooperate fully with you in getting such discussions started promptly and in bringing them to a successful completion."

A U.N. spokesman said Thant "will have this document under close study." In response to a question as to whether the secretary-general was not already seeking a cease-fire, the spokesman replied: "Yes. He has been trying to get a cease-fire and to bring about a solution on the basis of his three-point proposal."

This included an immediate cessation of the bombing of North Vietnam, a gradual de-escalation of military actions by both sides and participation of all parties, including the Viet Cong, in peace negotiations.

## Ruby Denies Conspiracy in Oswald Killing

(Editor's Note: Gravely ill of cancer, Jack Ruby lies in a guarded room in Parkland Hospital, where both President John F. Kennedy and Lee Harvey Oswald died before him. Herewith is an exclusive picture of Ruby's thoughts in his last days, in what may be his last statement for history.)

By BERNARD GAVZER

DALLAS, Tex. (AP) — Jack Ruby in his dying days still insists there was no conspiracy involved in his killing of Lee Harvey Oswald, named by the Warren Commission as the assassin of President John F. Kennedy.

Ruby, fully aware he is dying of cancer, wants to take any scientific test to prove for history there was no conspiracy.

"Jack has told me a dozen times or more he prays to be given a final lie detector test so people will be convinced that there was no plan on his part, or conspiracy of any kind, to kill Oswald," said Ruby's brother, Earl, a Detroit businessman.

"It is his last wish."

Earl Ruby and Elmer Gertz, Chicago lawyer and member of the legal team which on Oct. 5 won a reversal from the death sentence for Ruby, described Ruby's plea to do anything to erase any doubt that he acted alone in shooting Oswald.

They had seen Ruby an hour earlier in Parkland Memorial Hospital where Ruby, under guard, is undergoing treatment. This is the same hospital where the mortally wounded president and Oswald were taken.

Gertz and Earl Ruby were asked whether Jack Ruby has any regrets about killing Oswald and thus making impossible a trial, perpetuating for all time the feeling that the full story of the assassination will never be known.

"He has regrets, but they are not so much about Oswald," said Gertz. "These are regrets about the havoc caused to his people."

Ruby, a Jew, is known to feel that his action reflected poorly upon the Jewish people.

"Jack reads the newspapers and magazines and watches television and is aware of the controversy about the Warren report and all the books and articles which are constructing incredible stories of a conspiracy in which he is claimed to have had a part," said Gertz.

"He says, 'How can they think I am hiding anything or protecting anyone else? There is nothing I am hiding.'"

## Fuel Truck, Two Cars Crash, Burn; Four Dead

INDIANAPOLIS, Ind. (AP) — At least four persons were killed today in a massive traffic pileup in which a blazing tank truck spilled thousands of gallons of

gasoline into storm sewers and forced evacuation of a two-mile area of northeastern Indianapolis.

Firemen ordered thousands of residents out of the huge Meadows Apartment and shopping complex, Meadowbrook Apartments and the Roberta Park area.

Disastrous explosions were feared as smoke and fumes

spewed from sewer vents over a wide area.

The semitrailer truck jackknifed and two autos crashed into the truck which instantly exploded in a gush of flame, Ralph Smith, 19, an eyewitness said.

The billowing fire engulfed the truck and five autos.

Traffic was backed up for miles. Children from a nearby school swarmed around the blazing wreck, worrying police almost as much as the danger of exploding fuel tanks on the passenger cars.

Danger in the area persisted after firemen brought the fire under control. Thousands of gallons of blazing fuel had poured into a storm sewer. Smoke came from manhole covers almost a mile away.

## High Praise, Honor Given To Brezhnev

MOSCOW (AP) — Leonid Brezhnev received praise and honors today given no Soviet leader since the fall of Nikita Khrushchev 26 months ago.

The Kremlin's emphasis on collective leadership since the fall of Khrushchev was dropped for Brezhnev's 60th birthday today. The general secretary of the Soviet Communist party was accorded honors far exceeding those usual even for a top official.

Normally only Pravda, the Soviet Communist party paper, is issued Monday. But all national newspapers published special editions with a large portrait of Brezhnev in the center of the front page.

All papers also carried a glowing tribute to Brezhnev signed by the party's ruling Central Committee, the government Council of Ministers and the Presidium of the Supreme Soviet.

They also published the text of the decree awarding Brezhnev the country's highest honor, the title Hero of the Soviet Union, which carries with it the Order of Lenin and a gold star medal.

### 4 Dead in Crossing Crash

## Wisconsin Highway Toll to New Mark

By THE ASSOCIATED PRESS

The 1966 traffic fatality toll in Wisconsin, boosted by the deaths of four persons in a car-train crash, climbed past record levels during the weekend. The deaths of 17 persons in weekend accidents raised the state's toll for the year to 1,066. The previous record for a year was 1,059 deaths in 1964 when 1,032 persons had died as of Dec. 19. The figure was 990 on the same date last year.

The pace for December has been equally disturbing. The state's worst traffic toll for December was 124 deaths in 1960. The current month's toll stands at 63.

A car returning one of its passengers from a Christmas pageant rehearsal at a church a mile from a Racine County railroad crossing was struck by a Chicago and North Western passenger train killing the car's four occupants.

A car returning one of its passengers from a Christmas pageant rehearsal at a church a mile from a Racine County railroad crossing was struck by a Chicago and North Western passenger train killing the car's four occupants.

The victims were Denise Buck 11; her brother, Lawrence C. Buck, 18; her brother-in-law, William C. Jacobs, 18, and Joan Ann Slaasted, 11, all of Racine.

Police said the car paused at the crossing near the Racine City limits as a southbound freight train was passing the site, then crossed tracks behind the train into the path of the northbound passenger train.

Wreckage of the car was pushed by the train nearly a mile down the rails.

Seigfried E. Kloss, 34, of Racine was killed and his wife was injured when their car collided with another car early Sunday on a rural road north of Racine.

LuVern J. Donley, 51, of Germantown was killed Sunday when a car driven by his son overturned on a county road near the Washington-Waukesha county line. The Donleys were returning from a visit to Minneapolis.

A car overturned Sunday on a ramp approach to an interstate highway east of Madison claiming the life of a passenger, Mrs. Paul Seamonson, 30, of Stoughton.

George Appel, 35, of Clyman died Sunday morning in a Beaver Dam hospital about six hours after his car struck a utility pole on a road north of Lowell.

Two persons died Sunday morning when their car struck an abutment on an interstate highway near Waukesha. Kill-

ed were Kenneth A. Bratkowski, 30, and Sharon A. Henselman, 22, both of Pewaukee.

Another Pewaukee man, Dale S. Lein, 20, died Saturday when his car crossed a median strip on a highway in Brookfield and collided head-on with another car.

David E. Veley, 76, of Milwaukee died Saturday night when struck by a car while crossing a Milwaukee street.

Debra Leder, 6, of rural Gleason died Saturday night in a two-car crash near Merrill.

Frederick W. Zinn, 53, and Ronald O. Tolleson, 21, of Milton Junction in Rock County were killed Friday night in a two-car crash accident near Milwaukee.

Joseph Baird, 52, of West De Pere was killed Saturday when struck by a car as he walked along a Brown County road.

Leonard Simonson, 25, of Amery died in a one-car accident Saturday night near Milwaukee.

Patricia Madden, 13, of Milwaukee died Saturday of injuries suffered Dec. 10 when struck by a car while crossing a street in Milwaukee.

## HARRIS SURVEY

# Negroes Say King Helping Cause Most

By LOUIS HARRIS

LOS ANGELES — Negroes and whites are sharply divided in their assessment of Negro leaders. Most Negroes feel that Martin Luther King, the symbol of the civil rights movement to both races, is helping their cause far more than he is hurting it. Whites, by a 3-to-2 margin, believe he is setting back the Negro cause.

Rep. Adam Clayton Powell of New York, whose legal difficulties have provoked a challenge to his being seated in the 90th Congress, is a highly controversial figure. Negroes rate him only 6-to-5 positive. Whites take a 6-to-1 negative view.

Other key results from the special survey among a nationwide cross section of whites and Negroes:

—Stokely Carmichael, head of SNCC, and the black power advocate, is felt by both whites and Negroes to be a harmful influence on civil rights progress. Elijah Mohammed, leader of the Black Muslims, is criticized most strongly by both races.

—The only Negro leaders out of a list of 11 tested in the survey who received a positive endorsement from both Negroes and whites were Roy Wilkins, head of the NAACP, Ralph Bunche, serving at the United Nations and Thurgood Marshall, U.S. solicitor general.

—Whites, on balance, tend to feel negatively about Whitney Young, head of the Urban League; A. Philip Randolph, elder statesman of the movement; Floyd McKissick, head of CORE, and Dick Gregory, the comedian. Negroes hold favor-

able views of all four.

However, many of the Negro leaders are unknown to both white and Negro adults.

The cross section was handed a card with the name and identification of 11 Negroes who have been in the news about civil rights. They were then asked:

"Tell me for each man if in your opinion you think he is helping or hurting the Negro cause of civil rights."

Whites Assess Negro Leaders

	Help-	Hurt-	Not
	Ing	Ing	Sure
	%	%	%
Martin Luther King	36	50	14
Roy Wilkins	31	16	53
Ralph Bunche	28	9	63
Dick Gregory	17	27	56
Thurgood Marshall	11	7	82
Whitney Young	8	12	80
Adam C. Powell	8	49	43
Floyd McKissick	7	22	71
A. Philip Randolph	6	9	85
Elijah Mohammed	3	64	33
Stokely Carmichael	2	45	53

Although over-all he is negatively received by the white community, Martin Luther King is viewed far differently by educated and uneducated whites, as the following table indicates:

	Whites Assess King	Help-	Hurt-	Not
		Ing	Ing	Sure
		%	%	%
Total Whites	36	50	14	
By Education				
8th grade or less	29	52	19	
High school	32	53	15	
College	50	41	9	

As other Harris Surveys have indicated, the more affluent, better-educated segment of white America is far more sympathetic with the civil rights movement than those in lower

Income and education brackets.

The line-up among Negroes: Negroes Assess Rights Leaders

	Help-	Hurt-	Not
	Ing	Ing	Sure
	%	%	%
King	64	27	9
Wilkins	62	8	30
Bunche	56	7	37
Gregory	53	14	33
Young	39	2	59
Marshall	34	20	46
Powell	34	31	35
McKissick	30	9	61
Randolph	33	7	60
Carmichael	18	34	48
Elijah Mohammed	5	49	46

Compared to previous studies of Negro attitudes toward the leadership of the civil rights movement, there are signs of growing criticism of Powell and Carmichael among members of their own race. This survey also records more Negro negative response to King than before. It is mainly centered, ironically enough, among middle-income Negroes who feel he is being too militant in pressing for integrated housing.

Of course, one of the political facts of life about the civil rights movement is that probably the optimum positioning for leadership is to be just unacceptable to the white community while carrying the loyalty of the Negro community solidly. Carmichael does not do this, but Martin Luther King does. That may be the most significant finding for whites and Negroes alike.

For four weeks, the assembly hall echoed with charges that the white supremacist government of South Africa had violated its mandate over South-West Africa by introducing race segregation there.

In an unprecedented act of reprisal, the Africans mustered enough votes in the assembly's Budgetary Committee to deny the World Court a supplementary appropriation of \$72,500 to meet expenses of the South-West Africa case.

After bringing South Africa's policies under blistering attack in separate committee debates on trusteeship, racial discrimination and apartheid or race segregation, the group turned its attention to Portugal and Rhodesia.

The Africans put through a resolution posing the threat of British force against the rebel Rhodesian regime of Prime Minister Ian Smith. The proposal meant little, however, since Britain foreswore military measures.

The Africans then won assembly approval of a demand that Portugal's partners in the Atlantic alliance stop selling arms allegedly used to control Lisbon's African territories. Most of the NATO nations voted against it.

While the Africans dominated the debates, attention was diverted by an act of U.S.-Soviet cooperation that could have a far-reaching effect on the disarmament issue.

The two superpowers agreed on a treaty that would prevent military exploitation of the moon and other celestial bodies and would ban weapons of mass destruction from outer space.

During the session, Soviet-bloc speakers echoed the old cold-war phrases, and the United States answered in kind. But both sides appeared in some cases to be acting more from practice than from conviction.

Toward the end of the session, U Thant finally announced the decision most delegates had anticipated — to stay on as secretary-general for another five-year term.

The United States won its perennial battle to bar Red China from the United Nations by a margin 11 votes higher than the tally the previous year. There was a move among members to seat both Chinas in the world forum, despite insistence by both regimes that they would accept no such formula.

## Vietnam War Cast Pall Over U.N. Meetings

By TOM HOGUE

UNITED NATIONS, N.Y. (AP) — Problems of black Africa dominated this year's sessions of the General Assembly, now in its final hours, but the continuing war in Vietnam cast a pall over the session.

Apprehension over the future in Southeast Asia was offset somewhat by signs of a thaw in relations between the United States and the Soviet Union and by their attempts to reach a measure of agreement on disarmament.

The mounting clamor for world peace resulted in a ringing vote of confidence for U Thant and a move to broaden the role of the secretary-general in dealing with the formidable obstacles blocking the path to international understanding.

As the session opened, the 38-nation African group cut in on the traditional policy debate to protest the World Court's refusal to rule on the merits of the South-West Africa case.

## WORLD TODAY

# What's Ahead For Johnson?

By JAMES MARLOW

WASHINGTON (AP) — What kind of President Johnson will there be in the White House in these final two years of his first full term?

He seems different from the Johnson of most of the first two years.

For months now this extremely vigorous and aggressive man, an arm-twister and master politician, has been operating within a kind of half-light. He has been seen, he has been heard, but only occasionally.

This in itself is extraordinary. It is a switch from his earlier White House days when he would take to the airwaves two or three times within a week at the drop of a bomb in the Dominican Republic.

Within the past few months a change seemed to set in.

Instead of devoting every possible minute to campaigning for Democrats who needed all the help they could get in the November elections, he went off to Manila and toured East Asia for a couple of weeks.

It was a trip which, it seems reasonable to believe, could have been made earlier or postponed even until 1967.

Last week Gov. Harold E. Hughes of Iowa told newsmen that Democratic state executives attending the National Governors Conference at White Sulphur Springs, W.Va., were almost unanimous in blaming Johnson's unpopularity and his administration's programs for the party's poor showing last November.

This isn't the only rebuff for Johnson. He has seen the public opinion polls show his popularity going down. Yet he seems to be doing no more to help himself, in a public relations way, than he did to help his party.

This doesn't add up. He is being criticized — although why this has started at this time is not at all clear — for the "credibility gap" in what is said by himself and his administration. Johnson, an extremely sensitive man who in the past has

hungered for public approval, smarts under this kind of criticism. But he isn't taking any action, at least publicly, to meet this, either.

Instead, he almost seems withdrawn. This could be explained, of course, on several grounds: After the elections he had some minor surgery, then he went to Texas to recuperate, then he had to get busy there on his whole program for 1967. He will hand Congress most of it when it returns in January.

But the explanation, sound as it is, seems a little unreal when Johnson's boundless energy rush for the microphone, dash to the television screen in other days are remembered. He doesn't seem to be fighting back now.

The question is: Will he fight back in 1967? He will have to if he intends to run again in 1968.

But he has a terrible monkey on his back, the war in Vietnam, which by the very nature of its unsolved, dragged-out condition is bound to cost him some popularity and confidence, no matter what else good he does.

And the cost of the war is bound to force him to cut down on domestic programs which, without the war, could be expanded. He has rough going all the way. But other presidents have had rough problems, too.

When all the handicaps of his problems are added together, they still don't explain why this dynamic man let his Democrats fend for themselves at election time, when he is the leader, why he has become almost silent, or why he is publicly doing so little to help himself.

