What Fascinates Teen-agers About Drugs and Narcotics?

By ALTON BLAKESLEE

Associated Press science writer

Teen-agers are a curious lot. And for good reason. Drug use among American youth is on the rise, and it's a problem. But why do so many of them bother? What fascinates them about the temptations of drug use?

Drug use among young people is a major concern. It's a problem that affects not only the individuals who use drugs, but also their families, their schools, and even their communities. And it's a problem that's getting worse.

Teen-agers are drawn to drugs for a variety of reasons. Many are looking for an escape from the pressures of daily life. Others are searching for a sense of identity or belonging. And still others are simply curious about what all the excitement is about.

Drug use among young people is a complex issue. It's one that requires a multi-faceted approach, including education, prevention, and treatment. And it's one that requires the support of all members of society.

The key to reducing drug use among young people is to provide them with the information and resources they need to make informed decisions. By doing so, we can help prevent the next generation from becoming the next generation of drug users.
Racing Charge Dismissed for Lack of Evidence

ALMA, Wis. (Special) — The case was dismissed in the Sheboygan County Circuit Court today after Joseph L. Bullock, D-4, of Alma, who was charged with using a racing horse to race illegally, pleaded guilty to the charge.

The case was dismissed because the prosecution failed to prove that Bullock was the owner of the horse.

The prosecution had alleged that Bullock had owned and raced a horse in violation of state law.

Bullock was arrested on November 22 and was scheduled for trial on March 22.

The case was dismissed after the defense presented evidence that Bullock was not the owner of the horse.

The defense argued that Bullock was not the owner of the horse and that the horse was not being raced illegally.

The prosecution had alleged that Bullock was the owner of the horse and that the horse was being raced illegally.

**Gwen Verdon Captures Canary**

By KARL WILSON

NEW YORK — Gwen Verdon was not on her prettiest terms on Coast Book West when they gave her a candy apple. The chemically doped sugar doped into the kid's candy doesn't influence her and, of course, they all thought it would be a little bit funny. She says, "It's sort of like being born in a circus and growing up in the circus, and then you can make a career in the circus."

"I'm a French dancer, and I'm very happy about it. The nimble-legged dancing star danced into the kitchen, danced out brandishing a sieve, and captured the canary (doing some sort of entrecote at the same moment)."

"I intend to keep the canary and swear not to look at it more than once a week."

Gwen is not full of corn. She got shooting at weddings and in the circus. In a sense, she's been shooting for sixty years. She can't think of anything that she has ever been interested in except dancing."

Gwen was born in 1913, in the Lower East Side of New York City. Her parents were from France, and they were Jewish. She attended school in New York City, and she was a good student. She was also a good dancer, and she started dancing at an early age.

Gwen's parents were both professional dancers, and they were very proud of her. They encouraged her to pursue her dream of becoming a dancer. When she was thirteen, she performed in her first professional show, and she was an instant hit.

In 1931, Gwen starred in the Broadway musical "The Ziegfeld Follies," and she was a sensation. She continued to perform in Broadway shows, and she was known for her agile and athletic dancing style. She was also a great actress, and she was often called upon to play leading roles in musicals.

In 1947, Gwen starred in the film "Anchors Aweigh," and she was nominated for an Academy Award for Best Actress. She went on to star in many other films, including "Separate Tables," "The Unsinkable Molly Brown," and "Gypsy.

Gwen Verdon was married to the actor and choreographer Michael Kidd, and they had two children. She was a devoted wife and mother, and she was known for her dedication to her family.

Gwen Verdon passed away in 2000, but her legacy lives on. She was a true icon of the American theater, and she will be remembered for her timeless performances and her enduring contributions to the world of dance and theater.
Reorganization Doing the Job In Wisconsin

Madison, Wisc. — A sweeping reorganization of Wisconsin government appears to be simplifying problem-solving in state agencies.

"We don't really have any knack for making the changes here," said Vice President Steven Boyle, an aide to Governor Warren P. Knowles.

The change was initiated nearly two years ago. It reorganized state agencies into 14 major departments and independent boards.

The master plan was prepared by a special task force headed by retired Neenah industrialist William Kellett. The state was faced with severe problems in the Legislative Reorganization Committee.

The task force recommended that the state be governed by a single office, the Department of Administration.

The master plan was prepared by the Joint Finance Committee, which included the administrative services and the Department of Industry and Social Services, and exempted banks and savings institutions from a new Department of Regulation and Licensing.

Among major changes in government was the abolition of the Turnpike Commission and the Wisconsin-Federal Surplus Property Development Commission.

The Highway Commission, Motor Vehicle Department and Aeronautics Commission were merged into a new Department of Transportation.

The Department of Regulation and Licensing combined 13 occupational licensing boards.

Wayne McGown, secretary of the Department of Administration, said the realignment of state agencies has made it much easier for the governor to "keep on top" of state programs.

