Legislator Suggests Newsmen Be Registered

ST. PAUL — A bill to require newsmen in Minnesota to be registered was introduced Tuesday in the Minnesota Senate by Sen. Donald Giese of Little Falls, chairman of the committee on Investigation which is considering the measure before the all-lawyer legislature.

Giese said the bill is designed to protect the sources of information of the news media from time to time when they may be in need of protection in the same manner as are citizens, particularly public officials. He said he saw no reason why the news media should have to register and subscribe to a code of ethics.

The bill would give newsmen immunity for refusing to reveal their sources of information to the public. It would also give them the right to testify in court about their sources of information.