## FIRE CHIEF MOVED

BLAIR, Wis. (Special) — Angus Olson, Blair fire chief who received a compound fracture of the left leg on a fire call Tuesday, was transferred Saturday from Tri-County Memorial Hospital, Whitehall, to Luther Hospital, Eau Claire. He will have surgery on his leg Tuesday.

## Gun Collector Goes Berserk, Two Killed

GERMANTOWN, Wis. (AP) — Police Chief Frank Riemer says a shooting incident in which two persons died and a third was seriously wounded apparently was a result of a gun collector having gone berserk.

"We can't explain it any other way," Riemer said Sunday. "He just went berserk."

Police said Lester Buending, 57, who kept 17 guns in his room, fatally wounded himself Saturday after slaying his landlady, Mrs. Alvina Roehl, 57, and wounding her husband, Clarence Roehl, 58.

Roehl was reported in satisfactory condition in a Menomonee Falls hospital Sunday with two head wounds. His wife was shot while she was wrapping Christmas gifts.

Riemer said investigators found newspaper clippings in Buending's room concerning mental illness. Buending had been out of work for about three weeks because of a heart condition and nervous tension, the chief said.

Roehl's son, Richard, 39, said his parents and Buending had been friends for 30 years.

Buending, an inspection supervisor at a metals factory, shot himself with an automatic pistol after shooting Roehl, his wife and the family's pet dog, police said. Buending died about two hours later of a head wound.

## \$15,000 Loss In Lanesboro Store Blaze

LANESBORO, Minn. (Special) — With only five shopping days to Christmas, Clarence Johnson suffered the loss of his TV and radio shop here by fire Sunday night.

The loss was estimated at \$15,000.

Townpeople assisted Fire Chief Lynn Iverson and his volunteers in carrying all the TV and radio sets and business records to a nearby vacant building. Fountain fire department was called and assisted on a standby basis.

The interior of the brick building on Main Street was burned out. Two families living in apartments on the second floor were forced to flee, leaving all their belongings. Damage on the second floor was limited to water and smoke.

Mr. and Mrs. Tilman Torgerson, who lived in the front apartment, and Mr. and Mrs. Leland Mickelson and two children, were forced to find quarters elsewhere Sunday night. The Mickelsons went to the home of her parents, Mr. and Mrs. Edmund Peterson in the rural area.

The State Theater next door was threatened, and Mr. and Mrs. Harvey Berg, who live in the second floor apartment moved all their belongings out. Firemen kept the fire from spreading there, however, and the Bergs planned to move back this morning. There is some smoke damage, however.

The fire was discovered at 6:30 p.m. Chief Iverson said the cause hasn't been determined.

Firemen got the fire under control in about an hour, but flames broke out again at 9:30. Some firemen stayed at the scene all night.

## Police Check Hit-Run Accident

Only one accident was reported in the city over the weekend.

Mrs. Stanley Langowski, Winona Rt. 3, told police she had parked her car on West 2nd Street, near Center Street, Saturday afternoon. When she returned at about 4:20 p.m. she noticed her left rear fender was damaged.

She estimated the damage at about \$35. She said she had noticed a light colored truck pull out of the parking place directly behind her. Police are investigating the incident.

## DURAND MAN INJURED

EAU CLAIRE, Wis. — Mondovi and Durand area men were involved in a three-way collision here on Highway 37. Paul W. Hubbard, 52, Durand Rt. 1, was treated for a fractured ankle and wrist and cuts on his face. Cars also were driven by Ervin L. Peterson, 16, Eau Claire area and Emil C. Lund, Mondovi Rt. 4. Hubbard's car ran into the rear of Lund's car, pushing it into the rear of Peterson's car as they waited for a school bus. Damage was near \$1,700.

## Santa: Please Bring Me...

NORTH POLE — Sunday was Winona day here, reports Santa Claus.

Mr. Claus told the Daily News today that he talked to 1,250 youngsters and one dog, all from Winona.

He said that one 5-year-old sang "Rudolph" for him.

"What do you give us if we are not good?" one concerned young fellow asked.

"Are you going to give us some snow?" was another question.

One youngster said he didn't want any presents, he just wanted people to be his friends and to be kind.

One young lady warned Santa that she had the chicken pox.

When asked what he wanted for Christmas, he replied, "I told you already."

Requests included a pool table and shotgun from a 9-year-old girl to a 40-foot yacht from a Saint Teresa

freshman.

Santa was offered the loan of some horses on the condition that they be returned, by some youngsters.

Santa said he questioned the youngsters and got a lot of good information about Winona.

"Call Santa is an annual event sponsored by the Jaycees of Winona," he explained. "They assisted Santa in taking down the requests."

## Light Snow Cover Expected To Disappear

Generally mild with little precipitation is the weather prediction for Winona and vicinity for the week before Christmas.

A half-inch snowfall gave the city a holiday appearance this morning but with temperatures headed for the near 40 range it's doubtful if it'll remain very long.

PARTLY cloudy tonight and Tuesday is the forecast with little temperature change. A low of 26-32 is predicted for tonight and a high of 34-45 for Tuesday. Variable cloudiness and a little cooler with a chance of a few snow flurries is the outlook for Wednesday.

The extended forecast for the area, predictions through Saturday, indicates average temperatures will be 6 to 12 degrees above normal afternoon highs of 24-28 and nighttime lows of 5 to 12.

Precipitation for the five days is expected to total about one-tenth to three-tenths (melted) scattered light rain or snow mostly about or after the middle of the week.

THE EARLY morning snow made streets and walks slippery but sanding crews and rising temperatures soon took care of that.

The temperature rose to 43 Saturday afternoon and 37 on Sunday. Low Sunday morning was 32 and this morning 28. At noon today the reading was 32.

The water content in today's light snow was .01 of an inch. A year ago today the Winona high was 27 and the low 11 with one inch of snow on the ground. All-time high for Dec. 19 was 51 in 1894 and 1923 while the low for the day was -19 in 1872. Mean for the past 24 hours was 32. Normal for this time of the year is 20.

LIGHT SNOW was reported in most Minnesota communities overnight, the most being at Bemidji where the fresh fall measured up to three inches. About an inch fell at La Crosse and only a trace at Rochester.

One community, Hibbing, reported a below zero reading with the thermometer dipping to -1. It was 3 above at International Falls. Rochester had a morning figure of 29 after a Sunday high of 34. La Crosse posted readings of 26 and 37 for the same times.

The Canadian plains states, where much of Minnesota's bad weather comes from, had high temperatures, Calgary reporting a 50 for Sunday.

Light snow was falling throughout WISCONSIN today, although accumulation totals were not expected to be large.

The Superior and Eau Claire regions had one inch of new snow up to daybreak and Park Falls about one-half inch. Elsewhere amounts were less than one-half inch, but the snow continued during the daylight hours, with the heaviest fall in the Wausau area.

Temperatures Sunday were lower than those of the previous day, reaching a high of 40 in the Beloit region. Most of the highs occurred in the early morning hours and the mercury sagged slowly during the day.

Park Falls set the state low of 13 early today. Green Bay reported 14, Superior 16, Wausau 18, Eau Claire 24, Lone Rock, Racine and Madison 25, Milwaukee 26, Burlington 27 and Beloit 28.

LOS ANGELES and Thermal, Calif., topped the country Sunday at 79 and Roosevelt, Utah, had the low of 7 below zero early today.

ST. LOUIS, Mo. (AP) — Police said a scuffle early Sunday ended in the fatal shooting of three 17-year-old high school pupils. A fourth pupil was critically wounded.

Maj. F. J. Vasek said Richard Otis, 21, of Eureka, Mo., was charged by the prosecuting attorney's office with three counts of second-degree murder. Two brothers, aged 14 and 15, were held by juvenile authorities pending further investigation.

## Debits in City Down a Little

Bank debits in Winona for November showed a slight decline, according to the Federal Reserve Bank monthly report.

It was the first time since April 1965 that debits had failed to show a gain from the same month in the previous year.

DEBITS here last month were \$36,731,000, down somewhat from the \$36,809,000 level for November, 1965.

Debits for the January-November period here showed a 9 percent advantage over the same cumulative total for 1965. The figure this year is \$387,088,000.

At Rochester a 3 percent gain for the month was registered with the cumulative total up 11 percent. Debits there last month were \$38,039,000, the report showed, compared with \$38,252,000 for November, 1965.

## Steve Offers Earl a Ride

By EARL WILSON

NEW YORK—Steve McQueen, the \$750,000-a-picture-and-50% of the profits film star, who was once an Indiana farm boy, dismayed some of the proud residents of the Sherry-Netherland by parking his borrowed motorcycle under the canopy . . . and then using the sidewalk along Fifth Avenue as a get-off point for a short motorcycle sprint around the block in the rain and snow flurries.

"Want to ride with me, Earl?" Steve asked this intrepid reporter, who intrepidly replied: "NO!"

Changing later from his motorcycle suit to a dinner jacket, Steve limousined to Cheetah with his B.W., ex-dancer Neile Adam to a charity costume ball . . . but soon left, elbowing his way out of crowds of fans closing in on him.

## New Quarrel May Keep U.N. In Session

UNITED NATIONS, N.Y. — A new quarrel over U.N. peacekeeping operations threatened today to delay adjournment of the General Assembly's 22nd session.

The Soviet Union and France warned Saturday night that a new crisis might result if the assembly adopted a Canadian resolution setting guidelines for the special committee on peacekeeping operations. The two countries said the resolution was illegal.

A conciliation commission of 11 nonaligned countries sought to head off a showdown. One member said the commission wanted Canada to withdraw the resolution. Another said it was trying to work out amendments acceptable to all.

The assembly postponed a vote on the resolution until today. It appeared that this would run the session into Tuesday, the scheduled closing day, and frustrate the hope of Assembly President Abdul Rahman Pazhwak of Afghanistan that he could end it a day ahead of time.

The basic issue was the same as that which paralyzed the General Assembly two years ago: whether the assembly, with its majority rule, shares the constitutional authority of the Security Council, with its big-power veto, to arrange for peacekeeping operations. The United States and Britain say it does. The Soviet Union and France say it does not.

In 1966, the Soviet Union and France, were two years behind in paying peacekeeping assessments voted by the assembly and the United States threatened to invoke a clause of the U.N. Charter providing that such delinquents should lose their assembly vote. The Americans finally backed down. The Soviets and French still refuse to pay.

The Canadian resolution would have the General Assembly invite member countries to inform the United Nations what forces they can provide if asked "to participate in a duly authorized United Nations peacekeeping operation."

French Ambassador Roger Seydoux told the assembly that "goes beyond the competence of the General Assembly." He said that the authors of the resolution "run the risk of reviving divergencies which were about to lose their seriousness."

Soviet Ambassador Nikolai T. Fedorenko objected also that the resolution "empowers the General Assembly to finance

He said its adoption would "shut the door to negotiations" and might "lead to the emergence of situations of crisis" again.

Both delegates however supported a Jamaican resolution to have the assembly recommend that the Security Council negotiate arrangements with UNM members for peacekeeping forces to be made available at the council's call.

The special political committee recommended both resolutions Wednesday night. Each got better than the two-thirds majority needed for approval in the assembly. Diplomatic sources said the Soviet and French diplomats warned privately that if the assembly adopted the Canadian proposal, they would reconsider whether to stay on the peacekeeping committee.

## DFL Leaders Seeking to Rebuild Party

MINNEAPOLIS (AP) — Party leaders went behind closed doors Saturday in an attempt to find solid ground for the party to rebuild its forces for 1968.

Neither Gov. Karl F. Roalvaag nor Lt. Gov. A.M. Keith — principals in the intra-party tug-of-war earlier this year attended — the four-hour meeting.

But Sen. Walter F. Mondale and other DFL candidates who survived the GOP onslaught last month attended the session of the party's executive committee.

One of the major decisions was to name a member of Mondale's staff, as the party's full-time money raiser. He is Warren Spannaus, a former assistant attorney general who was active in fund-raising affairs for Mondale during the campaign.

Mondale denied a recent report that he has been singled out by Vice President Humphrey to spearhead a rebuilding job in the DFL. But it was noted that some of his ideas had been put into effect by the executive committee.

Mondale told newsmen that money was the immediate concern of the party, because funds are needed to build a staff and do the organizing job needed to win future elections. It's generally conceded that the Republican organization was far superior to the DFL this year, and may have had as much to do with the election results as the DFL split.

"We've just never come to grips with the financial realities of modern politics," Mondale said.

Mondale said the DFL "can't match the Republicans dollar for dollar" but must do better than it has. The DFL reportedly has about \$60,000 worth of campaign bills to pay off, although not all of this amount is considered debt.

Mondale and State DFL Chairman George Farr both agreed that the party must do more to broaden its appeal to the public.

Mondale said he is not sure the party is "staying current with the best new ideas that are coming out." He said new ideas and programs being proposed in

Washington are reflected only in a "dull" way in the DFL platform.

Farr said the party needs "more sophisticated" stands on issues and needs to involve a wider range of people.

Farr did not agree with the complaint of some Democratic governors last week that election defeats were caused by President Johnson's Great Society programs. But Mondale indicated more must be done to broaden the party's appeal in affluent suburban areas.

Besides the appointment of Spannaus, the executive committee also:

— Adopted a calendar of meetings and events for the next two years, including monthly sessions of the executive committee.

— Named a legislative issues committee to assist Liberal members of the legislature.

— Reactivated a policy advisory committee to work on updating the broad philosophical goals of liberalism.

— Named a committee to develop goals for rural areas.

Farr said there was little discussion at the meeting about the November election. He said a questionnaire sent to members of the DFL State Central Committee indicates a feeling that the party is basically sound.

Mondale also said there is "constructive mood" in the party with a surprising absence of recrimination over this year's losses.

"There obviously are some individuals who don't feel kindly about other individuals in the party," Farr said, adding that this was not unusual.

## Nason on Education

# Much to Learn, So Little Time

By LESLIE J. NASON, Ed. D.  
Univ. of Southern California

The challenge to education becomes greater all the time. That's because the world's knowledge doubles every 10 years or less, whereas in the Middle Ages the doubling is estimated to have taken 1,000 years.

It is impossible to teach a student all there is to know about even one subject, much less give him a grasp of all

the subjects in which he might become involved during a lifetime of changing employment.

This question could be asked: Are too many of our school and college students, in this present generation, being merely trained in one skill or another skill, but not educated in how to learn, think, improvise, and adapt in a fast-changing world?

THE NECESSITY of a change in emphasis from specific vocational training to the development of basic learning skills is the big challenge.

A student should first learn to understand what he reads, to think for himself and to express his thoughts clearly. He should learn to handle the basic tools of mathematics. He should get some grasp of the realities of his natural and human environment.

If while learning these skills, he has also learned how to learn, he need have no fear of having to acquire new skills as old ones become obsolete.

Students must now be prepared to live in a world in which schools are not the only source of learning. Newspapers, magazines, radio and television are playing increasing roles in the education of youth and adults as well.

A BASIC change in approach is called for if schools are to meet these challenges?

Presently, school systems are organized for the management and control of teachers and teaching. A teacher is rated "superior" if her room is neat, the bulletin board in order, class runs smoothly, she is neat in her dress, gets her reports in on time and sends few discipline cases to the office.

It is assumed that if these conditions are present, the pupils will learn.

It is also assumed that if students complete the assigned lessons they will, in the process, assimilate learning techniques which will suffice in all situations.

This is not necessarily true! In many respects, schools are doing a good job and many students do gain the knowledge and skills expected under these assumptions. But what of those who do not?

New tests should be devised to determine the adequacy of each student's learning habits.

## Severed Leg Sewed Back On

ST. LOUIS, Mo. (AP) — A youth's leg was severed in a traffic accident Sunday night, and surgeons sewed it back on.

Edward Cissell, 17, lost his left leg below the knee. He was in a car that crashed into a pole in North St. Louis, police said.