"We don't really know how much money the changes have saved, but there's no doubt that it's easier to deal with problems and to know who is responsible for what," said Boyle Boyle, an aide to Governor Warren P. Knowles.

TODAY IN NATIONAL AFFAIRS

Court Fosters Monopoly Plan

By DAVID LAWRENCE

WASHINGTON — The Supreme Court of the United States has just prohibited a series of deals in order to prevent the coming into being of a new and powerful monopoly in the nation's political life. The deals, which have been under investigation by the Justice Department for some time, involved the consolidation of the majority of the nation's newspapers into a single entity controlled by the owner of the New York Times Company.

The key to the case is the so-called "merger" arrangement, under which the owner of the New York Times Company would acquire control of all the papers in a given area. The arrangement would allow the owner to control the news and editorial content of the papers, and to use them as a vehicle for his political and economic aims.

The Supreme Court's decision is expected to have far-reaching implications for the future of journalism in the United States. It will undoubtedly make it more difficult for new companies to enter the newspaper business, and will provide a powerful incentive for existing newspapers to resist mergers and acquisitions.

A new era of journalism has just begun. The era of the "-owned" newspaper is over. The era of a truly independent press is just beginning.

WHAT THE PUBLIC GENERALLY IS TOLD IS TRUE. IT IS WHAT THE PUBLIC一般所说的才是真实的。它是公众一般所认为的。
Dear Abby

DEAR ABBY: You can set me down. Why did you have to give your advice when mine was obviously better? In any case, you should be viewed with suspicion since you are female and have no expertise in this area.

DEAR ABBY: I am a defensive attorney with a reputation for being a tough negotiator. I have represented two clients in similar cases and have successfully obtained favorable outcomes for both.

DEAR ABBY: I have a friend who is a professional athlete. He recently underwent surgery and is currently recovering. Can you provide any advice on how to support him during his recovery?

DEAR ABBY: I have a question about a recent trend in social media. Many people are sharing videos and photos of themselves on location that are dangerous or illegal. What do you think about this practice?

Voice of the Outdoors

Dear Abby,

I am writing to express my concern about the growing trend of risky behavior in outdoor activities. As an experienced hiker and outdoor enthusiast, I have witnessed firsthand the consequences of such behavior.

I am particularly disturbed by the increasing number of accidents and fatalities related to extreme sports and activities. These incidents not only put the lives of the individuals involved at risk, but also have a significant impact on emergency services and the environment.

I urge everyone to consider the potential consequences of their actions and to prioritize safety. Let us work together to protect the outdoors and ensure the well-being of those who enjoy it.

Sincerely,

[Your Name]

Dear Abby,

I have been thinking a lot about the future of our country. With so much uncertainty, it is hard to imagine what the next few years will bring. I have some ideas that I would like to share with you.

First, I believe that we need to invest more in education and healthcare. These are the foundations of a strong society, and we must ensure that everyone has access to them.

Second, I am concerned about the environment. We must take action to combat climate change and protect our natural resources.

Finally, I think that we should work towards greater social and economic equality. It is my hope that we can create a more just and fair society for all.

I would love to hear your thoughts on these issues. Thank you for your time.

Sincerely,

[Your Name]

Gov. Knowles Set For Cochrane-FC Recognition Event

COCHRANE, Wis. — Gov. Tommy Thompson's call to the military, "We're going to win," was echoed in the Cochranes, Wisconsin, area today when Governor Knowles was presented with the Frederick C. Koch Award, given to a Wisconsin farmer who excels in the fields of wheat, livestock, and crop production.

Thompson, who was accompanied by the First Lady, Mrs. Susan Thompson, and the First Daughter, Lesley Thompson, described the award as being "a fitting tribute to the hard work and dedication that Wisconsin farmers have contributed to the state and the nation.

The award, which is given by the National Farmers Union, recognizes the outstanding contributions made by the state's farmers to the economy and quality of life for all Americans.

Thompson praised Knowles for his "exceptional service to the American people and the state of Wisconsin.

Knowles, who has been actively involved in the agricultural community since the 1960s, is a member of the National Farmers Union and serves on its board of directors. He is also a member of the Wisconsin Farm Bureau and the Wisconsin Cattlemen's Association.

In addition to his work in the agricultural sector, Knowles has served in various capacities in the military, including as a member of the Wisconsin National Guard. He is a decorated veteran of the Vietnam War and has received numerous military awards for his service.

Knowles' dedication to the state and nation has not gone unnoticed. He has been honored with several awards and recognition, including the National Farmers Union's Frederick C. Koch Award, the Wisconsin Farm Bureau's Distinguished Service Award, and the Wisconsin Cattlemen's Association's Distinguished Service Award.

The Governor and First Lady were also at the event to present the award to Knowles. They expressed their gratitude for his contributions to the state and nation and wished him continued success in his future endeavors.
Wheat, Feed Grain

Producers have announced that growing interest in the wheat and feed grain market has resulted in a significant increase in the number of producers enrolling in the program. 

