No Reports of Protests Over Dubcek Coup

**PRAGUE (AP) —** Police announced there were no reports of protests over the ouster of Alex- 
dander Dubcek as first secretary of the Communist Party of Czechoslovakia. The coup, which took place on Monday, was reported by the Tass news agency.

The coup was reported to be as a result of economic reforms that were being proposed by Dubcek, who is known for his efforts to liberalize the economy.

The new First Secretary of the Communist Party is Gustav Husak, who has been serving as first secretary of the Party for a number of years.

The removal of Dubcek has sparked concerns about the future of the country, as he was known for his efforts to bring about a more democratic and free society.

Cliff Robertson had a hunch

NEW YORK — Now that Cliff Robertson the first newspaper move to make it big in an 80-minute drama is taking place.

D-Day

Two days after a radio story in Ohio, was shown as a film, the actor got into it more than he had ever been interested in before. He didn't want to lose his chance at the successful picture, and he didn't want to lose his chance at the money. He knew that the picture was going to be a success, and he knew that the money was going to be made.

DEAR ABBY: Beard Not Just
For the Hippies

BY ANGELA VAN BUREN

DEAR ABBY: Will you please say a few kind words to my 6-year-old, who feels so inferior, because everyone around him has
beards? His friends have howled at him and said he should
wash his face. I know he is already a good student; he
never talks back to his teacher, and he goes to sleep without having his bedtime story read to him. Do you
know of a way to help him feel better about himself?

KELLY

DEAR KELLY: Yes, there is a way to help your child.

First of all, let him know that it's okay to have a beard.

Second, let him know that the people who are making fun of him are insensitive.

Third, let him know that what matters most is how he feels about himself.

Fountain City Farmstead Suddenly Becomes Island

PIECY ISLAND, Wis. — A farmstead on a bend in the Mississippi River north of Lake City became a floating island yesterday.

Point and between the Sportsmen's Club and the lake in the park north of Lake City it was difficult to get a reading in the water, and engineers, Merlyn Brunkow, chief U.S. Army Engineers in Pepin held steady at 20.3 feet Wednesday night; 17.64 feet Tuesday night; and 17.63 feet this morning. Waves on Pepin were an unusual sight, with up to six inches of water being discharged over the river. The elevation of the water was 600.5 feet, a rise of 0.05 feet since yesterday. The water was practically clear.

"It looks like the river is going to go up to 655.9," said the lockmaster at White Rock Lock & Dam 5 today. "It was rising very slowly."

He said that since 4 a.m. today, and as of 5:02 p.m. today, there were four feet of water over the top of the lock wall at the Massachusetts Avenue dam this morning. Men are pumping around the shop and control station, transformer vault, and the basement of the Lockmaster's cottage, which is being used as an observation center.

"Winds Kick Up Waves on Pepin"

LAKE CITY, Minn. — Lake Pepin fell steady at 35.3 feet all day Thursday and overnight, but was reported at this level in the U.S. Corps of Engineers at C就不, Minnesota. Lake Pepin was considered for "water-bound" because of the high winds, and was closed to public use.

He said the lake was so rough that the lake police were unable to get a reading in the water, and one is completely water-bound since Saturday. The winds were so high that the lake police were unable to blow a whistle to a neighbor.

"Lockmasters Say River Near Peak"

WINONA, Minn. — The Mississippi River near Winona was expected to crest there Sunday afternoon, based on the elevation of the river at Wally's Supper Club.

The lockmaster said the water would go up to 665.9, said the lockmaster at Winona Lock 4 today. He added that nothing was going on and that they were keeping an eye on the river whiskey and the water levels. He said that the water was close to the top of the dam, and the water levels were close to the outside of the dam.

"Wabasha Gets Crest, But Fight Not Over"

WAUSAH, Wis. — The crest of the Wabasha flood, which was expected to occur at the forecasted Wabasha crest of 39 feet above mean sea level, was not far from that forecast.

The Wabasha crest was of the order of 36 feet above mean sea level, according to the U.S. Army Engineers, and the crest was reached at 3 p.m. today. The lockmaster said the crest was reached at 3 p.m. today, and the water levels were close to the outside of the dam.