The car driver, Theodore Adams, 17, suffered multiple head and body injuries and was in critical condition.

A spokesman at Homer G. Phillips Hospital said Cissell was in satisfactory condition after his leg was restored.

## Racial Appeals Unprofitable to Most Candidates

WASHINGTON (AP) — Appeals to racial and religious prejudice in the 1966 political wars were largely unprofitable to the candidates making them, the Fair Campaign Practices Committee said Saturday night.

The bipartisan committee is headed by Charles P. Taft of Ohio and its honorary members include former Presidents Harry S. Truman and Dwight D. Eisenhower. A code of fair campaign practices drawn up by the committee was signed by the chairmen of the Democratic and Republican National committees and by representatives of Democratic and Republican campaign committees in the Senate and the House.

Sixty-nine per cent of the candidates in 505 races for governor, senator and representative also signed the code. All candidates in Maine signed it and only in Nevada did none of the candidates sign.

"The appeal to racial or religious prejudices seldom paid off for the candidates who use it," the committee said, but was the basis for 18 per cent of complaints handled.

The committee found "a drastic decline" in complaints based on exploitation of religious prejudice since the 1960 campaign in which, it said, "the unwritten law that a Catholic cannot be elected was repealed by the voters."

However, it is noted a continued strong appeal to racial prejudice which was the basis for 12 per cent of the complaints handled, all of them outside the South.

"The candidates used code words instead of direct racial appeals," the committee said, "and in the majority of cases their racial attacks backfired."

The words or phrases used included "violence in the streets," "forced housing" and "school busing."

In 68 per cent of the cases that involved "dirty politics," the committee said, the candidate involved in unfair campaign tactics was defeated.

The 51 complaints to the committee came from 27 states, with 21 of them being against Republicans, 27 against Democrats and three against other political groups.

## Road Bond Issue

### A Forward Step

WINONA COUNTY, following the example of 20 other counties in Minnesota including Houston and Fillmore, has taken a forward step, we believe, in authorizing a \$750,000 bond issue to speed up highway construction.

Almost half of the money, \$325,000 to be exact, has been earmarked for street improvements in the city of Winona. A considerable part of the balance will be used for interchanges with Interstate Highway 90 now being constructed across Winona County from Dakota to the west county line via Witoka, Wilson and St. Charles.

City projects include widening to four lanes, curb and gutters, of W. Sarnia St., Gilmore Avenue and Junction Street from Main Street to Broadway and reconstruction of old Highway 61 in the vicinity of the new vocational-technical school near the Siebrecht Greenhouses in the far East End.

REMAINDER OF the funds will be devoted to improving farm to market roads throughout the county.

Since Sarnia Street east of Main Street and the Mankato Avenue dike are the route of State Highway 43, both are maintained as part of the state system and are not involved in the county's bond issue funds.

Fillmore County was the first in South-eastern Minnesota to take advantage of a state aid bond issue. It issued bonds in the amount of \$350,000 in February 1962, followed by Houston County, which issued \$200,000 in January 1963. Only other three-quarter of a million issue was authorized by Freeborn County, of which Albert Lea is the county seat, in April 1965.

"Turnback funds" paid by the state to restore and modernize highways abandoned by the state, to good travelable condition, will be available for the two projects scheduled in the city. Both are to be let early in 1967. The City Council, meanwhile, will be pressuring the state to improve E. Sarnia Street from Main to Mankato Avenue which now is only two lanes wide and has no curb or gutters.

The Winona County bonds were sold at an interest rate of 3.9 percent or almost as low as the \$5.8 million bond issue for our new senior high school and the vocational-technical school.

Modern traffic demands to cope with our growth and safety standards, more than justify the bond issue, in the opinion of this newspaper, and both city and county governments are to be complimented for their support of their engineers, Gordon M. Fay and James W. Baird, who have recommended such projects to advance a forward program of "pay as you use" work.

When the Sarnia Street job is completed, it will provide the city with another modern through east-west traffic route, needed today to help handle rush hour traffic. And in this connection, serious thought must be given to stop and go lights at the Huff-Sarnia intersection as well as Main-Sarnia when and if Highway 43 is rerouted.

FIRST INTERCHANGE with Interstate 90 is scheduled at Witoka with others eventually to be constructed at Wilson and south of St. Charles. Most of the connecting highways will be upgraded to nine tons.

## College Board Needs Stature

(Mankato Free Press)

PERHAPS NOTHING is as important to education in Minnesota during this pre-legislature period as the upcoming governor's appointments to the State College Board. This board, which governs the fastest growing segment of the state's higher education system, has long lacked the stature that the state colleges deserve.

Primarily due to the old system of resident directorships which the legislature did away with four years ago, the board, as constituted, has not had the credit with legislators that it should.

It is partly because of this lack of stature that the legislature has been loath to change the fiscal controls that the college presidents, and Gov-Elect Harold LeVander himself, have complained of as hampering efficient operations of the colleges.

GOVERNOR ROLVAAG, after the old resident-director system was done away with, made some effort to improve the quality of the board's lay members. But his failure to recognize the need for at least area representation negated much of his effort. Death has done the rest and the board remains largely without the stature enjoyed by the Board of Regents of the university and the State Junior College Board.

All projections point to a continued rapid growth in the state colleges. The initiating of more graduate level programs in these institutions is inevitable. Student increases at all levels of education make an improvement of the state college system most important since the colleges are the prime source of teachers for public education in the state.

IT WOULD SEEM imperative that appointments to this board be given very careful consideration with the idea of improving the status of the board. Only in this way will the state college system find a sympathetic ear when it goes to the legislature for procedural changes, money and authority to launch new and needed programs.

## TODAY IN NATIONAL AFFAIRS

### GOP Acts Like '68 Is a Cinch

By DAVID LAWRENCE

WASHINGTON—Republican governors and leaders in Congress are giving the impression that they are more interested at the moment in selecting a presidential candidate for 1968 than they are in interpreting the will of the people in the elections last month. Instead of beginning to organize a constructive opposition which will affect the course of legislation in the next two years, they seem to be concerned primarily with evaluating the respective ambitions of potential candidates.

Actually, the Republicans really don't have a united party yet—only a lot of splinter groups. The voting in the recent elections reflected the opposition of the country to many of the things the Johnson administration and the Democratic majority in Congress have been doing in the last two years. But, even so, none of the potential candidates of the Republican party for the presidency has ventured to articulate the wishes of the people and to dedicate himself to the causes which prompted so many millions of people to vote against the Democratic party a month ago.

THUS, FOR example, not much has been said publicly about the abuse of power by the administration's officials—both in the Department of Justice and in the Department of Health, Education and Welfare—in applying the laws of Congress on the "civil rights" issue. Nor have Republicans analyzed for the people what the continued failure of the administration to approximate a balanced budget can mean to the nation's monetary unit. Yet within the past few weeks he administration has "leaked" hints that it is going to spend many billions more next year than it has in any preceding year.

Certainly the country is concerned about a possible tax increase. Republican leaders, however, haven't joined together to express a viewpoint that would reflect the thinking of the entire nation—which is that it is better for the government to economize than to keep on spending, and that it is better to stimulate the collection of more tax receipts by a sound fiscal policy than it is to raise tax rates and disrupt the economy.

THE ELECTORATE is just as much worried now as it was a few weeks ago about the behavior of the administration on various issues. But very little has been said here, for instance, about any plan to tackle the crime problem on a nationwide basis. Nor is any comment being offered on legislation that Congress might enact which would make it easier for police officers to detect and apprehend criminals than it is today.

## 'Hey—Wassa Big Idea! I Didn't Ask For No New Suit For Chirstmas!'

## THE WASHINGTON MERRY-GO-ROUND

### Grand Jury Should Probe Eavesdropping

By DREW PEARSON

WASHINGTON—What the United States needs right now is a citizens grand jury to investigate the battle of the bugs. This would ascertain not merely which is the greater entomologist, J. Edgar Hoover or Bobby Kennedy, but more important, to what extent the sanctity of the home has been invaded.

One of the most important guarantees of the Constitution, written into it by the founding fathers who had to suffer invasion of the home by British Red Coats, was that no police or officer or government may enter your home without a search warrant. This is based on the old principle of English law that a man's home is his castle.

DESPITE this, electronic listening devices have been placed in homes and hotel rooms, not only without a search warrant but with no authorization by a judge or in some cases even by the attorney general. And FBI snoopers, sitting at the end of these bugs, have listened in on intimate talks between husbands and wives, on distinguished visitors to the United States, on foreign ambassadors, and in some cases on White House conversations.

Under the law of the District of Columbia, any federal judge has the power to impanel a citizens grand jury to investigate a violation of law or a condition which threatens the citizens of the nation's capital. The judge does not have to get an OK from the Justice Department or the White House or anyone else. He can act on his own.

The most courageous on the District Court bench is William B. Bryant, a Negro. Some of the other judges probably would not be happy about bugging either J. Edgar Hoover or Kennedy who picked some of them.

SEN. ED Long, D-Mo., found himself in that position when he began probing eavesdropping as chairman of a Senate subcommittee entrusted with that duty. He made a courageous start in exposing entomologists in Internal Revenue, then his courage fled. One year ago Bud Fensterwald, able committee counsel, was in Las Vegas where he collected details regarding Hoover's ramified bugging operation there. But Sen. Long did not proceed. He was not afraid to tackle the unpopular Internal Revenue, but was scared to death of J. Edgar Hoover.

Now that Hoover and Bobby have gotten into their bugging battle, Sen. Long says, "The ice is broken," and he will proceed. However, he is one year late and it will take more courage than Sen. Long has displayed in the past to conduct the thorough probe of wiretapping and eavesdropping to which the public is entitled.

If U.S. Judge Bryant or another judge does not call a citizens grand jury, the chief judge, David Bazelon, of the U.S. Court of Appeals, has the power to step in and do so.

Here are some of the aspects of the battle of the bugs which need investigation:

Aspect No. 1—Was Hoover acting on his own, or with Attorney General Kennedy's approval when he engaged in the wholesale eavesdropping which the Justice Department has now revealed to the Supreme Court?

THERE is evidence that Bobby listened with some delight to FBI tapes of monitored conversations while visiting FBI offices in New York and Chicago. He now says that Hoover placed these bugs without his approval. Who is telling the truth?

Aspect No. 2—The White

House was informed that Attorney General Nicholas Katzenbach was reporting on various operations in the Justice Department to his old boss, Bobby Kennedy, and Bobby, through Katzenbach, continued to run the Justice Department. If true, it is understandable that Katzenbach was transferred to the State Department and a job for which he had no background.

One report which irked the President was that his own wires were being tapped—with the information going back to Bobby. He had given specific orders over a year ago against eavesdropping.

This kind of surveillance, if true, occurs only in police states. It should be investigated and the facts given the public.

Aspect No. 3—Assistant Attorney General Mitchell Rogovin, in charge of the Justice Department's tax division, is credited with inducing the Justice Department to make a clean breast of the FBI wiretaps in the Fred Black income tax conviction, thereby upsetting the conviction and requiring a new trial.

BLACK WAS the close friend of Bobby Baker, whose indictments are now being questioned because his conversations also were monitored by an FBI bug.

## WASHINGTON CALLING

### Discontent and Distrust of LBJ

By MARQUIS CHILDS

WASHINGTON—Since the roof fell in on the Democrats on Nov. 8 post-mortems have been raining down from every quarter. Democratic apologists and Republican critics looking for the explanations, whether in the economy, the white backlash or the inevitable off-year decline following a landslide Presidential victory, can suit their own prejudices.

Almost without exception, in the view of this observer, they ignore or play down what is possibly the primary reason for the defeat—the deep undercurrent of discontent with the constantly enlarging war in Viet Nam. Even the latest Louis Harris survey, showing approval of the President's handling of the war down to a low of 42 percent, may not reflect the extent of the discontent and distrust. High prices, high interest rates, the collapse of the housing industry—these and other troubles are traced back to the war as a root cause.

Much of the discontent over Vietnam relates to the conviction of widespread inequities in the draft. The poor are fighting the war while the well-to-do can keep their sons in school and thereby escape the draft. Out of concern for being thought unpatriotic this is rarely articulated in any public fashion, perhaps not even to a poll-taker. Yet there is reason to believe the feeling is widely held. In talk about the draft the names of the Johnson son-in-law, Pat Nugent, and actor George Hamilton, often an escort of Lynda Bird Johnson come up. Why haven't they been sent to Vietnam?

HAMILTON claimed exemption from the draft as the sole support of his mother, yet he shares a 39-room mansion with her in Hollywood. All this seems absurdly irrelevant against the background of the grave and, from the administration's view, compelling reasons why the line must be held in Vietnam. But it is of such emotional chaff that political prejudices and predilections are formed.

Much of the mail coming to me since Nov. 8 reflects these attitudes. A woman reader in California expressed it with great forthrightness. We did not, she wrote, vote for Ronald Reagan; we voted against Gov. Edmund G. Brown, the Johnson administration and the war in Vietnam.

"We would have voted for Mickey Mouse if he had been running against Brown. . . . It's about time you reporters woke up to this fact and quit trying to look into the minds of the people. You can't see the forest for the trees. The average American knows that Mickey Mouse will be our next president if he runs against Johnson in '68."

"THIS YEAR IN California it was 'anybody but Brown.' All over the country in '68 it will be 'anybody but Johnson.' So why don't you reporters wake up and tell the big shots in the government we're tired of our boys getting killed for nothing. It's just as pure and simple as that."

This may be written off as a rather arbitrary grass-roots judgment. Yet, after all, Reagan, a former actor and television performer who had never before run for public office, won the governorship by nearly a million votes in a state in which the Democrats have a three-to-two advantage in registration over the Republicans. Brown, a good governor who had met the requirements of the huge influx of new people in California, had no stigma of graft or corruption.

ONE CAN HEAR this same judgment from serious political observers out in the country. The unpopular war coupled with a growing distrust of the Johnson personality—a super-salesman to endure himself to all of the people all of the time—are having a telling effect.

In 1952 and in the congressional election two years later Republican propaganda leaned heavily on "the three Democrat wars." Casualties in World War I, World War II and the Korean War were added up and scored against the party that had been in power when each of these wars began. President John-

Comments Musicians For Christmas Concert

To the Editor: I wonder how many people really appreciate or even know of the amount of real culture in Winona in the form of music and the theater.

The college theater productions put on the year around are excellent.

I've attended many Christmas concerts, including the one last Wednesday night. Winona can and should be proud of these fine young people. I'd like to heartily commend all the young musicians in chorus, band and orchestra, their teachers and directors. Many thanks for some fine entertainment.

## VIET POLICY SCORED

NEW YORK—The Methodist Church's national missions magazine, World Outlook, says that America's spending of billions of dollars in the Viet Nam war while developing nations are struggling against poverty is building up resentment toward the United States around the world.

"But Viet Nam is only a symptom of what developing nations consider the tendency of the rich nations to do things for strictly selfish reasons and to keep the poor in their place," the editorial adds.

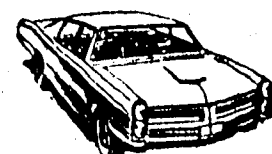

## HIDDEN CHANNELS

FRANKFORT, Ky. (AP)—Limestone regions in Kentucky have many miles of subsurface stream channels, sinks and caves. The most notable of these is Mammoth Cave, which was formed in the bedrock when water dissolved the limestone.

son has several times sought to trace the origins of the Vietnamese war back to a letter sent by President Eisenhower in 1954 offering aid and support to the government in Saigon.

BUT FOR MOST Americans this is likely to seem a technical claim, since as late as the fall of 1963 the number of Americans in Vietnam as "advisers" was 16,000. Although he had raised the ante, President Kennedy had consistently held that the war must be fought in the south by the Vietnamese themselves. The great escalation took place in the spring of 1965 when the choice seemed to be defeat or a massive movement of Americans into the war zone. This has converted the conflict in all but name to an American war.