Chairman Gavin McKerrow expressed his satisfaction with the enrollment numbers and stated that the program is on track for a successful season.

The program will provide producers with a variety of services, including market analysis, risk management, and educational resources.

The 2nd Farm Estate Planning Session was held on Thursday at Rushfield.

Spring Grove School, located in Spring Grove, Minnesota, will be holding its annual meeting on May 15th. The meeting will include discussions on the school's financial status and future plans.

Czech Premier in Moscow for Talks

Czechoslovakia's Prime Minister will meet with Soviet leaders to discuss economic cooperation and trade relations.

German Officials Searching for Arab Guerrillas

German authorities are searching for a group of unidentified terrorists believed to be involved in recent attacks against German citizens.

The group is believed to be based in Libya and has been linked to previous attacks in Europe.

Electric Co-op Shows Increased Sales, Margins

Alaska, Wis. -- The electric cooperative in the state experienced a significant increase in sales and margins in 2021.

The cooperative's total sales for the year were $1.2 billion, an increase of 10 percent over the previous year.

Margins also improved, with net income increasing by 15 percent.

The cooperative attributed the growth to increased membership and rising energy prices.

Visit the Electric Co-op website for more information.

LeVander Hints Tax Hikes May Be Necessary

WASHINGTON (AP) - Gov. Ronald Reagan has hinted that further
changes in the state tax structure may be necessary to close a $2
billion budget gap.

"A few years back, we were running a $500 million surplus," LeVander said.
"I think it's time for us to start thinking about the budget gap.

Reagan said that the state's tax structure is too complex and
needs to be simplified. He also said that the state should consider
real estate taxes as a potential source of revenue.

LeVander said that the state's budget is in "acutely sensitive" condition.
He added that the state's economy is experiencing a "slowdown"
that could impact the state's finances.

Abortion Reform Bill Attacked as 'Permissive'

WASHINGTON (AP) - The bill to legalize abortion was described as
"permissive" by opponents of the measure.

"This bill is a step in the wrong direction," said Rep. John Smith.
"It opens the door to unrestricted abortion, and that is unacceptable."

Smith said that the bill, which would legalize abortion in cases of
rape, incest, and risk to the mother's life, would lead to the
degradation of the family.

"We cannot allow this bill to pass," said Smith. "It is an attack on
the values of our society."
The mother of the top man in middle age. "I think this is a very burdensome undertaking. Completely," Miss Nilsson said.

DURAND WON'T SETTLE FOR LESS

State Tourney Upcoming?

By CARL PETERSON
Daily News Sports Writer

DURAND, Wis. — This time, Durand High School plans to go all the way.

"We made it to the sectional last year, so we know what that's like. This year we aren't about to settle for anything less than a trip to the state tournament," stated coach Al Ormson as he watched his talented charges pose for pictures in the Panther gym Tuesday afternoon.

The Middle Border Conference, Durand District and Mondovi Regional champions will take a sparkling 21-1 record into Friday's La Crosse Logan Sectional semifinal game against unbeaten North Crawford at 7 p.m. in the Mary E. Sawyer Auditorium. Onalaska and Baraboo square off in the 8:30 p.m. second game. Friday's winners meet for the sectional title and a trip to the state at 8:30 p.m. Saturday following a consolation game.

Durand has not been to the state tournament since 1937. A team coached by Vaughn Hoffman, present superintendent of schools, came within one game of the state in 1961 before losing to Eau Claire Memorial and Ormson's team of a year ago reached the sectional where it lost to La Crosse Central 74-69 in the first game.

"I'm really not too sorry about that, although we don't really fear any team. There is, however, a certain psychological factor connected with playing a big school in its hometown," said Ormson.

Generally, the players are happier to be playing North Crawford. As loquacious Joe (Spit) Springer, 6-1 senior reserve forward and the team's M unofficial spokesman put it: H

"It probably doesn't make much difference who we play, because North Crawford is probably good, but they're more of our size and have played when the stakes were higher."

Because of North Crawford's propensity for deliberate play, senior Mike Krisik figures the (Continued on Pgge 5B)

Bemidji Becomes First Entry in State Tourney

The WCHA assured the Lakers that a spot in the 1969 NCAA Tournament depended on their 1972-73 season. The Lakers, who finished 12-20-3 in the regular season, were expected to win the WCHA title. The Lakers were scheduled to play their first-round game against the University of Minnesota-Duluth Bulldogs. The Bulldogs were the defending national champions.

Steve Bunker, the south paw reliever, and Dave Stone, the first baseman, led the Lakers' pitching staff. The Lakers were expected to have a good season and were considered one of the top teams in the WCHA. The Lakers were scheduled to play their first-round game against the University of Minnesota-Duluth Bulldogs. The Bulldogs were the defending national champions.
