Egypt: Israel has closed door to peace

By THE ASSOCIATED PRESS

Egypt said Israel's refusal to give up control of the West Bank and East Jerusalem closes the door to peace talks between the two countries. But Egyptian President Anwar Sadat said he would continue to press for a solution to the Israeli-Palestinian conflict.

Sadat, who visited Israel earlier this year, said the gap between the two sides was too wide to be bridged. He also warned that any talks would be difficult because Israel had not made any concessions.

Sadat also said he would continue to negotiate with the United States on economic and security issues, despite Israel's refusal to participate in peace talks.

**British soldier burned to death in Londonderry violence**

BELFAST, Northern Ireland (AP) — A British soldier was burned to death early today when explosions were set off elsewhere in the British province.

The soldier was killed in a burning vehicle. One died before reaching a hospital; the other was not injured seriously. The violence stemmed originally from a Roman Catholic crusade to end British rule of Northern Ireland and unite it with the Catholic Irish Republic.

**Protestant-Catholic rioting had happened together. There were six Protestant counties of Northern Ireland and unite**

**A penny saved is ... a little piece of good luck.**

Pennies seem rather insignificant in today's economy. But when you get a real pile of them, you're on the way to fulfilling your own "pot of gold".

It's just good sense. You don't have to pinch pennies in order to get ahead. You just have to put some in the bank regularly. With the added earnings they generate in the bank, they'll soon be growing ... and your luck will grow with them. Start saving now. Here.
Storm reminds that we're only human

New that the big weekend maneuver is all over and everyone's about back to normal, it's time to count the experiences after all.

That's what I did for many of us, perhaps is a product of a changed climate. For a long time, this had lost its meaning tied up to a very large portion of the population that time has been lived, but it's not the peak of the element it indeed looks.

For some time now we have been in the process of a major re evaluation, again the season, except in some areas where we come across with unique occasions. Some private postal firms already have appeared in the national service are likely to show up in the future.

It doesn't look bad at all to many mailers and shippers who, at the very start, it strikes one that maybe it wasn't a totally bad experience after all. For a few hours, the forces of nature completely blast of remotely-controlled air conditioning. The environment, except in those instances where we come together and the automobiles are little environmental capsules, homes,'offices, stores and recreational edifices. Even the airmail letters in a test group took longer to arrive than a like group of first-class letters mailed in 1962.

The proponents argue that this is rather typical of Mexico. "Things always seem to be coming out of the country," one is just out of the question. Though. Robert hempley tells in his book "Selling the Mexican market," "They don't complain about this. It's not a disaster. It's a lesson. The people who have to work will have to work, but he is going to work at a lower rate and just let the lines be erected. It doesn't mean anything."

"They want it this way. It's better to have it now we can cut it, but he is going to work at a lower rate and just let the lines be erected. It doesn't mean anything."

DON'T BELIEVE ANYTHING HE TELLS YOU THAT ALL THE GIRLS.

 viewers can correct bad TV programming

"The answer isn't simple. If the public is not satisfied, it is not going to buy every product advertised on TV or at least not with the exuberance that the program, the advertisement itself, is the thing that the market is going to buy."

It is an awareness of all these considerations that is changing the atmosphere of this city.

"How about it?" - P.A. Jacks

"If the public is not satisfied, it is not going to buy every product advertised on TV or at least not with the exuberance that the program, the advertisement itself, is the thing that the market is going to buy."
**Divided power appealing**

**Harris Survey**

As the 90th Congress and the President began to square off in what proved to be a series of embarrassing defeats, the president's job rating sank to a new low. By the time the new Congress is sworn in, the people are said to have given the 90th Congress a 45-35 percent margin. However, significantly, Congress received its highest marks for its measures it did or did not take action on, the House and Senate rating with moderate confidence in the job the previous Congress did.

It doesn't take guts to be in the service of this country, but it takes guts to condemn it. This is an indictment of Congress as a whole, and of those who hold they're positions. The record of the previous Congress is a disheartening one. It is a sobering thought that this Congress, elected by the same people with the same powers, is likely to be no better.

How ridiculous—a seatless gym

I have attended several Winston lightmen basketball games this year. All of the games have been a "standing room only" game. The court is poorly maintained, as is the seating, so I've been told, and now I've heard the good news that the gym is going to be torn down. The gym is an antique and a source of embarrassment to the school and community. The only bad news is that the new gym will be larger. Why not just tear down the old gym and build a new one?

**To Negroes who seek more jobs in high finance**

It takes guts to condemn those who won freedoms

Raging over the opinion of John Bogle which appeared in your recent issue of the newspaper, I was moved to write this letter. Why blame the military for their presence in Vietnam? They are not merely serving out the sentence of our earlier generation, they are performing the task for which they are trained. The United States has a long and significant record of involvement in international affairs, and the military service is a logical and necessary part of that involvement.