Former Vice President Richard M. Nixon, with his sharp eye firmly fixed on '68, has said that if the war is not ended during the coming year nothing can prevent the Republican party from becoming the party of peace. And dolorous Democrats are saying privately that if the war continues into '68 the President cannot be re-elected.

## Accident on Duluth Street Kills Woman

By THE ASSOCIATED PRESS

A freak accident on a hilly Duluth street has claimed the life of an elderly woman from that city.

That death along with three others boosted Minnesota's 1966 record highway fatality count to 922, or more than the total for all of 1965 was 877.

Mrs. Russell G. Barnes, 81, died in a Duluth hospital Sunday about four hours after she was struck by a car. Police said her husband had parked the car and was walking around the vehicle to check its distance from the curb when the car rolled backward.

Mrs. Barnes was struck as she stood at the corner "two or three car lengths" below where the car had been parked, a police official said.

Raymond Simning, 35, Green Isle, Minn., was killed early Sunday when his car collided with a Milwaukee Road freight train five miles northwest of Norwood in Carver County.

Another victim, James C.

## Joseph Kennedy Back at Home

HYANNIS PORT, Mass. (AP) — Former Ambassador Joseph P. Kennedy, 78, has returned to his Cape Cod home after a stay at New England Baptist Hospital.

He entered the hospital Dec. 5 for removal of skin lesions from his chest by his physician, Dr. Russell L. Boles, and later was treated for a circulatory condition.

## Regional Controls For San Francisco

BERKELEY, Calif. (AP) — Regional government may be coming to the San Francisco Bay area. The Association of Bay Area Governments is asking the legislature to create an agency with authorization for taxing, waste disposal, park and recreational needs and regional planning for nine counties and 91 cities. A 34-member executive committee appointed by officials of the participating cities would run the agency.

Rock, 26, Moose Lake, died Saturday when his car hit a railroad overpass on U.S. 61 about two miles north of Barnum in Carlton County.

Mrs. Mabel L. Wicker, 83, St. Paul, died in a St. Paul hospital Sunday. She was injured Friday when she was hit by a car in the capital city.

## Cold Delays Operation to Change Sex

MINNEAPOLIS (AP) — The common cold has delayed University of Minnesota surgeons from performing an operation that would change their patient from a man into a legal female.

Two other men are also awaiting the transsexual operation at the university hospitals, and letters of inquiry from eight to ten more, have been received.

Dr. Donald W. Hastings, the Medical School's chief of psychiatry and neurology, said Sunday the surgery had been scheduled for Tuesday but now is expected sometime in the next two weeks. The Minneapolis Tribune revealed the operation—first of this type in Minnesota—would take place in the near future in a copyrighted story in its Sunday edition.

The case, similar to the Christine Jorgensen surgery by Scandinavian doctors, will be the first of a hoped for series at the university.

"We hope to have a minimum of 20 in the next year or two; then bring them back every six months; the purpose being to determine the type of social adjustment the person is able to make as a female."

"The only way to ever settle the problem of whether surgery does help is to measure the adjustment these people make. We simply don't have this data at the present."

Hastings emphasized that the transsexual operations are a linking of surgery with psychiatry.

"The heart of the matter is either you can change the mind to fit the body—and we simply don't know how to do that—or the other approach is to try to change the body to fit the mind, to make the person resemble the female which he desperately wants to be."

Hastings said the medical school's interest is specifically that surgery seems to offer hope for these people who desperately want to change their sex.

"There is not a group that has been well studied before surgery nor a follow up study for post operative purposes," the psychiatrist said.

Hastings said the surgery is routine, quite similar to that used for removal of certain cancer. Male sex organs are removed and a vagina is constructed by plastic surgery, along with modifications to the pelvis.

The patient then goes on a steady prescription of female hormones to enhance the female appearance. And the patient is sterile.

Hastings said the men who want to become women have told him: "I'm a woman in a man's body."

"We don't think there's anything genetically wrong. It must have been learned in the first months of life. How this transpires we don't know. They are normal males (physically)."

Somewhere in their early childhood all began to identify with the female, such as "dolls and dresses instead of fire engines," Hastings said.

Asked why the medical school decided to begin the transsexual surgery, Hastings replied: "Very simply, we've been see-

ing these patients and we didn't know what to do for them. They are tragic, distressed people, who may attempt suicide."

He noted that it is much rarer for a woman to wish to be changed into a male, and such surgery can't be done as "hurdly" as on a male.

Such patients will be referred to the medical school only by physicians. You can't walk in the door and ask for a change. Also, there is a seven-month

study period between acceptance and surgery during which the patient is diagnosed, mentally and physically, records are set up and he is put on a six-month trial using female hormones.

At the end of this period the patient may decide on surgery.

Hastings said similar operations were performed at the University of Southern California, and a current program is under way at Johns Hopkins University at Baltimore, Md.

## Castro Praises Viet Cong Stand

HAVANA (AP) — Prime Minister Fidel Castro declared Sunday night that Communists in Vietnam are showing the world that it is possible to resist and conquer "imperialist aggression."

Addressing a graduating class of 425 agricultural and ranching technicians at Havana University, Castro said, "Few small

countries like ours, also threatened only 90 miles away by the imperialist monster, can appreciate the extent of the Vietnam example."

He accused the United States of intensifying the Vietnam war by bombing residential areas of Hanoi, a charge repeatedly denied by U.S. officials in Washington and Saigon.

"Our own embassy located in the center of Hanoi informed us

that only a few hundred meters from the embassy bombs fell from capitalistic planes," he said.

# Thousands Look For Ski Season

By JOHN CUNIFF  
AP Business News Analyst  
NEW YORK (AP) — Upon us now is a season commonly referred to as winter by some but more often as the ski season by somewhere between 1.5 million and 6 million Americans.

Since nobody knows the definition of a skier, the estimates vary widely. The people who operate the ski areas say, however, that at least two million individuals ski regularly and often.

As the definition of a skier broadens, however, so do the figures.

Many people, for example, buy ski clothes and never ski, spend money on transportation to ski resorts but then sit in the sun, wear ski boots merely for the secure feeling they give when rested on the bar's brass rail.

In some statistics, however, all these count as skiers. This leads to the distinction of skiing as a sport and skiing as an industry. The latter is, of course, larger.

So rapidly is the skiing industry growing now that it threatens to encompass much of fall and some of spring as well as all the winter months. Even in summer, in fact, ski movies

have a popular following.

From this growing activity and its related pastimes, the retailers of clothes and equipment, of transportation and room and board, expect to earn \$750 million this season. This is the industry's own estimate.

The figure goes up about 15 per cent each year and, based on reportedly higher sales of clothing and equipment early this season, may grow at an extreme rate of 20 per cent this season.

Skiing is not the most violent of sports but it is, unquestionably, one of the more violent participant sports. The industry, however, does not boast of its busted bones with the same enthusiasm as it brags of sales.

In just one weekend early this year at least 450 skiers were injured badly enough on New England ski slopes to need medical treatment, many of them with broken bones. These figures are a minimum, for the survey was far from complete.

An estimate comes from a casualty insurance company that about six of every 1,000 active skiers on a given day will be injured and that about 55 per cent of them will be beginners.

Although the economic loss may be small in many of the accident cases, it can run into thousands of dollars and the loss of months of work. Ski injuries often are twist injuries, resulting in displacement as well as fracture.

In most instances individual or group insurance policies pay much of the medical bills for generally speaking, the insurance companies consider skiing accidents no different than other accidents.

A dispassionate attitude also exists among participants. At a large New York life insurance company last week the activities committee made plans for a ski trip to upstate New York.

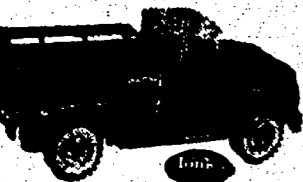

Said a spokesman: "Why should we be worried about injuries? Last year we had four girls injured in bicycle accidents in Bermuda. We didn't have that many from skiing."

JAMES LEE COLLINS  
At Questioning by Greensburg, Ind., Police

## Youth Hunted In Indiana Slaying Caught

GREENSBURG, Ind. (AP) — A teen-ager hunted in the slaying of a state trooper held an elderly farm couple captive more than five hours before surrendering Sunday without resistance.

James Lee Collins, 18, Erlanger, Ky., was jailed on a preliminary charge of first-degree murder.

A companion, James W. Sprinkle, 29, Newport, Ky., died in the gun battle which killed trooper William R. Rayner, 30, Greensburg.

Lawrence B. Ernest, 78, and his wife, Christine, 76, said they were confronted by the youth when they returned home from church.

When the couple's son, Henry, 52, and his wife, Ruby, 52, stopped by 5½ hours later, the elder Mrs. Ernest, signaled that something was wrong. The daughter-in-law darted from the house, ran down the road and flagged one of the dozens of police cars combing the area.

Collins and Sprinkle were absent without leave from the Louisville, Ky., Community Guidance Center, a supervisory institution for parolees. Authorities said they were in a stolen car with Sprinkle driving when Rayner stopped them early Sunday on Interstate 74 about three miles east of here.

David Blodgett Jr., 38, of Greensburg, a deputy sheriff with the trooper, said as Rayner approached the auto on foot, Sprinkle stepped out and began

firing at both officers. The trooper fell.

Blodgett, who was not hit, said Sprinkle and Collins fled on foot in opposite directions and he shot Sprinkle. "He fell dead in a drainage ditch alongside the highway," the deputy said.

Ernest said Collins met him and his wife outside their home, holding a shotgun he had found inside. He was wearing some of Ernest's clothes.

The couple was ordered into the house, Ernest said. When he refused Collins struck him with his fist, then prodded him with the shotgun.

"I think he was pretty nervous," Mrs. Ernest said. "His own clothes were wet and dirty," she added. "He did everything possible to help his appearance. He even scraped mud off his shoes."

Ernest said Collins acted tough at first, but "finally came around after an hour. I pointed out the difference in our ages, and said to him, 'Surely you don't need a gun to defend yourself against us.'"

The youth then unloaded the shotgun and put it down, Ernest said.

Mrs. Ernest cooked bacon and eggs. "He ate well," she said.

Ernest said the youth told him, "Listen, old man, you've treated me nice. Come dark, I'll slip away. You won't be the worse for it."

## Nonagriculture Employment in Minnesota Up

ST. PAUL (AP)—Nonagricultural employment in Minnesota last month was 50,000 above the level a year earlier, the state Department of Employment Security said Saturday.

The November level of 1,152,000, however, showed a seasonal decrease of 8,500 from October. Assistant Commissioner R. L. Davis added that unemployment rose in November to 42,300, an increase of 4,900 over the October figure. However, the 1968 November total was 8,900 below that for a year ago.

Manufacturing employment, particularly in durable goods, showed a less than normal seasonal drop. The 700 decline from 279,800 to 279,100 was 1,000 to 1,500 less than experienced in recent years.

## Fisherman Drowns At Menomonie

MENOMONIE, Wis. (AP)—A Menomonie man died Sunday when his car broke through ice on Lake Menomonie about 12 feet from shore.

The body of Edwin O. Wold, 48, was recovered from 14 feet of water. Authorities said his car was among several vehicles which had been driven onto the ice by fishermen.

## GIs Welcome Invasion of Entertainers

SAIGON, South Vietnam (AP)—The GIs in Vietnam are getting ready for a Christmas invasion, and some of it should be fun.

Bob Hope commands the largest task force of invaders, but the bare legs and jokes of his troupe will share the spotlight with Billy Graham, Francis Cardinal Spellman and several congressmen.

Evangelist Graham and the Roman Catholic archbishop of New York both have scheduled trips to military installations and will conduct some religious services.

Hope left Los Angeles Friday with his 69-member fun company for his 15th annual Christmas tour and his 25th journey to entertain American servicemen.

Hope's troupe also includes Phyllis Diller, Joey Heatherton, Anita Bryant, Les Brown and his band, and the Korean Kittens. They will perform in Vietnam, Guam, Thailand and the Philippines.

Gen. Earle Johnson, U.S. Army chief of staff, also will be in Vietnam this week. But the average soldier will be a lot more interested in Chris Noel, a 26-year-old disc jockey who is in Saigon to attract attention for her program. Her 36-24-36 di-

mensions, mini-skirt eight inches above the knee, green eyes and blonde hair attracted considerable attention on the street Sunday. She will be on the armed forces radio all this week.

Author John Steinbeck also is visiting with troops and four members of Congress are expected to remain for the holidays — Sen. Stuart Symington, D-Mo., and Reps. Joseph Y. Resnick, D-N.Y., George W. Grider, D-Tenn., and Lera Thomas, D-Tex.

Although both sides have proclaimed 48-hour cease-fires for Christmas and New Year's, some of the GIs will miss the visiting VIP's because they will be on watch-posts with eyes peeled for an unwanted Viet Cong visitor.

# Russ Blame China, U.S. For Hardships

By WILLIAM L. RYAN  
Associated Press Writer

Ivan Ivanovich has had a bit of bad news.

The Russian man in the street suspects he must put aside some of his dreams.

He will be given to understand "the U.S. imperialists" in Vietnam are mostly to blame. He also will get the idea that Red China is partly to blame, too, and he will resent that even more.

Those who know Russians well say that when the Soviet regime announces an increase in the military budget, Ivan can only feel a pang of dismay. This reaction is instinctive. Higher up the social and educational ladder there is more sophisticated knowledge of what goes on. This generates a clash between intellectual elements and the conservative faction of the Communist bureaucracy, and division along these lines appears to extend all the way up to the summit of the leadership.

Thus, the Soviet budget announced last week can cause new strains.

The budget includes the biggest increase in defense spending in four years and the highest military spending rate in more than a decade.

The government concedes there will be shortages in some raw materials, which probably means military industry will get a bigger share.

There may be fewer television sets, radios, refrigerators and the other things Ivan was buying or planning to buy.

Ivan will suspect that gradually things will cost more, too, despite a government effort to keep the lid on retail prices. It is decreed now that industry must be profitable. Somebody has to pay.

Recent visitors to the Soviet Union report a widespread awareness that high party and government leaders are concerned about worsened relations with Red China.

The ordinary Russian, these sources report, sees Red Chinese attitudes as rank ingratitude for past help.

The pressure for more military spending is awkward. The leadership has been trying to raise living standards. The plan has been to boost the over-all minimum wage to 60 rubles a month by 1970, to double collec-

DEAR ABBY:

## Better to Give Than to Receive

By ABIGAIL VAN BUREN

DEAR ABBY: Now that Christmas is nearly here, I want to air something that has irritated me for a long time. It's people who don't send Christmas gifts anymore. Instead they send you a tacky card informing you that "a gift in your name" has been sent to THEIR favorite charity. That way they don't have to bother shopping for Christmas gifts, and all their "gifts" are listed as deductible expense on their tax return. Pretty cute, if you ask me.

"WISE" IN NEW HAVEN

DEAR WISE: Sorry, but I disagree. I think one of the more civilized practices of recent years is donating to charity instead of sending extravagant gifts to people who already have more than they need.

Knowing that a contribution to a worthy cause had been made in my name would be "gift" enough for me. He who takes but never gives may last for years, but never lives.

DEAR ABBY: Seven years ago I did a terrible thing. I had an affair with a man. His wife sued him for divorce, but they went back together again, thank God.

My wonderful husband forgave me, and we moved out of town. I have found God now and am leading a good life.

I am a teacher's aid at school. When school started last fall I found out that the wife of the man I had the affair with is our student counselor. She can ruin my whole life by telling the other teachers about my past.

Should we move again? The dear Lord knows I have suffered enough for my sins. I am getting very nervous over this. Please answer soon.

Abby

DEAR DESPERATE: Hands off the panic button. Stay where you are for the present. In all probability she will not disclose your past because of her husband's role in it. Forget it and continue to lead the good life.

