Viet Cong Ring Government of South Vietnam

Say Progress At Talks Now Is Impossible

WASHINGTON (AP) — The United States appealed last night to the Viet Cong's leader in Saigon, Mr. Thieu, and to the government's Chairman, Mr. Duong Van Minh, to "come to grips" with both problems of a national conference and the South Vietnamese government's policy of talks with communists. The appeal was the result of a long session today in which top officials from both sides discussed the problems of a national conference and the government's policy of talks with communists.

"There is no longer any reason to engage in a national conference," said Mr. Thieu, who was speaking from his headquarters in Saigon. "We believe that the only solution for a peaceful resolution of our problems is a strong and united Vietnamese government." Mr. Duong added that the government was willing to negotiate with the Viet Cong, but that the talks could not proceed until the government's influence in the country was recognized.

Steve and Eydie GRateful To TV

By CYNTHIA LOWRY

NEW YORK (AP) — Stars Eydie Gorme and Steve Lawrence, known for their television hit, "The Steve and Eydie show," are grateful to their TV success.

"It's been a wonderful experience," Eydie said. "It's been wonderful to be with these people, to work with them and to be part of something that's been so successful.

"I'm grateful for the opportunity to share our lives with the audience," Steve added. "It's been a wonderful experience for us."

Lawmakers Now Will Draw $42,500 Yearly

WASHINGTON (AP) — The congressional pay boost that passed in late April will provide a $30,000 yearly salary for the House of Representatives. The current salary for office expenses and for the personal offices of the House. Congressmen are required to pay about 1% of their gross income in personal expenses. Some of the other fringe benefits that are added to the personal offices are:

- Free mailing privileges for personal mail.
- Travel expenses for at least one round trip per year.
- Free telephone service for personal use.
- Group life insurance and retirement plans automatically go into effect.

The only fringe benefit affected by the change are pensions. It promised it would consider any changes in the personal offices. It is clear that the personal offices would be more efficient and convenient for members of Congress since a similar, resolution, 47 to 34.

For the increases without further debate, a 20% salary increase was voted in 1964. It is the second raise of the year for the farmers. The increase will go in effect on July 1 to reply to other members. It provided it would also consider the possibility of a complete ban.

Renshaw (D-N.J.) contended—since the U.S. Surgeon General claimed such a ban would cause about 50,000 lives each year and billions of dollars in medical costs, that might cause to reconsider a national ban.

The House Rules Committee is on a 10-day vacation. The Senate is on a complete ban for television commercials — a long-time crusader who said a ban would be arbitrary and Example is on a complete ban.

Paul W. Johnson, publisher of the Portland Daily News, has announced the purchase of the Portland Oregonian, the city's largest newspaper, from the Portland Press Herald Publishing Co.

The deal, which was announced late Wednesday, gives Johnson control of the two daily newspapers in the city. The terms of the sale were not disclosed.

The Oregonian has a circulation of about 30,000 and is the dominant newspaper in the city. The Press Herald has a circulation of about 20,000.

Johnson, who is also the owner of the Portland Press Herald, said the acquisition of the Oregonian will allow him to combine the two papers and create a single, more powerful newspaper.

The Oregonian is the oldest daily newspaper in the United States, having been founded in 1850.

The sale is expected to be completed within the next few weeks, and Johnson said he will begin work on the integration of the two papers immediately.

The Oregonian will continue to operate as a separate entity, with its own editorial board and management team.

The Press Herald Publishing Co., which has owned the Oregonian since 1929, has been in financial difficulty for several years and has been seeking a buyer for the newspaper.

Johnson, who is also the owner of the Portland Press Herald, said the acquisition of the Oregonian will allow him to combine the two papers and create a single, more powerful newspaper.

The Oregonian is the oldest daily newspaper in the United States, having been founded in 1850.

Apple Marketing

Order Proposed

MADISON, Wis. - Wisconsin Secretary of Agriculture D.L. Majerus said on Tuesday that a proposed bill for the 1969 session of the legislature would provide for the individualization of apple growers. The bill, which is being drafted by a committee of the Wisconsin Department of Agri-

ory, would provide for the establishment of a separate organization for each grower, with the individual grower's name and address appearing on all sales and shipping documents. The bill would also provide for the appointment of an individual grower's representative to the Apple Marketing Board, which would have the authority to negotiate prices with the growers.

The bill was introduced to provide growers with greater flexibility in marketing their apples and to ensure that each grower's interest is represented.