If you are getting a hearing aid, you owe it to yourself to have a complete battery test. The battery is the heart of the hearing instrument. A poor battery means nothing but disappointment and a waste of money. If you are not getting a hearing aid, we recommend that you have your battery checked before you buy. It is better to get a good battery at a low price, rather than a bad battery for anything at all.

Dear Abby:

Common sense is best solution to problem

DEAR ABBY: Our daughter married a man last spring and was divorced last December. Her husband has taken a job in another state and they have not been together for months. She is very depressed.

Our problem: She wants to start living with a new man but her husband does not. She wants to have a baby but her husband does not. She is very unhappy at the moment.

Many of her relatives are suggesting that she go to counseling or some kind of help. She has tried that. She believes that she needs a baby but her husband does not. She has been to several doctors but they say she is not ready.

Please advise what I should do. I am at a loss. My daughter has been very depressed and I want to help her. I am the mother of three daughters. She is my only son.

Sincerely yours,

CARTER CARE AND NEWS...  
Before you buy a coat, and not everything is a coat, you know. How do you test its quality? Here are some tips for buying a good coat.  

1. **Before you buy:** Look closely at the material. Does it look and feel like it will last?  

2. **After you buy:** Follow the care instructions. Wash it according to the manufacturer's recommendations.  

3. **Keep it:** Store your coats properly to extend their life. Use a coat hanger or a flat surface to hang them.  

4. **Donate it:** If you no longer wear it, consider donating it to a charity or a second-hand store.

H-ranch with bonus behind garage

By ANDY LANG

How does one find the perfect home? There are many homes that match the description of a "H-ranch," but finding one that fits the specific needs of a buyer can be challenging. A H-ranch is a type of house that has a front garage and a back addition, often with a bonus room or second living space.

The home described in the article has a bonus room behind the two-car garage. This area provides additional space, which can be used for a variety of purposes, such as a home office, guest room, or entertainment area. The bonus room is accessible from the garage, making it convenient for those who need extra space.

The home's design includes a mix of exterior materials, such as brick and stone, and features diamond-paned windows. These features add character and charm to the home, creating a welcoming and inviting atmosphere.

The home also offers a degree of privacy, with bunk beds and children's play areas that can be closed off from the rest of the house. This is ideal for families with young children, as it allows them to have their own space while still being close to the rest of the family.

In addition to the bonus room and the mix of exterior materials, the home also includes a mix of interior features. For example, the home has a mix of interior design elements, such as a mix of flooring and wall coverings, which add to the overall aesthetic of the home.

Overall, the home described in the article offers a mix of features that appeal to a variety of buyers. Whether you're looking for a family-friendly home with a bonus room or a home with a mix of exterior and interior design elements, this H-ranch has something to offer.
Autobiography called 'history at its best' by Alfred Hayes

"I grew up in West Bend, a small Wisconsin town, and the people there were very friendly," says the author, who has lived in the area all his life. "I was born in 1910, and my family owned a farm near the town."

Hayes' book, "A Gentleman's Guide to the Good Life," is a collection of his stories about growing up in the 1920s and 1930s, and his adventures as a young man. It includes tales of his parents' farming experiences, his own school days, and his early work in the family business.

The book is a nostalgic look at a simpler time in America's history. Hayes' writing is clear and concise, and his stories are engaging and entertaining. "I tried to capture the essence of the times," he says. "I wanted to give readers a glimpse of what it was like to grow up in the 1920s and 1930s."
Nicklaus wins PGA, turns attention to 'slam

By HERBERT MULFARD

**CHICAGO**—Jack Nicklaus, 26-year-old pro golfer, made a convenient hole-in-one Saturday on the par-3 17th hole to win the $100,000 PGA Championship at Medinah Country Club.

The 17th's heroic 102-yard hole is the shortest on Medinah's Jewel course. It is Nicklaus' first PGA victory.

Nicklaus shot a four-day total of 287 to win by three strokes over four-time champion Arnold Palmer.

Palmer, who shot a 69, is second at 290, with Dave Stockton third at 291.

Nicklaus birdied the hole on the 33rd hole, and then parred four of the last five holes to win.

State wrestling meet opens Thursday

MISSOURI (AP) — Better than 200 high schools are expected to send 2000 wrestlers to state wrestling competition beginning Thursday.

Missouri's high school wrestling season opened three weeks ago, and in the past three weeks the state's 116 high schools have competed in rounds of regional meets to advance to the state meet.

Mark Lapschies, defending state champion at 138 pounds, turned in a dominating performance in the regional meet at Leavenworth, winning by a score of 10-0 over Galaxy's Paul Scott. Lapschies has a record of 19-1 this season and was named the state's outstanding wrestler.

Lapschies will be one of the favorites in the state meet, which will be held at Joplin. Lapschies is confident of his chances to win a fourth consecutive state championship.

The state wrestling meet is scheduled for Thursday through Saturday at Joplin. The top four finishers in each weight class will qualify for the state meet.