DEAR ABBY: We have some friends whose teen-aged son was killed recently. Wanting to be of some help, I fried three chickens, wrapped them in aluminum foil and sent them to their home in a large cardboard box. I thought that poor mother had enough on her mind without worrying about returning a fancy platter or tray.

A friend told me that I shouldn't have sent the chicken over that way—that it looked like I didn't "trust" the family to return my platter. Was I wrong? WONDERING

DEAR WONDERING: In my book you were extremely considerate to have sent the chicken in a disposable container. (Others could learn from you.) But I am wondering what kind of "friend" would be so unkind as to plant such a preposterous notion in your mind?

CONFIDENTIAL TO PAMELA P. — Wherever you are. Please contact your mother to let her know that you are well. She is sick with worry. No questions will be asked.

Troubled? Write to Abby, Box 69700, Los Angeles, Cal. 90069. For a personal reply, enclose a stamped, self-addressed envelope.

tive farmers' incomes, which are the country's lowest, and to boost industrial wages by 20 per cent. All this is expensive in a country with a labor force of 100 million whose government bears all the cost.

The things Ivan Ivanovich wants are high priced. A television costs a month's wages, a refrigerator more than that. He has been buying things on the installment plan through credit extended by state stores, but perhaps that will be slowed down, too. Installment buying in 1965 reached about three billion rubles worth, and since there is a shortage of quality goods, there is additional danger of inflationary pressure.

Prices probably will be going up in any event.

Ivan is not interested in figures. He knows from public announcements that something is being done and that the money will come from his pocket. It must make him sad.

## New Russian Underground Test Indicated

WASHINGTON (AP) — Seismic signals originating from the central Soviet Union equivalent to a nuclear blast in the low-intermediate range have been recorded by the Atomic Energy Commission, indicating another Soviet underground nuclear test.

The seismology institution at Uppsala, Sweden, however, reported recording a disturbance larger than an Oct. 27 Soviet test blast — which the AEC said at that time was the largest underground test yet.

An AEC spokesman, questioned about the conflicting reports, said the AEC was certain Sunday's disturbance was in the low to intermediate force range. The spokesman said that means an equivalent of 20,000 tons of TNT.

The AEC had put the Oct. 27 blast at near one million tons of TNT. The United States says that none of its underground tests in Nevada have been of more than half the force of the big Soviet shot.

Blaise Pascal of France made the first attempt to add with a machine in 1642.

## LBJ Tackles Agriculture, Space Budgets

AUSTIN, Tex. (AP) — President Johnson wrestles with the big space and agriculture budgets today as he swings into a full schedule of official conferences at his Texas ranch.

Summoned to the President's home near Johnson City, 65 miles west of here, were Budget Director Charles L. Schultze, Secretary of Agriculture Orville L. Freeman and Director James E. Webb of the National Aeronautics and Space Administration.

For the current year, Johnson proposed budgets of nearly \$7 billion for agriculture and \$5.1 billion for NASA.

The budget the President now is working on, for presentation to Congress next month, covers the 12 months starting July 1. Secretary of Defense Robert S. McNamara will be at the ranch Tuesday, presumably to help nail down some of the final details of the new defense budget, expected to total nearly \$70 billion.

The total budget will likely

A program of exercise should be made to fit the needs of those persons who desire to get in shape and stay in shape. run around \$135 billion.

The budget, however, is just one of two major documents Johnson is preparing for Congress. The other is his State of the Union message — a broad outline of his goals and plans for the country's future.

Johnson also faces in the next few weeks a decision on whether to increase taxes. Some economists believe a tax hike is needed now to bring federal income and spending into closer balance and to dampen inflationary pressures.

Others, however, feel an increase in taxes now, when some economic indicators are turning mushy, would only promote a

recession.

Other problems facing the President include the future of his "Great Society" programs, including social welfare and other domestic efforts; the question of the military draft and future defense projects.

### Episcopal School Children Present Yule Program

Youth of St. Paul's Episcopal Church presented a Christmas program Sunday morning in the sanctuary of the church. Mrs. David Fleming and Mrs. Frank G. Meres were in charge of the program.

A procession of Sunday School members led by the Junior Choir ushered participants into the church. Songs and readings given by departments directed by Jack Cady, third grade; Dr. K. D. Barcel and Mrs. C. W. Schmidt, sixth and seventh grades; Mrs. Herbert Hassinger, eighth grade; Misses Carol Hubbard and Linda Buswell, kindergarten, first and second grades; Mrs. Luis Galvez and Scott Tolleson, fourth and fifth grades. Tricia Meres and Jeanne Sawyer accompanied the latter group.

Guitar accompaniment was played by Angus White and Jesse Gerlach. Mrs. Frank Van Alstine directed the choir and Mrs. William Sillman was organist.

### Alma Woman Notes 98th Birthday

ALMA, Wis. (Special)—About 100 people from a wide area honored Mrs. Anna Gobar Sunday at the home of Mr. and Mrs. Theodore Buehler, where she has an apartment. She will be 98 years old Tuesday.

She entertained her guests with poetry, which she recited. The American Legion Auxiliary of which she is a gold star mother presented her with an orchid corsage. She also received other flowers and gifts.

Mrs. Gobar attends church regularly at St. Paul's and St. Luke's United Church of Christ and belongs to the women's society. Mrs. Gobar formerly lived on a farm in this area.

dent, announced that 1,265 pounds of clothing had been collected for the Thanksgiving Clothing Drive. Vincent Strub was auctioneer for the Christmas Sale of articles donated by the members of the society. A lunch was served after the meeting with the St. Ann's Circle in charge of refreshments and entertainment.

### Caledonia Group Lists New Members

CALEDONIA, Minn. (Special)—Five women have been appointed to the St. John's Church advisory board. The announcement was made by the Rev. Thaddeus Derezinski at the meeting of the Holy Family Altar Society Thursday evening at the St. Mary's clubroom. New members of the board are the Mmes. Lloyd Jennings, Joseph Schriber, Genevieve Jahn, Lloyd Becker and Delmar Cochran.

Mrs. Mae Murphy and Mrs. B. A. Quail were appointed to lead the Rosary before the January Masses.

Mrs. William Leary, vice president, will be president for the coming year. Monetary gifts were voted to the Sisters of the St. John's Convent, the pastors, lay teachers and janitors at Loretto High School.

### Put Elegance, Economy In Holiday Entertaining

It's no trick to throw a Christmas dinner party on an expense-unlimited budget. But it takes real "know-how" to entertain elegantly yet economically.

Plan ahead. Even big parties should be limited to 20 people. Invite more than this number and you will never be able to

enjoy your guests.

Plan hors d'oeuvres, using gourmet foods—caviar, smoked salmon, seafood—but make the most out of what you buy. For example, don't spread imported black caviar on crackers. The cost would be prohibitive and the fine, subtle taste qualities are lost. Spread crackers with a mound of tangy cheddar cheese topped with a thin layer of caviar.

**TRY ROAST BEEF.** A universal favorite, it can go a long way, sliced thin and secured with a toothpick around gherkins or olives.

To add an elegant touch to smoked salmon, use a cookie cutter to carve white bread in-

to interesting shapes. Spread with cream cheese, top with salmon and garnish.

For a main course, search your recipe file and cookbooks for an old-time favorite you may have forgotten.

Keep the dessert simple. By the time your guests get down to the coffee, appetites will be well satisfied.

Complete the evening with a bowl of fresh fruit, nuts and a plate of cheese.

### Rebekahs Change Place of Meeting

The Wenonah Rebekah Lodge 7 has changed the place of this week's meeting from the Happy Chef Restaurant to the home of Mrs. Paul Griesel Sr., 206 E. Sanborn St.

The group will meet at 8 p.m. Wednesday as planned.

### Suzanne Garthus Becomes Bride of Myron Asplin

WHITEHALL, Wis. (Special) Suzanne Garthus, St. Paul, Minn., became the bride of Myron T. Asplin, Cokato, Minn., at Our Saviour's Lutheran Church, Whitehall, Saturday. The Rev. Clifford Riland officiated.

The bride is the daughter of Mrs. Knut Amble, Whitehall, and the groom, the son of Mr. and Mrs. Theodore Asplin, Cokato, Minn.

The bride, escorted by her uncle, Ira B. Garthus, Minneapolis, was attired in a floor-length,

semi-sheath gown of ivory crepe trimmed with lace. The empire bodice was fashioned with a portrait neckline highlighted with elbow-length sleeves. She wore a shoulder-length mantilla veil featuring lace trim, and carried a bouquet of calla lilies.

Miss Bonita Garthus, sister of the bride was maid of honor, and Miss Debra Gunderson, bridesmaid. They wore identical floor-length, semi-sheath gowns of turquoise velvet and crepe, featuring empire bodice fashioned with a portrait neckline and three-quarter length sleeves. They carried bouquets of white carnations and daisy pompons.

James Lundeen was best man

and Rolf Garthus, brother of the bride, groomsmen. Sherman Beyer, Roland Isaacson, and Wayne Thoreson were ushers.

A reception was held in the church parlors immediately following the ceremony.

The young couple is spending their wedding trip skiing at Vail, Colo. Upon their return they will reside in St. Paul.

# No Holiday For Cuban Sugar Crews

MIAMI, Fla. (AP) — It is work as usual on Christmas and New Year's for Cuba's sugar cane workers, as that nation strives for a record crop of its principal export commodity.

The workers will have their holiday meals in the sugar mills, said a Cuban radio broadcast heard in Miami.

Fidel Castro has set a 7.5-million-ton sugar production goal. The biggest harvest on record was 7 million tons in 1952. Last year's production, 4.5 million tons, fell 2 million tons short of the nation's target.

## RUBY

(Continued from Page One)

ing to hide; there was no one else."

As he lies gravely ill, he still maintains — according to Gertz and Earl Ruby — that "I never met or knew or saw Oswald until I saw him in jail, and I never knew Officer Tippit."

The Warren report said Dallas policeman J.D. Tippit was slain by Oswald when Oswald fled to the Oak Cliff sections of Dallas after assassinating Kennedy.

Gertz and Ruby said that Jack Ruby today acts like a man who wants to remain alive long enough to be convinced that others believe beyond question that he "acted out of overwhelming emotion and without malice and without premeditation."

They said Jack Ruby keeps referring to his movements the morning of Sunday, Nov. 24, 1963, when drawn by curiosity, he entered the basement of the

police and courts building, and, "on impulse and the purest of chance, shot Lee Harvey Oswald."

"And he is bewildered that it is not plain to every one that it was a million-to-one chance that he would stumble into a situation in which it was even possible that Oswald could be shot," said Gertz.

Gertz and Earl Ruby said Jack Ruby has no recollection of the moment he shot Oswald.

"That is a complete blank in his mind," said Gertz. "When he goes over every detail of his movements, he comes to that point and it is a blank for him. He does not deny he killed Oswald, but he has no memory of it."

Gertz said one of the ironies of the case was that police were absent from the street, allowing Ruby to commit a minor traffic offense to get to the Western Union office.

"If Jack hadn't made an illegal turn on Main Street to go into a parking lot in order to be

closer to the Western Union office," Gertz said, he couldn't have been in the basement at the precise moment police were transferring Oswald.

"He was going east on Main and made the illegal turn rather than go around the block. He was going to the only Western Union office open that morning to send some money to an employee in need, and when he passed the ramp leading into the basement of the police and courts building, he saw a large number of newsmen there, and thought that Oswald had just been moved."

"He keeps going through these steps, telling how he went into the Western Union office and waited his turn to send the money order. The receipt for it was timed off at 11:17 a.m., then he walked at normal pace about 350 feet back to the ramp where he had seen all the people."

"He says he just started walking down the ramp."

Could Ruby have known Oswald was being transferred at that moment?

"No. He swears to this day he did not. And the fact is that no one knew," said Gertz.

"The transfer had been announced for 10 a.m. but no one knew — not anyone in the police

or the press — because Capt. J.W. Fritz was still questioning Oswald. To say that someone informed Ruby of the time of transfer suggests that there was complicity on the part of the police or other law enforcement people."

"But that fact is that no one knew nor did anyone have any set time to make the actual transfer except for the announced time of 10 a.m. As the record bears out, the change in transfer time occurred when Capt. Fritz decided to interrogate Oswald again. Only Capt. Fritz knew when he would be through with the examination."

"When you reconstruct this, taking the time Jack left the Western Union office, and the time Oswald was shot, which the Warren Commission said was 11:21 a.m., you can see that there was perhaps only a period of 30 seconds, perhaps even less, during which Oswald could be shot by Ruby."

"Only the most disturbed mentality could think or believe there was a plan engineered so that an assassin would have an unmet, unknown period of a few seconds in which to do his job. It would have to be a plan, also,

in which there was no hope of escape."

Jack Ruby, himself, says — according to Gertz and Earl Ruby — "would I leave Sheba in the car if I planned to do such a thing?"

Sheba was his favorite dog. Many persons testifying about Jack Ruby's life said he treated his dogs as though they were his children. After he shot Oswald, his first concern was for Sheba. He asked police to attend to her. But he made no mention of money also in the car.

What about the pistol?

"Jack always carried a gun, for he sometimes had large sums of money. That morning, he had \$2,200 in cash," said Gertz. "It was a weapon registered in 1960 with the police. He had been arrested twice before for carrying an unregistered gun."

Doctors have not said how long they think Ruby can hang on to life.

Jack Ruby's condition has been diagnosed as cancer spreading in the lymph node system. Doctors say surgery and radiation are out of the question and they have resorted to chemical treatment for the condition.

# 1,200 Negroes, Whites Attend Mixed Service

MILWAUKEE (U) — An estimated 1,200 Negroes and white persons attended Mass at a Roman Catholic church Sunday and heard a priest apologize to a civil rights group for cancellation of an interracial program.

The Rev. Conrad A. Altenbach, pastor of St. Mary's Catholic Church, said civil rights group's protests against the cancellation were a result of a misunderstanding. He said the program, involving Negro children, was rescheduled for Tuesday.

But the Rev. James E. Groppi, adviser to the Milwaukee Youth Council of the National Association for the Advancement of Colored People, said he was not satisfied with Father Altenbach's sermon. Father Groppi termed it condescending.

Cancellation of the program involving eighth grade students led to praying and carol singing Friday at the church by members of Father Groppi's group which had sponsored demonstrations earlier this year in the Milwaukee area against racially restrictive membership rules of the Fraternal Order of Eagles.

About 50 members of the group, about 75 more Negroes, and about 100 whites who had participated in the Friday demonstration, and other persons helped crowd the suburban South Milwaukee church Sunday during Father Altenbach's sermon.

The council members were met with parishioners' placards, one of them reading: "The People of St. Mary's welcome their

brothers in Christ." The civil rights group was invited for coffee at the parish hall afterward.

Father Altenbach said the program's cancellation produced "a great deal of misunderstanding," and had involved a school board rule. He did not elaborate.

The cancellation had been announced after a church bulletin carried a strongly worded protest letter from an unidentified parishioner.

"I am sincerely sorry and beg your forgiveness," Father Altenbach said.

The priest said neither he nor his parish advocates discrimination, and he discussed his acceptance of Negroes at a camp where he had been a director.

"We think that he has not made an apology by what he said," Father Groppi said.

"This business of what I have done for the Negro... This is condescension, and the church has to wipe out this kind of bigotry," Father Groppi said.

## Humphrey Says He's Committed To Poverty War

NEW YORK (AP) — Vice President Hubert H. Humphrey said today he and President Johnson remain committed without reservation "to winning the war against poverty (and) against ignorance."

"There will be disappointments and even failures as we move ahead toward our goal. But we stand committed," he said in remarks prepared for a ground-breaking ceremony for Pace College's \$12-million campus center in lower Manhattan.

Noting recent critical studies of Project Head Start — the educational program for disadvantaged preschool children — he said the studies "substantiated what we have sensed all along:

"That what is gained (in the program) can be lost in a short period of time if the necessary follow-through is not assured. If the Head Start youngster moves into an indifferent school system that deadens the barely kindled spark in his mind."

"We have learned that Head Start has been no more than a false start for far too many young children for whom we held high hope. Does that mean we should abandon Project Head Start?"

The vice president suggested the solution lies instead in application of Head Start's "high standards and innovations into the first few grades of elementary school — a teacher for every 15 students," for example.

He said Harold Howe, federal commissioner of education, "intends to see that proposals for innovations and new programs at the elementary level are given rapid and favorable consideration in the year ahead."

## Promotion of East-West Trade Asked

WASHINGTON (AP) — The Johnson administration plans another attempt early next year to persuade Congress to ease restrictions on trade with the Soviet Union and Communist nations of Eastern Europe.

The Soviet government apparently favors removal of East-West trade barriers, according to four congressmen who conferred with Soviet trade officials.

"They indicated a very real interest in expanded trade with the United States," Rep. Thomas Ashley, D-Ohio, told a Moscow news conference Sunday.

"The Soviet view as presented to us is that trade between this country and the United States could increase a great deal if it were not for artificial barriers put up by our side," Ashley said.

The administration asked the 89th Congress to lift present restrictions on East-West trade, but the legislation died in the House Ways and Means Committee. Present plans call for its reintroduction after the 90th Congress convenes Jan. 10.

The legislation would end existing tariff discrimination, which averages 50 per cent but reaches 400 per cent or more on some items, on imports from Communist countries except Poland and Yugoslavia.

It would give the President discretionary authority to grant "most-favored-nation" tariff treatment to the Soviet Union and the Communist countries of Eastern Europe. Under this, a nation pays the lowest tariff the United States has granted to any one country.

The President first raised the idea in his 1966 State of the Union message, but Secretary of State Dean Rusk did not submit the bill until May. Speaking about the "winds of change" Rusk argued that the legislation

More than 1,000 persons were evacuated within 10 minutes and passengers on incoming flights were told to remain aboard their planes.

No one was injured when the device exploded, shattering seven large window panes, destroying a display case and several chairs.

Maj. F. J. Vasek said his detectives and the FBI were told there had been two previous bomb threats at the airport last week.

ST. LOUIS, Mo. (AP) — A homemade bomb that exploded in the terminal building of Lambert-St. Louis Municipal Airport Saturday night probably was designed to destroy an airplane, a St. Louis County detective said Sunday.

"We're pretty certain someone was going to put it on a plane and then chicken out," said detective Hugh Hodges.

James Williams, a custodian, found the bomb — four sticks of dynamite wired to two batteries and an alarm clock — near the Ozark Airlines counter under a row of seats.

U.S. trade with the Communist world amounted to less than \$281 million in 1965, peanuts compared with this country's total trade figure of over \$50 billion in the same year.

Officials described trade as a political tool and said the proposed act would give the President greater flexibility in dealing with Communist countries.

They contend present tariff barriers do not really hurt the Communist countries.

Officially described trade as a political tool and said the proposed act would give the President greater flexibility in dealing with Communist countries.

## Knowles Asks Consideration of Safety Program

MADISON, Wis. (U) — Gov. Warren P. Knowles says the state's record-setting highway fatality pace should encourage public support for traffic safety proposals he said he plans to offer the Legislature next month.

"There is no one or easy answer to the elimination of death on our highways," Knowles said Sunday. "It can only be accomplished by enactment of tough legislative programs combined with strict law enforcement, plus equal and prompt action by the courts."

The state's highway death toll for the year reached a record Saturday with a 1,060th victim and continued to climb. The previous record for a year had been 1,059 deaths in 1964.

Knowles said it is "a record of which no Wisconsin resident can be proud."

The 1966 death pace includes 24 lives during the period from July 29-31, the worst non-holiday weekend in the state's traffic history.

Dan F. Schutz, director of the State Motor Vehicle Department's safety division, said he fears December's death pace is heading for a new record for the month.

Each motorist, Schutz said, "must individually assume a greater degree of responsibility to stop traffic accidents now."

Knowles said he feels "that

this terrible record will convince the general public that it must support the comprehensive highway safety program which I will introduce to the Legislature the governor said, "we tried to adopt a highway safety program to prevent this record toll on our highways."

"Only part of our highway safety program was passed, and surprisingly very little support for tough highway legislation was received from the general public," he said.

The worst December in Wisconsin was in 1960 when traffic claimed 124 lives. More than 60 persons died in the first 18 days of the current month with the traffic-heavy holidays yet to come.

Each motorist, Schutz said, "must individually assume a greater degree of responsibility to stop traffic accidents now."

# Three Terraces Highlight Split

By ANDY LANG

Provisions for outdoor living are almost a must these days in modern home design.

This is emphasized in G-67, the latest House of the Week designed by architect Herman H. York as an interesting four-bedroom split level with three terraces that are an integral part of the overall design.

ONE OF them, designated as a dining terrace, is open but roofed and is accessible to the regular dining room through sliding glass doors. Directly behind this is an outside terrace connected by door to the kitchen. This terrace is planned for the higher side of the plot, with the land falling away gradually down toward the family room below.

If the land is flat, several masonry steps can be used at the rear of the family room to reach the grade above.

A third terrace is located directly behind the family room. The laundry, lavatory and mud closet are conveniently located near this area. Since many housewives prefer to hang some of their clothes in the sun even when they have dryers, this can be done with privacy when the laundry is placed as it is here.

THE DOUBLE entrance doors of this house are set under a covered portico. There are two clothes closets in the large foyer, which leads to the living room on the left, the family room below or the bedroom section above. The living room and the dining room are separate but in an L relationship.

There is a fireplace at the end of the living room, although this can be omitted if desired, since there is a second fireplace in the family room.

Appliances and cabinets in the kitchen are set in a U arrangement. The kitchen can be entered from the foyer, the dining room or one of the rear terraces and is next to the stairs that lead directly to the family room.

UPSTAIRS there are four bedrooms and two bathrooms. Two walk-in closets are adjacent to the private bathroom of the main bedroom. A double door from the hall to this bedroom lends a touch of elegance.

Moving downstairs again, note that the family room can serve as a complete entertain-

ment center. It has a special recessed area for stereo, record storage and television equipment as well as a game closet.

A two-car garage, with storage space for tools and garden equipment, connects to the service area. Should the plot be of limited size, the garage doors can be placed at the front, although on a corner plot this

## G-67 Statistics

Design G-67 has a living room, dining room, foyer, kitchen, four bedrooms and two baths on the upper levels, with a habitable area of 1,720 square feet.

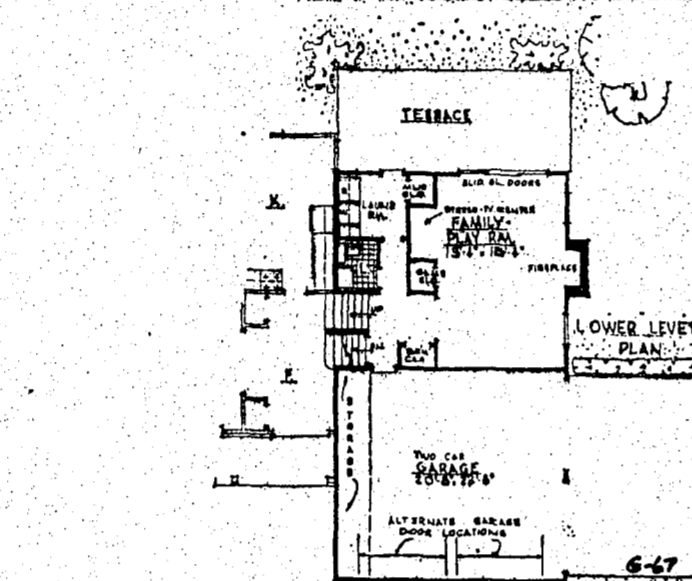

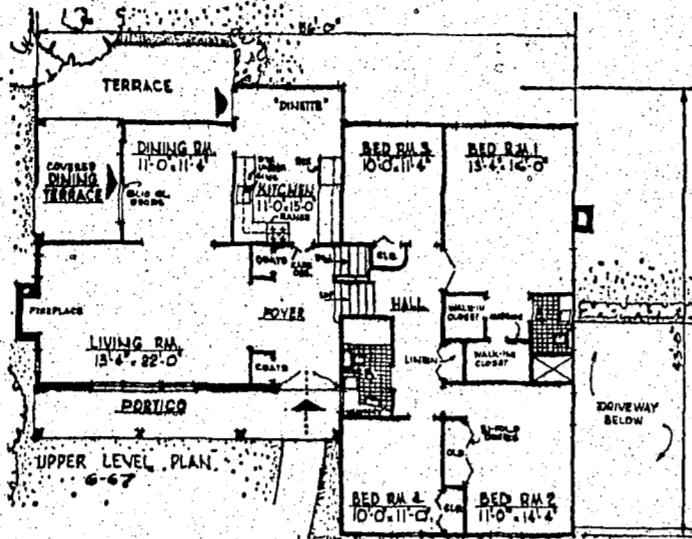

There are 449 square feet of living space on the lower level, with a fireplace family recreation room, laundry room and lavatory. Not included in these figures are three terraces and a two-car garage with a large amount of storage space.

Overall dimensions are 56' by 43' 8".

There are overtones of Early American design in the exterior, one of these being the small-paned double-hung windows. In fact, it is somewhat similar to the type of architecture found in the area of the Potomac River in Colonial Washington.

THE LARGER mass of the house has wood corner boards capped as pilasters, with bev-

Split levels were unknown in the Colonial days, but this one has captured the old-time charm of that era.

## Two Colleges Draw Permits For Remodeling

Permits for interior remodeling at Winona State College and College of Saint Teresa were issued at the city engineer's office last week.

The Winona State permit was for general interior remodeling in Somsen Hall, with much of the work to be done in the business offices.

Cost of the project is estimated at \$49,650 and the contractor is Bruce McNally.

The Teresa remodeling will be done in Cotter Hall, the art building, with cost listed at \$3,000.

Total valuation of permits issued this year is \$10,239,441. At this date a year ago the total was \$7,061,502.

There have been 34 permits for new houses written this year, six more than at this time last year.

## Expect Ruling Wednesday on Allied Cases

MINNEAPOLIS (AP) — District Judge Edward J. Devitt is expected to rule at a hearing Wednesday on change of venue motions for six defendants in the American Allied Insurance Co. case.

The six are scheduled to go on trial Jan. 3, on federal fraud charges growing out of the collapse of the high-risk auto insurance firm in St. Paul.

Several weeks ago, Judge Devitt denied motions by defense attorneys for four defendants that their trial be transferred out of Minnesota. It was claimed a fair trial cannot be obtained in the state because the case received considerable publicity during the past election campaign.

The defendants who will offer new arguments for a change of venue are Philip Kitzer Sr., and Philip Kitzer Jr., both of Chicago, George Hruban, Anoka, and Frank Buffum, New York stock dealer.

The Kitzers and Hruban were officers in the now bankrupt insurance firm.

Cyrus Magnusson and David Kroman, who earlier said they wanted to be tried in Minnesota, recently filed motions asking the trial be moved to another state. Magnusson is on a leave of absence as state insurance commissioner.

Eleven other persons were also indicted by a grand jury, but no trial date has been set for them.

## Lynda May Visit Mexico This Week

AUSTIN, Tex. (AP) — Lynda Bird Johnson is considering a pre-Christmas visit to the Mexican resort city of Acapulco, it was learned today.

The 22-year-old daughter of the President and Mrs. Johnson, if she decides to make the trip, would spend a couple of days in Acapulco later this week.

Lynda spent a brief holiday in Acapulco a year ago with her frequent escort, actor George Hamilton.

## Hussein Fears Russia Out to Grab Mid-East

WASHINGTON (AP) — King Hussein of Jordan said today the Soviet Union has adopted a new policy aimed at gaining control of the Middle East.

"I think the Soviets are prepared to go very far in this matter almost to the point of a confrontation with the free world," he said.

In a copyright interview in

U.S. News & World Report, the king said the Soviet Union wants control of the area's natural resources — particularly petroleum — and of communications routes such as the Suez Canal.

"In addition," he said, "if the Soviets were able to overrun the Arab world they would then have a direct link with Africa, which is also a very interesting target for them."

**Some People Pay For Heat The Same Way They Pay For a Taxi**

50¢ for the first 1/5 mile, 15¢ for each additional 1/5 mile . . . those first few blocks really hurt. But the really maddening part is the fact that the next time you need a ride it starts all over again at 50¢ . . . not 15¢. ☐ It's like that with utility heating bills. ☐ When electric and gas heat customers first turn their heat on, the rate is high. As the month progresses and more heat is used, the rate goes down. As soon as a new month begins . . . zoom . . . there goes the rate, right up to the top again. ☐ Tic, tic, tic, tic, tic. ☐ Heating oil customers pay the same low price per gallon every day of the month . . . and prices are bound to stay low for heating oil because your oil dealer has to compete with others who'd like you as a customer. ☐ The utilities have their profit assured by the state. ☐ In other words, as an Oil heat customer you can't be taken for a ride. You're in the driver's seat.

## Javits Urges Talks Between U.S., Russia

NEW YORK (AP) — Sen. Jacob K. Javits, N.Y., has called for "the most titanic effort" to solve U.S.-Soviet differences because of what he sees as "the new spirit of relaxation between ourselves and the Soviet Union."

The Soviet Union has decisively beaten Communist China for leadership of the Communist nations and this has led to the new spirit, Javits said Sunday.

He said he had information that the Soviet Union is "ready to do business with the United States in every area." He did not say where he got the information.

## Out-of-Court Settlement Seen on Book

NEW YORK (AP) — Spokesmen for two publishers involved in the dispute with the Kennedy family over publication of the book, "The Death of a President," disclosed today that efforts are being made to settle the matter out of court.

The disclosure followed a statement by William Manchester, author of the book, denying that he had broken faith with Mrs. John F. Kennedy or that he had taken advantage of her confidence in him. The book is about the assassination of President Kennedy.

"There are continuing efforts to patch things up," said a spokesman for Harper & Row, Publishers Inc., which plans to bring out the 300,000-word hardcover book in April.

"Every effort will be made to work things out," the spokesman said. "There are always the author's rights and her rights."

Asked if the aim might be to reach some understanding on the separation of deeply personal matter, which Mrs. Kennedy seeks to keep out of the book, from what is considered history, the spokesman replied: "I think that is pretty accurate."

A spokesman for Look magazine, which plans a four-part, 80,000 word serialization of the book starting with the Jan. 10 issue, said:

"Discussions between the lawyers representing the two sides in the dispute are continuing. The New York Times reported that in Washington, Sen. Edward M. Kennedy, D-Mass., brother of the late president, charged that Manchester 'now intends to go ahead in violation of the word of his agreement, the spirit of his arrangements and despite the pain he knows it will give Mrs. Kennedy.'"

In his statement, issued through Look magazine Sunday, Manchester said:

"It has been said that my work is being published prematurely and that magazine serialization was not contemplated by the Kennedy family. This is not so. In the summer of 1966, authorization was given by the family for publication of the book in early 1967, to be preceded by serialization in Look magazine."

"It has been said that I have broken faith with Mrs. Kennedy. That I took advantage of her confidence in me and that I recorded too faithfully her words and emotions. I do not believe this to be so."

"Mrs. Kennedy gave me 10 hours of interviews; I did not, indeed could not, have conducted these interviews without her voluntary cooperation. Mrs. Kennedy herself did not ask to see the manuscript and still hasn't. If she had, I would, of course, have given it to her."

"John Kennedy was my president. To suggest that I would dishonor his memory or my association with him is both cruel and unjust. His standards of excellence have guided me throughout this work."

"I believe John Kennedy, who was himself an historian, would have wanted his countrymen to know the truth of those terrible days, and I have dedicated myself for nearly three years to reliving and reconstructing them so that the truth could be faithfully and accurately recorded."

A hearing on Mrs. Kennedy's suit to block publication is set for Dec. 27. The defendants — Manchester; Harper & Row; and Cowles Communications, Inc., publishers of Look — are scheduled to file written briefs Thursday in reply to the suit.

In her suit, Mrs. Kennedy charged breach of contract, invasion of privacy and infringement of her copyright by unauthorized use of her name in advertisements and promotion.

"However," Manchester said, "in the last analysis, this is my book. Neither Mrs. Kennedy nor any member of the Kennedy family nor anyone else is in any way responsible for my research or the content of my work. It is my responsibility, and I am confident that my book can withstand any objective test—particularly the test of time. I ask only that it be given the chance."

In his statement in Washington, the Times reported, "Sen. Edward Kennedy recalled Sunday that Mr. Manchester had voluntarily signed an agreement promising 'to use the material given him by Mrs. Kennedy

## Planes Back On Hanoi Run

SAIGON, South Vietnam (AP) — U.S. warplanes returned to the Hanoi area with clearing weather over the Red River Valley today and attacked the Ha Gia fuel storage area 14.5 miles north of the North Vietnamese capital, a U.S. spokesman reported.

It was the first air strike around Hanoi since heavy strikes in the area last Tuesday and Wednesday. The U.S. Command said foul weather had forced U.S. air raiders to concentrate on North Vietnam's southern panhandle.

In the new raids in the Hanoi area, a U.S. spokesman in Saigon said, initial pilot reports indicated all the ordnance from the U.S. planes hit in the target area.

The pilots reported sighting Communist MIG jets in the area of the fuel dump, but preliminary reports disclosed no exchange of fire.

The raids last week set off a series of Communist charges that homes were bombed in Hanoi, killing women and children. The United States denied that any bombs fell on the Communist capital. U.S. officials speculated that the Communist ground fire — missiles and anti-aircraft shells — may have fallen on the city. Also there was a possibility U.S. bombs and rockets fell accidentally on nonmilitary targets, as frequently happens in aerial warfare.

There also were 44 for miscellaneous violations such as running a stop light, improper turns and failure to yield.

The patrol, concentrating in 12 areas around the state, stopped a total of 1,599 drivers—some for obvious violations and others on a spot-check basis. The checks were made Friday and Saturday from 5 p.m. to 2 a.m., as part of the patrol's series of weekend attempts to cut down on violators.

## Billie Sol Estes At Sandstone

SANDSTONE, Minn. (AP) — Convicted Texas financier Billie Sol Estes has been transferred to the federal prison at Sandstone to continue his 15-year jail term.

Warden John Norton said Estes was transferred Thursday from Leavenworth federal prison in Kansas, after a decision by the U.S. Bureau of Prisons in Washington.

Estes, 41, was convicted in 1963 of mail fraud and conspiracy. He was charged with selling \$25 million in worthless fertilizer tank mortgages to various finance companies.

Earlier this year Estes was denied a retrial. He began serving the sentence on Feb. 16, 1965. He also received an eight-year Texas sentence for swindling.

The warden said "I'm sure it's just a routine transfer." Norton said such moves were normal for prisoners who indicate they are ready for a "lesser security prison."

Norton described the east-central Minnesota federal prison as a medium security prison. "We'll look upon him the same as anybody else that comes in," Norton said. "I haven't seen him yet."

## 18 Killed in Landing Crash In Colombia

BOGOTA, Colombia (AP) — As "people started to scream and call for their children," a Colombian airliner crashed short of the runway while landing at Bogota in heavy fog Sunday, killing 18 persons and injuring 10.

Aerocomor Air Lines said the crash took the lives of nine Americans from Florida, five Colombians living in the United States and four other Colombians.

The airline said in Miami, Fla., where the flight began, that the Super-Constellation carried 34 passengers and 6 crew.

One survivor, Kay Tuttle, 23, of Crestline, Ohio, said passengers were told as they neared Eldorado Airport that the plane would land despite thickening fog.

She said the plane struck what she believed was dirt and swayed wildly from side to side. "People started to scream and call for their children and

## Gophers Topple Ohio

MINNEAPOLIS (AP) — Consistency is the biggest need of the inexperienced Minnesota basketball team, but Coach John Kundla thinks his Gophers may keep scrapping their way to a lot of surprise victories this season.

The Gophers turned back Ohio University 71-67 Saturday night after a 10-day layoff for quarter examinations.

"We're out of shape after the layoff, but I think we'll bounce back," Kundla said. "I was satisfied with how we played because we were out of condition."

"We showed some real good signs, then we did some things badly. We'd play pretty well at times, then we'd turn right around and throw it away."

"But that's a scrapping bunch of kids. They fight for what they get, and as long as they do that nobody is going to run them off the court."

The most encouraging things for Kundla have been the steadily improving play of sophomore forward Leroy Gardner and guard Rich Miller, a transfer student.

Gardner led the Gopher scoring against Ohio with 20 points, while Miller contributed 12 and played a steady floor game.

"This was Gardner's best game," Kundla said. "He's coming along pretty good. And Miller has come a long way. He's done surprisingly well."

The Gophers, who play Marquette in Milwaukee Tuesday night and then take a week's break for Christmas before heading west to play in the Far West Classic tournament at Portland, Ore., were hot and cold against Ohio U.

Minnesota ran up a 12-1 lead in the first 5½ minutes as Ohio started slowly. The Gophers had a 41-31 halftime margin, and widened it to 52-39 early in the second half.

## MEISNER PLEASES CLOQUET FANS

# New Scoring Mark As Warriors Triumph Ashland

CLOQUET, Minn. — Dave Meisner and the Winona State basketball team showed Cloquet fans that they play a pretty good brand of basketball in southern Minnesota Saturday night, shellacking Northland College of Ashland, Wis., 118-71 for the Warriors seventh straight victory.

The occasion was "Dave Meisner Night" in Cloquet, the place where Winona State's sterling 5-8 guard played his high school basketball. And Cloquet responded with an over-flowing crowd in the Cloquet High School gym and a special halftime ceremony for Meisner.

All of Meisner's former teammates and coaches who were part of the Cloquet state tournaments teams of 1962 and 1963 were present for the halftime presentation.

Meisner responded by showing his home town folks why he is a potential All-American candidate with an "average" night. Meisner poured in 30 points to lead the Winona rout.

The triumph pushed Winona's season record to 7-1 with the victory, matching the total number of triumphs the Warriors have had in each of the

last two years. The 118 points was also a school scoring record, breaking the mark of 114 set earlier this season in a 114-104 overtime triumph against Upper Iowa.

Winona took 97 shots in the game, getting numerous second and third attempts, and hit 44 of them for 45 percent. Northland hit only 31 percent of its shots and was forced into 24 turnovers by the sticky Winona defense.

"Our defense looked real good early in the game," said Warrior coach Ron Ekker. "But after we got the big lead, we eased up." A good majority of the credit for the defensive work went once again to Rick Starzecki who was assigned to Northland's leading scorer, Jim Hanrahan, and held him to only two field goals and eight points.

THE WARRIORS jumped off to an immediate lead and had a 54-30 bulge at halftime that was never threatened. Winona had a 42-29 edge in the rebound department against the shorter Northland team with 6-6 Mike Jersek getting 11 of the caroms.

Twelve Winona players scored in the contest and only Rich Decker, still suffering from a broken nose, did not see action. Winona's finishing lineup had Chip Schwartz at center, Larry Stevens and Marv Berg at guards and Tom Neumann and Brian Espe at forwards.

"They did an outstanding job," said Ekker of his "shock troops." "Our bench has done an outstanding job for us all year. Schwartz played half the game at Platteville and did a fine job, and Espe played a good deal at Upper Iowa. (Mike) DeWyre hasn't played much lately either. But it's just a case of where we need different types of players at different times and we have enough versatility to that we have players to fit each need. Our bench has won a few games for us and most people don't realize that."

ESPE GOT 12 points and DeWyre 14 as the two junior college transfers were given a chance to display their talents. Jersek finished with 11, while Tim Anderson, playing another in an ever more plentiful string of outstanding games, netted 20.

Jerry Biennen, a reserve center, led Northland with 21. Gordy Lundquist added 14.

Winona State is now off until hosting a holiday tournament Dec. 25-30. On the 29th the Warriors will take on Carleton, while Beloit meets Carroll College in the opener of the first evening.

## HOUSTON-PETERSON TUESDAY NITE

# Fairchild Stands In Rivermen Path

"It isn't like last year when we could roll up a big first quarter lead and then coast the rest of the way. This year we've got to work for this."

That was the comment of Alma High School basketball coach Greg Green after his

team had collected its sixth straight victory of the season and 50th straight regular season triumph Friday night.

TONIGHT, Green's Rivermen, the No. 1 ranked small school in Wisconsin, will face

their stiffest test to date when they travel to Fairchild to take on the Purple Dragons in a West Central Conference game.

Fairchild, 4-2 this season after losing to Arkansas Friday night, was the last team to defeat Alma during the regular season way back on Jan. 17, 1964. In that game, Fairchild used an unbelievable fourth quarter rally to nip the Rivermen 72-68.

Fairchild has a balanced attack, led by 6-5 Randy Abrahamson, and his 6-3 cousin, Dennis Abrahamson. Rick Frueth, Stan Shipler, Bob Kreuger, Don Olsen and Ron Duerkop are also averaging in or near double figures.

ALMA, which started out as a two-man team in the persons of Bob Parker and Curt Youngbauer, has developed some balance in recent games. Parker and Youngbauer are both still averaging 20 points-per-game, but Green has fashioned some added punch in Tom Bauch and Terry Bright.

Tuesday night, a rugged Root River Conference test is slated for Peterson. The Petes, led by 5-8 guard Wayne Haslelet, have compiled a 4-1 record this season and are 2-0 in the Root River. The Tigers only loss has been a 57-48 setback to Harmon.

Houston, on the other hand, is unbeaten. The Hurricanes are also 2-0 in the conference and 4-0 over-all. Steve Botcher and Terry Rosendahl are Houston's leading scorers.

THE GAME is expected to be a battle between Haslelet's offensive punch and the defense of Houston's 5-6 guard Marlin Carrier.

Meanwhile, also on Tuesday night, the Root River's leader, Rushford, with a 3-0 mark, is at Caledonia.

# Hayfield Wins Sixth in Row

WASIOJA					
	W	L		W	L
Hayfield	4	0	Wanamingo	3	3
West Concord	4	1	Pine Island	3	3
Byron	3	3	Dodge Center	1	4
Claremont	3	3	Dover-Eyota	0	4

The front-runners pulled farther away from the pack, while the middle ended up in a four-way jumble after a full round

of Saturday games in the Wasioja Conference. Hayfield won its sixth straight by blitzing Claremont 86-57, while West Concord remained one step behind with a 44-37 victory over Byron. Wanamingo defeated Dodge Center 69-52, and Pine Island downed Dover-Eyota 67-54 to pull into that four-way tie for third.

HAYFIELD 86 CLAREMONT 57

Big Mark Fredrickson poured in 30 points and hauled down 16 rebounds to lead Hayfield to an easy 86-57 rout of Claremont Saturday night.

Backing up Fredrickson was Steve Arendts with 12 points in the balanced Vikings barrage. Gary Fritz did yeoman work on the boards with 11 rebounds.

Jerry Warner hit 13 points and was credited with a fine defensive game for Claremont. Yankowiak and Busch hit 12 apiece.

PINE ISLAND 67 DOVER-EYOTA 54

Dover-Eyota managed only 13 points in the first half and that spelled doom for the Eagles as they dropped a 67-54 decision to Pine Island, their seventh straight loss this season.

Dover-Eyota never could overcome the 32-13 halftime lead built up by the Islanders, although the Eagles did score 41 points in the final 16 minutes.

Darwin Johnson, Denny Scripture and Darrell Richardson had 13 each for Dover-Eyota. Don Millering netted 19 and controlled the boards for Pine Island.

Dover-Eyota won the B game 29-28 in overtime.

WANAMINGO 69 DODGE CENTER 52

Guards Grant Hoven and Bob Otto turned it on in the third quarter as Wanamingo raced away from Dodge Center to record a 69-52 victory.

Otto finished with 25 points and Hoven 18 as the Bulldogs broke loose from a 20-26 halftime lead to stretch it to 50-36 at the end of three quarters.

Don Tangen added 14 for Wanamingo. Ed Dvorak bagged 17 and Fred Kreager 16 for Dodge Center.

WEST CONCORD 44 BYRON 37

West Concord mastered Byron's deliberate type of basketball and beat the Bears at their own game Saturday night, 44-37.

West Concord held quarter leads of 9-7, 20-18 and 33-30 before breaking away in the last quarter. Leading scorer Dan Hutton was held to seven points, but Chuck Andrews got 10 to lead West Concord's balanced attack.

Merlin Cordes hit 10 for Byron.

## SAYERS HAS A FIELD DAY

# Dutch Sees Silver Lining in Defeat

CHICAGO (AP) — It was glory day for galloping Gale Sayers and the Chicago Bears Sunday, but Minnesota Vikings Coach Norm Van Brocklin wasn't down in the dumps in the locker room.

He saw some silver linings in spite of the 41-28 defeat which left the Vikings in a last place tie in the Western Division of the National Football League with a 4-9-1 final record.

"We got good blocking and running. We controlled the ball (83 plays to 49 for the Bears)," he pointed out.

"When we go to the training camp in 1967, we've got to pick it up from here."

And one of those the Dutchman is counting on to "pick it up" is young Dave Osborn, who fought for 118 yards in 19 carries and a 6.2 average. The ex-University of North Dakota star who rounded out his second year in the NFL also caught three passes for 56 yards.

When asked if Osborn was the answer to the squad's halfback problem, Van Brocklin replied, "It sure looks like he's arrived. He's got a lot of hustle and tremendous drive. Did you see how he broke those tackles?"

But the coach also reflected Minnesota could use a break-away runner like Sayers, the Bears flash who streaked for 197 yards in 17 attempts from scrimmage, or an average of better than a first down each time.

"He's by far the best offensive man in pro football," said Van Brocklin of Sayers, who wrapped up the league rushing crown with 1,231 yards.

The Bears star loosed his lightning on the first play of the game, taking the Vikings kickoff for a zig-zag 90-yard touchdown run.

That signaled a game of offensive power that saw the Vikings roll up an impressive margin of 400 to 380 in total yards: 29 to 14 in first downs and 17 of 36 passes completed compared with only three of 12 for Chicago.

But Sayers was always ready when Chicago needed the extra yardage and he piled up a phenomenal 339 yards in rushing, pass receiving and kickoff returns.

Pine fumbles didn't help the Vikings any, and two were lost to the Bears.

Minnesota matched Chicago

in scores in the first period as the teams rolled up a 14-14 tie. After Sayers' 90-yard gallop, the Vikings drove 67 yards in eight plays following the kickoff, with the TD coming on Fran Tarkenton's 11-yard pass to Tom Hall.

The Bears drove back but Minnesota forced a punt. Jeff Williams fumbled it trying for a fair catch and Chicago recovered on the Viking 48. They quickly drove to pay dirt, with Sayers scoring on a three-yard burst.

A 65-yard march by Minnesota culminating in Tarkenton's 15-yard dash tied it at 14-14. But Chicago rolled up its biggest quarter margin with 17 points to take a 31-17 margin into the dressing room at half time. The surge included an 80-yard scoring pass, Rudy Bukich to Jimmy Jones.

Tarkenton's two scoring passes, six yards to Preston Carpenter and three yards to Osborn, boosted the Vikings to only a 31-28 deficit before Chicago rallied for 10 more points.

Tarkenton's 17 pass completions gave him 192 for the season.

Some more of the silver lining

that Van Brocklin could see was "our offense in this game and our defense throughout the season. We found out we got some football players in guys like (rookies) Don Hansen, Jim Velone and Doug Davis."

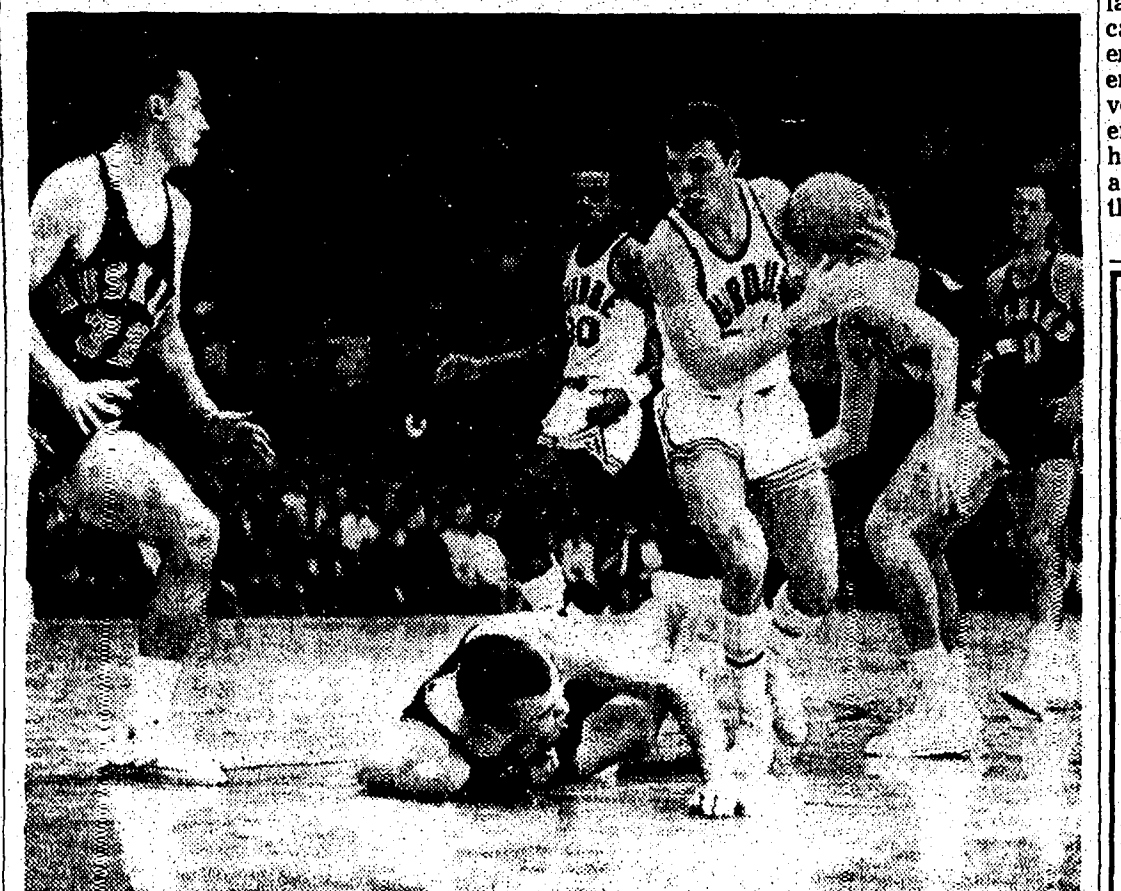

The coach added, "It was our first bad defensive game. And our only one."

As for Osborn, the 210-pound back said he likes both to run and catch passes—although he didn't get much practice at the latter in college games. "If we throw five passes then, it was a record," he joshed.

"After hearing so much about having had hands, I get a little extra kick out of each catch. Actually, I didn't think I had had hands."

He said he'll have more confidence about making a starting berth next July in practice. But he knows it will take some hard work. "And I can't expect to be No. 1 just by showing up."

Even if Tommy Mason's all-lingering knee does heat up enough for the tough grind of NFL play, the erstwhile Vikings sprinter may find the driving play of the youthful Osborn a hard challenge.

Entry blanks are now available for the Minnesota State Men's Bowling Tournament, slated for Harkins Palace, St. Paul, March 4 through April 23. Entries close at midnight Feb. 6.

Entry blanks may be obtained at any of the local bowling establishments, according to Winona Bowling Association secretary, Clarence Bell.

Bell has reserved April 1 and 2 for Winona delegation. Shifts reserved for teams, singles and doubles, are:

April 1 — 6:30 p.m. 10 teams; 9 p.m. 10 teams.

April 2 — 9 a.m. 22 doubles, 44 singles; 11 a.m. 8 doubles, 16 singles; 1 p.m. 24 doubles, 48 singles.

Deadline for reserved entries is Jan. 22.

PERSONS wishing to bowl with the Winona delegation should contact Bell. Fourteen teams from the city competed in the state tournament at Duluth last year.

## Red Men Club Wins Third Over Peerless

BANTAM BASKETBALL LEAGUE

A big fourth quarter gave the Red Men Club its third straight win of the early season and hold on first place in the Bantam cage standings. The Red Men clipped Peerless Chain 42-16 Saturday.

High scorer for the Red Men was Bob Browne with 17. He was followed by Dave Donahue with 12 and Peerless Chain's Dave Wiltgen with six.

Bob Lee continued his high scoring ways as Central Methodist whipped Sunbeam Bread 30-22 in the other Bantam game played Saturday. Lee swished 21 for the winners.

Mike Renswick was high point scorer for Sunbeam with 10.

Central Methodist is now 2-0 and Sunbeam 1-2 in league play.

# Hawks Grab Mat Crowns

Winona High's wrestling squad suffered its third setback in Big Nine Conference competition Friday at the hands of a strong Austin unit, 25-16. The Hawks' junior varsity also lost in the meet at Austin by a margin of 35-8.

In an Invitational Meet held at Rochester John Marshall High School Saturday, Winona placed second to Rochester Mayo on the basis of the number of individual championships. Mayo had four individual winners and the Winhawks had two. Rick Pomeroy at 95 pounds

and Ron Fugelstad in the 145 pound division. Fugelstad, a senior for Winona, who also starred in football this past season, remained undefeated by pinning his Austin opponent Friday and deciding all three of his foes in the John Marshall Invitational. Pomeroy won his three matches at Rochester allowing only one point to be scored against him. The Winhawk's 154-pound representative, Dick Henderson, injured his knee in the second round of the invitational and was forced to forfeit the match. Winona is now 0-3 in the conference after the loss to the Packer matmen.

**Bloody Brawl Mars Games**

BANGKOK (AP) — Marred by a bloody basketball brawl, the fifth Asian Games reached its final full day of competition today.

The 12-day regional Olympics conclude Tuesday with several cycling and tennis finals in the morning and a soccer final between Iran and Burma during the afternoon closing ceremony.

Japan, established as Asia's sporting giant, has already collected 70 gold medals. It has won at least one gold in all of the 11 sports in which there have been finals.

The basketball brawl, which erupted Saturday night during a match between South Korea and Thailand, was settled Sunday when the Asian Games Jury decided to award the match to Thailand. The decision advanced Thailand into today's finals against Israel.

Thailand was leading South Korea 67-52 with less than five minutes of play left when two players — one from each team — exchanged blows after jumping for a rebound. The exchange touched off a free-for-all between the two teams during which two Korean players and two Korean spectators were injured before riot police restored order. The two players who touched off the brawl were suspended by the jury from further participation in the current games.

Phi Delta Theta, a national college fraternity that Gehrig joined while a university student, established the award.

Robinson was chosen the most valuable player in the American League in 1964. This year he was beaten only by teammate Frank Robinson in the MVP balloting.

"Brooks Robinson is not only a great infielder and a dangerous hitter," said Skinner, but he also "possesses a superb competitive spirit, exceptional physical durability, and personal qualities that make him an exceptional credit to his team and to the game of baseball."

# Sophs Nip Robins In 44-42 Tilt

Coach Jim Elliott's Winhawk sophomores nipped Robbinsdale 44-42 in a thriller here Saturday. The game was the first of two real treats for basketball fans that turned out at Winona High gym.

Free throws made the difference, with each team scoring 16 field goals. However, it was the Little Hawks with 12 from the charity stripe to 10 for their counterparts.

Elliott was especially happy with the performance of his lads, since he was limited to using a part of them in the first and third periods only.

# Gopher Six Plays in New York

The Minnesota Gopher hockey squad, 7-1 conquerors of Wisconsin Saturday night, move into eastern tournament competition tonight at New York's Madison Square Garden.

The Gophers, with a wobbly 2-4 showing in season's play, meet Boston University, which ripped Princeton 13-6 in the opening game of the Eastern College Athletic Conference Holiday Hockey Festival Saturday.

The Bostonians set a tourney record with that showing and upped their record to 7-1.

In Saturday night's game at Madison, Wis., Jack Dale scored two goals and had a pair of assists for the Gophers. The Gophers built up a 6-0 lead by the third period before the Badgers connected for their only score in 27 shots.

Minnesota goalie Pete Rusopolos made 26 saves while Wisconsin goalie Gary Johnson had 38 saves.

At Duluth, Brown University and Minnesota — Duluth square off in another hockey game tonight after the Bulldogs put a 9-4 bite on the easterners Saturday.

Pat Francisco slammed home four goals and Keith Christiansen scored one and had four assists to lead Duluth. Both teams are 2-4 in season play.

In other ECAC tourney action Saturday, Cornell edged Michigan State of the Western Collegiate loop, 3-2.

# Marshfield Bees Defeat Cotter 49-44

MARSHFIELD, Wis. — Cotter's B squad suffered its second loss in seven starts Saturday night, tumbling to the Marshfield Columbus Bees 49-44.

Marshfield's forward Ken Haselberger poured in 17 points to spark the Columbus victory.

Cotter jumped to an 11-7 first quarter lead, but then found itself trailing 20-18 at the half and never caught up as the effects of a hard fought victory over Rochester Lourdes Friday night showed in the second half.

Mike Conway hit 15 and Tom Riska 13 to pace the Ramblers.

# Arcadia Country Club Held Annual Meeting Saturday

ARCADIA, Wis. (Special) — Lyman Maloney and Donovan Berzinski were re-elected to the board of directors of Arcadia Country Club, Inc., at the annual meeting Saturday. Hold-over directors are Howard Reedy, Robert Gamoke and John C. Sobotta.

Maloney was elected president succeeding Reedy; Gamoke was chosen vice president succeeding Berzinski, and Sobotta was re-elected secretary-treasurer. Berzinski was appointed to the grounds committee and Reedy to the tournaments and membership committee.

A membership drive will be conducted after the first of the year. Landscaping around the new clubhouse and erection of a sign were discussed as projects for the coming year.

# 8 Teen-Age Girls Dead in 2 Accidents

Eight teen-age girls died within 48 hours in two traffic accidents which only 40 miles apart in south-central South Dakota.

Four Chamberlain, S.D., girls on their way to a Saturday night dance were killed when their car slammed into the rear of a cattle truck 1½ miles south of Chamberlain.

The Highway Patrol said the cattle truck, driven by George Tuttle, 60, Platte, S.D., had stopped to let oncoming traffic pass before making a left turn into a vehicle weighing station.

Killed were sisters Patricia, 15, and LaVeta Rohrbauk, 16, Barbara J. Kathman, 17, and Elaine Kostelecky, 18. The truck driver escaped injury.

The crash occurred on a fairly level stretch of road. The girls were on their way to a dance at Kimball, about 30 miles east of Chamberlain.

Meanwhile, funeral services were scheduled today for three of the victims of a car-truck crash near Plankinton Thursday night which killed five persons.

A double service was to be held at Plankinton's St. John's Catholic Church for Mary Collette Mayclin, 17, and Karen Ann, Justman, 15.

The service for Hollie Jensen, 16, will be Tuesday at the Methodist Church at Plankinton.

The body of the fifth victim, Gary Heringer, 20, was taken to his hometown of Minot, N.D.

# FBI Men Hit In Kennedy Book, Claim

NEW YORK (AP) — The New York Times said today William Manchester's book on President John F. Kennedy's assassination cites many instances of alleged neglect or incompetence by the FBI, Secret Service and Dallas police.

The Times quotes an unnamed publishing source who has read the manuscript as saying the book, "The Death of a President," cites the names of federal agents and local police and "has the quotes to back it up."

The source is quoted by the Times as saying that the book "shows that the FBI men were too busy looking for places in the parade" to provide proper protection to the president on Nov. 22, 1963.

The Times says the book is also reported to describe in detail the friction between the Kennedy family and President Johnson in the days following the assassination.

One dispute centered around the use of office space in the White House, the source is quoted as saying, and another over the date of President Johnson's address to a joint session of Congress.

# Workout for The Sun Bowl

EL PASO, Tex. (AP) — Wyoming and Florida State planned their only public workout in El Paso today for the Sun Bowl football clash on Saturday.

Conches Lloyd Eaton of Wyoming and Bill Peterson of Florida State said the rest of the drills this week will be closed to everyone except newsmen.

# Code for Bank, Savings & Loan Ads Explained

WASHINGTON (AP) — The Federal government has clamped advertising standards on banks and savings and loan associations to bar what it called "misleading claims on rates of interest paid depositors."

The Federal Reserve Board today described the standards as voluntary but it noted in a letter to state banks which are members of the system that deposit accounts are subject to the antifraud provisions of federal securities law.

Similar letters were sent to banks and savings and loan associations under their jurisdiction by the comptroller of the currency, the Federal Deposit Insurance Corp., and the Federal Home Loan Bank Board.

The agencies said they regard the four standards they outlined as minimum principles to be followed in advertising for savings.

The standards are:  
1. Interest and dividend rates should be stated in terms of annual rates of simple interest with the advertisement listing the basis for compounding. Neither the total percentage return, if held to maturity, nor the average annual rate achieved through compounding should be given unless the simple annual rate is equally prominent.

2. No reference should be made to profit to the investor for use of his money over a specific period of time.

3. If the advertised rate is payable only on deposits of a time period or fixed amount, this should be stated in the ad.

4. No statement should be made implying that more than \$15,000 in federal insurance is provided for each depositor.

In his letter to state banks which are members of the Federal Reserve System, Vice Chairman J. L. Robertson said intense competition for savings has prompted "a few institutions" to use advertising practices which could be detrimental to the public and the financial system.

# 16,000 New Cars Checked

DETROIT (AP) — More than 16,000 new cars in three Pontiac lines are being checked for possible misaligned steering shafts, the General Motors Pontiac Division announced today.

Misalignment could cause abnormal stress on the steering shaft, causing it to break if the stress continued over a long period of time, the announcement said.

The division said it was notifying owners of 1967 model Tempest, LeMans and GTO automobiles produced before Oct. 18 at the division's home assembly plant to return the vehicles to dealers for inspection.

The number of cars involved, including those still in dealer inventory, is 16,245, Pontiac said.

The misalignment in some of the cars came about in the assembly line process, which was changed in mid-October, the division said.

The announcement marked the first GM division recall of 1967 model cars. The nation's other three auto makers have already announced recalls to correct suspected flaws in 1967 cars.

# New Red Guard Posters Up In Peking

BEIJING, Peking (AP) — New Red Guard posters appearing in Peking today attacked Lu Ning-yi, President of the Chinese Trade Union Federation, the Yugoslav news agency, Tanjug reported from the Communist Chinese capital.

The posters, which criticized a number of high officials, condemned a speech Lu made Nov. 25. Tanjug said it was believed the Red Guards opposed his statement that workers should more or less stay out of China's cultural revolution.

New posters distributed by the Chinese Communist party's Central Committee said that, except in special cases requiring them to be excused, workers should carry on revolutionary activities after their regular eight-hour shifts.
